Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many people with a learning disability have been referred for further treatment as a result of an annual health check in the latest period for which figures are available [290203]

(2) how many practising GPs have *(a)* had training and *(b)* been accredited to provide health checks to people with a learning disability. [290206]

Ann Keen: This information is held at local level and is not available centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what steps he plans to take to *(a)* monitor and *(b)* evaluate the effect of direct enhanced service annual health checks on people with a learning disability; [290204]

(2) how many people with a learning disability have had a health check in the last 12 months. [290205]

Phil Hope: We have commissioned an extraction of data from a sample of general practitioner (GP) practice clinical systems. This information will be used to inform the continued commissioning of this Directed Enhanced Service through the GP contract arrangements.

We will also collect information to support a newly agreed Vital Sign indicator on the number of health checks completed in 2008-09. This will begin in October. This exercise will be repeated in May 2010 to collect retrospective information on the number of checks completed in 2009-10.

Liver Diseases

Mr. Vara: To ask the Secretary of State for Health (1) how many patients were admitted to each hospital in the East of England as a consequence of *(a)* alcoholic liver disease and *(b)* cirrhosis of the liver in each of the last 10 years; [291482]

(2) how many patients were admitted to hospital as a consequence of *(a)* alcoholic liver disease and *(b)* cirrhosis of the liver in each of the last 10 years. [291483]

Gillian Merron: Data on the number of patients admitted for alcoholic liver disease and cirrhosis of the liver for the last 10 years to each hospital in the East of England are not available. However, the following tables provide the number of admissions to hospital for alcoholic liver disease and cirrhosis of the liver for the last 10 years in England and for each hospital provider for the East of England strategic health authority.

When considering this data, it is important to note the following:

that data for 2008-09 is provisional;

to protect patient confidentiality, figures between 1 and 5 have been suppressed and replaced with "*" (an asterisk) and where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) has been also been suppressed;

that admissions do not represent the number of in-patients, as a person may have more than one admission within the year; and

K70, the ICD-10 code for alcoholic liver disease, was used to identify admissions due to alcoholic liver disease, while K70.3, K71.7, K74.3-K74.6 and A52.7 with K77.0 were the ICD-10 codes used to identify admissions due to cirrhosis of the liver.

Table 1: Number of finished admission episodes for alcoholic liver disease and cirrhosis of the liver for 1999-2000 to 2008-09 for each hospital provider for the East of England strategic health authority has been placed in the Library.

Table 2: Number of finished admission episodes for alcoholic liver disease and cirrhosis of the liver in England for 1999-2000 to 2008-09

	Admission for alcoholic liver disease	*Admission for cirrhosis of the liver*
2008-09[1]	14,239	8,773
2007-08	14,461	8,549
2006-07	14,668	8,511
2005-06	13,930	7,834
2004-05	13,201	6,979
2003-04	12,336	6,482
2002-03	11,560	6,056
2001-02	10,802	5,859
2000-01	10,311	5,655

Table 2: Number of finished admission episodes for alcoholic liver disease and cirrhosis of the liver in England for 1999-2000 to 2008-09

	Admission for alcoholic liver disease	*Admission for cirrhosis of the liver*
1999-2000	10,098	5,716

[1] Provisional data.

Notes:

1. *Finished admission episodes:*

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. *Primary diagnosis:*

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital.

3. *Provisional data:*

The 2008-09 data is provisional and may be incomplete or contain errors for which no adjustments have yet been made. Counts produced from provisional data are likely to be lower than those generated for the same period in the final dataset. This shortfall will be most pronounced in the final month of the latest period i.e. November from the (month 9) April to November extract. It is also probable that clinical data are not complete, which may in particular affect the last two months of any given period. There may also be a variety of errors due to coding inconsistencies that have not yet been investigated and corrected.

4. *Secondary diagnosis:*

As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2006-07 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

5. *Data quality:*

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

6. *Assessing growth through time:*

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Hospital Episode Statistics (HES), the NHS Information Centre for health and social care.

Maternity Services

Miss McIntosh: To ask the Secretary of State for Health how much was spent on NHS maternity services in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [291713]

Phil Hope: Information is not collected in the format requested. In the following table we show information on maternity expenditure by the primary care trusts (PCT) that cover the York and North Yorkshire area. In 2006-07, the Selby and York, Hambleton and Richmond, Craven, Harrowgate and Rural District, Scarborough, Whitby and Ryedale PCTs amalgamated to form the North Yorkshire and York PCT.

Purchase of secondary health care—maternity services 2004-05 to 2007-08

	2004-05	*2005-06*	*2006-07*	*£000* *2007-08*
North Yorkshire and York PCT	—	—	22,434	27,100
Selby and York PCT	5,228	5,562	—	—
Hambleton and Richmond PCT	3,241	3,195	—	—
Craven, Harrowgate and Rural District PCT	6,126	6,167	—	—
Scarborough, Whitby and Ryedale PCT	1,341	1,450	—	—
Total	15,936	16,374	22,434	27,100
England	1,544,838	1,677,204	1,616,777	1,786,896

Note:

Where possible any inter PCT expenditure is eliminated to avoid double counting in the England figures.

Source:

Primary care trust audited summarisation schedules

Miss McIntosh: To ask the Secretary of State for Health how many times hospitals in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England closed maternity units to expectant mothers in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [291796]

Phil Hope: Information is not collected centrally on the number of maternity unit closures.

Patients from the Vale of York and North Yorkshire access obstetric care at the Friarage hospital, but there are also women who receive their obstetric care from the James Cook University hospital in Middlesbrough. There has been one occasion when maternity services have closed for a significant amount of time. This is the closure of the Friarage hospital between the 17 July 2009 and the 26 October 2009.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Health when he plans to reply to the letter of 15 June 2009 from the right hon. Member for Manchester, Gorton on Mr A I Ul Haq. [290234]

Phil Hope: A reply was sent to Sir Gerald Kaufman, the right hon. Member for Manchester, Gorton on 27 July 2009.

Mental Health Services

Lynne Jones: To ask the Secretary of State for Health (1) what systems are in place to address non-adherence to treatment or medication amongst mental health service users; and what information his Department holds on the number of mental health services where these systems are applied; [290318]

(2) how many serious untoward incidents where treatment or medication adherence was a contributing factor there have been in the last 12 months. [290319]

Phil Hope: The information requested about serious untoward incidents and treatment or medication adherence is not held centrally.

There are no national systems in place that are specific to addressing non-adherence to treatment or medication. However, non-adherence is a key issue in mental health risk assessment and as such should, where appropriate, form part of a service user's care plan. The introduction of supervised community treatment helps to ensure that service users get the right treatment at the right time and will help with adherence.

This represents a 52 per cent. decrease between the first quarter of 2006 and the first quarter of 2009.

Norman Lamb: To ask the Secretary of State for Health what data his Department collects on the availability of low, medium and high secure beds in the independent sector; and if he will make a statement. [290244]

Phil Hope: There are no high secure beds in the independent sector. High secure services can only be provided under licence by the Secretary of State, and such licences can only be granted to national health service trusts approved for this purpose.

Information is not collected centrally on the availability of low and medium secure beds in the independent sector.

Mental Health Services: Hertfordshire

Mike Penning: To ask the Secretary of State for Health how much funding his Department has allocated for provision of mental health services in west Hertfordshire for 2009-10. [289409]

Phil Hope: Funding is allocated to primary care trusts and they are responsible for commissioning services, including mental health services to meet the needs of the communities that they serve.

Mike Penning: To ask the Secretary of State for Health at what locations in Hertfordshire severely mentally impaired children may be treated; and what choice parents have about the location at which treatment is provided. [289411]

Phil Hope: It is for primary care trusts to commission services in order to ensure that Child and Adolescent Mental Health Services (CAMHS) services are available to the children and young people for which they are responsible, taking into account the needs and wishes of the patients and their carers.

The Department provided £2.5 million capital funding to enable Hertfordshire Partnership NHS Foundation Trust to recently refurbish a facility for children and young people being treated for mental health problems, specifically designed to eliminate the inappropriate use of adult psychiatric wards by children and young people.

The East of England Strategic Health Authority has advised that on 17 September 2009 the £7 million redevelopment of Hertfordshire Primary Care Trust was officially re-opened. This newly expanded and upgraded unit will accommodate 16 young people (up to the age of 18); with several of the beds earmarked for young people with eating disorders. This extra capacity means the trust will be able to care for the most vulnerable young people who need in-patient care within the county, and in easy reach of their families.

Mental Health Services: Prisons

Anne Milton: To ask the Secretary of State for Health what steps he has taken to implement each of the recommendations of Lord Bradley's review of people with mental health problems or learning disabilities in the criminal justice system which were accepted by his Department. [290010]

Phil Hope: Lord Bradley made 82 recommendations, many of which Lord Bradley himself recognised needed further work to ensure that all implications are considered for children, young people and adults. The Government have accepted all recommendations and the direction set out in the report and has committed to publish a cross-departmental Health and Criminal Justice Strategic Delivery Plan by the end of October 2009.

A Health and Criminal Justice National Programme Board has been fully operational since June 2009 bringing together senior officials in the key departments (Department of Health, Ministry of Justice, Home Office, Department for Children, Schools and Families). The Programme Board has been meeting monthly to pull together the national delivery plan and ensure appropriate cross-government representation and engagement as actions are being developed.

The Delivery Plan will set out our shared vision for improving health and social care services for all those in touch with the criminal justice system and the newly established Health and Criminal Justice Programme Board are working hard to ensure that all the Bradley recommendations are fully incorporated into this cross-government plan.

Anne Milton: To ask the Secretary of State for Health what estimate he has made of the number of prisoners with acute, severe mental illnesses who have waited more than 14 days for transfer to an appropriate health-care setting in each of the last five years; and if he will make a statement. [290012]

Phil Hope: National data on prison transfers for the current 12-week waiting standard are collected on a quarterly basis with transfer rates compared against a 2005-06 baseline. The data indicate a downward trend in prisoners waiting in excess of 12-weeks for transfers; since 2005-06, these numbers have reduced by 33 per cent.

Prisoners waiting longer than 12 weeks for mental health transfer

Date	*Number of prisoners*
April—June 2005	62
September 2005	58
October—December 2005	40
January—March 2006	43
April—June 2006	44
July—September 2006	43
October—December 2006	38
January—March 2007	44
April—June 2007	46
July—September 2007	51
October—December 2007	41
January—March 2008	24
April—June 2008	36
July—September 2008	34

Prisoners waiting longer than 12 weeks for mental health transfer

Date	*Number of prisoners*
October—December 2008	26
January—March 2009	40
April—June 2009	27

Norman Lamb: To ask the Secretary of State for Health (1) what the membership is of the national programme board responsible for developing a national approach to mental health and learning disability services for offenders; [290192]

(2) whether the Government have accepted in full the recommendation to establish a national advisory group, made in Lord Bradley's review of people with mental health problems or learning disabilities in the criminal justice system. [290325]

Phil Hope: The membership of the national health and criminal justice programme board is as follows:

Name	*Organisation*
David Behan	Department of Health
Anita Barucha	HM Courts Service
Andrew Campbell	Department for Communities and Local Government
Gary Cann	Association of Chief Police Officers
Helen Edwards	Ministry of Justice
Anne Jackson	Department for Children, Schools and Families
David Lamberti	HM Treasury
Peter Lewis	Crown Prosecution Service
Peter Makeham	Home Office
Ian Cumming	West Midlands Strategic Health Authority
Harvey Redgrave	Prime Minister's Strategy Unit
Phil Wheatley	National Offender Management Service
Naomi Eisenstadt	Social Exclusion Unit
Paul Williams	NHS Wales
To be confirmed	Chair, Advisory Group

The Government have fully accepted Lord Bradley's recommendation that a national advisory group be established to support Ministers and the health and criminal justice programme board in their development of this agenda. The cross-departmental national health and criminal justice programme board has been fully operational since June 2009 and alongside officials, has been developing arrangements for the set up of the national advisory group. The membership of the national advisory group is currently being agreed by Ministers and will be confirmed shortly.

Norman Lamb: To ask the Secretary of State for Health what steps he has taken since the publication of Lord Bradley's review of people with mental health problems or learning disabilities in the criminal justice system to increase the rate of transfer of prisoners with severe mental illnesses from prison to secure hospital settings; and if he will make a statement. [290243]

Phil Hope: The Government recognise the importance of ensuring that prisoners with severe mental illness who require treatment in hospital have timely access to that treatment. The Government's response of 30 April 2009 to Lord Bradley's Report accepted in principle the direction in respect of 14-day prison transfers.

The Government are considering the feasibility of introducing a 14-day transfer standard. A specific project to address prison transfers has been established, this is focusing on the provision of guidance and support to the national health service and criminal justice system to ensure transfers happen both smoothly and as quickly as possible. The Government will make a further report to Parliament in the autumn.

Mental Health Services: Young People

Norman Lamb: To ask the Secretary of State for Health how many bed days were recorded for patients aged *(a)* 16 and *(b)* 17 years on adult psychiatric wards in each quarter of the last three years. [291934]

Phil Hope: It is not possible to disaggregate the figures for 16 and 17-year-olds but the following table gives the number of 16 to 17-year olds in England who were treated on adult psychiatric wards in each quarter for the past three years.

	Quarter	*Bed days—16/17s on psychiatric adult ward*
2006-07	1	4,697
	2	4,780
	3	4,679
	4	4,511
2007-08	1	3,954
	2	3,893
	3	4,255
	4	4,926
2008-09	1	4,019
	2	3,713
	3	2,854
	4	3,101
2009-10	1	2,260

This represents a 52 per cent. decrease between the first quarter of 2006 and the first quarter of 2009.

Mental Health: Prisoners

Anne Milton: To ask the Secretary of State for Health what estimate he has made of the number of prisoners diagnosed with serious mental illnesses since July 2000; and if he will make a statement. [290011]

Phil Hope: Although there are no officially recognised data on prisoners with severe mental illness, we are aware that there is a significant number of people in custody suffering from serious mental illness. A review of mental health in reach teams for the National Institute for Health Research in 2008 suggested that around 23 per cent., of the prison population suffer from severe mental illness.

The Government will be publishing its response to Lord Bradley's review of people with mental health problems and learning disabilities in the criminal justice system in the autumn as part of a wider ranging offender health strategic delivery plan. This response will include the Government's plans for improving mental health care for prisoners.

Methadone: Prisoners

Mr. Wallace: To ask the Secretary of State for Health if he will make it his policy to suspend methadone prescriptions for prisoners in prisons where the drug rehabilitation programme is based on abstinence. [291958]

Phil Hope: No. In line with the National Treatment Agency guidance, when matching treatment to individual need, both treatment (such as methadone prescription) and drug rehabilitation programmes might be appropriate depending on the needs of the individual at a given time and it would not be appropriate therefore to exclude one form of treatment at the expense of another.

Mr. Wallace: To ask the Secretary of State for Health what consultations took place on the introduction of methadone prescriptions for prisoners. [291959]

Phil Hope: Since at least 1995 methadone has been recommended as one of a number of possible treatments for the management of drug dependence in prison.

The current clinical guidelines are "Clinical Management of Drug Dependence in the Adult Prison Setting" which was published in December 2006, a copy of which has been placed in the Library. The document aimed to address the current challenges facing the care and treatment of substance misusers in prisons including: the need to provide clinical interventions that harmonise with practice in community and other criminal justice settings, meet the individual's need and address the vulnerability of drug-using prisoners to suicide and self-harm in prison, and to death upon release from custody due to accidental opiate overdose.

The document was developed in consultation with key Government Departments, professional organisations, commissioning organisations and service providers including:

HM Prison Service;
Department of Health;
Home Office;
National Treatment Agency;
National Addiction Centre;
National Offender Management Service Drug Strategy Unit;
Prison Officers Association;
Royal College of Psychiatrists; and
Royal College of General Practitioners.

The 2007 "Drug Misuse and Dependence: UK guidelines on clinical management" a copy of which has already been placed in the Library, contains specific information on the clinical management of drug dependence in prisons as a specific setting and is in line with the National Institute for Health and Clinical Excellence (NICE) guidelines "Drug misuse: psychosocial interventions" (NICE clinical guideline 51) and "Drug misuse: opioid detoxification" (NICE clinical guideline 52).

Midwives: Manpower

Miss McIntosh: To ask the Secretary of State for Health how many midwives were employed in the National Health Service in *(a)* the Vale of York, *(b)* North Yorkshire and *(c)* England in (i) 2005, (ii) 2006, (iii) 2007 and (iv) 2008. [291794]

Phil Hope: The numbers of midwives employed in the national health service in York Hospitals NHS Trust, North Yorkshire Primary Care Trusts and NHS Trusts, and England in 2005-2008 are shown in the following table:

NHS hospital and community health services: Midwives in England, Yorkshire and the Humber Strategic Health Authority and North Yorkshire Primary Care Trusts and NHS Trusts

	Headcount as at 30 September each specified year			
	2005	*2006*	*2007*	*2008*
England	24,808	24,469	25,093	25,664
Yorkshire and the Humber Strategic Health Authority	2,539	2,445	2,449	2,472
Harrogate and District NHS Foundation Trust	62	65	70	71
Scarborough and North East Yorkshire Health Care NHS Trust	74	76	75	71
Scarborough, Whitby and Ryedale PCT	1	—	—	—
York Hospitals NHS Trust	129	125	131	130

Source:
The NHS Information Centre for health and social care Non-Medical Workforce census.

MMR Vaccine

Mrs. Maria Miller: To ask the Secretary of State for Health how many and what proportion of children under the age of five years received two doses of MMR vaccine in each quarter of the last 10 years. [289314]

Gillian Merron: The Health Protection Agency collect and publish quarterly provisional data on the proportion of the population who are vaccinated at five years of age with a second dose of measles, mumps and rubella (MMR).

Percentage of five year olds (England) who have received two doses of MMR

	Quarter 1	*Quarter 2*	*Quarter 3*	*Quarter 4*
1999-2000	77.5	77.1	75.6	75.7
2000-01	74.5	73.9	74.7	75.5
2001-02	73.8	73.0	73.6	73.8
2002-03	74.3	74.4	73.7	73.9
2003-04	75.0	75.1	75.6	75.1
2004-05	74.4	73.5	72.9	73.9
2005-06[1]	74.5	n/a	n/a	n/a
2006-07[1]	n/a	72.9	73.0	73.2
2007-08	73.5	73.1	72.8	74.3
2008-09	75.2	76.3	77.4	80.0

[1] 2005-06—last three quarters and 2006-07 first quarter—national data not estimated due to missing data for 10 of the 31 London primary care trusts (PCTs) due to problems relating to the implementation of new child health IT system. Coverage estimates are always significantly lower in London compared to all other regions in England therefore to calculate an England estimate without these PCTs would have given a spurious increase in coverage.

Muscular Dystrophy

Mr. David Anderson: To ask the Secretary of State for Health if he will include in the forthcoming Health White Paper proposals for ring-fenced funding for

Duchenne muscular dystrophy research and clinical trials. [291768]

Gillian Merron: There are no plans to change the usual practice of the Department's National Institute for Health Research and of the Medical Research Council, not to ring-fence funds for expenditure on particular topics: research proposals in all areas compete for the funding available. Future levels of expenditure on Duchenne muscular dystrophy research will be determined by the success of relevant bids for funding.

Muscular Dystrophy: Continuing Care

Mr. David Anderson: To ask the Secretary of State for Health what plans he has for the provision of continuing care for people with *(a)* Duchenne muscular dystrophy and *(b)* other single-gene disorders. [291767]

Phil Hope: A revised "National Framework for NHS Continuing Healthcare and NHS-funded Nursing Care" was published in August 2009. This framework covers those with Duchenne's muscular dystrophy and other single-gene disorders as the eligibility criteria for continuing care is not disease specific. A copy of the framework has been placed in the Library.

National School for Social Care Research

Mr. Stephen O'Brien: To ask the Secretary of State for Health what research the National School for Social Care Research has *(a)* undertaken and *(b)* published since its establishment; and what research projects are ongoing at that school. [290391]

Gillian Merron: The National Institute of Health Research's School for Social Care Research became operational on 1 April 2009 and published its first call for research proposals in July. The school has begun a small number of preliminary studies, but none has reached the publication stage.

More information about the school and its research activities can be found on-line at:

www.lse.ac.uk/collections/NIHRSSCR/.

NHS Litigation Authority

Mr. Garnier: To ask the Secretary of State for Health what the largest *(a)* absolute and *(b)* percentage reduction in costs to the public purse was following successful taxation of claimant costs in cases involving the NHS Litigation Authority in each of the last five years; and which solicitor's firm was involved in each case. [289838]

Phil Hope: The information requested can only be provided at disproportionate cost, as it would involve the NHS Litigation Authority working through each and every claim received within the five-year period.

NHS: Complaints

David Taylor: To ask the Secretary of State for Health how much funding his Department has provided to the Carers Federation to administer the Independent Complaints Advocacy Service in the East Midlands in each year since the service was launched in September 2003. [292390]

Phil Hope: The Department's current contract with The Carers Federation started in April 2006. A yearly breakdown of funding from the Department to the Carers Federation to administer the independent complaints advocacy service in the East Midlands from September 2003 is as follows:

Financial year	*Amount paid (£)*
2003-04	353,470
2004-05	836,478
2005-06	771,404
2006-07	1,117,657
2007-08	1,073,847
2008-09	1,102,167

NHS: Correspondence

Jim Dowd: To ask the Secretary of State for Health what recent estimate he has made of the annual cost to NHS hospitals of complying with his Department's copying letters policy; and what proportion of NHS patients chose to opt out of the policy. [290091]

Phil Hope: The Department does not collect information on the annual cost of copying letters to patients or on the numbers of patients that choose to opt out of receiving copies of their letters.

NHS: Cost Effectiveness

Norman Lamb: To ask the Secretary of State for Health if he will place in the Library a copy of the report commissioned by his Department from McKinsey and Co. on NHS efficiency savings. [292108]

Mr. Mike O'Brien: The report McKinsey provided on how to deliver efficiency savings in the national health service was commissioned by officials in February 2009. Neither the Prime Minister or Ministers were informed of the commission or sighted on the advice. Ministers were informed following initial media inquires in September 2009. Ministers rejected the main proposals in the report. The information has been commissioned for internal NHS management consideration and is not intended for publication. It is therefore not appropriate for a copy of the report to be placed in the Library.

NHS: Costs

Peter Bottomley: To ask the Secretary of State for Health on what dates *(a)* he and *(b)* the Prime Minister were first informed of the commissioning by his Department of the study by McKinsey and Company into NHS costs, staffing and services; and when he plans to publish (i) the terms of reference of the study and (ii) its (A) interim and (B) final reports. [291490]

Mr. Mike O'Brien: The information McKinsey provided on national health service productivity was commissioned by officials in February. Neither my right hon. Friend the Prime Minister, the Secretary of State for Health or his predecessor were informed of the commission or sighted on the advice. Ministers were informed following initial media inquiries in September. Ministers rejected the main proposal in the report. The information had been commissioned for internal NHS management consideration and is not intended for publication.

NHS: Crimes of Violence

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 15 July 2009, *Official Report*, column 532W, on health visitors: crimes of violence, what figures his Department holds on incidents of harassment, bullying or abuse of *(a)* heath visitors and *(b)* other national health service staff by (i) patients and service users and (ii) managers. [291451]

Phil Hope: Information on the number of incidents of bullying, harassment or abuse against national health service staff is not collected centrally. This could be collected only at disproportionate cost. However, the 2008 survey of national health service staff undertaken by the Healthcare Commission provided information on staff views about working in the national health service, including experience of harassment, bullying or abuse. The relevant findings are presented in the following table.

	Percentage staff experiencing harassment, bullying or abuse from patients/relatives in last 12 months	*Percentage staff experiencing harassment, bullying or abuse from staff in last 12 months*
All Health Visitors	19	19

NHS: Drugs

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 15 July 2009, *Official Report*, column 524W, on risk assessment of automatic generic drug substitution, what plans he has to undertake *(a)* a full risk benefit analysis and *(b)* other impact assessment evaluation in respect of each specific proposal; and if he will make a statement. [290156]

Mr. Touhig: To ask the Secretary of State for Health (1) when he expects his Department to publish proposals for the implementation of generic substitution; [291537]

(2) when he plans to launch his consultation on the implementation of generic substitution. [291538]

Mr. Mike O'Brien: The Department is currently refining its proposals for the implementation of generic substitution and plans to formally consult in the autumn. An impact assessment will be published alongside the consultation document.

Mr. Lansley: To ask the Secretary of State for Health what recent assessment he has made of the effects on levels of availability of pharmaceuticals in the UK of increases in exports of such pharmaceuticals consequent on the value of sterling. [291782]

Mr. Mike O'Brien: We have had reports from pharmaceutical manufacturers, wholesalers and pharmacy contractors of problems with the supply of medicines attributed to increased exports of medicines with the decline in value of the sterling. The Department is watching the situation with care.

NHS: Finance

Chris Huhne: To ask the Secretary of State for Health what estimate he has made of the savings which have accrued to the NHS arising from the introduction of NHS charging for those refused asylum in the UK in each year since 2004. [291808]

Phil Hope: Although total income received from chargeable overseas patients is recorded, national health service trusts do not routinely record the immigration status of patients that are treated either free or on a chargeable basis. Hence, no estimate is available of the savings accrued to the NHS from charging those refused asylum in the United Kingdom.

NHS: Negligence

Mr. Lansley: To ask the Secretary of State for Health how many claims were made under the Clinical Negligence Scheme for Trusts in each financial year since 1997-98 for which figures are available; what the combined monetary value of such claims was in each year; and what proportion of such claims *(a)* were for the recovery of the claimant's legal and other costs and *(b)* related to each clinical area in each year. [291501]

Phil Hope: The information requested was provided by the NHS Litigation Authority and a copy has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health what the highest ratio of claimant costs to legal costs in cases involving the NHS litigation authority in respect of which legal proceedings have been completed was in each of the last five years; and how much was spent on *(a)* claimant costs and *(b)* damages in total in relation to such cases in which claimant costs exceeded damages in each of those years. [291711]

Phil Hope: The NHS Litigation Authority does not record data specifically on legal costs, but records global costs paid by defendants and claimants, which will include legal costs, medical expert witnesses and other disbursements. To provide data specifically on legal costs would be at disproportionate cost.

The NHS Litigation Authority has provided data in the following tables that cover overall claimant costs and damages as an alternative to the information requested.

Table 1: Top highest claimant costs to damages ratio for clinical negligence claims in each of the last five years where legal proceedings were completed in those years

Year of closure	*Damages paid (£)*	*Claimant costs paid (£)*	*Proportion of costs to damages (percentage)*
2004-05	3,000.00	34,000.00	1133
2005-06	1,750.00	102,334.00	5848
2006-07	5,000.00	101,082.85	2022
2007-08	2,500.00	62,500.00	2500
2008-09	1,000.00	10,500.00	1050

Table 2: Damages and claimant costs paid on all closed clinical negligence claims where the claimant costs exceeded the damages by year of closure

Year of closure	*Damages paid (£)*	*Claimant costs paid (£)*
2004-05	9,824,545	17,135,815
2005-06	10,946,714	19,786,927
2006-07	11,852,076	20,681,500
2007-08	18,309,285	31,968,752
2008-09	16,923,244	31,569,368
Total	67,855,864	121,142,363

NHS: Pay

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 6 July 2009, *Official Report*, column 583-84W, on staff pay, how many staff received a salary of more than £100,000 in current prices in each year; and how many staff were receiving a salary of more than £100,000 on 1 April 2009. [290286]

Phil Hope: The number of the Department's staff receiving a salary of more than £100,000 in each year, expressed in prices as at 1 April 2009, is presented in the following table.

In post date as at 1 April each year	*Number of staff*
2008	76
2007	83
2006	89
2005	96
2004	99
2003	105

Salaries have been recalculated based on the changes in the consumer price index (CPI), averaged over the whole of each year and include all pay-related allowances.

Information prior to 2003 is not held centrally and can only be obtained at disproportionate cost as recalculation before that date would involve searching individual paper files.

The number of staff receiving a salary of more than £100,000 on 1 April 2009 was 74.

Mike Penning: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for South Cambridgeshire (Mr. Lansley) of 6 July 2009, *Official Report*, column 583W, on departmental pay, how many staff *(a)* received a salary of more than £100,00 in each year since 1997, expressed in 2009 prices and *(b)* were earning more than £100,000 on 1 April 2009. [290305]

Phil Hope: The number of the Department's staff receiving a salary of more than £100,000 in each year, expressed in prices as at 1 April 2009, is presented in the following table.

In post date	*Number of staff*
1 April 2008	76
1 April 2007	83
1 April 2006	89
1 April 2005	96
1 April 2004	99
1 April 2003	105

Salaries have been recalculated based on the changes in the Consumer Price Index (CPI), averaged over the whole of each year and include all pay-related allowances.

Information prior to 2003 is not held centrally and can be obtained only at disproportionate cost as recalculation before that date would involve searching individual paper files.

The number of staff receiving a salary of more than £100,000 on 1 April 2009 was 74.

Margaret Moran: To ask the Secretary of State for Health (1) what the percentage change in salary of each board member of each NHS *(a)* trust and *(b)* foundation was in each year since 2001; [291757]

(2) what *(a)* pay and *(b)* other benefits each board member of each NHS (i) trust and (ii) foundation has received in each year since 2001. [291758]

Phil Hope: This information is not collected centrally. National health service trusts and NHS foundation trusts are public bodies, and the remuneration of their senior executive teams is a matter of public record and published in their annual accounts.

NHS trusts and foundation trusts have full responsibility for determining the rates of remuneration for their senior executive board members. Foundation trusts have full responsibility for determining the remuneration of their non-executive directors (that is, of their board members).

Pay rates for non-executive board members in NHS trusts are set centrally by the Department. The rates for all years since 2001-02 are as follows:

	Chair—scale minimum	*Chair—scale maximum*	*Non-executive director*	*Percentage increase*
2001-02	16,017	20,420	5,294	n/a
2002-03	16,017	20,420	5,294	0
2003-04	16,827	21,453	5,562	5.1
2004-05	17,164	21,882	5,673	2.0
2005-06	17,164	21,882	5,673	0
2006-07 (from 1 April 2006)	17,335	22,100	5,730	1.0
2006-07 (from 1 November 2006)	17,545	22,235	5,800	1.2
2007-08	17,773	22,524	5,875	1.3
2008-09	18,164	23,020	6,005	2.2
2009-10	18,436	23,365	6,095	1.5

NHS: Per Capita Costs

Miss McIntosh: To ask the Secretary of State for Health what estimate he has made of per capita NHS spending in *(a)* North Yorkshire, *(b)* Yorkshire and the Humber and *(c)* England in 2009-10. [291693]

Mr. Mike O'Brien: The following table shows the 2009-10 revenue allocations made to North Yorkshire and York Primary Care Trust (PCT), the sum of the allocations made to the PCTs within Yorkshire and

Humber Strategic Health Authority (SHA) and the England total. Over 80 per cent. of national health service revenue funding was allocated directly to PCTs for 2009-10 in this way. The table also shows the 2009-10 allocation per head and the total responsible population that each of these areas covers.

SHAs also receive funding, some of which is passed to PCTs. Yorkshire and Humber SHA received £703 million for 2009-10 or £133 per head of responsible population. PCTs also receive some funding through other, smaller, allocations.

2009-10 PCT revenue allocations

	2009-10 allocation (£000)	*2009-10 allocation per head (£)*	*2009-10 responsible population*[1]
North Yorkshire and York PCT	1,076,587	1,347	799,426
Yorkshire and the Humber SHA[2]	8,120,633	1,532	5,301,734
England	80,030,703	1,540	51,961,577

[1] The responsible population is the number of people permanently registered with general practitioner (GP) practices within the PCT boundary, irrespective of where the people are resident. It also includes people not registered with a GP such as prisoners, armed forces including their dependants and asylum seekers. To reconcile 'list variation' between the GP registered population and Office for National Statistics (ONS) populations for PCTs, the GP registered populations were constrained to the 2006 based ONS population projections published on 12 June 2008.

[2] SHAs do not receive allocations and the allocation shown here represents the sum of the allocations to PCTs within Yorkshire and the Humber SHA.

NHS: Procurement

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what medicines and patient services have been procured through a reverse e-auction in each of the last 48 months; [290388]

(2) what criteria the Purchasing and Supply Agency uses in deciding whether to use a reverse e-auction to procure medicines or services for patients; [290389]

(3) what guidance his Department has issued to the Purchasing and Supply Agency on the use of e-auctions. [290390]

Mr. Mike O'Brien: The NHS Purchasing and Supply Agency (NHS PASA) has undertaken one reverse e-auction in the last 12 months for water coolers. Information on what medicines and patient services are procured through reverse e-auctions in the national health service is not collected centrally.

The NHS PASA consider the following criteria before deciding on whether to undertake an e-auction:

an accurate and unambiguous specification of the buyer's requirement to ensure that suppliers are clear on what is required, and are bidding against the same criteria. The regulations state that the specification must be established with precision. Where your requirements cannot be established with precision, or where some elements of your requirements are negotiable, it will not be appropriate to use an e Auction;

a sufficient (proposed) spend to encourage competition and supplier participation;

a large enough pool of suppliers to ensure competition during the e Auction (and a willingness and aptitude of such suppliers to participate in electronic bidding—this can be driven by spend or the strategic importance of the contract);

availability of the goods/services - there should be no known market distortions such as shortages or surpluses as these may have an impact on e Auctions which is not beneficial to the buyer; and

there must be a credible "switching threat" —i.e. a willingness by stakeholders to switch to an alternative supplier if this is the result of the e Auction because any contract offer must be made to the winning tenderer.

No guidance has been provided to NHS PASA regarding the use of e-auctions. NHS PASA led the way in the NHS on e Tendering, e Auctions and e Sourcing. As early as 2003-04 NHS PASA instigated a pilot project on the use of e auctions in the NHS. The e Auctions managed by the Agency delivered substantial savings and the NHS continues to benefits by the appropriate use of e auctions.

NHS: Surveys

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 15 July 2009, *Official Report*, column 532W, on health visitors: crimes of violence, whether the results of NHS staff surveys are available to the NHS Security Management Service. [291450]

Phil Hope: The results of national health service staff surveys, such as the 2008 Healthcare Commission survey, are in the public domain and so are available to the NHS Security Management Service.

NHS: Telephone Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health when the results of his Department's consultation on the use of 0845 telephone numbers by the NHS will be published. [289568]

Mr. Mike O'Brien: The results of the Department's public consultation on the use of 084 numbers in the national health service were announced on 14 September 2009. The Department's response to the consultation is available on the 'consultations' section of the Department's website at:

www.dh.gov.uk/en/Consultations/Responsestoconsultations/index.htm

A copy has been placed in the Library.

NHS: Working Hours

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 July 2009, *Official Report*, column 546W, on NHS: working hours, when the Department plans to communicate to the European Commission on the provisions of the Working Time (Amendment) Regulations 2009. [289638]

Phil Hope: It is expected that information will be published following receipt of the European Commission's response to the Secretary of State's original notification to the Commission of our intention to derogate and our response in accordance with the directive.

Nurses

Mr. Sheerman: To ask the Secretary of State for Health when he expects the Family Nurse Partnership to be extended to the Huddersfield and Calderdale primary care trust area. [291800]

Phil Hope: Calderdale primary care trust has been running a Family Nurse Partnership (FNP) since September 2008. Kirklees primary care trust, which encompasses most of Huddersfield, started to test FNP in July this year.

Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* admission episodes and *(b)* discharge episodes with a primary or secondary diagnosis of (i) malnutrition, (ii) nutritional anaemias and (iii) other nutritional deficiencies were recorded in each primary care trust area of commissioning responsibility in the Hospital Episodes Statistics database in 2007-08. [289455]

Gillian Merron: The information requested has been placed in the Library.

Osteopathy

David Tredinnick: To ask the Secretary of State for Health (1) what assessment he has made of levels of variability across the country in levels of access for patients to *(a)* osteopathy and *(b)* other manual therapies; [289641]

(2) what procedures have been put in place to ensure primary care trusts are informed of the National Institute for Health and Clinical Excellence guidelines on low back pain of June 2009, with particular reference to the recommendation that GPs consider referral of patients to a course of manual therapy such as osteopathy. [289642]

Gillian Merron: Decisions on which treatments to provide in the best interests of patients are the responsibility of the national health service at local level taking into account the differing health needs of different communities.

To aid implementation of National Institute for Health and Clinical Excellence (NICE) guidance such as that on lower back pain, NICE also develop tools, available on their website alongside the guidance, which offer advice on costings and commissioning. The guidance and tools can be accessed at

http://guidance.nice.org.uk/CG88

Paediatrics: Hospital Beds

Anne Milton: To ask the Secretary of State for Health what assessment he has made of the likely effect of a swine influenza pandemic and normal winter trends in hospital admissions on the availability of paediatric beds. [290009]

Gillian Merron: We continue to base our planning work with the national health service for the H1N1 pandemic on independent expert advice. The latest assumptions that we published on 3 September, assume that 1 per cent. of people who become ill with H1N1 will require hospitalisation. This would be above normal winter levels of flu activity and all NHS organisations have been planning to handle this if necessary, for both adult and paediatric services.

Measures that may be taken include the cancellation of out-patient services and elective admissions in order to free up staff and capacity to care for an increase in children admitted with H1N1.

In April this year, the Department also published guidance on "Managing Demand and Capacity in Health Care Organisations (Surge)". The document gives guidance on measures the NHS can take to handle the pressures it will face, including in providing paediatric care during a pandemic. A copy of the guidance has already been placed in the Library.

To further support local planning, on 10 September, a strategy for critical care services was published that in part set out how the NHS would work to substantially increase availability of paediatric intensive care beds should this be required at the peak of the pandemic. A copy has been placed in the Library.

Anne Milton: To ask the Secretary of State for Health what estimate he has made of the likely change in numbers of paediatric beds available between 2010 and 2012; and what assessment he has made of the likely effects of that change on winter planning during that period. [290021]

Phil Hope: This information is not collected centrally.

Parkinson's Disease: Medical Treatments

Dr. Julian Lewis: To ask the Secretary of State for Health what steps he plans to take to strengthen mechanisms to improve implementation of the National Institute for Health and Clinical Excellence's clinical guidelines on Parkinson's disease dated 2006, in light of the relevant recommendations contained in High Quality Care for All. [289565]

Mr. Mike O'Brien: We have no plans to strengthen mechanisms to improve the implementation of the National Institute for Health and Clinical Excellence's clinical guidelines on Parkinson's disease. It is the responsibility of individual health professionals to ensure they comply with all existing clinical guidelines when providing health and social care.

From April 2009, the Care Quality Commission took over from the Healthcare Commission and will consider, in discussion with stakeholders including NICE, how to take account of NICE guidance as it develops its compliance criteria.

Prescriptions

Jim Dowd: To ask the Secretary of State for Health what recent reports he has received of the prevalence of the automatic ordering of repeat prescriptions; and if he will take steps to end the practice. [290100]

Mr. Mike O'Brien: I am told that the Department has received one report of automatic ordering of repeat prescriptions by pharmacies. The terms of service of pharmacists (Schedule 1 of the National Health Service (Pharmaceutical Services) Regulations 2005) include a number of provisions relevant to this issue. For example, paragraph 10 (a) and (c) of the terms of service makes provision for pharmacists to ensure that appropriate advice is given to patients, in particular with regards to the request of repeatable prescriptions.

This is supported by the Royal Pharmaceutical Society of Great Britain's (RPSGB) professional standards and guidance for patient consent, which makes clear that patients have a basic right to be involved in decisions about their health care and the process of obtaining consent is fundamental for patient autonomy. Obtaining consent is an on-going process and not a single event.

It is for primary care trusts to take action in relation to any breach of pharmacists' terms of service and for the RPSGB to take action in relation to any breach of professional standards.

Prescriptions: Fees and Charges

Mike Penning: To ask the Secretary of State for Health (1) pursuant to the answer of 3 July 2009, *Official Report*, column 486W, on prescription: fees and charges, for what reasons the projections for revenue from prescription charges do not take account of proposals to exempt from such charges those with long-term conditions; [290227]

(2) pursuant to the answer of 3 July 2009, *Official Report*, column 486W, on prescription: fees and charges, for what reason the preparations for prescription charge income do not take into account his Department's proposals in relation to the exemption from prescription charges of people with long-term illnesses. [290311]

Mr. Mike O'Brien: Forecasts for 2009-10 and 2010-11 in the departmental report 2009 (Cm 7593) take no account of the effect of the Government's decision to exempt patients with long term conditions from prescription charges because the cost and timeframe for the phasing in of the long term conditions exemption will depend on the recommendations set out in Professor Ian Gilmore's review, which is due to report in the autumn.

Mr. Brady: To ask the Secretary of State for Health what progress has been made towards ending prescription charges for all people with long-term medical conditions. [292141]

Mr. Mike O'Brien: I refer the hon. Member to the written answer I gave my hon. Friend the Member for Gloucester (Mr. Dhanda) on 14 September 2009, *Official Report*, column 2167W.

Prescriptions: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health how many people in the Tamworth constituency have received prescriptions without charge since such exemptions were introduced. [291466]

Mr. Mike O'Brien: This information is not held centrally.

The Department does not know the number of people for whom prescription items are dispensed because the information collected is based on the number of prescription items dispensed in the community. These data are not available at a constituency level. The latest data for England (for 2008) show that around 93 per cent. of prescription items were not charged for at the point of dispensing, either because the patient was not liable to pay a charge, or because they held a valid prescription pre-payment certificate.

Primary Care Trusts: Hertfordshire

Mike Penning: To ask the Secretary of State for Health what changes to the amount of funding allocated to primary care trusts in Hertfordshire there have been in the course of 2009-10; and what such changes he anticipates in the course of 2010-11. [289410]

Phil Hope: Revenue allocations are made to primary care trusts (PCTs) on the basis of the relative needs of the populations they serve. The following table provides the revenue allocations made to East and North Hertfordshire PCT and West Hertfordshire PCT for 2009-10 and 2010-11.

No changes have been made to revenue allocations during the course of 2009-10. There are no plans to change the revenue allocations for 2010-11.

£000

	Revenue allocation	
PCT	*2009-10*	*2010-11*
East and North Hertfordshire PCT	759,311	803,338
West Hertfordshire PCT	773,604	813,380

Mike Penning: To ask the Secretary of State for Health which primary care trusts in Hertfordshire have a financial deficit against their budget for 2009-10; and how much the deficit is in each such case. [289412]

Phil Hope: Information published in the Director General for NHS Finance, Performance and Operations report "The Quarter" show that neither East and North Hertfordshire Primary Care Trust (PCT) nor West Hertfordshire PCT is forecasting a deficit in the 2009-10 financial year. The following table shows that both PCTs are forecasting a surplus.

	2009-10 quarter 1 forecast outturn (£000)
East and North Hertfordshire PCT	2,855
West Hertfordshire PCT	576

The 2009-10 and 2010-11 PCT revenue allocations represent £164 billion investment in the national health service, £80 billion in 2009-10 and £84 billion in 2010-11. PCTs received an average increase in funding of 5.5 per cent. in 2009-10 and will receive an average increase in funding of 5.5 per cent. in 2010-11, a total increase in funding of £8.6 billion.

The following table provides the two year revenue allocations made to PCTs in Hertfordshire for 2009-10 and 2010-11 along with the cash and percentage increases. East and North Hertfordshire PCT will be 0.6 per cent. under target in 2010-11, West Hertfordshire PCT will be 5.3 per cent. above target in 2010-11.

PCT	*2009-10 allocation (£000)*	*2010-11 allocation (£000)*	*Two-year cash increase (£000)*	*Two-year cash increase (percentage)*
East and North Hertfordshire PCT	759,311	803,338	83,612	11.6

PCT	*2009-10 allocation (£000)*	*2010-11 allocation (£000)*	*Two-year cash increase (£000)*	*Two-year cash increase (percentage)*
West Hertfordshire PCT	773,604	813,380	78,190	10.6

Respiratory System

Stephen Hammond: To ask the Secretary of State for Health pursuant to the answer of 20 April 2009, *Official Report*, column 479W, on respiratory system, to how many patients in each age group the figures on *(a)* hospital and *(b)* admission episodes related in each case. [289570]

Phil Hope: The following table shows hospital episodes and admission episodes for diseases of the respiratory system by age group. Data have been provided for the hospitals referred to in the answer of 20 April 2009, *Official Report*, column 479W.

Number of finished consultant episodes and finished admission episodes for diseases of the respiratory system¹, by provider, 2003-04 to 2007-08, activity in English NHS Hospitals and English NHS commissioned activity in the independent sector

		Finished consultant episode					*Finished admission episode*				
Provider	*Provider code age on admission*	*2007-2008*	*2006-2007*	*2005-2006*	*2004-2005*	*2003-2004*	*2007-2008*	*2006-2007*	*2005-2006*	*2004-2005*	*2003-2004*
England	0-4	166,834	158,667	160,414	145,440	151,275	159,767	152,998	155,488	140,894	146,920
	5-14	88,970	353,433	91,257	85,227	82,492	86,104	303,515	88,909	83,223	80,651

Notes:

Ungrossed data

Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Finished Consultant Episode (FCE)

A finished consultant episode (FCE) is defined as a continuous period of admitted patient care under one consultant within one healthcare provider. FCEs are counted against the year in which they end. Please note that the figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year.

Finished admission episodes

A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. Please note that admissions do not represent the number of inpatients, as a person may have more than one admission within the year.

Number of episodes in which the patient had a (named) primary or secondary diagnosis

These figures represent the number of episodes where the diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and 7 prior to 2002-03) primary and secondary diagnosis fields in a Hospital Episode Statistics (HES) record. Each episode is only counted once in each count, even if the diagnosis is recorded in more than one diagnosis field of the record.

[1] The following ICD-10 codes have been used:

J00-J99—'Diseases of the respiratory disease'. Please see the following table for J00-J99 sheet for ICD-code descriptions.

Data quality

HES are compiled from data sent by more than 300 National Health Service trusts and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Small numbers

To protect patient confidentiality, figures between 1 and 5 have been suppressed and replaced with "*" (an asterisk). Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional number (the next smallest) has been suppressed.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

Diseases of the respiratory system

Diagnosis code	*Primary description*
J00	Acute nasopharyngitis (common cold)
J01	Acute sinusitis
J02	Acute pharyngitis
J03	Acute tonsillitis
J04	Acute laryngitis and tracheitis
J05	Acute obstructive laryngitis (croup) and epiglottitis
J06	Acute upper respiratory infections of multiple and unspecified sites
J10	Influenza due to identified influenza virus
J11	Influenzavirus not identified
J12	Viral pneumonia, not elsewhere classified
J13	Pneumonia due to Streptococcus pneumoniae
J14	Pneumonia due to Haemophilus influenzae
J15	Bacterial pneumonianot elsewhere classified
J16	Pneumonia due to other infectious organisms NEC
J17	Pneumonia in diseases classified elsewhere
J18	Pneumoniaorganism unspecified
J20	Acute bronchitis
J21	Acute bronchiolitis
J22	Unspecified acute lower respiratory infection
J30	Vasomotor and allergic rhinitis
J31	Chronic rhinitisnasopharyngitis and pharyngitis
J32	Chronic sinusitis
J33	Nasal polyp
J34	Other disorders of nose and nasal sinuses
J35	Chronic diseases of tonsils and adenoids
J36	Peritonsillar abscess
J37	Chronic laryngitis and laryngotracheitis
J38	Diseases of vocal cords and larynx not elsewhere class
J39	Other diseases of upper respiratory tract
J40	Bronchitis not specified as acute or chronic
J41	Simple and mucopurulent chronic bronchitis
J42	Unspecified chronic bronchitis
J43	Emphysema
J44	Other chronic obstructive pulmonary disease
J45	Asthma
J46	Status asthmaticus
J47	Bronchiectasis
J60	Coalworker's pneumoconiosis
J61	Pneumoconiosis due to asbestos and other mineral fibres
J62	Pneumoconiosis due to dust containing silica
J63	Pneumoconiosis due to other inorganic dusts
J64	Unspecified pneumoconiosis
J65	Pneumoconiosis associated with tuberculosis
J66	Airway disease due to specific organic dust
J67	Hypersensitivity pneumonitis due to organic dust
J68	Respiratory conditions due to inhalation of chemicals, gases, fumes and vapours
J69	Pneumonitis due to solids and liquids
J70	Respiratory conditions due to other external agents
J80	Adult respiratory distress syndrome
J81	Pulmonary oedema
J82	Pulmonary eosinophilia, not elsewhere classified
J84	Other interstitial pulmonary diseases
J85	Abscess of lung and mediastinum
J86	Pyothorax
J90	Pleural effusionnot elsewhere classified
J91	Pleural effusion in conditions classified elsewhere
J92	Pleural plaque
J93	Pneumothorax
J94	Other pleural conditions
J95	Postprocedural respiratory disorders NEC
J96	Respiratory failure not elsewhere classified
J98	Other respiratory disorders
J99	Respiratory disorders in diseases classified elsewhere

Rheumatology

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the number of *(a)* inpatient and *(b)* outpatient attendances in the rheumatology speciality in the latest year for which figures are available; and at what average cost. [289457]

Phil Hope: We have made no estimate of the number, or cost, of in-patient and out-patient attendances for rheumatology.

However, the total number of ordinary, and day case admissions, to hospital where the main consultant specialty is recorded as rheumatology is given in the following table.

	Day case	*Ordinary*
2006-07	62,707	31,577
2005-06	56,938	32,277
2004-05	53,183	31,530
2003-04	49,003	31,440
2002-03	41,003	32,279
2001-02	33,041	34,056
2000-01	30,331	35,524
1999-2000	27,275	37,033
1998-99	24,045	36,968
1997-98	20,496	38,976
1996-97	17,538	40,053

Note:

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Schizophrenia

Lynne Jones: To ask the Secretary of State for Health (1) what proportion of mental health NHS provider organisations are implementing the National Institute for Health and Clinical Excellence clinical guideline update for schizophrenia; [290314]

(2) what steps he is taking to *(a)* publicise and *(b)* implement the recommendations of the updated National Institute for Health and Clinical Excellence clinical guideline update for schizophrenia; [290315]

(3) what *(a)* support and *(b)* guidance has been made available to healthcare professionals to facilitate adherence to the National Institute for Health and Clinical Excellence clinical guideline update on schizophrenia; and whether he has put in place ongoing monitoring to assess the implementation of the guidance by healthcare professionals. [290316]

Phil Hope: We welcome the National Institute for Health and Clinical Excellence's (NICE's) updated guidance on schizophrenia and expect it to help further improve the quality of treatment and care for people with schizophrenia.

It is for NICE to publicise the release of its guidance to the national health service and it is for the NHS to implement it. NICE publishes implementation tools to help the NHS implement its guidance locally.

Clinicians are responsible for deciding on the most appropriate form of treatment for their patients, and in doing so they are expected to take NICE guidance fully into account. The Department does not become involved in clinical decisions, nor does it collect data on implementation levels of this NICE guidance among NHS organisations.

NICE issues both technology appraisals (TAs) and clinical guidelines (CGs) and the schizophrenia guidance issued this March is a CG. Clinicians are expected to consider treatments outlined in CGs when considering prescribing options, but are not obliged to prescribe these. As CGs are very broad in approach and can contain 100 or more recommendations, health bodies should implement the guidance as and when resources permit.

Lynne Jones: To ask the Secretary of State for Health how the Care Quality Commission is monitoring adherence to the National Institute for Health and Clinical Excellence clinical guideline update on schizophrenia; and what steps it will take in respect of NHS organisations found to be non-compliant. [290317]

Phil Hope: There are no plans for the Care Quality Commission to monitor adherence with the clinical guideline on schizophrenia published by the National Institute for Health and Clinical Excellence (NICE).

NICE clinical guidelines support national health service commissioning and best practice in service provision, but compliance with these are not direct indicators of levels of safety and quality. The Department expects NHS organisations to work towards full implementation of NICE clinical guidelines over a reasonable period of time using available resources.

Schools: Nurses

Greg Mulholland: To ask the Secretary of State for Health what estimate he has made of the number of secondary schools which employ a school nurse; and what estimate he has made of the number of school nurse posts to be established in secondary schools in the next 12 months. [292116]

Phil Hope: There are about 3,000 secondary schools. The 2008 NHS Workforce Census shows there were 3,643 qualified nurses in school nursing areas (2,634 full time equivalent), an increase of 63 per cent. since 2004. Of these, there were 1,447 (headcount) school nurses with a post registration school nurse qualification (1,062 full time equivalent), an increase of 69 per cent. since 2004.

It is for individual primary care trusts to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations over the next 12 months.

The overall number of professionals within community services for children and families has increased. School nurses are able to access more resources than was traditionally the case.

Smoking: Greater Manchester

Mr. Crausby: To ask the Secretary of State for Health how many people in *(a)* Bolton and *(b)* Greater Manchester have received assistance from the NHS to stop smoking in each of the last five years. [291645]

Gillian Merron: The information is not available in the format requested. The following table shows the number of people setting a quit date and the number of those who successfully quit smoking through national health service stop smoking services in the Bolton primary care trust (PCT) and Greater Manchester, 2004-05 to 2008-09.

	Bolton PCT[1]	*Greater Manchester strategic health authority (SHA)*[2,3]
2004-05		
Number setting a quit date[4]	2,336	39,131
Number of successful quitters[4]	1,349	18,973
2005-06		
Number setting a quit date[4]	3,666	45,282
Number of successful quitters[4]	2,170	21,383
2006-07		
Number setting a quit date[4]	4,762	44,177
Number of successful quitters[4]	2,206	21,174
2007-08		
Number setting a quit date[4]	5,736	52,405
Number of successful quitters[4]	2,320	22,838
2008-09		
Number setting a quit date[4]	3,936	49,100

	Bolton PCT[1]	*Greater Manchester strategic health authority (SHA)*[2,3]
Number of successful quitters[4]	1,718	20,153

[1] Bolton PCT was unaffected by the PCT restructuring which took place in October 2006.
[2] Figures for Greater Manchester SHA were calculated using the constituent PCTs for 2004-05 to 2006-07. Although this SHA did not exist in subsequent years as a result of restructuring, the new PCTs which the constituent old PCTs mapped to have been identified in order to produce figures on the same basis for comparability in 2007-08.
[3] These data are based on figures collected through the quarterly stop smoking services data collection return. If a person sets more than one quit date in the quarter, the details of each attempt should be recorded on the form.
[4] A client is counted as having successfully quit smoking at the four week follow-up if he/she has not smoked at all since two weeks after the quit date.

Notes:

1. The figures provided for 2004-05, 2005-06 and 2006-07 have been extracted from the corresponding annual Statistics on NHS stop smoking services in England report for each of these years. These publications have already been placed in the Library.
2. Bolton PCT figures provided for 2007-08 and 2008-09 have been extracted from the corresponding annual Statistics on NHS stop smoking services in England report for each of these years. Greater Manchester SHA figures were not published in these later reports[2]. These publications have already been placed in the Library.
3. On the basis that the clinical viewpoint tends to be that a client should not be counted as a 'failure' if he/she has smoked in the difficult first days after the quit date, a client is counted as having successfully quit smoking if he/she has not smoked at all since two weeks after the quit date. The four week follow-up (and Carbon Monoxide (CO) validation, if appropriate) must be completed within six weeks of the quit date. Persons not contacted within this time are treated as lost to follow-up for evaluation purposes.
4. Only people who set a quit date through the NHS stop smoking services are included in the quarterly monitoring returns, those who attend the service but do not set a quit date are not included.
5. NHS stop smoking services data are based on the PCTs which provide the service. People using their services are not necessarily resident in that PCT.
6. The information centre for health and social care collects data from the NHS stop smoking services as part of the NHS stop smoking services quarterly monitoring returns forms, undertaken since 2005 on behalf of the Department.

The Information Centre for health and social care

Social Services

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps he is taking to increase provision of social care support in *(a)* England and *(b)* Coventry. [289302]

Phil Hope: The direction of travel for adult social care is set out in "Putting People First", the shared vision and commitment to the transformation of adult social care, published in December 2007. It is confirmed in the Green Paper, "Shaping the Future of Care Together", which was published in July this year.

"Putting People First" commits to significant change by April 2011. It confirms that reform of social care can only be delivered through partnership across central and local government. It is holistic in its approach to delivering social care services for all individuals in the community, not just those eligible for statutory support.

"Putting People First" clearly sets out a vision of a universal offer to the entire community, including social care service users. Not only will this increase the provision of social care support, but the strategic shift towards prevention and early intervention services is designed to provide more help to people with lower level care needs, to reduce the likelihood that they will need more intensive services in the longer term and to help them retain their independence.

By the end of 2009-10, this Government will have increased local government funding by 45 per cent. in real terms since 1997. These are unprecedented rises in funding to local councils and provide the resources they need to improve the provision of care and support for their populations.

The Department is investing circa £3.5 billion over this comprehensive spending review period to support improvements in the provision of social care. In particular, the social care reform grant will provide over £500 million for the reform and transformation of adult social care. In 2009-10, Coventry will receive approximately £8 million of revenue and capital grants from the Department to help support this agenda.

For the longer term, the Green Paper, "Shaping the Future of Care Together", together with the public consultation, "The Big Care Debate", which will run until 13 November, is addressing the national and local challenges we face in providing care and support in the future.

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government are taking to ensure consistent levels of provision of social care support across the country. [289303]

Phil Hope: The fairer access to care services (FACS) guidance has just been revised and is out for consultation until 6 October 2009.

The Commission for Social Care Inspectorate's (CSCI) state of social care report 2006-07 identified a trend for councils to raise their eligibility thresholds and the potential implications for people seeking support. In the light of recommendations made by CSCI in their report "Cutting the Cake Fairly: CSCI review of eligibility criteria for social care" (October 2008), the Government worked with stakeholders to revise the FACS guidance. The revision of the FACS guidance is aimed at bringing about improvements to the system as it currently stands, making implementation fairer and more consistent for people seeking support and reinforcing the current direction of policy established by "Putting People First", a copy of which has already been placed in the Library.

The "Fairer Contribution Guidance" was also published on 14 July 2009 to accompany the existing "Fairer Charging guidance". Copies have been placed in the Library. This provides councils with a model to help them decide how much (if anything) a person should contribute to their personal budget. Councils will be expected to implement the "Fairer Contributions Guidance" by March 2010.

Mr. Jim Cunningham: To ask the Secretary of State for Health what guidance his Department provides to local authorities on application of criteria of *(a)* substantial and *(b)* critical needs in decisions on eligibility for adult social care services; what powers local authorities have to limit provision of such services to people with those categories of need; and if he will make a statement. [289304]

Phil Hope: The Fairer Access to Care Services (FACS) guidance (June 2003), a copy of which has already been placed in the Library, sets a framework to help local authorities identify those people who are eligible for social care services. The FACS guidance sets out four eligibility bands of criteria (Critical, Substantial, Moderate and Low).

The Commission for Social Care Inspectorate's (CSCI) State of Social Care report 2006-07 identified a trend for councils to raise their eligibility thresholds and the potential implications for people seeking support. In the light of recommendations made by CSCI in their report "Cutting the Cake Fairly: CSCI review of eligibility criteria for social care" (October 2008), the Government have been working with stakeholders to revise the FACS guidance and this is out for consultation until 6 October 2009.

The revision of the FACS guidance is aimed at bringing about improvements to the system as it currently stands, making implementation fairer and more consistent for people seeking support and reinforcing the current direction of policy established by "Putting People First", a copy of which has already been placed in the Library.

The Fairer Contribution Guidance was published on 14 July 2009 to accompany the existing Fairer Charging Guidance. Copies have been placed in the Library. This provides councils with a model to help them decide how much (if anything) a person should contribute to their personal budget. Councils will be expected to implement the Fairer Contributions Guidance by March 2010.

Local authorities must ensure that everyone who is eligible for social care has their needs met.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many packages of care were provided by local authorities to clients with *(a)* physical disability and *(b)* rheumatoid arthritis in the latest year for which figures are available; and at what (i) gross and (ii) net cost. [289456]

Phil Hope: Central data collated in 2007-08, show that the number of adults (aged 18 and over) with a physical disability or sensory impairment and receiving care services was 221,000 adults (aged 18-64) and 1.045 million adults (aged 65 and over).

The gross current expenditure on adults aged 18-64 with a physical disability or sensory impairment was £1.48 billion in 2007-08, and the net current expenditure on adults aged 18-64 with a physical disability or sensory impairment was £1.39 billion in 2007-08.

Data are not collected centrally on the gross and net costs of adults aged 65 and over with a physical disability or individually broken down to show packages of care for rheumatoid arthritis and the associated costs.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the Care Quality Commission plans to conduct a State of Social Care review for *(a)* 2008-09 and *(b)* 2009-10. [290394]

Phil Hope: The Health and Social Care Act 2008 requires the Care Quality Commission to report annually on the provision of national health service care during the year, the provision of adult social care services during the year, and the carrying on of regulated activities during the year. The Care Quality Commission has informed us it is planning an integrated report on the state of health care and adult social care in England. It will lay its first annual report to Parliament to cover the year 2008-09 and its second report will cover the year 2009-10.

Mr. Stephen O'Brien: To ask the Secretary of State for Health when in 2010 he plans to publish a White Paper on social care. [290396]

Phil Hope: The care and support Green Paper, 'Shaping the Future of Care Together', announced that the Government will publish a White Paper in 2010. The consultation on the Green Paper will run until 13 November 2009 and we will make further announcements about the timing of the White Paper in due course.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the merits of making changes to the Disability Living Allowance programme as part of his proposals on social care. [290398]

Jonathan Shaw: I have been asked to reply.

The Green Paper "Shaping the Future of Care Together" set out the reasons for considering the future role of disability benefits in the context of the social care review. It proposed that one option is to bring some disability benefits and the new social care system together into a single system, as a better way of providing support. However, it is important to note that this is a consultation exercise for long-term reform and no final decisions have been made on the specific merits of changing the Disability Living Allowance programme. We are seeking the views of all stakeholders in further developing these proposals.

Mr. Lansley: To ask the Secretary of State for Health during which month in 2010 he expects his Department's White Paper on care and support to be published. [291863]

Phil Hope: The care and support Green Paper, 'Shaping the Future of Care Together', announced that the Government will publish a White Paper in 2010. The consultation on the Green Paper will run until 13 November 2009 and we will make further announcements about the timing of the White Paper in due course.

Mr. Lansley: To ask the Secretary of State for Health with reference to page 106 of his Department's Green Paper, "Shaping the Future of Care Together", on what evidence the estimate that a quarter or a third of basic care and support costs could be paid for by the state was based; and what estimate he made of the cost of *(a)* a quarter and *(b)* a third of all annual care and support. [291865]

Phil Hope: The Personal Social Services Research Unit (PSSRU) at the University of Kent and the London School of Economics have carried out analysis to model the cost of the Green Paper funding options. The statement that under partnership a third to a quarter of basic care and support costs could be paid for by the state is based on that analysis.

We expect to publish shortly a report by PSSRU outlining the modelling and costs of the Green Paper funding options. A copy will be placed in the Library.

Mr. Harper: To ask the Secretary of State for Health whether his Department has produced an impact assessment for the proposal in the Green Paper, "Shaping the Future of Care Together", to use attendance allowance to help to fund social care; what estimate he has made of the number of people who will receive social care under such arrangements in the next 12 months; and which categories of people will be prioritised under these arrangements. [292100]

Phil Hope: The Department published a regulatory impact assessment alongside the Green Paper "Shaping the Future of Care Together" which sets out the estimated costs and implications of the funding models discussed. The impact assessment is available online at:

http://careandsupport.direct.gov.uk/greenpaper/the-green-paper-and-supporting-documents/

A copy has been placed in the Library.

Due to the wide range of reforms proposed within the Green Paper, full introduction of a new care and support system will be around 2014 at the earliest.

Mr. Harper: To ask the Secretary of State for Health what recent discussions he has had with the Secretary of State for *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland on the implementation of proposals contained in the Green Paper, "Shaping the Future of Care Together". [292103]

Phil Hope: My right hon. Friend the Secretary of State wrote to Ministers in Wales, Scotland and Northern Ireland to provide them with the full text of the Green Paper prior to publication. Departmental officials have been in regular contact with their counterparts in the devolved Administrations and a further series of meetings are planned.

Mr. Harper: To ask the Secretary of State for Health what role he plans for GPs in the proposed National Care Service as set out in the Green Paper, "Shaping the Future of Care Together"; and what arrangements he plans to put in place for the provision of the National Care Service to patients resident in England and registered with GP practices in Wales. [292104]

Phil Hope: Care and support covers a range of reserved and devolved issues. Where matters are devolved, there will inevitably be consequences for people who live near the geographical boundaries between two areas with different policies. This is the case with the current system. We will continue to work with the devolved Administrations to ensure the implications of the Green Paper for people living near the borders are fully understood.

We do not envisage the new national care service altering any existing cross-border provision of health services. For example, the new national care service will not mean that patients in England who are registered with general practitioners in Wales cannot continue this arrangement.

Mr. Lansley: To ask the Secretary of State for Health when he expects to publish *(a)* the responses to and *(b)* the conclusions of his Department's consultation on its social care Green Paper. [292536]

Phil Hope: The Big Care Debate closes on 13 November 2009. The Government's response to the consultation will be published after this date.

Mr. Lansley: To ask the Secretary of State for Health how much he expects his proposals for the creation of a National Care Service to cost; which organisations he expects to comprise the service; what assessment he has made of the likely effects of his proposals on *(a)* existing (i) NHS and (ii) social care budgets and *(b)* existing local authority provision of social care. [292537]

Phil Hope: We believe that reform of the care and support system is necessary in order to make the long term care costs sustainable for the State and the individual. The Impact Assessment for the Green Paper 'Shaping the Future of Care Together' suggested that a National Care Service could cost the State between £18.2 billion and £20.7 billion in 2014, depending on the funding model chosen. These are illustrative comparative costs suggesting the possible cost to the state of the different models. These are indicative only and could be subject to change. Costs would be met from within the public spending envelope set for future spending reviews, which will be in line with the plans for fiscal consolidation set out at Budget 2009.

Local authorities are key to the delivery of our vision for the future. This Green Paper underlines the important, continued and strengthened role they will play under reform, in any future funding system. But we also know that one of the most common problems with care and support is an apparent lack of connection between different services, particularly health, social care, housing and benefits. So a central plank of a National Care Service will be a coherent strategy centred on patients, care-users and their carers, to support local leaders to make sure that joined-up services are delivered.

Streptococcus: Pregnancy

Mr. Dhanda: To ask the Secretary of State for Health (1) what guidance his Department provides to health professionals on implementation in maternity units of the guidelines issued by the Royal College of Obstetricians and Gynaecologists for preventing Group B streptococcus infection in newborn babies; [292168]

(2) if he will take steps to ensure that pregnant women are informed about Group B streptococcus as part of their antenatal care. [292169]

Ann Keen: Current guidance for obstetricians, midwives and neonatologists is provided by the Royal College of Obstetricians and Gynaecologists (RCOG) which published its green-top guideline No. 36 on the prevention of early-onset neonatal group B streptococcus disease in November 2003. In 2005, the RCOG, in collaboration with the National Screening Committee, established a national audit to evaluate practice in United Kingdom obstetric units against the recommendations of the guideline. The audit published in January 2007, reported that current practice followed the established patterns of care described in the RCOG guideline.

The Department supports the Maternity Standards published by the RCOG in 2008, which state that maternity services should comply with evidence-based guidelines for the provision of high-quality clinical care.

Information for women on group B streptococcus is contained in "The Pregnancy Book" a guide to health pregnancy, labour and giving birth, life with your new baby, which is given to all pregnant women during their antenatal care. A copy has already been placed in the Library. Information is also available on NHS Direct and NHS Choices website. Women who are concerned are advised to talk to their doctor or midwife.

Mr. Dhanda: To ask the Secretary of State for Health what assessment has been made of the implications for his policy of the most recent evidence on testing pregnant women for Group B streptococcus. [292170]

Ann Keen: The UK National Screening Committee (UK NSC) reviewed the policy for screening for Group B Streptococcus in pregnancy in March 2009 and concluded that the evidence did not support its introduction. The UK NSC will review its position on screening in three year's time unless any significant evidence emerges which suggests this should be undertaken earlier.

Strokes

Miss McIntosh: To ask the Secretary of State for Health (1) whether patients who have had strokes qualify for continuing healthcare assessment; [292359]

(2) what criteria govern the award of continuing healthcare assessment to patients who have had strokes. [292371]

Phil Hope: A revised national framework for continuing care was published in August 2009. This framework covers those patients who have had strokes as the eligibility criteria for continuing care are not disease specific. A copy of the framework has been placed in the Library.

Swine Flu

Mr. Hoyle: To ask the Secretary of State for Health what recent discussions he has had with representatives of *(a)* primary care trusts and *(b)* hospitals on their preparations for a swine influenza outbreak. [289493]

Gillian Merron: The Secretary of State for Health meets regularly with the NHS chief executive and the NHS flu resilience director, who are responsible for ensuring the national health service is prepared for a swine flu outbreak.

On 2 July, the national director for NHS flu resilience, Ian Dalton, wrote to all NHS chief executives to make clear the expectation that preparedness plans need to be reviewed and subjected to further testing.

To further support local planning, on 10 September, a strategy for critical care services was published that sets out how ventilated critical care capacity can be increased in the NHS during the peak weeks of a potential second wave of swine flu. The published full critical care strategy sets out how the NHS will collectively achieve this increase. A copy has been placed in the Library.

On 10 September, the national director for pandemic influenza preparedness, Lindsey Davies, also hosted a pandemic flu conference on the theme of "Looking back, moving forward". The conference, attended by 375 delegates, was open to strategic health authorities, primary care trusts and local authority representatives with health and social care responsibilities. The focus of the day was on the swine flu response to date, delivering the swine flu vaccination programme, the challenges that lie ahead and sharing best practice.

Mr. Ellwood: To ask the Secretary of State for Health what discussions he has had with the Secretary of State for Culture, Media and Sport on informing the British tourism industry on the effect of the swine influenza pandemic in the UK. [289657]

Gillian Merron: The Civil Contingencies Committee has been meeting regularly since the swine flu outbreak, and is chaired by the Secretary of State for Health. The Department for Culture, Media and Sport attends these meetings at which all elements of the Government's response to the swine influenza pandemic are discussed.

Throughout the outbreak, the Government have provided a wide range of advice to businesses generally about the impacts swine flu could have on them, through mechanisms such as the Business Advisory Network on Flu and the BusinessLink website. Planning assumptions have been issued which are of use to all sectors.

Mike Penning: To ask the Secretary of State for Health what criteria his Department uses to identify epidemic levels of swine influenza in an area; and in which areas such levels have been identified to date. [290152]

Gillian Merron: We are now relying on clinical diagnosis instead of laboratory confirmation to identify cases of swine flu.

The rates of general practitioner (GP) consultations for influenza—like illness from a sample of participating GP practices is used to identify epidemic levels of swine flu activity in an area.

The current criteria used to define the level of flu activity are:

Baseline (outside of a normal flu season) activity (<30 GP consultations per 100,000) during a week;

Normal seasonal activity (30-200 GP consultations per 100,000) during a week; and

Epidemic activity (>200 GP consultations per 100,000 people) during a week.

Strategic health authorities that experienced levels of above 200 GP consultations per 100,000 population over the summer of 2009 are:

London;
North East;
East Midlands;
North West;
West Midlands;
South West; and
South East Coast.

Mr. Lansley: To ask the Secretary of State for Health how many calls the swine flu information line had received on the latest date for which figures are available; and how much his Department has spent on that service. [291783]

Gillian Merron: As of 5 pm 25 September 2009, around 1.3 million calls to the information line were received.

Up to 30 September, the Department has spent around £230,000 on the provision of the service.

Mr. Lansley: To ask the Secretary of State for Health with reference to the Statement of 20 July 2009, *Official Report*, columns 583-5, on swine flu, which groups will be regarded as higher risk for the purposes of vaccine prioritisation. [291856]

Gillian Merron: Based on advice from the Joint Committee on Vaccination and Immunisation, the following groups will be the first to be vaccinated with H1N1 swine flu vaccine, in the following order:

individuals aged between six months and up to 65 years in the current seasonal flu vaccine clinical at-risk groups;

all pregnant women, subject to licensing conditions on trimesters;

household contacts of immuno-compromised individuals; and

people aged 65 years and over in the current seasonal flu vaccine clinical at-risk groups.

In addition to this, front line health and social care workers will be offered the vaccine at the same time as the first clinical at risk groups as they are at increased risk of infection and of transmitting that infection to susceptible patients.

Mr. Lansley: To ask the Secretary of State for Health with reference to the Statement of 20 July 2009, *Official Report*, columns 583-5, on swine flu, if he will place in the Library a copy of the analysis he received which showed that the initial containment policy for swine flu worked well. [291857]

Gillian Merron: The Health Protection Agency has worked with independent academic experts to analyse the impact of the containment policy on the spread of the virus in the United Kingdom. This work has been submitted for publication and a copy of the publication will be placed in the Library when it is available.

The Health Protection Agency is also conducting a full review of the containment phase that is expected to be completed in early 2010.

Mr. Lansley: To ask the Secretary of State for Health (1) with reference to the Statement of 20 July 2009, *Official Report*, columns 583-5, on swine flu, how many people will be employed to staff the interim flu line service; and how many calls per day the interim service will be capable of handling; [291858]

(2) how many courses of antivirals have been dispensed for the treatment of patients with swine flu in each *(a)* age group and *(b)* primary care trust since 2 July 2009; [291861]

(3) pursuant to the answer of 16 July 2009, *Official Report*, column 671W, on swine flu, what the additional antiviral collection point functionality added to the flu line service is; [291866]

(4) what the differences are between the full National Pandemic Flu Line Service and the interim solution. [291867]

Gillian Merron: The interim National Pandemic Flu Service (NPFS) launched with 1,500 concurrent seats from seven call centre operators, operating from 19 sites across the United Kingdom. Over 3,500 agents were initially trained to provide the service. The agents are employed by a range of private and public sector call centre operators to ensure that the service can flexibly operate seat and agent supply to meet public demand.

The service is capable of operating 7,500 concurrent call centre seats. This level of operation, if required, would enable around 1 million calls in a 24 hour period to be handled by call centre operators in addition to those using the web service.

From the launch of the interim NPFS on 23 July 2009 to 29 September 2009, around 590,000 antivirals were dispensed for treatment of patients. The breakdown by age group and primary care trust has been placed in the Library.

These figures relate solely to antivirals collected through the NPFS, as antivirals distributed between 2-22 July 2009 were distributed through normal primary care routes and by the Health Protection Agency; those data are still being collated.

The antiviral collection point system that has been developed enables members of staff in collection points to:

check the validity of an authorisation number generated by the NPFS;

check and confirm the name of the patient and the antiviral and dose authorised;

check that the authorisation number has not been used previously to collect an antiviral;

record the checking of identification (ID), and types of ID provided by the flu friend for themselves and the patient;

record the details of the flu friend who has collected the antiviral;

record the collection of the antiviral to prevent the authorisation number being used more than once; and

provide regular information on the number of antivirals issued using an authorisation number.

The autumn solution (i.e. full NPFS) does have increased functionality and offers a more flexible information technology platform.

Individuals who use the service will follow a very similar process to the current service. The main change from an individual's perspective is the additional ID functionality. An overview of additional functionality is as follows:

a dynamic algorithm will provide greater flexibility if the algorithm needs to be changed and enables changes to be processed more quickly;

an enhanced ID process: identification can be verified during the assessment as well as at the collection point;

the functionality to re-issue an authorisation number through NPFS will be available to enable patients who forget their authorisation number to re-contact the service quickly and efficiently to access a new number that can be used in an antiviral collection point; and

the autumn service is planned to offer additional languages on the web.

Mr. Lansley: To ask the Secretary of State for Health with reference to the Statement of 20 July 2009, *Official Report*, columns 583-5, on swine flu, which 110 primary care trusts had reported exceptional levels of flu like illness. [291859]

Gillian Merron: The primary care trusts (PCTs) that reported exceptional levels of flu like illness are:

Tower Hamlets PCT
Greenwich Teaching PCT
Islington PCT
Lewisham PCT
Leicester City PCT
Barking and Dagenham PCT
Harrow PCT
Bedfordshire PCT
Coventry Teaching PCT

Mr. Lansley: To ask the Secretary of State for Health how much his Department has spent on the provision of information on swine flu; and how much further expenditure on such provision he has planned. [291862]

Gillian Merron: Communicating accurate and timely information to the general public and health care professionals during the current swine flu pandemic has been recognised as a priority by the Department and by the World Health Organisation.

We have communicated regularly via a range of channels including advertising, online information, technical and professional guidance and media briefing, including by Ministers, senior officials and clinicians.

Because of this, it is not possible to quantify accurately the cost of all this activity in producing information on swine flu, however we are able to give a figure for public advertising activity.

The cost of advertising and publicity activity in England on swine influenza, including the Swine Flu Information Phone Line, is approximately £8.2 million to date.

This may increase over the course of the pandemic. Various scenarios are being considered to allow a flexible response if swine flu escalates to ensure that the public have timely and accurate information about the disease, how to protect against it, and how to access treatment if they catch it.

Anne Milton: To ask the Secretary of State for Health what plans his Department has to provide vaccinations against swine influenza to homebound patients. [292317]

Ann Keen: The Department has asked primary care trusts and strategic health authorities to work with local national health service stakeholders to develop local plans to ensure that all of those identified in the Chief Medical Officer's list of high priority groups receive their swine flu vaccinations. These plans should include provision for housebound patients.

The Department will be supporting this work by providing core materials about swine flu vaccination for staff training and communications with the public and NHS staff.

Swine Flu: Birmingham

Mr. Godsiff: To ask the Secretary of State for Health how many cases of swine flu have been reported among residents of Birmingham, Sparkbrook & Small Heath constituency to date. [291587]

Gillian Merron: Data on the precise number of swine flu cases in a particular area are not available.

However, the Department does have data on the number of antivirals dispensed through the National Pandemic Flu Service (NPFS). We do not have figures specifically for the Sparkbrook and Small Heath constituency but we do have figures for the two primary care trusts (PCTs) which the constituency crosses. These show that:

> Heart of Birmingham Teaching PCT: around 3,500 antivirals were collected between 23 July 2009 and 22 September 2009; and
>
> NHS Birmingham East and North PCT (including part of the Small Heath area): around 3,800 antivirals were collected between 23 July 2009 and 22 September 2009.

These figures relate solely to antivirals collected through the NPFS since its launch on 23 July. Antivirals distributed prior to this time were distributed through normal primary care routes and by the Health Protection Agency; those data are still being collated.

Syringes: Injuries

Sandra Gidley: To ask the Secretary of State for Health (1) what estimate he has made of the number of NHS staff who have contracted *(a)* HIV/AIDS and *(b)* hepatitis C through a needlestick injury in each of the last five years; [291584]

(2) how many needlestick injuries have been recorded in each hospital trust in each of the last five years. [291585]

Gillian Merron: Information on the number of needlestick injuries to national health service staff in each hospital trust is not collected centrally.

However, the Health Protection Agency (HPA) collects information on significant occupational exposures to blood-borne viruses in health care workers in the United Kingdom. The HPA's latest report "Eye of the Needle, United Kingdom Surveillance of Significant Occupational Exposures to Blood Borne Viruses in Healthcare Workers, November 2008" has been placed in the Library and is available on the HPA's website at:

> www.camr.org.uk/web/HPAwebFile/HPAweb-C/1205394781623

This report, which provides data up to the end of 2007, includes information on the number of documented cases of health care workers who have contracted HIV/AIDS and hepatitis C through a needlestick injury in 2004-07, which are summarised in the following table.

Number of documented cases of health care workers who have contracted HIV and hepatitis C through a needlestick injury in the UK, 2004-07

Infection	*2004*	*2005*	*2006*	*2007*
HIV	0	0	0	0
Hepatitis C	1	2	2	2

Tamiflu

Mr. Redwood: To ask the Secretary of State for Health (1) what the average shelf-life is of the Tamiflu the Government have in stock; [289237]

(2) what procedures the NHS has in place to ensure the use of the oldest stock of Tamiflu first. [289238]

Gillian Merron: The existing pandemic stockpile of Tamiflu was purchased in instalments between the autumn of 2006 and 2007 (totalling some 15 million treatment courses) and in spring 2009 (eight million treatment courses). This makes determining the average life of the stockpile difficult. All of this stock has a shelf life of five years so is currently well within its expiry date. However, following a decision of the European medicines regulator (the European Medicines Agency, stock produced after June 2009 will have a shelf life of seven years. We are currently discussing with Roche and with the medicines regulator both the implications of this decision and the possible extension of the shelf life of stock we hold.

A small amount of Tamiflu that we are making use of but that was not procured for pandemic flu planning will expire later in 2009. We expect that most of this stock will now have been used.

Stock currently held by the national health service for treatment of swine flu at antiviral collection points (ACPs) is used in accordance with guidance provided on stock rotation.

All ACPs have pharmaceutical oversight provided by senior primary care trust pharmacists, who ensure there are safe systems and processes in place for the safe management and supply of antiviral medicines.

Stock held in stockpile warehouses is managed by professional inventory and stock managers, and in accordance with standard inventory management practice on a "first in, first out" basis.

Telemedicine

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 15 July 2009, *Official Report*, column 550W, on telemedicine, in which *(a)* local authority and *(b)* primary care trust areas business has been procured through the Purchasing and Supply Agency Telecare National Framework Agreement. [289637]

Phil Hope: This information is commercially confidential, as releasing it could give a commercial advantage to other organisations outside the framework agreement. The following table gives a high level breakdown of the number of organisations procuring through the framework.

Organisation type	*Number of organisations*
County Council	308
Acute	211
PCT	106
Borough Council	301
Northern Ireland Board	157
City Council	154
Ambulance	55
MHT	3
Housing Association	56
County Borough Council	16
Welsh Local Health Board	6
District Council	78
Housing Consortium	2
Local Council	8
Miscellaneous	4
City and Borough Council	3

Note:
The table shows the number of purchasing points it was set up around a trust having one purchasing point put in practice some may have more than one.

Thrombosis

John Smith: To ask the Secretary of State for Health when he plans to consult on the inclusion of venous thromboembolism risk assessment and prevention in the 2010-11 NHS Operating Framework. [291660]

Phil Hope: We expect the NHS Operating Framework for 2010-11 to be published later this year and we can confirm that it will include venous thromboembolism risk assessment and prevention.

John Smith: To ask the Secretary of State for Health when he expects his Department's venous thrombroembolism risk assessment model to be made available to all health professionals in the NHS through the National Programme for IT; and if he will make a statement. [291661]

Phil Hope: We are currently looking to pilot the tool within a clinical setting and, if approved, the intention is that the tool together with the technology could be evaluated at a number of sites. Subject to this work going ahead, the tool would then be available to download to national health service trusts at the same time as the National Institute for Health and Clinical Excellence publish their venous thrombroembolism clinical guidelines for all hospitalised patients.

Thrombosis: Hospitals

John Smith: To ask the Secretary of State for Health pursuant to the answer of 1 July 2009, *Official Report*, column 356W, what progress has been made in his Department's work with the Office for National Statistics to provide the requested information; and if he will make a statement. [291573]

Phil Hope: The Office for National Statistics are still working on the data which are by nature quite complex, spanning many different areas. We have received some preliminary data and are continuing to work with them to produce meaningful information on episodes of venous thromboembolism.

Treatment Centres

Mike Penning: To ask the Secretary of State for Health if he will conduct an audit of the cost of residual value payments which may be made to providers of independent sector treatment centres (ISTC) projects contracted under the *(a)* first and *(b)* second wave of the ISTC programme. [290308]

Mr. Mike O'Brien: No. There is a duty to make a residual value payment at contract expiry where the requirement exists under the terms of an independent sector treatment centres contract.

Mike Penning: To ask the Secretary of State for Health what guidance he has issued to primary care trusts on the commissioning of services from independent sector treatment centres. [290309]

Mr. Mike O'Brien: The Department has not issued primary care trusts (PCTs) with guidance on the commissioning of services from independent sector treatment centres. It is for PCTs to determine their commissioning requirements.

The Department has requested that PCTs review their capacity requirements and has provided guidance to support the competitive procurement of treatment centre services. PCTs will review contracts on a case-by-case basis and commission new services where capacity is required.

Mike Penning: To ask the Secretary of State for Health what the NHS tariff is for procedures undertaken in independent sector treatment centres. [290310]

Mr. Mike O'Brien: The national health service tariff does not apply to procedures undertaken in Wave One and Phase Two Independent Sector Treatment Centres. Providers are paid for services according to the terms and conditions of their contracts. Future contracts to provide services from treatment centres will be paid at the NHS tariff.

Mike Penning: To ask the Secretary of State for Health what plans he has for the management of the expiry of the contracts of phase one independent sector treatment centres. [290348]

Mr. Mike O'Brien: Contracts for the centrally procured wave one independent sector treatment centres are scheduled to end from 2010. Each contract will be reviewed on a case-by-case basis and new services will be commissioned where local commissioners determine that capacity is required.

Mike Penning: To ask the Secretary of State for Health what recent estimate he has made of the costs likely to be incurred by his Department in relation to its contractual obligations under phase one of the independent sector treatment centre programme after the expiry of phase one contracts. [290516]

Mr. Mike O'Brien: The total potential expiry cost (including residual value) for wave one independent sector treatment centres is approximately £200 million.

Vioxx

Mr. Amess: To ask the Secretary of State for Health what the cost to the NHS of prescribing the drug Vioxx has been in each of the last two years. [292312]

Mr. Mike O'Brien: The net ingredient cost (NIC) of prescription items written in the United Kingdom and dispensed in the community in England for 2007 and 2008, cannot be reported as the NIC was reimbursed for less than 50 prescription items. Reporting this figure could potentially identify individual patients.

Written Questions: Government Responses

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he plans to answer question *(a)* 279209, on the composition of his Department's Applications Committee, tabled on 11 June 2009 and *(b)* 283263, on the NHS IT Programme, tabled on 26 June 2009. [289567]

Mr. Mike O'Brien: I refer the hon. Member to the answers I gave him on 21 July 2009, *Official Report*, columns 1594W and 1609W.

Written Answers to Questions

Tuesday 13 October 2009

COMMUNITIES AND LOCAL GOVERNMENT

Council Housing: Antisocial Behaviour Orders

John Mann: To ask the Secretary of State for Communities and Local Government which local authorities have successfully applied for anti-social behaviour orders against their tenants in the last three years. [292383]

Mr. Ian Austin: The Department does not collect this information.

Information collected centrally by the Ministry of Justice on the number of antisocial behaviour orders (ASBOs) issued from April 1999 to December 2007 is available at:

http://www.crimereduction.homeoffice.gov.uk/asbos/asbos02-090713.xls

Council Housing: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government whether he plans to move debt from highly indebted local authorities to those with no debt as part of his plans for a redistribution of housing debt. [289546]

Mr. Ian Austin: On 21 July my right hon. Friend the Minister for Housing published a consultation paper setting out proposals to replace the Housing Revenue Account subsidy system with a devolved system of responsibility and funding for council housing. This would end the need to redistribute income between council landlords each year, in exchange for a one-off adjustment of housing debt. Under the proposals, some authorities would be provided with funds to pay off debt and others would take on more housing debt, putting all councils in a position to sustain their stock in future from their own income. The consultation paper, 'Reform of council housing finance', is published on my Department's website at:

www.communities.gov.uk

Empty Shops Funding Grant

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been *(a)* distributed to each local authority through the Empty Shops Funding Grant and *(b)* subsequently spent by each authority; how many empty premises have been utilised as part of the scheme in each year since its inception; and how many he estimates will be used in the next two years. [292080]

Mr. Ian Austin: On 13 August, CLG announced £3 million funding to help areas hit hardest by the recession find ways to boost town centres, and in particular mitigate the negative impact of empty shops on the high street. The 57 local authorities, shown in the following list, have each received £52,631.58. This is new funding for 2009-10 only, which forms part of the package of support that CLG is providing to boost town centres and high streets, as set out in "Looking after our town centres", which we published in April.

In accordance with the Government's policy on local authority funding, it is for the local authorities concerned to decide precisely how it should be spent. However, we continue to work with local authorities and other stakeholders to highlight positive approaches for making use of empty shops, and other ideas for promoting town centres.

Local authorities receiving empty shops funding:

Ashfield
Barnsley
Barrow-in-Furness
Birmingham
Blackburn with Darwen
Blackpool
Bolton
Boston
Bristol
Burnley
Copeland
Corby
Coventry
Darlington
Derby City
Doncaster
Dudley
Durham
Gateshead
Great Yarmouth
Hackney
Halton
Harlow
Hartlepool
Hastings
Hyndburn
Ipswich
Kingston Upon Hull
Kirklees
Knowsley
Leeds
Leicester City
Liverpool
Manchester
Mansfield
Middlesbrough
Newcastle upon Tyne
North East Lincolnshire
North Tyneside
Nottingham City
Pendle
Preston
Rochdale
Rossendale
Rotherham

Salford
Sandwell
Sefton
Sheffield
South Tyneside
Stoke-on-Trent
Sunderland
Tameside
Thanet
Walsall
Wigan
Wolverhampton

Local Development Frameworks

Bob Spink: To ask the Secretary of State for Communities and Local Government which local authorities have commenced but not yet completed processes for the approval of a new Local Development Framework; and if he will make a statement. [291952]

Mr. Ian Austin: 'Local Development Framework' is the collective name for the folder of various planning-related documents that local planning authorities have prepared. Some of these documents will have been subject to statutory independent examination in public by the Planning Inspectorate; others will have been approved and adopted by individual authorities where there is no statutory requirement for independent examination. All authorities will have approved documents of one kind or another in place and all are subject to regular monitoring and review, so it is an ongoing process.

Documents that the Planning Inspectorate has considered sound to date are:

50 Core Strategies
37 Area Action Plans
9 Site Allocation Policies
7 Development Control Policies
17 Minerals and Waste Policies
10 other plans dealing with specific themes
385 Statements of Community Involvement.

Bob Spink: To ask the Secretary of State for Communities and Local Government which local authorities have approved Local Development Frameworks with provision for new house building at a level lower than that required to meet Government targets; and if he will make a statement. [291953]

Mr. Ian Austin: 'Local Development Framework' is the collective name for the folder of various planning-related documents that local planning authorities have prepared. Some of these documents (development plan documents) will have been subject to statutory independent examination in public by the Planning Inspectorate; others will have been approved and adopted by individual authorities where there is no statutory requirement for independent examination.

In order to be found sound, development plan documents are required to be in general conformity with the regional spatial strategy (or spatial development strategy if the LPA is located in London), including housing allocations, if appropriate.

Local Government: Official Hospitality

Margaret Moran: To ask the Secretary of State for Communities and Local Government what guidance his Department issues to local authorities on the receipt of gratuities and hospitality by staff. [291730]

Ms Rosie Winterton: The Department has issued no guidance on the receipt of gratuities and hospitality by local authority employees.

Local Government: Pay

John Mann: To ask the Secretary of State for Communities and Local Government which 100 elected local authority representatives had the highest total remuneration in the latest year for which information is available. [291990]

Ms Rosie Winterton: This information is not held centrally.

National Housing and Planning Advice Unit

Grant Shapps: To ask the Secretary of State for Communities and Local Government on what date the contracts of each member of the National Housing and Planning Advice Unit board expire; and what plans he has to renew each such contract. [292350]

Mr. Ian Austin: All board members' contracts expire on 31 October 2009. We will announce our decision on future board appointments after we have completed a review of the unit later this month.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many full-time equivalent staff members the National Housing and Planning Advice Unit employed in each of the last three years. [292352]

Mr. Ian Austin: The National Housing and Planning Advice Unit has employed the following full-time equivalent staff[1] over each of the last three years:

[1] Assumes permanent civil service staff only, excludes two temporary staff for part of period.

	Number
October 2006[1] to March 2007	1.42
April 2007—March 2008	12.25
April 2008—March 2009	12.66
April 2009—current	12.8

[1] NHPAU established and first started incurring staff salary costs in October 2006.

In addition, the unit also currently has six board members who work for the unit for up to a maximum of 30 days per year each.

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether his Department has reviewed the effectiveness of the National Housing and Planning Advice Unit's remit. [292454]

Mr. Ian Austin: A review of the unit began in August and is expected to conclude shortly.

Refuges: Domestic Violence

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many domestic violence refuges there are in each local authority area in England and Wales. [292520]

Mr. Ian Austin: The Department does not collect this information.

There is a range of support for victims of domestic violence. Some victims will be accommodated in refuges, but sanctuary schemes and mainstream local authority accommodation may be an option for others, while some victims will pursue independent solutions with help and advice from support schemes as necessary.

The Department has recently commissioned new research that will identify the current housing options available to households at risk of domestic violence, and to assess whether this provision meets current need. It will involve establishing the extent and type of temporary and settled accommodation available for households at risk of domestic violence in England, including the provision of housing related support services delivered to both temporary and settled accommodation, and to households' own homes. This will report early next year. Whether it will show a breakdown in each local authority depends on how many local authorities respond to the research. As the research is still ongoing we are currently unable to determine what the response rate is.

In 2003 the Government announced major investment in refuge provision in England in 2003-06. A total of £34 million capital was allocated and 511 units of accommodation were refurbished or newly built. More recently the Hostels Capital Improvement Programme (2005-07) funded six new and refurbished refuges at a cost of £4 million.

CLG provides essential revenue support for victims of domestic violence through the Supporting People Programme. £64.5 million in 2007-08 up from £61.6 million in 2006-07.

Information for Wales has not been included as provision of refuges is a devolved matter.

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many domestic violence refuges have closed in the last five years. [292521]

Mr. Ian Austin: The Department does not collect this information.

Regional Planning and Development

Grant Shapps: To ask the Secretary of State for Communities and Local Government what representations his Department has received on clarification of aspects of the Town and Country (General Permitted Development Order) (Amendment) (No. 2) (England) Order; and if he will make a statement. [292456]

Mr. Ian Austin: The Department has received a number of representations from organisations and individuals seeking clarification on issues arising from the Town and Country (General Permitted Development Order) (Amendment) (No. 2) (England) Order 2008. The representations include concerns about the way the order is being interpreted by planning authorities.

I have asked my officials to undertake an assessment of all the matters that have been raised since the introduction of the order. Once that is completed, they will meet with stakeholders to discuss these issues further.

Social Rented Housing: Cornwall

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many properties are expected to be added to the stock of social rented housing in Cornwall through *(a)* construction and *(b)* purchase in each of the next five years. [291599]

Mr. Ian Austin: The Homes and Communities Agency is delivering a £59 million affordable housing investment programme in Cornwall over the 2008-11 period. In 2008-09, 209 new social homes for rent were completed in Cornwall. 539 new social homes for rent are expected to be completed in 2009-10 and a minimum of 365 new social homes for rent are expected to be completed in 2010-11. Approximately 52 homes were bought from developers on the open market for social rent in 2008-09 and 79 homes are expected to be bought from developers on the open market for social rent in 2009-10. There are no estimates for future years.

Social Rented Housing: Standards

Robert Neill: To ask the Secretary of State for Communities and Local Government whether any changes are planned to levels of Decent Homes funding to fund the other housing measures announced in the Draft Legislative Programme. [289545]

Mr. Ian Austin: There are no current planned changes to levels of Decent Homes funding to fund other housing measures announced in the Draft Legislative Programme.

Mr. Betts: To ask the Secretary of State for Communities and Local Government when expenditure is planned to start under the Decent Homes programme to improve the standards of rented homes under the management of Round 6 arm's-length management organisations which have gained a two-star rating. [289905]

Mr. Ian Austin: Four Round 6 ALMOs—Haringey, Blackpool, Enfield and Stevenage—have funded Decent Homes investment programmes. On 14 July, as part of the Housing Pledge announcement, the Minister for Housing announced that those remaining Round 6 ALMOs, who had yet to qualify for Decent Homes funding on that date, are more likely to receive their capital allocations in 2011-12, subject to the ALMO achieving the Audit Commission inspection rating required.

Mr. Betts: To ask the Secretary of State for Communities and Local Government how much money is planned to be diverted from the arm's length management organisations decent homes programme in *(a)* 2009-10 and *(b)* 2010-11 to contribute to funding the building of new homes. [289919]

Mr. Ian Austin: There are no plans to divert funding from the Decent Homes programme in 2009-10. In 2011-11, £150 million has been reprioritised from the programme to fund the Housing Pledge initiative to contribute to the building of new homes.

Ms Keeble: To ask the Secretary of State for Communities and Local Government what estimate he has made of the proportion of former council properties transferred out of council ownership through local authority stock transfer which meet the Decent Homes standard. [290228]

Mr. Ian Austin: As at 31 March 2009, the proportion of homes owned by registered social landlords that own stock transferred from local authorities, which met the Decent Homes Standard was 88.1 per cent.

Source:
RSR 2009

Ms Keeble: To ask the Secretary of State for Communities and Local Government what estimate he has made of the proportion of properties owned by arm's-length management organisations which meet the Decent Homes standard. [290229]

Mr. Ian Austin: Information reported by local arm's-length management companies in 2008 on dwellings that meet the Decent Homes standard show that 69 per cent. of their homes met the standard.

Ms Keeble: To ask the Secretary of State for Communities and Local Government what estimate he has made of the proportion of homes owned by registered social landlords which meet the Decent Homes standard. [290231]

Mr. Ian Austin: As at 31 March 2009 the proportion of homes owned by registered social landlords which met the Decent Homes standard was 91.7 per cent.

Source:
RSR 2009

Social Rented Housing: West Yorkshire

Greg Mulholland: To ask the Secretary of State for Communities and Local Government what steps he plans to take to increase the standard of social housing in *(a)* West Yorkshire and *(b)* Leeds North West constituency in the next 12 months. [292117]

Mr. Ian Austin *[holding answer 12 October 2009]:* The Government have provided significant funding to support delivery of Decent Homes Programmes in the social housing sector across West Yorkshire. Such works will help to uplift the condition of housing which is currently deemed non-decent. With the exception of the Wakefield local authority area all other local authority areas in the West Yorkshire sub-region are on track to complete the decency programmes in line with the December 2010 deadline.

In terms of Leeds North West, the Arm's-Length Management Organisation, West North West is on track to deliver decent homes by 2010-11. Significant investment of £1.5 million in 2009-10 and £1.8 million in 2010-11 will be made on decency works and essential maintenance. West North West has also set its own lettable standard which is published on the website and provides for a higher level decency.

In addition, West North West will be investing £74,000 in 2009-10 and £62,000 in 2010-11 on environmental works to complement housing investment and improve the standard of the public realm.

1,500 properties in West North West area will benefit from the Social Housing Energy Saving Programme which will provide insulation measures thus increasing levels of thermal comfort.

Leeds and Kirklees will also benefit from the recent first round announcement regarding the local authority new build programme which was announced in the budget and was recently strengthened by the Housing Pledge. This will provide much needed high quality additional social housing—63 units supported by £3.5 million in Leeds and 36 units supported by almost £2 million grant in Kirklees.

NORTHERN IRELAND

Departmental Motor Vehicles

Andrew Stunell: To ask the Secretary of State for Northern Ireland how much his Department spent on hire vehicles in each of the last five financial years. [291607]

Mr. Woodward: The following table shows how much the Northern Ireland Office, including the Public Prosecution Service Northern Ireland, but excluding its agencies and non-departmental public bodies has spent on hire vehicles in each of the last five financial years.

	£000
2004-05	70
2005-06	73
2006-07	50
2007-08	74
2008-09	73

ENERGY AND CLIMATE CHANGE

Climate Change: Import Duties

Gregory Barker: To ask the Secretary of State for Energy and Climate Change what progress has been made on the Doha Declaration paragraph 31 commitment to reduce or eliminate tariffs and non-tariff barriers on environmental goods and services. [289736]

Mr. McFadden: I have been asked to reply.

The Doha Round remains the UK Government's top trade priority and we will continue to work closely with our EU and international partners to secure a deal as early as possible.

Trade liberalisation of environmentally friendly goods and services is an important part of the negotiations. The World Trade Organisation's Committee on Trade and Environment, which is mandated to take forward these negotiations, recently met where all parties, including the EU, reaffirmed their commitment to the negotiations. The UK Government are committed to seeking an early resolution that will support the comprehensive global deal on climate change that we are seeking in Copenhagen this December.

UK Low Carbon Transition Plan

Gordon Banks: To ask the Secretary of State for Energy and Climate Change against what criteria he expects his Department to decide on the location of the 15 test hubs as identified in the UK Low Carbon Transition Plan; and when he expects that decision to be taken. [illegible]

Joan Ruddock *[holding answer 9 September 2009]*: The criteria against which we will be short-listing the 20 test hubs were published on 28 September and we have invited local authorities in England, Wales and N Ireland to participate.

The criteria can be found at

http://www.decc.gov.uk/en/content/cms/what_we_do/consumers/lc_communities/lc_communities.aspx

We expect to announce the location of these short-listed test hubs by the end of this year or early next year.

Warm Front Scheme

John Mann: To ask the Secretary of State for Energy and Climate Change how much has been paid to Eaga since the inception of the Warm Front scheme. [illegible]

Mr. Kidney: Payments for Warm Front heating, insulation and other energy efficiency measures, as well as scheme administration, are made to the main contractor, Eaga plc. Eaga deliver these measures through a network of subcontractors. The total value of payments made to Eaga since the beginning of the current phase of the scheme in June 2005 is £1,494 million.

WOMEN AND EQUALITY

Human Rights: Gender

Lynne Jones: To ask the Minister for Women and Equality what assessment she has made of the recommendations for Council of Europe member states on human rights and gender identity made by the Council of Europe's Commissioner for Human Rights on 29 July 2009; and if she will make a statement. [illegible]

Michael Jabez Foster *[holding answer 12 October 2009]*: We are aware of the Commissioner for Human Rights' issue paper on Human Rights and Gender Identity.

We are considering carefully the recommendations he has made and will make clear the Government's response in due course.

WORK AND PENSIONS

Housing Benefit: Expenditure

Grant Shapps: To ask the Secretary of State for Work and Pensions (1) what percentage of the expenditure of her Department and its predecessors on housing benefit was related to *(a)* social tenants and *(b)* private tenants in each year since 1997; [illegible]

(2) how much has been spent on housing benefit for *(a)* private tenants and *(b)* social tenants in each year since 1997. [illegible]

Helen Goodman: The information is in the following table.

Housing benefit expenditure on social and private tenants (£ million and as a percentage of the total expenditure)

	£ million		*Percentage*	
	Social tenants	*Private tenants*	*Social tenants*	*Private tenants*
1997-98	7,340	3,437	69	31
1998-99	7,883	3,180	71	29
1999-2000	8,098	2,966	73	27
2000-01	8,311	2,851	74	26
2001-02	8,768	2,827	76	24
2002-03	9,615	3,040	76	24
2003-04	9,326	3,028	75	25
2004-05	9,813	3,361	74	26
2005-06	10,222	3,723	73	27
2006-07	10,716	4,143	72	28
2007-08	11,239	4,513	71	29

Notes:

1. Expenditure figures are in millions of pounds, in cash terms.
2. Figures include all housing benefit expenditure, whether funded by DWP and its predecessors, or by local authorities.
3. Figures include expenditure on discretionary housing payments.

Source:

Local authority subsidy returns and housing benefit administrative data.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions how many sanctions were imposed on incapacity benefit claimants who missed their *(a)* first, *(b)* second and *(c)* third work-focused interview in each quarter since 2003. [291008]

Jonathan Shaw *[holding answer 14 September 2009]*: Data are not available in the form requested.

Minimum Wage: Apprentices

Dr. Starkey: To ask the Secretary of State for Work and Pensions what assessment she has made of the merits of applying the national minimum wage to apprentices. [290989]

Mr. McFadden *[holding answer 14 September 2009]*: I have been asked to reply.

The effects of the NMW on younger workers need to be considered carefully to avoid damaging incentives between education and work and ensure the employment prospects of younger workers are not adversely affected.

We know that young workers experience substantially worse unemployment and employment rates than adults. Both are more sensitive to the economic cycle. That is why the Low Pay Commission recommended a separate youth rate from the outset in 1999 and continues to believe there is a case for retaining them. Government and the LPC are concerned that removing the youth rates could adversely affect employment levels for this group. Earlier this year, the LPC recommended that 21-year-olds be entitled to the adult minimum wage. We have accepted this recommendation but, given the current economic conditions, stated that this change will be implemented from October 2010.

HOUSE OF COMMONS COMMISSION

Members: Email

Mr. Hurd: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer to the right hon. Member for Horsham (Mr. Maude) of 24 April 2009, *Official Report*, column 948W, on Members: email, whether hon. Members' staff are permitted to install on parliamentary computers the encryption software recommended by Parliamentary Information and Communication Technology service. [288673]

Nick Harvey: Yes.

Mr. Hurd: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer to the right hon. Member for Horsham (Mr. Maude) of 2 March 2009, *Official Report*, column 1212W, on Members: email, if the Commission will introduce remote access software with which Pretty Good Privacy (PGP) software is compatible to ensure that PGP software can be used on hon. Members' computers. [288675]

Nick Harvey: No, as the product is not compatible with software in use by Parliament.

Members: Security

John Mann: To ask the hon. Member for North Devon, representing the House of Commons Commission if the House of Commons Commission will publish a list of the names of parliamentary passholders sponsored by each hon. Member before the start of the next parliamentary session. [292083]

Nick Harvey: The names of parliamentary passholders are the individuals' personal data. Disclosing these names would pose an unacceptable risk to the health and safety of the individuals. Some information on Members' staff (paid and unpaid) is available within the public Register of Interests:

http://www.publications.parliament.uk/pa/cm/cmsecret/memi01.htm

Visits

John Mann: To ask the hon. Member for North Devon, representing the House of Commons Commission what the estimated marginal cost of opening Parliament for visitors during the summer adjournment was in 2008; and how much income was received from paying visitors during that period. [292017]

Nick Harvey: The cost of running the summer opening programme in 2008 was £736,026 and the income received from paying visitors was £733,783.

The summer opening programme runs as a cost-neutral (self-financing) operation, the strategy being to break even over a three-year period. The current three-year period, for this purpose, is 2007-09.

TRANSPORT

Aviation: Fees and Charges

Mr. Swire: To ask the Minister of State, Department for Transport what discussions he has had with *(a)* BAA plc and *(b)* the Manchester Airport Group on the change to its methodology for aeronautical charges levied on airlines; and if he will make a statement. [292407]

Paul Clark: Oversight of the level of airport charges at price-controlled airports (currently Heathrow, Gatwick and Stansted) is normally a matter for the Civil Aviation Authority. However, as part of the Department's review of the economic regulation of airports officials have taken evidence from BAA, MAG and a number of other stakeholders (including other airports, airlines, and consumer representation bodies). We expect to announce the findings of the review later this year.

Aviation: Security

Andrew Mackinlay: To ask the Minister of State, Department for Transport if he will make it his policy to seek *(a)* additional powers for airport security personnel and *(b)* the creation of new and more specific offences in order to protect airline crews and passengers from bad behaviour by other passengers; and if he will make a statement. [292509]

Paul Clark: The information is as follows:

(a) All passengers entering the restricted zone of an airport are subject to screening and searching procedures; these procedures are conducted with the consent of the traveller. Failure by the passenger to undertake this requirement will result in refusal of entry into the restricted zone and aircraft. Security personnel are not state employees and do not have the same powers as control authorities (police and UK Border Agency); they operate by consent only. Where airport security personnel require support from enforcement powers they can request assistance from control authorities.

(b) There is already a range of specific offences related to disruptive passenger behaviour on board aircraft. We consider that existing policy and legislative penalties are sufficient to deal with such behaviour.

Dartford-Thurrock Crossing: Tolls

Mr. Evennett: To ask the Minister of State, Department for Transport how many times tolls have been suspended at the Dartford Crossing in the last 12 months. [292444]

Mr. Khan: The charges/tolls have been suspended on four occasions since 1 October 2008.

Three suspensions were planned overnight power outages for two hours each. The fourth occasion was for five and a half hours during a major power failure across south-east London.

Employment Tribunals Service

Justine Greening: To ask the Minister of State, Department for Transport how many times his Department has been taken to an employment tribunal in each of the last five years; what the reason cited in each case was; and in how many cases the tribunal found in favour of the *(a)* employee and *(b)* Department. [290590]

Chris Mole: The total number of employment tribunal cases in each of the last five years is broken down in the table following below and also include figures to date for 2009-10:

Financial year	*Number*	*Withdrawn*	*Settled*	*Ongoing*	*Found in favour of (a) employee*	*Found in favour of (b) Department*
2009-10	11	1	2	7	—	1
2008-09	39	9	12	16	—	2
2007-08	30	8	12	1	1	8
2006-07	9	1	3	—	—	5
2005-06	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—
2004-05	12	4	3		2	3

[1] Information withheld on grounds of confidentiality as less than five.

The cases above have not been broken down further by category in order to protect the confidentiality of the persons concerned. However, claims include unfair dismissal, sex, race and disability discrimination, declined applications of statutory flexible working requests and unlawful deduction from wages claims.

Overall, 23 were contested and decided at a full hearing of the Employment Tribunal.

Government Departments: Official Cars

John Mann: To ask the Minister of State, Department for Transport which Minister with a Government car recorded the lowest average daily mileage in that car in the year to 31 March 2009. [291998]

Paul Clark: The Government Car and Despatch Agency is responsible for providing ministerial cars. It does not record individual journey information and so is unable to calculate how much use each Minister has made of their official car and could provide an answer only at a disproportionate cost.

Rolling Stock

Norman Baker: To ask the Minister of State, Department for Transport how many of the additional rail carriages announced in the 2007 Rail White Paper have been ordered; and what the timetable is for the ordering of the remainder. [290299]

Chris Mole: 543 new vehicles have been ordered to date.

Following the Government's electrification announcement on 23 July the requirements for rolling stock have been radically altered. We will be publishing an updated Rolling Stock Plan setting out a revised strategy in the autumn.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Landfill: Pollution

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment his Department has made of the effects on public health of leakage from landfill sites into aquifers. [292109]

Dan Norris *[holding answer 12 October 2009]:* No recent specific assessment has been made by DEFRA on leakage from landfills into aquifers.

Landfills are subject to strict permitting requirements under European and domestic legislation concerning their location, design, operation, closure and aftercare in order to prevent harm to human health and the environment.

In 2004, the Government published a report that assessed the environmental and health effects of different types of waste management facilities. It looked at leakages from municipal solid waste landfills to surface water and groundwater. It stated:

> "While the lack of data means that the numbers themselves are of poor quality, they indicate that emissions from waste management are a very small proportion of total UK emissions".

Waste Disposal: Greater Manchester

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what provision has been made by the Government for the underwriting of the recently-agreed Greater Manchester Waste Disposal Authority private finance initiative scheme. [291994]

Dan Norris: DEFRA has made no provision for the Government to underwrite the recently agreed Greater Manchester Waste Disposal Authority (GMWDA) private finance initiative (PFI) scheme. DEFRA has, however, provided £124,500,000 of PFI credits which assist GMWDA payment obligations under the contract itself. These payments made by GMWDA would only be made for services actually received.

Waste Management

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* London and *(b)* Greater Manchester waste authorities on their strategic waste management policies in respect of (i) site management of waste, (ii) locations of waste management sites and (iii) the combination of waste technologies selected. [291991]

Dan Norris: The Secretary of State for Environment, Food and Rural Affairs spoke to the Greater Manchester Waste Disposal Authority about the work they are doing on waste management when he went to Manchester on 24 September. Helen Ghosh, DEFRA's permanent secretary, also visited the Waithlands Recycling Centre in Greater Manchester on 5 August.

No recent discussions have been held with the London waste authorities.

Waste: Renewable Energy

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have embarked on local consultation on their energy-from-waste strategy since the publication of the UK Renewable Energy Strategy. [291986]

Dan Norris: In order for a local authority to submit an outline business case (OBC) to request private finance initiative (PFI) credits, they must have embarked upon a public consultation exercise.

Since the publication of the UK Renewable Energy Strategy, DEFRA has not received any new OBCs, therefore we are not aware of any consultations.

Water: Meters

Andrew Stunell: To ask the Secretary of State for Environment, Food and Rural Affairs how many water meters were installed in residential dwellings by water supply companies in each water supply area in each of the last three years. [289271]

Huw Irranca-Davies: The following table sets out the number of meters water supply companies have installed in households in the last three years.

Total household meters installed each year

	2006-07	2007-08	2008-09
Water and sewerage companies			
Anglian (including Hartlepool Water)	25,516	28,586	33,222
Dwr Cymru	18,753	15,042	19,947
Northumbrian Water (including Essex and Suffolk Water)	41,743	34,489	31,292
Severn Trent Water	38,594	33,215	44,331
South West Water	26,330	28,528	23,162
Southern Water	35,847	19,224	21,160
Thames Water	47,204	34,519	36,288
United Utilities	39,503	37,734	58,240
Wessex Water	11,325	11,277	18,570
Yorkshire Water	32,391	25,176	40,144

TREASURY

Banks: Regulation

Mr. Cash: To ask the Chancellor of the Exchequer what steps he has taken in the last three months to require banks to provide *(a)* financial resources and *(b)* credit lines to companies and businesses which wish to purchase construction and agricultural vehicles and equipment from UK companies. [247883]

Mr. McFadden *[holding answer 15 January 2009]*: I have been asked to reply.

The Government recognise that the current economic climate is causing significant difficulties for established businesses and start-up firms alike.

The recapitalisation of the banks and subsequent measures to support bank lending, are essential to secure and sustain a competitive UK lending market. This is essential for businesses given that the vast majority looking for finance will continue to seek support from mainstream lenders, and not from Government supported schemes.

The UK is the first country in the world to have negotiated legally binding lending commitments with banks receiving state support. The Royal Bank of Scotland have committed to £25 billion of additional net lending over the next 12 months, including £16 billion for lending to businesses. Lloyds have committed to an additional £3 billion of gross mortgage lending and £11 billion of additional net lending to businesses over the next 12 months. Both agreements are in effect immediately.

While supporting lenders to continue lending, the Government have also introduced targeted support for viable businesses who continue to struggle to raise finance from commercial sources. For small and medium businesses who find themselves on the margins of commercial lending decisions, the £13 billion Enterprise Finance Guarantee encourages lenders to extend their usual lending criteria by providing them with additional security in the form of a Government backed guarantee.

The Government continue to work with the banks and business representative bodies, through fora such as the Small Business Finance Forum, and we continue to monitor bank lending to SMEs, with the Bank of England.

The measures delivered by the Government are across all sectors, including the construction and agricultural sectors.

Business: Government Assistance

Lorely Burt: To ask the Chancellor of the Exchequer how many businesses have had an application for assistance from the business payment support service declined in each month since the scheme was introduced. [291968]

Mr. Timms: The business payment support service was introduced on 24 November 2008. To 27 September 2009 6,119 requests for time to pay tax due have not been agreed by HM Revenue and Customs (HMRC), representing 1.9 per cent. of the total requests received. Some businesses will have submitted more than one request.

The following table provides the monthly breakdown.

Period	*Requests not agreed*
24 November 2008 - 1 March 2009[1]	1230
2 March 2009 - 29 March 2009	414
30 March 2009 - 3 May 2009	522
4 May 2009 - 31 May 2009	407
1 June 2009 - 28 June 2009	473
29 June 2009 - 26 July 2009[2]	2263
27 July 2009 - 30 August 2009	422
31 August 2009 - 27 September 2009	388
Total	6119

Notes:

[1] Disaggregated figures are not available prior to 2 March 2009.

[2] Validation work in July 2009 led to the data capture of requests for time to pay agreements that had been processed but not previously entered on HM Revenue and Customs' management information systems.

Charities

Bob Spink: To ask the Chancellor of the Exchequer what grants his Department made to charitable organisations in each of the last five years. [292658]

Sarah McCarthy-Fry: The Treasury does not hold a central record of payments made to charitable organisations and the information could be provided only at disproportionate cost.

Child Benefit

John Mann: To ask the Chancellor of the Exchequer how much child benefit was paid to children living in each other EU country in the latest period for which figures are available. [292011]

Mr. Timms: According to the latest statistics there are 30,068 child benefit awards in payment in respect of 50,586 children resident in other member states. A geographical breakdown of these awards by member state can be found in the following table.

Country	*Number of awards at 8 October 2009*	*Number of children included in awards*
Austria	29	52
Belgium	153	297
Bulgaria	45	70
Cyprus	51	82
Czech Republic	197	340
Denmark	13	24
Estonia	17	30
Finland	16	29
France	1,256	2,346
Germany	311	529
Greece	51	81
Hungary	96	172
Iceland	2	4
Italy	175	300
Latvia	259	346
Lithuania	747	1,093
Luxembourg	14	26
Malta	17	26
Norway	45	92
Poland	22,858	37,941
Portugal	222	329
Republic of Ireland	883	1,818
Romania	36	53
Slovakia	1,483	2,573
Slovenia	5	7
Spain	741	1,230
Sweden	57	107
Switzerland	104	216
The Netherlands	185	373
Totals	30,068	50,586

The value of the benefit paid is only available at disproportionate costs because under the EC social security co-ordinating regulations (EC Regulations 1408/71 and 574/72) not all awards of child benefit in respect of children living in other member states are made at the full UK rate.

Departmental Incentives

Justine Greening: To ask the Chancellor of the Exchequer what employee reward schemes are offered to staff of his Department; what the purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290604]

Sarah McCarthy-Fry: HM Treasury offers a wide range of benefits to all of its employees. A summary of these is published on its recruitment website:

http://recruitment.treasury.gov.uk/policyadvisors/rewards.php

Performance related pay increases and non-consolidated performance awards for all eligible staff are linked to the annual performance appraisal system. All staff below the Senior Civil Service are assessed against their peers in relation to the Treasury competency framework and the achievement of their performance objectives. Awards are paid in recognition of excellent performance throughout the appraisal year. Reward arrangements for staff in the Senior Civil Service are based on recommendations by the independent Senior Salaries Review Body.

HM Treasury also pays non-consolidated special performance awards to recognise exceptional performance for specific contributions or pieces of work during the year, or for situations outside the normal expectations of a post.

The following table gives details of the amounts paid and number of recipients of non-consolidated performance awards paid in 2008-09. For details of previous years, I refer the hon. Lady to the answer my predecessor gave to the hon. Member for Twickenham (Dr. Cable) on 17 November 2008, *Official Report*, column 164W.

HM Treasury non-consolidated performance pay awards paid in 2008-09

	No of staff[1]	*Amount paid (£000)*[2]
Performance awards[3]	437	1,090
Special performance awards[4]	411	164

[1] Non-consolidated awards were paid in 2008-09 in respect of staff performance in the 2007-08 performance appraisal year.

[2] Special performance awards are paid at various times during the year, and may relate to specific contributions or pieces of work completed in the previous year.

[3] The number of staff receiving bonuses includes individuals who received more than one bonus in the period.

[4] The amounts paid by HM Treasury excludes amounts recovered from external organisations to which staff were seconded at the time of payment.

Departmental Pay

John Mann: To ask the Chancellor of the Exchequer how many staff in his Department had a salary of more than £64,000 in the latest year for which figures are available. [291999]

Sarah McCarthy-Fry: 91 members of staff currently working at HM Treasury have a full-time equivalent consolidated base salary of more than £64,000.

Departmental Redundancy

Justine Greening: To ask the Chancellor of the Exchequer how many staff have *(a)* been dismissed and *(b)* had their contract terminated by the Department in each of the last five years; what the reason cited in each case was; and what the severance costs in relation to (i) dismissal and (ii) contract termination in each year were. [290600]

Sarah McCarthy-Fry: HM Treasury defines a dismissal as either the termination of a permanent contract for a major breach of its terms, or the non-renewal of a fixed-term contract. HM Treasury does not provide information relating to numbers of staff fewer than five where to do so might lead to the identification of protected information concerning individual cases.

In each of the five years to 2008-09, fewer than five permanent staff were dismissed from HM Treasury. The table below shows the number and costs of non-renewals of fixed-term contracts in those years; of these 351 contracts, 167 related to staff working at HM Treasury under its student placement schemes.

Fixed-term contracts not renewed at HM Treasury 2004-05 to 2008-09

	Number	Costs (£000)
2004-05	74	—
2005-06	49	0·5
2006-07	62	—
2007-08	97	—
2008-09	69	—

Financial Services Authority

Bob Spink: To ask the Chancellor of the Exchequer what criteria the Financial Services Authority takes into account in regulating the take-over of listed public companies by Kazakh companies; and if he will make a statement. [291261]

Ian Lucas *[holding answer 16 September 2009]:* I have been asked to reply.

The Takeover Panel is the authority designated to supervise and regulate takeovers in the UK.

The Panel's statutory functions are set out in part 28 of the Companies Act 2006 and include powers to make rules governing the orderly conduct of takeovers in the UK as set out in the City Code on Takeovers and Mergers.

It would therefore be for the Panel to decide on issues of non-compliance with the rules in respect of takeovers in the UK. They may seek to enforce breaches of the Code through the courts and the Financial Services Authority.

Insolvency: EC Action

Mr. Fallon: To ask the Chancellor of the Exchequer what estimate he has made of the likely cost to *(a)* the public purse, *(b)* insurance companies and *(c)* individuals of implementing the draft EU Solvency II Directive. [292092]

Sarah McCarthy-Fry *[holding answer 12 October 2009]:* A final estimate of the impact of the EU Solvency Directive cannot be made until the Commission publishes its proposals for Level 2 implementing measures. The Government's initial assessment of the impact is set out in the Explanatory Memorandum on the Level 1 Directive EM 6996/08: Amended proposal for a Directive of the European Parliament and of the Council on the taking-up and pursuit of the business of Insurance and Re-insurance, Solvency II.

Overseas Trade: Kazakhstan

Bob Spink: To ask the Chancellor of the Exchequer what his policy is on encouraging reciprocal investments between Kazakh and listed public companies; and if he will make a statement. [291262]

Ian Lucas *[holding answer 16 September 2009]:* I have been asked to reply.

The aim of UK Trade and Investment (UKTI) is to help companies to realise opportunities around the world that will deliver an economic benefit to the UK. To do this UKTI prioritises the markets that we are active in. UKTI offers a full range of services for companies who wish to do business in Kazakhstan through trade and investment teams based in Astana and Atyrau.

UKTI actively encourages investment into the UK from companies in many developed and some emerging markets. Although Kazakhstan is not a priority market for inward investment, UKTI assistance would be available to Kazakh companies who were interested in investing here.

Tax Collection: Administration

Mr. Wallace: To ask the Chancellor of the Exchequer if he will estimate the administration costs to HM Revenue and Customs of implementing the changes to tax collection recommended by the Calman Commission report. [289811]

Mr. Timms: The Government are considering carefully the recommendations made in the report by the Commission on Scottish Devolution chaired by Professor Sir Kenneth Calman, including issues around implementation.

Taxation: British Overseas Territories

John Mann: To ask the Chancellor of the Exchequer how much the Exchequer received in taxation from UK overseas territories in the latest period for which figures are available. [292518]

Mr. Timms: Taxation is a devolved competence in the UK overseas territories under the terms of their constitutions and UK tax legislation does not apply to them. Exceptionally, however, three overseas territories apply a withholding tax on income from savings of UK residents under the terms of an agreement with the UK providing for measures equivalent to the European Savings Directive.

The amounts paid to the United Kingdom by those overseas territories in relation to these withholding taxes for the most recent year available are shown in the following table.

Special Withholding Tax Received by the United Kingdom by virtue of European Savings Directive or equivalent agreements: Overseas Territory period ending in UK Tax year 2008-09, tax received in 2009 (as at September 2009)

UK Overseas territories	*Year end*	*Amount of withholding tax* *Approx. £ equivalent*
British Virgin Islands	31 December 2008	2,470.39
Gibraltar	30 June 2008	379,801.55
Turks and Caicos Islands	30 September 2008	2,901.36

SCOTLAND

Departmental Motor Vehicles

Andrew Stunell: To ask the Secretary of State for Scotland how much his Department spent on hire vehicles in each of the last five financial years. [291606]

Ann McKechin: The Scotland Office spend on hire vehicles in each of the last five financial years was as follows:

	Cost (£)
2004-05	10,938
2005-06	20,610
2006-07	10,441
2007-08	17,786
2008-09	19,076

The figures do not include the Government Car Service London costs for which I refer the hon. Member to the written ministerial statement issued on 16 July 2009, *Official Report*, column 79WS.

Departmental Public Expenditure

Mr. Brady: To ask the Secretary of State for Scotland which Minister in his Department has been assigned responsibility for overseeing the delivery of value for money in his Department; whether his Department has established a public sector reform team to implement service reforms; and if he will make a statement. [289734]

Ann McKechin: I have responsibility for overseeing the delivery of value for money at the Scotland Office. The Secretary of State and I both take an active role in ensuring that the Scotland Office delivers value for money in all its activities. The Scotland Office does not directly deliver services, so has not established a dedicated public sector reform team.

INTERNATIONAL DEVELOPMENT

Departmental Pay

Justine Greening: To ask the Secretary of State for International Development what employee reward schemes are offered to staff of his Department; what the purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290557]

Mr. Michael Foster: The Department for International Development operates non-consolidated performance related pay award schemes for:

Senior Civil Servants (SCS)

Staff in grades below SCS

The number of staff eligible and the cost of operating the schemes in the last five years are shown in the following table.

Non-consolidated performance related award scheme

		Cost (£) per year				
	Number of eligible staff	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
SCS	98	266,750	377,100	504,000	641,510	634,150
Below SCS grade	1520	230,600	515,865[1]	558,233	199,670[2]	736,815

[1] The significant increase in the value of awards from 2005-06 onwards is because changes to the Special Achievement Awards (SAA) scheme were introduced as part of a new pay deal in 2004-05.

[2] The SAA scheme for DFID staff below the SCS ended on 31 July 2007, with IBAS not becoming effective until the following reporting year (2008-09).

These non-consolidated costs are contained within the overall increases for pay awards agreed with HM Treasury as a small percentage of the total pay bills. Performance awards are not guaranteed and have to be re-earned each year. The main purposes of both schemes are to:

have clear links between pay and performance

encourage and reward sustained high performance against set criteria

comply with central Cabinet Office and HM Treasury frameworks and guidelines on pay and reward.

Developing Countries: Internet

Mr. Andrew Mitchell: To ask the Secretary of State for International Development how many children have accessed the One World Zone of the Gold Star Café internet site funded by his Department through the Development Awareness Fund. [291620]

Mr. Douglas Alexander: The Department for International Development (DFID) funded the One World Zone of the Gold Star Cafe internet site through the Development Awareness Fund from April 2006 to March 2009. During the three years of DFID support to the zone, there were approximately 90,000 visits.

FOREIGN AND COMMONWEALTH OFFICE

Breaking the Silence: Finance

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding his Department provided through UK embassies and overseas missions to the non-governmental organisation Breaking the Silence between April 2006 and April 2009. [291997]

Mr. Ivan Lewis: The Government have spent £78,701 since April 2006 to support Breaking the Silence's educational tours of Hebron. This financial year we have allocated a further £38,233 to Breaking the Silence, again for their educational tours of Hebron.

The Government fund Breaking the Silence through the Conflict Prevention Pool, which is managed jointly by the Department for International Development, the Foreign and Commonwealth Office and the Ministry of Defence. It is a shared budget to support the Government's conflict prevention policies.

Departmental Manpower

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff there were in his Department *(a)* in 1997 and *(b)* on the latest date for which figures are available. [292063]

Chris Bryant: There have been numerous organisational changes in the Foreign and Commonwealth Office (FCO) since 1997. Explaining changes in staff strength over that period is, therefore, not straightforward. In 1997 the FCO employed 5,539 Full Time Equivalent UK based staff, including those working on entry clearance. The comparable figure for 1 October 2009 is 5,478. This includes just under 950 staff in FCO Services, which is now a Trading Fund but excludes staff working on entry clearance. This function has transferred to the UK Border Agency (UKBA)—an agency of the Home Office.

The reduction in FCO numbers since 1997 is the net effect of:

the transfer to UKBA of the entry clearance function;

expansion in the consular and migration functions; and

efficiency savings in other areas.

Iraq: Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Iraq on the treatment of those living in Camp Ashraf. [292431]

Mr. Ivan Lewis: Our ambassador in Iraq met with the Iraqi Human Rights Minister on 6 October 2009 to discuss the situation at Camp Ashraf and the latest developments surrounding the 36 camp residents who were arrested on 28 July 2009. Our ambassador has also raised the issue with the Iraqi Prime Minister's office and the Minister of Internal Affairs.

We remain in close contact with the US, UN and EU, who regularly discuss the issues around the camp with the Iraqi authorities. Also, our UK Representative to the UN in Geneva has also discussed the situation with the UN High Commissioner for Human Rights.

Officials from our embassy in Baghdad visited the camp on Saturday 26 September 2009. They confirmed that Iraqi police and Iraqi Security Forces were present inside the camp, and were co-operating peacefully with the residents.

Members: Correspondence

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter of 11 March from the right hon. Member for Tonbridge and Malling on behalf of Mrs. Debra Guneri. [291047]

Mr. Woolas *[holding answer 14 September 2009]*: I have been asked to reply.

The right hon. Member's letter was passed to me for reply and I replied on 7 September.

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will request the High Commissioner to South Africa to ensure that the hon. Member for West Chelmsford receives a response to the matters raised in his letters to the High Commissioner of 17 July 2009, 13 August 2009 and 7 September 2009 and his telephone conversations with the High Commissioner on 16 September 2009 about the case of Mr. Ian Freshwater of Chelmsford. [292154]

Chris Bryant: Foreign and Commonwealth Office officials have drawn this request to the attention of the South African high commission in London. Officials at the South African high commission will follow up this request.

Morocco: Travel Restrictions

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received concerning *(a)* the detention in Morocco of six Western Saharan students who were to travel to the UK and *(b)* Morocco's obligations under Article 12 of the International Covenant on Civil and Political Rights. [292453]

Mr. Ivan Lewis: The Government have received representations from the UK-based Western Sahara Campaign, the Talk Together project in Oxford and the UN Association of Great Britain and Northern Ireland about the case of the Moroccan and Saharwi students prevented from travelling to the UK on 5 August 2009 to attend a conference on cross-cultural understanding and conflict resolution, organised by Talk Together.

Razouk Choummad

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will ask HM Ambassador in Rabat to investigate the detention on 1 September 2009 of Mr. Razouk Choummad. [292452]

Mr. Ivan Lewis: Our ambassador to Morocco and his staff at our embassy in Rabat have already sought clarification from the Moroccan Government regarding Mr. Razouk Choummad and the other Sahrawi students due to take part in an event in Oxford in August this year.

The Government made clear to the Moroccan authorities that they regretted that the students had been prevented from travelling to the UK and that they were concerned by allegations of the disproportionate use of force.

The Moroccan Government have told us that they remain open to participating in future events organised by Talk Together and have investigated the allegations of mistreatment, which they deny. We will continue to seek further clarification from the Moroccan authorities.

Yemen: Armed Conflict

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss the conflict in Yemen with his Saudi Arabian counterpart. [291975]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary discussed Yemen with His Royal Highness Prince Saud Al Faisal on a number of occasions, most recently earlier this month. The UK and Saudi Arabia are both committed to supporting the Government of Yemen in addressing the difficult challenges they face, including the conflict in the Northern region of Sa'dah.

We have welcomed the commitment by the Kingdom of Saudi Arabia to work with the UN to facilitate the safe passage of emergency relief supplies to the internally displaced persons in Northern Yemen. The UK will provide £2 million of additional humanitarian aid to the situation.

I will continue to discuss the situation in Yemen with His Royal Highness as and when the opportunity arises, and my officials will remain in regular contact with their Saudi counterparts.

DEFENCE

Armed Conflict: Children

Mrs. Riordan: To ask the Secretary of State for Defence what plans he has to review the operation of the interpretative declaration on article 1 of the Optional Protocol to the UN Convention on the Rights of the Child on the Involvement of Children in Armed Conflict for the purposes of *(a)* taking steps to ensure that children are not exposed to the risk of taking direct part in hostilities and *(b)* monitoring Government compliance with the spirit of the Optional Protocol. [291448]

Bill Rammell: There are no plans to review the operation of the interpretative declaration on article 1 of the Optional Protocol to the UN Convention on the Rights of the Child on the Involvement of Children in Armed Conflict. Government policy is that Service Personnel under the age of 18 are not routinely deployed on operations outside the UK. The exception to this is where the operation does not involve personnel becoming engaged in or exposed to hostilities, such as disaster relief.

The MOD believes that its policies on under 18s are robust and compliant with national and international law. We remain fully committed to meeting our obligations under the United Nations Convention on the Rights of the Child on the Involvement of Children in Armed Conflict.

Mrs. Riordan: To ask the Secretary of State for Defence what training has been delivered to armed forces personnel on the Optional Protocol to the UN Convention on the Rights of the Child on the involvement of children in armed conflict; and how many such personnel have completed that training. [291674]

Bill Rammell: All members of the armed forces receive training on the Law of Armed Conflict (LOAC) shortly after joining and regularly throughout their careers.

The UK armed forces do not routinely train all personnel on the Optional Protocol specifically, but personnel involved in handling prisoners of war, internees and detainees receive training which addresses the handling of juveniles and children.

Electronic Warfare

Dr. Julian Lewis: To ask the Secretary of State for Defence what discussions he has held with his US counterpart on vulnerability to electromagnetic pulse attacks; and if he will make a statement. [289837]

Mr. Bob Ainsworth *[holding answer 12 October 2009]*: Defence equipment and systems are procured against a set of specifications that includes appropriate protection against electromagnetic attack. These specifications are informed by appropriate consultation at expert level with relevant experts.

Littoral Warfare: Helicopters

Andrew Rosindell: To ask the Secretary of State for Defence what recent assessment he has made of the adequacy of training provided for helicopter pilots participating in amphibious operations. [290328]

Bill Rammell: The UK amphibious helicopter capability is provided by the Commando Helicopter Force operating Sea King Mk 4 and Lynx Mk 7 helicopters, augmented when required by Chinook and Apache helicopters.

The initial training provided to helicopter pilots as part of the Commando Helicopter Force is considered satisfactory. The tempo of land operations over recent years has had an impact on the ability to conduct amphibious operations. Nevertheless, small scale exercises have been achieved and a minimal level of currency and competency for amphibious operations maintained.

Military Aircraft: Helicopters

Angus Robertson: To ask the Secretary of State for Defence what the timescale is within which the helicopter fund announced by the Prime Minister will deliver 11 helicopters. [289530]

Mr. Bob Ainsworth: The first helicopters will be deployed in Afghanistan before the end of 2009. On current plans, further deliveries will take place in 2010 and will complete by the end of 2013.

Additional contributions to the fund would increase the total.

Mr. Hancock: To ask the Secretary of State for Defence what estimate he has made of the length of time it would take *(a)* to place an order for new Merlin helicopters, *(b)* for Agusta Westland to manufacture the new helicopters and *(c)* for the armed forces to bring the new helicopters into service after delivery. [292330]

Mr. Quentin Davies: We recently reviewed whether the acquisition of new medium helicopters could be advanced in lieu of the planned life-extension of the Puma helicopter. Several companies, including Agusta Westland provided outline cost and delivery information for their potential candidate aircraft in support of this review. For reasons of commercial confidentiality, we cannot disclose details of their proposals, including delivery estimates.

More generally, the timescales for procurement decisions are dependent on the urgency of the capability need, the value and complexity of the procurement, and the time needed to demonstrate that the solution meets the requirement and represents value for money. We have 'fast track' arrangements for those capabilities required urgently for operations. Once manufactured, it can take significant time to bring a helicopter to the standard required to meet any role, mission or theatre specific requirements, to train crews (and maintainers) accordingly, and to ensure that the aircraft meets the required specification and airworthiness standards, and can withstand the rigours of war.

Territorial Army: Training

Mr. Lancaster: To ask the Secretary of State for Defence what assessment he has made of the effects on the deployability of the Territorial Army of the limitation on man training days. [292125]

Bill Rammell *[holding answer 12 October 2009]:* The Army is on a campaign footing with activity focused on support to current operations.

Man training days are being prioritized to ensure that mobilised TA personnel continue to be properly prepared for their operational roles, prior to deploying alongside their regular counterparts.

HEALTH

Cancer Services

14. **Mr. Baron:** To ask the Secretary of State for Health what recent assessment he has made of the adequacy of provision of cancer services in *(a)* Billericay constituency and *(b)* England; and if he will make a statement. [292241]

Ann Keen: The first annual report of the "Cancer Reform Strategy", published in December 2008, is the most recent assessment of cancer service provision in England. The report showed that good progress is being made against the objectives of the Strategy.

Funding for local health services has been allocated to primary care trusts (PCTs) on the basis of the relative needs of their populations. It is therefore for South West Essex PCT in partnership with East of England Strategic Health Authority and the local Cancer Network to make an assessment of cancer services in Billericay.

Dentistry

15. **Mr. Vara:** To ask the Secretary of State for Health what recent assessment he has made of levels of access to NHS dentistry in England. [292242]

Ann Keen: More than 27.6 million people saw an NHS dentist in the 24 months ending June 2009. This is almost three quarters of a million more than in the same period ending June 2008. The number of dentists working in the NHS, and the number of courses of NHS dental treatment provided are also growing steadily. We have invested a record £2 billion in dentistry and set up a national access programme to help the NHS deliver its goal of access for all who seek it by 2011. We therefore expect access to continue to increase.

PCT Boundaries

16. **John Mann:** To ask the Secretary of State for Health what assessment he has made of the effect of the restructuring of primary care trust boundaries on the delivery of healthcare. [292243]

Mr. Mike O'Brien: Proposals for the reconfiguration of services are a matter for the NHS locally, working in conjunction with clinicians, patients and other stakeholders and advocated through Lord Darzi's 2008 publication "Leading Local Change".

East Lancashire Hospitals NHS Trust

17. **Mr. Gordon Prentice:** To ask the Secretary of State for Health when he expects to receive an application for foundation trust status from East Lancashire Hospitals NHS Trust. [292244]

Mr. Mike O'Brien: I expect East Lancashire Hospitals National Health Service Trust to make a foundation trust application late in 2010.

Emergency Care

18. **Greg Mulholland:** To ask the Secretary of State for Health what recent assessment he has made of the delivery of emergency care in *(a)* independent sector treatment centres and *(b)* NHS hospitals. [292245]

Mr. Mike O'Brien: Independent sector treatment centres provide elective care, not emergency care.

Primary care trusts commission national health service hospital trusts to provide emergency care services according to local needs and monitor performance.

The Department has set an operational standard that 98 per cent. of patients should not spend more than four hours in accident and emergency departments.

National annual performance against the standard was 98.1 per cent. in 2008-09.

Strategic Health Authorities

19. **Miss McIntosh:** To ask the Secretary of State for Health what assessment he has made of the role of strategic health authorities in promoting public health. [292246]

Gillian Merron: The Strategic Health Authority Assurance Framework reaffirms their role in promoting public health by including a specific section on "Improving and protecting Health and Wellbeing".

Combining self-assessments and site visits, a Panel chaired by the Department will assess performance against the Framework over the next few months.

Swine Flu

20. **Mark Pritchard:** To ask the Secretary of State for Health what steps his Department is taking to assist acute hospital trusts in which levels of accident and emergency department admissions have increased as a result of the swine influenza pandemic. [292247]

Gillian Merron: The NHS, including acute hospitals, has been preparing for pandemic influenza for several years, and all organisations have robust plans in place that cover the whole health economy. These have recently been tested by a series of comprehensive exercises and confirmed by each Board's assurance statements during September.

The Department has also issued guidance on surging capacity so that hospitals can care for increased numbers of admissions.

National No Smoking Day

21. **Dr. Richard Taylor:** To ask the Secretary of State for Health what plans his Department has to fund National No Smoking Day in 2010; and if he will make a statement. [292248]

Gillian Merron: We will make funding available for No Smoking Day's 2010 campaign at around the same level as last year, on a regional basis.

Waiting Times

22. **Shona McIsaac:** To ask the Secretary of State for Health what recent assessment he has made of the length of waiting times in North Lincolnshire and Goole NHS Foundation Trust; and if he will make a statement. [292250]

Mr. Mike O'Brien: In July 2009, 99.4 per cent. of admitted patients, and 98 per cent. of non-admitted patients at the trust started consultant-led treatment within 18 weeks of referral.

Staff at the trust should be congratulated for their efforts in helping to bring about this achievement.

Out-of-hours Care: London

23. **Simon Hughes:** To ask the Secretary of State for Health what recent assessment he has made of the provision and quality of out-of-hours care in London. [292251]

Mr. Mike O'Brien: Primary care trusts have a legal requirement to provide high quality out-of-hours cover for the local population, and strategic health authorities are responsible for the performance management of PCTs in their region. The 2008 Healthcare Commission review of urgent and emergency care found that the NHS has significantly improved performance since 2005.

PCT Funding

24. **Andrew George:** To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of the primary care trust allocation formula used in 2009-10. [292252]

Mr. Mike O'Brien: The independent Advisory Committee on resource allocation keeps the formula under continual scrutiny, updating it to account for new information and data, changes in service provision and health outcomes. The 2009-10 formula builds and improves on the previous formula, targeting funding where it is needed most.

Accident and Emergency Departments: Greater London

Mr. Evennett: To ask the Secretary of State for Health how many accident and emergency departments in Greater London were not open 24 hours a day on the latest date for which information is available. [291724]

Mr. Mike O'Brien: By definition a Type 1 accident and emergency (A&E) department must be open 24 hours a day. All other types of A&E departments need not be open for that period. The opening times of departments are not collected centrally.

Acute Beds

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* acute and *(b)* critical care beds were reported in situation reports to his Department as being in use in hospitals in each week since 1 April 2009. [291860]

Mr. Mike O'Brien: The requested information is contained in the following table. This is a snapshot of the number of beds available at midnight on the Thursday of the week. The availability of beds nationally will vary on an almost constant basis and therefore these figures should not be compared with data on critical care bed availability published in other formats. The data are validated locally but may be subject to revisions.

Number of acute and critical care beds, available and occupied, England, each week since April 2009

Period	*Adult critical care beds at midnight on the Thursday of the reporting period*		*Number of neonatal critical care cots (or beds) at midnight on the Thursday of the reporting period*		*Number of paediatric critical care beds at midnight on the Thursday of the reporting period*		*Total number of acute hospital beds at midnight on the Thursday of the reporting period*	
Week ending:	*Available*	*Occupied*	*Available*	*Occupied*	*Available*	*Occupied*	*Available*	*Occupied*
5 April 2009	3,265	2,901	1,081	816	359	258	104,869	95,509

Department of Health form—Weekly SitReps

Breastfeeding

Norman Lamb: To ask the Secretary of State for Health how many people have called the National Breastfeeding Helpline in each of the last two years. [291933]

Ann Keen: The National Breastfeeding Helpline was launched in February 2008. Since then, there has been a steady increase in the number of calls received. The total number of calls received between February 2008 and August 2009 is 24,087 as shown in the following table.

2008-09	*Number of calls received*
February 2008 to February 2009	11,430
March 2009 to August 2009	12,657
Total	24,087

Cancer: Diagnosis

Mr. Lansley: To ask the Secretary of State for Health how many additional *(a)* staff, *(b)* diagnostic centres and *(c)* diagnostics machines he estimates will be required to implement his proposals to provide patients with access to cancer diagnostics within one week of concerns being raised. [292540]

Ann Keen: On 29 September, my right hon. Friend, the Prime Minister announced plans to offer all patients in England access to tests which can confirm or exclude cancer within one week.

Remarkable progress has been made in reducing diagnostic waiting times to date. In April 2006 (when figures for diagnostic waiting times were first published) there were 404,200 waits over six weeks for diagnostic tests and the average time waited was six weeks. The number of waits over six weeks at the end of August 2009 was 4,000—a reduction of 98.9 per cent.—and patients can now expect to wait on average under two weeks for a diagnostic test.

Due to the record investment that this Government have already made since 1997, there are more than 42,000 extra scientific and therapeutic staff. By 2008, the number of consultants working in radiology had increased by 54 per cent. to 2,269, and the number of qualified radiographers employed in the national health service by 28 per cent. to 15,600, 13,400 of whom were working in diagnostics therefore the NHS is very well placed to deliver this commitment.

The commitment will be phased in over five years and where extra staff are required, these will be developed with the NHS and reflect service redesign and new models of delivery. The NHS already has a solid platform on which to build.

The appropriate balance between expanding existing diagnostic capacity and developing new models of delivery such as diagnostics centres will be considered in consultation with the National Quality Board and the NHS.

Initial estimates are that the extra activity required by the NHS in England over the five years of the programme equates to 155 pieces of Ultrasound equipment, 75 in Computed Tomography, 60 for Magnetic Resource Imaging, and 85 for Endoscopy , but this does not mean that the NHS will need to purchase this many new machines. Additional equipment requirements will be worked up with the NHS taking in to account new models of delivery and changes in working practices.

The proposal takes forward the commitment in the Government's "Cancer Reform" Strategy published in 2007, a copy of which has already been placed in the Library, to improve access to diagnostics in primary care. We will be consulting widely on the implementation of these proposals, working with the NHS, key stakeholders and the professions to ensure that this commitment to patients is successfully delivered.

Mr. Lansley: To ask the Secretary of State for Health how much he expects his proposals to provide patients with access to cancer diagnostics within one week of concerns being raised to cost *(a)* in each financial year for which figures are available and *(b)* in (i) capital and (ii) revenue costs over the period of the programme; and from which budgets the funding for the proposals will be taken. [292541]

Ann Keen: Further work is being undertaken to finalise the costs of implementing these plans, to refine the modelling and assumptions that underlie them. This will take account of the investment made to date in improving cancer and diagnostic services and new models of delivery.

Remarkable progress has been made in reducing diagnostic waiting times to date. In April 2006 (when figures for diagnostic waiting times were first published) there were 404,200 waits over six weeks for diagnostic tests and the average time waited was six weeks. The number of waits over six weeks at the end of August 2009 was 4,000—a reduction of 98 per cent.—and patients can now expect to wait on average under two weeks for a diagnostic test.

Initial estimates are as follows:

Capital costs will be about £650 million between the periods 2011-12 and 2014-15.

Early estimates of revenue costs are in the region of £1,250 million between the periods 2011-12 and 2014-15.

Final costing requirements and profiling will be worked up over the coming months in consultation with the national health service taking into account new models of delivery and changes in working practices.

The proposal takes forward the commitment in the Government's Cancer Reform Strategy published in 2007 to improve access to diagnostics in primary care. We will be consulting widely on the implementation of these proposals, working with the NHS, key stakeholders and the professions to ensure that this commitment to patients is successfully delivered.

The major programme of renovating and rebuilding NHS hospitals is nearing completion. As this winds down it will release the resources to switch into new diagnostic equipment.

CJD: Screening

Mr. Charles Kennedy: To ask the Secretary of State for Health when his Department expects to commence the second stage of trials for the anticipated blood test for variant Creutzfeldt-Jakob disease; and if he will make a statement. [292342]

Ann Keen: Evaluation of prototype variant Creutzfeldt-Jakob disease blood test is ongoing, and results of the latest round of tests are expected to be considered by the Creutzfeldt-Jakob disease Resource Centre Oversight Committee by the end of the year.

Departmental Advertising

Norman Lamb: To ask the Secretary of State for Health which initiatives of *(a)* his Department and *(b)* its agencies have been advertised in each of the last five years; how much was spent in each case; and which initiatives were advertised via the Central Office of Information. [292087]

Phil Hope: The following table shows the Department's advertising expenditure over the last five completed financial years. A further breakdown of these figures is available in the Library.

All departmental advertising listed as follows was carried out via the Central Office of Information (COI), with the exception of those initiatives highlighted with an asterisk. To identify other ad hoc expenditure not carried out via the COI would incur disproportionate cost.

Department of Health advertising spend[1] 2004-05 to 2008-09

Totals	32.73	27.47	23.92	26.24	56.43

[1] Advertising spend is defined as covering only media spend (inclusive of agency commissions but excluding production costs, COI commission and VAT). All figures exclude advertising rebates and audit adjustments and therefore may differ from COI official turnover figures. All figures are rounded to the nearest £10,000. These figures do not include departmental recruitment/classified advertising costs and ad hoc spend under £10,000. These figures may include occasional minor spend through COI by NHS organisations, to supplement national campaigns in their area. While this expenditure has been excluded as far as possible so that this chart reflects central departmental spend, it would incur disproportionate cost to validate that every item of NHS expenditure has been removed.

[2] Provisional figures.

[3] From 2006-07 Department of Health contribution to campaign run jointly with Home Office.

[4] Department of Health contribution to campaign run jointly with Home Office.

Departmental Electronic Equipment

Justine Greening: To ask the Secretary of State for Health how many *(a)* mobile telephones, (b) Blackberrys and *(c)* laptop computers, were issued to staff of his Department in each of the last five years; and how many of these were issued to (i) new staff and (ii) existing staff following the (A) loss or (B) theft of a previous device. [290438]

Phil Hope: The Department does not hold detailed historic information about its issue of mobile devices to staff, but with the advent of the new Human Resources System, Business Management System, and Asset Management tools, we can say that, as at the end of

August 2009, the number of mobile assets allocated to staff or business units was as follows:

Laptops: 2,431

Blackberry: 1,334

Mobile telephones: 1,008.

In addition the Department does not differentiate between devices issued to new staff or existing staff and therefore does not hold this information. However, the following table gives the number of devices lost or stolen in the last five years.

Losses and thefts for period April 2004 to March 2009

	Mobile telephones	Blackberrys	Laptops
2004-05	15	2	23
2005-06	11	4	18
2006-07	18	5	11
2007-08	21	9	14
2008-09	18	22	34
Totals	83	42	100

Departmental Manpower

John Mann: To ask the Secretary of State for Health how many staff there were in his Department *(a)* in 1997 and *(b)* on the latest date for which figures are available. [292864]

Phil Hope: According to the Departmental Report for 1998, there were 4,486 full time equivalent (FTE) civil servants in the 1996-97 financial year.

According to the Departmental Report for 2009 annual report there were 2,222 FTE civil servants in the 2008-09 financial year.

The Departmental Reports for the above years and the intervening years can be found at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/AnnualReports/index.htm#jumpTo1

Departmental Marketing

John Mann: To ask the Secretary of State for Health what the budget of his Department for publicity is in 2009-10. [292904]

Phil Hope: A total budget figure for the 2009-10 financial year cannot be provided at this stage as detailed planning for some campaigns is under way and advertising media allocations have not yet been finalised.

The Department's expenditure on advertising for the 2009-10 financial year to date is approximately £29.6 million.

This figure does not include the Department's recruitment/classified advertising costs. Advertising spend is defined as covering only media spend (inclusive of agency commissions but excluding production costs, Central Office of Information commission and VAT). All figures exclude advertising rebates and audit adjustments and therefore may differ from Central Office of Information official turnover figures.

Departmental Pay

Justine Greening: To ask the Secretary of State for Health what employee reward schemes are offered to staff of his Department; what the purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290447]

Phil Hope: The Department operates two reward systems for its permanent staff. The first, which is for staff below the Senior Civil Service (SCS), is geared towards recruiting and retaining staff with the right qualities to drive high performance within the organisation. The second system for SCS is based on annual recommendations from the independent Senior Salaries Review Body and its terms of reference can be found in its latest report at the following website:

www.ome.uk.com/review.cfm?body=4

The Department and its agencies also operate a scheme which allows managers to recognise outstanding contributions in particularly demanding situations. These in-year non-consolidated performance payments (IYNCPPs) for the past five years are shown in the following table. The growth in payments over the last three years is related to the abolition of pay flexibilities in the Department's 2006 Reward Strategy and the scheme is currently under review.

The Department operates a long service award scheme—a reward of either a monetary nature or special leave, which is given to staff in recognition of having served for more than 20 years. The figures available for the monetary payments are presented as follows. The information about leave taken instead of payment is not held centrally and would incur disproportional cost to establish.

Monetary payments

	2004-05		2005-06		2006-07		2007-08		2008-09	
	£	Number	£	Number	£	Number	£	Number	£	Number
IYNCPPs	420,720.92	555	351,886.09	465	326,897.99	256	486,257.35	457	709,386.14	786
Long service award	4,200.00	21	3,200.00	15	3,200.00	16	3,000.00	15	2,400.00	12
Total	424,920.92	576	355,086.09	480	330,097.99	272	489,257.35	472	711,786.14	798

The Department runs a child care voucher scheme and a cycle to work scheme.

Overall staff costs and numbers can be found in the Resource Accounts for each year. The websites for these documents are as follows:

Departmental Work Experience

Mr. Amess: To ask the Secretary of State for Health what provision is made to enable students to undertake work experience in his Department; and by what means members of the public may obtain information about work experience in his Department; and if he will make a statement. [illegible]

Phil Hope: The Department has committed to five places on the New Graduate Internships Programme announced by the Department for Business, Innovation and Skills earlier this year.

The Department has placed nine students on the Cabinet Office's Ethnic Minority Summer Development Programme this summer. This offers training placements in Government Departments to high calibre candidates from black and ethnic minority backgrounds or those with disabilities, with the aim of increasing representation from those groups in the Fast Stream and Senior Civil Service.

The Department also regularly takes on one-year placement students and summer students within the analytical community.

In addition, some directorates arrange work experience placements locally. As this information is not recorded centrally, it would incur disproportionate costs to collect all the information requested.

Diabetes

Keith Vaz: To ask the Secretary of State for Health how much and what proportion of the expenditure of each primary care trust was spent on *(a)* all services relating to diabetes and *(b)* campaigns to increase awareness of diabetes in the latest year for which information is available. [illegible]

Ann Keen: Estimates of primary care trusts' (PCTs) expenditure on diabetes are available from the programme budget returns.

A table which shows the estimated PCT reported expenditure on diabetes for 2007-08 in England has been placed in the Library. It should be noted that these figures do not include prevention expenditure or General Medical Services/Primary Medical services expenditure.

It is not possible to identify PCT expenditure on campaigns to raise awareness of diabetes.

General Practitioners: Training

Justine Greening: To ask the Secretary of State for Health how many GP surgeries have *(a)* applied for and *(b)* been granted funding to upgrade to become training practices in each strategic health authority area; how much has been granted to each successful surgery; and what assessment has been made of the effect of the length of implementation timescales on the (A) number and (B) quality of applications. [illegible]

Mr. Mike O'Brien: The number of general practitioner (GP) surgeries that applied for funding and the amount awarded to each practice is not available centrally.

More than 800 GP practices have been granted funding to improve and extend training facilities, significantly more than 600 envisaged at the outset of the programme.

Haemophilia

Mr. Charles Kennedy: To ask the Secretary of State for Health whether tissue or blood samples taken from UK haemophiliacs, and held as library samples, have been tested for the presence of diseases in the last three years without disclosure to the patients concerned; and if he will make a statement. [292346]

Ann Keen: The Department is not aware of any cases where samples from United Kingdom haemophiliacs have been tested without appropriate consent being given.

Heart Diseases: Health Services

Tim Farron: To ask the Secretary of State for Health what steps his Department is taking to improve access to angioplasty services in *(a)* Cumbria and *(b)* Lancaster. [292374]

Ann Keen: It is the responsibility of primary care trusts (PCTs) to plan, develop and improve health services according to the health care needs of their local populations. PCTs in Cumbria and Lancashire work closely with the Cumbria and Lancashire Cardiac Network to improve the quality of care for those affected by coronary heart disease. This is monitored by the PCTs and the North West strategic health authority in its role of overseeing performance.

Heroin: Clinical Trials

John Mann: To ask the Secretary of State for Health what methodology his Department used to calculate the average cost per patient of its clinical trials of medicalised heroin injections; how many patients undergoing the trials had a previous criminal record including a custodial sentence; how many patients were under the age of 30; and how many patients did not complete the trial. [292043]

Ann Keen: The results of the Randomised Injectable Opioid Treatment Trial are currently being written up by the National Addiction Centre which led this research. Once the report is published, a copy will be placed in the Library.

Home Care Services

Mr. Lansley: To ask the Secretary of State for Health (1) how much he expects his Department's proposals to give 350,000 people free personal home care to cost per year; from which budgets he expects the money to be drawn; how much is to be drawn from each budget; and what consequential reductions he expects to be made in other programmes funded from such budgets; [292399]

(2) what methodology he has used to define highest need in his proposals to give 350,000 people with the highest needs free personal home care; how he has

calculated that there are 350,000 people in need of this level of care; what estimate he has made of the average amount to be spent on each person per week under the proposals; how many hours of care each will receive on average per week; and whether he has included in the 350,000 anyone who presently receives any proportion of their home care free of charge. [292542]

Phil Hope: My right hon. Friend the Prime Minister has announced that the funding for the first full year would be £670 million. We will be working with stakeholders over the coming months and further clarity on the scope of the proposals will be published in due course. The money for this policy will be met from reprioritised central budgets and we will be working with stakeholders to make sure other services are not affected. We will need to ensure legislation is brought into force to define what high needs will be covered by this announcement in time for its commencement in October 2010.

Hospital Wards: Closures

Mr. Evennett: To ask the Secretary of State for Health how many hospital trusts in London have closed in-patient wards in the last 12 months. [292445]

Mr. Mike O'Brien: These data are not collected centrally.

Hospitals: Construction

Mr. Lansley: To ask the Secretary of State for Health how much he expects to be spent on each hospital building programme in each of the next five financial years. [292531]

Mr. Mike O'Brien: The public capital budget for the next financial year 2010-11 is £4,822 million (including Personal Social Services). However, full details of the capital expenditure programme for 2010-11 have not yet been finalised, which includes expenditure on public capital funded hospital building schemes.

Budgets for 2011-12 to 2013-14 will be decided as part of the next spending review.

The estimated capital expenditure arising from Private Finance Initiative hospital build schemes already under construction over the next five financial years is shown in table 1.

The capital values of public capital funded hospital build schemes over £10 million under construction (for which information is held centrally) and which will not complete until 1 April 2010 or later are shown in table 2.

Table 1: Private finance schemes under construction (plus the £418 million North Bristol NHS trust scheme)

			Estimated capital expenditure (£ million)				
Trust	*Description*	*Estimated completion date*	*2010-11*	*2011-12*	*2012-13*	*2013-14*	*2014-15*

Worcestershire PCT	Malvern Community Hospital	Q4 2010	134

Learning Disability

Norman Lamb: To ask the Secretary of State for Health (1) how much of the £175 million fund to build new homes in the community for people with learning disabilities has been spent in each year since the fund was established; [291931]

(2) with reference to his Department's press release of 9 August 2007, Opening the door to a new life for people with learning disabilities, what recent estimate he has made of the number of people still resident on NHS campuses. [291884]

Phil Hope: The Government are making good progress towards its commitment to close by 2010 national health service residential accommodation (campuses) for people with learning disabilities.

The NHS Information Centre undertake a twice yearly data collection of campus numbers in April and October and figures for April 2009 are currently being analysed. In August 2007, we estimated that there were around 2,100 people living in NHS campuses and by April 2009, there were around 1,000.

The Department invited primary care trusts to bid for capital from the £175 million fund in three stages and expenditure has been as follows:

	£ million
Stage 1—2007-08	5
Stage 2—2008-09	43
Stage 3—2009-10	52

Bids have also been made for 2010-11 and £15 million has been committed.

A total of £115 million has been spent or committed.

Midwives: Manpower

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent midwives the NHS employed in each strategic health authority area in each year since 2005. [291936]

Ann Keen: The number of full-time equivalent midwives in each strategic health authority area in each year since 2005 is set out in the following table.

National health service hospital and community health services: Qualified midwives in England by strategic health authority area as at 30 September each specified year

				Full-time equivalent
	2005	*2006*	*2007*	*2008*
England	18,949	18,862	19,298	19,639
North East strategic health authority area	1,011	1,003	1,025	1,063
North West strategic health authority area	3,094	3,138	3,111	3,032
Yorkshire and the Humber strategic health authority area	2,047	1,906	1,942	1,947
East Midlands strategic health authority area	1,310	1,294	1,322	1,351
West Midlands strategic health authority area	2,123	2,082	2,171	2,177
East of England strategic health authority area	1,725	1,742	1,806	1,801
London strategic health authority area	3,326	3,442	3,499	3,751
South East Coast strategic health authority area	1,320	1,325	1,382	1,413
South Central strategic health authority area	1,187	1,145	1,233	1,301
South West strategic health authority area	1,806	1,774	1,786	1,803

Note:
Figures are rounded to the nearest whole number.

The Information Centre Non-Medical Workforce Census.

Multiple Chemical Sensitivity Disorder

Mr. Vara: To ask the Secretary of State for Health what steps his Department is taking to ensure proper and effective NHS treatment for those diagnosed with multiple chemical sensitivity. [292437]

Ann Keen: The provision of services for investigation and treatment of allergy is decided locally by the national health service depending on need. The Department expects general practitioners to exercise their clinical judgment to decide appropriate specialist referrals for investigation of particular symptoms which may be due to allergy.

NHS Direct

Mr. Lansley: To ask the Secretary of State for Health how many calls NHS Direct has received in each week since 7 May 2009; and how long on average it took for such calls to be answered in each such week. [291493]

Mr. Mike O'Brien: The information requested is set out in the following table:

Week ending	*Calls received*	*Calls answered*	*Average answered delay (seconds)*
9 May 2009	55,125	40,606	30.52
16 May 2009	128,474	120,351	18.44
23 May 2009	119,386	111,942	23.14
30 May 2009	117,332	108,687	26.33
6 June 2009	107,345	97,438	33.73
13 June 2009	109,738	99,925	29.26
20 June 2009	105,460	92,304	53.85
27 June 2009	115,408	93,399	94.45
4 July 2009	163,429	98,735	284.83
11 July 2009	186,058	92,106	473.43
18 July 2009	201,766	84,342	463.79
25 July 2009	176,382	88,423	436.67
1 August 2009	127,184	90,923	126.76
8 August 2009	113,442	95,401	83.27
15 August 2009	112,576	99,104	58.60
22 August 2009	104,152	94,073	45.22
29 August 2009	103,014	95,561	31.56
5 September 2009	109,577	99,218	41.39
12 September 2009	99,494	89,836	40.25
Total	2,335,342	1,810,534	—

Note:
It should be noted that this information only refers to calls made to 0845 46 47, and not any other services provided by NHS Direct.

NHS: Finance

Mr. Willis: To ask the Secretary of State for Health how much *(a)* was spent in (i) 2007-08 and (ii) 2008-09 and *(b)* is planned to be spent in (A) 2009-10, (B) 2010-11 and (C) 2011-12 on the (1) recruitment processes, (2) better handling of complaints, (3) strengthening clinical governance, (4) information for monitoring, (5) boundary transgressions and special issues in mental health services, (6) revalidation of healthcare professionals, (7) the national clinical advisory group, (8) remediation and rehabilitation, (9) independent adjudication, (10) General Medical Council affiliates, (11) medical training and (12) language testing strand of the safeguarding patients and trust, assurance and safety policy. [287505]

Phil Hope: For 2007 to present, recruitment processes, strengthening clinical governance, information for monitoring, boundary transgressions and special issues in mental health services and remediation and rehabilitation spending are matters for local determination and the information is not held centrally.

For better handling of complaints, the Department collects centrally the number of national health service complaints received, but does not collect data on the costs of handling those complaints.

The last year for which data are available (2007-08), show 87,080 complaints in Hospital and Community Health Services and 45,942 in general practice (including dental).

The approach to revalidation of Health Care professionals is still under development.

The following are amounts spent on preparatory work:

2007-08: £2,503,137

2008-09: £4,284,582

2009-10 (to end of august): £1,950,416.

The National Clinical Audit Advisory Group is an advisory body that prioritises spending on national clinical audits. Audits are funded by the Healthcare Quality Improvement Partnership (HQIP), which was established in 2008.

In 2008-09 HQIP received £6.3 million from the Department to support the management, development and promotion of clinical audit. The projected budget for this in 2009-10 is £7.0 million.

In respect of Independent adjudication the following are amounts spent on preparatory work for establishing the Office of the Health Professions Adjudicator:

2007-08: nil

2008-09: £109,171

2009-10 (to end of August): £114,271.

For General Medical Council Affiliates, the only expenditure so far is the funding of two pilots in London and Yorkshire and Humberside:

2007-08: £400,000

2008-09: £100,000

2009-10 (to end of August): £90,000.

In respect of medical training, there have been no significant costs or expenditure for the Department or the NHS arising from the White Paper recommendations.

For language, testing the policy position is still being clarified in light of European Union directives; therefore, there have been no costs or planned costs.

On future spending, the planned spending for 2010-11 has not yet been agreed and will be considered as part of the standard departmental business planning exercise.

As for 2011-2012, future years are subject to the next spending review, the timetable of which is not yet known.

Mr. Bone: To ask the Secretary of State for Health what the percentage change in *(a)* NHS real terms expenditure and *(b)* finished consultant episodes has been since 1997. [292249]

Mr. Mike O'Brien: From 1997-98 to 2007-08 total real terms expenditure in the national health service increased by 90 per cent. (6 per cent. p.a.) and finished consultant episodes increased by 39 per cent. (3 per cent. p.a.).

NHS: Manpower

Mr. Hepburn: To ask the Secretary of State for Health how many *(a)* NHS doctors, *(b)* NHS nurses, *(c)* NHS dentists and *(d)* GPs have been employed in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 2007. [292075]

Phil Hope: The number of national health service doctors, nurses, general practitioners (GPs) and dentists is given in the following table. The numbers quoted cover England only. Copies of the "NHS Dental Statistics for England: 2008-09" Report and Annex have been placed in the Library.

NHS staff in England, the North East Strategic Health Authority area and each specified organisation and by each specified staff group as at 30 September each specified year

Headcount

	2007				2008			
	All GPs[1]	*Hospital and community health care staff (HCHS) doctors and dentists*[2]	*Qualified nursing staff*[3]	*Number of dentists 2007-08*	*All GPs*[1]	*(HCHS) doctors and dentists*[2]	*Qualified nursing staff*[3]	*Number of dentists 2008-09*
England	36,420	91,790	399,597	20,815	37,720	95,942	408,160	21,343
Of which								
North East Strategic Health Authority area	1,974	5,145	23,419	1,049	2,009	5,367	24,036	1,108
Of which								
Gateshead Health NHS Trust	—	288	1,048	—	—	309	1,095	—
South Tyneside NHS Foundation Trust	—	163	550	—	—	173	540	—
South Tyneside Primary Care Trust	107	9	307	94	109	8	297	104

Notes:

[1] All GPs include GP providers, other GPs, GP registrars and GP retainers.

[2] Excludes hospital practitioners and clinical assistants in headcount, most of these also work as a GP.

[3] Includes all HCHS qualified nursing and midwifery staff and GP practice nurses.

NHS: Pay

John Mann: To ask the Secretary of State for Health which health authorities do not pay a salary to their board members. [291979]

Ann Keen: This information is not collected centrally.

There are nationally agreed rates for the remuneration of board members of the 10 strategic health authorities. The authorities' boards are made up of non-executive board members, who receive remuneration at set rates agreed by the Department, and executive members who are paid under the Department's Pay Framework for Very Senior Managers.

The Pay Framework for Very Senior Managers also applies to the executive board members of special health authorities, primary care trusts and ambulance trusts, issued by the Department. A copy has been placed in the Library.

NHS: Pensions

Mr. Philip Hammond: To ask the Secretary of State for Health with reference to paragraph C.76, page 242 of Budget 2009, if he will place in the Library a copy of the actuarial advice he received on the NHS pension scheme; and if he will make a statement. [289103]

Phil Hope: The net expenditure projections for the NHS Pension Scheme, used to build up the financial statement and the Budget report, reflect assumptions set by NHS Pensions after taking into account comments from their actuarial advisers, the Government Actuary's Department. The actuarial assumptions for the scheme can be found in the latest full actuarial valuation of the scheme which was published in December 2007. A copy of the valuation has been placed in the Library.

Prescriptions: Fees and Charges

Tom Brake: To ask the Secretary of State for Health what estimate he has made of *(a)* the percentage of prescriptions dispensed which have incurred charges and *(b)* the amount paid in prescription charges in each of the last 12 months. [291576]

Mr. Mike O'Brien: NHS Prescription Services (NHSPS) are responsible for the reimbursement and remuneration of dispensing contractors in England on behalf of the Department. The NHSPS captures information from prescription items submitted by dispensing contractors for reimbursement and remuneration purposes.

The following table provides an estimate of prescription charges for items written in the United Kingdom and dispensed in the community in England, during the latest available 12 month period, August 2008 to July 2009.

	Percentage of prescription items where prescription charges were paid at the point of dispensing[1]	*Total prescription charges paid (£000)*[2,3]
August 2008	6.6	37,622
September 2008	6.6	39,835
October 2008	6.1	42,101
November 2008	6.3	37,781
December 2008	6.5	41,961
January 2009	6.4	39,685
February 2009	6.3	36,280
March 2009	6.3	41,777
April 2009	6.1	38,864
May 2009	6.1	37,333
June 2009	6.0	39,419
July 2009	5.9	40,552
Total	6.3	473,250

[1] This excludes items dispensed against pre payment certificates (PPCs) as it is not possible to extract this information from other items dispensed where a patient is exempt from the prescription charge.

[2] Total income from prescriptions dispensed with a charge at the point of dispensing and from PPC sales. Refunds against both of these sources of income have been subtracted from the reported total income.

[3] The 'total prescription charges paid' is an estimate as prescription charge refunds included in the calculation of this total may relate to a previous month to that in which the prescription charge was paid. NHSPS payment information captured at the time of processing is not amended as a result of the refund process.

PD1 report available on the NHS Prescriptions Services website at:
www.nhsbsa.nhs.uk/PrescriptionServices/947.aspx
and NHS Help With Health Costs Pre-payment Certificate database.

Primary Care Trusts

John Mann: To ask the Secretary of State for Health what recent discussions he has had on mergers of primary care trusts. [292377]

Mr. Mike O'Brien: There have been no recent discussions. Proposals for the reconfiguration of services are a matter for the national health service locally, working in conjunction with clinicians, patients and other stakeholders.

Social Services

Mr. Harper: To ask the Secretary of State for Health what plans he has for a public consultation on the proposals in the Shaping the Future of Care Together Green Paper to use attendance allowance and other disability benefits to fund social care; and if he will make a statement. [292101]

Phil Hope: We are currently consulting on all of the options considered within the Green Paper, in our Big Care Debate. The Green Paper consultation will run until 13 November this year. More information about the Big Care Debate is available on our dedicated website at:

www.careandsupport.direct.gov.uk

Tuberculosis: Children

Annette Brooke: To ask the Secretary of State for Health how many paediatric tuberculosis cases have been notified in England in the last five years. [292375]

Ann Keen: The data on the number of paediatric tuberculosis cases in England for 2003-2007 are provided in the following table:

	Number of cases
2003	376
2004	445
2005	493
2006	422
2007	534

Note:

Paediatric cases are defined as those aged under 16 years.

Source:

Enhanced Tuberculosis Surveillance, Health Protection Agency

Viral Diseases: Drugs

Mr. Lansley: To ask the Secretary of State for Health (1) how many antiviral collection points have been provided in each primary care trust area; and how many courses of antivirals have been distributed in each primary care trust area through such points to date; [286319]

(2) with reference to the Statement of 20 July 2009, *Official Report*, columns 583-5, on swine flu, if he will place in the Library a copy of the list of all antiviral collection points in each primary care trust. [291855]

Gillian Merron: Data on the number of antiviral collection points (ACPs) in each primary care trust (PCT) were made available to all Members following the launch of the National Pandemic Flu Service on 23

July 2009. However, this list changes in response to local demand and the list as at 30 September 2009 has been placed in the Library.

In each PCT area, or where demand from swine flu has been very modest across a number of PCTs, they have been asked to mobilise at least one ACP locally. More have been opened to respond to the level of demand from patients and the public for rapid access to antivirals.

Cumulatively from 23 July to 29 September 2009 around 590,000 antivirals have been collected. The breakdown by PCT has been placed in the Library.

Wheelchairs

Mr. Todd: To ask the Secretary of State for Health pursuant to the answer of 14 September 2009, *Official Report*, column 2165W, on motor neurone disease: wheelchairs, when he expects the Care Services Efficiency Programme to report on a new model for the delivery of community equipment and wheelchair services. [292336]

Phil Hope: The Care Services Efficiency Delivery Programme report was sent to departmental officials in February 2008 and the new retail model for community equipment has been shared with local authorities and health organizations.

We have provided assistance to Whizz-Kidz to support the development of a partnership between them and NHS London, in conjunction with primary care trusts and local authorities, to improve joint commissioning and the provision of wheelchairs for children and young adults across London. The resulting lessons and learning from the pan-London project are providing additional information to inform departmental discussions about future wheelchair services.

CABINET OFFICE

Civil Servants: Influenza

Mr. Hurd: To ask the Minister for the Cabinet Office whether civil servants will have priority access to antiviral drugs in the event of an influenza pandemic. [290209]

Gillian Merron: I have been asked to reply.

Civil servants have not been given priority access to antivirals during the swine flu outbreak. We have sufficient stocks of antivirals for anyone reporting symptoms to receive treatment following an assessment through the National Pandemic Flu Service, or general practitioner practices if they have underlying health conditions.

Death

Sammy Wilson: To ask the Minister for the Cabinet Office how many deaths as a result of *(a)* heat-related and *(b)* cold-related factors there have been in England and Wales in each of the last five years. [292446]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths as a result of *(a)* heat-related and *(b)* cold-related factors there have been in England and Wales in each of the last five years. (292446)

There are no official definitions of 'heat-related' and 'cold-related' deaths. Estimates of the excess deaths resulting from a summer heat wave are calculated only when temperatures remain abnormally high over a sustained period. The most severe heat wave of recent times occurred in August 2003. During July 2006, there were also several days when heat wave threshold temperatures were reached in one or more regions. Table 1 provides the number of excess deaths during these hot periods.

Estimates of excess winter deaths are calculated annually, and are based on the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). It is not possible to say whether these deaths were cold-related. Table 2 provides the number of excess winter deaths that occurred in England and Wales from 2003-04 to 2007-08 (the latest figures available).

Table 1: Excess mortality during periods when temperatures were above heat wave threshold in one or more regions, England and Wales,2003-07[1, 2, 3, 4, 5]

	Number of excess deaths (persons)	*Percentage increase in mortality above baseline (%)*
4 to 13 August 2003[1, 2]	2,139	16
1 to 7 July 2006[3, 4]	n/e	0
16 to 28 July 2006[3, 4]	680	4

n/e = No excess

[1] Final data based on deaths occurring each day in this period.

[2] Excess mortality was calculated as observed daily deaths in 2003 minus the baseline (average 1998 to 2002) expected mortality over the same time period.

[3] Estimated data based on deaths occurring each day in this period.

[4] Excess mortality was calculated as observed daily deaths in 2006 minus baseline (average 2001 to 2005) expected mortality over the same time period.

[5] Figures for England and Wales include deaths of non-residents.

Table 2. Excess winter deaths, England and Wales, 2003-04 to 2007-08[1, 2, 3, 4]

	Number
2003-04	23,450
2004-05	31,640
2005-06	25,270
2006-07	23,740
2007-08	25,300

[1] Estimates of excess winter deaths are based on the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July).

[2] Figures are based on deaths occurring in each month.

[3] Figures for 2003-04 to 2006-07 are final, figures for 2007-08 are provisional. Final figures are rounded to the nearest 10, provisional figures are rounded to the nearest 100.

[4] Figures for England and Wales include deaths of non-residents.

Departmental Responsibilities

Mr. Burns: To ask the Minister for the Cabinet Office when she plans to publish a revised list of ministerial responsibilities; and what the reasons are for the time taken to prepare the revised list. [292124]

Tessa Jowell *[holding answer 12 October 2009]:* The revised list of ministerial responsibilities, which provides a detailed breakdown of individual ministerial portfolios, will be published on 14 October 2009. Copies will be placed in the Libraries of the House and the Vote Office. In addition, hard copies will be sent to all MPs.

Minimum Wage

Mr. Crausby: To ask the Minister for the Cabinet Office how many *(a)* female and *(b)* male employees in the Bolton North East constituency receive wages at the national minimum rate. [291470]

Angela E. Smith: This information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated September 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many (a) female and (b) male employees in the Bolton North East constituency receive wages at the national minimum rate. (291470)

Estimates for the number of jobs paid at the national minimum wage are not available from the Office for National Statistics. Estimates for the number of employee jobs paid below the national wage are available, but only for all employee jobs by Government Office Region, which is the lowest geographical breakdown published by ONS. These estimates exclude the self employed. I attach a table showing the number of all employee jobs earning less than the national minimum wage for the North West Government Office Region.

A guide to measuring low pay and associated articles can be found on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=5837

Estimates of employee jobs paid below the National Minimum Wage by North West Government Office Region in 2008

	2008	
Government Office Region	*Thousand*	*Percentage*
North West (including Merseyside)	*27	*1.0

Guide to Quality:
The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an average of 200 with a CV of 5 per cent., we would expect the population total to be within the range 180-220
Key:
CV<=5 per cent.
* CV>5 per cent. and <=10 per cent.
** CV>10 per cent. and <=20 per cent.

Suicide

Mr. Vara: To ask the Minister for the Cabinet Office how many deaths where suicide was the underlying cause of death there were in each (1) county of England and Wales in each quarter in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009 to date; [292322]

(2) 10 year age cohort in England and Wales in each quarter in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009 to date. [292323]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent questions asking

1) how many deaths where suicide was the underlying cause of death there were in each quarter in (a) 2006, (b) 2007, (c) 2008 and (d) 2009 to date, in each county in England and Wales. (292322)

2) how many deaths where suicide was the underlying cause of death there were in each 10 year age cohort in each quarter in (a) 2006, (b) 2007, (c) 2008 and (d) 2009 to date in England and Wales. (292323)

Table 1 attached provides the number of deaths occurring in each calendar quarter in 2006 and 2007, where suicide was the underlying cause of death, for each county in England. Unitary authorities in England are not included in areas covered by counties, and there are no counties in Wales. Total figures for the 56 unitary authorities within England and the 22 unitary authorities in Wales are included at the end of Table 1.

Table 2 attached provides the number of deaths occurring in each calendar quarter in 2006 and 2007, where suicide was the underlying cause of death, by 10-year age groups, in England and Wales.

Death occurrence figures for 2008 and 2009 are not yet available in this form.

Table 1: Number of deaths occurring in each calendar quarter, where suicide was the underlying cause of death, counties in England, 2006-07[1, 2, 3, 4, 5, 6]

Table 2: Number of deaths occurring in each calendar quarter where suicide was the underlying cause of death, by age group, England and Wales, 2006-07[1, 2, 3, 4, 5]

Deaths (persons)

	2006				2007			
Age group	*Jan-Mar*	*Apr-Jun*	*Jul-Sep*	*Oct-Dec*	*Jan-Mar*	*Apr-Jun*	*Jul-Sep*	*Oct-Dec*
65-74	92	98	77	74	72	81	66	63
75-84	59	65	58	62	65	58	61	51
85+	28	28	24	22	24	34	24	13

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending).

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Over the period 2006-07, three suicides did not have a 'month of death' recorded at death registration, and were therefore not included.

[4] Figures for England and Wales include deaths of non-residents.

[5] Figures are for deaths occurring in each calendar quarter.

Mr. Vara: To ask the Minister for the Cabinet Office how many deaths where suicide was the underlying cause of death there were in England and Wales in each quarter in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009 by profession. [292324]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths where suicide was the underlying cause of death there were in each quarter in (a) 2006, (b) 2007, (c) 2008 and (d) 2009 by profession in England and Wales. (292324)

The table attached provides the number of deaths where suicide was the underlying cause of death, for each calendar quarter in 2006 and 2007, by occupational group. Due to the small numbers of suicides in individual occupations, figures are given for occupational groups, which are defined in the Standard Occupational Classification 2000[1]. These figures do not include suicides at ages 75 and over (346 in 2006 and 328 in 2007) as occupational information is not available from death registrations for this age group, or suicides for which occupation was not recorded for other reasons (984 in 2006 and 941 in 2007).

Figures for 2008 and 2009 are not yet available in this form.

[1] Office for National Statistics (2000) Standard Occupational Classification 2000 Volume I. Structure and description of unit groups. The Stationery Office: London Available online at:

http://www.ons.gov.uk/about-statistics/classifications/current/SOC2000/index.html

Table 1: Number of deaths where suicide was the underlying cause of death by occupational group by quarter, England and Wales 2006-07[1, 2, 3, 4, 5, 6]

Deaths (persons)

	2006				2007			
	Jan-Mar	*Apr-Jun*	*Jul-Sep*	*Oct-Dec*	*Jan-Mar*	*Apr-Jun*	*Jul-Sep*	*Oct-Dec*
Occupational groups								
Corporate managers	29	31	41	29	25	32	37	15

Administrative occupations	36	35	46	40	41	44	29	36
Secretarial and related occupations	12	9	10	17	18	18	13	13
Skilled agricultural trades	22	21	19	18	24	23	21	12
Skilled metal and electrical trades	69	36	41	51	57	48	57	37
Skilled construction and building trades	85	69	69	66	84	94	82	55
Textiles, printing and other skilled trades	21	27	20	19	21	25	19	21
Caring personal service occupations	26	27	35	28	20	31	20	19
Leisure and other personal service occupations	14	19	15	12	16	13	14	6
Sales and customer services occupations	36	31	24	21	30	43	24	23
Process, plant and machine operatives	49	35	46	45	43	49	43	31
Transport and mobile machine drivers and operatives	62	54	55	54	48	55	46	45
Elementary trades, plant and storage related occupations	71	70	76	71	54	72	78	53
Elementary administration and service occupations	53	64	55	38	45	68	61	33

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending).

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Over the period 2006-07, three suicides did not have a 'month of death' recorded at death registration, and were therefore not included.

[4] The sub-major groupings of the Standard Occupation Classification 2000 have been used in this analysis. Sales Occupations and Customer Services Occupations have been amalgamated to avoid disclosure due to small numbers.

[5] Occupation is not coded at death for individuals over the age of 74, thus suicides for individuals over the age of 74 are not included.

[6] Figures are for deaths occurring in each calendar quarter.

BUSINESS, INNOVATION AND SKILLS

Broadband

Mr. Swire: To ask the Minister of State, Department for Business, Innovation and Skills what monitoring his Department is undertaking of the pace of delivery of the broadband universal service commitment. [292401]

Mr. Timms: The delivery of the universal service commitment (USC) will be carried out by the Network Design and Procurement Company. We hope to appoint the chief executive of this company in the autumn, who will then work to begin delivery as soon as possible. Once established, the Government will ensure appropriate monitoring of delivery, primarily through a steering board which the company will report to.

Broadband: Rural Areas

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills which rural areas of the UK have exchanges that are not broadband-enabled. [291984]

Mr. Timms: All of BT's exchanges are broadband enabled (DSL). Recent research published by the independent regulator Ofcom (Communications Market Report, August 2009) shows that 99.92 per cent. of households in rural UK are linked to a broadband enabled exchange. However, some households will be unable to receive broadband for various network reasons, for example the distance of the household from the exchange.

Mr. Swire: To ask the Minister of State, Department for Business, Innovation and Skills what monitoring his Department carries out of bandwidth speeds available in rural areas. [292402]

Mr. Timms: The Department does not currently carry out any monitoring of bandwidth speeds available in rural areas. However, the independent telecommunications regulator, Ofcom, have published the broadband speed Code of Practice which all major internet service providers have signed up to, and have also recently published research on broadband speeds. The Code of Practice can be found at

http://www.ofcom.org.uk/media/features/bbcode.

The broadband speed research can be found at

http://www.ofcom.org.uk/media/features/broadbandspeedsjy.

Mr. Swire: To ask the Minister of State, Department for Business, Innovation and Skills what barriers he has identified in the delivery of the broadband Universal Service Commitment to rural areas. [292403]

Mr. Timms: The proposed arms-length body, the Network and Design and Procurement Company, will be responsible for identifying any barriers to the delivery of the universal service commitment across the UK, on behalf of Government. We hope to appoint a chief executive of this body in the autumn, and work will begin on the analysis later in the year.

Business Link

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how long it took on average for Business Link to carry out a health check from the original business enquiry in the latest period for which figures are available. [291257]

Ms Rosie Winterton *[holding answer 16 September 2009]:* The figures refer to the lead time (the time lapse between original inquiry and the health check) for businesses requesting a health check on 26 August. Typically, across all regions an initial telephone conversation will result in those identified as being urgent cases being offered an early meeting with an adviser.

These data indicate that urgent cases are likely to be visited within a week with less urgent cases taking anything up to 17 calendar days on average, albeit this is dependent on the level of demand and client availability. The average lead time is likely to be less than 10 days across the RDA network.

RDA	*Average length of time it takes Business Link to carry out a health check from the original business inquiry (as at 26 August 2009)*
AWM	The health checks are categorised at different levels of Intensive Assistance as follows; Level 2—The average number of calendar days to deliver a level 2 Intensive Assist (which is the referral for a Business Account Manager) is 8.6 days since 1 April 2009. Level 3—The average number of calendar days to deliver a Level 3 Intensive Assist (which is the referral for an Adviser) is 16.5 days. Note: Some of the time lags are dependent upon client availability as much as adviser availability.
EEDA	24 hours for call back. Up to five working days for a visit but will respond sooner if urgent.
EMDA	Adviser appointment lead times remain at an average of eight calendar days. Urgent cases are prioritised.
LDA	Adviser appointment lead time continues at 10 working days, with a triage process involving telephone diagnostics and local adviser surgeries for more urgent needs.
NWDA	There is a significant variance in this depending on the availability of the customer to meet and the complexity of the Action Plan subsequently developed. We provide contact between same day and up to two working days on average. The Health Check activity meeting may then be scheduled from within 48 hours or up to two weeks ahead.
ONE	Lead times (mean average for stated time period): 7 August 2009 to 26 August 2009—7.6 calendar days
SEEDA	Across the region's six Business Link Providers, the average adviser lead-time is seven working days, with urgent requests met in one-two working days whenever possible.
SWRDA	For urgent cases, a fast track route is available to speak to an adviser directly on the same day and have an appointment within one week maximum. Average lead-times vary from 7.5 calendar days in the north and east zones of the region to 17 calendar days in the southern zone.

RDA	*Average length of time it takes Business Link to carry out a health check from the original business inquiry (as at 26 August 2009)*
YF	Initial pre-filtering takes place at the time that the inquiry is taken. Urgent requests are dealt with within 24 hours and a health check can often be done within two-three working days of the initial inquiry being made. A typical enquiry will normally be responded to within 48 hours and an appointment made that will be at the customer's earliest convenience. This would normally be within a week to 10 working days.

Business: Government Assistance

Mr. Hoban: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 3 July 2009, *Official Report*, column 430W, on business: Government assistance, which banks are participating in the Working Capital Scheme; how many businesses had received additional funds from each such bank on the latest date for which figures are available; and what the monetary value was of the additional capital which had been made available under the scheme on that date. [289898]

Ms Rosie Winterton: 50 per cent. guarantees have been agreed on loan portfolios from Royal Bank of Scotland plc (RBS), National Westminster Bank plc (NatWest), and Lloyds TSB Bank plc and Lloyds TSB Scotland plc (Lloyds Banking Group) in respect of portfolios of loans that will enable RBS, NatWest and Lloyds Banking Group to make additional lending to UK companies.

Information on the number of businesses receiving new loans is not available. £2 billion of guarantees have been provided to banks under the Working Capital Scheme to free up regulatory capital for new lending to UK companies.

As a result of action by the Government and the regulatory authorities leading to improvements in capital markets since the introduction of the WCS, the Government have been able to allocate resource provision for the WCS to other measures to support businesses.

Business: Insurance

Mr. George Osborne: To ask the Minister of State, Department for Business, Innovation and Skills how many policies have been written under the Trade Credit Insurance scheme; and what the monetary value is of the cover provided. [291222]

Ms Rosie Winterton *[holding answer 16 September 2009]*: As of 4 September this Government 'top-up' scheme has written 64 policies to a value of £10,435,865 in cases where commercial credit insurers have reduced cover. This reflects the targeted nature of the scheme which was designed to provide breathing space for those firms who have suffered a reduction in their credit insurance as a result of the current economic climate. It is part of the Real Help Now package of measures, and has provided targeted, temporary assistance to give companies that require time to talk to their banks and buyers, and then adjust their business models to respond to the current climate, the time to do so. Many businesses have successfully found ways to reduce their need for trade credit insurance, including developing closer relationships with their buyers, which is one of the policy objectives of the scheme.

Business: Public Sector

Margaret Moran: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effectiveness of the supply2.gov.uk portal in increasing the number of bids by small and medium-sized enterprises for public sector contracts. [288851]

Ms Rosie Winterton: Supply2.gov.uk seeks to increase access to lower value public sector contracts by publishing them in a single location. As an advertising portal, it does not collect data on the number of bids made by SMEs.

A 2007 user survey indicated that 34 per cent. of registrants had bid for a contract on the site. Since then, the number of registered suppliers has risen from around 50,000 to over 163,000, and the number of low-value contracts from below 16,000 to over 47,000. Around 300 new low-value contracts are published on the site every week. As part of the implementation of the Glover recommendations, central Government spend with SMEs will be monitored from this financial year onwards.

Departmental Information Officers

Paul Holmes: To ask the Minister of State, Department for Business, Innovation and Skills what the cost to his Department of employing (a) press officers and (b) other press office staff has been in each year since 1997. [283071]

Mr. McFadden: The Department for Business, Innovation and Skills was created on 5 June. Figures are not available for BIS but are available for the former Department for Business, Enterprise and Regulatory Reform (BERR), the Department for Innovation, Universities and Skills (DIUS) and the Department for Trade and Industry (DTI).

The total staffing costs for Press Office staff for the former BERR, DIUS and DTI are:

	£
2008-09	
BERR	1,080,000
DIUS	766,000
2007/08	
DTI/BERR	1,261,000
2006/07	
DTI	1,023,000
2005/06	
DTI	992,000
2004/05	
DTI	871,000

Figures for earlier years for the DTI and a breakdown of costs for press officers and non-press officers could be provided only at disproportionate costs.

Departmental Manpower

John Mann: To ask the Minister of State, Department for Business, Innovation and Skills how many staff there were in *(a)* his Department's predecessor in 1997 and *(b)* his Department on the latest date for which figures are available. [292056]

Mr. McFadden: The number of staff in the Department's predecessor (Department of Trade and Industry) in 1997 is shown within the Civil Service Statistics 1997 link 'Civil Service Statistics 1997' and forms part of the Civil Service statistics archive

http://www.civilservice.gov.uk/about/who/statistics/archived-reports.aspx

The Department for Business, Enterprise and Regulatory Reform (BERR) ceased to exist on 5 June when the Department for Business, Innovation and Skills (BIS) was created from the merger of BERR and the Department of Innovation, Universities and Skills (DIUS).

There are a total of 3,618 staff within BIS as at 30 September.

Departmental Reorganisation

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what the cost of *(a)* designing and *(b)* purchasing branded stationery for the Department for Innovation, Universities and Skills was during its existence; how much such stationery remains unused; and what plans he has for that stationery. [279781]

Mr. McFadden *[holding answer 15 June 2009]*: For part *(a)* I refer the hon. Member to the answer given by my right hon. Friend the Member for Tottenham (Mr. Lammy), the then Minister of State for Higher Education and Intellectual Property at the then Department of Innovation, Universities and Skills on 27 February 2008, *Official Report*, columns 1645-46W.

For part *(b)* I refer the hon. Member to the answer given by my hon. Friend the Member for Birmingham, Erdington (Mr. Simon), the then Parliamentary Under-Secretary of State for Further Education at the then Department of Innovation, Universities and Skills on 1 June 2009, *Official Report*, column 213W.

Branded stationery is ordered on demand by individual business units. Records are not held on how much was unused at the point of the creation of the Department for Business Innovation and Skills (BIS). However all stocks of stationery which featured the DIUS branding were recycled when BIS was created.

Departmental Secondment

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of staff in his Department have worked on attachment to institutions of the European Union. [290094]

Mr. McFadden: Secondments to the EU Institutions are a valuable means of building relationships and influencing policy. In recent years, at any given time there have been approximately 12 BIS staff working in the Institutions as Seconded National Experts. In addition, we usually support the participation of at least two members of staff per year in the European Commission's National Experts in Training Programme, which entails six month attachments. An investigation to determine the proportion of staff who have ever worked on attachment to the Institutions would incur disproportionate cost.

Departmental Sick Leave

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how many members of his Department have been on sick leave for over six months. [290098]

Mr. McFadden: The Department does not routinely calculate the number of staff who have been on sick leave for over six months. However, in common with other Whitehall departments we do regularly report our sickness absence. The latest performance report is available at this link:

http://www.bis.gov.uk/sicknessabsence

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how many working days in the last month were lost owing to sick leave taken by staff of his Department. [290099]

Mr. McFadden: The Department does not routinely calculate the number of working days lost owing to sick leave taken by staff in the last month. However, in common with other Whitehall departments we do regularly report our sickness absence. The latest performance report is available at this link:

http://www.bis.gov.uk/sicknessabsence

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills what the cost to the public purse of sickness absences in his Department and its predecessors was in each of the last five years. [290560]

Mr. McFadden: The Department does not routinely calculate the cost to the public purse of sickness absences. The Cabinet Office has published previous annual sickness absence reports for the Civil Service (from 2003 to 2007). These can be viewed via sickness absence reports. The latest of these reports was published for the year up to April 2007.

However in common with other Whitehall departments we do regularly report our sickness absence. The latest performance report is available at this link.

http://www.bis.gov.uk/sicknessabsence

Enterprise Finance Guarantee Scheme

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of funds available under the Enterprise Finance Guarantee scheme has *(a)* been lent to businesses, *(b)* is in the process of being lent to businesses and *(c)* remains available for future lending. [291684]

Ms Rosie Winterton: The Enterprise Finance Guarantee (EFG) is a £1 billion loan guarantee scheme delivered through the banks that will enable an additional £1.3 billion of lending to businesses up to end March 2010.

As of 16 September, 5,241 loans have been offered to customers with a total value of £535 million. Of these, 4,132 have been drawn down with a total value of £405 million.

Learning Grid

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effect of Learning Grid programmes on the teaching of science, technology, engineering and mathematics subjects in schools; what funding his Department has provided for the Learning Grid in each year since it was founded; and what plans the Government has for the future of the Learning Grid. [292513]

Mr. McFadden: The evaluation report commissioned by the East Midlands Regional Development Agency, received by Government in August, does not directly address the immediate impact of the Learning Grid on the teaching programmes in schools.

The as yet unpublished report concludes that the full extent of programme impacts cannot be accurately gauged until 10-15 years into the future given that one of the key objectives of the programme is to increase the size of the skilled recruitment pool entering into high performance engineering employment.

Set up in 2005 the Learning Grid has received a total of £4 million from BIS and supporting RDAs up to July 2009. Currently there are no further plans to provide additional financial support to the Learning Grid.

Members: Correspondence

Mr. Pope: To ask the Minister of State, Department for Business, Innovation and Skills when the Minister for Economic Competitiveness, Small Business and Enterprise will reply to the hon. Member for Hyndburn's letter to her of 6 January 2009. [291633]

Ms Rosie Winterton: My noble Friend, the Minister for Economic Competitiveness, Small Business and Enterprise, responded on 28 July 2009.

Met Office: Reviews

Dr. Murrison: To ask the Minister of State, Department for Business, Innovation and Skills whether he has met representatives of the Met Office to discuss the recommendations of the Operational Efficiency programme review that the Met Office should introduce private capital in some areas; and if he will make a statement. [289320]

Ms Rosie Winterton: The OEP review process is conducted through extensive consultations and dialogue between the Met Office, Ministry of Defence and the Shareholder Executive on all issues connected with the review, including the potential introduction of private capital. The introduction of private capital was identified as only one of the available options which could help enhance the commercial opportunities available to the Met Office. Ministers are kept informed on the progress on all options.

Dr. Murrison: To ask the Minister of State, Department for Business, Innovation and Skills when he expects the Shareholder Executive's review of the Met Office to be concluded; and if he will make a statement. [289394]

Ms Rosie Winterton: There will be a general update around PBR on the progress of the OEP and its individual assets, including the Met Office.

Ministers: Training

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills which training courses were attended by Ministers in his Department or its predecessor in the last 12 months. [290450]

Mr. McFadden: A number of Ministers in the Department for Business, Innovation and Skills and its predecessor departments have received training to assist them in the discharge of their various ministerial responsibilities.

New College Nottingham: Basford Hall

Mr. Allen: To ask the Minister of State, Department for Business, Innovation and Skills what assessment the Learning and Skills Council has made of the application from New College Nottingham for approval in principle for a new campus at Basford Hall. [292192]

Kevin Brennan: New College Nottingham submitted their application for an in principal project proposal to the Learning and Skills Council for the development of their existing campus at Basford Hall in November last year.

The Basford Hall project application was reviewed with all other capital projects as part the prioritisation exercise carried out by the LSC based upon rigorous and fair prioritisation criteria agreed with the sector and that built upon Sir Andrew Foster's recommendations. Unfortunately, the Basford Hall project application was not successful in securing funding this spending period.

Police National Computer

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills what access his Department has to information stored on the Police National Computer. [290003]

Mr. McFadden: The Department has two, separate, requirements for information held on the Police National Computer (PNC):

(i) Company Law and Insolvency investigations and enforcement:

The Department carries out PNC checks for possible suspects, defendants and witnesses in relation to cases it prosecutes. These cases tend to arise from individual and corporate insolvency proceedings and associated fraud together with a range of other matters arising from the Department's regulatory functions such as Employment Regulation offences.

(ii) Security checks for people who work within BIS:

PNC checks are only carried out on those requiring CTC, (counter terrorist check), SC (security clearance) or DV (developed vetting) clearance. The PNC checks cover spent and unspent criminal convictions.

Royal Bank of Scotland

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills what discussions his Department has had with *(a)* UK Financial Investments and *(b)* the management of the Royal Bank of Scotland on its marketing (i) strategy and (ii) agency arrangements; and if he will make a statement. [267780]

Mr. McFadden *[holding answer 30 March 2009]:* UKFI manages the Government's investments in financial institutions on a commercial basis at arm's length from Government.

Royal Mail

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure his Department has incurred on external advisory fees in relation to the proposed part-privatisation of the Royal Mail to date. [291893]

Mr. McFadden: The estimated expenditure incurred to end September 2009 on legal, accountancy and financial advice to take forward the implementation of the Hooper Review's recommendations (which included work on securing a partner for Royal Mail) was £4.6 million.

Shareholder Executive

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills what role the Shareholder Executive has in *(a)* delivering and *(b)* administering (i) the Working Capital scheme, (ii) the Enterprise Finance Guarantee scheme, (iii) the Capital for Enterprise Fund and (iv) the Automotive Assistance programme; and if he will make a statement. [289831]

Ms Rosie Winterton: The Shareholder Executive has no role in delivering or administering schemes (i), (ii) and (iii). However, the Executive did advise on some organisational and resourcing aspects of delivering the Automotive Assistance programme and continues to give ad hoc advice on individual applications made under that scheme.

It also advised on the design and implementation of the Capital for Enterprise Fund.

Union Modernisation Fund: Publications

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 21 July 2009, *Official Report*, column 1756W, on the Union Modernisation Fund, if he will place in the Library a copy of the reports certifying claims and expenditure from the Union Modernisation Fund in respect of each additional company listed in the Answer. [292085]

Mr. McFadden *[holding answer 12 October 2009]:* I am unable to place in the Library any copies of the certifying claims and expenditure from the Union Modernisation Fund in relation to the accountancy companies listed in my previous answer because the reports are prepared for the confidential use of the unions and BIS, and solely for the purpose of verifying the grant claimed.

This condition is set out in the standard terms of engagement agreed between the Institute of Chartered Accountants of England and Wales used for all the Department's grant-aided projects.

HOME DEPARTMENT

Antisocial Behaviour

Chris Grayling: To ask the Secretary of State for the Home Department (1) pursuant to the answer of 21 January 2009, *Official Report*, column 1484-86W, on crime: statistics, how many antisocial behaviour incidents were recorded in 2008-09; [289587]

(2) pursuant to the answer of 29 June 2009, *Official Report*, column 74W, on public order offences, what data on antisocial behaviour will be collected as defined by the simplified National Incident Category List from 2009; [289588]

(3) pursuant to the answer of 29 June 2009, *Official Report*, column 74W, on public order offences, if he will provide a breakdown of figures for incidents recorded in 2008-09. [289589]

Alan Johnson: The total number of incidents of antisocial behaviour recorded by the 43 police forces in England and Wales as defined within the National Incident Category List (NICL) for 2008-09 was 3,661,498. A detailed breakdown is given in the following tables.

The data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications. The data are therefore provisional and may be subject to change.

A decision as to the data on antisocial behaviour incidents as defined by the NICL that will be collected centrally for 2009-10 will be made later this year. As part of the Home Office's work to reduce the data burden on police forces, this data return has been reviewed and the monthly collection discontinued. A single annual return will be implemented, the extent and scope of which has yet to be finalised.

Asylum: Children

Justine Greening: To ask the Secretary of State for the Home Department what the *(a)* aims and *(b)* eligibility criteria are of the Unaccompanied Asylum Seeking Children Grant is; how much funding was (i) distributed to local authorities via the grant and (ii) subsequently spent by local authorities by local authority in each year since the grant began; and what estimate he has made of the amount of such funding to be provided in the next two years. [292410]

Mr. Woolas: The aim of the grant is to assist local authorities in meeting the costs of supporting unaccompanied asylum seeking children (UASC) under the provisions of the Children Act 1989. With a few small exceptions all UASC that the local authorities are supporting can be included in a claim for funding under the terms of the grant. The full terms of the grant and eligibility criteria can be found at:

> www.bia.homeoffice.gov.uk/sitecontent/documents/aboutus/workingwithasylumseekers/localauthoritygrants/

The grant reimburses local authorities for expenditure already incurred (subject to audit). It is not possible to break down expenditure under the grant by year before financial year 2005/06 because of the way in which funding claims from local authorities before that time were finally settled.

The breakdown of total expenditure over the past four years is set out in the table:

	Total expenditure (£ million)
2005-06	144.3
2006-07	139.7
2007-08	132.7
2008-09	138.5

It is anticipated that funding levels for the next two years will be at roughly the same level as at present but this depends on discussions with local authorities and on the numbers of new UASC that arrive in the United Kingdom.

Justine Greening: To ask the Secretary of State for the Home Department what categories of expenditure are covered by the Unaccompanied Asylum Seeking Children Grant; how many children have received such funding in each local authority in each year since the grant began; and what estimate he has made of such funding in the next two years. [292411]

Mr. Woolas: The grant covers the main expenditure local authorities incur in looking after unaccompanied asylum seeking children. This includes the cost of a foster placement, the cost of accommodation provided when fostering is not the placement option, the cost of the social workers who provide the care and general administrative costs.

The numbers of children covered by the expenditure since the financial year 2005-06 is set out in the following table. It is not possible to break down numbers before 2005-06 because of the way in which funding claims from local authorities before that time were finally settled.

It is anticipated that funding levels for the next two years will be at roughly the same level as at present but this depends on discussions with local authorities and on the numbers of new UASC that arrive in the United Kingdom.

	Supported numbers at end of year
2005-06	5,521
2006-07	4,993
2007-08	4,493
2008-09	4,604

Justine Greening: To ask the Secretary of State for the Home Department what recent assessment he has made of the progress of his departmental goal to transfer a large number of Unaccompanied Asylum Seeking Children away from London and the South East as stated in his Department's February 2007 consultation paper, Planning better outcomes and support for unaccompanied asylum seeking children. [292412]

Mr. Woolas: Insufficient local authorities outside the South-East have expressed a willingness to accept the transfer of the children to their areas to make this policy goal viable.

We are therefore developing the other policy goals set out in the consultation paper on the basis that children who are the responsibility of authorities in the South-East will stay in that area for as long as they remain in the United Kingdom.

Business: Government Assistance

Mr. Godsiff: To ask the Secretary of State for the Home Department how many loans have been granted under the Small Business Loan Guarantee Scheme to small and medium-sized businesses in Birmingham, Sparkbrook & Small Heath constituency since the establishment of the Scheme. [291445]

Ms Rosie Winterton: I have been asked to reply.

The Small Business Loan Guarantee Scheme announced in November 2008 was launched as the Enterprise Finance Guarantee (EFG) in January 2009.

Within the constituency of Birmingham, Sparkbrook & Small Heath, as of 16 September 2009, eight businesses have been offered loans totalling £833,265.

Departmental Manpower

Justine Greening: To ask the Secretary of State for the Home Department what estimate he has made of the average length of employment of staff of his Department at each Civil Service payband. [290570]

Mr. Woolas: The following table provides the average length of employment of staff in the Home Office and its agencies at each pay band as at 31 March 2009.

Pay band	*Median length of service (years) as at 31 March 2009*
A/AA	3.8
B/AO	4.82
C/EO	6.95
D/HEO	7.33
E/SEO	8.44
F/G7	7.1
G/G6	7.75
SCS	3.24

The average length of employment refers to the length of time employees have been working in the Home Office and its agencies rather than time in a particular pay band or career length of service.

Drugs: Sentencing

Mr. Vara: To ask the Secretary of State for the Home Department how many people have been sentenced to immediate custody for possession of drugs of each *(a)* type and *(b)* class in (i) each police force area and (ii) England in each of the last 10 years. [291481]

Claire Ward: I have been asked to reply.

The information requested has been placed in the Libraries of the House.

Entry Clearances

Mr. Don Foster: To ask the Secretary of State for the Home Department if he will take steps to prohibit Yunus Yosfiah and Christoforus da Silva from entering the UK following their naming by the Coroner of New South Wales in her findings on the murders of British citizens Malcolm Rennie and Brian Peters in 1975 in East Timor; and if he will make a statement. [292313]

Mr. Woolas *[holding answer 12 October 2009]:* It is not Home Office policy to comment on individual cases. Any individual whose presence in the UK is not considered conducive to the public good may be denied entry.

Entry Clearances: Appeals

Sarah Teather: To ask the Secretary of State for the Home Department what guidance he has issued on the time elapsing between an appeal determination being issued by the Asylum and Immigration Tribunal and a visa being issued to the applicant. [291932]

Mr. Woolas: Guidance on Appeals (INF 19) is available on the UK Border Agency's Visa Services website:

www.ukvisas.gov.uk

This advises appellants that it can take up to six weeks for the visa section to be notified through official channels that an appeal has been allowed, and that the visa section will then contact the appellant. Visa sections are expected to do so within three weeks of receiving the notification. The guidance does not go on to indicate how long it will then take for the visa to be issued as this will depend on how quickly the appellant returns their passport to the visa section and the number of checks that need to be carried out.

Mr. Dhanda: To ask the Secretary of State for the Home Department when his Department plans to implement the decision of the Asylum and Immigration Tribunal in respect of the appeal OA/46462/2008; what the average period between a tribunal decision in favour of an appellant in an entry clearance case and the granting of entry clearance was in the most recent period for which figures are available; and if he will make a statement. [292046]

Mr. Woolas: Although appeal number OA/46462/2008 was allowed on 2 March 2009, notification was not received in the Visa Section in Islamabad until 10 June. A letter was sent to the appellant on 15 June requesting submission of the passport and this was subsequently received on 2 July. Verification checks were then undertaken and the visa was issued on 8 October. The processing was delayed due to a backlog of appeal cases in Islamabad. The UK Border Agency plans to reduce this to near zero levels by mid-November. Turnaround times in allowed appeal cases will then be significantly quicker.

Entry Clearances: Pakistan

Mr. Dhanda: To ask the Secretary of State for the Home Department when a decision on the entry clearance application made to the High Commission in Islamabad, reference 1494299, will be made. [292044]

Mr. Woolas: Entry clearance application reference Islamabad 1494299 was submitted on 15 April 2008 and a decision was made on 6 June 2008. Although the appeal against the decision was allowed on 2 March 2009, notification was not received in the Visa Section until 10 June 2009. A letter was sent to the appellant on 15 June 2009 requesting submission of the passport, and this was subsequently received on 2 July 2009. Verification checks were then undertaken and the visa was issued on 8 October 2009.

The delay in processing was due to a backlog of appeal cases in Islamabad. The UK Border Agency plans to reduce this to near zero levels by mid-November. Turnaround times in allowed appeal cases will then be significantly quicker.

Entry Clearances: Students

Mr. Carswell: To ask the Secretary of State for the Home Department what estimate he has made of the number of people who entered the UK on a student visa and remained in the UK after the expiration of the visa in the last 10 years. [291928]

Mr. Woolas: Since the phasing out of embarkation controls in 1994 no Government has ever been able to produce an accurate figure for the number of people who have overstayed their visas, including those who entered on a student visa.

However, as part of the Government's 10-point plan for delivery, by 2010 over 95 per cent. of non-EEA foreign nationals will be counted in and out of the country, rising to 100 per cent. by 2014. This is part of a sweeping programme of border protection which also includes the global roll-out of fingerprint visas, watch-list checks for all travellers before they arrive or depart from the UK and ID cards for foreign nationals.

Further to this, Local Immigration Teams (LITs) are being established to serve every community in the UK. Each local team will enforce immigration laws working shoulder-to-shoulder with police, Her Majesty's Revenue and Customs, local authorities and other local partners to target immigration crime (including seeking to detect and remove those overstaying on their visa) and address local community concerns on migration. By December 2011 there will be a team serving every community in the country.

Mr. Allen: To ask the Secretary of State for the Home Department what steps he plans to take to ensure the effectiveness of the system for granting visas to overseas students wishing to study in the UK; and if he will make a statement. [291978]

Mr. Woolas: At the end of March this year we implemented Tier 4 of the Points Based System for international students.

We have monitored carefully the implementation of the new system, making various small changes to it in the light of experience. We have now received and processed more student applications than at the equivalent time last year, predominantly within customer service standards. Further IT changes will be introduced between now and February 2010 to further improve processing. We have kept in close touch with stakeholders to understand their needs.

Information on end to end processing times at each overseas post can be found at:

https://ukvisas-stage.ukvisas.gov.uk/en/howtoapply/processingtimes

Human Trafficking: Females

Chris Huhne: To ask the Secretary of State for the Home Department how many shelters for trafficked women his Department plans to build in each of the next five years. [291552]

Claire Ward: I have been asked to reply.

The Council of Europe Convention on Trafficking which the Government ratified in December last year commits the UK to provision of sheltered accommodation for all those trafficked women who need it.

The Government have consequently invested £4 million into specialist support services for victims of human trafficking over the next two years.

This includes an investment of £3.7 million into the Poppy project to expand and improve the services that are available to victims that have been trafficked into the sex-industry and domestic servitude. The additional investment will see an expansion of supported accommodation, with refuge places for victims of trafficking for sexual exploitation and domestic servitude in London, Sheffield and Cardiff. The investment will also fund a new national co-ordinator who will help set best practice standards and work with areas to raise awareness with local agencies and funding commissioners. There will also be an increase in advocacy workers to help provide one-to-one tailored support and the community outreach team will also be extended with two link workers based within the UK Human Trafficking Centre to work in partnership with the police, UK Border Agency and other partners to help with victim identification and onward referral into support.

Additionally, £300,000 is being invested into the UK Human Trafficking Centre to develop flexible support services for victims of labour trafficking.

National Security

Dr. Julian Lewis: To ask the Secretary of State for the Home Department what measures are in place to protect the supply of *(a)* water, *(b)* food and *(c)* communications from burn-out caused by an electromagnetic pulse attack. [289836]

Mr. Hanson *[holding answer 12 October 2009]:* The Government's Cyber Security Strategy of the United Kingdom, published alongside and reflected in the National Security Strategy update, considers a number of methods of cyber attack, including those that generate high levels of power that can damage or disrupt unprotected electronics. It also outlines the new governance structures and workstreams which will build on existing work to take forward the Government's plans for reducing the impact on and vulnerability of the UK's interests from cyber attacks.

The Centre for the Protection of National Infrastructure (CPNI) provides advice on electronic or cyber protective security measures to the businesses and organisations that comprise the UK's critical national infrastructure, including public utilities, companies and banks CPNI also runs a CERT (Computer Emergency Response Team) service which responds to reported attacks on private sector networks. In addition, CESG, provides government departments with advice and guidance on how to protect against, detect and mitigate various types of cyber attack.

It would not be in the interests of national security to provide information about specific protective measures relating to electromagnetic pulse attack.

Offences Against Children: Internet

Margaret Moran: To ask the Secretary of State for the Home Department how many people in the last five years have been convicted of offences of both child abuse and viewing online child abuse images. [291751]

Claire Ward: I have been asked to reply.

The number of persons found guilty at all courts in England and Wales for offences relating to child pornography of taking, permitting to be taken, distributing, publishing or possession of indecent photographs or pseudo-photographs of children, from 2003 to 2007 (latest available) is shown in table 1 as follows. It is not possible to separately identify computer based offences from other offences related to indecent photographs.

The number of persons found guilty at all courts in England and Wales for offences relating to child abuse, from 2003 to 2007 is shown in table 2 as follows. There is no specific offence of "child abuse" therefore statistics are only provided where the age of the victim can be identified as a child from the description of the offence. Furthermore the term "child abuse" describes harm caused to a child arising from emotional, physical, sexual abuse or neglect caused by a parent, guardian, carer, or stranger. A number of other offences such as offences against the person including physical assault may frequently be used by the police to charge offenders.

The Sexual Offences Act 2003 significantly modernised and strengthened the laws on sexual offences in England and Wales to provide extra protection to children from sexual exploitation. This makes direct comparisons with previous legislation very difficult. Many new offences created by the Act will not have a direct equivalent under the old legislation. The Sexual Offences Act 2003 came into force on 1 May 2004. Table 2 includes, for 2003 only, comparable offences under the Sexual Offences Act 1956.

Court proceedings data for 2008 are planned for publication at the end of November 2009.

Table 1: The number of persons found guilty at all courts in England and Wales for offences relating to child pornography[1] from 2003 to 2007[2, 3]

Offence Description	*2003*	*2004*	*2005*	*2006*	*2007*
Take, permit to be taken, or to make distribute or publish indecent photographs or pseudo-photographs of children	1,048	978	958	768	782
Possession of an indecent photograph or pseudo-photograph of a child	239	184	196	166	185

[1] Offences under the Protection of Children Act 1978, section 1 and section 6 as amended by the Criminal Justice and Public Order Act 1994, section 84 & Criminal Justice & Court Services Act 2000 S.41(1); Offences under the Criminal Justice Act 1988 Sec. 160 as amended by the Criminal Justice & Court Services Act 2000.

[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the more severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Office for Criminal Justice Reform—Evidence & Analysis Unit

Margaret Moran: To ask the Secretary of State for the Home Department what steps his Department *(a)* has taken and *(b)* plans to take to implement the commitments made by G8 Justice and Home Affairs Ministers in relation to combating child pornography on the internet. [291976]

Mr. Alan Campbell: The Government fully support the declaration on combating child pornography made by the G8 in Munich in 2007, and followed up by the Declaration made in Rome this year. The Government believe that the UK has the right laws in place to tackle child sexual images, but is always willing to consider changes should the need be identified.

The Government have been very clear that the use of blocking to prevent access to these images is something that internet service providers should do, and we are very pleased with the support from these providers, which has led to 98.6 per cent. of UK consumer broadband lines being covered by blocking of sites identified by the Internet Watch Foundation as containing such illegal images.

The Government, through the Child Exploitation and Online Protection Centre, has also supported the European Financial Coalition, which brings together law enforcement and the financial sector to help tackle websites providing these images for financial gain. The Government support this work, both at UK and at EU level, to make sure that not only do law enforcement catch the perpetrators, but that their financial gain is minimised.

Offensive Weapons: Schools

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent assessment he has made of the effect on the number of offences related to the possession of a knife of those aspects of the Tackling Knives Action Programme which apply to schools. [287551]

Mr. Hanson *[holding answer 20 July 2009]:* Figures for possession of a knife or offensive weapon which relate to schools are too small for reliable interpretation; therefore they are counted within the sentencing statistics for England and Wales. Figures are given for all knife crime possession offences in England and Wales, including those on a school premises.

The most recent figures from the Ministry of Justice show that the number of offences involving possession of a knife or offensive weapon fell 7 per cent. (from 6,931 to 6,477 offences) in January to March 2009, compared with the same period in 2008.

In the same period the number of offences committed by young people aged 10-17 years fell by 15 per cent. (from 1,591 to 1,359 offences).

Opiates

Mr. Paice: To ask the Secretary of State for the Home Department what the weight notified to his Department by manufacturers of opiate derivatives and finished products of loss or theft of product was of *(a)* opiate raw material, *(b)* opiate medicinal products, *(c)* oxycodone raw material and *(d)* codeine raw material in each year between 1999 and 2009. [290063]

Mr. Alan Campbell: The data are not available in the format requested. However figures for total losses including during manufacturing, destructions, thefts and losses are available for the years 2001 to 2007 in the following table. These figures are a combination of losses during the manufacturing process, destruction and stolen/mislaid drugs and are based on figures reported by licensees. We do not have data for loss or theft alone.

Reported losses of opioid drugs (includes losses during manufacturing process, amounts destroyed, stolen and mislaid)

Kgs

Police

Miss McIntosh: To ask the Secretary of State for the Home Department what assessment he has made of differences in the delivery of policing in *(a)* rural and *(b)* urban areas; and if he will make a statement. [292370]

Mr. Hanson: The Government do not make assessments on the differences in the delivery of policing in rural and urban areas. Under the Police Performance Assessment Framework, police forces were compared within a similar group of forces. Selection criteria for these groups took into account a range of socio-economic factors including urbanisation and rurality. Following the publication of the Policing Green Paper, responsibility for assessing policing performance shifted from the Home Office to Her Majesty's inspectorate of constabulary (HMIC).

The HMIC are currently reviewing the mechanisms for qualitative assessments and developing rounded assessments for the delivery of policing services.

Police Authorities: Pay

John Mann: To ask the Secretary of State for the Home Department what the salary is of the *(a)* chair and *(b)* vice chair of each police authority in England. [291980]

Mr. Hanson: Chairs and vice chairs of police authorities receive no salary. Under regulation 29 of the Police Authority Regulations 2009, each police authority must publish the arrangements they have in place for their chair and vice chairs' expenses and allowances. This information will be available from the individual police authorities but is not held centrally.

Police: Manpower

Chris Huhne: To ask the Secretary of State for the Home Department how many police officers there were *(a)* per head of population and *(b)* per notifiable offence in each police force area in each year since 1997. [291186]

Alan Johnson *[holding answer 14 September 2009]:* The available data are given in the following tables:

Police officers[1] (FTE)[2] per 100,000 of the population by police force, as at 31 March 1997 to 31 March 2009

[1] This table is based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

[2] Figures up to 31 March 2002 exclude staff on career breaks or maternity/paternity leave. The figures for 31 March 2003 onwards figures include those on career breaks or maternity/paternity leave.

[3] Boundary changes on 1 April 1996 transferred resources for the policing of the Rhymney Valley from South Wales Police to Gwent Police.

[4] Boundary changes on 1 April 2000 transferred some resources from the Metropolitan Police to Essex, Hertfordshire and Surrey police forces.

[5] Officers per 100,000 population for City of London and Metropolitan Police are combined.

Wiltshire	38	35	33	35	37	37	34
England	45	44	40	40	38	35	33

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are therefore not directly comparable with those for earlier years.

Miss McIntosh: To ask the Secretary of State for the Home Department how many police officers were employed in *(a)* Vale of York constituency, *(b)* North Yorkshire, *(c)* Yorkshire and the Humber and *(d)* England in (i) 1997, (ii) 2006, (iii) 2007, (iv) 2008 and (v) 2009. [292369]

Mr. Hanson: Officer strength figures for North Yorkshire, the Yorkshire and Humber Government office region and England are all available within the annual Police Service Strength England and Wales, Statistical Bulletin. Figures as at 31 March are published every July.

Police personnel statistics are not available by parliamentary constituency. Figures at basic command unit level are available in the supplementary tables to the statistical bulletin.

Recent editions of the bulletin are available on the Home Office website and previous editions are available in the House of Commons Library at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

Police: Pay

John Mann: To ask the Secretary of State for the Home Department how many employees of police services received more than £64,000 in salary in the latest year for which figures are available. [292000]

Mr. Hanson: This information is not held centrally.

Police: Rural Areas

Miss McIntosh: To ask the Secretary of State for the Home Department what the maximum acceptable response time is for a police force to respond to a report of a crime in a rural area. [292366]

Mr. Hanson: The Policing Pledge, introduced in the Green Paper 2008, sets out the police service's offer to citizens for delivery of service.

The pledge includes specific elements that encompass how the service aims to respond to reports of crimes. That response will depend on the grading applied in accordance with National Call gradings. There is no maximum acceptable response time, but in the case of an emergency in a rural area, most police forces aim to respond within 20 minutes.

In other cases, the response will be determined in accordance with the caller's needs and the provisions within the pledge.

Surveillance

Ms Buck: To ask the Secretary of State for the Home Department how many requests were *(a)* made and *(b)* granted to use powers under the Regulation of Investigatory Powers Act 2000 by (i) each local authority and (ii) each NHS trust in England in (A) 2003-04 and (B) 2007-08. [291737]

Mr. Hanson: The Government do not have figures for individual public authorities. The total number of requests for each covert investigative technique is available in the published, independent annual reports of the Interception of Communications Commissioner and the Chief Surveillance Commissioner. These give the following:

Table on covert investigatory powers authorised

Interception	*2003*	*2007*
Authorised by the Home Secretary or Scottish Executive	1,983	2,026
Communications data	2003	2007
By all public authorities	[1]—	519,260
By local authorities	[1]—	1,707
Intrusive Surveillance	2003/04	2007/08
By law enforcement agencies	447	355
Property interference	2003/04	2007/08
By law enforcement agencies	2,483	2,493
Directed surveillance	2003/04	2007/08
By law enforcement agencies	26,986	18,767
By other public authorities	6,398	9,535
CHIS	2003/04	2007/08
By law enforcement agencies	5,907	4,498
By other public authorities	273	234

[1] Not given

Note:
Figures taken from annual reports from the relevant oversight Commissioner

The figures are not broken down further. Copies of the Commissioners' reports are in the House Library.

Terrorism

Mr. Hayes: To ask the Secretary of State for the Home Department how many people convicted of terrorism offences in the UK since 2001 are foreign nationals. [290102]

Mr. Woolas: Details of the nationality of individuals who have been convicted of terrorism offences since 2001 are not available and could be obtained only at disproportionate cost.

Terrorism: Deportation

Mr. Hayes: To ask the Secretary of State for the Home Department how many people convicted of terrorism offences in the UK since 2001 have been deported. [290114]

Mr. Woolas: Details of the number of people who have been convicted of terrorism offences and who have subsequently been deported since 2001 are not available and could be obtained only at disproportionate cost.

Terrorism: Illegal Immigrants

Mr. Hayes: To ask the Secretary of State for the Home Department how many people convicted of terrorism offences in the UK since 2001 were illegal immigrants. [290115]

Mr. Woolas: Details of the number of illegal immigrants who have been convicted of terrorism offences since 2001 are not available and could be obtained only at disproportionate cost.

Work Permits: Bulgaria/Romania

Mr. Hollobone: To ask the Secretary of State for the Home Department how many UK work permits have been issued to *(a)* Romanian and *(b)* Bulgarian nationals since the accession of those countries to the EU. [291067]

Mr. Woolas *[holding answer 14 September 2009]:* The number of work permits issued between 1 January 2007 and 31 December 2008 to Romanian nationals is 1,690 and to Bulgarian nationals is 3,240.

Figures are rounded to nearest 5.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

The figures equate to the number of individual nationals who were granted a work permit. Not all those who were granted a work permit took up the job and some may have been refused entry clearance or further leave to remain.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme: Sixth Form Colleges

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 13 January 2009, *Official Report*, column 636W, on the Building Schools for the Future programme: sixth form colleges, how sixth form colleges located within local authority areas which have already received Building Schools for the Future funding will access funds to renew their buildings; and what assessments he made in relation to the sixth form college estate in deciding which local authorities will be included in the next wave of the Building Schools for the Future programme. [289403]

Mr. Coaker: Pursuant to the answer of 21 July 2009, *Official Report*, column 1403W, I restate that we have made our intention clear to bring sixth form colleges within the scope of the Building Schools for the Future programme. That remains our position. We will make the details clear as soon as we are able.

Children: Prisoners

Michael Gove: To ask the Secretary of State for Children, Schools and Families what assistance is made available to children with one or both parents in prison *(a)* to maintain contact with their parents where appropriate, *(b)* to prevent unequal treatment of them and *(c)* for other purposes. [291853]

Dawn Primarolo: The Department recognises that many children of offenders are vulnerable and is working closely with the Ministry of Justice and National Offender Management Service to meet their needs.

The Department for Children, Schools and Families and the Ministry of Justice will jointly publish a cross-Government framework later this year setting out recommended practice by local agencies and offenders services in identifying and supporting these children. The Department has also funded a range of innovative voluntary sector projects supporting families of offenders through the Children, Young People and Families (CYPF) grant programme.

In addition to this many prison establishments hold regular family days for visitors—enabling children to spend a longer period of time with their parent who is in custody. This will often involve opportunities for participation in family learning and play and sports activities, enabling offenders to interact with their children on a one to one basis. The Assisted Prison Visits Scheme operated by the National Offender Management Service also helps children maintain contact with their parent while they are in prison by meeting travel expenses where the child's parent has a low income.

Michael Gove: To ask the Secretary of State for Children, Schools and Families what support is given to children with one or more parents in prison, with particular reference to *(a)* maintaining contact with the parent or parents, unless this is deemed contrary to the child's best interests and *(b)* preventing stigmatisation of and discrimination against them. [292526]

Dawn Primarolo: The Department recognises that many children of offenders are vulnerable and is working closely with the Ministry of Justice and National Offender Management Service to meet their needs.

The Department for Children, Schools and Families and the Ministry of Justice will jointly publish a cross-government Framework later this year setting out recommended practice by local agencies and offenders services in identifying and supporting these children. The Department has also funded a range of innovative voluntary sectors projects supporting families of offenders through the Children, Young People and Families (CYPF) grant programme.

In addition to this many prison establishments hold regular family days for visitors—enabling children to spend a longer period of time with their parent who is in custody. This will often involve opportunities for participation in family learning and play and sports activities, enabling offenders to interact with their children on a one-to-one basis. The Assisted Prison Visits Scheme operated by the National Offender Management Service also helps children maintain contact with their parent while they are in prison by meeting travel expenses where the child's parent has a low income.

Children: Social Services

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what steps he has taken to ensure social workers and directors of children's services are aware of the provisions of section 53 of the Children Act 2004; and whether his Department plans to issue good practice guidance on taking the views of children into account in decision-making. [291771]

Dawn Primarolo: The Government's statutory guidance "Working Together to Safeguard Children" (2006), supplementary guidance associated with Working Together and the "Statutory guidance on making arrangements to safeguard and promote the welfare of children under section 11 of the Children Act 2004" (2007) all set out the responsibilities of directors of children's services and social workers in relation to section 53 of the Children Act 2004. The training materials "Safeguarding Children—a shared responsibility" (2007), commissioned by the Department for Children, Schools and Families to assist staff at all levels fulfil their safeguarding responsibilities, also explain these provisions and advise on how to implement them in appropriate ways. The updated Working Together, being revised following Lord Laming's recommendations, will make even clearer the responsibilities of those concerned to ascertain the wishes and feelings of children.

Children's Trusts

Rob Marris: To ask the Secretary of State for Children, Schools and Families what roles schools have in providing information to parents on Children's Trusts; and if he will make a statement. [289697]

Dawn Primarolo: Subject to the passage of the Apprenticeships, Skills, Children and Learning Bill 2009 currently before Parliament, maintained schools will become 'relevant partners' of the Children's Trust, and statutory members of the Children's Trust Board. Subject to consultation, statutory guidance will make clear that each Children's Trust Board should ensure that systems are in place to provide accessible and comprehensive information about what services are available locally to parents and young people.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of maintained mainstream schools did not enter any pupils for *(a)* physics, *(b)* chemistry, *(c)* biology and *(d)* history GCSE in 2008. [286404]

Mr. Coaker: Of the 3,159 maintained mainstream schools published in the 2008 Achievement and Attainment Tables,

1,810 (57.3 per cent.) entered no pupils for physics,

1,802 (57.0 per cent.) entered no pupils for chemistry,

1,737 (54.8 per cent.) entered no pupils for biology and

131 (4.1 per cent.) entered no pupil for history.

National Curriculum Tests: Disadvantaged

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils who failed to achieve a Level 4 or above in reading, writing and mathematics in their Key Stage 2 tests in the latest period for which figures are available were eligible to receive free school meals. [286715]

Mr. Coaker: The requested information is shown as follows:

	Pupils achieving Level 3 or below in reading, writing and maths[1]	
Free school meal eligibility	*Number*	*Percentage*
FSM	17,783	33
Non FSM	35,058	66
Total[2]	53,332	100

[1] Includes pupils working below the level of the test (Level B); pupils who took the test but failed to registered a level (Level N), Level 2 (maths only); Level 3.

[2] Includes pupils for whom FSM information was not sought or for which information was refused.

Pupil Exclusions

Mr. Touhig: To ask the Secretary of State for Children, Schools and Families (1) what research his Department has commissioned on the effects of exclusion on pupils in the last three years; [291949]

(2) what guidance his Department has issued to schools on the criteria to be used in determining whether or not to exclude a specific pupil; [291950]

(3) what guidance his Department has issued to local education authorities on school exclusions and the provision of alternative arrangements for the education of excluded pupils. [291951]

Mr. Coaker: The law on exclusion is a devolved issue and any question relating to Wales' educational system should be put to the Welsh Assembly.

The Department has not commissioned research on the impact of exclusion from school on pupils in the last three years.

Guidance for schools and local authorities in England on exclusion is available in "Improving behaviour and attendance: guidance on exclusion from schools and Pupil Referral Units 2008" available at:

www.teachernet.gov.uk/exclusion

Head teachers have discretion to deal with pupils who are displaying challenging behaviour. Responses to such behaviour should be made in the context of the school's behaviour policy, and should encompass a range of strategies, with exclusion as one option, so that the interests of the whole school are reflected in the action taken.

Exclusion from school in England should not mean exclusion from education. Since September 2007, all schools have had a statutory duty to provide suitable, full-time education for pupils who have been given a fixed period exclusion of six days or more. Likewise, English local authorities have a duty to arrange suitable, full-time education for pupils who have been permanently excluded from the sixth day of their exclusion. This requirement applies to all pupils of compulsory school age.

Schools: Manpower

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families how many *(a)* teachers and *(b)* classroom assistants were employed in maintained schools in each local education authority area in the North West in each year since 1997. [289293]

Mr. Coaker: The following table provides the full time equivalent number of regular teachers and teaching assistants in service in local authority maintained schools in each local authority in the North West Government Office Region in January 1997 to 2009.

Full-time equivalent regular teachers (excluding occasional)[1] and teaching assistants[2] in local authority[3] maintained schools. Years: January 1997 to 2009. Coverage: Local authority area in the North West Government Office Region

[3] The first, second and third phases of local government reorganisation came into effect on 1 April 1996, 1 April 1997 and 1 April 1998 respectively. The new authorities are shown directly below their former parent local education authorities.

Schools: Nottingham

John Mann: To ask the Secretary of State for Children, Schools and Families what the value added measures for each school in Nottingham were in the latest period for which figures are available. [292397]

Mr. Coaker: The Achievement and Attainment Tables (AATs) give a summary of performance of each school, including their Contextual Value Added measure.

The 2008 AATs can be found at

http://www.dcsf.gov.uk/performancetables/

and are also in the Library.

Science: GCSE

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) how many schools in the *(a)* maintained mainstream and *(b)* independent sector had one or more students achieve a GCSE in both core science and additional applied science in each year since 2007; [286803]

(2) at how many schools in the *(a)* maintained mainstream and *(b)* independent sector one or more students achieved a GCSE in both core science and additional science in each year since 2007. [286806]

Mr. Coaker: In 2007, no schools had one or more pupils at the end of key stage 4 achieve pass grades in both core science and additional applied science GCSEs. In 2008, 908 maintained schools and 14 independent schools had one or more pupils at the end of key stage 4 achieve pass grades in both core science and additional applied science GCSEs.

In 2007, 37 maintained schools and one independent school had one or more pupils at the end of key stage 4 achieve pass grades in both core science and additional science GCSEs.

In 2008, 2,992 maintained schools and 540 independent schools had one or more pupils at the end of key stage 4 achieve pass grades in both core science and additional science GCSEs.

Achievement and Attainment Tables database

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which schools in the National Challenge programme *(a)* entered pupils for and *(b)* offered courses in the separate sciences at GCSE in the most recent year for which figures are available; and if he will make a statement. [287529]

Mr. Coaker: The Department does not hold information on which subjects are offered by schools.

Based on 2008 data, the latest year for which validated results are available, there were 440 schools below the National Challenge floor target. Of those, 125 schools entered at least one pupil in at least one of the separate sciences in 2008. Those schools are listed as follows.

	Location
Kidbrooke School	Greenwich

Serlby Park School: Finance

John Mann: To ask the Secretary of State for Children, Schools and Families what capital funding bids submitted to his Department by Nottinghamshire County Council in the last 12 months contained reference to Serlby Park 3-18 school. [292167]

Mr. Coaker *[holding answer 12 October 2009]:* Nottinghamshire county council has not submitted any bids for funding a three to 18 school at Serlby Park. Most capital funding is allocated by means of a formula rather than through a bidding process. Decisions about priorities for investment are rightly matters for local determination.

Specialised Diplomas

Mr. Greg Knight: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the standards of *(a)* English and *(b)* mathematics teaching for students studying for the diploma qualification. [291506]

Mr. Coaker: The Department does not routinely make assessments of standards in English and mathematics teaching. The Office for Standards in Education, Children's Services and Skills makes these assessments. The recent Ofsted report, "Implementation of 14-19 reforms, including the introduction of Diplomas", published on 17 August 2009, includes an evaluation of the first year of teaching of functional skills in mathematics and English as part of the Diploma.

The Department has substantially increased its work for the 2009/10 academic year with schools and local authorities, through a programme of support provided by National Strategies, to support the teaching and learning of functional skills across all of the curriculum, and act on the findings of the Ofsted report. As part of offering this support, NS and LSIS work continually at a local level to assess training requirements in the light of readiness for functional skills teaching in local schools, colleges and other post-16 institutions.

Sure Start Programme: Finance

Mrs. Spelman: To ask the Secretary of State for Children, Schools and Families what proportion of funding for Sure Start *(a)* children's centres and *(b)* local programmes has been retained by each local authority in each of the last three years for which figures are available; and what the total (i) revenue and (ii) capital allocation was in each case. [290452]

Dawn Primarolo: Local authorities do not retain unspent allocation of the Sure Start, early years and childcare grant (SSEYCG). The Department claws back any unspent allocation of revenue following receipt of audited statements of expenditure. The Department also does this for capital allocations but offers carry-forward of unspent capital each year until the end of March 2011 (2010-11 financial year).

The information requested has been placed in the Libraries. The Sure Start Local Programme (SSLP) and children's centres allocations for each local authority for the last three years are given in table 1. The spend by local authorities for the last three years for which figures are available are given in table 2.

Teachers: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families what the average full-time equivalent gross pay of teachers was in schools in Hemsworth constituency in *(a)* cash and *(b)* real terms in each year since 1997. [288810]

Mr. Coaker: The information requested is not available at the constituency level but can be provided by local authority where the data source is considered to be of sufficient quality.

Information on the average salary of teachers is available only for full-time regular qualified teachers in service in local authority maintained schools. The following table provides this information for Wakefield local authority in both cash and real terms in each year, March 1997 to 2007, the latest year for which information is available by local authority.

Average salary of full-time regular qualified teachers in local authority maintained schools, March 1997 to 2007, Wakefield local authority

	Gross average salary (£)[1]	
	Actual	*Real terms*[2]
1997	22,100	28,000
1998	22,800	28,100
1999	23,600	28,600
2000	24,800	29,400
2001	26,800	31,300
2002	27,700	31,600
2003	29,500	32,700
2004	30,700	33,100
2005	31,700	33,200
2006[3]	32,800	33,700
2007[3]	33,900	33,900

[1] Gross salary of teachers of all grades including allowances.
[2] Adjusted using HM Treasury GDP deflator.
[3] Provisional.
Note:
Figures are rounded to the nearest £100.

Database of Teacher records

Teachers: Training

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many entrants to postgraduate certificate of education courses had a lower second class degree or better in the last year for which figures are available; [288244]

(2) how many entrants to postgraduate certificate of education courses had a third class or lower classification degree in the last year for which figures are available. [288245]

Mr. Coaker: The following tables show the number of first year trainees in 2006-07 by the classification of their first degree for:

1. Postgraduate ITT trainees
2. Employment Based Routes (EBR) trainees.

Table 1: Proportion of postgraduate trainees in their first year of mainstream ITT courses by classification of first degree 2006-07, England

	First year ITT entrants	
Classification of first UK degree	*Number*	*Percentage*
Total with 2:2 and above	20,660	92.6
Third	760	3.4
Pass	440	2.0
Unclassified	460	2.1
Total	22,320	100.0

Notes:
1. First year entrants to post graduate ITT courses. Includes Universities and other Higher Education Institutions, SCITT and Open University. Excludes employment based routes and cases where QTS was granted without a course in ITT.
2. Classification of first UK degree only.
3. Unclassified includes cases where degree class was undefined or unknown.
4. Numbers have been rounded to the nearest 10.

Source:
TDA's Performance Profiles

Table 2: Proportion of postgraduate trainees in their first year of employment based routes to ITT by classification of first degree 2006-07, England

	First year ITT entrants	
Classification of first UK degree	*Number*	*Percentage*
Total with 2:2 and above	4,630	88.6
Third	260	4.9
Pass	340	6.5
Unclassified	0	0.0
Total	5,230	100.0

Notes:
1. Excludes Universities and other Higher Education Institutions, SCITT and Open University and cases where QTS was granted without a course in ITT.
2. Classification of first UK degree only.
3. Unclassified includes cases where degree class was undefined or unknown.
4. Numbers have been rounded to the nearest 10.

Source:
TDA's Performance Profiles

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many entrants for B.Ed degree courses had no A level passes, excluding equivalents, in the last year for which figures are available. [288341]

Mr. Coaker: The available information is given in the table and shows the number and percentage of entrants to undergraduate initial teacher training (ITT) courses by their highest qualification on entry. Qualifications included in the "Other" category might be higher than A/AS level and can include trainees who have A/AS levels. Information relating specifically to entrants with no qualifications at advanced level is therefore not available.

Undergraduate trainees represent 24 per cent. of trainees on mainstream ITT courses.

Undergraduate entrants to ITT courses by their highest qualification on entry 2006-07—England

TDA's Performance Profiles

Michael Gove: To ask the Secretary of State for Children, Schools and Families what average number of hours of continuous professional development training was received by teachers in the last year for which figures are available. [288345]

Mr. Coaker: The Department does not collect these data in the manner requested centrally. However, the Teachers' Workloads Diary survey, managed until recently by the Office of Manpower Economics and funded by the Department, does include time spent on training and/or development activity, including INSET, peer observation or being mentored. The survey results reflect each individual's definition of continuing professional development (CPD) and, as such, will not necessarily record many activities that would constitute CPD such as coaching or reading teaching and learning material.

The latest results from that survey, for 2008, showed that the average time per week spent on this activity was:

	Hours
Primary:	
Heads	3.2
Deputy Heads	2.3
Classroom teachers	1.4
Secondary:	
Heads	3.2
Deputies	1.7
Heads of department	1.1
Classroom teachers	0.8

JUSTICE

Asylum and Immigration Tribunal

Simon Hughes: To ask the Secretary of State for Justice how many files were destroyed by the fire at the Asylum and Immigration Tribunal Centre in London on 19 March 2009; how many such files have yet to be reconstructed; how many cases have been delayed as a consequence of that fire; and when he expects those cases to have been determined. [290262]

Bridget Prentice: On 18 March 2009, 127 Asylum and Immigration Tribunal (AIT) files and 22 Special Immigration Appeals Commission (SIAC) files were completely destroyed by fire at the AIT's centre, Field House.

All of the SIAC files have been reconstructed. All the 127 AIT files were awaiting decisions from the Court of Appeal. Of these, 12 have been reconstructed and remitted back to the AIT. Administrative staff have requested the necessary papers from the parties in order for these cases to be listed for hearings. A further 26 have been completed because they were withdrawn at the Court of Appeal or Court of Appeal judgments not in favour of the appellant have been delivered. The Court of Appeal has now returned from summer recess and it is expected that the remainder of these will be cleared.

There were also 141 files, at various stages of the AIT reconsideration process, that were damaged by water and smoke and these were sent to a file recovery centre. On return, the files were checked and any papers that were illegible were re-requested from parties. All these cases are now progressing through the appeal system.

A total of 128 AIT cases were adjourned immediately after the fire but hearings resumed a week later at an alternative venue. A total of 93 have already been heard and determined, four have been heard and are awaiting determination, 24 were heard in September and will be determined in October, two will be heard and determined in October and five will be heard and determined in November. These timescales reflect the time needed, in some cases, to reconstruct damaged appeal files. The SIAC cases have not been subject to any delay.

Priority has been given to High Court Review Filter Applications (where a party is dissatisfied with the first appeal decision) with the aim that parties received decisions within 10 days. Here, the impact of the fire was compounded by unexpected increases in workload. All of these cases have now been cleared.

The files destroyed and damaged represent a small number compared with over 1,000 which were salvaged from Field House. A huge contingency operation where administrative staff and members of the judiciary worked closely together ensured that hearings were resumed and the business relocated with a minimum inconvenience and delay to customers.

Female Genital Mutilation: Prosecutions

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there have been for offences related to female genital mutilation in each of the last five years; and what steps he plans to take to increase the prosecution rate for such offences. [291551]

Claire Ward: There have been no prosecutions or convictions for female genital mutilation (FGM) reported to the Ministry of Justice up to the end of 2007. Data for 2008 will be available towards the end of 2009.

The Female Genital Mutilation Act 2003 is intended to help to prevent this unacceptable practice from happening in the first place. Anecdotal evidence suggests that it is doing this. A range of guidance has been issued to heighten awareness among all relevant professionals. The Home Office issued guidance to all chief officers of police in England and Wales on the investigation of cases of FGM when the Act came into force in 2004. The Association of Chief Police Officers incorporated FGM in guidance for police forces which was revised and reissued in 2008. The Crown Prosecution Service included FGM in its Policy for Prosecuting Cases of Domestic Violence, which was disseminated to all prosecutors by the end of 2008. This was accompanied by a modular training package which has been rolled out to all CPS areas.

The Home Office chairs a cross-governmental steering group on FGM which brings together officials from across Government and key voluntary organisations and service providers. The group's aim is to develop actions and practical tools to assist victims and potential victims of FGM and to provide a co-ordinated response to tackling the issue. As part of this work, the Under-Secretary of State for Crime Reduction, my hon. Friend the Member for Tynemouth (Mr. Campbell) announced on 24 September the appointment of a cross-Government co-ordinator to provide a single point of contact for work on this issue.

Land: Registration

Justine Greening: To ask the Secretary of State for Justice (1) how many claims there were to the Land Registry Indemnity Fund by nature of claim in each of the last four years; how many such claims were paid; what estimate he has made of the monetary value of such claims by nature of claim; and if he will make a statement; [290118]

(2) how many complaints were received by the Land Registry regarding errors in or omissions from register entries in respect of indemnity claims in each of the last four years; and if he will make a statement; [290119]

(3) with reference to the table on page 44 of the Land Registry Annual Report 2007-08, what criteria apply to the calculation of substantive loss in respect of Land Registry indemnity claims; and if he will make a statement; [290137]

(4) with reference to the Land Registry Annual Report 2007-08, if he will publish an updated version of the table on page 44 providing the same information in respect of indemnity claims for 2008-09. [290142]

Mr. Wills: The Land Registration Act 2002 makes provision for the payment of statutory compensation or 'indemnity' where a mistake arises, which includes not only mistakes in the register itself but also, for example, mistakes in official copies of documents referred to in the register or mistakes in official searches of the register. The Land Registration Act 2002 sets out the circumstances in which the register can be altered so as to put right a mistake and also the circumstances when this is not possible. Mistakes in the register can result in losses to those affected by them whether or not the register is subsequently altered and Land Registry will where appropriate pay indemnity to compensate anyone who suffers loss as a result of the rectification of the register (where the register is altered to correct the mistake and this prejudicially affects a registered title), or as a result of a mistake in the register that could have been rectified but for some reason (for example because land is in the possession of an innocent registered proprietor) was not.

The following tables show details of the number and nature of claims over the last four years. The number of claims received, paid and monetary value of such claims has been recorded from 2006-07. Prior to that date, it was not Land Registry practice to record either the number of claims received or the amount claimed. When the number of claims received is fewer in number than the total this is because a claim is not necessarily paid in the year in which it is received.

The tables include information on indemnity claims as a result of errors and omissions in register entries. The question of the number of complaints about this type of error is a different issue. It does not necessarily follow that a complaint will be received when a mistake resulting in a payment has been made or, conversely, that a payment will be made when a complaint is received. Land Registry has specific complaint category records from 2008-09. During this period 182 complaints were received about this type of mistake.

Land Registry does not itself calculate the value of an indemnity claim, so there are no criteria as such to apply to the calculation of substantive loss in this respect. Instead, the claimant or their legal representative submits a claim based on the value of the loss (including any legal or other costs) caused by the mistake in the register and Land Registry considers the claim in the light of the individual facts and in accordance with the provisions of the Land Registration Act 2002. It may follow that a claim is reduced through negotiation or because, for example, there has been negligence or 'lack of proper care' on the part of the claimant. In some cases a professional valuation is obtained in order to quantify the value of a claim. In the absence of agreement, the Land Registration Act 2002 entitles a claimant to seek a determination from the court as to any question of entitlement and the amount of any such indemnity.

Land Registry may also pay indemnity in respect of legal and other costs, where appropriate.

Land Registry's Annual Report always contains an Indemnity Report. The table for the year 2008-09 is within the recently published report and a copy is also set out as follows:

Indemnity report for 2005-06

Nature of claim	*Number of claims paid*	*Substantive loss paid (£)*	*Legal costs paid (£)*	*Percentage of total*
Extent of registered titles	487	1,696,162.58	1,272,091.06	21.03

Magistrates Courts: Leicestershire

Mr. Garnier: To ask the Secretary of State for Justice which magistrates courts in Leicestershire he proposes to *(a)* close and *(b)* reduce the sitting hours of in the next (i) 12 and (ii) 24 months. [288373]

Bridget Prentice: I refer the hon. and learned Member to the written ministerial statement made earlier today setting out the Government's plans to consult on the closure of a number of under used magistrates courts. Many of the courts we are consulting on do not have adequate facilities for victims and witnesses or other court users. None of the courts we are consulting on are located within Leicestershire.

HMCS must keep the level of magistrates courts sitting commensurate to the amount of work—local management decisions, involving local judiciary, including magistrates, and staff will be taken regularly to ensure that that is the case. Local discussions are currently under way to determine the sitting levels for 2010-11—these discussions have not concluded and no proposals have therefore been made yet.

HMCS regularly reviews the use and utilisation of its estate. Where there is insufficient work and alternative facilities within a reasonable travelling distance we will hold consultations to seek views on whether to close a court. We will make a decision on whether to close a court after considering the responses to consultations.

Offences Against Children: Convictions

Margaret Moran: To ask the Secretary of State for Justice how many people have been convicted for offences related to viewing child abuse images in each of the last five years. [291748]

Claire Ward: The number of persons found guilty at all courts in England and Wales for offences relating to child pornography of taking, permitting to be taken, distributing, publishing or possession of indecent photographs or pseudo-photographs of children, from 2003 to 2007 (latest available) is shown in table 1 as follows. It is not possible to separately identify computer based offences from other offences related to indecent photographs.

The number of persons found guilty at all courts in England and Wales for offences relating to child abuse, from 2003 to 2007 is shown in table 2 as follows. There is no specific offence of "child abuse" therefore statistics are only provided where the age of the victim can be identified as a child from the description of the offence. Furthermore the term "child abuse" describes harm caused to a child arising from emotional, physical, sexual abuse or neglect caused by a parent, guardian, carer, or stranger. A number of other offences such as offences against the person including physical assault may frequently be used by the police to charge offenders.

The Sexual Offences Act 2003 significantly modernised and strengthened the laws on sexual offences in England and Wales to provide extra protection to children from sexual exploitation. This makes direct comparisons with previous legislation very difficult. Many new offences created by the Act will not have a direct equivalent under the old legislation. The Sexual Offences Act 2003 came into force on 1 May 2004. Table 2 includes, for 2003 only, comparable offences under the Sexual Offences Act 1956.

Court proceedings data for 2008 are planned for publication at the end of November 2009.

Table 1: The number of persons found guilty at all courts in England and Wales for offences relating to child pornography[1] from 2003 to 2007[2, 3]

Offence Description	*2003*	*2004*	*2005*	*2006*	*2007*
Take, permit to be taken, or to make distribute or publish indecent photographs or pseudo-photographs of children	1,048	978	958	768	782
Possession of an indecent photograph or pseudo-photograph of a child	239	184	196	166	185

[1] Offences under the Protection of Children Act 1978, section 1 and section 6 as amended by the Criminal Justice and Public Order Act 1994, section 84 & Criminal Justice & Court Services Act 2000 S.41(1); Offences under the Criminal Justice Act 1988 Sec. 160 as amended by the Criminal Justice & Court Services Act 2000.

[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the more severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:

OMS Analytical Services, Ministry of Justice.

There is no specific offence of viewing child abuse images, this table covers a wider range of offences and it is not solely based on viewing child abuse images. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence, the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences, the principal offence is the one for which the statutory maximum is most severe.

There are two main offences in this area:

Under Section 1 (1) of the "Protection of Children Act 1978" it is an offence for a person:

(a) to take, or permit to be taken, or to make any indecent photograph or pseudo-photograph of a child; or

(b) to distribute or show such indecent photographs or pseudo-photographs; or

(c) to have in his possession such indecent photographs or pseudo-photographs, with a view to their being distributed or shown by himself or others; or

(d) to publish or cause to be published any advertisement likely to be understood as conveying that the advertiser distributes or shows such indecent photographs or pseudo-photographs, or intends to do so.

These offences carry a 'maximum 10-year prison sentence'.

Section 160 (1) of the Criminal Justice Act 1988 makes it an offence for a person to have any indecent photograph or pseudo-photograph of a child in his possession.

This offence carries a maximum prison term of five years.

A sentence of imprisonment for public protection can be given for a specified sexual (or violent offence) that carries a maximum penalty of 10 years or over; the relevant offences are set out in schedule 15 to the Criminal Justice Act 2003 and include an offence under section 1 of the Protection of Children Act 1978. These sentences ensure that serious offenders will not be released from prison unless their level of risk to the public is assessed by the Parole Board as manageable in the community. If the level of risk cannot be assessed as manageable, they will not be released. An offence under section 160 of the Criminal Justice Act 1988 may attract an extended sentence for public protection. Such a sentence requires the offender to be on licence and under supervision for a longer period for the purposes of public protection.

Prison Visitors: Expenditure

Mr. Oaten: To ask the Secretary of State for Justice how much was spent on *(a)* the administration of and *(b)* expenditure by the Assisted Prison Visits Unit in each of the last three years; and whether those costs were included in the revenue costs of his Department. [291887]

Maria Eagle: The administration expenditure for the assisted prison visits unit (APVU) is as follows:

	£
2006-07	697,000
2007-08	693,000
2008-09	710,000

The gross expenditure by the assisted prison visits unit for giving assistance to prisoners' visitors is as follows:

	£
2006-07	1,941,000
2007-08	2,170,000
2008-09	2,171,000

The total expenditure for APVU has been included in the revenue costs of the Ministry of Justice for 2008-09 and 2007-08, and the Home Office for 2006-07.

The assisted prison visits scheme provides help with travel and where appropriate accommodation expenses to prisoners' close relatives, partners or a friend (where they are the only visitor). In all cases the visitor must be in receipt of specified benefits or on a low income.

Prisoners Release: Mentally Ill

Anne Milton: To ask the Secretary of State for Justice what mentoring programmes are available for people with *(a)* mental health problems and *(b)* learning disabilities who leave custody; and if he will make a statement. [290014]

Phil Hope: I have been asked to reply.

The Department does not keep any central record of mentoring programmes for people leaving custody with mental health problems or learning disabilities. Such schemes are usually local initiatives started by voluntary agencies working with their local prison and other services.

Prisoners: Death

Mr. Wallace: To ask the Secretary of State for Justice (1) how many people have died from cancer while in custody in each year since 2001; [291956]

(2) how many inmates have died in prison from natural causes in each year since 2002. [291957]

Maria Eagle: The following table gives the number of people known to have died from cancer while in prison custody in England and Wales in each year since 2001.

	Number of known cancer related deaths in prison custody in England and Wales
2001	6
2002	7
2003	17
2004	21
2005	19
2006	18
2007	14
2008	22

The number known to be cancer related are shown in this table and refer to primary cause of death but exclude cases where cancer played a secondary or tertiary role. In later years the numbers should be interpreted as provisional, as they may change following inquests or as new information emerges.

The following table gives the total number of deaths from natural causes in prison custody in England and Wales since 2002.

	Total number of deaths from natural causes in prison custody in England and Wales
2002	66
2003	86
2004	102
2005	88
2006	83
2007	92
2008	98

Every death in prison is a tragedy, and affects families, staff and other prisoners deeply. Ministers, the Ministry of Justice and NOMS are committed to learning from each death and to reducing the number of such incidents. Deaths in prisons are among the most scrutinised of all incidents and each case is subject to a police investigation and independent investigation by the Prisons and Probation Ombudsman. Robust systems are in place for monitoring deaths and learning from them.

Prisoners: Foreigners

David T.C. Davies: To ask the Secretary of State for Justice how many *(a)* Romanian and *(b)* Bulgarian nationals have been sentenced to a term of imprisonment in each of the last three years. [291830]

Claire Ward: The requested data are not available as the nationality of those sentenced is not recorded on the Court Proceedings database. Data on the number of Bulgarians and Romanian nationals currently in custody can be found in the Table 5 of the June 2009 'Population in Custody' bulletin published by the Ministry of Justice, following this link:

http://www.justice.gov.uk/publications/populationincustody.htm

The following table taken from the Offender Management Caseload Statistics shows the total number of Bulgarian and Romanian receptions for 2006 to 2008. The figures for 2006 are considerably lower because both these countries joined the EU in January 2007.

Receptions into prison establishments by nationality and sex, 2006-08

	Male	*Female*	*Total*
2006			
Bulgaria	29	13	42
Romania	255	35	290
2007			
Bulgaria	47	128	175
Romania	438	114	552
2008			
Bulgaria	40	133	173
Romania	749	122	871

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
Source:
OMS Analytical Services, Ministry of Justice

Prisons: Private Sector

Mr. Wallace: To ask the Secretary of State for Justice what steps he has taken to ensure that private sector prisons take action in response to criticisms contained in the reports on them by HM Inspector of Prisons. [291962]

Maria Eagle: Contracted Sector Prisons are subject to the same procedures as public sector prisons for HM Inspector of Prisons. Within three months of the publication of a report on any prison, the National Offender Management Service is required to develop and submit an action plan to HM Chief Inspector of Prisons. This plan will respond to every recommendation made in the report. After a further nine months this action plan is updated. Ministers approve both action plans. The action plans enable progress to be monitored.

Prisons: Television

John Mann: To ask the Secretary of State for Justice how much HM Prison Service *(a)* spent on televisions in prisons in the last 12 months for which figures are available and *(b)* received from prisoners under contracts for television rental. [292515]

Maria Eagle: Prisoners have access to televisions in-cell as part of local incentives and earned privileges schemes. Prisoners can rent televisions for £1 per week. The revenue generated from this charge is used for the purchase of new and replacement televisions and to fund the switchover of the prison estate from analogue to digital television.

In the financial year 2008-09, HM Prison Service expenditure and rental income from prisoners in respect of in-cell TV is shown in the following table.

	£
Expenditure	2,311,000
Rental income from prisoners	2,135,000

Probation Officers

Mr. Garnier: To ask the Secretary of State for Justice what estimate he has made of the number of trainee probation officers expected to qualify in 2009 who will not find employment in the Probation Service. [290327]

Maria Eagle: There are currently 44 graduating TPOs in the national clearing house arrangements who have yet to receive offers of employment. A further 59 graduates have left the National Probation Service to take up posts elsewhere, or elected not to join the clearing house arrangements. 27 trainees have received training contract extensions and will not therefore qualify in 2009.

Probation: Costs

Mr. Garnier: To ask the Secretary of State for Justice what estimate he has made of the cost to the public purse of probation facilities management contracts in *(a)* 2008-09 and *(b)* 2009-10. [290291]

Mr. Straw: The final cost of the fixed fee facilities management services for the Probation estate for 2008-09 and expected costs for 2009-10 are currently subject to commercial negotiations. Once the negotiations have concluded I will write to the hon. and learned Member setting out the costs.

Probation: Hertfordshire

Mr. Walker: To ask the Secretary of State for Justice how many cases were referred to multi-agency public protection panels in Hertfordshire Probation Area in each of the last five financial years. [289342]

Maria Eagle: The following table shows the total number of multi-agency public protection arrangements (MAPPA) eligible offenders living in the community in Hertfordshire. The table also shows the number of eligible offenders who were managed at the higher MAPPA levels and who were considered by multi-agency public protection panels. Cases are referred to level 2 where the ongoing involvement of several agencies will be required to implement or monitor the risk management plan and to level 3 where more senior oversight is additionally required. The data are collated from those data prepared for Hertfordshire's MAPPA Annual Reports.

Hertfordshire	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Total MAPPA eligible offenders	867	808	791	732	665
Level 2	[1]—	583	57	329	125
Level 3	113	112	31	45	14

[1] Not collected.

Written Answers to Questions

Wednesday 14 October 2009

SCOTLAND

Outreach Service

9. **Miss McIntosh:** To ask the Secretary of State for Scotland what discussions he has had with the House of Commons authorities on the production of the Outreach Service's publication entitled People and Parliament: connecting with communities. [292286]

Ann McKechin: I am aware of the project that the hon. Member refers to and welcome its aim to spread awareness of the work and relevance of Parliament. I am very happy to support this project and to encourage greater engagement between the public and this Parliament.

Power Stations

10. **Ms Katy Clark:** To ask the Secretary of State for Scotland what recent discussions he has had with Scottish Executive Ministers on the siting of new coal-fired power stations in Scotland. [292287]

Mr. Jim Murphy: I have had no discussions with Scottish Government Ministers about the siting of new coal-fired power stations in Scotland.

Identity Cards

11. **Bob Spink:** To ask the Secretary of State for Scotland what recent discussions he has had with the First Minister on the *(a)* cost to the public purse of and *(b)* implementation of the national identity card scheme in Scotland. [292288]

Mr. Jim Murphy: I have had no discussions with the First Minister on national identity cards.

Tourism

12. **Mr. Weir:** To ask the Secretary of State for Scotland what recent representations he has received on the effects of UK Government policies on tourism in Scotland. [292289]

Ann McKechin: My right hon. Friend has received no recent representations on this issue.

Manufacturing Sector

13. **Mr. Moore:** To ask the Secretary of State for Scotland what recent representations he has received on UK Government support for the Scottish manufacturing sector. [292290]

Mr. Jim Murphy: I have had discussions with a range of stakeholders about support for the Scottish manufacturing sector.

Most recently, in September, I attended the Scottish engineering executive committee dinner in Glasgow and the Scotland Office, jointly with the David Hume institute, hosted a seminar bringing together key leaders in Government, industry and the university sector to discuss the opportunities and challenges for the high-tech engineering sector in Scotland.

Defence Establishments

14. **Lindsay Roy:** To ask the Secretary of State for Scotland what recent discussions he has had with ministerial colleagues on the future of defence establishments in Scotland. [292291]

Mr. Jim Murphy: I have regular discussions with ministerial colleagues on defence establishments given the many jobs they support in Scotland.

Glasgow Airport Rail Link

15. **Jim Sheridan:** To ask the Secretary of State for Scotland what recent discussions he has had with Scottish Executive Ministers on the decision not to proceed with the Glasgow airport rail link. [292292]

Ann McKechin: I have had no such discussions with Scottish Ministers.

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Scotland how much his Department spent on Royal Mail services in each of the last two years. [288745]

Ann McKechin: The Scotland Office spend using Royal Mail was £7,199 in 2007-08 and £13,476 in 2008-09. The Office was not required to top-up its franking machine in London during 2007-08, which significantly reduced the overall costs.

The Scotland Office also incurred Royal Mail costs of £6,718,002 in relation to the posting of candidates' free mailing and the delivery of poll cards for the Scottish Parliament election in 2007-08. In 2008-09 the Scotland office incurred Royal Mail postage costs for two Westminster by-elections totalling £147,475.

Departmental Training

John Mason: To ask the Secretary of State for Scotland how many external training courses were attended by staff of his Department in the last 12 months; and what the cost was of each course. [289606]

Ann McKechin: The Scotland Office encourages all staff to undertake learning and development activities. The majority of opportunities are provided through the Scottish Government and the Ministry of Justice; but where the training need is still not available within central Government, external training courses may be considered.

The Office does not maintain a central record of all training courses attended by staff. However, during the current financial year, the Office has incurred £12,164.94 in direct expenditure.

Departmental Travel

Justine Greening: To ask the Secretary of State for Scotland how much his Department spent on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurant meals for (i) Ministers and (ii) staff in his Department in each of the last five years. [289971]

Ann McKechin: The tables show the Scotland Office spend on car hire, rail and air travel. The Office does not separately record the spend on hotels and restaurant meals.

Ministers

			£
	Car hire[1]	*Rail*	*Air*
2004-05	8,042	374	2,822
2005-06	16,559	1,223	5,509
2006-07	5,797	1,745	5,270
2007-08	14,237	1,358	7,518
2008-09	18,439	1,381	23,313

[1] This does not include the Government Car Service London costs for which I refer the hon. Member to the written ministerial statement issued on 16 July 2009, *Official Report*, column 79WS.

Staff

			£
	Car hire	*Rail*	*Air*
2004-05	2,896	25,632	74,331
2005-06	4,051	32,244	73,431
2006-07	4,644	37,150	70,263
2007-08	3,549	31,100	56,946
2008-09	637	22,045	87,323

Holiday Accommodation: Taxation

Mr. Weir: To ask the Secretary of State for Scotland what discussions he has had with Treasury Ministers on the effect of the abolition of furnished holiday lettings tax relief on tourism, rural areas and regional economies in Scotland. [293432]

Ann McKechin: My right hon. Friend has regular discussions with Treasury colleagues on a range of matters affecting Scotland.

Government will publish an impact assessment at pre-Budget report 2009 alongside draft legislation.

Scotland

Stewart Hosie: To ask the Secretary of State for Scotland whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288951]

Ann McKechin: The Scotland Office has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its final report, which can be found here:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

CABINET OFFICE

2009 Edition of "Public Bodies"

Greg Clark: To ask the Minister for the Cabinet Office when she expects to publish the 2009 edition of "Public Bodies". [289842]

Tessa Jowell: We expect to publish "Public Bodies 2009" early in the new year. Copies will be placed in the Libraries of the House and made available online.

Civil Servants

Mr. Hurd: To ask the Minister for the Cabinet Office what information the Cabinet Office holds on the average turnover rate amongst civil servants in each *(a)* Government department and *(b)* executive agency. [290037]

Angela E. Smith: The Department does not hold data centrally on civil service average turnover rates among civil servants in each *(a)* Government Department and *(b)* Executive Agency.

Information on the number of leavers in the year to 31 March 2008 and the number of permanent staff as at 31 March 2008 by *(a)* Government Departments and *(b)* Executive Agency is collected by ONS as part of the Annual Civil Service Employment Survey. A copy has been placed in the Library and is available at the following ONS webpage:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

Civil Service: Pensions

Mr. Philip Hammond: To ask the Minister for the Cabinet Office with reference to paragraph C. 76, page 242 of Budget 2009, if she will place in the Library a copy of the actuarial advice she received on the civil service pension scheme; and if she will make a statement. [289102]

Tessa Jowell: The projections underlying forecast expenditure for the civil service scheme reflect the actuarial assumptions set at the time of the last scheme valuation. A copy of the actuary's report of December 2007 is in the Library.

Glasgow

John Mason: To ask the Minister for the Cabinet Office whether she plans to visit Glasgow on official business during the summer adjournment. [288937]

Tessa Jowell: I have not visited Glasgow on official business during the summer adjournment.

Government Communication Network

Mr. Hoban: To ask the Minister for the Cabinet Office (1) what the budget for *(a)* the Government Communication Network and *(b)* the Government Communication Group is for (i) 2008-09, (ii) 2009-10, (iii) 2010-11 and (iv) 2011-12; [242218]

(2) what the cost to the public purse of *(a)* the Government Communication Network and *(b)* the Government Communication Group was in each year for which figures are available. [242220]

Tessa Jowell: The budget for Government Communication Group for 2008-09 was £2.1 million, and is £2.1 million for 2009-10. The Cabinet Office has not yet finalised unit budgets for future financial years beyond this spending review period.

The group's remit includes improving professional capability of government communication, cross-departmental co-ordination and the customer service standard. The Government Communications Network is the mainly online community to share best practice and learning to communication staff across government. Its administrative support is provided through the Government Communication Group and its costs are not separately identified but included in the total figure.

Expenditure for the Government Communication Group was as follows:

	Expenditure (£)
2005-06	2,335,000
2006-07	2,407,000
2007-08	2,114,000
2008-09	1,813,000

Government Departments: Data Protection

Mr. Wallace: To ask the Minister for the Cabinet Office what *(a)* losses of information and *(b)* breaches of information security have been reported to her Department by other Government departments since June 2008. [288962]

Tessa Jowell: As required in the cross government data handling review and to facilitate greater openness and transparency of data security breaches, Departments are required to report on significant personal information security breaches in their annual resource accounts. The first summary reports by Departments were published in their annual resource accounts at the end of the 2007-08 reporting year and these have now been followed by the 2008-09 accounts. These reports are publicly available through departmental websites.

WORK AND PENSIONS

Attendance Allowance: Scotland

John Mason: To ask the Secretary of State for Work and Pensions how many people in *(a)* Glasgow East constituency and *(b)* Scotland were in receipt of the (i) higher and (ii) lower rate of attendance allowance on the latest date for which figures are available. [290779]

Jonathan Shaw *[holding answer 9 September 2009]:* The information is provided in the table:

The number of people in Glasgow East constituency and Scotland in receipt of higher and lower rate of attendance allowance at February 2009

	Lower rate	*Higher rate*
Glasgow East parliamentary constituency	1,290	2,050
Scotland	57,360	87,640

Notes:

1. Figures are rounded to the nearest ten.

2. Totals show the number of people in receipt of the lower or higher rate attendance allowance. Excludes people with an entitlement where payment has been suspended.

Source:

DWP Information Directorate Work and Pensions Longitudinal Study

Pensioners: Poverty

Jo Swinson: To ask the Secretary of State for Work and Pensions what recent estimate she has made of the number of pensioners living in poverty in East Dunbartonshire constituency. [292933]

Angela Eagle: Estimates of poverty, published in the households below average income series, only allows a breakdown of the overall number of people in poverty at Government Office Region level. Therefore, information for East Dunbartonshire constituency is not available.

Latest information for Scotland, Government Office Region, is based on three year averages and is provided in Table 1 as follows:

Table 1: Number of pensioners (thousands) falling below various thresholds of median household income, after housing costs, Scotland Government Office Region, 2005-06 to 2007-08

	Number
Below 60 per cent. of contemporary median household income	200,000
Below 50 per cent. of contemporary median household income	100,000
Below 60 per cent. of the 1998-99 median household income uprated in line with prices	100,000

Social Fund: Glasgow

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 20 July 2009, *Official Report*, column 110WS, on the Discretionary Social Fund, for what reasons the changes to the Discretionary Social Fund were extended to Glasgow; and when she expects such an extension to end. [292915]

Helen Goodman: This change requires customers to be interviewed when they make a third or subsequent application for a crisis loan to cover living expenses (not including loans to cover the period before the customer receives their first payment of benefit or wages) in a rolling 12 month period.

This policy was extended to Glasgow in order to test the impact of this change in a large city environment; and to provide a comparison for Jobcentre Plus of the impact of interviewing a client on a third and subsequent crisis loan application in isolation from the combined measure being tested elsewhere. The testing in the two other areas—the East Midlands and South West Regions—included limiting the number of some crisis loan awards for living expenses to no more than three in 12 months.

We plan to rollout the changes nationally from the end of October 2009.

WOMEN AND EQUALITY

Equality and Human Rights Commission

Robert Neill: To ask the Minister for Women and Equality what assessment she has made of whether the Chairman of the Equality and Human Rights Commission has a conflict of interest in relation to his role in the Equate Organisation. [288268]

Maria Eagle: The chair of the EHRC has declared his interests in relation to Equate and has organised his work in order to avoid a conflict of interest.

FOREIGN AND COMMONWEALTH OFFICE

India: Christianity

Mr. McGrady: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to address the problems faced by Christians in Orissa state, India. [292760]

Mr. Ivan Lewis: Foreign and Commonwealth Office Ministers expressed their concerns directly to the Indian government at the time the violence occurred in 2008. The Indian central government has since urged the state government of Orissa, who are responsible for law and order in the state under the Indian constitution, to prevent any further such incidents. It has also offered compensation and assistance to victims of communal violence in India, including in Orissa. The EU sent a fact-finding mission to Orissa in December 2008 (in which a member of our high commission participated). Our high commission subsequently discussed the findings of that visit with the Indian government in Delhi, and also raised the issue of minority rights in Orissa at the last EU-India Human Rights Dialogue meeting in February 2009. They will participate in a further EU visit to Orissa, which is currently planned for December.

Middle East

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Israel on its policy priorities for *(a)* Gaza and *(b)* the West Bank; and if he will make a statement. [292961]

Mr. Ivan Lewis: We are in regular contact with Israeli Ministers and officials. My right hon. Friend the Prime Minster spoke to Prime Minister Netanyahu on 18 September. My right hon. Friend the Foreign Secretary spoke to Defence Minister Barak on 13 October.

These discussions cover a range of issues, including Israeli policies in the west bank, east Jerusalem and Gaza. Israel has legitimate concerns about its security and is right to demand the immediate release of Gilad Shalit. However, we are clear where we believe Israeli policies undermine hopes of peace and cause Palestinian civilians to suffer, notably through Israeli settlement building and movement restrictions in the west bank and east Jerusalem, and the restrictions on people and goods moving in and out of Gaza.

Morocco

Mark Williams: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will instruct HM Ambassador in Rabat to investigate the abduction and torture by Moroccan security agents on 27 August 2009 of Ms Hassawina Nguyia, a 19 year-old Sahrawi woman who had previously been prevented from travelling to London to participate in the programme, Youths talk together about Western Sahara. [292829]

Mr. Ivan Lewis: Our ambassador to Morocco and his staff at the British embassy in Rabat have already sought clarification from the Moroccan Government regarding Ms Hassawina Nguyia and the other Sahrawi students due to take part in an event in Oxford in August this year.

The Government made clear to the Moroccan authorities that they regretted that the students had been prevented from travelling to the UK and that they were concerned by allegations of the disproportionate use of force.

The Moroccan Government have told us that they remain open to participating in future events organised by Talk Together and have investigated the allegations of mistreatment, which they deny. We will continue to seek further clarification from the Moroccan authorities.

Nigeria: Arms Control

Mr. Oaten: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of developments in the case of a Ukrainian aircraft detained in Nigeria in June 2009 following reports it was carrying weapons and ammunition. [292076]

Chris Bryant: We were not previously aware of this incident, although it was reported by the BBC and in the African press over the summer. The hon. Member for Winchester (Mr. Oaten) has been a member of the Commons Committee on Arms Export Controls since September 2008.

North Korea: Nuclear Power

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek to place on the agenda of the United Nations Security Council the matter of the sale of nuclear technology by North Korea to the government of Burma. [291973]

Mr. Ivan Lewis: We are aware of unconfirmed reports of nuclear cooperation between the Democratic People's Republic of Korea (DPRK) (North Korea) and Burma and continue to monitor the situation.

We are already working actively with international partners to ensure effective implementation of the robust package of sanctions imposed in the new UN Security Council Resolution 1874 on DPRK. This was agreed unanimously in June following the North Korean underground nuclear test of May 2009.

HOME DEPARTMENT

Identity and Passport Service: Complaints

Pete Wishart: To ask the Secretary of State for the Home Department (1) how many complaints the Identity and Passport Service has received from *(a)* members of the public and *(b)* hon. Members in each of the last 12 months; [289520]

(2) how many complaints his Department has received from hon. Members in respect of the operation of the Identity and Passport Service in each of the last 12 months. [289521]

Mr. Woolas: The total number of complaints received during the period of June 2008-May 2009 are:

	Number
(a) Members of the public	7,137
(b) Hon. Members	707

The following table is the breakdown of the complaints received in each of the last 12 months:

	MP cases	Members of the public
June	89	859
July	99	891
August	79	724
September	66	570
October	71	488
November	47	563
December	49	358
January	29	386
February	39	522
March	58	650
April	42	567
May	39	559
Total	707	7,137

The Identity and Passport Service does not record complaints in the form of the operation of the service. However, hon. Members' complaints received in IPS are broken down into specific categories and the top three categories from June 2008-May 2009 are:

1. Customer care
2. Delay in processing postal application
3. IPS policy and procedures

It should also be noted that one letter can generate multiple categories.

Police: Drugs

Alistair Burt: To ask the Secretary of State for the Home Department how many police officers have been tested for substance misuse in each of the last three years; and how many of those tests have recorded a positive result of substance misuse. [292441]

Mr. Hanson: The information requested is not available centrally.

Vetting

Mrs. Maria Miller: To ask the Secretary of State for the Home Department what mechanisms are in place to ensure that the barred status of an individual under the Vetting and Barring scheme is flagged on Criminal Records Bureau checks. [289340]

Mr. Hanson: In accordance with provisions of the Safeguarding Vulnerable Groups Act 2006, the status of an individual under the Vetting and Barring Scheme will be included on an Enhanced Criminal Records Bureau disclosure with effect from 12 October 2009.

TRANSPORT

Departmental Paternity Leave

Justine Greening: To ask the Minister of State, Department for Transport how many staff took paternity leave from his Department in each of the last five years; and what the average duration of such leave has been. [290592]

Chris Mole: The following table provides details of the number of staff who took paternity leave in the last five years:

	Number
2004-05	117
2005-06	151
2006-07	154
2007-08	171
2008-09	152

The information in the above table does not include the Driving Standards Agency and Vehicle Certification Agency. Their information can be provided only by incurring disproportionate costs.

The average length of paternity leave is 8.4 days across Department for Transport Central and its Agencies.

Motorways: Speed Limits

Mr. Drew: To ask the Minister of State, Department for Transport what powers traffic officers have to *(a)* stop and *(b)* report speeding vehicles on motorways. [292430]

Chris Mole: Under the provisions of Part 1 of the Traffic Management Act (2004), Highways Agency Traffic Officers have the power to stop and direct traffic and pedestrians. This is the same power as a police constable has under sections 35, 37 and 163(1) and (2) of the Road Traffic Act 1988.

Traffic Officers do not have an enforcement role and therefore do not stop vehicles for speeding. This responsibility remains with the police. Traffic Officers have a general instruction to report acts of a criminal nature to their control office for reporting to the police for possible prosecution. This is in line with their procedures for identifying when an incident should be police led.

Public Service Vehicles: Fuels

Derek Wyatt: To ask the Minister of State, Department for Transport what progress his Department has made in supporting the development of oxyhydrogen as an alternative fuel for public transport vehicles. [292905]

Mr. Khan: The Department for Transport is committed to reducing emissions of both air quality pollutants and greenhouse gases from road transport, for example through setting of performance requirements for new vehicles. We welcome developments which assist in the meeting of those commitments, but do not generally provide support for development of specific technologies. Rather we leave industry free to develop the most effective technologies to meet the performance requirements we set.

We are not aware of anyone currently proposing the use of a mixture of oxygen and hydrogen gases as a fuel for road vehicles. We are, however, frequently approached by companies marketing "hydrogen on-demand" systems which produce small quantities of this gas mixture on-board the vehicle, to feed into the inlet air. This is claimed to reduce fuel consumption and emissions of pollutants.

As with other proprietary products claimed to deliver fuel consumption benefits we recommend that companies commission objective testing to support the benefits claimed in the marketing of their products. The Department has not, to date, seen any objective evidence that hydrogen on-demand systems for retrofitting to engines actually produce such benefits.

Railway Stations: Crimes of Violence

Lynne Featherstone: To ask the Minister of State, Department for Transport how many crimes of each type were recorded as having taken place *(a)* on trains and *(b)* at railway stations in each London borough in each of the last four years. [293052]

Chris Mole: This information is not held by the Department for Transport, but by the British Transport Police who can be contacted at:

British Transport Police,
25 Camden Road, London NW1 9LN,
E-mail: parliament@btp.pnn.police.uk

Rolling Stock

Jim Dobbin: To ask the Minister of State, Department for Transport how many of the 1,300 additional rail carriages announced in the 2007 Rail White Paper will be allocated to each rail operator. [289496]

Chris Mole: So far there have been 543 new rail carriages ordered by the following Train Operators.

TOC	*Type*	*Class*	*No of Vehicles*
Southern	EMU - DV	377	48
London Midland	EMU	350/2	148
London Midland	DMU	172	69
Chiltern	DMU	172	8
Southern	EMU -DV	377	44
Virgin West Coast	EMU	390	106
NXEA	EMU	379	120

On 23 July, the Government announced a major new electrification programme which radically affects the requirements for train rolling stock over the next decade. In particular, there will be far less need for diesel trains and a greater requirement for electric trains. The Department will publish a new rolling stock plan in the autumn, setting out a revised strategy.

JUSTICE

Bankruptcy

Mr. Willis: To ask the Secretary of State for Justice how many UK *(a)* companies and *(b)* individuals filed for bankruptcy in the financial year 2008-09. [289484]

Bridget Prentice: The following table shows the number of insolvency and bankruptcy petitions issued in the High Court and county courts of England and Wales during 2008-09. The Ministry of Justice does not hold corresponding statistics for Scotland or Northern Ireland.

Insolvency and bankruptcy petitions filed in England and Wales, 2008-09

	Number
Company winding up	12,966
Creditors bankruptcy	20,442
Debtors bankruptcy	59,453

Statistics on insolvency and bankruptcy petitions are published in a quarterly National Statistics bulletin "Company winding up and bankruptcy petition statistics" which can also be found on the Ministry of Justice website at:

http://www.justice.gov.uk/publications/companywindingupandbankruptcy.htm

The Ministry of Justice statistics do not indicate the actual number of company winding-up orders and bankruptcy orders during a particular period. These statistics are published by the Insolvency Service and can be found on their website at:

http://www.insolvency.gov.uk/otherinformation/statistics/insolv.htm

Data Protection

Paul Farrelly: To ask the Secretary of State for Justice what guidance the Court Service has issued on the practice of file-sealing in cases involving alleged breaches of *(a)* privacy and *(b)* duty of confidentiality. [292089]

Bridget Prentice: I am told there has been no guidance issued by Her Majesty's Courts Service (HMCS) nor any process that would involve the courts in file-sealing. I have also been informed that HMCS does not hold any information about Privacy or duty of confidentiality cases.

Divorce

Tim Farron: To ask the Secretary of State for Justice (1) what estimate his Department has made of the number of decrees absolute granted in *(a)* 2005, *(b)* 2006, *(c)* 2007 and *(d)* 2008; [292372]

(2) how many divorces his Department recorded centrally in *(a)* 2005, *(b)* 2006, *(c)* 2007 and *(d)* 2008. [292373]

Bridget Prentice: The estimated number of decrees absolute granted is shown in Table 5.5 of Judicial and Court Statistics 2008. A copy of this Command Paper (CM7697) was laid before Parliament on 24 September 2009 and is also available in the Libraries of the House. This is also available online at:

http://www.justice.gov.uk/publications/judicialandcourtstatistics.htm

A central record of decrees absolute is kept by the Principal Registry of the Family Division. The information on the central record is compiled by Office of National Statistics (ONS) upon receiving notification of decrees absolute from the courts, and is then sent to the Principal Registry of the Family Division.

The provisional figures for the number of decrees absolute granted each year are shown in the following table.

	HMCS/MOJ figures	*ONS/Central index figures*
2005	142,367	141,750
2006	133,026	132,562
2007	129,146	128,534
2008	122,861	[1]93,100

[1] Up to 3rd quarter 2008

Note:

These figures include both decrees absolute and decrees of nullity. The ONS figures for 2007 and are provisional. The ONS figures for 2008 are provisional, rounded to three significant figures and cover the first three quarters of 2008 only.

ONS figures can be found at:

Table 1: Divorces: Petitions filed and decree granted, available at:

www.statistics.gov.uk/statbase/Product.asp?vlnk=14124

Annual Reference Volume: Marriage, divorce and adoption statistics (series FM2 no. 34), available at:

www.statistics.gov.uk/downloads/theme_population/FM2no34/FM2_No34.pdf

Population Trends 137, Table 2.1: Vital statistics summary.

www.statistics.gov.uk/downloads/theme_population/PopTrends137web.pdf

Legal Aid

Mr. Swire: To ask the Secretary of State for Justice (1) how many legal aid lawyers dealing with immigration and asylum cases there were in *(a)* England, *(b)* Devon and *(c)* East Devon constituency in each of the last 10 years; [292335]

(2) how many legal aid lawyers dealing with *(a)* housing cases, *(b)* employment cases and *(c)* family cases there were in (i) England, (ii) Devon and (iii) East Devon in each of the last 10 years. [292439]

Bridget Prentice: The information requested is currently being collated. Some information that addresses these questions is held by the Legal Services Commission, but not in a form which can immediately be used to answer the questions. I will write to the hon. Member once we have the information requested.

Legal Aid: Rural Areas

Mr. Swire: To ask the Secretary of State for Justice what schemes his Department has in place to ensure that those living in rural or isolated areas have access to legal aid lawyers. [292438]

Bridget Prentice: The Legal Service Commission (LSC) regularly monitors access to specialist legal advice. Where particular geographical access issues have been identified, the LSC aims to fill gaps through interim bid rounds. In addition, as part of the impact assessment of all policy changes the LSC carries out rural proofing.

The LSC is also establishing a number of Community Legal Advice Networks in rural locations which will offer integrated advice services, including specialist legal advice in debt, employment, welfare, community care and housing. Clients will be able to obtain face to face advice on tackling their civil legal problems in one or more easily accessible sources.

In addition, the LSC runs the Community Legal Advice helpline (0845 345 4 345) in England and Wales, which provides specialist advice to people who live on a low income or benefits by the telephone on debt, housing, employment, welfare benefits and tax credits, education and family matters. Last year the Community Legal Advice helpline dealt with over 335,000 cases.

Vexatious Litigants

Kate Hoey: To ask the Secretary of State for Justice what consideration he has given to additional restrictions on the ability of people who have been declared vexatious litigants to pursue court proceedings. [291766]

Bridget Prentice: Vexatious litigants may not instigate, continue or make any application in any court proceedings without first seeking leave from the High Court. To give leave the court has to be satisfied that there is no abuse of process and that there are reasonable grounds for the proceedings or application. We have no current plans to impose additional restrictions on vexatious litigants.

Young Offenders: Magistrates Courts

Ms Keeble: To ask the Secretary of State for Justice how many *(a)* magistrates who sit in adult magistrates' courts and *(b)* other magistrates had received training on dealing with juvenile offenders on the latest date for which figures are available. [289378]

Bridget Prentice: No figures are kept centrally in this format. Having been selected to sit in first the adult court, and perhaps later specialising in the youth court, magistrates and district judges (magistrates court) receive training from both the Judicial Studies Board and local Magistrates Area Training Committees to fulfil their judicial roles and functions. This is a combination of courses on induction, continuation and bench chairmanship training by which includes information and practising practical examples of court scenarios such as bail decisions, trials, youths appearing in the adult court, youth remands, and by specific issue training when new legislation is commenced. This is supplemented by both the Adult Court and Youth Court Bench Books which are available to courts in both hard copy and via the JSB website.

Since the Constitutional Reform Act 2005, the Lord Chief Justice is responsible for the provision and sponsorship of judicial training, within the resources provided by the Lord Chancellor. Each year, the Judicial Studies Board publishes its own Annual Report and, on behalf of the Lord Chief Justice, a National Summary of individual Magistrates Area Training Committees' annual reports, which includes the details and volume of the training provided in the area during the preceding year.

Ms Keeble: To ask the Secretary of State for Justice what steps he is taking to ensure that all *(a)* magistrates sitting in adult magistrates' courts and *(b)* district judges receive (i) specific training in bail law and (ii) guidelines in relation to juvenile remands. [289380]

Bridget Prentice: Since the Constitutional Reform Act 2005, the Lord Chief Justice is responsible for the provision and sponsorship of judicial training, within the resources provided by the Lord Chancellor. The Lord Chief Justice exercises his executive responsibilities for oversight of the Judicial Studies Board through the Judicial Executive Board.

Each year, magistrates and district judges (magistrates court) receive training from both the Judicial Studies Board and local Magistrates Area Training Committees designed to assist in fulfilling their judicial roles and functions via courses on induction, continuation and bench chairmanship training which includes information and practising practical examples of court scenarios such as bail decisions, youths appearing in the adult court, youth remands. This is supplemented by both the Adult Court and Youth Court Bench Books which are available to courts in both hard copy and via the JSB website.

Ms Keeble: To ask the Secretary of State for Justice what the names are of the chairs of the board of each youth magistrates' court. [289385]

Mr. Straw: The Ministry of Justice does not hold a central list of chairmen of youth panels for each magistrates court. Chairmen of these panels are elected annually and can service for a maximum of three years. The number of youth panel chairmen are held by the Justices' Clerks Society with names held locally at each bench. This information can be obtained only at disproportionate cost.

Youth Justice

Ms Keeble: To ask the Secretary of State for Justice (1) how many children have appeared before a magistrates' court on a Saturday in the latest year for which figures are available; [289383]

(2) how many youth courts have sat on a Saturday in the latest year for which figures are available. [289384]

Bridget Prentice: There are no figures available regarding how many children have appeared before a magistrates court on a Saturday. Data that is collected cannot be broken down into days of the week.

There are no figures available regarding whether any youth courts have sat on a Saturday. Youths appearing at court on a Saturday will appear before a magistrates court and be remanded or bailed to the relevant youth court.

HEALTH

Blood: Contamination

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 16 July 2009 to the hon. Member for Cardiff Central, *Official Report*, columns 656-57W, on blood: contamination, whether he has sought from the people whose personal information is in the seven withheld records permission to disclose those records. [290157]

Gillian Merron: No. I am advised that the documents contain personal information (exempt under section 40 of the Freedom of Information Act), some of which was provided in confidence (and so exempt under section 41 of the Freedom of Information Act). In view of the time that has elapsed, and the personal nature of the information, we do not believe that i[redacted] appropriate for the Department to make such req

Drugs: Misuse

John Mann: To ask the Secretary of State for Health what the annual cost to the public purse of drug action teams is; and how many staff are part of drug action teams. [292505]

Gillian Merron: Local drugs partnerships (such as Drug Action Teams) are responsible for delivering the Government's drug strategy at a local level. These combine representatives from key local bodies including local authorities, health, probation and the prison service. Because these partnerships operate at a local level, their structure differs from area to area, enabling them to best address the needs of their local populations.

Information about the structure and staffing of individual local drugs partnerships and their costs is not collected centrally.

Haemophilia

Mr. Charles Kennedy: To ask the Secretary of State for Health (1) how many tissue or blood samples taken from UK haemophiliacs in the last three years are held by the National Creutzfeldt-Jakob Disease Surveillance Unit; [292343]

(2) how many tissue or blood samples taken from UK haemophiliacs who are deceased are held by the National Creutzfeldt-Jakob Disease Surveillance Unit; [292344]

(3) how many tissue or blood samples taken from UK haemophiliacs and held by the National Creutzfeldt-Jakob Disease Surveillance Unit have been tested to date. [292345]

Gillian Merron: In the past three years (January 2006 to date), as part of an ethically approved surveillance study, the National Creutzfeldt-Jakob Disease Surveillance Unit (NCJDSU) has received and tested 252 tissue samples from 12 patients with haemophilia for the presence of disease-associated protein. Of these 15 tissue samples were from five living people, and 237 tissue samples from seven deceased people. All samples were tested, and all samples had consent prior to them being sent to the NCJDSU for testing. No blood samples were received or tested.

To date, in total the NCJDSU holds 372 tissue, and no blood, samples from a total of 12 deceased patients with haemophilia.

All samples received by the NCJDSU have been tested.

Mr. Charles Kennedy: To ask the Secretary of State for Health whether tissue or blood samples taken from UK haemophiliacs, and held as library samples, have been tested for the presence of the PA virus in the last three years. [292347]

Gillian Merron: There have been no known such tests.

Mr. Charles Kennedy: To ask the Secretary of State for Health what recent advice his Department has sought on individual haemophiliacs' unique experience of multiple virus exposure, and its consequences for their health and treatment. [292348]

Gillian Merron: In the past year departmental officials have met with officials of the Haemophilia Society and, separately, with representatives of the UK Haemophilia Centre Doctors' Organisation. Haemophilia patients' experience of multiple virus exposure was discussed at some of these meetings.

Hospitals: Parking

Mr. Lansley: To ask the Secretary of State for Health (1) how much he expects his proposals to provide free parking for hospital in-patients to cost in each financial year; from which budgets he expects the money to be taken; and whether he expects the budgets of any other programmes to be reduced consequent on the implementation of those proposals; [292538]

(2) what estimate he has made of the percentage of income from hospital parking charges accounted for by charges paid by *(a)* outpatients and *(b)* staff; and whether these groups will have access to free parking at hospital sites under his policy for free parking for hospital in-patients. [292539]

Mr. Mike O'Brien: Over the next three years, as it can be afforded, car parking charges for in-patients will be phased out. Out-patients will benefit from improved Concession guidance that will be launched next year. Staff car parking is decided locally by national health service organisations and is not changed by the policy of phasing out of car parking charges for inpatients.

The cost per annum for phasing out car parking for in-patients and their visitors has been estimated at £141 million. Funding of these costs will be provided by reducing back office costs without affecting clinically related budgets.

The information requested on the assessment of parking charges is not available in the format requested. Data provided by the NHS in 2007-08 indicated that £27.9 million was received from staff car parking and £83.6 million from inpatients, outpatients and visitors. Parking charges relating specifically to outpatients was not collected separately. This information is as provided by the NHS and has not been amended separately. It was collected on a voluntary basis and therefore is not likely to be complete.

Mr. Burns: To ask the Secretary of State for Health what plans his Department has to ensure that all staff at NHS hospitals in England do not have to pay car parking charges; and if he will make a statement. [292936]

Mr. Mike O'Brien: My right hon. Friend the Secretary of State recently announced plans to phase out car parking charges for in-patients. The Department has no plans to extend this to staff. It is the responsibility of each national health service organisation to set a policy on staff car parking that is appropriate to its local situation.

Midwives

Norman Lamb: To ask the Secretary of State for Health how many agency midwives were employed by each primary care trust (PCT) in each of the last five years; and how much each PCT spent on the employment of agency midwives in each such year. [292681]

Ann Keen: This information is not collected centrally.

The midwifery agency spend is collected within the financial return as part of agency nursing, midwifery and health visiting staff costs. Agency midwifery spend is not identified separately.

Midwives: Training

Norman Lamb: To ask the Secretary of State for Health how much each strategic health authority has spent on *(a)* three-year and *(b)* 18-month midwifery courses in each of the last five years. [292676]

Ann Keen: Information on how much each strategic health authority has spent on three-year and 18-month midwifery courses in each of the last five years is not held centrally.

NHS: Employment Agencies

Mr. Watson: To ask the Secretary of State for Health if he will bring forward proposals to increase the number of regionally-based recruitment agencies used to supply staff to the NHS. [293007]

Ann Keen: The recently awarded nursing framework has given agencies the opportunity to tender on both a regional and national basis and the framework has been awarded regionally i.e. aligned to strategic health authority boundaries.

NHS: Renewable Energy

John Mann: To ask the Secretary of State for Health how many NHS buildings use heat generated by *(a)* solar panels and *(b)* ground source heat pumps. [292014]

Mr. Mike O'Brien: The Department does not collect data centrally on the number of national health services buildings in England that use heat generated by solar panels and ground source heat pumps.

NHS organisations are legally autonomous and are best placed to make their own decisions locally about specific items of equipment, such as solar panels and ground source heat pumps, to ensure they are appropriate to meet their needs, circumstances and strategies.

The Department is committed to supporting the NHS to meet the requirements of the Climate Change Act 2008, such as carbon budgets and the forthcoming carbon reduction commitment. It is recognised that this will only be achieved by greater take-up by the NHS of renewable energy sources and better, more holistic energy efficiency measures. Provision by the Department of a £100 million energy and sustainability capital fund, encouraged the take-up of renewable energy forms of heat and power such as biomass boilers, solar panels and heat pumps.

The Department is actively supporting the NHS Sustainable Development Unit (NHS SDU), which has produced the NHS Carbon Reduction Strategy. In addition, the Department, in partnership with the Carbon Trust, is working with individual NHS organisations to identify appropriate investment strategies. The Carbon Trust along with the NHS SDU is also raising management awareness and providing implementation advice to NHS organisations.

The Department provides guidance to assist the NHS and their partners in meeting the criteria in the document Health Technical Memorandum 07-02 "Encode—making energy work in healthcare", a copy of which has been placed in the Library. This guidance provides general energy efficiency standards within healthcare facilities and covers new build and refurbishment projects as well as the energy management of existing facilities.

Prescriptions: Fees and Charges

Tom Brake: To ask the Secretary of State for Health what expenditure his Department has incurred on the NHS business authority administering pre-paid prescription certificates in the last 12 months; and what estimate he has made of the income forgone in exemptions to prescription charges in the same period. [291575]

Mr. Mike O'Brien: The administering of pre-payment prescription certificates (PPCs), medical exemption certificates and maternity exemption certificates is a single process. It is not possible to provide a cost for administering PPCs.

The total costs for England, including overheads, for the 12-month period August 2008 to July 2009 for administering PPCs, medical exemption certificates and maternity exemption certificates for residents of England was £4.418 million.

The estimate of income forgone in England from exemptions to prescription charges in the most recent 12 months for which data are available (August 2008 to July 2009) is £5.6 billion. The estimate assumes no deterrent effect, and no substitution of charged prescriptions with Over the Counter Medicines. This is likely to mean that this is an over-estimate.

Quality and Outcomes Framework

Sandra Gidley: To ask the Secretary of State for Health when he expects the National Institute for Health and Clinical Excellence to publish on its website a timetable for its review of Quality and Outcomes Framework indicators. [292934]

Mr. Mike O'Brien: The independent Advisory Committee met in July and agreed principles for its review of Quality and Outcomes Framework indicators. Details of these discussions have been published on the National Institute for Health and Clinical Excellence website and a copy placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health what the remit of the Quality and Outcomes indicator pilots for the Quality and Outcomes Framework will be. [292935]

Mr. Mike O'Brien: Details of the Quality and Outcomes Framework (QOF) indicator pilots are set out in the National Institute for Health and Clinical Excellence's (NICE'S) interim process guide for the development of QOF indicators. This guide has been published on the NICE website and a copy placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health for which diseases pilot indicator studies will be conducted for inclusion in the 2011-12 Quality and Outcomes Framework . [292949]

Mr. Mike O'Brien: The National Institute of Health and Clinical Excellence have published details of indicators currently in development and for further review on their website. A copy has been placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health what mechanism exists for stakeholders to *(a)* contribute ideas for the expansion of or an amendment to Quality and Outcomes Framework indicators and *(b)* suggest new areas for pilot indicator development. [292960]

Mr. Mike O'Brien: The National Institute for Health and Clinical Excellence opened an online suggestions facility on 15 September to enable any stakeholder to propose new a topic—or changes to an existing topic—for Quality and Outcomes Framework. The cut-off date for the current round of submissions was 13 October. After this date, there will be a further opportunity to suggest topics in spring 2010.

Slaughterhouses

Tim Farron: To ask the Secretary of State for Health what the average change in veterinary charges in abattoirs has been in each year since 2006-07. [291918]

Gillian Merron: The Meat Hygiene Service (MHS) is responsible for official controls in all approved fresh meat establishments in Great Britain to verify that Food Business Operators comply with hygiene and other legislation including animal welfare.

Total charges to abattoir operators (excluding cutting plants) for official controls carried out by the MHS were:

	£ million
2006-07	21.1
2007-08	23.1
2008-09	24.5

Swine Flu

Mr. Lansley: To ask the Secretary of State for Health what the chemical composition is of the swine flu vaccine his Department is planning to issue to the NHS. [291494]

Gillian Merron: It is the manufacturer's responsibility to provide this information to the European Medicines Agency (EMEA) as part of licensing requirements.

For the licensed Glaxo Smith Kline vaccine named Pandemrix, the excipient list as listed at EMEA website is as follows:

After mixing, 1 dose (0.5 ml) contains:

Split influenza virus, inactivated, containing antigen[1] equivalent to:

3.75 micrograms[2]

A/California/7/2009 (H1N1)v-like strain (X-179A)

[1] propagated in eggs

[2] haemagglutinin

AS03 adjuvant composed of squalene (10.69 milligrams), DL-a-tocopherol (11.86 milligrams) and polysorbate 80 (4.86 milligrams)

The suspension and emulsion, once mixed, form a multidose vaccine in a vial. The vaccine contains 5 micrograms thiomersal.

Suspension vial:

Polysorbate 80
Octoxynol 10
Thiomersal
Sodium chloride (NaCl)
Disodium hydrogen phosphate (Na2HP04).
Potassium dihydrogen phosphate (KH2P04)
Potassium chloride (KCl)
Magnesium chloride (MgC12)
Water for injections

Emulsion vial:

Sodium chloride (NaC1)
Disodium hydrogen phosphate (Na2HP04)
Potassium dihydrogen phosphate (KH2P04)
Potassium chloride (KCl)
Water for injections

Whole virion influenza vaccine, inactivated containing antigen of pandemic strain[1]:

A/California/07/2009 (H1N1)v 7.5 micrograms[2] per 0.5 ml dose

[1] propagated in Vero cells (continuous cell line of mammalian origin)

[2] expressed in micrograms haemagglutinin.

This is a muitidose container.

Trometamol
Sodium chloride
Water for injections
Polysorbate 80

Sarah Teather: To ask the Secretary of State for Health what recent assessment he has made of the availability of Tamiflu for dispensing on private prescriptions; and whether the increase in the NHS stockpile of Tamiflu affects this availability. [292902]

Gillian Merron: The supply of Tamiflu has been kept under review since the pandemic was declared and only very limited amounts have been available in the supply chain to fulfil private prescriptions. Bulk purchases by the United Kingdom and other Governments globally have meant that, to date, stocks available for supply against private prescriptions have been very limited. However, this situation is being kept under review and we are in regular touch with the manufacturer.

CULTURE, MEDIA AND SPORT

Archives: Internet

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport if he will take steps to ensure that the British Library and other institutions are able to build a digital archive which captures material published on the internet; and if he will make a statement. [293178]

Mr. Simon: We are currently considering the Legal Deposit Advisory Panel's recommendations on the "Collection and Preservation of UK Online Publications, free of charge and without access Restrictions". We are still awaiting recommendations from the Legal Deposit Advisory Panel on "E-journals and other commercial and protected online publications". Policy formulated in response to these recommendations will be published for public consultation. In the event that draft regulations result, they would be subject to affirmative resolution in both Houses.

Churches: Finance

Mr. Brady: To ask the Secretary of State for Culture, Media and Sport if he will bring forward proposals to ensure that grant-making bodies for which his Department has responsibility give preference to those places of worship which donated their bells as a contribution to munitions in the Second World War in awarding grants for the replacement of church bells. [292923]

Margaret Hodge: There are no plans to influence grant-giving policy in the way that is suggested. However, the Listed Places of Worship Grant Scheme makes grants equivalent to the VAT incurred in making repairs to places of worship that are listed buildings. Eligible works include repairs to bells, their ringing mechanisms and bell frames. Replacement of bells would only be considered under the scheme where they are damaged beyond economic repair. Another source of funding is the Heritage Lottery Fund that has awarded a total of £12,148,814 to 237 projects that have involved the repair, conservation and restoration of church bells and bell-frames throughout the UK.

Circuses: Licensing

Peter Luff: To ask the Secretary of State for Culture, Media and Sport with reference to his response to the Culture, Media and Sport Committee report on the Licensing Act 2003, if he will set a timetable for the introduction of portable licences for circuses; and if he will make a statement. [289355]

Mr. Sutcliffe: As the Government's response to the Culture, Media and Sport Select Committee suggested, we are currently looking at options for a portable licence for travelling entertainment such as circuses. Once we have developed these further, we will announce a timetable for progressing our proposals, including any necessary public consultation. In the meantime, I would be happy to meet the hon. Member to discuss how we can ensure that the views of circuses are fed into the development of these options.

Departmental Consultants

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport with reference to page 33 of his Department's Corporate Plan 2008, how many *(a)* policy and *(b)* expert advisers who are not special advisers are employed by his Department. [290810]

Mr. Sutcliffe: *[holding answer 9 September 2009]:* In addition to the 43 policy/senior advisers employed by DCMS the Department currently employs the equivalent of 1.3 (one at 0.8 and one at 0.5 hours) expert advisers on secondment from other organisations. 0.5 is shared with the Department for Business, Innovation and Skills.

Departmental Dismissal

Justine Greening: To ask the Secretary of State for Culture, Media and Sport how many staff have *(a)* been dismissed and *(b)* had their contract terminated by his Department in each of the last five years; what the reason for such action was in each case; and what the severance costs in relation to (i) dismissal and (ii) contract termination were in each such year. [290545]

Mr. Sutcliffe: The information is as follows:

	Number of dismissals	*Number of termination of contracts*	*Estimated severance cost*[1] *(£)*
2004-05	2	0	7,738.98
2005-06	0	0	—
2006-07	2	0	50,385.59
2007-08	0	0	—
2008-09	0	0	—

[1] The exact severance costs are held in Departmental offsite archives. Recalling this information can be provided only at disproportionate cost.

Note:

The information is obtained from the Department's central electronic database. Due to the lower number of dismissals, it is inappropriate for detailed reasons to be provided. The Data Protection Act 1998 requires these data to be treated on confidence.

Departmental Flexible Working

Justine Greening: To ask the Secretary of State for Culture, Media and Sport what flexi-time arrangements were available to staff of his Department in each of the last five years; and how many staff participated in such arrangements in each such year. [290547]

Mr. Sutcliffe: Staff in DCMS are actively encouraged to work alternative working patterns, including part-time working, job-sharing and working from home. These are mainly arranged at local line management level and the Department does not hold comprehensive data centrally about the percentages of staff involved. DCMS have, recently, installed a new Human Resources Information System (Oracle), which will record this information.

Departmental Information and Communications Technology

Justine Greening: To ask the Secretary of State for Culture, Media and Sport what IT systems have been in development for use within his Department in the last five years; what the reason for the development of each system was; how much has been spent on the development of each system; and which systems have been subsequently *(a)* implemented, *(b)* terminated prior to implementation and *(c)* terminated following implementation. [290542]

Mr. Sutcliffe: My Department has developed the following IT systems:

System	*Purpose*	*Cost (£)*
Livelink	Electronic document and records management	2,469,198
FoI/CMS	The management of Freedom of Information cases and general correspondence	467,654
User Account Request	Provide electronic requests for IS services with approval workflows	24,196
Enterprise Search	Provide an integrated search across all DCMS internal data.	72,396
Nakisa	Staff Directory	50,330
Secure Sharepoint	To provide a method of collaborating securely with third parties such as NDPBs and delivery partners up to restricted level.	533,851
CIBU Wiki	Information sharing for briefing and correspondence	212,485

All have been implemented except Secure Sharepoint which is in the final stages of development. None have been terminated.

This answer does not include systems that are procured as a service such as the accounting and HR services.

Departmental Logos

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport for what reasons his Department has adopted a logo. [291500]

Mr. Sutcliffe: The DCMS logo is part of a wider visual identity that was adopted following the Department's name change in July 1997. The logo was refreshed in April 2006 in order to better explain the work of the Department to the public as well as improve the consistency and distinctiveness of DCMS communications.

Departmental Manpower

Justine Greening: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the average length of employment of staff of his Department at each Civil Service payband. [290544]

Mr. Sutcliffe: The table shows the average length of employment of DCMS staff at each civil service payband—time in grade at DCMS only, excluding previous departmental experience.

Grade		*Average length of employment/years*
DCMS	*Civil service*	
A	Grade7	7
A(U)	Grade 6	7.5
B	HEO/SEO/HEOD	6.5
C	EO	7
D	AA/AO	8
SCS1	SCS1	7.5
SCS2	SCS2	4.5
SCS3	SCS3	9
Grand total		7

John Mann: To ask the Secretary of State for Culture, Media and Sport how many staff there were in *(a)* his Department's predecessor in 1997 and *(b)* his Department on the latest date for which figures are available. [292059]

Mr. Sutcliffe: According to the published civil service statistics for 1997, the Department (then called the Department for National Heritage) had 1,004 full-time equivalent staff (44 industrial and 960 non industrial) and of these 666 were in executive agencies (at the time Historic Royal Palaces and the Royal Parks).

There have been some structural changes in the Department since then and the Department lost the Football Licensing Authority and Gambling Commission; and created the Government Olympic Executive (GOE) to oversee the whole Olympic programme in 2006.

Currently the number of full-time equivalent staff as of 30 September 2009 is as follows.

DCMS: 457

The Royal Parks Executive Agency: 105

Departmental Motor Vehicles

Andrew Stunell: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on hire vehicles in each of the last five financial years. [291599]

Mr. Sutcliffe: The Department has spent the following amounts on hire vehicles in each of the last four years:

	£
2005-06	13,947.79
2006-07	16,094.75
2007-08	17,054.99
2008-09	10,823.38

Unfortunately we are unable to provide data for 2004-05 as this information is not held on our financial system.

Departmental Paternity Leave

Justine Greening: To ask the Secretary of State for Culture, Media and Sport how many staff took paternity leave from his Department in each of the last five years; and what the average duration of such leave was in each such year. [290546]

Mr. Sutcliffe: The information requested is as follows:

	Number of employees	*Average length of leave (days)*	*Total number of days*
2008-09	2	11	21
2007-08	5	10.2	51
2006-07	0	0	0
2005-06	0	0	0
2004-05	0	0	0

Departmental Pay

Justine Greening: To ask the Secretary of State for Culture, Media and Sport what employee reward schemes are offered to staff of his Department; what the purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290548]

Mr. Sutcliffe: The Department for Culture, Media and Sport offers two such schemes: *(a)* special bonuses to reward outstanding contributions in particularly demanding tasks or situations, and *(b)* consistent with the general civil service principles of performance-related pay, to reward highly successful performance over a whole year. All permanent employees of the Department are eligible to receive either, subject to meeting the performance criteria. The costs of running this scheme for the past five years are set out as follows:

Special bonuses

	Total cost (£)
2009-10	[1]21,900
2008-09	60,855
2007-08	87,000
2006-07	69,565
2005-06	57,141

[1] Year to date

Performance bonuses

	Total cost (£)
2009-10	452,889
2008-09	373,064
2007-08	477,100
2006-07	413,160
2005-06	293,241

Departmental Recycling

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport what proportion of his Department's waste was recycled in the latest period for which figures are available. [289674]

Mr. Sutcliffe: A total of 48.2 per cent. of the Department's waste was recycled in the 2007-08 financial year.

Departmental Sick Leave

Justine Greening: To ask the Secretary of State for Culture, Media and Sport how many sick days were taken by staff of his Department in each of the last five years; and what the cost to the public purse of such absences was in each such year. [290543]

Mr. Sutcliffe: The information is as follows.

The total cost of absence is based on the calculation made by the Department's payroll provider and it does not include the expense of covering absence with temporary staff or overtime.

	Total number of working days lost	*Cost of absence (£)*
2004-05	1,577	206,542
2005-06	1,556	248,762
2006-07	1,449	242,210
2007-08	1,315	238,693
2008-09	1,679	298,862
Total	7,576	1,235,069

Departmental Training

John Mason: To ask the Secretary of State for Culture, Media and Sport how many external training courses were attended by staff of his Department in the last 12 months; and what the cost was of each course. [289676]

Mr. Sutcliffe: The number of external training courses attended by staff totals 180. The total cost of external training over the last 12 months was £216,274.91. The cost for each session is set out in the following table.

Digital Broadcasting

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport how many households have been affected by the loss of ITV3 and ITV4 following the digital television re-tune of 30 September 2009; and who took the decision to remove ITV3 and ITV4 from the areas so affected. [292937]

Mr. Bradshaw: We believe that up to 1 million households could have been affected by the loss of ITV3 and ITV4 after the digital television re-tune. In some cases the services will be restored at digital switchover.

The decision to move one ITV service was approved as part of The Television Multiplex Services (Reservation of Digital Capacity) Order 2008, which paved the way for new services, including up to four High Definition services, on Freeview. ITV plc decided which channel to move to meet this requirement. The company also decided for commercial reasons to move another ITV channel to make way for other future channel developments as part of the re-tune process.

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what proportion of licence fee receipts has been used to facilitate digital switchover; what proportion of the digital switchover help scheme budget remains unspent; and if his Department will make an assessment of the merits of using money from that scheme to upgrade relay transmitters. [292938]

Mr. Bradshaw: £803 million was set aside in the 2007-13 TV licence fee settlement to facilitate digital switchover. We expect there to be an under-spend on the £603 million provided for the Digital Switchover Help Scheme but it is too early to estimate the level of under-spend with any precision. However, as set out in the Digital Britain White Paper, a number of ways the under-spend might be redeployed have been identified. These include contributing to the roll-out of universal broadband; the maintenance of plurality of news in the nations, locally and in the regions; and the roll out of Digital Audio Broadcasting. There are no plans to use the under-spend to increase the coverage of the three commercial digital terrestrial television multiplexes.

There is a licence requirement that the three Public Service Broadcasting (PSB) digital multiplexes, which carry the public service broadcasting channels, should reach 98.5 per cent. of UK households after Digital Switchover. Since the national re-tune, ITV3 and ITV4, which are not PSB channels, have been carried on commercial multiplexes where the licence post-Switchover requirement is that 90 per cent. of household coverage is achieved. Any decision to build out beyond 90 per cent. coverage would be a commercial decision for the multiplex operators.

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport for what reasons the digital television re-tune of 30 September 2009 resulted in the loss of channels ITV3 and ITV4 by many viewers in the UK. [292940]

Mr. Bradshaw: The digital re-tune was undertaken by broadcasters to facilitate the move of Five to a Public Service Broadcasting multiplex and to make way for future channel developments, including the introduction of High Definition services on the digital terrestrial television (or Freeview) platform.

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport whether his Department was informed of the loss of ITV3 and ITV4 to many television viewers by *(a)* Freeview and *(b)* ITV prior to the digital television re-tune of 30 September 2009. [292941]

Mr. Bradshaw: The Television Multiplex Services (Reservation of Digital Capacity) Order 2008 required the transfer of one non-public service channel operated by Channel 3 license holders from a public service broadcasting (PSB) multiplex to a commercial multiplex. The aim of this measure was to facilitate the transfer of Five, a PSB channel, to a PSB multiplex in order to ensure universal coverage of Five , equivalent to the other public service channels at switchover, as well as further developments of the digital terrestrial television platform, including the introduction of high definition services.

I was also informed that ITV intended to move another ITV service to one of the commercial multiplexes, which have more restricted coverage, to make way for future channel developments. The decision on which channels to move was a commercial matter for ITV plc.

Digital Technology: Legal Deposit

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport whether he plans to introduce regulations to permit or require delivery of publications to legal deposit libraries by electronic means under the Legal Deposit Libraries Act 2003. [292904]

Mr. Bradshaw: The Legal Deposit Libraries Act 2003 allows for regulations to be made to widen the existing system of legal deposit to cover non-print publications. We are currently considering the Legal Deposit Advisory Panel's recommendations on the "Collection and Preservation of UK Offline and Microforms Publications" and the "Collection and Preservation of UK Online Publications, free of charge and without access Restrictions". Policy formulated in response to these recommendations will be published for public consultation in due course. In the event that draft regulations result, they would be subject to affirmative resolution in both Houses.

Freeview Service

Mr. Jamie Reed: To ask the Secretary of State for Culture, Media and Sport what statutory obligations apply to Freeview to ensure that all national free-to-air broadcasts from free-to-air broadcasters are equally available to all licence fee payers. [292939]

Mr. Bradshaw: There are no such statutory obligations. The Communications Act 2003 requires that the coverage of the digital terrestrial television multiplexes carrying the public service channels[1] should substantially match the coverage of the comparable analogue services, which is estimated to be 98.5 per cent. of UK households.

Ofcom has included this condition in broadcasters' digital replacement licences and multiplex licences.

[1] All BBC channels, ITV1, Channel Four (main channel only), Five (main channel only) and S4C.

Horse Racing: Betting

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to assist the Horserace Betting Levy Board to collect Levy payments arising from bets placed with betting operators registered overseas. [291815]

Mr. Sutcliffe: We support the Levy Board's aim of securing contributions from gambling operators to ensure the continued health of racing.

The Department is currently conducting a review of remote gaming, which is examining this issue along with others. The review will report to Ministers by the end of the year, and Ministers will report findings to Parliament.

Publications: Sight Impairment

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport what guidance his Department provides to public libraries on the proportion of books which should be made available for people with visual impairments; and if he will make a statement. [293057]

Margaret Hodge: Decisions on stock purchasing remain with local library authorities and there are no national guidelines for the proportion of stock which should be held in accessible formats in individual libraries. However, public libraries recognise the special needs of visually impaired people in obtaining various suitable formats including large print books and spoken word material. The Chartered Institute of Public Finance and Accountancy Public Library Statistics 2007-08 show 7,357,494 adult and 1,692,573 children's talking books issued on loan. Public libraries will also often refer visually impaired people to the RNIB National Library Service where a wide variety of book formats are available, including Braille titles.

Sports: Cambridgeshire

Mr. Vara: To ask the Secretary of State for Culture, Media and Sport how much funding his Department allocated to sport-related groups in North West Cambridgeshire in each of the last 10 years. [291485]

Mr. Sutcliffe: Sport England have advised that they are unable to detail Exchequer funding for sport-related groups in North West Cambridgeshire as these type of data are not collated on a constituency basis.

The Department for Culture, Media and Sport allocated Sport England over £480 million of Exchequer funding in the last five years, to invest in community sport both through national governing bodies and more specific local initiatives.

In addition, in 2009-10, the Department has allocated Sport England £135.7 million of Exchequer funding. Sport England has targets to get one million people doing more sport by 2012-13, and to make a major contribution to the delivery of the five hour sports offer for children and young people. North West Cambridgeshire will benefit, alongside every area of England, from Exchequer and lottery investment by Sport England in 2009-10 in support of these targets.

Although non-departmental funding, Sport England have advised that the following initiatives have received lottery funding to support participation in sport in North West Cambridgeshire in each of the last financial years.

Projects relating to 'Living Sport' are delivered through the County Sports Partnership, and as a result this funding will have been spent across all of Cambridgeshire.

Award date	*Parliamentary constituency*	*Recipient*	*Project description*	*Total award (£)*
20 October 1999	Cambridgeshire North West	Peterborough Area Canoeists and Kayakers Club	Award will enable members to go on essential coaching and safety courses they will then use the skills and qualifications acquired to provide training in canoeing to other clubs and non sporting organisations.	4,875
15 February 1999	Cambridgeshire North West	Castor and Ailsworth Tennis Club	Land purchase and construction of new court and clubhouse	44,570
19 October 2000	Cambridgeshire North West	Yaxley Wanderers	Participation is paramount to this group and grant will enable children of all abilities to enjoy league football particularly those denied opportunities elsewhere in the locality.	811
29 August 2000	Cambridgeshire North West	Peterborough Area Combined Triathlon Club	This project aims to raise the profile of the group and the sport of triathlon to help establish develop membership and skill levels at the club.	4,999

7 May 2008	Cambridgeshire North West	Living Sport	Workforce Development 2008-09	160,735
17 June 2008	Cambridgeshire North West	Living Sport	County Sports Partnership Annual Development Plan -2008-09	140,000
12 December 2008	Cambridgeshire North West	Living Sport	Community Sports Coaching Scheme	18,323
Total				1,685,001

Sports: Energy

John Mann: To ask the Secretary of State for Culture, Media and Sport how many sports buildings which receive funding from his Department use heat generated by *(a)* solar panels and *(b)* ground source heat pumps. [292015]

Mr. Sutcliffe: The Department primarily channels its sports funding through two main distributors, Sport England and UK Sport.

Due to the widespread nature of the estates covered by these two bodies it is not possible to provide detail at the level requested without incurring disproportionate cost. DCMS and our NDPBs are keen to ensure that estates are maintained on a sustainable basis.

Sports: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number and proportion of young people who ceased participating in sport after leaving school in the latest period for which figures are available. [291342]

Mr. Sutcliffe *[holding answer 16 September 2009]:* Sport England have advised that during the ages of 16 to 19, the period when young people leave school, sport participation[1] drops by 7 percentage points, (or the equivalent of 42,000 participants) from a participation rate of 37.4 per cent. at age 16, to a participation rate of 30.4 per cent. at age 19.

[1] Participation is defined as the percentage of the adult population participating in at least 30 minutes of sport, of at least moderate intensity, at least three times a week.

Age	*Participation rate (percentage)*	*Number of participants*
16	37.41	251,370
17	34.60	230,829
18	31.14	208,625
19	30.40	209,368

Source:
Sport England's Active People Survey 2 (Oct 2007-Oct 2008).

To address this, through the Sport Unlimited initiative, Sport England works closely with the Government to deliver the 5 Hour Young People's Sports Offer. Over three years, the programme will enable 900,000 children and young people to take part in 10-week taster sessions in sports and aims to get 300,000 participants to join clubs and continue with sport beyond those sessions. Additionally, one of Sport England's strategic targets is to reduce the drop-off among 16 to 18-year-olds in nine key sports. This target will be measured by the Active People survey and is based on reducing the gap between 16 and 18 year old participation by 25 per cent. The national target is therefore to increase overall participation in the nine drop-off sports among 18-year-olds to 31 per cent.

The latest 12 month rolling participation figure illustrates that there has been a statistically significant increase in overall participation in the nine drop-off sports among 18-year-olds from 189,100 to 202,500. If this level of overall participation in the nine drop-off sports were maintained until the end of the current strategy period then the participation figures are expected to reach the target of 31 per cent.

Television: Licensing

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the cost of collecting the television licence fee was in each of the last five years. [292908]

Mr. Bradshaw: Administration and enforcement of the television licensing system are the responsibility of the BBC, which operates independently of Government. The day-to-day administration and enforcement of the licence fee regime is undertaken by TV Licensing, who act as agents for the Corporation.

I have, therefore, asked the BBC's Head of Revenue Management to consider the question raised by the hon. Member for Bath and to write to him direct.

Copies of the reply will be placed in the Libraries of both Houses.

World Cup

Mark Pritchard: To ask the Secretary of State for Culture, Media and Sport if he will discuss with the Football Association the inclusion of *(a)* Lilleshall National Sports Academy and *(b)* other football training facilities in Shropshire in its bid for the UK to host the 2018 World Cup. [291995]

Mr. Sutcliffe: The Football Association are leading in the bid for the 2018 and 2022 FIFA World Cups and are following a selection process to make venues available for FIFA to select host cities and training venues. I will ensure that bid officials are aware of Lilleshall's potential.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of registered holdings which are farmed by people other than the owner or tenant under *(a)* contract farming, *(b)* share farming and *(c)* other similar arrangements; and what estimate he has made of the equivalent figures (i) five and (ii) 10 years ago. [291915]

Jim Fitzpatrick: Recent research (published in 2007) into joint venture farming, including contract farming and share farming[1], indicates that a small minority (3 to 5 per cent.) of farmers in England are involved in a joint venture farming activity—although more informal arrangements are probably more common. The research suggests that share farming is carried out by 1 to 2 per cent. and contract farming by 3 to 4 per cent. of farms in England.

This research was based on the Farm Business Survey sample in England between 2002 and 2004. The farms represented in the survey account for 95 per cent. of national economic output from farming. No data are available for other similar arrangements, nor for earlier years.

[1] https://statistics.defra.gov.uk/esg/reports/jvf/JVF_Research_Project-Final_Report.pdf

Agriculture: Manpower

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many people in each county were employed in agriculture in each of the last 10 years. [291907]

Jim Fitzpatrick: The number of employees working on agricultural and horticultural holdings in each county in England for 1999 to 2008 can be found in the table. Employees are defined as salaried managers, full-time, part-time and casual workers working on the holding on 1 June each year.

June Agricultural Survey

Badgers

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will publish the research on badger perturbation produced by the Woodchester Project. [292424]

Jim Fitzpatrick: The Food and Environment Research Agency's Woodchester Park team has published over 100 papers on the relationship between badger biology and bovine TB dynamics. Research on the perturbation of badger populations, including work on the relationship between badger movement and TB dynamics at Woodchester Park, has been peer-reviewed and published in the following recent scientific papers:

Carter S, Delahay R, Smith G, Macdonald D, Riordan P, Etherington T, Pimley E, Cheeseman C (2007) Culling-induced social perturbation in Eurasian badgers Meles meles and the management of TB in cattle: an analysis of a critical problem in applied ecology. "Proceedings of the Royal Society B (Biological Sciences)" 274, 2769-2777.

Vicente J, Delahay R, Walker N, Cheeseman C (2007) Social organisation and movement influence the incidence of bovine tuberculosis in an undisturbed high density badger (Meles meles) population. "Journal of Animal Ecology" 76, 348-360.

McDonald RA, Delahay RJ, Carter SP, Smith GC, Cheeseman CL (2008) Perturbing implications of wildlife ecology for disease control. "Trends in Ecology and Evolution" 23, 53-56.

Further detail of the DEFRA funded Woodchester Park project (SE3032 The long term intensive ecological and epidemiological investigation of a badger population naturally infected with "Mycobacterium bovis") is available on the DEFRA website.

Beef: Brazil

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how much beef was imported from Brazil in *(a)* May, *(b)* June, *(c)* July and *(d)* August in each year since 2005. [291919]

Jim Fitzpatrick: The following table shows the amount of beef imported from Brazil in May, June, July and August in each year since 2005.

Month and year	*Total number of consignments*	*Total quantity (kilos)*
May 2005	6	69,034
June 2005	11	157,602
July 2005	6	132,157
August 2005	5	101,854
May 2006	232	3,244,413
June 2006	238	6,137,593
July 2006	166	2,599,620
August 2006	156	3,836,404
May 2007	193	3,120,213
Jun 2007	189	3,129,371
July 2007	108	1,510,158
August 2007	117	1,668,119
May 2008	6	45,529
June 2008	8	99,549
July 2008	0	0
August 2008	4	6,812
May 2009	7	81,629
June 2009	26	143,413
July 2009	3	35,101
August 2009	13	764,575

Note:

Information obtained from TRACES.

Bovine Tuberculosis: Hertfordshire

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Hertfordshire were under bovine tuberculosis restrictions on the latest date for which figures are available. [289426]

Jim Fitzpatrick: TB statistics are available currently at county and regional level. On 30 June 2009 the number of herds under restriction in Hertfordshire was 13, with one new unconfirmed TB incident. It should be noted that herds under restriction on 30 June will include herds under restriction due to overdue TB tests.

Bovine Tuberculosis: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs who his Department plans to contract to undertake the vaccination of badgers in the forthcoming bovine TB project; and if he will make a statement. [292423]

Jim Fitzpatrick: Contractors to undertake the vaccination of badgers for the Badger Vaccine Deployment Project will be recruited through an EU tender run by the Food and Environment Research Agency (Fera). This is currently underway and will run until April 2010.

Fera will train the recruited contractors to trap and vaccinate badgers as part of the licensing and accreditation process.

Departmental Communication

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in *(a)* his Department and *(b)* its agencies are classified as (i) communicators and (ii) have access to the Government Communication Network. [291843]

Dan Norris: There are currently 67 staff in the Communications Career Home within core DEFRA including individuals outside the Communications Directorate.

All UK civil servants can access the Government Communication Network (GCN) to view and receive e-mail alerts for job vacancies but they must be working as a communicator to register as a member and access networking areas of the site.

Information on Communicators in DEFRA Executive Agencies and NDPB's is not held centrally at present. However, these data are likely to become available over the next few months.

Departmental Electronic Equipment

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 9 December 2008, *Official Report,* column 38W, on departmental electronic equipment, how much *(a)* his Department and *(b)* its agencies have spent on (i) flat screen televisions, (ii) DVD players and (iii) stereo equipment since December 2008. [289171]

Dan Norris: The core-Department's financial system records expenditure of £18,024 on flat screen televisions since December 2008. No expenditure is recorded for DVD players and stereo equipment. Expenditure on electronic equipment by DEFRA's agencies is not recorded centrally outside of the core-Department's financial system and the information could be provided only at disproportionate cost.

Departmental Energy

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to promote energy efficiency in its operations. [289529]

Dan Norris: We are taking the following steps to maximise our energy efficiency:

Interactive building management systems (BMS) linked to visual displays, informing staff of energy efficiency within the building and other sustainability indicators, e.g. CO_2 emissions, water use, waste and recycling.

Adoption of the Carbon Trust Standard and Energy Efficiency Accreditation Scheme (EEAS)—both of these measure actual performance in terms of CO_2 output.

Sustainability Champions have been appointed as part of the new Sustainable Workplace Management contract. They will work within each site to monitor energy use, identify and implement efficiency measures and report progress towards site energy targets on a quarterly basis.

This is supported by an ongoing programme of installation of energy efficient technologies. Initiatives which have already been implemented include: voltage regulation technologies, energy efficiency lighting, insulation and draught proofing, biomass, combined heat and power plants and automatic metering (AMR) of utilities. Thermal imaging surveys have also been undertaken at a number of sites, the survey results will form a programme of works to improve the thermal efficiency of the buildings.

Departmental ICT

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs what IT systems have been in development for use within his Department in the last five years; what the reason for the development of each system was; how much has been spent on the development of each system; and which systems have been subsequently *(a)* implemented, *(b)* terminated prior to implementation and *(c)* terminated following implementation. [290522]

Dan Norris: Data on costs of IT systems could be provided only at disproportionate cost. Instead data has been provided for the entire project where IT system development costs are a significant proportion.

The projects listed are information technology projects in DEFRA that were estimated to cost more than £1 million over the life of the project. Costs listed exclude the day-to-day running costs after the completion of the project. The figures quoted are either the actual cost for completed projects or the latest forecast estimates as at April 2009 for those that are not yet completed. The estimated costs to completion are subject to change and the Department carries out regular reviews of the projects and their associated business cases at key strategic points.

Projects costing less than £1 million, those being carried out within Executive agencies, projects transferred to the Department for Energy and Climate Change and projects initiated after November 2008 have all been excluded as such data is not held centrally. Collection would incur a disproportionate cost to the Department.

No projects have been terminated following implementation.

Project	*Reason for development*	*Actual/expected completion date*	*Status*	*Actual/estimated costs (£)*
Catalyst	To provide Electronic Data and Records Management system for DEFRA	—	Project closed in November 2005. Pilot phase demonstrating that predicted productivity benefits would not be fully realised and costs would be higher than expected and would outweigh the quantified benefits. Further cost to taxpayer avoided estimated at £19 million.	12,600,000
Customer and Land Database (CLAD)	To enable a limited set of Rural Payments Agency (RPA) customer and land data sets to be shared securely within the DEFRA delivery body Network	March 2010	Ongoing	1,730,000
Customer Information Programme	To enable DEFRA to hold improved customer information	—	Project closed during development phase in June 2007 due to reprioritisation of budget. Project deliverables (valued at £247,000 were reused in CLAD development)	9,920,663
e-Domero	Development of an online application for management of plant health-related processes. It is used by plant health and seeds inspectors to record licensed inspections of plants coming into and out of the UK	April 2007	Completed	1,000,600
Enabling Technology Programme 2009-10	Annual investment programme in high priority infrastructure and application architecture developments driven by DEFRA Network's business needs	March 2010	Ongoing	3,100,000
National Equine Database	Joint industry/public sector development of a database to hold data on 'horse passports' for the purpose of monitoring passport compliance and for disease control surveillance	December 2006	Completed	1,570,000
Noise Mapping	IT system developed to meet requirements of Environmental Noise (England) Regulations 2006 to enable the production of Noise Maps to help production of plans to manage noise issues and effects	May 2007	Completed	4,300,000
RADAR (Rapid Analysis and Detection of Animal-related Risks)	Development of a data warehouse bringing together information about livestock populations and diseases from many different Government data sources allowing for analysis to be performed in event of a disease outbreak	March 2009	Completed	12,228,000
UK Location Programme	DEFRA leads the cross-Government UK Location Programme, a joint programme to implement the INSPIRE EU Directive and the UK Location Strategy	December 2012	Ongoing	12,800,000
Phoenix IT Project	To handle licences for protected species covered by international conventions	—	Project closed in June 2006 due to reprioritisation of budgets. Further cost to taxpayer avoided estimated at £2.5 million	3,998,807
Renew IT	Providing a modern and efficient IT working environment based on refreshed IT services	March 2009	Completed	9,000,000
Spatial Information Repository (SPIRE)	Supports policy making and operational delivery by providing access to up-to-date geographic information	March 2010	Ongoing	14,950,000
Waste Data Strategy	Development of a data warehouse that takes data from Environment Agency and DEFRA systems to allow for production of summary and ad-hoc reports/analysis to produce a sound evidence base for improved waste management policy development	June 2007	Completed	2,500,000
Web Rationalisation	To support the Transformational Government Web Rationalisation Programme	March 2011	Ongoing	1,440,000

Project	*Reason for development*	*Actual/expected completion date*	*Status*	*Actual/estimated costs (£)*
Whole Farm Approach	Current work is centred on providing online access to key transactional systems from various DEFRA agencies via the Whole Farm Approach including single farm payment, environmental stewardship and cattle tracing	March 2011	Ongoing	74,000,000

Departmental Recycling

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of his Department's waste was recycled in the latest period for which figures are available. [289664]

Dan Norris: The latest available figures show the following percentages of waste were recycled and recovered in 2007-08:

	Percentage
Recycled (recycled, composted, reused externally)	29
Recovered (recycled, composted, reused externally, incinerated with energy recovery)	60

It should be noted that DEFRA incinerates approximately 30 per cent. of its waste; from which significant quantity of heat and energy is recovered. Current Sustainable Development Commission reporting does not acknowledge energy recovery from waste incineration as recycling or waste recovery under current Sustainable Operations on the Government Estate (SOGE) guidelines.

Food: Production

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of food consumed nationwide which was produced domestically in each year since 1997; and if he will make a statement. [291925]

Jim Fitzpatrick: The following table provides the answer to this question.

Percentage of food produced in the UK which is consumed in the UK

	Percentage
1997	58
1998	56
1999	57
2000	56
2001	56
2002	54
2003	53
2004	53
2005	50
2006	49
2007	50
2008	[1]53

[1] Provisional.

Note:

This should not be confused with the measure of UK Self-Sufficiency in all Food, which in 2008 was 60 per cent. (provisional figure), since self sufficiency shows the percentage of all UK food production, including UK exports, as a percentage of consumption. Both measures are based on the value of unprocessed food.

Forests

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the area of commercial woodland and forestry in England that is owned by *(a)* Forest Enterprise and *(b)* private landowners and public limited companies. [291914]

Huw Irranca-Davies: The information is not held in that format by the Forestry Commission. The "National Inventory of Woodland and Trees" published in 2001 included information on ownership type for woodland areas of 2.0 hectares or more. This is given in the following table.

Ownership type	*Area (hectares)*
Personal	480,794
Business	146,601
Forestry or timber business	7,200
Charity	68,484
Local authority	61,098
Other public (not Forestry Commission)	27,302
Forestry Commission	222,694
Community ownership or common land	3,732
Unidentified	3,917
Total	1,021,822

Foxes

Mr. Andrew Turner: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated number of foxes in each county in England was in each of the last 10 years. [291955]

Huw Irranca-Davies: DEFRA does not carry out annual surveys of fox numbers by county and is not aware of any measures of absolute numbers of red fox ('Vulpes vulpes') per county.

However, information on game bags (foxes taken e.g. by shooting) is provided by the Game and Wildlife Conservation Trust's national gamebag census. The analysis of mammal data from this annual survey is funded by the Joint Nature Conservation Committee as part of its surveillance programme. It provides an index of bag density for this species at a UK, country and regional scale and can be used to indicate what the population trend might be. The gamebag data for foxes over the last 10 years fluctuates, but the overall trend appears to be stable or slightly increasing.

The results of this scheme are available in a report entitled "Participation of the National Gamebag Census in the Mammal Surveillance Network". A copy of this has been placed in the House Library.

Hill Livestock Allowances

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average age of a farmer receiving the hill farm allowance was in each year since the introduction of the allowance. [291922]

Huw Irranca-Davies: The Rural Payments Agency does not keep records concerning the age of applicants under the Hill Farm Allowance scheme.

Meat: Imports

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* volume and *(b)* monetary value of each meat product imported from (i) Argentina, (ii) Botswana, (iii) Brazil, (iv) China, (v) Democratic Republic of Congo, (vi) Ecuador, (vii) Egypt, (viii) Israel, (ix) the Palestinian Autonomous Territories, (x) Russia, (xi) South Africa, (xii) Turkey and (xiii) Vietnam was in each of the last five years. [291909]

Jim Fitzpatrick: The following table provides details of imports of meat and meat products from the specified countries, as recorded in the Official Overseas Trade Statistics, for the period 2004-08.

UK imports of meat and meat products from selected countries for 2004 to 2008

			2004		2005		2006

It should be noted that imports of certain meats from many of these countries are not permitted. The following provides details of these import restrictions:

Country	*Import restrictions*
Brazil	Bone in beef meat (inc carcases and half carcases)
Brazil	Sheep meat, inc lamb and goat meat
Argentina	Sheep and goat meat/lamb (only from May 2002)
Israel	Beef
China	Sheep meat inc lamb
Turkey	Beef, pig meat, sheep meat
Russia	Pig meat
Turkey	All poultry meat
Vietnam	All poultry meat
Egypt	All poultry meat
China	All poultry meat was prohibited from China in 2004

Where imports are not permitted we believe that any imports recorded in the Overseas Trade Statistics represent consignments which have been exported from GB, rejected and returned or goods where the incorrect customs code have been entered.

There was no recorded trade in meat and meat products during this period for the Democratic Republic of Congo, Ecuador, Russia or West Bank/Gaza Strip. West Bank/Gaza Strip is the recognised designation for the Palestinian region used by HMRC.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to reply to the letter from the hon. Member for West Worcestershire, dated 23 June 2009, on carbon emissions and climate change. [292906]

Joan Ruddock: I have been asked to reply.

I replied to the hon. Member for West Worcestershire on 6 August, and apologise for the delay in response.

Milk: Overseas Trade

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* liquid milk and *(b)* milk powder was (i) imported and (ii) exported in each of the last three years. [291911]

Jim Fitzpatrick: Imports and exports of liquid milk and milk powder are shown in the following tables.

Liquid milk is imported into and exported from the UK in two forms, as raw milk for processing by dairies (Table 1), or as liquid drinking milk (e.g. pasteurised or UHT milk) (Table 2).

Raw milk is only traded across the Irish border, that is raw milk imports come from the Republic of Ireland for processing by dairies in Northern Ireland, and vice versa.

Table 1: UK imports and exports of raw milk for processing (all trade across the Irish Border)

			Million litres
	2006	*2007*	*2008*
Total imports	33.3	57.1	48.5
Total exports	617.3	537.6	559.2

Milk: Prices

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average price per litre paid to *(a)* farmers, *(b)* purchasers and *(c)* supermarkets for milk was in each year since 1997. [291926]

Jim Fitzpatrick: The following tables show annual UK farmgate and retail milk prices. No information is available on prices paid at all other points in the supply chain.

The farmgate price is calculated from monthly surveys of milk purchasers conducted in England and Wales by DEFRA, in Scotland by RERAD and in Northern Ireland by DARD. The farmgate price is the average price received by producers, net of delivery charges. No deduction has been made for superlevy.

National Bee Unit: Manpower

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many bee disease inspectors were employed by the National Bee Unit in each year since 2004. [291913]

Jim Fitzpatrick: The numbers of bee inspectors employed by the Food and Environment Research Agency's National Bee Unit (NBU) in England and Wales each year since 2004 are as follows:

	Number
2004	45
2005	45
2006	45
2007	45
2008	45
2009	63

These figures include eight full-time regional bee inspectors and the national bee inspector. The remainder are seasonal bee inspectors who are employed for the active beekeeping season. Details of the work undertaken by the NBU's bee inspectors can be found on the NBU website at:

www.nationalbeeunit.com

Nitrate Pollution Prevention Regulations 2008

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average cost to each farm of implementation of the Nitrate Pollution Prevention Regulations 2008. [292408]

Huw Irranca-Davies: An estimate of the average cost to each farm of implementing the Nitrate Pollution Prevention Regulations 2008 has not been made.

The estimated annual cost to the agricultural sector of implementing the regulations is in the range £48,500,000 to £68,600,000. The UK's successful negotiation of a derogation from the livestock manure N farm limit, one of the more demanding requirements set by the nitrates directive, means these costs could be reduced by £16,900,000 to £21,700,000 per annum.

Nitrate Vulnerable Zones

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what grants his Department makes available for the construction of slurry storage in nitrate vulnerable zones. [292404]

Huw Irranca-Davies: We are not intending to provide a capital grant scheme for the construction of slurry stores. Past experience has shown that this may simply increase supply prices and merely postpone the impact of market forces.

Slurry storage facilities are eligible for plant and machinery allowances such as the annual investment allowance, capped at £50,000 per year. Slurry pits also qualify for allowances in their own right under the Capital Allowances Act 2001.

Poaching

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the maximum penalty for an offence of poaching is; and what statutes govern the offence of poaching. [292368]

Huw Irranca-Davies: Some statutes specifically refer to the offence of poaching; others make it an offence to illegally take or kill wildlife in certain circumstances.

The main statutes governing poaching are: the Game Act 1931 (maximum penalty £5,000); the Poaching Prevention Act 1862 (maximum penalty £1,000); and the Night Poaching Acts 1828 and 1844 (maximum penalty £2,500 and/or six months imprisonment).

Statutes carrying a penalty for the illegal taking or killing of certain wildlife species are: the Wildlife and Countryside Act 1981 (maximum penalty £5,000 and or/six months imprisonment); the Salmon and Freshwater Fisheries Act 1975 (the maximum penalty is an unlimited fine and/or up to two years imprisonment); and the Deer Act 1991 (maximum penalty of £2,500 and/or three months imprisonment).

Poultry: Animal Welfare

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to ensure that British Standards relating to the welfare of chickens reared for meat production are maintained following the introduction of EU Council Directive 2007/43/EC; and if he will make a statement. [291816]

Jim Fitzpatrick: We are currently considering the responses received to our 12-week public consultation on the transposition of council directive 2007/43 for the protection of chickens kept for meat.

At present there is no specific detailed legislation in place regarding meat chicken welfare other than the very general requirements contained within the Welfare of Farmed Animals (England) Regulations 2007. Council directive 2007/43 is a big step forward into looking at the welfare of meat chickens and is unique in that it is the first piece of EU welfare legislation which looks at welfare outcomes as well as prescribing the conditions in which chickens should be kept.

The new European rules do therefore for the first time produce a legal baseline for all producers, including those who do not participate in any voluntary assurance schemes, while complementing, not replacing, existing voluntary assurance schemes of which many farmers are already a part.

Poultry: Feathers

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what quantity of poultry feathers were imported from each East Asian country in each of the last five years. [291912]

Jim Fitzpatrick: The following table provides details of the imports of bird feathers from East Asian countries as recorded, in the Official Overseas Trade Statistics, for the period 2004 to 2008.

UK imports of bird feathers from East Asian countries for 2004 to 2008

Private Finance Initiative

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities have participated in the private finance initiative credits scheme announced in the Budget 2009 to date; and how many have made applications for participation which are under consideration. [291688]

Dan Norris: There have been 37 waste projects which have participated in the Waste Private Finance Initiative (PFI) credits scheme since it began.

The 37 individual projects represent 53 waste disposal authorities working in partnership with 120 local authorities.

A further seven projects (consisting of 16 waste disposal authorities covering 34 local authorities) have applied to participate in the PFI scheme. Their applications are under consideration.

Full details can be found on the DEFRA website:

http://www.defra.gov.uk/environment/waste/localauth/fundinq/pfi/projects.htm

Property Development: Worksop

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* correspondence, *(b)* emails and *(c)* telephone calls have taken place between the Environment Agency and Bassetlaw District Council and its development partners concerning the development of Turner Road in Worksop in the last 12 months. [292308]

Jim Fitzpatrick *[holding answer 12 October 2009]:* The Environment Agency has had no contact over the last 12 months with the developer or their consultants in relation to the leisure development at Turner Road, Worksop.

Over the last three weeks, the Environment Agency and Bassetlaw District Council have been in contact regarding Turner Road. The details of these conversations will be placed in the House Library.

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what delays in the Turner Road development site in Worksop have resulted from Environment Agency interventions in the last 12 months. [292389]

Jim Fitzpatrick: The Environment Agency is not aware that it has caused any delays in relation to the proposed leisure development at Turner Road, Worksop over the last 12 months.

Ragwort: Weed Control

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to establish the number of local authorities which remove ragwort from grass verges. [291930]

Huw Irranca-Davies: DEFRA does not hold information about weed clearance activities by local authorities. Responsibility for clearance of ragwort and other weeds on grass verges rests with the local authority in respect of minor roads and with the Highways Agency in respect of motorways and trunk roads.

Rights of Way

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs how many Definitive Map Modification Orders he has determined without holding a local inquiry or hearing in circumstances where in his opinion representations or objections to an Order were irrelevant to the determination of that Order. [291948]

Huw Irranca-Davies: During the period 1 April 2008 to 31 March 2009, five Definitive Map Modification Orders were determined without holding a local inquiry or hearing in circumstances where representations or objections to an order were considered irrelevant to the determination of that order. Figures are not available for any earlier period.

Sheep: Tagging

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects on farmers of the introduction of electronic sheep tagging. [291929]

Jim Fitzpatrick: Impact Assessments were published in March as part of a wider public consultation on the implementation of electronic identification of sheep in England. A final Impact Assessment will accompany implementing legislation later this year.

Supermarkets

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Secretary of State for Business, Innovation and Skills on the regulation of supermarket trading practices. [291927]

Jim Fitzpatrick: Ministers are currently considering the recommendations of the Competition Commission.

Water Charges

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to his Department's press release of 14 July 2009 on surface water drainage charges, DEFRA Minister pledges action on rain tax, what the timetable is for the introduction of new guidance to water companies. [292227]

Huw Irranca-Davies: The Government announced on 28 September that they will bring forward legislation to enable water and sewerage companies to operate concessionary schemes for community groups for surface water drainage charges. The legislation will be brought in as part of a Flood and Water Management Bill at the earliest opportunity.

Written Answers to Questions

Wednesday 14 October 2009

TREASURY

Banks: Government Assistance

Mr. Meacher: To ask the Chancellor of the Exchequer what the cost to the public purse has been of the Government's financial holdings in *(a)* Northern Rock, *(b)* Bradford and Bingley, *(c)* RBS, *(d)* Lloyds Banking Group, *(e)* HBOS, *(f)* Barclays and *(g)* HSBC to date; and what estimate he has made of such costs in the next 12 months. [292945]

Sarah McCarthy-Fry: I refer the right hon. Member to the written answer I gave him on 9 September 2009, *Official Report*, column 1924W, for details of the Government's financial support, including the Government's equity investments, provided to Northern Rock, Bradford and Bingley, Royal Bank of Scotland and the Lloyds Banking Group. As at 31 March 2009 the Government had no equity investments in Barclays or HSBC. Budget 2009 reported that the Government provisionally estimates that the net losses arising from all financial stability interventions may lie within a potential range from £20 billion to £50 billion (1½ to 3½ per cent. of GDP).

Business: Government Assistance

Mr. Gibb: To ask the Chancellor of the Exchequer whether he plans to increase the proportion of loan guaranteed by the Enterprise Finance Guarantee Scheme from 75 per cent. [292931]

Sarah McCarthy-Fry: The current level of the guarantee on an individual EFG loan ensures both that the scheme meets the state aid requirements as set by the European Commission and that the banks take enough risk on each loan to ensure that they have sufficient incentive to make considered commercial decisions on each application.

The level of guarantee will be one element considered in any decisions on the future of the scheme. However, it must be balanced with considerations such as: state aid limits; risk sharing with banks; responsible use of public money; and affordability considerations.

Co-operation on Debt Recovery

Mr. Harper: To ask the Chancellor of the Exchequer pursuant to the written ministerial statement of 14 September 2009 on Co-operation on debt recovery, what estimate he has made of the number of individuals who owe money to HM Revenue and Customs (HMRC) and who are in receipt of benefit payments from the Department for Work and Pensions by benefit type; what estimate he has made of the monetary value of the total debt which is owed to HMRC by these individuals; and how many full-time equivalent officials from his Department will be involved in operating this trial. [292910]

Mr. Timms: The information requested is not available. Work to design the trial is still under way.

Real Estate Investment Trust

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Exchequer of *(a)* halving and *(b)* abolishing the entry charge to become a Real Estate Investment Trust. [292900]

Mr. Timms: No such estimates have been made.

UK Financial Investments

Mr. Brady: To ask the Chancellor of the Exchequer when UK Financial Investments Limited will publish a set of *(a)* indicators and *(b)* benchmarks against which its performance can be measured. [292924]

Sarah McCarthy-Fry: UKFI set out its approach to indicators and benchmarks in the "UKFI Strategy: Market Investments and Annual Report and Accounts 2008/09" available at:

www.ukfi.gov.uk

Treasury is working with UKFI to formulate these.

Mr. Brady: To ask the Chancellor of the Exchequer if he will bring forward legislative proposals to place UK Financial Investments Limited on a statutory basis. [292922]

Sarah McCarthy-Fry: The Government have no plans to bring forward legislation to establish UK Financial Investments Limited on a statutory basis.

UK Financial Investments: Location

Mr. Brady: To ask the Chancellor of the Exchequer when it was decided that UK Financial Investments Limited should relocate to premises outside HM Treasury; and what the reasons were for that decision. [292920]

Sarah McCarthy-Fry: The decision to relocate was taken by UKFI. UKFI has kept the question of its location under review, noting Treasury Select Committee recommendations, and announced on 28 July 2009 that it would be moving from the Treasury premises.

UK Financial Investments: Public Appointments

Mr. Brady: To ask the Chancellor of the Exchequer when he expects UK Financial Investments Limited to appoint a new Chief Executive to replace John Kingman. [292921]

Sarah McCarthy-Fry: UKFI is managing the recruitment process for John Kingman's successor as CEO, through public advertisements and a financial sector head-hunter.

DEFENCE

Afghanistan: Peacekeeping Operations

Dan Rogerson: To ask the Secretary of State for Defence (1) how much compensation was paid to *(a)* soldiers wounded in Afghanistan and *(b)* dependent relatives of soldiers killed or seriously wounded in Afghanistan under the War Pension Scheme in financial year 2008-09; [292942]

(2) how much compensation was paid under the Armed Forces Compensation Scheme to dependent relatives of personnel killed in Afghanistan as *(a)* guaranteed income payments and *(b)* other payments in financial year 2008-09; [292943]

(3) how much compensation was paid to soldiers wounded in Afghanistan under the Armed Forces Compensation Scheme as *(a)* lump sum payments and *(b)* guaranteed income payments in financial year 2008-09. [292944]

Mr. Kevan Jones: The accounting records for both the War Pension Scheme and the Armed Forces Compensation Scheme do not capture the geographical or operational details to which the injuries relate. Therefore, it is not possible to provide how much was paid in compensating injured Service Personnel in 2008-09 specifically as a result of a particular conflict. The total expenditure under the War Pension Scheme for Financial Year 2008-09 was approximately £1 billion. The total expenditure, on a cash accounting basis, under the AFCS in Financial Year 2008-09 was £33.4 million. This amount comprises three elements as follows:

	£
Lump sum payments to wounded personnel	30,100,000
Guaranteed income payments to wounded personnel	579,000
Guaranteed income payments to dependents of killed personnel	2,700,000

In addition, on an actuarial basis, the scheme has future liabilities estimated at £352.4 million in respect of service related injuries already sustained but unclaimed at 31 March 2009 and the future value of the Guaranteed Income Payments.

Armoured Fighting Vehicles

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many *(a)* Ridgeback vehicles were operational in and *(b)* Ridgeback qualified drivers were in theatre on (i) 30 June, (ii) 31 July and (iii) 31 August 2009. [291568]

Bill Rammell: I am withholding the information as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Defence Medical Services

Sir Menzies Campbell: To ask the Secretary of State for Defence what assessment has been made of the extent to which armed forces *(a)* medical personnel and *(b)* medical personnel in pinch point trades are in breach of the single service harmony guidelines. [291725]

Mr. Kevan Jones: There are no medical pinch point trades in the naval service. Other naval medical trades and RAF medical pinch point trades in breach of harmony guidelines are given in the table.

The Army, being the last service to transfer to the Joint Personnel Administration System, does not yet have sufficient data to provide meaningful statistics, although units in theatre are actively monitoring and managing the level of separated service for individual personnel. A complete period of data should become available in the new year.

Royal Navy medical trades with harmony breaches	*Percentage of current population breaching harmony*
QARNNS Ratings	0.5
Medical Assistants (General Service)	0.6
Medical Assistants (Royal Marine)	2.6
RAF Medical Pinch Point	
Medical Branch (all RAF doctors)	4.0
Medical Nursing Officer	6.0

Defence Science and Technology Laboratory: Finance

Mr. Wallace: To ask the Secretary of State for Defence what proportion of his Department's research budget has been allocated to the Defence Science and Technology Laboratory in each year from 2009-10 to 2012-13. [291960]

Mr. Quentin Davies: The Department currently plans to place contracts with the Defence Science and Technology Laboratory (Dstl) to the value of £204 million in 2009-10 out of a total research budget of £471 million. Contracts beyond 2009-10 have not yet been finalised.

Departmental Databases

Jenny Willott: To ask the Secretary of State for Defence what categories of personal information on members of the public will be held on each of his Department's and its agency's databases expected to become operational in the next five years; what estimate he has made of the likely number of individuals' details each such database will hold when fully operational; and if he will make a statement. [286495]

Mr. Kevan Jones: Ministry of Defence officials are currently collating and validating the data needed to answer these questions. I will write to the hon. Member before the summer recess.

Substantive answer from Kevan Jones to Jenny Willott:

I undertook to write to you in response to your Parliamentary Questions on 14 July, (Official Report, column 270W) and 21 July (Official Report, column 1197W) on existing and planned MOD databases which contain personal information on members of the public.

The following table provides details of the main MOD databases which hold personal information on members of the public. In some of these databases the majority of information held will relate to members of the Services or MOD civilian personnel however we have included them as there may also be information relating to the public e.g. an unsuccessful applicant for a vacancy.

Name and purpose of database	*Categories of personal information held on members of the public*	*Year in which database became operational(and year from which specific categories of information were collected - if different)*
Joint Personnel Administration	The following information is held as Emergency Contact information:	April 2006 for RAF personnel, November 2006 for Royal Navy personnel, The data was extracted from each service's legacy system which had in turn developed paper files from the 1960s onwards.
Military Personnel HR	Title, First name, Middle name, Surname Post-nominal, Email address, Relationship, Relationship start date Whether Emergency Contact, is legal Next of Kin, Whether Primary Contact, Main postal address, Contact telephone, number(s) (home, work, mobile etc)	
Warrantor 2 Warrantor is the Defence Vetting Agency's (DVA) vetting database, it is used to process and store the results of security vetting applications received.	Information provided by vetting subjects[1] as part of the Security Questionnaire: Name, Address, Date of birth Current occupation, Previous occupations and addresses, Financial information, Details of family members etc - Credit reference check, criminal record check, medical information and Security Service check as required for the level of vetting application	2001
Defence Vetting Agency E-form	As Warrantor 2 – The database stores Security Questionnaire information electronically for a limited number of Security Check/ Counter Terrorist Check National Security Vetting applications	2008
Defence Vetting Agency Warrantor 2 Support Services Database Queries Warrantor to list names and addresses of Referees and Subjects to produce address labels for sending out Vetting Information leaflets and covering letters	Names and addresses of Referees and Subjects	2004
Defence Vetting Agency File Tracker Keeps a record of all paper files held by the DVA	Names and dates of birth of vetting subjects	2002
Defence Vetting Agency Feedback database Holds records of all formal complaints, correspondence and feedback received by the DVA.	Names, addresses, contact details	2006
Defence Vetting Agency VMA database Keeps a record of cases that have been referred to the Vetting Medical Adviser and the outcome	Name, contact details, Doctor's Information, Medical details	2004
Defence Vetting Agency EA(D)S Criminal records Bureau databases (3) Holds details about the progress of disclosure records for CRB applications.	Information provided by the vetting subject as part of the Application Form: name, date of birth, details of position for which Disclosure is being requested, Address of initiating Unit. Disclosure level, stage dates and invoice details, result indicator and employment decision	2008
DAS LOW FLYING Details of complaints concerning Low Flying activity in the UK	Name, Address, telephone number, mobile number e-mail address	1995
LoCMIS- Low flying Complaints Management Information System Details of complaints concerning Low Flying activity in the UK	Name, Address, telephone number, mobile number, e-mail address	Database created – 2003 Information stored from 2005
RAF Police Taskings and Breach Database Details of complaints that have been referred to the Defence Flying Complaints Investigation Team	Name, Address, telephone number, mobile number, e-mail address	1995
Unified Force Information (UNIFI)		

Name and purpose of database	*Categories of personal information held on members of the public*	*Year in which database became operational(and year from which specific categories of information were collected - if different)*
UNIFI is the MDPGA (MOD Police and Guarding Agency) crime recording and intelligence database.	Names, addresses etc and intelligence	November 2007
MDPGA (Ministry of Defence Police and Guarding Agency) Command and Control A system to record police incidents and police action	Names and addresses of members of public.	May 2004
MDPGA (Ministry of Defence Police and Guarding Agency) HOLMES 2 (Home Office Large Major Enquiry System)	The following information is recorded or. victims of crime and witnesses: First Names, Maiden Name, Alias/Nicknames, Occupation, Employer, Title, Date of Birth, Place of Birth, Gender, Ethnicity, Description, Nationality, Height, Source of Information i.e., from statement form	November 2000
Centurion Centurion processes information relating to the misconduct of police officers and complaints from members of the public	Names and addresses of complainants and witnesses.	January 1991
E-Visitor Pro X Management of administration and production of visitor day passes to Ministry of Defence Police and Guarding Agency site.	Names. addresses of visitors to (MDPGA) Wethersfield	May 2004
Computerised Admin System for Assessment of Police Recruits (CASA).	Names, addresses etc of potential MDP recruits.	April 2006
Access to Information Toolkit (AIT) Tracking, logging and storing the final answers for all Freedom of Information requests received centrally by MOD	First and surname, profession, address (email and postal), phone and fax numbers, request details, whether vexatious or not, details of the handling of the request (when received, when sent etc). Copy of correspondence received and sent (therefore could include handwriting, signature). All fields are optional except name (though could be believable pseudonym) and either written or email contact address	January 2005
FOI Master Request List Annual database of all FOI requests received. Drawn from AIT	Name of requestor, then full then full details of the request status	2005
SMS (Squadron Management System) Management and administration of Air Cadet Organisation (AGO) Squadrons and cadet activities	Addresses, Contact Details, Commendations/Awards, DEA Qualifications, Medical (Information on allergies or conditions that would affect Cadet activities or Camps and is accessible only by the OC Sqn and the staff assigned by the OC as per paper records). Promotions, Posting, Flying Logs, Shooting Logs	2006
STS_Bader_BLJ Database supporting document collaboration system used to distribute Air Cadet Organisation publications and forms.	Name, contact Phone and e-mail	2006
Westminster (Cadet Force Management for Sea Cadet Corps /Army Cadet Force /Combined Cadet Force)	Names, Ranks, DOB, Ethnicity Religion, Marital Status, Address, Contact Numbers, Next of Kin, Medical, Doctor, Schools, Dietary, Qualifications, Awards, Driving Licence, CRB, Course/Event Attendance, Remuneration	2007 (All Categories)
Universe Air Cadet Organisation Pay and Personnel System	Addresses, Contact Details, Promotions, Postings, Courses, Commendations/Awards, Bank Records, Remuneration Records, Travel Claims,	1986

Name and purpose of database	*Categories of personal information held on members of the public*	*Year in which database became operational(and year from which specific categories of information were collected - if different)*
PenServer Details of married members of the PCSPS (Principal Civil Service Pension Scheme)	Contact details for nominees of death benefits. Contact and bank account details where widow/children's pensions are in payment due to death in service of member, plus dates of birth where children are under 18 and details for guardians where there are no surviving parents	2000
Human Resources Management System (HRMS)	Employees: Next of Kin contact details, Emergency contact details	2002 (staged creation of records, process completed by March 2004).
	Unsuccessful External Applicants for MOD	Although always possible to record details for external applicants, process not widely adopted until mid-2005.
	Vacancies: Contact details, National Insurance Number*, Date of Birth*, Ethnic Group*, National Identity*, Disability*, Gender*, Sexual Orientation*, Personal Accomplishments (qualifications, licences, memberships etc) and contact details for referees/former employers (* Where provided)	
Civilian Harmonised Integrated Pay System (CHIPS)	Dates of birth for dependent children in cases where certain allowances have been claimed by staff working overseas.	2007
Subject Access Requests and Information Database (SID)	Contact details for individuals who have sought information from People, Pay and Pensions Agency under the Freedom of Information Act or Data Protection Act.	2009
Central Health Records Library - Cqube Index of medical records that were microfilmed or scanned	Name, Date of Birth	1996
NIGEL Press database	Limited and authorised contact details as supplied by journalists and charities are retained on NIGEL for use in distributing press releases, identifying contacts for business purposes.	2007
ICARAS On-line Recruiting Database	Name, Address, DOB, National Insurance number	2005
TRHJ Recruiting Database operating within MOD network	Name, Address, DOB, National Insurance number, NOK, Bank Details	2007
ORMISII Officer Selection Database	Name, Address, DOB, National Insurance number	2004
TAFMIS-T Training Database	Name, Address, DOB, National Insurance number, Course Information	1996
Parliamentary Toolkit: 1. For recording and processing correspondence from MPs written on behalf of constituents 2. For recording and processing letters from the public addressed to Ministers.	Name Address Summary of the issue	2003

---

[1] Vetting Subjects are those for whom National Security Vetting inquiries have taken place. These are primarily MOD and other public service civilians, members of the armed forces and workers in the Defence industry. Further information is available at www.dva.mod.uk

There are likely to be additional smaller databases which contain personal information on members of the public, for example it is common practice for Military units to maintain lists of appropriate members of their local community to whom they will extend invitations to social and other occasions. Details of these and other equivalent databases are not held centrally and could only be provided at disproportionate cost.

There are also a small number of databases whose details are being withheld for the purposes of safeguarding national security or whose disclosure would prejudice the prevention or detection of crime.

All information is collected and retained in accordance with the Data Protection Act. The following table provides details of known future MOD databases, subject to the same exemptions as above, which will hold personal information on members of the public.

Name and purpose of database	*Categories of personal information that will be held on members of the public*	*Your database expected to become operational*	*Estimated number of records that will be held*
Cerberus Will replace Warrantor as the Defence Vetting Agency main database to process and store the results of security vetting applications received	All information currently held by Warrantor, E-form pilot, feedback database and VMA database	2010	When the Cerberus database is complete and functional, it will hold approximately two million records. This represents all cases where the Defence Vetting Agency has received applications for National Security Vetting inquiries since its establishment in 2000, as well as historical records transferred from the Service Vetting Units that preceded the DVA.
File Trail Replacement for DVA File tracker	Names and dates of birth of vetting subjects	2009-10	290,000 records Approximately

These new databases becoming operational over the next five years are primarily upgrades and replacements for existing systems and do not substantially change the nature or volume of MOD's data holdings.

Nepal: Helicopters

Clare Short: To ask the Secretary of State for Defence what the outcomes were of his Department's investigation into alleged corruption linked to the gifting of two MI-17 helicopters from the Conflict Prevention Fund to the Royal Nepal Army in 2002; and if he will make a statement. [289328]

Mr. Bob Ainsworth: I refer the right hon. Member to the answer I gave on 9 September 2009, *Official Report*, column 2000W.

Clare Short: To ask the Secretary of State for Defence pursuant to the answer of 9 September 2009, *Official Report*, column 2000W, on helicopters: Nepal, whether the investigation found evidence of wrongdoing short of criminality in the procurement of the helicopters. [292911]

Mr. Bob Ainsworth: No.

Clare Short: To ask the Secretary of State for Defence pursuant to the answer of 9 September 2009, *Official Report*, column 2000W, on helicopters: Nepal, what assistance was provided by the *(a)* government and *(b)* army of Nepal to the investigation. [292912]

Mr. Bob Ainsworth: The investigation had no direct engagement with either the Government or the army of Nepal. Any relevant documentation received from the Government or the army of Nepal was passed to the Ministry of Defence Police Fraud Squad by the UK Ministry of Defence.

Trident: Scotland

Ms Katy Clark: To ask the Secretary of State for Defence with reference to the answer of 21 July 2008, *Official Report*, column 848W, on Trident: Scotland, (1) how many of the 589 civilians at HM Naval Base Clyde whose jobs directly rely upon the Trident programme are employed in *(a)* engineering and science, *(b)* logistics, *(c)* security, *(d)* health and safety, *(e)* outfitting and steel work and *(f)* other areas; [260953]

(2) how many of the 589 civilians at HM Naval Base Clyde whose jobs directly rely upon the Trident programme are resident in *(a)* Argyll and Bute constituency, *(b)* West Dunbartonshire constituency, *(c)* elsewhere in Scotland and *(d)* outside Scotland; [260954]

(3) what the *(a)* skills requirements and *(b)* geographic distribution of the 250 indirect civilian jobs relating to support activities for the Trident programme in Scotland are. [260955]

Mr. Hutton: The information requested is not held by my Department in that format.

Action is ongoing, however, to update the December 2006 figures as part of a broader package of work. I will write to my hon. Friend when this work is complete.

Substantive answer from Bob Ainsworth to Katy Clark:

In answer to your Written Questions on 9 March, (Official Report, column 178W) the then Secretary of State undertook to write to you on completion of a package of work that was being carried out to update the number of civilian jobs in Scotland that directly rely upon the Trident programme.

This exercise has now been completed and a breakdown of civilian jobs by skill and home location at Her Majesty's Naval Base Clyde, including Faslane and Coulport, directly reliant upon the Trident programme is provided below.

Skill	*Ministry of Defence*	*Babcock Marine*	*Total*
Engineering and Science	85	197	282
Logistics	22	22	44
Health and Safety	0	1	1
Outfitting and Steel Work	0	0	0
Other areas(1)	40	25	65
Total	147	245	392
Lockheed Martin UK Strategic Systems: breakdown by skill set is unavailable	—	—	72
Total civilian jobs directly reliant on Trident	—	—	464

Location	*Ministry of Defence*	*Babcock Marine*	*Total*
Argyll and Bute	74	66	140
West Dumbartonshire	48	104	152
Elsewhere in Scotland	25	75	100
Outside Scotland	0	0	0
Total	147	245	392
Lockheed Martin UK Strategic Systems: breakdown in terms of home location is unavailable	—	—	72
Total civilian jobs directly reliant on Trident	—	—	464

Notes:
1. Figures shown are as at March 2009 and based on individuals employed.
2. Ministry of Defence Police and Ministry of Defence Guard Service have not been included in this exercise. This information is being withheld for the purpose of safeguarding national security and defence.
3. Posts with the Strategic Weapon System heading have been considered Trident-related.

Unfortunately, however, some of the information is not held in the format you requested. The revised figure of 464 civilian jobs that directly rely on the Trident programme in Scotland reflects the position as at March 2009. This excludes any Ministry of Defence Guard Service or Ministry of Defence Police posts because this figure is being withheld for the purpose of safeguarding national security and defence.

It is estimated that there are a further 200 indirect civilian jobs in Scotland relating to support activities on the Trident programme. Officials have confirmed that information relating to indirect civilian jobs was derived using national multipliers as published by the Scottish Executive on 31 March 2009, for the ship building, weapons and ammunition, instruments industries and project management/business service as appropriate. It is, therefore, not possible to break out this information in terms of skills and location.

I hope this information is useful.

COMMUNITIES AND LOCAL GOVERNMENT

Buildings: Retail Trade

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what best practice guidance his Department has issued on high quality architecture and design for retail premises. [292627]

Mr. Ian Austin: In March 2005 we published 'Planning for Town Centres: Guidance on Design and Implementation tools'. This guidance supports Planning Policy Statement 6 (PPS6): 'Planning for town centres' and deals specifically with design issues relating to planning for town centres, including retail premises.

Business Improvement Districts

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans he has to publish guidance on the use of *(a)* business rate supplements (BRS) and *(b)* BRS business improvement district levies. [292634]

Barbara Follett: In January, CLG jointly with HMT, published for consultation draft guidance on BRS. This was followed in May by volume one of the statutory guidance, which focused on ballots and on how to assess compliance with the additionality test. CLG and HMT intend to publish shortly further statutory guidance on the use of BRS revenue and the governance arrangements for BRS projects. This final guidance will also incorporate the guidance published in May.

During the passage of the BRS Bill through Parliament, the Government made a commitment to consider and consult on the principle of BRS-BIDs and then to consult on the detail of the policy. Government will set out its intentions on BRS-BIDs in due course.

Community Development: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much funding his Department has provided to local community groups from the Communitybuilders fund to date. [292887]

Barbara Follett: No payments have been made from the fund to date. The fund opened for applications on 7 September 2009. Since then, the consortium led by Adventure Capital Fund (ACF), which is delivering the programme on behalf of Communities and Local Government and the Office of the Third Sector, has received about 1,500 inquiries. These are in the process of being assessed and the first offers of funding to community groups will be made in November.

Community Infrastructure Levy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his policy is on the notification of the provisions of section 106 of the Town and Country Planning Act 1990 following the entry into force of the community infrastructure levy provisions of the Planning Act 2008; and if he will make a statement. [292713]

Mr. Ian Austin: The Government's policy on the use of Planning Obligations under section 106 of the Town and Country Planning Act 1990 is set out in Government Circular 05/2005. As part of the Government's consultation on the Community Infrastructure Levy (CIL), which was launched on 30 July 2009 and will conclude on 23 October 2009, the Government have stated their intention to make changes to the operation of section 106 following the introduction of CIL. Details of the Government's proposals are set out in chapter 5 of the CIL consultation document.

Conferences

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which conferences held outside member states of the European Union have been attended by representatives of his Department in the last 12 months. [292873]

Barbara Follett: The information requested is not held centrally and could only be provided at disproportionate cost.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether *(a)* a local authority with a below-average council tax collection rate is compensated in the local government finance settlement formula for the reduced revenue from council tax and *(b)* a local authority with an above-average council tax collection rate has its additional revenue equalised away. [292549]

Barbara Follett: A council's performance on collecting council tax does not affect the amount of formula grant it receives.

Council Tax: Carers

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what steps his Department has taken to publicise the council tax reduction available to those who care for a disabled person. [292823]

Barbara Follett: The Council Tax and Non-Domestic Rating (Demand Notices) (England) Regulations 2003 places a statutory duty on billing authorities to provide information with the council tax demand notice on the circumstances under which council tax can be reduced through a discount disregard or exemption.

Council Tax: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will bring forward proposals to repeal the legislation that allows him to initiate a council tax revaluation in England by statutory instrument. [292641]

Barbara Follett: Repeal of section 22(b) of the Local Government Finance Act 1992 would require primary legislation. The Government have no plans to ask Parliament to approve such legislation.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether a council is compensated via the local government finance settlement for a smaller tax base as a consequence of households successfully appealing against their council tax banding and moving to a lower band. [293156]

Barbara Follett: The distribution of formula grant to local authorities in England takes account of the socio-economic and demographic characteristics of the authority, together with its relative ability to raise council tax, expressed in terms of the council tax base. We then ensure that every authority receives at least a minimum percentage increase (the 'floor') year-on-year on a like-for-like basis. In order to pay for the cost of the floor, we scale back the increase in grant above the floor for other authorities.

Since the introduction of multi-year settlements, we have used projected tax base data in the calculation of formula grant. The starting point for the tax base projections used in the current three-year settlement, covering 2008-09 to 2010-11, is the tax base as at 8 October 2007 adjusted for student exemptions. This is then increased annually by the Secretary of State's estimate of the average annual increase in the tax base for the authority between 10 October 2005 and 8 October 2007.

If a household moved into a lower band before the 8 October 2007, then this will be reflected in the tax base figures for the local authority that were used in the current tax base calculations. If a change in tax band has occurred since this date, then this will not be reflected until the 2011-12 settlement when the data are next updated.

Departmental Electronic Equipment

Justine Greening: To ask the Secretary of State for Communities and Local Government how many laptop computers issued to staff of his Department in each of the last five years were issued to *(a)* new staff and *(b)* existing staff following the (i) loss or (ii) theft of a previous device. [290377]

Barbara Follett: Communities and Local Government does not record centrally whether or not laptop computers were specifically issued to new or existing staff, or if they are issued as replacements for lost/stolen devices. Such information could be provided only at disproportionate cost.

All departmental laptops have hard drive encryption deployed and require two factor authentication to access the CLG corporate network. CLG staff are required to complete information assurance training in line with cross government requirements.

I would refer the hon. Member to the answer given to the hon. Member for Reigate (Mr. Blunt) on 30 June 2009, *Official Report*, column 190W.

Departmental Internet

Justine Greening: To ask the Secretary of State for Communities and Local Government what estimate has been made of the annual cost to his Department of maintaining and updating its Twitter account; and how many staff are responsible for updating the account. [292881]

Barbara Follett: The corporate Twitter account is maintained as part of the routine business of the Department's web team alongside other social media channels. The pay cost has not been disaggregated.

Departmental Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many speech writers his Department employs on *(a)* permanent and *(b)* fixed-term contracts. [292749]

Barbara Follett: The Department currently employs two full-time speechwriters on permanent contracts. In addition, a third permanently contracted speechwriter is shared between and co-funded by Communities and Local Government and the Department for Business, Innovation and Skills.

Departmental Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many staff in each division of his Department received bonus payments in the last year for which figures are available. [292588]

Barbara Follett: Information is not stored on our systems in a way that will allow us to provide this information by division. However, the following table shows the number of staff in CLG who received bonus payments in 2008:

Category of employee	*Scheme*	*Number of employees (approx.)*	*Number of employees who received awards in 2008*
Senior Civil Service (SCS)	SCS Annual Performance Bonuses	150	102
All Staff below SCS	CLG Performance Awards	1,982	570

Please note the numbers of employees in the table above excludes employees on unpaid special leave, outward loans and secondments but includes inward loads and secondments.

Final figures are not available for 2009 as the CLG annual pay award has not been implemented yet.

Departmental Public Expenditure

Mr. Brady: To ask the Secretary of State for Communities and Local Government which Minister in his Department has been assigned responsibility for overseeing the delivery of value for money in his Department; whether his Department has established a public sector reform team to implement service reforms; and if he will make a statement. [289145]

Barbara Follett: I am the value for money Minister for this Department. The Department is committed to reforming public services to improve services for the citizen; various teams are working closely with colleagues in the centre of Government on this important agenda. We have not needed to establish a specific public sector reform team.

Eco-Towns

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much his Department's Planning Policy Statement on eco-towns has cost to produce. [292466]

John Healey: It is not possible to cost the Department's spend on the production of the "Planning Policy Statement: eco-towns" (PPS), as the PPS has been developed as part of the Eco-towns programme and alongside our housing policies.

The cost of typesetting, printing and publishing the PPS and supporting documents including the SA Addendum, SA Statement, Impact Assessment and summary of consultation responses was £16,300.

Empty Dwelling Management Orders

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what representations his Department and its predecessor have received from civil liberties groups on empty dwelling management orders. [292637]

Mr. Ian Austin: The Department has not received any representations from civil liberty groups on empty dwelling management orders.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will initiate an independent review of the use of empty dwelling management order powers by local authorities. [292696]

Mr. Ian Austin: The Department is making a continuous assessment of the success of empty dwelling management orders through its regular contact with local authorities and the Empty Homes Agency.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of *(a)* owner-occupied, *(b)* privately rented and *(c)* social rented homes which have been issued with energy performance certificates. [292463]

John Healey: The total number of domestic energy performance certificates (EPCs) lodged on the EPC Register in the following categories, as of 4 October 2009, is as follows:

	Number
(a) Owner Occupied	2,057,346
(b) Privately Rented	871,264
(c) Social Rented	390,811

In addition we estimate that there are 236,951 EPCs recorded for newly constructed dwellings, some of which may also fall into one of these categories.

Grant Shapps: To ask the Secretary of State for Communities and Local Government *(a)* how many and *(b)* what percentage of (i) local authority and (ii) registered social landlord homes have been issued with energy performance certificates. [292464]

John Healey: The National Energy Performance Certificate (EPC) Register records whether the properties to which EPCs relate are in the social rented sector but does not record information about whether those properties are owned by either local authorities or registered social landlords.

English Regions Network

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what funding his Department is providing to the English Regions Network in 2009-10. [292580]

Mr. Ian Austin: In the current financial year the Department will provide £60,000 to the English Regions Network.

Fetes

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the number of *(a)* permits, *(b)* risk assessments and *(c)* licences required from local authorities in order to operate a fete. [292639]

Barbara Follett: The information requested is not held centrally.

Fire Services: Pensions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his planned changes to the Local Government Pension Scheme will include changes to the Firefighters' Pension Scheme. [293010]

Barbara Follett: Within the Government's overall policies for public service pension schemes, separate regulations govern the administration of the Local Government Pension Scheme and the Firefighters' Pension Schemes.

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government on what date his Department received the Homes and Communities Agency's most recent *(a)* annual report and *(b)* corporate plan; and on what date a Minister in his Department approved the publication of each. [292476]

John Healey: The Department has yet to receive a complete draft of the Homes and Communities Agency's Annual Report. The Annual Report does not require ministerial approval.

There were a number of iterations of the HCA's Corporate Plan, reflecting the additional funding allocated to the Agency announced in Budget 2009, and "Building Britain's Future". The Plan was published on 25 September, and can be found on the Agency's website at:

http://www.homesandcommunities.co.uk/public/documents/HCA_Corporate%20Plan_English.pdf

Housing: Construction

Matthew Taylor: To ask the Secretary of State for Communities and Local Government how many new houses have been built in each county in each of the last 10 years; and what percentage of these houses have been affordable. [291714]

Mr. Ian Austin: I refer the hon. Member to the answer given on 8 May 2009, *Official Report*, column 450W, for figures showing new affordable homes built as a proportion of all homes built. This shows estimates at regional level; equivalent estimates at county level could only be produced at disproportionate cost.

There is some information on all new build by local authority available in Live Table 253:

http://www.communities.gov.uk/documents/housing/xls/140921.xls

on the CLG website. This information however is incomplete for some local authorities and therefore it is not possible to produce estimates of the proportion that are affordable.

A table has been placed in the House Library showing the number of new affordable homes built in each county by year.

Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much he expects the Homes and Communities Agency to reclaim from registered social landlords under the Recycled Capital Grant Receipts Programme in each of the next three years; [292457]

(2) what the total level of *(a)* expired and *(b)* current Recycled Capital Grant Receipts Programme funding unclaimed by the Homes and Communities Agency was in (i) each of the last 12 quarters and (ii) the latest period for which figures are available; [292458]

(3) what the monetary value of reclamations made by the Homes and Communities Agency through the Recycled Capital Grant Receipts Programme was in each of the last 12 quarters. [292459]

John Healey: The following table shows the amount held in the Recycled Capital Grant Fund at the end of the last three financial years and the total the amount which had been held for over three years. Figures are only available by year.

£ million

As at 31 March:	*RCGF closing balance*	*Of which: Over three years old*
2007	418	0.9
2008	493	0.6
2009[1]	496	1.8

[1] Figures for year ending 31 March 2009 are provisional.

Source:
Homes and Communities Agency

Where deposits in the Recycled Capital Grant Fund are older than three years, the Homes and Communities Agency may grant an extension for their use past the three year recovery date.

The total amounts reclaimed by the Homes and Communities Agency from the Recycled Capital Grant Fund by quarter for the past three years are shown in the following table:

	£
2006-07	
Q1	384,500
Q2	1,215,428
Q3	576,292
Q4	730,539
2007-08	
Q1	240,116
Q2	729,747
Q3	186,618
Q4	600,000
2008-09	
Q1	0
Q2	683,643
Q3	124,916
Q4	0

Source:
Homes and Communities Agency

There are no future estimates of amounts that may be reclaimed by the Homes and Communities Agency from the Recycled Capital Grant Fund.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many bids for capital funding were received by the Homes and Communities Agency from *(a)* local authorities, *(b)* registered social landlords and *(c)* private housebuilders in each of the last three years; what the monetary value of bids in each category was; how many housing units this represented; and how many applications (i) were accepted, (ii) were rejected and (iii) are awaiting a decision. [292466]

John Healey: The Homes and Communities Agency (HCA) was established on 1 December 2008. From that date to the end of the 2008-09 financial year, 5,674 bids for capital funding were recorded as received by the HCA; two from *(a)* local authorities, 3,887 from *(b)* registered social landlords and 1,805 from *(c)* unregistered bodies (including but not exclusively private housebuilders). Bids from *(a)* local authorities amounted to £4 million and 85 housing units[1]; from *(b)* registered social landlords amounted to £3,505.5 million and 49,200 units; and from *(c)* unregistered bodies amounted to £652.7 million and 16,400 units.

As at the end of March 2009, 3,126 bids had been accepted, 503 rejected and 2,065 were pending.

[1] "Housing units" will include bedspaces and bedrooms in the case of the Places of Change programme, which funds hostel accommodation.

Housing: Sustainable Development

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many revisions have been made to the Code of Sustainable Homes since it was first published; and when the most recent version of the document was published. [292354]

Mr. Ian Austin: The Code for Sustainable Homes (the Code) was introduced in England in April 2007 as a voluntary national standard for the design and construction of new sustainable homes. The Code Technical Guidance, which sets out the Code Standards was produced for the Code's launch in April 2007. There is a requirement for ongoing revision and updates to this guidance at appropriate points to reflect changes in Building and other regulations, to clarify language and to respond to feedback from the construction industry and other stakeholders.

All changes to date have been made with the involvement of stakeholders including house builders, product manufacturers, etc and considered by the Code Technical Guide Advisory Group. Published versions of the Code are April 2007, October 2007, April 2008, October 2008 and May 2009. As the Code Standard becomes more established and understanding of how to build sustainable homes improves, there will be less frequent updates. Communities and Local Government is continuing to engage its stakeholders in this process.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether power showers are permitted to be installed in homes which meet the requirements of level 6 of the Code for Sustainable Homes. [292726]

Mr. Ian Austin: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 3 February 2009, *Official Report*, column 1114SW.

Local Government Services: Elderly

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what financial obligations will apply to local authorities in relation to plans for a National Care Service and free personal care for the elderly. [292587]

Phil Hope: I have been asked to reply.

The Care and Support Green Paper "Shaping the Future of Care Together" contains two options around the extent of the responsibilities of local authorities and national Government in allocating funds for the National Care Service. We are currently consulting on the design of the new National Care Service. No decisions will be taken until this process is complete.

The Prime Minister's announcement of free personal care in the home for those with the highest needs will be funded from reprioritised central budgets, and local authorities will reprioritise and use savings from efficiency measures. We will be working with stakeholders to make sure other services are not affected.

Local Government: Executives

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what terms of reference were given to the Audit Commission in its investigation of the regulation of financial agreements between local authorities and chief executives who leave before the end of the term of their contract. [292869]

Barbara Follett: The Audit Commission has been asked to research pay-offs for senior local authority employees and their subsequent re-employment by another authority. It is for the Audit Commission to determine any terms of reference.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many households accepted an offer to purchase their home through the Mortgage Rescue Scheme in *(a)* July and *(b)* August 2009; [292467]

(2) how many households received an offer to purchase their home from a registered social landlord in *(a)* July and *(b)* August 2009; [292468]

(3) how many households applied for the Mortgage Rescue Scheme in *(a)* July and *(b)* August 2009; [292469]

(4) from how many households having difficulties paying their mortgage local authorities received approaches in *(a)* July and *(b)* August 2009; and what proportion of such approaches were made by households (i) at risk of repossession and (ii) in a priority need category. [292470]

John Healey: We have acted rapidly to put in place a range of help and support for households struggling with their mortgage at every stage, and launched a campaign to ensure households have clear information about the help available.

Mortgage rescue scheme summary monitoring statistics are published on a quarterly basis on the Department's website. Figures can be assessed using the following link:

http://www.communities.gov.uk/publications/corporate/statistics/mortgagerescuestatistics

We will be publishing headline data for the July to September quarter 2009 on 12 November 2009, as pre-announced on the UK Statistics Authority Publication Hub and the Department's statistical release schedule.

Multiple Occupation: Licensing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many local authorities have *(a)* applied for and *(b)* been granted (i) additional and (ii) selective licensing powers for houses in multiple occupation. [292355]

Mr. Ian Austin: Six local authorities have applied for additional licensing schemes for houses in multiple occupation (HMO). The Department has approved three schemes in the following two local authority areas; London borough of Hounslow (two schemes) and Peterborough borough council.

13 local authorities have applied for selective licensing schemes to cover all private rented properties within certain designated areas. The Department has to date approved 16 schemes in the following 11 local authority areas; Salford city council (two schemes), Middlesbrough borough council, Manchester city council (three schemes), Gateshead borough council (two schemes), Sedgefield borough council, Burnley borough council, Bolton borough council, Blackburn with Darwen borough council (two schemes), Easington district council, Hartlepool borough council and Leeds city council.

Newcastle Gateshead Housing Marketing Pathfinder

Jim Cousins: To ask the Secretary of State for Communities and Local Government how much the Newcastle Gateshead Housing Marketing Pathfinder spent on plan and strategy preparation in the North Central area of Newcastle; and how much of that sum was recharged to the Pathfinder in respect of Newcastle City Council staff engaged in plan and strategy preparation. [292953]

John Healey: Detailed financial information on HMR Pathfinder activity is not collected centrally.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what conditions small firms will be required to meet in order to be eligible for small business rate relief from April 2010. [292818]

Barbara Follett: The Small Business Rate Relief (SBRR) scheme will remain the same except that from 1 April 2010 the thresholds will change. An order to bring the changes into effect will be laid before the House in due course.

Business ratepayers will have to fulfil two criteria to receive SBRR:

the sole or main property that they are occupying must have a rateable value under £17,999 (£25,499 for those in Greater London); and

if they occupy any additional properties, each of the additional properties must have a rateable value of no more than £2,599,and the total rateable value of all of the properties must be less than £17,999 (£25,499 in Greater London).

Eligible ratepayers with a rateable value of £6,000 or below will receive 50 per cent. relief.

Eligible ratepayers with a rateable value between £6,001 and £12,000 will receive relief on a sliding scale 50 per cent. to 0 per cent., where every £120 rateable value equates to 1 per cent.

Eligible ratepayers with a rateable value between £12,000 and £17,999 (£25,499 in Greater London) will have their rates liability calculated using the small business non-domestic rating multiplier.

We are proposing to remove the present requirement that ratepayers must reapply for SBRR at the 2010 revaluation.

Non-Domestic Rates: Car Boot Sales

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency takes into account car boot sales that take place on a premises when rating a property for the 2010 rates revaluation. [292645]

Barbara Follett: The rateable value of a property represents its rental value in its current use. Where a property is used entirely, or on occasion, as a car boot sale site its rateable value for the 2010 revaluation should reflect any rental enhancement attributable to that use.

Non-Domestic Rates: Greater London

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 3 June 2009, *Official Report*, column 590W, on non-domestic rates: Greater London, if he will place in the Library a copy of the Valuation Office Agency's document, Review of sub-location codes. [292850]

Barbara Follett: A copy of the relevant section of the guidance note has already been placed in the Library.

Non-Domestic Rates: Licensed Premises

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the provision of televisions showing Sky programmes by licensed premises is deemed to be a material condition that increases the premises' rateable value in respect of the Valuation Office Agency's 2010 rates revaluation. [292640]

Barbara Follett: Valuation officers will consider the presence of Sky TV and other forms of entertainment on offer as part of a wider consideration of all factors that may impact on the trading potential of a public house.

Rental values are determined in the market according to the trading potential of a pub on the assumption it is run by a reasonably efficient operator, who responds to the normal trading practices and competition of the locality in which the property is situated. Valuation officers are required to make a similar judgement when assessing public houses for business rates purposes.

This method of valuation is agreed with the industry and is a tried and tested way of valuing public houses.

Non-Domestic Rates: Ports

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what representations his Department has received on the effect of retrospective business rates on ports in Southampton. [292574]

Barbara Follett: The Department for Communities and Local Government has received no representations on the effect of retrospective business rates specific to the port of Southampton.

Non-Domestic Rates: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 March 2009, *Official Report*, column 495W, on non-domestic rates: valuation, how many sub-locations have been classified in each local billing authority or similar administrative area used by the Valuation Office Agency. [292857]

Barbara Follett: I refer the hon. Member to the answer given to the hon. Member for Welwyn Hatfield (Grant Shapps) on 19 November 2008, *Official Report*, column 512W.

Planning Permission

Robert Neill: To ask the Secretary of State for Communities and Local Government whether the erection of tree houses require planning permission; and what changes have been made to the planning requirements for tree houses since May 1997. [289730]

Mr. Ian Austin: Recent media coverage suggesting that all tree houses need full planning permission is wrong. If a tree house does not constitute development as defined under the Town and Country Planning Act 1990, no planning permission would be required.

Even in cases where a tree house is defined as development, household permitted development rights introduced in October 2008 should mean it will still be classified as permitted development and will not require planning permission.

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will issue guidance to local authorities on the recourse which unsuccessful applicants may have to the courts under the new arrangements for local authority charges for pre-application planning advice. [290480]

Mr. Ian Austin: Local authorities have the power to charge for discretionary services under Section 93 of the Local Government Act 2003. Some authorities choose to charge for pre-application planning advice but under Section 93 any charge must be on a not-for-profit basis so over a year the income from charges for such services must not exceed the cost for providing them.

Where a person who has paid a discretionary service and is dissatisfied with the service provided by the local planning authority they may make a complaint to the Local Government Ombudsman.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his Department's policy is on the precautionary principle in relation to planning policy. [292881]

Mr. Ian Austin: The Government's overall planning policy principles are contained in Planning Policy Statement 1 (PPS1): Delivering Sustainable Development.

Planning Permission: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 March 2009, *Official Report*, column 497W, on planning permission: fees and charges, if he will review the mineral extraction rate fees levied on the construction of fishing lakes. [292858]

Mr. Ian Austin: I have nothing further to add.

Private Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much the Homes and Communities Agency has paid to DTZ for advice in relation to the Private Rented Sector Initiative; [292473]

(2) which organisations have submitted expressions of interest to the Homes and Communities Agency in respect of its Private Rented Sector Initiative; [292474]

(3) how many expressions of interest the Homes and Communities Agency received in relation to its Private Rented Sector Initiative; and by what date he expects the Agency to have evaluated the submissions. [292475]

John Healey: Up to August 2009, the HCA has authorised payment of £163,000 to DTZ for advice and support for the engagement with the numerous private organisations which have expressed interest in the private rental sector initiative. The engagement was carried under the HCA's property panel framework contract which was competitively tendered. A further assignment of up to £70,000 for further consultancy between August and November has also been agreed between HCA and DTZ.

Our priority has been to encourage new long term institutional and other equity investors into the private rental sector. The HCA has therefore continued to work with several consortiums on the future potential of this sector of the housing market. Two investment interests have declared themselves publicly in the market to date—Aviva Investors with CBRE and Legal and General.

The HCA received 64 expressions of interest from organisations interested in the private rental sector initiative. They included developers, land and property owners, management companies, housing associations and investors in this country and abroad. The HCA is now focusing on its discussions with a small number of major investment consortia which have since come together to look at the future of this new market opportunity.

Public Bodies: Executives

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's consultation document, Amending the Accounts and Audit Regulations 2003 (S.I., 2003, No. 533) to improve the transparency of reporting of remuneration of senior officials in public bodies, which *(a)* organisations and *(b)* individuals to the consultation, excluding those who requested confidentiality. [292848]

Barbara Follett: A summary of the responses to the Consultation document Amending the Accounts and Audit Regulations 2003 (S.I. 2003, No 533) will be published on 20 October 2009. It will also provide a full list of those who have submitted written responses but exclude those who have requested confidentiality.

Regional Government: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimates were made of the *(a)* cost and *(b)* staffing complement of the proposed elected regional assemblies prior to the 2004 regional assembly referendum. [293353]

Mr. Ian Austin: The White Paper "Your Region, Your Choice: Revitalising the English Regions" published on 22 May 2002 estimated that the cost of each of the proposed elected regional assemblies would be in the order of £25 million a year with a staffing complement of around 200, excluding staff working for the regional development agency.

A copy of the White Paper can be found at:

http://www.communities.gov.uk/archived/generalcontent/citiesandregions/publicationscities/regionalpublications/regionswhitepaper/yourregionyourchoice/

Right to Buy Scheme

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many Right to Buy applications were made by social housing tenants in each region in each year since 1997; and what percentage were accepted in each year. [292472]

John Healey: Figures showing the number of local authority Right to Buy applications and the number of successful applications are included in Live Table 648 on the CLG website, broken down by region and year, from 1998-99:

http://www.communities.gov.uk/documents/housing/xls/1319863.xls

The local authority Right to Buy data are from quarterly P1B returns from local authorities to CLG. The figures only cover applications to buy local authority properties through RTB, not registered social landlord applications. Around 80 per cent. of RTB sales in 2007-08 were local authority properties, while 20 per cent. are of properties owned by Registered Social Landlords.

BUSINESS, INNOVATION AND SKILLS

Bilderberg Group

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills for what reason the Secretary of State has not registered with the appropriate authorities his visit to the Bilderberg Conference in Greece in May 2009. [292958]

Mr. McFadden: My noble Friend the Secretary of State did register the visit: he notified the permanent secretary. The estimated value of the hospitality received did not meet the threshold for declaration in the Register of Lords' Interests.

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills if the Secretary of State will estimate the cost of the hospitality he received pursuant to his attendance at the Bilderberg Conference in Greece in May 2009, classified by *(a)* hotel accommodation, *(b)* food and drink, *(c)* travel and *(d)* other hospitality. [292959]

Mr. McFadden: My noble Friend the Secretary of State received accommodation and meals over two nights, the costs of which were estimated against commercial rates for that time of year at the hotel in question, at around £600.

Departmental Travel

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department and its predecessors spent on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurant meals for (i) Ministers and (ii) staff of his Department in each of the last five years. [290062]

Mr. McFadden: Travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Service Management Code, and all spending on official entertainment is made in accordance with the principles set out in Managing Public Money.

For the period 2007-08 the Department for Business, Enterprise and Regulatory Reform spent:

(a) Car hire—£26,333

(b) Rail—£1,810,648

(c) Air—£3,218,829

(d) Hotels—£1,051,965.

For the period 2008-09 the Department for Business, Enterprise and Regulatory Reform spent:

(a) Car hire—£33,200

(b) Rail—£2,091,383

(c) Air—£3,265,937

(d) Hotels—£1,769,921.

Details of restaurant meals are not centrally recorded.

For the period 2007-08 the Department for Innovation, Universities and Skills spent:

(a) Rail—£1,055,224

(b) Air—£148,942

(c) Hotels—£106,608.

For the period 2008-09 the Department for Innovation, Universities and Skills spent:

(a) Rail—£1,345,200

(b) Air—£135,886

(c) Hotels—£256,885.

Details of car hire are included with figures for the Department for Children, Schools and Families and are not available individually.

The Department does not centrally record the travel undertaken by Ministers from that of officials; details of the previous years are not centrally recorded and to provide this information would entail disproportionate costs.

Cabinet Office provides an annual list of overseas travel over £500 undertaken by Ministers. The 2008-09 list was published on 16 July 2009 and can be viewed at:

http://www.cabinetoffice.gov.uk/propriety and ethics/ministers/travel_gifts.aspx

Employment: Information and Communications Technology

Willie Rennie: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment his Department has made of the effects on the UK skills base of the outsourcing of information technology jobs overseas. [292956]

Mr. Timms: The Department has made no recent assessment, but outsourcing is only one of many factors affecting demand for IT professionals within the UK. We also recognise that there are circumstances in which it makes financial and wider business sense for UK companies to outsource an IT service. Globalisation is radically changing the digital skills needed in the UK and around the world, and the challenge for UK IT services providers is to remain competitive by moving up the value chain.

The IT services sector remains key to the UK's future prosperity—a fact recognised in the Government's "New Industry, New Jobs" and "Digital Britain" strategy documents, with the latter including recommendations for the development of a skilled and confident population, able to access and benefit from digital technology. e-skills UK, the Sector Skills Council for Business and Information Technology, is working hard to ensure that the UK has the skills for Britain to succeed in a global digital economy.

EU Law

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the cost to his Department and its predecessors of the statutory obligations upon it provided for in legislation on matters for which it is responsible which were introduced as a consequence of obligations arising from EU legislation in the most recent 12 months for which figures are available. [283478]

Mr. McFadden: I refer the hon. Member to the answer given to his previous similar parliamentary question on 21 July 2009, *Official Report*, column 1708W.

Holiday Accommodation: Taxation

Mr. Weir: To ask the Minister of State, Department for Business, Innovation and Skills what discussions he has had with HM Treasury on the effect of the abolition of furnished holiday lettings relief on the tourism industry. [293436]

Mr. McFadden: Tax policy is a matter for Treasury. However, my officials are in regular dialogue with Treasury colleagues on a wide range of tax matters that impact on businesses, including the withdrawal of furnished holiday lettings relief.

Lord Sugar

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills with reference to paragraph 7.16 of the Ministerial Code, whether Lord Sugar has consulted the Law Officers in relation to his proposed legal action against a *Daily Mail* journalist. [293014]

Mr. McFadden: Lord Sugar is not a Minister of the Crown.

Strategic Investment Fund

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many applications have been *(a)* received and *(b)* granted for funding from the Strategic Investment Fund in each month since April 2009; [292114]

(2) how many applications have been *(a)* received and *(b)* granted for the funding from the £50 million portion of the Strategic Investment Fund allocated to support business innovation to date; [292113]

(3) how many applications have been *(a)* received and *(b)* granted for the funding from the £250 million portion of the Strategic Investment Fund allocated to support renewable energy projects and low-carbon business opportunities to date; [292112]

(4) how much and what proportion of funding available from the Strategic Investment Fund has been distributed since April 2009; [292111]

(5) how much of the portion of the Strategic Investment Fund allocated for business innovation support has been distributed since April 2009; [291904]

(6) how much of the portion of the Strategic Investment Fund allocated to support renewable energy projects and low-carbon business opportunities has been distributed since April 2009. [291903]

Mr. McFadden *[holding answer 12 October 2009]:* Over £720 million of the £750 million within the Strategic Investment Fund has already been allocated, or is earmarked for specific projects and investments. The SIF is not a fund that is open directly to companies. It is a resource that the Government are using to increase investment through existing measures—like collaborative Research and Development grants, Launch Investment for aerospace and regional Grants for Business Investment—as well as new measures such as the UK Innovation Investment Fund. Our extra support for business is delivered through these measures, not directly from the SIF. Businesses do not therefore make applications for funding from the SIF, nor do they receive funding directly from it.

We expect to spend about £200 million of the SIF by the end of this current financial year. By way of example of the projects supported, in the area of business innovation, the Technology Strategy Board has used £50 million of additional funding from the SIF to expand the scale of its ambition for a number of activities. For example, funding from the SIF, supplemented by its core funding, has been committed to projects funded under the £25 million Low Carbon Vehicle demonstrator programme. Calls worth £6 million for research have also recently opened in the area of 'Regenerative Medicine', 'High Value Manufacturing' and 'Enabling Technologies for the Internet, Applications and Services' utilising SIF funds.

The Department has published an update on the Strategic Investment Fund, and copies will be placed in the Libraries of the House.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families how much each London borough has received in capital funding under the Building Schools for the Future programme; and if he will make a statement. [293045]

Mr. Coaker: The following table shows the total payments of capital grant made to each London borough as part of the Building Schools for the Future programme to the end of financial year 2008-09.

The figures are on cash paid basis during the year, and form part of much larger allocation figures which extend over a period of years. They do not include academies delivered through the National Framework.

Total capital grant paid to end 2008-09

Local authority	*£ million*
Greenwich	28.2
Lewisham	9.7
Newham	37.7
Waltham Forest	28.6
Hackney	30.2
Haringey	52.8
Islington	18.8
Lambeth	70.7
Tower Hamlets	13.3
Southwark	33.8
Westminster	50.2
Barking and Dagenham	0.1
Ealing	0.05
Kensington and Chelsea	0.05
Enfield	0.05
Total	374.2

Business: Secondary Education

Ann Winterton: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of his Department's scheme to provide funding to schools at Key Stage 4 for Enterprise Education. [293153]

Mr. Iain Wright: A survey by the then Qualification and Curriculum Authority in 2007 showed that over 90 per cent. of secondary schools provide enterprise education for all their pupils at Key Stage 4. In 2004, fewer than half did. I am aware that many schools also offer enterprise learning activities to their Key Stage 3 students. Increasing numbers of primary schools are running activities to develop the enterprise capabilities of their pupils. To assist pupils, secondary schools receive £55 million each year for enterprise education at Key Stage 4, as part of their School Development Grant.

To gain a more detailed and up to date assessment, my Department has commissioned a review of enterprise education which will report in early 2010.

Ann Winterton: To ask the Secretary of State for Children, Schools and Families what criteria are used for allocating funding to schools at key stage 4 for Enterprise Education; and how much was allocated on average per *(a)* school and *(b)* pupil in the latest period for which figures are available. [293154]

Mr. Iain Wright: The £55 million grant for enterprise learning was allocated to schools in 2005-06, 90 per cent. on the basis of the numbers of pupils aged 14-16, and 10 per cent. by the number of those pupils eligible for Free School Meals. This was an average of £17,000 per secondary school.

Since 2006-2007 the funding has been part of School Development Grant (SDG). If a school received an allocation for Enterprise Learning in 2005-2006, that allocation will have formed part of its guaranteed SDG per pupil funding since 2006. Local authorities remind schools of this when allocating the grant, so that schools are aware the funding for these activities continues to be available. Schools are free to spend their SDG on any purpose to support the raising of standards of teaching and learning, including enterprise learning.

Children in Care: Education

Justine Greening: To ask the Secretary of State for Children, Schools and Families what the stated aim of the Virtual School Head Pilot is; how much funding for the pilot has been *(a)* distributed to each local authority and *(b)* subsequently spent by each authority in each year since the pilot's inception; and how much will be distributed in the next two years. [292078]

Dawn Primarolo: The virtual school head pilots ran for two academic years from September 2007 to August 2009 in 11 local authorities in England. They were designed to test the impact of having a senior local authority officer to champion the needs of all looked after children being educated in the area as if they attended a single school and to emphasise the importance of social workers and schools promoting the educational achievement of this vulnerable group.

The funding provided for each of the pilot authorities was provided over three financial years and was based on numbers of looked after children in each authority. The allocations are set out in the table.

			£
Local authority	*2007-08*	*2008-09*	*2009-10*
Bournemouth	49,000	57,500	23,000
Cambridgeshire	60,000	70,000	26,000
Dudley	62,000	75,000	27,000
Gateshead	54,000	66,500	24,500
Greenwich	65,000	78,000	27,000
Merton	47,000	55,000	22,000
Norfolk	78,000	94,500	31,000
Salford	67,000	[illegible]	27,500
Stockport	55,000	67,500	24,500
Walsall	62,000	73,000	26,500
Warwickshire	62,000	74,500	27,000

The Government have provided over £140 million through the Area Based Grant across all local authorities for the current spending review period to implement the proposals set out in Care Matters, including in relation to the development of the virtual school head model. Local authorities in the pilot may also have used some of their additional resources or other local resources to support the development of their Virtual School Head pilot.

Justine Greening: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of introduction of the Virtual School Head Pilot on the percentage of children in care who achieve five GCSEs at grades A*-C in each year since the grant began; and what estimate he has made of the effect of the grant in this respect in the next two years. [292079]

Dawn Primarolo: An independent evaluation of the virtual school head pilot, which ran from September 2007 to August 2009, undertaken by the university of Bristol was published in August 2009. A copy of the report can be downloaded at:

http://www.dcsf.gov.uk/research/data/uploadfiles/DCSF-RR144.pdf

The research states that:

> "analysis of official educational outcome statistics showed that, over the period of the pilots, the 11 authorities performed well compared to the national average and most showed improvement in GCSE results".

An analysis of education outcomes[1] for looked-after children in the 11 virtual school head pilot local authorities[2] as if they were one region shows that between 2007 and 2008 there was a 3 percentage point increase in the number of children looked after for 12 months who achieved 5 A*-C at GCSE compared to a 1.3 percentage increase nationally. Outcomes for 2009 have not yet been published.

The Department has disseminated the findings of the virtual school head evaluation to embed the most effective elements of the role into practice across every local authority. Together with the new statutory requirement for the governing body of every maintained school to appoint a designated teacher for looked-after children, this provides a strong framework for delivering our national public service agreement targets to narrow the gap in education outcomes for looked-after children achieve in 2011.

Children: Mental Health

Greg Mulholland: To ask the Secretary of State for Children, Schools and Families what steps he has taken to increase awareness in schools of mental health problems among children. [292907]

Dawn Primarolo: As the key universal service for children, schools play an important role in the promotion of better emotional health and resilience and early intervention where mental health problems may arise. There are a number of programmes in schools that increase awareness of mental health issues for children and young people. These include the Healthy Schools Programme and Targeted Mental Health in Schools.

The Healthy Schools Programme requires schools to have policies and practices in place to support emotional health and wellbeing, including identifying children at risk of experiencing behavioural, emotional or social difficulties. Currently 99 per cent. of schools in England are working towards or have achieved Healthy School status.

The Targeted Mental Health in Schools (TaMHS) programme is developing models of mental health support in schools for those children, young people and their families who need it most.

The project includes training for school staff to equip them with the knowledge and ability to identify problems early, to work with and support children and young people at risk of experiencing mental health problems and to refer them to appropriate mental health professionals, as necessary. It also provides mental health awareness and promotion for children, young people and families. Funded by £60 million between 2008 and 2011, the programme is currently operating in 80 local authorities. From September 2010 TaMHS will be operating in clusters of schools in all areas.

There are other school based programmes that also promote better emotional wellbeing. Social and Emotional Aspects of Learning (SEAL) is a comprehensive voluntary programme to develop the social and emotional skills of all pupils, while the new personal wellbeing programme of study within Personal, Social, Health and Economic (PSHE) education includes a specific focus on issues relating to emotional wellbeing and mental health.

Horse Riding: Education

Mr. Swire: To ask the Secretary of State for Children, Schools and Families what representations he has received from riding schools on the operation of *(a)* the Children and Young Persons Act 1933 and *(b)* the Children (Protection at Work) Regulations 1988. [292406]

Dawn Primarolo: According to our records the Secretary of State for Children, Schools and Families has received no such representations.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Children, Schools and Families when the Minister of State will reply to the letter from the hon. Member for West Worcestershire, dated 6 June 2009 on child protection. [289865]

Dawn Primarolo: A reply to the hon. Member's letter regarding the proposals put forward by the Baby P Legacy Group was sent on 12 August 2009.

Pupils: Per Capita Costs

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families what the per pupil funding for *(a)* primary and *(b)* secondary school children in each London borough was in each of the last five years. [293046]

Mr. Coaker: The per pupil revenue funding figures for primary and secondary school pupils for each London local authority in 2004-05 and 2005-06 are as follows. These figures are in real terms:

---

[1] Outcomes Indicators for Children Looked After, 12 months to 30 September 2008, England.

[2] Bournemouth, Cambridgeshire, Dudley, Gateshead, Greenwich, Merton, Norfolk, Salford, Stockport, Walsall, Warwickshire.

Real terms revenue funding per pupil—EFS plus grants

£

		2004-05		2005-06

Notes

1. Price Base: Real terms at 2008-09 prices, based on GDP deflators as at 30 June 2009.
2. Figures reflect relevant sub-blocks of Education Formula Spending (EFS) settlements and include the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DFES Departmental Expenditure Limits relevant to pupils aged 3-15 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.

The revenue per pupil figures shown in the following table are taken from the new Dedicated Schools Grant (DSG). They are not comparable with those for the years 2004-05 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 2004-05 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG is based largely on an authority's previous spending. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.

The per pupil revenue funding figures for years 2005-06 (baseline) to 2008-09 for each London local authority are provided in the following table. As the DSG is a mechanism for distributing funding, a split between primary and secondary schools is not available.

The following figures are for all funded pupils aged 3-19 and are in real terms:

Real terms revenue funding per pupil—DSG plus grants

£

		All pupils aged 3-19			
		2005-06 (Baseline)	*2006-07*	*2007-08*	*2008-09*
301	Barking and Dagenham	4,940	4,940	5,230	5,270
302	Barnet	4,790	4,960	5,120	5,200

Real terms revenue funding per pupil—DSG plus grants

£

		All pupils aged 3-19			
		2005-06 (Baseline)	*2006-07*	*2007-08*	*2008-09*
303	Bexley	4,390	4,490	4,650	4,730
304	Brent	5,190	5,320	5,570	5,700
305	Bromley	4,220	4,330	4,500	4,590
202	Camden	6,550	6,670	6,880	6,910
306	Croydon	4,470	4,640	4,840	4,910
307	Ealing	5,180	5,330	5,520	5,620
308	Enfield	4,750	4,890	5,060	5,100
203	Greenwich	5,640	5,900	6,110	6,260
204	Hackney	6,480	6,890	7,050	7,250
205	Hammersmith and Fulham	6,030	6,310	6,530	6,490
309	Haringey	5,540	5,620	5,830	5,940
310	Harrow	4,570	4,780	4,950	5,170
311	Havering	4,350	4,440	4,590	4,670
312	Hillingdon	4,600	4,770	4,920	4,990
313	Hounslow	4,990	5,160	5,320	5,380
206	Islington	6,110	6,410	6,690	6,660
207	Kensington and Chelsea	6,400	6,460	6,590	6,530
314	Kingston upon Thames	4,540	4,650	4,780	4,850
208	Lambeth	6,160	6,370	6,600	6,780
209	Lewisham	5,890	6,110	6,290	6,330
315	Merton	4,530	4,800	4,950	5,010
316	Newham	5,340	5,620	5,850	5,970
317	Redbridge	4,380	4,560	4,750	4,820
318	Richmond upon Thames	4,420	4,540	4,670	4,750
210	Southwark	5,970	6,410	6,620	6,650
319	Sutton	4,480	4,570	4,730	4,810
211	Tower Hamlets	6,650	6,990	7,250	7,350
320	Waltham Forest	4,950	5,160	5,320	5,330
212	Wandsworth	5,410	5,630	5,860	5,980
213	Westminster	5,520	6,010	6,290	6,260

Notes:

1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards; Grant (Personalisation) and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which Ere not allocated at LA level.

2. Price Base: Real terms at 2008-09 prices, based on GDP deflators as at 30 June 2009 3. These figures are for all funded pupils aged 3-19

4. Figures have been rounded to the nearest £10.

5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Sure Start Programme: West Midlands

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many additional Sure Start centres are planned to be opened in *(a)* Staffordshire and *(b)* the West Midlands in the next three years. [illegible]

Dawn Primarolo: Staffordshire county council currently has 43 Sure Start Children's Centres offering services to approximately 36,100 children, with an additional 13 planned to be delivered. West Midlands currently has 331 centres reaching 285,300 children with a further 48 planned. All centres are planned to be delivered by March 2010 in order to provide universal coverage of children's centre services for children under five and their families.

ENERGY AND CLIMATE CHANGE

Carbon Emissions

Mr. Wallace: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to monitor the effects of climate emission reduction targets on levels of carbon dioxide emissions. [289805]

Joan Ruddock: The Department monitors UK greenhouse gas emissions by way of our greenhouse gas inventory. The inventory is reviewed each year and the full dataset revised to incorporate methodological improvements and new data. The most recent results were published on 3 February 2009. These show UK greenhouse gas emissions in 2007 by source sector for each gas. The 2007 publication shows carbon dioxide (CO_2) emissions have reduced by 8.5 per cent. (50.3 Mt CO_2) since 1990, and by 1.6 per cent. (9 Mt CO_2) since 1997. CO_2 is the main greenhouse gas, accounting for 85.3 per cent. of total UK greenhouse gas emissions in 2007.

In March 2009, DECC published the provisional 2008 UK greenhouse gas emissions figures. In 2008, UK emissions of the six greenhouse gases covered by the Kyoto protocol were provisionally estimated to be 623.8 Mt of CO_2 equivalent. This was 2 per cent. lower than the 2007 figure of 636.6 Mt.

In reporting emissions reductions against all of these targets, the UK is able to take account of emissions trading through the European Union emissions trading scheme (EU ETS). Overall, in each one of the three years in phase I, the UK was a net acquirer of allowances. Taking this into account in the context of the UK's reported emissions, this has affected the results by reducing the level of emissions by the amount of EU ETS allowances acquired in the year.

It should be noted that UK and EU targets are for a basket of greenhouse gasses and not just CO_2.

John Mann: To ask the Secretary of State for Energy and Climate Change how many sub-contractors have been contracted to carry out work under the Carbon Emissions Reduction Target scheme. [292032]

Joan Ruddock: This information is not held centrally as it is commercially confidential. The Carbon Emissions Reduction Target is an obligation on gas and electricity suppliers to deliver carbon reduction in GB households. Who the energy suppliers contract to deliver low carbon products in achievement of their targets is at their discretion.

John Mann: To ask the Secretary of State for Energy and Climate Change how many enquiries made to the Carbon Emissions Reduction Target scheme about free insulation for houses have been received; and how many such enquiries led to the installation of free insulation. [292035]

Joan Ruddock: This information is not held centrally. The Carbon Emissions Reduction Target is an obligation on gas and electricity suppliers to deliver carbon reduction in GB households and each supplier will have their own range of promotions, often through a range of delivery routes. This includes work with social housing providers, charities, retailers, contracting directly with insulation installers or through management agents as well as direct marketing.

John Mann: To ask the Secretary of State for Energy and Climate Change how many people have unsuccessfully applied for domestic insulation under the Carbon Emissions Reduction Target scheme. [292036]

Joan Ruddock: This information is not held centrally as it is commercially confidential. The Carbon Emissions Reduction Target is an obligation on gas and electricity suppliers to deliver carbon reduction in GB households. It is at suppliers' discretion which households they deliver measures to in achievement of their targets.

John Mann: To ask the Secretary of State for Energy and Climate Change how many houses in Bassetlaw constituency have been insulated under the Carbon Emissions Reduction Target scheme. [292037]

Joan Ruddock: This information is not held centrally. Under the governing regulations, Government cannot oblige energy suppliers to report on where measures are installed under the Carbon Emissions Reduction Target. However, we are progressing a voluntary agreement with the energy suppliers to this end, which we hope to have in place this year. This will report all CERT insulation data into the Home Energy Efficiency Database held by the Energy Saving Trust, and allow area based analysis.

John Mann: To ask the Secretary of State for Energy and Climate Change how many people have received domestic insulation under the Carbon Emissions Reduction Target scheme. [292038]

Joan Ruddock: From 1 April 2008 to 30th June 2009, 717,646 cavity wall insulation measures, 889,768 professional loft insulation measures and 14,059 solid wall insulation measures were installed under the Carbon Emissions Reduction Target.

Climate Change

Sammy Wilson: To ask the Secretary of State for Energy and Climate Change whether his Department consulted scientists from outside the International Panel on Climate Change prior to publishing the document, Road to Copenhagen. [292448]

Joan Ruddock: The UK Government use the IPCC's findings and those from other reliable scientific sources such as the Hadley Centre to inform the development of UK climate change policy positions and these are reflected throughout the Road to Copenhagen Command Paper.

The Intergovernmental Panel on Climate Change provides the most authoritative perspective on climate change science. Its 4th annual report, published in 2007, was the result of six years of work by more than 1,200 scientists from over 130 countries. The work was reviewed by around 2,500 experts.

Sammy Wilson: To ask the Secretary of State for Energy and Climate Change how many *(a)* Ministers and *(b)* officials of his Department are expected to attend the UN Climate Change Conference in Copenhagen in December 2009; and what recent estimate he has made of the projected carbon footprint resulting from such travel to attend the conference. [292450]

Joan Ruddock: We have not yet determined who will attend from the Department of Energy and Climate Change, so we cannot say with certainty how many Ministers or officials will be on the delegation. This will depend largely on the state of international negotiations at the time of the conference.

Without knowing the size of our delegation, it is impossible to project our carbon footprint, however, we are taking steps proactively to minimise the delegation's impact on the environment.

DECC offset all emissions from international flights.

In addition to flying, we are researching low-carbon methods of transport, i.e. rail and ferry, to allow delegates to minimise their emissions in travelling to Copenhagen.

We are also researching materials and practices we can employ at the conference to minimise our impact on the environment. Internal experts are advising on possible innovations to improve the green-ness of the UK delegation.

The Danish Government are keen to make COP 15 the greenest COP so far, and so they are providing free public transport and showcasing a host of environmentally friendly vehicles. We will be taking full advantage of this to minimise our daily carbon footprint.

Climate Change: Research

Lynne Jones: To ask the Secretary of State for Energy and Climate Change what research into geoengineering techniques for the purpose of combating climate change his Department has funded in the last 12 months. [292047]

Joan Ruddock: During the last 12 months, DECC has funded a small amount of modelling work into the environmental consequences of several geo-engineering options, including injecting sulphate aerosols into the stratosphere and encouraging low level cloud development to increase regional reflectivity.

Coal: Industrial Health and Safety

John Mann: To ask the Secretary of State for Energy and Climate Change how many crossover claims under the coal health compensation scheme have been made by each of the 50 solicitors' firms which have made the highest number of such claims. [292009]

Mr. Kidney: The number of claims under the coal health compensation schemes submitted by the 50 highest claimants' representative that had the crossover issues is shown in the following table as at 4 October 2009.

Claimants' representatives	*Location*	*Claims with crossover issues*
Thompsons Solicitors	Newcastle Upon Tyne	1,330
Thompsons Solicitors	Edinburgh—Scottish claims only	531
Graysons Solicitors	Sheffield	531
Raleys Solicitors	Barnsley	432
Union of Democratic Mineworkers	Mansfield	397
Hugh James	Respiratory Disease Dept	324
Watson Burton LLP	Newcastle Upon Tyne	290

Departmental Buildings: Renewable Energy

John Mann: To ask the Secretary of State for Energy and Climate Change how many Government buildings use heat generated by *(a)* solar panels and *(b)* ground source heat pumps. [292016]

Joan Ruddock: DECC does not hold information about the number of Government buildings that use heat generated by *(a)* solar panels and *(b)* ground source heat pumps. However, neither of DECC's buildings generate heat using these methods.

Departmental Cars

Andrew Stunell: To ask the Secretary of State for Energy and Climate Change how much his Department spent on hire vehicles in each of the last five financial years. [291611]

Joan Ruddock: The Department of Energy and Climate Change (DECC) came into existence on 3 October 2008. The Department has since spent as follows:

Financial year	*£*
2008-09	11,370
2009-10	75,311

Departmental Personnel

John Mann: To ask the Secretary of State for Energy and Climate Change how many staff there were in his Department *(a)* at its creation and *(b)* on the latest date for which figures are available. [292841]

Joan Ruddock: On 3 October 2008, approximately 800 staff were transferred to the Department of Energy and Climate Change. On 1 September 2009, there were 1,070 staff in the Department.

Devolution: Energy

Mark Williams: To ask the Secretary of State for Energy and Climate Change what recent discussions there have been between officials of his Department, the Wales Office and the Welsh Assembly Government on the devolution to the Welsh Assembly of energy consents above 50MW. [292833]

Mr. Kidney: None. The Government are continuing with their plans to transfer decision making on consent applications for electricity generating stations above 50 MW in England and Wales to the new Infrastructure Planning Commission.

Forests

Lynne Jones: To ask the Secretary of State for Energy and Climate Change what mechanisms are in place to ensure that Reducing Emissions from Deforestation in Developing Countries funding is not used to replace forests with plantations. [292543]

Joan Ruddock: Reducing emissions from deforestation is under discussion as part of the climate change negotiations that will conclude in Copenhagen this December. As part of these talks, safeguards against the conversion of natural forests to plantations are being discussed and we are seeking the strongest possible outcome on this.

Housing: Finance

Robert Neill: To ask the Secretary of State for Energy and Climate Change what recent discussions he has had with the Chancellor of the Exchequer on whether funding allocated to his Department is to be re-allocated to the Department for Communities and Local Government to help implement the housing policies announced in the Draft Legislative Programme for 2009-10. [290485]

Joan Ruddock: My right hon. Friend the Secretary of State has many meetings with my right hon. Friend the Chancellor, where they discuss matters over a wide range of topics.

Written Questions: Government Responses

Mr. Evennett: To ask the Secretary of State for Energy and Climate Change when he expects to provide a substantive reply to question 290929 tabled on 9 September 2009 on compensation payments under the Guaranteed Standards Scheme. [293215]

Mr. Kidney: My hon. Friend the Minister of State for the Department of Energy and Climate Change answered the hon. Member's question on 12 October 2009, *Official Report*, column 468W.

Written Answers to Questions

Thursday 15 October 2009

CHURCH COMMISSIONERS

Bishops

Mark Pritchard: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if the Church Commissioners will take steps to seek to ensure that decisions on future numbers of bishops to be appointed to Church of England dioceses are taken on the basis of the *(a)* size and *(b)* level of pastoral activity of each such diocese. [291996]

Sir Stuart Bell: Under the Dioceses, Pastoral and Mission Measure 2007, questions relating to the number of dioceses and the number of suffragan bishops within dioceses are the responsibility of the Dioceses Commission. Final decisions are taken by the General Synod.

In its work the Dioceses Commission will certainly have regard to the size of dioceses and the level of pastoral activity within them, but there are many other considerations affecting the workload of bishops in individual dioceses that also need to be borne in mind.

Church of England: Finance

Mr. Drew: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what average financial contribution was made to each diocese by each of its parishioners in the most recent year for which figures are available. [291574]

Sir Stuart Bell: In 2007, the last year for which figures are available, the "parish share" contributed to the dioceses annually per church member (as opposed to per "parishioner"), was as follows:

Diocese	*Parish share contributed to diocese per church member (£)*
Bath and Wells	314
Birmingham	326
Blackburn	282
Bradford	461
Bristol	421
Canterbury	362
Carlisle	335
Chelmsford	369
Chester	299
Chichester	281
Coventry	341
Derby	349
Durham	313
Ely	310
Exeter	333
Gloucester	294
Guildford	428
Hereford	286
Leicester	360
Lichfield	339
Lincoln	234
Liverpool	279
London	338
Manchester	299
Newcastle	300
Norwich	379
Oxford	358
Peterborough	365
Portsmouth	302
Ripon and Leeds	406
Rochester	123
St Albans	351
St Edmundsbury and Ipswich	333
Salisbury	306
Sheffield	343
Southwark	414
Southwell and Nottingham	356
Truro	284
Wakefield	343
Winchester	350
Worcester	340
York	298

My hon. Friend will also note that the diocese of Europe is not included (because it does not submit parish finance returns like other dioceses) and nor is the diocese of Sodor and Man (for which the figures are too small to produce a reliable average).

It should also be noted that parish share is not necessarily paid for out of members' voluntary giving. It is, however, the best proxy for the purpose of this Question.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners (1) pursuant to the answer of 7 May 2009, *Official Report*, column 426W, on Church of England: finance, what percentage of the Church of England's running costs was met by the Church Commissioners in each of the last five years; [291847]

(2) pursuant to the answer of 7 May 2009, *Official Report*, column 326W, on Church of England: finance, what exact percentage of the Church of England's running costs was met by the Church Commissioners in each of the last five years. [293182]

Sir Stuart Bell: In the last five years for which whole-Church figures are available, the percentage of the Church's running costs represented by the Church Commissioners' support was as follows:

	Percentage
2002	17
2003	16
2004	16
2005	15
2006	15

Departmental Land

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to the answer of 20 April 2009, *Official Report*, column 40W, on departmental land, (1) what estimate he has made of the itemised cost of establishing how many acres of agricultural land were sold by the Church Commissioners in each year from 2000 to 2008; [291848]

(2) what his estimate is of the cost of establishing how many acres of agricultural land were sold by the Church Commissioners in each year from 2000 to 2008, broken down by cost heading. [293213]

Sir Stuart Bell: This exercise would entail staff consulting at least 220 files, many of which would have to be retrieved from the Commissioners' off-site archive. While I have not made a fully itemised assessment of the cost, I would estimate that the exercise would take approximately 45 man-hours to complete and that the direct cost of this staff time alone would be in the region of £1,500.

The indirect cost of senior professional staff being distracted from their management of the portfolio by such an exercise is, of course, harder to judge.

Departmental Property

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners (1) what the value has been of the capital receipts generated by the Commissioners' Rural Strategic Property portfolio in each of the last five years; [291846]

(2) how much in capital receipts was generated by the Church Commissioners' rural strategic property portfolio in each of the last five years. [293209]

Sir Stuart Bell: The value of the capital receipts generated by the Commissioners' rural strategic property portfolio in each of the last five years was as follows:-

	Value (£ million)
2004	9.4
2005	5.6
2006	11.7
2007	25.9
2008	17.9

David Maclean: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what procedures the Church Commissioners follow to determine the appropriate use for a former see house with a chapel when such a property is considered no longer suitable as an episcopal residence; and what steps the Commissioners take to consult *(a)* local communities and *(b)* diocesan authorities on the future use of such properties. [292048]

Sir Stuart Bell: All see houses are provided with chapels. These chapels vary quite significantly but are private chapels solely for the use of the bishop and his ministry. Given their status as private chapels they usually fall outside the remit of the Pastoral Measure and do not form any specific part of the Commissioners' consultation on the future of a house.

Where the future of any see house is under consideration the Commissioners' policy is to consult widely, including with the diocesan authorities.

LEADER OF THE HOUSE

Written Answers

24. **Mr. Burns:** To ask the Leader of the House what recent assessment she has made of the performance of Government Departments in providing timely answers to parliamentary questions for written answer; and if she will make a statement. [293091]

Barbara Keeley: My right hon. and learned Friend and I keep the quality and timeliness of Ministers' answers to written parliamentary questions under continuous review. We are happy to make representations on behalf of Members' to Departments. The hon. Gentleman will be aware of the publication of the Procedure Committee report on written parliamentary questions; the Government will respond to this very soon.

ELECTORAL COMMISSION COMMITTEE

Political Parties and Elections Bill

Mr. Gordon Prentice: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission what assessment the Electoral Commission has made of the workability of the provisions in the Political Parties and Elections Bill on donors who are not resident in the UK for tax purposes. [293066]

Mr. Streeter: The Electoral Commission informs me that it considered the workability of these provisions when the Political Parties and Elections Bill was before Parliament, and set out its views in its briefing notes at that time. The notes are available on the Commission's website:

www.electoralcommission.org.uk

and copies have been placed in the House of Commons Library.

In summary, the Commission's view was that the provisions finally incorporated in the Act addressed some of its concerns about previous amendments. In particular, the provisions clarified the obligations of those receiving donations that require a declaration from the donor about tax status. However, the Commission said that it would be helpful if the Government could explain the steps that recipients should take if they doubt the accuracy of a declaration, and clarify how donations should be aggregated for the purpose of establishing whether a declaration is required.

In terms of enforcement of the new provisions, the Commission informs me that it would expect to pass on any allegation that an individual had made a false declaration about their tax status to the police or another appropriate authority.

TRANSPORT

Crossrail Line: Finance

Norman Baker: To ask the Minister of State, Department for Transport how much has been *(a)* spent on and *(b)* committed to the Crossrail project by (i) the Government and (ii) the private sector; and what estimate he has made of the proportion of the final cost of the project each such figure represents. [293275]

Mr. Khan: Crossrail Ltd. (CRL) is delivering Crossrail on behalf of both Project Sponsors (the Department for Transport and Transport for London) and has spent £401 million in relation to the construction of Crossrail (excluding recoverable VAT on land and property purchases) since the granting of Royal Assent on 22 July 2008. In line with undertakings given to the House, expenditure from this date is reported annually, and I refer the hon. Member to the first of these statements, made to the House on 16 July 2009, *Official Report*, columns 80-81WS.

The profile of direct expenditure by private sector partners is a commercial matter for those partners.

The Crossrail funding package, announced by the Prime Minister in October 2007, is designed to strike a fair balance in securing financial contributions from all those who will benefit from the scheme—Government, businesses and passengers.

Central Government, through the Department for Transport, have committed £5.1 billion of direct funding to Crossrail, which amounts to approximately one third of the funding package, in line with the estimated costs of construction of £15.9 billion.

Private sector commitments to Crossrail include a number of commercial agreements with private sector companies to provide contributions to Crossrail, given the benefits which will flow to businesses as a result of the scheme.

These include agreements with Canary Wharf Group, City of London, Berkeley Homes Group and BAA, as well as wider contributions being made through Business Rate Supplements, the planned Community Infrastructure Levy and Section 106 developer contributions. Such commitments constitute approximately one third of the Crossrail funding package.

Invalid Vehicles: Accidents

Jeff Ennis: To ask the Minister of State, Department for Transport how many mobility scooter accidents involving *(a)* children and *(b)* adults have been recorded in each of the last five years. [292835]

Paul Clark: The information requested cannot be identified separately. Accidents involving mobility scooters are recorded in the 'other' category alongside other types of vehicle. To separately provide mobility scooter statistics could be obtained only at disproportionate cost.

Railways: Electrification

Norman Baker: To ask the Minister of State, Department for Transport by what date he expects a contract to have been signed to deliver each rail electrification scheme he has announced to date. [293276]

Chris Mole: On 23 July the Government announced a major £1.1 billion programme of rail electrification. The routes to be electrified are: (i) the Great Western Main Line between London and Swansea; and (ii) the line between Liverpool and Manchester via Newton-le-Willows.

As with other rail investments, both schemes will be delivered by Network Rail. Details of contracts with suppliers are a matter for Network Rail and the schemes will be completed by (i) 2017 and (ii) 2013 respectively.

Railways: Netherlands

Norman Baker: To ask the Minister of State, Department for Transport what barriers to the introduction of a through high-speed service between London and Amsterdam have been identified by his Department; and what steps his Department is taking to overcome them. [293277]

Chris Mole: Government policy is to encourage competition on High Speed One from 2010 and to expand the number of European destinations available by rail from the UK. Discussions have been held with rail operators in a number of other European Union countries on providing such services, including from London to Amsterdam. The Government will require security and immigration requirements to be met by any new services. It will be for the future operator of High Speed One to market the railway and to agree terms of access with international train operators.

Roads: Accidents

Mr. Burns: To ask the Minister of State, Department for Transport how many road traffic accidents involving *(a)* cars and *(b)* motorcycles in which at least one driver was found to be at fault have occurred in Essex in each of the last 10 years, broken down by the age of the driver at fault. [292183]

Paul Clark: The information requested is not collected. The reported road accident statistics do not assign fault to any of the parties involved in personal injury road accidents. The information collected by the police officer at the scene of the accident is limited to probable contributory factors which may have contributed to the accident.

NORTHERN IRELAND

Departmental Advertising

Dr. Cable: To ask the Secretary of State for Northern Ireland on which initiatives of his Department and its agencies expenditure on advertising has been incurred in each of the last five years; how much was spent on each such initiative; and which such initiatives were advertised through the Central Office of Information. [290149]

Paul Goggins: Advertising is an important form of communication which is used by the Northern Ireland Office to inform and encourage the public to contribute to the debate around proposed changes to legislation and deliver important public safety messages to as wide an audience as possible.

The following table shows how much the Northern Ireland Office, including the Public Prosecution Service Northern Ireland and its agencies, but excluding its NDPBs, has spent on advertising initiatives in each of the last five years.

£

	NIO core	*Forensic science NI*	*Youth Justice Agency*
2004-05	151,998.70	—	—
2005-06	213,119.67	—	—

£

	NIO core	*Forensic science NI*	*Youth Justice Agency*
2006-07	174,941.56	—	—
2007-08	357,956.92	—	1,318.76
2008-09	416,799.12	1,272.74	—

The Northern Ireland Prison Service and the Compensation Agency had no such expenditure.

The following details each initiative, the amount spent and whether or not the Central Office of Information (COI) was used to advertise the initiative.

Initiative	*Amount (£)*	*COI used*
NIO core		
2004-05

Departmental Manpower

John Mann: To ask the Secretary of State for Northern Ireland how many staff there were in his Department *(a)* in 1997 and *(b)* on the latest date for which figures are available. [292068]

Paul Goggins: The total number of staff in the Northern Ireland Office (excluding agencies, executive and non-departmental public bodies) on the dates requested is set out in the following table.

	NIO staff numbers
September	
1997	677.5
2009	1287

The September 1997 information is held in terms of full-time equivalent staff. The September 2009 information is held in terms of actual numbers of staff employed. The increase in staff numbers is largely due to the expansion of the Public Prosecution Service.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of the satellite photographs produced by the Rural Payments Agency as part of the Single Payment Scheme Remote Sensing project has been in 2009 to date. [293146]

Jim Fitzpatrick: The raw satellite images used by the Rural Payments Agency (RPA) for controls with remote sensing are provided, without charge, to participating member states by the European Commission's Joint Research Centre. There is therefore no cost incurred by RPA for the images themselves.

However, processing these images requires RPA to engage a specialist contractor. The total contract budget for this specialist work in 2009 is £518,520. The processed images are used not only to check SPS applications but also to inform updates to the Rural Land Register.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average change in Single Payment Scheme payments per holding as a result of the Single Payment Scheme Remote Sensing exercise. [293147]

Jim Fitzpatrick: Work on the 2009 remote sensing exercise is still under way.

In 2008 95 per cent. of all land remote sensed was found to be correct. Since each customer's entitlement value is different the scale of change in payment will vary from customer to customer.

However, using the average farm size for remote sensing in 2008 of 63.35 hectares, this meant an average change per farm of three hectares. At flat rate payment values for 2008 this equates to a £336.51 payment reduction per holding (before modulation).

Animals: Exports

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many live *(a)* cattle, *(b)* horses, *(c)* sheep and *(d)* ponies were exported in each of the last five years. [291916]

Jim Fitzpatrick: Data collected from the EU Commission's Trade Control Expert System (TRACES) indicate that the following number of live cattle, equines (including both horses and ponies) and sheep were certified by official veterinarians as meeting the intra-Community trade rules for dispatch from the United Kingdom to other EU member states in the specified year:

	2006	*2007*	*2008*
Equidae	6,318	8,090	6,691
Cattle	152,835	193,309	112,740
Sheep	293,196	207,845	319,700

The available TRACES data do not distinguish between horses or ponies, therefore the figures for these animals is combined under the heading of 'equidae'. In addition, the Tripartite Agreement between the UK, Republic of Ireland and France allows most equidae to move between these countries without the need for the movement to be recorded on TRACES. Therefore, these movements are not captured in the above data.

Data for earlier years have not been provided because they are not currently available in a format which allows any direct comparison to that supplied above.

The figures are subject to updating and amendment.

The number of animals certified for export from the United Kingdom to countries outside of the EU is not recorded centrally, meaning that it is not possible to provide these data.

Farming Link

Nick Herbert: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of producing and distributing the *Farming Link* publication in each of the last five years. [289680]

Jim Fitzpatrick: The information is included in the following table. *Farming Link* was not published prior to spring 2007.

	Design (£)	*Print (£)*	*Postage (£)*
Spring 2007	19,771	31,900	[1]—
Summer 2007	23,017	29,196	32,435
Autumn 2007	23,017	27,495	[2]0
Winter 2007-08	27,797	24,525	39,888
Spring 2008	28,892	31,310	28,925
Summer 2008	29,326	29,611	35,571
Autumn 2008	28,856	29,611	28,133
Winter 2008-09	28,242	29,690	28,198
Spring 2009	28,679	31,120	[1]—
Summer 2009	28,476	32,476	29,874
Autumn 2009	24,259	32,956	[1]—

[1] Figure not available.

[2] This edition was not distributed as it fell between the lifting of the first foot and mouth disease outbreak restrictions and the second outbreak on 12 September, 2007.

Farms: Inspections

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many farm inspections were conducted by each inspection body in each of the last five years. [291905]

Jim Fitzpatrick: The information requested is as follows:

Rural Payments Agency

The RPA Inspectorate conducted the following inspections in each of the last five years:

Year[1]	*Number of inspections*
2004-05	11,779
2005-06	11,951
2006-07	13,869
2007-08	14,457
2008-09	14,461

[1] RPA Inspections are detailed by financial year, therefore the table refers to inspections made from 1 April to 31 March in each year.

In addition our Horticultural Marketing Inspectors, who merged with the RPA Inspectorate on 1 April 2006, carried out the following inspections at the premises of glasshouse growers, market gardeners etc:

Year[1]	*Number of inspections*
2006-07	1,264
2007-08	1,230
2008-09	1,170

[1] RPA HMI Inspections are detailed by financial year, as above.

Animal Health

Year	*TB*	*Welfare*
2005	82,272	3,421
2006	115,868	3,860
2007	132,806	4,003
2008	136,877	4,143
2009	105,760	2,947

Notes:
1. 2009 data cover the period 1 January to 30 September 2009.
2. TB inspections include all tests carried out by AH Staff and OV's.

Figures for Veterinary Medicines Visit Management System for medicines farm visits, including revisits, are:

	Visits
2008	2,683
Financial year 2008-09	2,682
2009 to date	1,972

There would also be many other farm visits carried out e.g. animal by-products visits, disease surveillance for salmonella, sheep surveys, avian influenza surveys etc. There are also visits carried out by Egg Marketing Inspectorate and Dairy Hygiene Inspectorate. We have been unable to provide details of these due to disproportionate cost.

Veterinary Medicine Directorate

VMD's contribution to this reply based on calendar years is as follows:

	Number
2004	
Routine/scheduled	548
Follow up/special	39
Total	587
2005	
Routine/scheduled	635
Follow up/special	51
Total	686
2006	
Routine/scheduled	509
Follow up/special	26
Total	535
2007	
Routine/scheduled	279
Follow up/special	19
Fish farms	82
Total	380
2008	
Routine/scheduled	273
Follow up/special	20
Fish farms	24
Total	317

Note:
Inspection of fish farms mixing medicated feeds began in 2006, but inspection of such premises were not separately identified.

Environment Agency

The following table shows the number of single regime, integrated and cross-compliance inspections that have been undertaken by the Environment Agency in the last five years.

	Number of visits
2004-05	6,504
2005-06	5,835
2006-07	5,767
2007-08	6,768
2008-09	5,787

Source:
EA Operations Performance Data (2004-05 to 2008-09)

The Food and Environment Research Agency

The Food and Environment Research Agency's Plant Health and Seeds Inspectorate carry out technical inspections of crops and commodities on farms. These are inherently different to the inspections undertaken by other agencies. The figures for the last five years are as follows:

2005: 6,570 inspections at 2,116 visits to 734 farms
2006: 12,223 inspections at 6,653 visits to 1,865 farms
2007: 11,337 inspections at 6,099 visits to 1,609 farms
2008: 12,218 inspections at 6,398 visits to 1,523 farms
2009 (to date): 9,419 inspections at 4,762 visits to 1,439 farms.

The National Bee Unit's Bee Inspectors carry out inspections of apiaries for statutory bee diseases. The figures for these inspections are as follows:

2005: 4,035
2006: 4,034
2007: 4,488
2008: 4,422
2009: 7,318 (to date)

However, it is not possible to distinguish how many of these were to bee farmers or to amateur beekeepers (approx. 99 per cent. of beekeepers are amateurs).

GM audits (seed) do not take place on farms. GM trial inspections are focused on the trial itself only, and very often take place on research institutes, etc and therefore these figures are not included.

Fisheries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions the monitoring of *(a)* fish stocks and *(b)* other marine wildlife has been instigated following the loss of a harmful cargo into the sea since 1 May 2007; what the results of such monitoring was; and what the (i) nature of the harmful cargo, (ii) location and (iii) period of monitoring was in each case. [292782]

Huw Irranca-Davies: I refer the hon. Member to the answer I gave him on 22 June 2009, *Official Report*, column 572W.

Since the MSC Napoli was breached in Lyme Bay on 20 January 2007, the containers on the beach and any litter have now been cleared and the beaches have been available for public access since Easter 2007. Furthermore, in 2007 the bow was recycled at Harland and Woolf's dry dock in Belfast, and the stern was raised using heavy lifting equipment and dismantled in situ earlier this year.

The Marine Fisheries Agency has reviewed their Marine Pollution Contingency Plan to take account of lessons learnt from the MSC Napoli incident. A copy of the plan is available at:

www.mfa.gov.uk/environment/documents/Internet-Marine-Pollution-Contingency-Plan.pdf

Milk: Overseas Trade

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the liquid whole milk equivalent volume of *(a)* imports and *(b)* exports of milk-based products in each of the last three years. [291910]

Jim Fitzpatrick: It is not possible to provide the different milk products in liquid milk equivalent. It is a complex calculation which can lead to double counting. The following table shows the UK trade in milk products for 2006-08.

		2006		*2007*		*2008*	
Flow	*Description*	*Tonnes*	*£000s*	*Tonnes*	*£000s*	*Tonnes*	*£000s*

Data prepared by Trade Statistics, Economics and Statistics Programme, DEFRA.

Nitrates: EU Law

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects of implementation of the Nitrates Directive on tenant farmers whose landlords may have applied nitrates to the tenanted land. [293167]

Huw Irranca-Davies: No such assessment has been made. However, normally a landlord cannot apply nitrates to a tenant's land without the permission of the tenant, unless the tenancy agreement specifically provides for this. A tenant is considered to be the occupier of the land under the Nitrate Pollution Prevention Regulations (2008) and is therefore responsible for compliance with the regulations.

Ragwort: Weed Control

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to tackle ragwort on public property; and what guidance it has provided to local authorities on the subject. [293492]

Huw Irranca-Davies: DEFRA has published a Code of Practice on How to Prevent the Spread of Ragwort. The Code provides comprehensive guidance on how to develop a strategic and cost-effective approach to weed control. It is intended for use by all landowners and occupiers but is particularly relevant for large-scale organisations managing significant land areas, including local authorities and public bodies who are primarily responsible for the control of Common Ragwort on their land.

DEFRA also has an enforcement procedure under the Weeds Act 1959 for investigating complaints about the injurious weeds specified in the Act, including Common Ragwort.

Under this procedure, complaints about the spread of injurious weeds are prioritised. Natural England (on DEFRA's behalf) investigates complaints where weeds are threatening to spread to land used for: keeping or grazing horses and other livestock; farmland used to produce conserved forage; or other agricultural land activities, and the complainant has already made reasonable efforts to contact the landowner or occupier where the weeds are growing.

The Ragwort Code of Practice and details of the complaints procedure can be found on DEFRA's website.

JUSTICE

Cybercrime

James Brokenshire: To ask the Secretary of State for Justice how many *(a)* prosecutions, *(b)* convictions and *(c)* police cautions there have been for offences under the Computer Misuse Act 1990 in each of the last five years. [292184]

Claire Ward: Information showing the number of defendants issued with a caution, proceeded against at magistrates courts, and found guilty at all courts for offences under the 1990 Computer Misuse Act in England and Wales from 2003 to 2007 (latest available) can be viewed in the following table.

Data for 2008 are planned for publication at the end of January 2010.

Number of defendants issued with a caution[1, 2], proceeded against at magistrates courts and found guilty at all courts[3], for offences under the 1990 Computer Misuse Act[4], England and Wales, 2003-07[5]

	2003	2004	2005	2006	2007
Cautioned	16	32	29	46	75
Proceeded against	19	21	24	25	19
Found guilty	5	12	16	18	10

[1] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.

[3] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[4] Covers the following:

Unauthorised access with intent to commit or facilitate commission of further offences (Computer Misuse Act 1990 Sec 2).

Unauthorised modification of computer material (Computer Misuse Act 1990 Sec 3).

Unauthorised access to computer material (Computer Misuse Act 1990 Sec.1).

[5] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Evidence and Analysis Unit—Office for Criminal Justice Reform.

Employment and Support Allowance: Tribunals

Alistair Burt: To ask the Secretary of State for Justice how many appeals for Employment and Support Allowance are outstanding in the East of England; and how many such appeals there are in relation to mental health. [292440]

Bridget Prentice: The Tribunals Service First Tier Tribunal—Social Security and Child Support (SSCS) is responsible for Employment and Support Allowance Appeals. The tribunal does not have a defined eastern region and collects information on an area basis. The hon. Member's constituency lies within the area known as Greater London and the South East.

As of 8 October 2009, there were 3,221 live cases in the Greater London and South East area.

Information is not collected on the number of outstanding employment and support allowance appeals that relate to mental health and could be provided only at disproportionate cost by making a manual check of each case file.

Employment Tribunals Service

Mr. Todd: To ask the Secretary of State for Justice whether his Department plans to undertake a formal evaluation and review of the new enforcement regime for unpaid employment tribunal awards. [291868]

Bridget Prentice: The new process for the enforcement of Employment Tribunal awards within the court system will be evaluated and reviewed within a two year period of the date of its commencement.

Mr. Todd: To ask the Secretary of State for Justice whether the new enforcement mechanism for unpaid Employment Tribunal awards that he announced on 19 May 2009 will be *(a)* free at the point of delivery for those seeking to enforce an unpaid award and *(b)* applied retrospectively. [291869]

Bridget Prentice: The terms and details of the new enforcement mechanism for Employment Tribunal awards are still the subject of discussion with the High Court Enforcement Officers Association. As soon as agreement has been reached on the details of the scheme and High Court Enforcement Officer involvement secured amendments to the Court Civil Procedure Rules will be brought forward. I will update you further as soon as I am able.

Employment Tribunals Service: Compensation

Chris McCafferty: To ask the Secretary of State for Justice if he will take steps to ensure that compensation awarded to a plaintiff by an employment tribunal is paid without recourse to the courts. [292967]

Bridget Prentice: There are no provisions within current legislation to allow the employment tribunals (ET) to enforce their own awards and there are no plans at present to change this. ET awards can be enforced through Her Majesty's Court Service. The Tribunals, Courts and Enforcement Act 2007 enabled the introduction of new provisions in April 2009 to simplify the system for enforcing unpaid ET awards in the county court. These include new information leaflets, removal of the registration fee, creation of a customer service help-line and registration of the award on the Register of Judgements, Orders and Fines. Work is also under way to create a scheme in which a nominated High Court Enforcement Officer is assigned to enforce awards originating from employment tribunals.

Injunctions

Paul Farrelly: To ask the Secretary of State for Justice if he will *(a)* collect and *(b)* publish statistics on the number of non-reportable injunctions issued by the High Court in each of the last five years. [293012]

Bridget Prentice: The information requested is not available. The High Court collects figures on applications, however injunctions are not separately identifiable, and there are currently no plans to amend databases to do so.

National Offender Management Service: Manpower

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the answer of 13 May 2009, *Official Report*, columns 831-2W, on the National Offender Management Service, how long each of the 184 employees have been registered as surplus under the terms of the Managing Surplus Employees Scheme. [290406]

Maria Eagle: It is not possible to provide a retrospective review of each of the 184 employees who were identified at the time of the previous answer. The National Offender Management Service was at that time transferring its information to a Redeployment Register within a new on line service that manages both recruitment and vacancy management. Information was therefore drawn from both the online Redeployment Register and a legacy system.

148 employees records had been transferred to the NOMS Redeployment Register by 13 May. 36 records were found to be inappropriately entered on the spreadsheet as those staff were not surplus and therefore their entries were deleted from the database. A detailed breakdown is given in the following table. More detailed information is not available.

Number of staff	*Number of days on register as of 13 May*

Parole Board

Chris Huhne: To ask the Secretary of State for Justice how many hours of time spent by *(a)* judges and *(b)* lay members were allocated to Parole Board oral hearings in respect of prisoners on (i) whole life tariffs and (ii) other sentences in each of the last five years. [289467]

Bridget Prentice: The Parole Board does not record the number of hours spent on oral hearings by individual members as members (other than serving judges) are paid a set fee for each hearing they attend. The average three member oral hearing day starts at 10.30am and finishes at 5 p.m. with an average of two cases being heard. This does not take into account the time spent by members reading papers in advance of the hearing day and writing detailed decision letters after the hearing. Most three member oral hearing panels are chaired by a judge with a psychiatrist or psychologist when necessary and an independent member.

Judges are expected to allocate 15 days a year to Parole Board work, independent members 2.5 days per week and specialist members 35 days a year. The total number of three member oral hearings cases considered over the past five years is as follows:

	Number
2004-05	1,341
2005-06	1,512
2006-07	1,831
2007-08	2,072
2008-09	2,330

Whole life tariff cases are not referred to the Parole Board.

Chris Huhne: To ask the Secretary of State for Justice how many cases were awaiting a Parole Board post-panel review on the latest date for which figures are available. [289468]

Bridget Prentice: As at 31 July 2009, 34 cases were awaiting review by the Parole Board's Post Panel Department.

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* longest, *(b)* shortest and *(c)* average period of time is for which a case for (i) oral hearing, (ii) paper hearing and (iii) other consideration before the Parole Board has been outstanding. [289469]

Bridget Prentice: The most up to date information about waiting times, as at 31 July 2009, is reflected as follows:

(i) Oral hearings

Three member oral hearing (indeterminate sentences):

(a) One year six months.

(b) One month.

(c) Five months.

Single member oral hearings (determinate sentences):

(a) 11 months.

(b) One month.

(c) Three months.

(ii) Paper hearings

Paper hearings/pre-tariff (indeterminate sentences):

(a) 16 months.

(b) One month.

(c) Three months.

Paper hearings (determinate sentences):

(a) Seven days.

(b) One day.

(c) 2.9 days.

(iii) Other consideration before the Parole Board has been outstanding

The Parole Board does not give 'other consideration' to cases other than the paper and oral hearings referred to above.

Chris Huhne: To ask the Secretary of State for Justice how many cases for *(a)* oral hearings, *(b)* paper hearings and *(c)* other consideration before the Parole Board were outstanding on the latest date for which figures are available. [289472][1]

Bridget Prentice: As at the 31 July 2009 the number of cases was as follows:

(a) There were 1,625 indeterminate sentences for public protection (IPPs) cases awaiting three member oral hearings and 126 determinate cases awaiting single member oral hearings

(b) There were 324 IPPs cases awaiting a paper pre-tariff hearing.

(c) The Parole Board does not give 'other consideration' to cases other than the paper and oral hearings referred to above.

Chris Huhne: To ask the Secretary of State for Justice how many offenders whose tariffs had expired remained in prison while they awaited listing for an *(a)* oral hearing, *(b)* paper hearing and *(c)* other consideration before the Parole Board on the latest date for which figures are available. [289473]

Bridget Prentice: The tariff is the minimum period specified by the court which must be served before a prisoner is eligible for release on parole. There is nothing automatic about release on expiry of tariff, as the decision as to whether to release an offender has to be based on the assessed risk of harm which he presents—not on whether he has served the minimum period of imprisonment specified by the court. Therefore, any prisoner whose tariff has expired will remain in prison while they are awaiting an oral hearing, paper hearing or other consideration by the Parole Board to determine whether the risk of harm which they present is such that it might be safely managed in the community.

The total number of indeterminate prisoners whose tariff has expired and who were awaiting consideration as at 31 July 2009 was 1,284.

Chris Huhne: To ask the Secretary of State for Justice what assessment he has made of the likely effects on the operations of the Parole Board of its taking on the status of a court; what additional responsibilities the Parole Board would have under such arrangements; and what estimate he has made of the funding required by the Parole Board to discharge those responsibilities. [289553]

Bridget Prentice: We have recently published a consultation paper, 'The Future of the Parole Board', in which we are asking stakeholders to consider how best the Board be managed to ensure its independence from the Executive and its effectiveness and efficiency.

The paper is a first step in the consultation process and accordingly lays out a number of options for the future management of the Board. They are:

to leave existing sponsorship arrangements as they are; to transfer sponsorship of the Parole Board to Her Majesty Courts Service (HMCS) or the Tribunals Service;

to integrate the Parole Board fully into HMCS; and

to integrate the Parole Board fully into the Tribunals Service.

Until findings from the initial consultation are published in February 2010, the Ministry has not taken a view on the possible future arrangements for the management of the Board. Accordingly we have not undertaken detailed assessments of the effects of each of these options on the operations of the Board.

Chris Huhne: To ask the Secretary of State for Justice how many judicial reviews brought in relation to *(a)* the time taken to hear a case and *(b)* other matters the Parole Board (i) is contesting and (ii) has contested in each of the last five years; and what costs the Parole Board has incurred on contesting judicial reviews in each such year. [289554]

Bridget Prentice: The Parole Board only has figures for the past three years and includes all judicial review cases considered as follows:

	(a)	*(b)*	*Costs*[1] *(£)*
2006-07	8	74	113,850
2007-08	48	81	427,162
2008-09	60	48	770,529

[1] Costs include solicitors' fees and any costs and compensation awarded to claimants. All costs are borne by the Ministry of Justice.

Chris Huhne: To ask the Secretary of State for Justice what steps the Parole Board has taken in response to the recommendations of the National Audit Office report on Protecting the public: the work of the Parole Board, HC 239, 2007-08, published in March 2008. [289555]

Bridget Prentice: The Parole Board has been working closely with the Ministry of Justice on an action plan to implement the recommendations of the National Audit Office and the Public Accounts Committee following publication of the report "Protecting the public: the work of the Parole Board". In particular the following progress has been made.

A new generic parole process was introduced from 1 April 2009 whereby the performance of all agencies involved in the parole process can be monitored.

An agreement has been reached about the mandatory documents required by the Parole Board and the production of prisoners' dossiers is being monitored.

A single IT system has been introduced that can be accessed by all relevant agencies.

Amended Parole Board Rules came into force on 1 April 2009.

A Reasons Framework was introduced from January 2009 and members are now required to provide evidence that they have "signed off" the final draft of the reasons for their decision.

The work load of members is monitored on a monthly basis. It shows that on average independent members are undertaking more than their expected work load.

Measures are being taken which are aimed at increasing the number of judges available to carry out Parole Board work.

Decisions and the reasons given for them are being reviewed by random sampling to assess them for quality.

The 2009 member recruitment round included a project with Operation Black Vote aimed at increasing the number of BME members on the Parole Board.

A public consultation paper on the future status of the Parole Board was published on 20 July 2009 for comment by 20 November 2009.

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* longest and *(b)* average period was between the original and rescheduled date of a deferred oral hearing before the Parole Board on the latest date for which figures are available. [289561]

---

1. *[Official Report, 23 November 2009, Vol. 501, c. 5MC.]*

Bridget Prentice: The longest period between the original and rescheduled date of a deferred oral hearing before the Parole Board as at 31 July 2009 was 13.8 months.

The average period between the original and rescheduled date of a deferred oral hearing before the Parole Board as at 31 July 2009 was 3.5 months.

Chris Huhne: To ask the Secretary of State for Justice how many oral hearings before the Parole Board were deferred in each of the last five years; and how many of those hearings were deferred more than once. [289562]

Bridget Prentice: The number of oral hearings before the Parole Board that has been deferred in each of the last five years is set out in the following table . The Parole Board does not have figures for the number of cases deferred more than once.

	Number
2004-05	358
2005-06	814
2006-07	1,243
2007-08	1,236
2008-09	1,086

Parole Board: Labour Turnover

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* caseworkers, *(b)* administrative staff at administrative officer or executive officer level and *(c)* staff at higher executive officer level or above were recruited to work at the Parole Board in each of the last five years; and how many of those positions were advertised (i) internally only and (ii) internally and externally. [289558]

Bridget Prentice: Figures where Parole Board posts were advertised are available only for the last three years. The following table sets out the information available:

Grade	*2006-07*	*2007-08*	*2008-09*
Administrative assistant	0	0	2 external only
Administrative officer	3 internal and external	5 internal and external	4 internal and external
Executive officer	2 internal and external. 1 external only	1 internal only. 3 internal and external. 1 external only	18 internal and external
Higher executive officer and above	2 external only	3 external only	4 internal and external. 4 external only

Chris Huhne: To ask the Secretary of State for Justice how many *(a)* caseworkers, *(b)* administrative staff at administrative officer or executive officer level and *(c)* staff at higher executive officer level or above have left the employment of the Parole Board in each of the last five years. [289559]

Bridget Prentice: The number of staff, by grade, that have left the Parole Board, is set out in the following table:

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Administrative assistant (AA)	2	1	0	0	0
Administrative officer (AO)	2	8	7	5	8
Executive officer (EO)	0	1	3	2	9
Higher executive officer (HEO)	1	1	1	1	2
Senior executive officer (SEO)	0	0	1	0	1
Secretary/personal secretary	0	1	0	0	0
Typist	0	0	1	0	1
Grade 7	0	0	0	0	0

Parole Board: Manpower

Chris Huhne: To ask the Secretary of State for Justice how many caseworkers the Parole Board employed to work on *(a)* oral hearings, *(b)* paper hearings, *(c)* post-panel reviews and *(d)* other matters in each of the last five years. [289560]

Bridget Prentice: The number of staff employed in each department of the Parole Board, is set out in the following table:

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Oral Hearings Team	20	26	29	29	32
Paper Hearings Team	14	12	12	11	9
Post Panel Team	7	7	7	9	10
Re4Re Team (formerly RARE Team)	0	3	5	10	8
Listings and Rota/Reprographic/Post	0	4	3	4	7
Finance Department	3	4	4	4	4

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
IT Department	3	2	3	3	2
Human Resources Department	3	2	3	2	3
Corporate Services	1	3	2	5	4
Other Secretaries/Typists	5	5	4	1	2
Senior Members of Staff	4	5	6	7	8

Parole Board: Official Hospitality

Chris Huhne: To ask the Secretary of State for Justice how much the Parole Board has spent on hospitality in each of the last five years. [289556]

Bridget Prentice: The Parole Board has spent the following sums on hospitality:

	£
2004-05	263
2005-06	140
2006-07	238
2007-08	329
2008-09	201

Parole Board: Sick Leave

Chris Huhne: To ask the Secretary of State for Justice how many days of sick leave were taken by Parole Board staff *(a)* as a result of stress-related conditions and *(b)* for other reasons in each of the last five years. [289557]

Bridget Prentice: The number of days sick leave taken by the Parole Board staff in the last five years is set out in the following table:

	Total number of days lost through sickness (annual figure average per member of staff)	*Number of sick days recorded as stress/stress related (average per member of staff)*	*Number of sick days recorded as other reasons (average per member of staff)*	*Total number of staff*
2004-05	8.8	1.6	7.2	60
2005-06	10.0	1.0	9.0	73
2006-07	11.8	4.5	7.3	78
2007-08	11.7	0.2	11.5	85
2008-09	11.4	1.8	9.6	89

Prisoners: European Convention on Human Rights

John Robertson: To ask the Secretary of State for Justice what payments were made to prisoners as a result of cases brought under legislation implementing the European Convention on Human Rights in 2008; and if he will make a statement. [293079]

Maria Eagle: The information requested is not held centrally, and could be provided only at disproportionate cost and would involve the individual examination of several thousand files. The National Offender Management Service records litigation claims by the main type of allegation. Claims often make reference to alleged breaches of human rights. In some cases the claim will be brought wholly on an HRA basis. In others an HRA basis of claim will be but one of a number of alleged grounds of claim.

Written Questions: Government Responses

Miss McIntosh: To ask the Secretary of State for Justice when he plans to answer Question 288113, on unpaid penalty notices for disorder, tabled on 15 July 2009. [292028]

Bridget Prentice: I replied on 12 October 2009, *Official Report*, column 168W.

Youth Custody: Per Capita Costs

Mr. Burrowes: To ask the Secretary of State for Justice what his most recent estimate is of the total monthly cost of a custodial place at *(a)* young offender institutions, *(b)* secure training centres and *(c)* secure children's homes. [290208]

Maria Eagle: The Youth Justice Board calculates annual figures for the cost of places in the three types of establishment in the under-18 secure estate. As at 1 April 2009, these were as follows:

	Average annual cost per place (£000)
Secure children's home	215
Secure training centre	160
Young offender institution	60

Note:
VAT is not included within these figures.

DEFENCE

Armed Forces: Social Security Benefits

Mark Pritchard: To ask the Secretary of State for Defence if he will establish the number of spouses of armed forces personnel refused state benefits because of inadequate payment of national insurance contributions. [291510]

Helen Goodman: I have been asked to reply.

This information is not collected in the form requested and we have no plans to do so.

The Service Command Paper 'The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans' (Cm 7424), published in July 2008, contained the Department's commitment to award Class 1 national insurance credits to spouses and civil partners of service personnel posted overseas with effect from April 2010. This will enable more members of service personnel families to qualify for jobseeker's allowance and employment and support allowance.

Iraq and Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence (1) what the *(a)* planned and *(b)* actual average flying hours of each aircraft type operating in (i) Iraq and (ii) Afghanistan was in each year since 2003; [289124]

(2) what the *(a)* planned and *(b)* actual average flying hours of each helicopter type operating in (i) Iraq and (ii) Afghanistan was in each year since 2003. [289125]

Bill Rammell: I am withholding the information requested for Afghanistan as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of our armed forces. I can say, however, that between November 2006 and April 2009 we increased the number of helicopter flying hours in Afghanistan by 84 per cent.

For Op TELIC aircraft supporting operations in Iraq, information on the number of planned operational flying hours is not held by the Department for any fleet. For actual flying hours on operations, this information is not recorded centrally. I am able to provide information for some aircraft types and this is provided in the following tables . For all other fixed wing aircraft and helicopter fleets that have been deployed on Op TELIC the information is either no longer held by the department or could be provided only at disproportionate cost. All statistics have been rounded to the nearest five hours.

For Nimrod MR2, Hercules and Tornado GR4 the total number of actual flying hours flown on Op TELIC is given by financial year.

Nimrod MR2	*Total actual flying hours by financial year*
2003-04	1,040
2004-05	2,350
2005-06	1,975
2006-07	1,385
2007-08	725
2008-09	225

Hercules (all variants)	*Total actual flying hours by financial year*
2003-04	[1]—
2004-05	[1]—
2005-06	[1]—
2006-07	[1]—
2007-08	5,855
2008-09	5,960

Tornado GR4	*Total actual flying hours by financial year*
2003-04	6,775
2004-05	6,585
2005-06	6,825
2006-07	8,150
2007-08	9,175
2008-09	7,425

For VCIO and Tristar the total number of actual flying hours flown on Op Telic is given by calendar year. VCIO was withdrawn from theatre in July 2009.

VCIO	*Total actual flying hours by calendar year*
2003	2,600
2004	2,695
2005	2,525
2006	3,245
2007	2,995
2008	3,150
January-July 2009	1,150

Tristar	*Total actual flying hours by calendar year*
2003	1,885
2004	20
2005	Nil
2006	5
2007	Nil
2008	Nil
2009	Nil

Over the period 2003-09 Nimrod R1 have flown a total of 1,770 hours and Sentry has flown 1,415 hours in support of Op Telic. It is not possible to break down these totals by year flown, without incurring disproportionate cost.

Military Aircraft: Helicopters

Mr. Hancock: To ask the Secretary of State for Defence how many pilots qualified to fly Puma helicopters have re-qualified to fly *(a)* Merlin and *(b)* Chinook helicopters in 2009 to date. [292325]

Bill Rammell: In 2009 to date, three qualified Puma pilots re-qualified to fly Chinook helicopters. In the same period, no qualified Puma pilots have re-qualified to fly Merlin helicopters.

Territorial Army: Training

Mr. Lancaster: To ask the Secretary of State for Defence (1) what steps have been taken to enable members of the Territorial Army to complete minimum training standards in order to qualify for bounty in 2009-10; [293136]

(2) whether members of the Territorial Army (TA) who do not meet the minimum requirements to qualify for bounty as a result of the proposed reduction in TA training will be awarded it. [293137]

Bill Rammell: All TA personnel will be given opportunities to complete the necessary activities to enable them to qualify for an annual bounty, if they have not already done so. One further set of military training tests will be run in each region of the country. In addition, extensions of the training year up to the 30 June 2010 may be permitted by the chain of command to provide those who have not yet completed the minimum number of training days the opportunity to do so.

There will be no waivers for those who fail to meet the minimum qualifying standards.

WORK AND PENSIONS

Child Maintenance: Bassetlaw

John Mann: To ask the Secretary of State for Work and Pensions how many residents of Bassetlaw constituency have child maintenance arrears of six months or more outstanding from *(a)* the Child Support Agency and *(b)* the Child Maintenance Enforcement Commission. [292033]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many residents of Bassetlaw constituency have child maintenance arrears of six months or more outstanding from (a) the Child Support Agency and (b) the Child Maintenance Enforcement Commission. [292033]

The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency from the Department for Work and Pension on 1 November 2008. The Child Support Agency continues to operate the current maintenance schemes until the Commission introduces the future maintenance scheme set out in the Child Maintenance and other Payments Act 2008. The future scheme is currently planned to be introduced in 2011.

Information relating to child maintenance payments by parliamentary constituency is regularly published in the Child Support Agency Quarterly Summary of Statistics, the latest version of which is available online at the following link:

http://www.childmaintenance.org/publications/stats0609.html

Information on the number of parents who have child maintenance arrears outstanding is only available for cases on the current child maintenance scheme, introduced in 2003. The Commission estimates that at the end of June 2009 there were a total of 1,020 non-resident parents in Bassetlaw parliamentary constituency with six months or more child maintenance arrears outstanding.

I hope you find this answer helpful.

Children: Maintenance

John Mann: To ask the Secretary of State for Work and Pensions how many widows unsuccessfully applied to the Child Maintenance Enforcement Commission for fresh assessments of maintenance following the death of their husband. [292040]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, how many widows unsuccessfully applied to the Child Maintenance and Enforcement Commission for fresh assessments of maintenance following the death of their husband. [292040]

The Child Maintenance and Enforcement Commission does not collate information on the marital status of its clients and is therefore not able to provide an answer to your question. It may be helpful if I explain that for the current statutory scheme the assessment of child maintenance due is based solely on the non-resident parent's income for each of the children that he or she is responsible for.

The circumstances of the parent with care are not taken into account when assessing the amount of maintenance due, therefore any changes in the parent with care's circumstances, including bereavement will not require a change in the maintenance assessment.

I should probably also make clear that in any case where the non-resident parent dies, the Commission will close the case. The Child Maintenance and Other Payments Act 2008 included provision to allow the Commission to recover arrears of maintenance accrued from the non-resident parent's estate, however this provision has yet to be commenced. It is currently intended to bring forward regulations on recovery from deceased estates in 2010.

I hope that you find this answer helpful.

Departmental Internet

Mr. Watson: To ask the Secretary of State for Work and Pensions pursuant to the answer of 13 July 2009, *Official Report*, column 59W, on departmental internet, what the *(a)* names and *(b)* versions are of the web browsers used on the (i) desktop machines and (ii) laptop computers used by her Department's (A) Permanent Secretary, (B) chief information officer, (C) head of communications and (D) head of finance. [288997]

Jim Knight: The Department uses Microsoft Internet Explorer 6 (6.0.2900.2180xpsp_sp2_gdr.080814-1233) on all of its desktop and laptop computers including those of the Permanent Secretary, Chief Information Officer, Head of Communications and Head of Finance.

Electronic Government

Justine Greening: To ask the Secretary of State for Work and Pensions how many individual visitors accessed the Directgov service via *(a)* Sky, *(b)* Virgin Media, *(c)* NTL, *(d)* Telewest, *(e)* Freeview and *(f)* mobile telephones in each year for which figures are available. [292022]

Jim Knight: Directgov does not report against unique visitor numbers but instead uses visits. This is a more accurate metric to use over a period of time. Unique visitors are identified by cookies placed on a user's PC when they first arrive at the site and there is strong evidence to suggest that a large number of people periodically delete cookies. This will mean that they are identified as a separate unique user when they next return.

The following table represent the number of individual visitors to the Directgov service by each of the methods requested. Analogue TV figures have also been included, but please note that visitor figures for both Analogue TV and Freeview are approximate because these services are broadcasted rather than being accessed.

	Visits
Sky	
October 2006 to September 2007	55,503
October 2007 to September 2008	50,252
October 2008 to September 2009	107,105
VirginMedia[1]	
October 2006 to September 2007	281,779
October 2007 to September 2008	388,173
October 2008 to September 2009	403,087
Freeview[2]	
March 2009 to May 2009	440,000
Analogue TV[3]	
March 2009 to May 2009	460,000
Mobile	
October 2008 to September 2009	1,554,616

[1] Telewest and ntl merged to form Virgin Media in 2006.
[2] Launched 22 January 2009.
[3] Launched 16 January 2009.

Justine Greening: To ask the Secretary of State for Work and Pensions what the set up cost of making Directgov available via *(a)* Sky, *(b)* Virgin Media, *(c)* NTL, *(d)* Telewest, *(e)* Freeview and *(f)* mobile telephones was; and what the running costs of provision of the service via each platform has been in each year for which figures are available. [292023]

Jim Knight: The set-up and running costs for each individual platform are commercially sensitive, however, the annual running costs for these platforms are shown in the following table.

					£
	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
TV total	437,288	705,542	772,908	641,313	863,016
Mobile total	—	—	73,775	175,704	497,371
Combined total	437,288	705,542	846,683	817,017	1,360,387

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions what the average cost of employing a member of staff of each job title at Jobcentre Plus was in the latest period for which figures are available. [291216]

Jim Knight *[holding answer 16 September 2009]:* The information is not available in the format requested and could be provided only at disproportionate cost.

Mrs. May: To ask the Secretary of State for Work and Pensions how many complaints her Department has received from Jobcentre Plus staff on *(a)* working conditions and *(b)* other matters in each month in the last two years. [291220]

Jim Knight *[holding answer 16 September 2009]:* The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the right hon. Member with the information requested.

Letter from Ruth Owen:

The Secretary of State has asked me to reply to your question asking how many complaints her Department has received from Jobcentre Plus staff about (a) their working conditions and (b) other matters in each month in the last two years. This is something that falls within the responsibilities delegated to Mel Groves as acting Chief Executive of Jobcentre Plus. As Mel Groves is currently on annual leave, I am replying in his absence.

The table summarises the available information which concerns correspondence from existing or former members of staff where enquiries are addressed to or delegated to either the Permanent Secretary, the Chief Executive of Jobcentre Plus or Jobcentre Plus Board members.

	Total	*Working conditions*	*Other*

Source:
Jobcentre Plus clerical records of complaints either addressed or delegated to the Permanent Secretary, the Chief Executive or other Jobcentre Plus Board members.
As this is clerical information full details may not be available.

Jobcentre Plus: Manpower

Mr. Harper: To ask the Secretary of State for Work and Pensions how many disability employment advisers in Jobcentre Plus are in *(a)* post and *(b)* training; and what estimate her Department has made of the number of disability employment advisers required by Jobcentre Plus to administer the operation of Pathways to Work and the migration of existing incapacity benefit claimants to employment and support allowance in the next four years. [290935]

Jim Knight *[holding answer 9 September 2009]*: The administration of Jobcentre Plus is the responsibility of the acting chief executive, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to respond to your question asking how many Disability Employment Advisers in Jobcentre Plus are in (a) post and (b) training; and what estimate her Department has made of the number of disability employment advisers required by Jobcentre Plus to administer the operation of Pathways to Work and the migration of existing incapacity benefit claimants to Employment and Support Allowance in the next four years. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

There are around 450 full time equivalent Disability Employment Advisers in post. There are currently 30 Jobcentre Plus staff booked to start training as Disability Employment Advisers and a further 107 Jobcentre Plus staff identified as requiring this training in future events

Disability Employment Advisers are not responsible for the administration of Pathways to Work or the migration of Incapacity Benefit recipients to Employment and Support Allowance.

People moving into the Pathways to Work regime are seen by either a specialist Jobcentre Plus Pathways adviser or by an external Pathways provider. Mainstream programmes and support will be suitable for many people but they can be referred to a Disability Employment Adviser if the adviser feels that an individual would benefit from more specialist support. Although the migration to Employment and Support Allowance may increase the number of people being referred to the Disability Employment Advisers, it is expected to be manageable.

Jobcentre Plus has the equivalent of around 960 full time specialist Pathways advisers who support the operation of Pathways to Work. We do not record the number of advisers employed by external providers of Pathways. It is the responsibility of the external providers to ensure that their staff have the necessary skills to help the range of customers they deal with.

Plans for the migration of existing Incapacity Benefit claimants to Employment and Support Allowance are still being developed and it is too early at this point to provide robust figures for any changes to staffing and the skills required. Although Disability Employment Advisers are not directly involved in the migration, consideration will be given during the development of the processes and plans on any impact to the numbers required.

LinkAge Plus: Gloucestershire

Mr. Drew: To ask the Secretary of State for Work and Pensions what plans she has to publish a report on the effectiveness and value for money of the Village Agents Scheme in Gloucestershire; and what assessment she has made of opportunities for wider application provided by the Scheme. [292434]

Angela Eagle: The Village Agents Scheme was part of the LinkAge Plus programme financed by DWP, which aimed to improve the well-being of older people, particularly by joining up services and including older people in service design.

There is already a national evaluation of the LinkAge Plus programme and a local evaluation of the Village Agents pilot. The national evaluation shows that there are significant benefits to be gained overall, for both older people and the taxpayer, from a holistic approach to local service delivery. The local evaluation concluded that the work of Village Agents, putting older people in touch with different statutory and voluntary agencies, resulted in people receiving more services. As older people have good experiences of receiving services, they are less reluctant to ask for support. This, in turn increased their awareness of preventative measures in relation to their continuing independence.

The principles of LinkAge Plus have been endorsed in the Government's ageing strategy "Building a society for all ages". The experiences and good practices from the Village Agents Scheme are included in a comprehensive LinkAge Plus DVD, which I launched on 20 October 2009. This brings together information, resources, tools, good practice and real life case studies. I will be writing to all local authority chief executives enclosing a copy of the DVD and encouraging its use to support engagement with older people, to build partnerships and to join up local services.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions when she expects to reply to the letter dated 19 August 2009 from the hon. Member for Walsall, North on her Department's Green Paper on disability benefits; for what reason no acknowledgement has been sent; and what the reasons are for the time taken to provide a substantive response. [293145]

Jonathan Shaw: A reply was sent to my hon. Friend on 12 October 2009. The Department for Work and Pensions does not routinely acknowledge receipt of hon. Members' letters but aims to make a substantive reply within 20 working days. I am unable to give a particular reason for the delay, but I apologise to my hon. Friend for the unacceptable delay that occurred.

State Retirement Pensions: Males

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of men who will qualify for a full state pension as a result of the reduction in qualifying years for national insurance contributions from 44 to 39. [291465]

Angela Eagle: The number of qualifying years required for entitlement to a full basic state pension for men reaching state pension age from 6 April 2010 will be reduced from 44 years (39 for women) to 30. As a result of this and other changes in the 2007 Pension Act, we estimate that an extra 20,000 men and 40,000 women reaching state pension age in 2010-11 will be entitled to a full basic state pension.

FOREIGN AND COMMONWEALTH OFFICE

British Overseas Territories: Renewable Energy

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what legally binding targets have been set regarding renewable energy generation in UK Overseas Territories. [293298]

Chris Bryant: The UK has not set any legally binding targets for the Overseas Territories regarding renewable energy generation.

Egypt: Borders

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received since July 2009 on the number of tunnels between Egypt and Gaza; what further steps he is taking to assist the government of Egypt to prevent the flow of weapons through the Rafah border crossing into Gaza; and if he will make a statement. [293289]

Mr. Ivan Lewis: There have been a series of meetings of key partners in Copenhagen (February 2009), London (March 2009) and Ottawa (June 2009) to discuss potential counter-smuggling efforts. But given the Egyptian sensitivities to have been seen accepting assistance and the challenges of "upstream" interdiction, these have remained largely discussions and no further discussions are planned.

Gilad Shalit

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had since July 2009 with the International Red Cross on *(a)* the imprisonment of Gilad Shalit by Hamas and *(b)* the refusal of Hamas to allow Gilad Shalit visits from the International Committee of the Red Cross; and if he will make a statement. [293292]

Mr. Ivan Lewis: We maintain regular dialogue with the International Committee of the Red Cross, including on the captivity of Gilad Shalit. While we welcome the videotape released by Hamas on 2 October 2009 as part of a prisoner swap deal, the continued captivity of Gilad Shalit is utterly unacceptable.

The UK shares the Shalit family's dismay at Hamas's refusal to allow the International Committee of the Red Cross access to Gilad Shalit. I met Noam Shalit, Gilad's father, in Tel Aviv in August 2009 to demonstrate our ongoing support.

Middle East: Armed Conflict

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the government of Israel on the findings of the United Nations Fact-Finding Mission on the Gaza Conflict; and if he will make a statement. [292962]

Mr. Ivan Lewis *[holding answer 14 October 2009]:* My right hon. Friend the Prime Minister spoke to Prime Minister Netanyahu on 18 September 2009 and again on 14 October 2009. My right hon. Friend the Foreign Secretary spoke to Israeli Defence Minister Barak on 29 September 2009 and 13 October 2009.

We have made clear that, while the Goldstone report has its flaws, there are serious allegations against both Hamas and Israel. Israel has undertaken a number of investigations. But we do not believe these have yet adequately addressed the concerns. We urge Israel to investigate allegations fully and credibly to ensure that there is full accountability for any breaches of the rule of law.

USA: United Nations Fact Finding Mission

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US administration on the findings of the United Nations Fact Finding Mission on the Gaza Conflict. [292968]

Mr. Ivan Lewis: We have regular discussions with our US counterparts on issues related to the Middle East Peace Process. This includes the findings of the UN-mandated Fact Finding Mission on the Gaza conflict. My right hon. Friend the Foreign Secretary discussed the mission's findings with US Secretary of State Clinton on 11 October 2009.

PRIME MINISTER

Members: Surveillance

Mr. Hurd: To ask the Prime Minister pursuant to the answer to the right hon. Member for Haltemprice and Howden of 21 July 2009, *Official Report*, column 1166W, on Members: surveillance, whether the Wilson doctrine prohibits surveillance of hon. Members by *(a)* the police and *(b)* local authorities under the Regulation of Investigatory Powers Act 2000. [292966]

The Prime Minister: I have nothing further to add to the answer I gave to the right hon. Member for Haltemprice and Howden (David Davis) on 21 July 2009.

TREASURY

Banks: Government Assistance

Mr. Meacher: To ask the Chancellor of the Exchequer how much financial assistance was provided by the Government to the banking sector in *(a)* 2008 and *(b)* 2009 to date. [293485]

Sarah McCarthy-Fry: I refer the hon. Member to the written answer I gave him on 9 September 2009, *Official Report*, column 1924W.

Business Interests

David Taylor: To ask the Chancellor of the Exchequer whether members of the board of *(a)* his Department and *(b)* HM Revenue and Customs are vetted for connections to (i) companies involved in tax avoidance and (ii) vulture fund companies. [292180]

Sarah McCarthy-Fry: The Government cannot comment on individual taxpayers' affairs but do everything they reasonably can to ensure that any arrangement they enter into is fully tax compliant.

The Treasury and HM Revenue and Customs have conflicts of interest policies in place which are guided by the Nolan principles of public life. Board members are required to declare any private interests (or interests of then close families) relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.

Executive members are bound by the civil service code and independent members are recruited through fair and open competition, consistent with the code set down by Civil Service Commissioners.

Child Tax Credit

Jim Cousins: To ask the Chancellor of the Exchequer how many full-time equivalent staff were employed in the investigation of *(a)* eligibility of claimants and *(b)* fraudulent claims for child tax credit in each year child tax credit has existed. [293172]

Mr. Timms: The precise information requested is not available.

The number of full-time equivalent (FTE) staff deployed on both tax credit and child benefit compliance activity is in the following table.

Date at April	*Number of staff (FTE)*
2009	1,475
2008	1,365
2007	1,405
2006	1,190
2005	[1]1,200
2004	[1]1,200

[1] Approximately. Precise information is not available for 2004 and 2005.

Information on tax credit error and fraud can be found at pages 89 and 99 of the annual departmental trust statements published at:

www.hmrc.gov.uk/about/hmrc-dep-acct0708.pdf

EU Emissions Trading Scheme

Charles Hendry: To ask the Chancellor of the Exchequer pursuant to the answer of 7 May 2009, *Official Report*, column 418-9W, on the EU Emissions Trading Scheme, what forecast he has made of the price of carbon in the *(a)* second and *(b)* third phases of the scheme; and if he will make a statement. [291495]

Sarah McCarthy-Fry: The prevailing market price of carbon is used to forecast auctioning revenues from Phase II of the EU Emissions Trading Scheme.

Longer term forecasts for Phase III are based on the Department for Energy and Climate Change estimates of the traded price of carbon in the EU Emissions Trading Scheme up to 2050, which are set out in "Carbon Valuation in UK Policy Appraisal: A Revised Approach".

Excise Duties: Fuels

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what the average cost of a litre of petrol for the month of October has been since 2000; and what percentage of such costs was accounted for by road fuel duty in each such month; [291683]

(2) what cost-benefit analysis his Department made of the effects of the change in road fuel duty in September 2009; and if he will make a statement. [291681]

Sarah McCarthy-Fry: When making decisions on fuel duty, the Chancellor takes into account all relevant economic, social and environmental factors. The increase in road fuel duty on 1 September this year will help to support the public finances in the medium term.

The following table sets out the average cost of a litre of petrol for the month of October since 2000, and the percentage of this cost that was accounted for by fuel duty.

	Pump price (pence per litre)	*Fuel duty rate*	*Percentage fuel duty*
2000	79.46	47.82	60
2001	75.11	45.82	61
2002	74.44	45.82	62
2003	75.84	47.10	6[illegible]
2004	83.13	47.10	5[illegible]
2005	94.00	47.10	50
2006	85.74	47.10	55
2007	97.03	50.35	52
2008	106.03	50.35	47

In addition to supporting fiscal consolidation, all fuel duty increases announced at Budget 2009 are estimated to result in a reduction of 2 million tonnes of carbon dioxide, per year, by 2013-14.

Income Tax

Mr. Fallon: To ask the Chancellor of the Exchequer how much income tax was due to the Exchequer in respect of how many people on 31 March 2009. [292510]

Mr. Timms: The information is not available except at disproportionate cost. However, for the total debt outstanding I refer the hon. Member to page 96 of HM Revenue and Customs' Annual Trust Statement available at:

http://www.hmrc.gov.uk/about/hmrc-accs-0809.pdf

CULTURE, MEDIA AND SPORT

Charities

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what grants his Department made to charitable organisations in each of the last five years. [292662]

Mr. Sutcliffe: The Department records the charitable status of those bodies that it supports through grant in aid, ongoing grants and strategic commissioning.

Payments to these bodies are set out in the following table.

£000

Charity name	*2008-09*	*2007-08*	*2006-07*
NDPBs with exempt charity status			
British Library	107,086	106,608	114,281
British Museum	51,103	45,055	46,605
Imperial War Museum	24,022	22,304	21,034
Museum of London	0	8,826	8,593
National Gallery	26,527	25,798	26,336
National Maritime Museum	19,730	18,636	18,354
National Museum of Science and Industry	39,311	41,484	42,417
National Museums Liverpool	22,619	22,508	23,172

Charity name	*2008-09*	*2007-08*	*£000* *2006-07*
National Portrait Gallery	7,853	7,193	6,771
Natural History Museum	53,047	45,425	47,785
Tate Gallery	61,544	46,097	35,661
The Royal Armouries	8,264	8,917	8,273
Victoria and Albert Museum	45,020	45,954	43,637
Wallace Collection	4,388	4,384	3,324
Registered charities			
Arts Council of England	436,831	425,992	476,552

Design Museum	414	503	530
Geffrye Museum	1,748	2,215	1,571
Greenwich Foundation for the Old Royal Naval College	2,200	1,500	1,500
Horniman Museum	4,757	4,358	4,467
Museum of Science and Industry in Manchester	4,788	4,451	4,886
Museums, Libraries and Archives Council	65,321	64,271	52,318
National Film and Television School	2,978	3,013	3,415
National Football Museum	103	144	104
Sir John Soane's Museum	1,339	1,389	1,264

Notes:

1. The Department changed its accounting system at the end of 2005-06. Comparative information for 2005-06 and earlier years could be provided only at disproportionate cost.
2. The Department does not routinely record the status of all recipients from other grant schemes for which eligibility is the custody of historic buildings or museum, library or archive collections, and a fuller list could be provided only at disproportionate cost.
3. Some figures are higher than those in the annual report and accounts as they include elements of Strategic Commissioning funding.

Cricket: Sport England

Mr. Bone: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the *(a)* accuracy and *(b)* completeness of the most recent sports survey undertaken by Sport England in relation to cricket. [292567]

Mr. Sutcliffe: The Secretary of State for Culture, Media and Sport has not carried out any formal assessment.

The primary survey of adult cricket participation, commissioned by Sport England is the Active People survey. This survey was originally conducted in 2005-06, repeated in 2007-08 and runs continuously with results published quarterly. Active People, which measures adult participation in a range of sports and physical activity, is used to measure progress against a number of public outcomes including National Indicator 8 and Sport England's target to get one million adults more involved in sport by 2012.

The survey has a substantial annual sample size of 191,000, conducted every day (except for Christmas day). The sample takes into account seasonality, and utilises both random-digit-dialling and local stratification to ensure that the sample is representative. Active People has been adopted as a measurement tool by a variety of public bodies including the Department of Health, Local Government, the Arts Council as well as the Museums, Libraries and Archives Council. In being adopted for use within comprehensive area agreements, and subsequently local area agreements, the Active People survey has been recognised by the Audit Commission.

From 1 April 2009, the Statistics and Registration Act 2007 was extended to cover Sport England and the statistics it produces. As a result, Sport England is required to comply with the code of practice for producing and publishing official statistics. The principles within the code require 'sound methods and assured quality' (principle 4). Sport England published its policy for official statistics confirming its compliance with the code.

With regard to completeness, the Active People survey measures participation in sport (including cricket) and physical activity in accordance with the definitions applied to national targets. The targets measured by the survey cover participation of at least moderate intensity among those over the age of 16. On the basis of the chief medical officer's advice, a minimum threshold of 30 minutes participation in any one session is required to deliver health and other benefits.

Departmental Buildings

Chris Grayling: To ask the Secretary of State for Culture, Media and Sport what his policy is on the relocation of units of his Department to locations outside London. [289827]

Mr. Sutcliffe: To date the Department's non-departmental public bodies' (NDPB) have relocated 894 staff outside of London. We will continue to work with our NDPBs to identify other opportunities for relocations.

The Department has no plans to relocate units of the Department outside London.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Culture, Media and Sport what percentage of procurement contracts *(a)* his Department and *(b)* its agency awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293242]

Mr. Sutcliffe: The proportion of the Department for Culture Media and Sport procurement contracts awarded to small and medium enterprises (SMEs) businesses were as follows:

	Percentage
2006-07	48.6
2007-08	41.7
2008-09	42.4

Information for 2009-10 is not yet available.

The Royal Parks (TRP) does not routinely record the number of contracts that it awards to SMEs. The most recent information available relates to 2005: 77 per cent. of contracts (16 per cent. by value) were awarded to SMEs.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293329]

Mr. Sutcliffe: All official travel is undertaken in accordance with rules set out in the Department's staff guide under travel and subsistence and is consistent with the civil service management code.

The expenditure on first class rail travel by officials ordered via the Department's contracted travel agent in each of the last financial years is set out in the table. These amounts exclude any travel booked directly, which can be identified only at disproportionate cost.

Financial year	£
2008-09	46,033.75
2007-08	35,626.10
2006-07	70,496.60

Departmental Travel

Justine Greening: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurant meals for (i) Ministers and (ii) staff in his Department in each of the last five years. [289972]

Mr. Sutcliffe: All travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively and spending on official entertainment is made in accordance with the principles set out in Managing Public Money.

The Department's accounting system does not record information by the specific categories requested and can be obtained only at disproportionate cost. The available information is set out as follows:

Ministerial cars

The Department for Transport publish an annual written ministerial statement on the cost of ministerial cars. The latest one for 2008-09 was published on 16 July and can be viewed at:

http://www.publications.parliament.uk/pa/cm200809/cmhansrd/cm090716/wmstext/90716m0009.htm# 09071651000059

Similar information regarding ministerial cars relating to prior years can be viewed at:

2007-08

http://www.publications.parliament.uk/pa/cm200708/cmhansrd/cm080722/wmstext/80722m0008.htm

2003-04 to 2006-07

http://www.publications.parliament.uk/pa/cm200708/cmhansrd/cm080630/text/80630w0008.htm

Other car hire costs relating to Ministers are set out in the following table.

	£
2008-09	10,823.38
2007-08	17,054.99
2006-07	16,094.75
2005-06	13,947.79
2004-05	6,690.89

Ministers' UK travel and subsistence costs are set out in the following table.

	£
2008-09	15,071.77
2007-08	17,090.58
2006-07	16,499.50
2005-06	22,571.40
2004-05	13,102.46

Ministers' visits overseas

Since 1999 the Cabinet Office has published, on an annual basis, a list of all overseas visits by Cabinet Ministers costing over £500, as well as total cost of all ministerial travel overseas. The 2008-09 list was published on 16 July and can be viewed at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Civil servants' travel and subsistence costs are set out in the following table.

		£
	UK	*Overseas*
2008-09	146,108.08	234,101.26
2007-08	163,735.50	250,554.75
2006-07	193,620.21	297,832.07
2005-06	293,203.28	287,546.56
2004-05	166,500.58	279,710.59

Copies of written ministerial statements are deposited in the Libraries of both Houses.

Digital Broadcasting

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport on what dates he met the Channel 4 board to discuss the draft updated statutory remit as set out in the Digital Britain report. [293382]

Mr. Simon: My right hon. Friend, the Secretary of State for Culture, Media and Sport, had no such meetings with the Channel 4 board. The Government have taken the views of the board on an updated Channel 4 remit, in accordance with our undertaking in the Digital Britain White Paper, via correspondence with the C4 chairman and correspondence and meetings between DCMS and Channel 4 officials.

Digital Broadcasting: Licensing

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport with reference to the Digital Britain report, on what date his Department published a community radio consultation seeking views on changes to the licensing regime. [293381]

Mr. Simon: The Consultation on Amendments to the Community Radio Licensing Regime was published on 16 June 2009.

Horserace Totalisator Board

Mr. Spring: To ask the Secretary of State for Culture, Media and Sport (1) what recent discussions he has had with European Commission officials on transferring the Tote to the horse racing industry; [293547]

(2) when he expects the European Commission to rule on the sale of the Tote; [293548]

(3) when he last met the Chancellor of the Exchequer to discuss the sale of the Tote; [293549]

(4) what assessment he has made of the long-term effect on the monetary value to the Tote of changes in levels of online gambling; [293550]

(5) when the Tote's market value was last independently estimated; [293551]

(6) with reference to the written ministerial statement of 5 March 2008, *Official Report*, column 114WS, on the sale of the Tote, whether he plans to make available to the horse racing industry half the net proceeds of an open market sale of the Tote; [293553]

(7) pursuant to the written ministerial statement of 22 October 2008, *Official Report*, column 12WS, what recent assessment he has made of market conditions for selling the Tote. [293603]

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport (1) what timetable he has set for the sale of the Tote; and if he will make a statement; [293690]

(2) which organisations he expects to receive funding allocations from the 50 per cent. of proceeds from the sale of the Tote to be returned to horse racing; whether such allocations will be net of pension and other liabilities; and if he will make a statement; [293691]

(3) whether he plans to grant a pool monopoly to a purchaser when selling the Tote; and if he will make a statement; [293692]

(4) what estimate he has made of the revenue likely to be received from the sale of the Tote; and if he will make a statement; [293693]

(5) what expressions of interest he expects to receive from potential purchasers of the Tote; whether he plans to consider bids from horse racing organisations; and if he will make a statement; [293694]

(6) if he will take steps to guarantee the revenue income stream to the horse racing industry from the Tote following its sale; and if he will make a statement. [293695]

Mr. Sutcliffe: The arrangements for the sale of the Tote are yet to be determined and discussions are continuing with all the relevant parties. The present intention is that the sale process itself will not start until summer 2010 with a latest completion date of March 2011. We expect to be able to give further details on the process in the next few months.

The Government's position remains that we will honour our commitment to return half of the net proceeds of any market sale to racing subject to the requirements of European state aid and competition rules. I am unable to disclose commercially confidential or sensitive information about the valuation of the tote or prospective Government payments to agents.

Sport England: Internet

Mr. Bone: To ask the Secretary of State for Culture, Media and Sport what the start-up cost of Sport England's Active Places website was; and what its running costs were in the most recent 12 month period for which figures are available. [292570]

Mr. Sutcliffe: Sport England have advised that in its first financial year of operation, 2004-05, the Active Places website cost a total of £1.98 million. This figure includes start-up costs and running costs for that year.

Running costs for 2008-09 were £0.894 million.

Sports: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what percentage of people aged *(a)* 11 to 15, *(b)* 16, *(c)* 17 to 18 and *(d)* over 18 years old were recorded as having participated in at least one active sport in the last four weeks in surveys in each of the last five years. [291343]

Mr. Sutcliffe *[holding answer 16 September 2009]:* The following figures are the percentages of young people participating in at least one active sport in the last four weeks, broken down by age category. Data are derived from the results of the Taking Part Survey, which has been run by the Department for Culture, Media and Sport since 2005.

The survey is divided into an adult and a child questionnaire, with the former covering respondents aged 16 and over.

Percentage

	2006	*2007*	*2008*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Child survey							
(a) 11 to 15 years old	95	94.9	96.3	—	—	—	—
Adult survey							
(b) 16 years old	—	—	—	82.5	82.2	86.6	77.5
(c) 17 to 18 years old	—	—	—	80	77.9	78.8	75.1
(d) 18+ years old	—	—	—	52.3	52.1	52.1	52.2

To address this, through the Sport Unlimited initiative, Sport England works closely with the Government to deliver the five hour Young People's Sports Offer. Over three years, the programme will enable 900,000 children and young people to take part in 10-week taster sessions in sports and aims to get 300,000 participants to join clubs and continue with sport beyond those sessions. Additionally, one of Sport England's strategic targets is to reduce the drop off among 16 to 18-year-olds in nine key sports. This target will be measured by the Active People survey and is based on reducing the gap between 16 and 18-year-old participation by 25 per cent. The national target is therefore to increase overall participation in the nine drop off sports among 18-year-olds to 31 per cent.

The latest 12 month rolling participation figure illustrates that there has been a statistically significant increase in overall participation in the nine drop off sports among 18-year-olds from 189,100 to 202,500. If this level of overall participation in the nine drop off sports were maintained until the end of the current strategy period then the participation figures are expected to reach the target of 31 per cent.

WOMEN AND EQUALITY

Members: Correspondence

Sir John Stanley: To ask the Minister for Women and Equality when she plans to reply to the letters of 23 February 2009 and 23 May 2009 from the right hon. Member for Tonbridge and Malling on behalf of Mr. Colin Packman. [290918]

Michael Jabez Foster: I have now written to the right hon. Gentleman.

It is regrettable that there is no record of the original letters of 23 February and 23 May being received by the Department. I apologise, however, that the reply intended to be sent by the end of July was not sent until 4 September.

CABINET OFFICE

Death: Pregnancy

Mr. Amess: To ask the Minister for the Cabinet Office how many women aged *(a)* 12 to 16, *(b)* 17 to 21, *(c)* 22 to 24, *(d)* 25 to 30, *(e)* 31 to 35, *(f)* 36 to 40 and *(g)* 41 years and older have died from pregnancy-related diseases in each year since 1979, broken down by cause of death. [293416]

Ann Keen: I have been asked to reply

This information is not collected centrally. However, the Confidential Enquiry into Maternal and Child Health publishes a report once every three years, formerly entitled Why Mothers Die, but now entitled "Saving Mothers' Lives". The most recent, published in December 2007, covered the years 2002-05. This publication gives numbers of deaths in the United Kingdom reported to the enquiry in the three-year periods considered and divides them into deaths directly and indirectly due to pregnancy and childbirth, (it also includes coincidental deaths and late deaths, which are not included in the table). Table 1.3 on page 8 of the latest report gives numbers and rates per 100,000 maternities of maternal deaths reported to the enquiry by cause in the United Kingdom form 1985-2005. However, this table does not capture the mothers age. A copy of the latest report has already been placed in the Library.

Total number of direct and indirect deaths by age of the women who died; United Kingdom: 1985 to 2005

	Under 20	*20-24*	*25-29*	*30-34*	*35-39*	*40 and over*
1985-87	15	47	53	60	35	13
1988-90	17	38	74	57	31	18
1991-93	7	30	87	61	36	7
1994-96	15	40	71	70	53	11
1997-99	19	34	60	66	50	13
2000-02	16	30	70	79	47	19
2003-05	15	39	66	91	64	20

Notes:

1. Direct deaths result from obstetric complications of the pregnant state, from interventions, omission, incorrect treatment or from a chain of events resulting from any of these.

2. Indirect deaths result from previous existing disease, or disease that developed during pregnancy and which was not due to direct obstetric causes, but which was aggravated by the physiological effects of pregnancy.

Departmental Manpower

John Mann: To ask the Minister for the Cabinet Office how many staff there were in *(a)* her Department and *(b)* the Prime Minister's office (i) in 1997 and (ii) on the latest date for which figures are available. [292069]

Angela E. Smith: Cabinet Office staff numbers are published quarterly and can be found on the Office for National Statistics website:

http://www.statistics.gov.uk/downloads/theme_labour/Table6AllDepts.xls

The most recent quarterly publication has been placed in the Library.

For the number of staff in the Prime Minister's Office I refer my hon. Friend to the replies given to the right hon. Member for Horsham (Mr. Maude) on 18 May 2009, *Official Report*, column 1254W, and my hon. Friend the Member for Nottingham, North (Mr. Allen) on 5 November 2001, *Official Report*, column 8W.

Lobbying: Publications

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office when she plans to respond to the First Report of the Public Administration Select Committee of Session 2008-09 on Lobbying: access and influence in Whitehall. [293268]

Angela E. Smith: The Government intend to respond to the Committee's report very shortly.

Members: Correspondence

Norman Lamb: To ask the Minister for the Cabinet Office with reference to the letter from the Cabinet Secretary to the right hon. Member for Horsham of 21 April 2009, if she will place in the Library a copy of the full email correspondence between Mr. Damian McBride, Mr. Charlie Whelan, Mr. Andrew Dogshon and Mr. Derek Draper referred to in this letter. [290326]

Tessa Jowell: The Cabinet Secretary's letter of 14 April to the right hon. Member for Horsham (Mr. Maude) made clear that Damian McBride's actions constituted a clear and serious breach of the "Code of Conduct for Special Advisers" which had not been tolerated. His actions were unacceptable and inappropriate. It would therefore not be appropriate to make the e-mails public.

Ministerial Policy Advisers

Mr. Tyrie: To ask the Minister for the Cabinet Office what policy applies to the appointment of policy advisers who are not special advisers to assist Ministers on 12 month contracts; and what recent guidance the Cabinet Secretary has issued on the subject. [292596]

Angela E. Smith: Recruitment into the civil service is undertaken in accordance with the Civil Service Order-in-Council, and the Civil Service Commissioners' recruitment principles.

Non-Departmental Public Bodies: Official Gifts

Mr. Hayes: To ask the Minister for the Cabinet Office what guidance sets out the procedures to be followed by *(a)* civil servants and *(b)* senior officials of non-departmental public bodies in relation to their receipt of gifts. [287742]

Tessa Jowell: The principles governing the acceptance of gifts by civil servants are set out in the "Civil Service Code" and the "Civil Service Management Code". The principles governing the handling of gifts received by officials of non-departmental public bodies are set out in the Cabinet Office model code for staff of Executive non-departmental public bodies (NDPBs). Individual Departments and NDPBs will normally have additional guidance based on these principles.

HOUSE OF COMMONS COMMISSION

Speaker

Kate Hoey: To ask the hon. Member for North Devon, representing the House of Commons Commission what procedures were used to recruit Mr. Speaker's special adviser; who *(a)* carried out those procedures and *(b)* set the salary for that post; and what the (i) salary and (ii) job specification is for that post. [293163]

Nick Harvey: Mr. Speaker's special adviser was engaged via a contract for Services—not an employment contract—under the House's normal procurement arrangements. He is to be paid an agreed rate per day worked. The amount is commercial in confidence.

A copy of the special adviser's job description is being placed in the Library.

ENERGY AND CLIMATE CHANGE

Climate Change

Mr. Weir: To ask the Secretary of State for Energy and Climate Change how many officials will accompany the ministerial delegation to the UN framework convention on climate change conference in Copenhagen; and from which Departments those officials will be drawn. [293423]

Joan Ruddock: We have not yet determined who will attend from the Department of Energy and Climate Change, so we cannot say with certainty how many Ministers or officials will be on the delegation. This will depend largely on the state of international negotiations at the time of the conference.

Last year for COP14 in Poznan the UK delegation comprised 47 people from DECC, DfID, FCO, DfT and BERR. Given the importance of the Copenhagen meeting, the UK delegation may well be significantly larger on this occasion.

Coal: Industrial Health and Safety

John Mann: To ask the Secretary of State for Energy and Climate Change how many Group 3 coal health compensation claims submitted by each solicitor's firm have been disputed. [292003]

Mr. Kidney: The number of claims submitted by claimants' representatives for vibration white finger (VWF) that fall under the Group 3 category is shown in the following table as at 4 October 2009.

We are unable to provide this information for claims submitted under the chronic obstructive pulmonary disease scheme as these are assessed by different criteria and are not categorised by groups.

Energy Supply: Meters

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what his most recent estimate is of the *(a)* average and *(b)* maximum premium paid by customers for using pre-payment meters for domestic (i) gas and (ii) electricity supply. [289644]

Mr. Kidney: The most recent figures on tariffs are those for October 2009. The new rules outlawing undue price discrimination came into force in September.

According to the latest available figures prices for an average consumer using 3,300 kWh of electricity per year, indicate an average annual differential of £10 (pre-payment compared with standard credit) and a maximum differential of £38, if prompt payment discounts on standard credit are included. If they are not, these figures are -£5 and £7 respectively.

For an average consumer using 20,500 kWh of gas per year, October 2009 prices indicate an average annual differential of £22 and a maximum differential of £73 if prompt payment discounts are included. Without prompt payment discounts, these figures are -£5 and £58 respectively.

The "minus" figures indicate that in some cases prices for pre-payment meters are lower than those for some standard credit customers.

The average dual fuel pre-payment customer now pays £4 less than the average standard credit dual fuel customer. This compares to a figure of £41 more in July 2008.

Ofgem produces estimates of domestic household energy bills, and these reflect current prices as at October 2009 prices. The maximum and average differentials given here mean the difference between standard credit and pre-payment tariffs available to consumers by a single supplier within one region. Figures for standard credit are complicated by the fact that some suppliers offer a discount to standard credit consumers who pay promptly, so we have noted these variants.

BUSINESS, INNOVATION AND SKILLS

Charlie Whelan

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills what matters were discussed at the meeting between the Secretary of State and Charlie Whelan on 29 January 2009. [292178]

Mr. McFadden: My noble Friend the Secretary of State met Mr. Charlie Whelan on 15 January (not on 29 January) in the course of his official duties. They discussed employment issues.

Further Education: Finance

Mr. Burstow: To ask the Minister of State, Department for Business, Innovation and Skills what plans he has to give further education colleges greater financial freedom to enable them to make flexible use of funding streams; and if he will make a statement. [293104]

Kevin Brennan: Following consultation in January 2007, the Learning and Skills Council introduced two main funding routes for adult training (Adult Learner Responsive and Employer Responsive). This rationalised the larger number of funding streams that were previously in place and provided colleges and providers with increased ability to move funds between programmes.

We continue to listen to feedback from the sector as part of assessing the impact of introducing the new funding models in 2008/09 academic year. A key aspect of the funding system is ensuring that the full range of adult learners are able to access programmes that meet their needs especially where they are less able to articulate these needs.

Grocery Trade

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills what criteria he plans to use in reaching a decision on whether or not to establish a grocery market ombudsman; and when he plans to make his decision on the recommendations of the Chairman of the Competition Commission for such an ombudsman. [293280]

Kevin Brennan: Government will weigh up a number of factors including possible costs or savings being passed on to consumers, the potential for a better deal for suppliers and regulatory burdens for supermarkets. We will take into account the careful analysis already carried out by the CC in its report and make a decision later this year.

Higher and Further Education: Buildings

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills from whom a *(a)* university and *(b)* further education college is required to seek permission to sell any of its buildings to a private company for (i) educational use and (ii) non-educational use; and if he will make a statement. [293132]

Mr. Lammy: Higher education institutions in receipt of funding from the Higher Education Funding Council for England (HEFCE) are not required to seek the permission of the council before the disposal of assets, including land or buildings regardless of their current or future use. In its financial memorandum with HEFCE each institution is required to operate an estates strategy which keeps under review their current and future assets requirement, and identifies opportunities for rationalisation where appropriate.

The Further and Higher Education Act 1992 provides that further education colleges may acquire and dispose of land and other property but the Act does not require a corporation to seek permission before doing so. However, in its financial agreement with colleges, the Learning and Skills Council does require a college to obtain its consent for capital transactions, where the total cost or proceeds exceed £1.5 million or 5 per cent. of the college's annual revenue (whichever is the lesser). The use of a building after sale does not affect this requirement.

Internet: Disabled

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the Digital Britain report, what reports his Department has received from the Consumer Expert Group on issues relating to people with disabilities' use of the internet. [293383]

Mr. Timms: I have received the Consumer Expert Group report into the use of the internet by disabled people: barriers and solutions. I am most grateful for this report, and the valuable contributions made to it not only by members of the Consumer Expert Group but also by a range of experts representing people with particular needs. The 16 recommendations are challenging and will be considered carefully by Government in conjunction with industry and the third sector. I have arranged for copies to be available in the Libraries of both Houses, and for the report to be published on the web alongside other Digital Britain publications.

Learning and Skills Improvement Service: Finance

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills how much funding his Department provided to the Learning and Skills Improvement Service in the latest period for which figures are available; and what proportion this constituted of the total budget of the Service. [293413]

Kevin Brennan: In 2008-09 BIS (then DIUS) funding was £99 million which represents 68 per cent. of the total LSIS income for that financial year.

Members: Correspondence

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills when he will reply to the letters of 1 June and 3 September 2009 from the hon. Member for Weston-Super-Mare on behalf of his constituent, Mrs. Jane Johnstone. [293200]

Mr. McFadden: The Department has no record of receiving these letters. Officials requested copies of these letters from the hon. Member and they have now been received. He will receive a response in due course.

Network Design and Procurement Group

Mr. Hunt: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the Digital Britain report, on what date the Network Design and Procurement Group was established. [293384]

Mr. Timms: The Network Design and Procurement Group, now called the Network Design and Procurement Company, was incorporated on 13 October.

Public Houses: Satellite Broadcasting

Mr. Laurence Robertson: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with the Competition Commission on the supply to public houses of satellite television services; and if he will make a statement. [293667]

Kevin Brennan: The Department has had no recent discussions with the Competition Commission on this issue.

Train to Gain Programme: Skills for Life Programme

Jim Cousins: To ask the Minister of State, Department for Business, Innovation and Skills what funding support for the *(a)* Train to Gain and *(b)* Skills for Life programme (i) was provided in 2008-09 and (ii) is to be provided in 2009-10 to each receiving college in the North East. [292801]

Kevin Brennan: The Learning and Skills Council (LSC) has responsibility for the funding of post 19 further education and skills.

Investment in Train to Gain in 2008-09 was £867 million and we plan to invest £925 million in 2009-10 (LSC grant letter, November 2008).

Skills for Life delivery is spread across a number of programmes and funding is incorporated within those budget lines. The amount of funding made available for Skills for Life is based on planned levels of activity for an academic year. Planned investment in adult (19+) Skills for Life courses delivered through Train to Gain and Adult Learner Responsive routes is nearly £600 million for 2008-09 and nearly £670 million for 2009-10 financial years. The final actual spend for the 2008/09 academic year is not yet available.

We do not hold information on LSC spend by region centrally. I have asked the chief executive of the LSC to write to you giving details of the funding provided to each college in the North East with a copy being placed in the House.

Union Modernisation Fund

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 21 July 2009, *Official Report*, column 1756-7W on the Union Modernisation Fund, if he will place in the Library a copy of the audit reports from those additional companies. [292964]

Mr. McFadden: I refer the hon. Member to the reply I gave on 13 October 2009, *Official Report*, column 836W.

HOME DEPARTMENT

Accreditation Service for International Colleges

Margaret Moran: To ask the Secretary of State for the Home Department what investigations his Department has made into the Accreditation Service for International Colleges; and if he will make a statement. [292794]

Mr. Woolas: The Accreditation Service for International Colleges (ASIC) has been approved by the UK Border Agency as an accreditation body under tier 4 of the points-based system, having met the criteria set by the agency with the assistance of Ofsted.

Alcoholic Drinks: Misuse

Justine Greening: To ask the Secretary of State for the Home Department what the aim of the alcohol arrest referral pilot is; how much has been *(a)* distributed to and *(b)* spent by each local authority through the pilot in each year since its inception; and how much his Department expects to award under the pilot in the next two years. [292417]

Mr. Alan Campbell: The aim of the alcohol arrest referral pilots is a reduction in alcohol related re-offending. The arrest referral pilots have been provided with grants by the Home Office which have either been administered by the Drug and Alcohol Action Team (DAATs) or the primary care trusts (PCTs). A table containing the amounts paid to the alcohol arrest referral pilots for 2007-08, 2008-09 and 2009-10 can be found at Table 1. No decisions have yet been made in respect of funding for 2010-11.

Table 1: Organisations that received alcohol arrest referral (AAR) pilot grant funding for the years 2007-08, 2008-09, 2009-10

£

	2007-08	*2008-09*	*2009-10*	*Total*

Table 1: Organisations that received alcohol arrest referral (AAR) pilot grant funding for the years 2007-08, 2008-09, 2009-10

£

	2007-08	*2008-09*	*2009-10*	*Total*
Ealing PCT	81,000	126,000	—	207,000
East Sussex DAAT	—	35,000	138,334	173,334
Islington PCT	—	66,125	—	66,125
Leicester, Leicestershire and Rutland DAAT	—	72,730	156,770	229,500
Lincolnshire DAAT	—	25,000	83,875	108,875
Liverpool DAAT	82,000	166,500	138,750	387,250
Manchester DAAT	82,000	91,500	—	173,500
Newcastle Council Children's Services	—	30,000	102,166	132,166
North East Lincolnshire DAAT	—	31,250	75,000	106,250
Northamptonshire DAAT	—	54,335	129,831	184,166
Staffordshire DAAT	—	30,000	100,000	130,000
Stoke-on-Trent Community Safety Partnership	—	63,000	135,333	198,333
Swindon DAAT	—	40,416	87,084	127,500
Total	327,000	1,138,654	1,558,741	3,024,395

Justine Greening: To ask the Secretary of State for the Home Department what categories of expenditure are covered by the Alcohol Arrest Referral Pilot; how many people have participated in the pilot; what assessment has been made of the re-offending rate among those who attended advice sessions in each year since the grant began; and what estimate he has made of the likely re-offending rates in pilot areas in the next two years. [292418]

Mr. Alan Campbell: The grants paid by the Home Office in relation to the Alcohol Arrest Referral pilots cover both the start up and running costs of the scheme. These costs include staff costs, administration, recruitment, training and IT costs. The Alcohol Arrest Referral pilots are currently being independently evaluated and the final report of the evaluation will be finished in summer 2010. We will not know the re-offending rates until the evaluation is complete.

Animal Experiments: Scotland

Ms Katy Clark: To ask the Secretary of State for the Home Department how many infringements of the Animals (Scientific Procedures) Act 1986 in Scotland were recorded in 2008; and how many of those resulted in a prosecution. [291588]

Mr. Alan Campbell: During 2008 there were three infringements of the Animals (Scientific Procedures) Act 1986 reported at designated establishments in Scotland, none of which resulted in a prosecution.

Ms Katy Clark: To ask the Secretary of State for the Home Department how many project licences in respect of work to be carried out in Scotland were granted under the Animals (Scientific Procedures) Act 1986 in 2008; and how many such project licences were in force at the end of 2008. [291819]

Mr. Alan Campbell: During 2008 153 project licences were granted under the Animals (Scientific Procedures) Act 1986 in Scotland. On 31 December 2008 there were 491 project licences in force in Scotland.

Ms Katy Clark: To ask the Secretary of State for the Home Department how many places in Scotland were designated as *(a)* a supplying establishment, *(b)* a breeding establishment and *(c)* a scientific procedure establishment under the Animals (Scientific Procedures) Act 1986 at the end of 2008. [291823]

Mr. Alan Campbell: As at 31 December 2008 in Scotland there were 12 supplying, 19 breeding and 32 user establishments designated under the Animals (Scientific Procedures) Act 1986. An establishment can be a user, breeder and supplier.

Antisocial Behaviour

John Austin: To ask the Secretary of State for the Home Department what recent representations he has received on the use of Mosquito ultrasonic deterrent devices; and if he will make a statement. [292957]

Mr. Alan Campbell *[holding answer 14 October 2009]*: The Home Office has received the following representations about the use of the Mosquito ultrasonic dispersal device:

Six (letters) from MPs on behalf of their constituents;

19 PQs from seven different MPs;

14 letters from members of the public and local authorities.

Of these, six were concerned that the device might breach a person's human rights and three were concerned with the legality of the device. Other questions and correspondence received referred to the use of the device and whether the Home Office will ban the device or provide guidance.

The Home Office encourages local agencies to consider the full range of innovations, schemes and practices intended to reduce crime, the fear of crime and antisocial behaviour. It is for local agencies like the police and local authorities to decide on the most appropriate interventions to tackle antisocial behaviour based on their knowledge of what works best locally, adopting a tiered approach to tackling antisocial behaviour using a blend of measures to provide a proportionate response.

The Home Office does not recommend or promote any commercial ultrasonic dispersal device or venture and at the present time does not have any plans to take further action on this matter.

Antisocial Behaviour Orders

John Mann: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in England in the last three years. [292226]

Mr. Alan Campbell *[holding answer 14 October 2009]*: Information on the number of Antisocial Behaviour Orders (ASBOs) issued is available up to 31 December 2007. The number of ASBOs issued at all courts in England during 2005 was 3,907, in 2006 2,507 and in 2007 2,136, making a total of 8,550.

Departmental Training

John Mason: To ask the Secretary of State for the Home Department how many external training courses were attended by staff of his Department in the last 12 months; and what the cost was of each course. [289604]

Mr. Woolas: The information requested is not held centrally and would be available only at disproportionate cost.

Entry Clearances: Pakistan

Fiona Mactaggart: To ask the Secretary of State for the Home Department what the longest period has been between the *(a)* application for and *(b)* issue or refusal of a UK visa in Pakistan; and on what date the successful appeal against refusal of that visa was concluded. [292367]

Mr. Woolas: The UK Border Agency (UKBA) holds records of visa applications dating back to 1992 but it is not possible to ascertain precisely the processing times for older cases. Therefore, the UKBA has examined applications made in Pakistan since January 2006.

The longest processing time from application to decision was 917 working days in respect of a family reunion application. The application was issued and hence there was no subsequent appeal.

Current processing times are advertised on the Visa Services website at:

www.ukvisas.gov.uk

Firearms

Chris Grayling: To ask the Secretary of State for the Home Department how many firearm offences, excluding those in which an air weapon was used, were recorded in each police force area in England and Wales in each year since 1998-99. [291776]

Alan Johnson: Available data relate to offences recorded in the period 1998-99 up to and including 2007-08, and are shown in the following table. Firearm statistics for 2008-09 are expected to be published in January 2010.

Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument against a person, or used as a threat.

The National Crime Recording Standard was introduced on 1 April 2002. Data for the years up to and including 2001-02 are not directly comparable with those for later years.

Crimes recorded by the police in which firearms (including air weapons) were reported to have been used[1] by region and police force area: England and Wales, 1998-99 to 2007-08

[1] Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument against a person or used as a threat.

[2] There was a change in the counting rules for recorded crime on 1 April 1998.

[3] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

[4] The National Crime Recording Standard was introduced on 1 April 2002, which may have resulted in inflated figures for some crime categories. Figures before and after this date are not directly comparable.

[5] City of London and Metropolitan police force areas.

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department which police forces use the Forensic Science Service centre in Chorley. [291452]

Mr. Alan Campbell: Under its current business model, the Forensic Science Service laboratory in Chorley can process work from any force in England and Wales, depending upon the type of test required. Chorley does not have the facilities to undertake the full range of forensic analysis. Primarily, the Chorley laboratory currently supports forces in North West—GMP, Merseyside, Cumbria, Lancashire, Cheshire and North Wales—along with the Isle of Man and Staffordshire.

Hooliganism: Football

John Mann: To ask the Secretary of State for the Home Department what assistance his Department is providing to the organisers of the Euro 2012 football tournament in Poland and Ukraine on safety and security issues. [292517]

Mr. Alan Campbell: There is close liaison with governmental, policing and other authorities in Poland and Ukraine. Home Office is supporting the host authorities in developing an integrated safety and security strategy for the Euro 2012 football tournament. This work is being pursued in partnership with the UEFA and the pan-European group of football safety and security experts which the Home Office chairs.

Identity Cards: Finance

Mr. Hurd: To ask the Secretary of State for the Home Department pursuant to the answer to Baroness Hanham of 1 June 2009, *Official Report*, House of Lords, column WA35, on identity cards, what payments have been made to external marketing communications or public relations firms in respect of communications on identity cards. [288883]

Mr. Woolas: In the financial year 2008-2009 payments of £62,000 were made to marketing communication agencies for public information activities to ensure businesses were aware of the Identity Card for Foreign Nationals when it was introduced in November 2008. These costs were shared by the Identity and Passport Service, UK Borders Agency and the Home Office.

In the financial year 2009-10 payments of £464,314 have been made to marketing communication agencies by the Identity and Passport Service in preparation for the launch of the Identity Card and Identification Card for UK citizens in Greater Manchester and for airside workers later this year. These payments contribute towards the cost of a public information campaign targeted at businesses and consumers.

No payments have been made to public relations firms in respect of communications on identity cards during either 2008-2009 or to date during 2009-2010.

Immigrants: Young Offender Institutions

Jim Cousins: To ask the Secretary of State for the Home Department how many young people at each young offender institution who were detained beyond their sentence expiry date as a consequence of unresolved immigration issues there were in *(a)* 2005, *(b)* 2006, *(c)* 2007 and *(d)* 2008. [292952]

Mr. Woolas *[holding answer 14 October 2009]:* Detention beyond sentence for foreign national offenders under the age of 18 is maintained only under my authorisation and in consultation with various sources of expertise, including the Office of the Children's Champion and Children's Services. Detention of child offenders is a last resort and all relevant matters are taken into account when considering their welfare.

Information on the number of foreign nationals held beyond their sentence specifically in each young offender institution can be obtained only by examining each individual record at disproportionate cost.

The Ministry of Justice latest published figures for the foreign national prisoner population as at 30 June 2009 on their website at:

http://www.justice.gov.uk/publications/populationincustody.htm

Offensive Weapons: Crime

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what his most recent estimate is of the adequacy of the provisions of current legislation in reducing the number of offences related to the possession of a knife; and what recent steps his Department has taken to increase the levels of awareness of these provisions by *(a)* the police and *(b)* local communities. [287722]

Mr. Alan Campbell *[holding answer 20 July 2009]:* Through the Tackling Knives Action Programme we examined legislation which resulted in an increase in the maximum penalty for possession of an offensive knife/weapon in a public place from two years to four years. We have also made it clear that anyone aged 16 or over should be prosecuted at their first offence. In addition, in phase 1 of the programme we have funded TKAP-police forces increased use of stop and search powers (under section 1 of Police and Criminal Evidence Act 1984 (PACE) and section 60 of the Criminal Justice and Public Order Act 1994) to recover weapons, we have increased the minimum age to be sold a knife from 16 to 18, created a new offence of using someone to mind a weapon and made it an aggravating factor if the person used is a child. This is having an effect—more people are going to jail for carrying knives and they are getting longer sentences.

In order to increase levels of awareness of the provisions available, on 22 July the Government hosted a Tackling Knives Action Programme/Youth Crime Action Plan One Year On Conference, which brought together ACPO representatives, frontline local agencies, community representatives, third sector stakeholders and young people. To further raise awareness, the Home Office will soon publish a tackling knives good practice guide.

Offensive Weapons: Crime Prevention

Ms Buck: To ask the Secretary of State for the Home Department which organisations have received funding from his Department under the Tackling Knives Action Programme; and how much was allocated in each case. [288337]

Mr. Alan Campbell *[holding answer 21 July 2009]:* In June the Government announced that more than 150 organisations will receive £2.3 million in 2009-10 to tackle knife crime, serious youth violence and support the victims of violent crime through the Community Fund, Youth Sector Development Fund and Victims' Fund.

The Victims' Fund (Homicide) allocated £334,000 between six organisations that support the families and friends of victims of homicide:

	£
Mothers Against Murder and Aggression	75,000
Winston's Wish (an organisation targeting bereaved children)	47,000
National Victims Association (chaired by David Hines)	74,000
Advocacy After Fatal Domestic Abuse	35,000
Damilola Taylor Trust	75,000
Support After Murder and Manslaughter Merseyside	28,000

Details of other successful third sector organizations in receipt of Home Office funding are available in the following link:

www.crimereduction.homeoffice.gov.uk/funding/funding013.htm

Police: Finance

Justine Greening: To ask the Secretary of State for the Home Department what the aim of the Neighbourhood Crime and Justice Grant is; how much Government funding has been *(a)* distributed to and *(b)* spent by each local authority in each year since their inception; and how much he expects to be spent in each of the next two years. [292419]

Mr. Alan Campbell: The aim of the Neighbourhood Crime and Justice (NCJ) grant is to help improve public confidence in how crime is tackled and justice delivered across England and Wales. This is targeted through a network of 60 Neighbourhood Crime and Justice 'Pioneer Areas'—60 Crime and Disorder Reduction Partnerships (CDRPs). Funding is paid out retrospectively against approved spend. Local programmes of work commenced between October 2008 and March 2009.

The following table shows the 2008-09 approved claims for funding by area and the amounts that areas can spend up to in 2009-10.

Areas	*2008-09 Claimed*	*2009-10 Allocation*
Barking and Dagenham	50,000	70,000
Barnsley	50,000	70,000
Birmingham	49,963	75,000
Blackburn with Darwen	31,670	70,000
Blackpool	50,000	70,000
Bolton	60,000	75,000
Bradford	29,889	75,000
Brent	60,000	75,000

Nuneaton and Bedworth	35,000	0
Oldham	25,000	70,000
Peterborough	20,136	70,000
Preston	36,304	70,000
Redcar and Cleveland	45,685	70,000
Rochdale	35,000	70,000
Rotherham	34,063	70,000
Salford	42,627	70,000
Sandwell	59,039	75,000
Sefton	0	75,000
Sheffield	4,427	75,000
Slough	50,000	70,000
South Tyneside	50,000	70,000
Southampton	32,404	70,000
St Helens	50,000	70,000
Stoke-on-Trent	28,968	70,000
Sunderland	45,000	75,000
Swansea	23,654	70,000
Tameside	32,223	70,000
Thanet	50,000	70,000
Tower Hamlets	40,430	70,000
Wakefield	59,699	75,000
Walsall	13,127	75,000
Waltham Forest	1,940	70,000
Wolverhampton	43,313	70,000
Total	2,191,548	4,275,000

Justine Greening: To ask the Secretary of State for the Home Department what categories of expenditure are covered by the neighbourhood crime and justice grants funding; how many neighbourhood crime and justice co-ordinators are funded by the grant; what the average salary cost of a neighbourhood crime and justice co-ordinator is; what the official duties of neighbourhood crime and justice co-ordinators are; and what the average number of contracted hours of such co-ordinators are. [292420]

Mr. Alan Campbell: Home Office expenditure covers funding for the employment of Neighbourhood Crime and Justice (NCJ) coordinators and supplementary spend against three evidence-based priorities to improve public confidence in how crime is tackled and justice delivered. These priorities are to

> raise awareness and understanding of the public's entitlements from the police and other criminal justice agencies;
>
> ensure that public services are taking action on the crime and antisocial behaviour issues that are local priorities for the public;
>
> help demonstrate to the public that there are consequences for those who break the law.

The NCJ grant provides funding for co-ordinators in 60 NCJ "Pioneer Areas". These are 60 Crime and Disorder Reduction Partnerships (CDRP) which were invited to become Pioneer Areas based on a range of indicators, including public perceptions of antisocial behaviour and confidence in local services, deprivation levels and population size.

The specific official duties and terms and conditions of NCJ co-ordinators will vary according to the prevailing arrangements within each Pioneer Area. Information on average salaries and hours is not held centrally. They are directly employed by, and therefore responsible to, one of the organisations that comprise the local CDRP, typically the local authority.

Police: Football

Mark Williams: To ask the Secretary of State for the Home Department what recent discussions he has had with police forces on the effects of the compensation paid to football supporters on the application of section 27 of the Violent Crime Reduction Act 2006. [291593]

Mr. Alan Campbell: Home Office has had discussions on the use of section 27 powers in policing football operations with the ACPO lead on football matters. This provision is one of a number of operational tools available to chief police officers. This is a matter for local chief officers. Section 27 of the Violent Crime Reduction Act 2006 makes clear that the powers should be used in a proportionate and appropriate manner.

Racial Hatred: Football

John Mann: To ask the Secretary of State for the Home Department how many reports of racist abuse relating to football matches police forces in England and Wales received during the 2008-09 football season. [292042]

Mr. Alan Campbell: Levels of racist behaviour in connection with football matches in England and Wales is extremely low. During the football season 2008-09, over 36 million spectators attended over 3,100 competitive and friendly matches. In total, local police recorded 64 incidents of "hate crime" inside and outside of football stadia. This categorisation of hate crime includes racist and homophobic chanting or behaviour, incidents involving ethnic minority fans or local residents, the distribution of racist material, and other racist or extreme right wing activity. The incidents recorded usually involved individuals as opposed to groups of fans.

A great deal has been achieved over the past decade in terms of preventing and tackling racism in connection with football. All of the agencies involved in football safety and security, including supporter groups, are committed to working together to combat hate crime, including racism. The law makes clear that the courts should consider imposing a football banning order on any person convicted of racist chanting or other racially aggravated offences committed in connection with football.

Road Traffic Offences: M4

Mr. Goodwill: To ask the Secretary of State for the Home Department how many prosecutions have been brought for illegal use of the M4 bus and taxi lane since the lane was established. [293133]

Mr. Alan Campbell: This information is not collected centrally. Court proceedings data held by the Ministry of Justice do not separately identify offences of illegal use of bus lanes (under Section 36 of the Road Traffic Act 1988 and Regulation 10 of the Traffic Signs and General Directions Regulations 2002) from other offences of neglect of traffic directions. Nor is the location of such offences recorded.

Mr. Goodwill: To ask the Secretary of State for the Home Department what arrangements are in place to monitor compliance with the terms of use of the M4 bus lane. [293134]

Mr. Alan Campbell: The police can deal with illegal use of the bus lane by giving an oral or written warning, the issue of a £60 fixed penalty notice or by proceeding to prosecution. Metropolitan Police traffic officers are regularly deployed on that section of the M4 which includes the bus lane. Any police officer who witnesses an offence taking place there will take whatever action is appropriate in the circumstances. In addition, the Metropolitan Police are working in partnership with the Highways Agency and Transport for London to devise medium and long term solutions in relation to the lane's use and safety.

Scotland

Stewart Hosie: To ask the Secretary of State for the Home Department whether his Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288957]

Mr. Woolas: The Home Office has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The commission recently published its final report, which can be found at:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

Students: Immigration

Margaret Moran: To ask the Secretary of State for the Home Department how many students from colleges not on the Register of Education and Training Providers have applied for permanent residence in the UK in each of the last five years. [292796]

Mr. Woolas: The student category does not lead to settlement and information is not available as to how many migrants who have been granted settlement were previously here as students.

Stun Guns: Children

Natascha Engel: To ask the Secretary of State for the Home Department what safety assessment his Department has conducted on the use of taser guns and attenuating energy projectiles in relation to children; and if he will make a statement. [291937]

Mr. Alan Campbell: The Home Office Scientific Development Branch have produced three reports evaluating Taser devices. We have also submitted the use of Taser according to Association of Chief Police Officers (ACPO) guidance to an independent group of medical advisers—DOMILL (Defence Scientific Advisory Council (DSAC) Sub-committee on the Medical Implications of Less-lethal Weapons).

DOMILL has issued five statements on the medical implications of the use of the Taser. Its view is that the risk of death or serious injury from the use of Tasers within ACPO Guidance and Policy is very low. The fourth DOMILL statement identified children and adults of smaller stature as being at potentially greater risk from the cardiac effects of Taser currents than normal adults of average or large stature. The ACPO guidance to officers highlights this point.

ACPO guidance on the use of Attenuated Energy Projectile (AEP) states that every effort should be made to ensure that children are not placed at risk by the firing of baton rounds in public order situations. The guidance is also clear that deployment of AEP in a public order situation must be restricted to use against clearly identified individuals who are presenting a threat which must be countered.

Medical evaluation of the AEP by DOMILL concluded that the risk of serious and life-threatening injury to the head is less than that from its predecessor the L21A1 Baton Round, which already had a low risk of such injury.

UK Border Agency: Manpower

Mr. Oaten: To ask the Secretary of State for the Home Department how many immigration officers his Department employs overseas to screen passengers of inbound flights to the United Kingdom at airports *(a)* in and *(b)* outside the EU. [292932]

Mr. Woolas *[holding answer 14 October 2009]:* The UK Border Agency's Risk and Liaison Overseas Network (RALON) currently employs 98 staff designated as Immigration Liaison Managers and Officers overseas, 14 within the EU and 84 in non-EU locations.

One of RALON's core functions is to support carriers at airports to identify those without correct documentation from seeking to travel to the UK.

RALON staff only operate at airports in an advisory capacity, achieved through the provision of training and expertise to airlines in UK passport and visa requirements and forgery awareness, to assist them to prevent inadequately documented passengers from boarding. RALON staff have no legal powers overseas and the decision on whether to carry a passenger is always made by the airline.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what obligations local authorities have to provide sufficient allotment sites to meet demand. [292706]

Barbara Follett: Under the Smallholdings and Allotments Act 1908 there is a duty on local authorities to provide allotments where they perceive a demand for them in their area. Where an allotments authority is of the opinion that there is a demand for allotments in its area, section 23 of the 1908 Act puts the authority under a duty to provide a sufficient number of allotments and to let them to persons residing in its area who want them.

Legislation does not lay down minimum standards or a required nature or extent of allotment garden provision. The Government consider it appropriate that each local authority should decide for itself what proportion of its resources to devote to these purposes. Allotment authorities therefore have room to exercise discretion about the level of and time scale for provision of allotment gardens and facilities on site.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate he has made of the average waiting time for an applicant to secure a local authority allotment. [292730]

Barbara Follett: Local authorities are responsible for keeping and managing waiting lists for allotments they provide. Government do not require local authorities to provide data on the average waiting time for an applicant to secure a local authority allotment.

Audit Commission: Pay

David Taylor: To ask the Secretary of State for Communities and Local Government what discussions *(a)* Ministers in his Department and *(b)* members of his Department's board have had with the Chief Executive of the Audit Commission on the consolidated pay rise for the Commission's senior management that followed the cancellation in June of the optional bonus scheme; and if he will make a statement. [292181]

Barbara Follett: There have been no such discussions between CLG Ministers or CLG board members.

Building Regulations: Energy

Norman Baker: To ask the Secretary of State for Communities and Local Government how many contraventions of Part L of the Building Regulations have taken place in each year since 2000; how many of them were resolved before project completion; and how many of the contraventions which were left unresolved before project completion resulted in prosecution. [292140]

Mr. Malik: I refer the hon. Member to the answer I gave him on 1 September 2009, *Official Report*, column 1830W.

Council Housing

Simon Hughes: To ask the Secretary of State for Communities and Local Government how many new council homes have been built in England in each year since 1997; and at what cost in each such year. [293141]

Mr. Ian Austin: Figures showing how many new council (local authority) homes have been built in England in each year since 1997 were released in Live Table 244 on the CLG website in August 2009. These include total house building completions by tenure, including local authority completions at:

http://www.communities.gov.uk/documents/housing/xls/140912.xls

Estimates on the cost of local authority house building activity is not held centrally.

Council Tax: Appeals

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 1 July 2009, *Official Report,* columns 308-9W, on council tax: appeals, what information his Department holds on the *(a)* number of council tax appeals decided and *(b)* decisions relating to each such case in (a) 2004-05 and (b) 2005-06. [292976]

Barbara Follett: The Valuation Tribunal Service (VTS) does not hold information on the number of council tax appeals decided in 2004-05 or 2005-06. There are no statistical data for those decisions and to provide the data would incur disproportionate cost, but all the individual decisions are available for inspection in the VTS' offices and many of the decisions appear on their website:

www.valuationtribunal.gov.uk

Councillors

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 1 July 2009, *Official Report,* columns 309-11W, on councillors, what mechanisms he uses to assess the implementation by political parties of the recommendations of the Councillors Commission report. [292975]

Barbara Follett: The Government are not monitoring the political parties' implementation of the recommendations of the Councillors Commission report. We are however supporting the Leadership Centre for Local Government to work with the political parties on the "21st Century Councillors" programme and the national roll-out of the "Be A Councillor" campaign, both of which take forward the Councillors Commission agenda.

Departmental Freedom of Information

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his Department's policy is on sending a written acknowledgement, including a case reference number, on receipt of a request under the Freedom of Information Act 2000. [292882]

Barbara Follett: It is the policy of this Department to send acknowledgements of all Freedom of Information requests received within seven days of receipt in the Department except where it is possible to provide a substantive response within that time or shortly thereafter.

Departmental Furniture

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 May 2009, *Official Report*, column 234W, on departmental furniture, which *(a)* offices and *(b)* individuals received each (i) Dean and (ii) Hay model of the Herman Miller chair. [292987]

Barbara Follett: Communities and Local Government purchased the Dean and Hay model of chairs for use in general areas of Eland House, not for individual staff. These chairs were purchased through Herman Miller, but manufactured by Orangebox.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 May 2009, *Official Report*, column 234W, on departmental furniture, how many Herman Miller chairs were ordered by the Department in 2008-09; and what the *(a)* model and *(b)* cost, including value added tax, was of each. [292988]

Barbara Follett: Communities and Local Government did not order any chairs manufactured by Herman Miller in 2008-09.

Empty Property

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many empty dwellings were owned by *(a)* local authorities, *(b)* registered social landlords and *(c)* others in each of the last three years. [292814]

Barbara Follett: The following table shows estimates of the number of empty dwellings owned by local authorities, registered social landlords and in the private sector in England in each of the last three years.

	2006	*2007*	*2008*
Local authority	42,870	40,960	36,940
Registered social landlords	30,170	30,770	29,240
Private enterprise	675,120	691,590	717,840
Total number of vacants	748,160	763,320	784,020

Sources:

Total vacants: Council Taxbase and Council Taxbase Supplementary (CTB1 and CTB1S) returns from local authorities for October 2006-2008.

Local authority: Housing Strategy Statistical Appendix (HSSA) submitted to Communities and Local Government by local authorities for1 April 2006-2008; RSL: Regulatory Statistical Return (RSR) as reported to the Housing Corporation by registered social landlords for31 March 2006-2008.

Total vacant dwellings reported by local authorities through Council Taxbase returns include long term and short term empty dwellings.

Figures for Registered Social Landlords are for self-contained general needs units only.

Vacant private enterprise dwellings are estimated by subtracting RSL and local authority vacant dwellings from the total number of vacant dwellings.

SpaceFlex

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much has been spent on the SpaceFlex initiative in his Department; and how much has been spent on consultancy services associated with the initiative. [292727]

Barbara Follett: Communities and Local Government has spent £4,685,000 on the SpaceFlex initiative, of which £1,045,000 has been spent on consultancy services.

The SpaceFlex initiative moves Communities and Local Government staff from two buildings into one, enabling savings of £4.5 million per annum on reduced operating costs.

Housing: Carbon Monoxide

Tom Levitt: To ask the Secretary of State for Communities and Local Government when he expects to announce the outcome of his review of part J of the Building Regulations in respect of the provision of carbon monoxide detectors. [291938]

Mr. Ian Austin: The part J consultation commenced on 3 September and is due to close on 26 November. The provision of carbon monoxide detectors is just one aspect being considered as part of this consultation. We expect to announce the outcome of this review in April 2010, six months before coming into effect.

Housing: Finance

Mr. Oaten: To ask the Secretary of State for Communities and Local Government how much housing revenue has been transferred from each local housing authority to central government in each of the last three years; and what methodology his Department uses to redistribute such funds to local authorities. [292918]

Mr. Ian Austin *[holding answer 14 October 2009]:* I refer the hon. Member to the answer I gave him on 9 September 2009, *Official Report*, column 2006W.

The methodology employed for establishing subsidy payments to, and receipts due, from local authorities is set out in detail within the HRA Manual, which is available on the Communities and Local Government website, and annual Determinations issued by the Department. Each local authority's guideline rental income and estimated need to spend on their properties are calculated on the basis of data supplied by the authorities. The results of these calculations are published by the Department annually in the Housing Revenue Account Subsidy Determination. Payments to or from the Exchequer are made in 10 instalments through the year.

Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether his Department has conducted an impact assessment of the Government's commitment to build all publicly-funded homes to the Lifetime Homes Standard from 2011. [292455]

Mr. Ian Austin: In June 2007 the Department published a consultation on Making a Rating Mandatory within the Code for Sustainable Homes. This included an impact assessment which took account of the public sector commitment to build to Lifetime Homes Standards from 2011. The document can be downloaded at:

http://www.communities.gov.uk/documents/housing/doc/Thefutureofthecode.doc

We will be consulting on proposed changes to the code for Sustainable Homes in due course, and this will include our proposal to make Lifetime Homes Standards mandatory at Code Level 4. The consultation will be supported by a full impact assessment.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the requirements for compliance with the Lifetime Homes Standard are. [292462]

Mr. Ian Austin: Some elements of the Lifetime Homes Standard are already included in Part M (Access to and use of buildings) of the Building Regulations, including features such as level or gently sloping approach to the property, level entrance threshold, accessible heights for switches and controls, and accessible requirements for common areas of communal dwellings. Compliance with these elements is assessed through Local Authority Building Control or Government Approved Inspectors.

The Lifetime Homes Standard is also included within the Health and Wellbeing category of the Code for Sustainable Homes where it is mandatory for properties at Code Level 6 (though not currently at lower code levels). Since May 2008 all new homes are required to be rated under the code, though a developer may choose to sign a free 'nil rated' certificate if they wish only to build to current Building Regulations rather than higher levels of the code.

We will be consulting later this year on our proposals to make Lifetime Homes Standards Mandatory at Code level 4 from 2010. Assessing compliance with the Code for Sustainable Homes is undertaken by registered Code Assessors.

In some instances local planning authorities also require new housing to deliver varying levels of compliance with the Lifetime Homes Standard through the planning system.

Housing: Valuation

Mrs. Maria Miller: To ask the Secretary of State for Communities and Local Government pursuant to the answers to the hon. Member for Brentwood and Ongar of 9 September 2009, *Official Report*, columns 1924-7W, to the hon. Member for Ludlow of 14 September 2009, *Official Report*, columns 2131-2W, and to the hon. Member for Meriden of 16 September 2009, *Official Report*, columns 2212-4W, on housing valuation, how many properties are recorded with each individual *(a)* dwellinghouse code and *(b)* value significant code, including each individual (i) type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of floors, (v) floor level, (vi) parking, (vii) garaging, (viii) conservatory type, (ix) age, (x) outbuilding and (xi) modernisation code in the local authority area of Basingstoke, according to electronic records held by the Valuation Office Agency. [292321]

Justine Greening: To ask the Secretary of State for Communities and Local Government pursuant to the answers to the hon. Member for Brentwood and Ongar of 9 September 2009, *Official Report*, columns 1924-7W, to the hon. Member for Ludlow of 14 September 2009, *Official Report*, columns 2131-2W, and to the hon. Member for Meriden of 16 September 2009, *Official Report*, columns 2212-4W, on housing valuation, how many properties in each London borough are recorded with each individual *(a)* dwellinghouse code and *(b)* value significant code, including each individual (i) type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of bathrooms, (v) floors, (vi) floor level, (vii) parking, (viii) garaging, (ix) conservatory type, (x) age, (xi) outbuilding and (xii) modernisation code according to electronic records held by the Valuation Office Agency; and if he will make a statement. [292320]

Mr. Djanogly: To ask the Secretary of State for Communities and Local Government how many properties in Huntingdonshire district are recorded with each individual *(a)* dwellinghouse code and *(b)* value significant code, including each individual (i) type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of bathrooms, (v) floors, (vi) floor level, (vii) parking, (viii) garaging, (ix) conservatory type, (x) age, (xi) outbuilding and (xii) modernisation code according to electronic records held by the Valuation Office Agency. [292179]

Barbara Follett: The number of properties with each individual dwellinghouse code and each value significant code, for all local authority areas in England, will be placed in the Library of the House.

Land Use: South East

Fiona Mactaggart: To ask the Secretary of State for Communities and Local Government what estimate he has made of the amount of undeveloped land appropriate for housing owned by those local authorities in the South East which have indicated they have insufficient housing supply. [292532]

Mr. Ian Austin: Approximately 3,238 hectares of public land exists in the South East, based on a September 2009 estimate. This consists of a mixture of projects under construction and land that will come forward at different times. It will not all be suitable for housing. The figure is for all public sector bodies generally—not just local planning authorities.

Looking After Our Town Centres

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the Independent Retailers' Association's submission to his Department's review, Looking after our town centres. [292886]

Barbara Follett: "Looking after our Town Centres" was a joint CLG/DCMS guide which sets out ways in which local authorities can promote alternative uses for vacant shops in town centres, and other ideas for boosting high streets. It brings together existing guidance; highlights practical approaches and explains additional steps the Government are taking to help town centres. We did not invite submissions when preparing the guide, and the Independent Retailers' Association have not contacted us about it. However, we continue to discuss issues affecting town centres with a wide range of stakeholders.

National Housing and Planning Advice Unit

Grant Shapps: To ask the Secretary of State for Communities and Local Government what remuneration each of the board members of the National Housing and Planning Advice Unit received in each of the last three years. [292353]

Mr. Ian Austin: The National Housing and Planning Advice Unit's Board were appointed in November 2006 to oversee and steer the unit's work programme, and help deliver its objective to provide an evidence base for advice on improving housing supply and affordability. They bring an independent and expert view to the housing supply debate, based on their wide range of expertise in housing and economics. This shapes the unit's work and outputs, such as its advice on housing supply numbers to be tested in the planning process, and its research programme.

Board members are entitled to claim the following remuneration for their NHPAU activities:

Chair: £468.00 per day up to a maximum of 2.5 days per month;

Other Board members (x 5): £350 per day up to a maximum of 2.5 days per month.

However, the total remuneration amounts paid to Board members over each of the three years was considerably less than their entitlement:

November 2006 to March 2007: £9,047

Each Board member claimed between £0 and £2,450 during this period

April 2007 to March 2008:: £26,972

Each Board member claimed between £0 and £7,722 during this period

April 2008 to March 2009: £30,991

Each Board member claimed between £2800 and £8,750 during this period

April 2009 to July 2009: £8,701

Each Board member has claimed between £0 and £3,276 during this period.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what reference number format is used by the Valuation Office Agency to describe different sub-locations for non-domestic rates purposes. [292629]

Barbara Follett: A simple unique alpha-numeric code, which acts as a label for a particular category of property having similar characteristics.

Planning and Compulsory Purchase Act

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what directions have been issued to date by the Secretary of State, pursuant to Part 1 section 2 of the Planning and Compulsory Purchase Act, in re-designating the regional planning bodies in each Government Office region outside London; and what the *(a)* old and *(b)* new designated organisations are in each case. [292547]

Mr. Ian Austin: The table shows the directions that have been made in respect of the designation of recent regional planning bodies.

Previous regional planning body name	*New regional planning body name*	*Date direction came into effect*
North West Regional Assembly	North West regional Leaders' Forum	14 July 2008
South East England Regional Assembly	South East England Partnership Board	[1]1 April 2009
North East Assembly	North East Planning Body	1 April 2009
Yorkshire and Humber Assembly	Yorkshire and Humber Joint Regional Board	1 April 2009
South West Regional Assembly	South West Strategic Leaders' Board	8 May 2009

[1] Revised due to change in membership 20 July 2009

Positive Futures Programme

Justine Greening: To ask the Secretary of State for Communities and Local Government what the aim of the Positive Futures Programme is; how much funding was *(a)* distributed to local authorities via the Programme by (i) his Department and (ii) each other contributing partner and *(b)* subsequently spent by local authorities by local authority in each year since the Programme began; and what estimate he has made of the amount of such funding to be provided in the next two years. [292413]

Mr. Alan Campbell: I have been asked to reply.

The Positive Futures programme aims to prevent young people from becoming involved in substance misuse, crime and antisocial behaviour by engaging them in activities and support them in accessing education, training, employment and volunteering opportunities.

Total Home Office expenditure on the Positive Futures programmes is as follows:

	Expenditure	£
2004-05	outturn expenditure	6,240,990
2005-06	outturn expenditure	5,812,928
2006-07	outturn expenditure	5,832,101
2007-08	outturn expenditure	6,007,641
2008-09	outturn expenditure	5,988,469
2009-10	budget	5,999,000

Source:
Home Office Accounting System

Expenditure from previous years, funding from contributing partners and breakdown by local authority is not available without disproportionate cost.

The indicative budget allocation for 2010-11 is £5,999,000. Budget allocations for 2011-12 have yet to be determined.

Justine Greening: To ask the Secretary of State for Communities and Local Government what categories of project the Positive Futures Programme budget has been spent on; how many people have received assistance from the scheme; what the drop-out rate has been in each year since the Programme began; and what drop-out rate is predicted for the next two years. [292414]

Mr. Alan Campbell: I have been asked to reply.

The Positive Futures programme has provided grant funding to projects to work with 10 to 19-year-olds and deliver sports activities, physical activities, arts and performance activities and educational and advice sessions. Spend is not broken down by category of project. Consistent and comparable figures are only available from 2006-07 onwards and data shows that the total number of participants in contact with the programme from October 2006 to March 2008 was 71,062. The latest data on numbers of participants for 2008-09 is expected to be published in December 2009.

Positive Futures is an open access early intervention programme and does not have specified start and end points. Participants do not therefore drop out but do engage with the programme for different periods achieving a variety of qualifications and outcomes through their period of engagement. In 2007-08, 64.5 per cent. of participants recorded engagement levels were in a positive direction (which included gaining qualifications or employment) compared to 58 per cent. in 2006-07. Data on engagement levels for 2008-09 is expected to be published in December 2009. No prediction on engagement levels for the next two years is available.

Public Land Initiative

Mr. Neil Turner: To ask the Secretary of State for Communities and Local Government which organisations attended the event hosted by the Homes and Communities Agency of 21 July 2009 on the proposed Public Land Initiative; and when he expects to announce the approved delivery partners for that initiative. [293386]

John Healey: The Public Land Initiative (PLI) was started in June this year as part of the Prime Minister's Housing Pledge. It will produce 1,250 new homes, including around 500 affordable homes, on a small number of sites owned by the Homes and Communities Agency (HCA). This is an important new initiative, not just because it will create much needed new homes, but because it is testing out a different approach to procurement and delivery.

The interest from industry has been significant. 152 organisations attended a seminar organised by the HCA in July before the formal procurement started. This event attracted people from across the sector, including traditional housebuilders, construction and development firms, and registered social landlords. I have placed a full list of companies attending this seminar in the House of Commons Library.

In December I will announce final decisions on the firms that make the panel as direct delivery partners, and the allocated sites. I expect the first builders on site by April and the first 50 of the new homes finished within a year of that.

Radicalism

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government what recent representations he has received on changing the level of priority accorded to tackling *(a)* violent extremism, *(b)* extremism perpetrated in the name of Islam, *(c)* extremism perpetrated in the name of neo-nazi and fascist causes and *(d)* extremism claimed by others; and if he will make a statement. [293389]

Mr. Malik: We are clear that the threat from al-Qaeda influenced extremism remains the most significant terrorist threat to the UK, although we have recently been able to downgrade the official threat level from 'severe' (an attack is highly likely) to 'substantial' (an attack is a strong possibility).

We are working to ensure that everyone has the opportunity to live in a safe, prosperous and healthy community and are determined to support communities by increasing their capacity to tackle the philosophy or practice of violence in their own communities. A number of related but distinct programmes contribute to this, including promoting community cohesion, preventing violent extremism and tackling hate crime and other forms of extremism.

The level of priority accorded to different types of extremism will depend on the level of the problem in the local area. We are also seeking to work to eradicate the risk of far-right violent extremism. Our objective is to attempt to impact on extremist ideologies that threaten our communities irrespective of their source and origin.

Ministers and officials have frequent formal and informal contact with communities and local authorities where issues and concerns presented by different forms of extremism are discussed. We do not record the number of these representations.

Regional Government: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 7 May 2009, *Official Report*, column 398W, on regional assemblies, what the estimated total revenue cost is of the Regional Assemblies and their successor bodies, including local authority funding. [292860]

Mr. Ian Austin: The estimated total revenue cost for Regional Assemblies and their successor bodies for 2009-10 provided by Central Government remains at £18 million. Local authorities may also provide funding for activities but details of these are not held centrally.

Shops: Empty Property

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) which local authorities have received funding from his Department's empty shop revival fund; [292747]

(2) with reference to his Department's press release of 13 August 2009, on the empty shops revival fund, whether local authorities are required to specify how they will spend their allocation before they receive a grant from the fund. [293022]

Barbara Follett: The following table lists the 57 local authorities that have each received £52,631.58 to help them promote alternative uses for vacant shops in town centres, and other ideas for boosting high streets. This is new funding for 2009-10 only, which forms part of the package of support that CLG is providing to boost town centres and high streets, as set out in "Looking after our Town Centres", which we published with the Department for Culture, Media and Sport in April.

We allocated this funding to local authorities showing high levels of deprivation and high shop vacancy rates. There was no bidding process. In accordance with the Government's policy on local authority funding, this is unringfenced grant and councils are not required to inform CLG how they intend to spend this funding. However, we wrote to all local authorities receiving the grant, highlighting some of the ideas and approaches that councils are already taking to boost their high streets and other support available.

Social Rented Housing

Simon Hughes: To ask the Secretary of State for Communities and Local Government what steps the Government is taking to ensure that rent increases for housing association tenants in England are affordable. [293142]

Mr. Ian Austin: The Tenant Services Authority regulates registered social landlords (RSLs) in England to ensure that they provide decent homes and services for tenants. To protect tenants, TSA regulation places a limit on the maximum amount by which rents can rise each year. This limit is linked to the retail price index (RPI) as at the previous September. Rent can be increased by a maximum of RPI plus 0.5 per cent., plus £2 per week for rents that are below target levels.

In July, as part of a consultation on draft directions to the TSA, the Government published proposals relating to the regulation of RSL rents after 1 April 2010. The consultation paper is available via the Communities and Local Government website at:

http://www.communities.gov.uk/publications/housing/tsadirections

The Department intends to publish the final directions shortly.

Simon Hughes: To ask the Secretary of State for Communities and Local Government what progress has been made in discussions with the Tenant Services Authority on future rent restructuring to replace the current guideline limit; and if he will make a statement. [293143]

Mr. Ian Austin: In July, as part of a consultation on draft directions to the Tenant Services Authority, the Government published proposals relating to the regulation of rents set by registered social landlords after 1 April 2010. These proposals are based on a continuation of the rent restructuring policy set out in the document "Guide to Social Rent Reforms" which was published by the Government in March 2001. The consultation paper is available via the Communities and Local Government website at:

http://www.communities.gov.uk/publications/housing/tsadirections

The Department intends to publish the final directions shortly.

Simon Hughes: To ask the Secretary of State for Communities and Local Government how many housing associations in England have increased rents by the full guideline limit in each of the last three financial years for which figures are available. [293144]

Mr. Ian Austin: The TSA annually collects (through the RSR form) details of the average actual rent and target rent, for each local authority area by bed size for each housing association with more than 1,000 homes. Because of the impact of new properties being developed each year and the option to re-let properties at target rent, it is not possible to tell from this data whether the landlord has applied the full allowable rent increase.

Using this data, the TSA monitors the convergence of actual rents to target rents and looks to identify evidence of rents increasing too quickly (or falling too slowly). Where this happens, the TSA's field teams will discuss the issue with the landlord concerned and carry out any necessary investigations.

Social Rented Housing: Construction

Mr. Meacher: To ask the Secretary of State for Communities and Local Government how many social housing units have been built in each of the last 10 years; what the cost *(a)* in total and *(b)* per unit was in each such year; how many such units are planned to be built in each of the next five years; what the estimated cost (i) in total and (ii) per unit is in each of those years; and how many households were on a housing waiting list for (A) local authority housing and (B) housing association housing (1) in each of the last 10 years and (2) on the latest date for which information is available. [292136]

Mr. Ian Austin *[holding answer 12 October 2009]:* We have published on the Communities and Local Government website tables showing affordable housing completions from 1991-92 for both new build and acquisition.

http://www.communities.gov.uk/documents/housing/xls/1000.xls

The following table shows the total expenditure through the Affordable Housing Programme over the years 1999-2000 to 2008-09 together with the average grant per unit for each year.

Allocation year	*Total AHP expenditure (capital) (£ million)*	*Allocation cost per unit*
1999-2000	815	28,454
2000-01	830	36,697
2001-02	823	47,640
2002-03	1,030	56,874
2003-04	1,805	62,988
2004-05	1,624	63,639
2005-06	1,598	54,556
2006-07	1,923	60,588
2007-08	2,004	59,729
2008-09 (provisional)	2,625	65,773

Source:
Homes and Communities Agency

As set out in the Homes and Communities Agency's Corporate Plan we are expecting to invest £3,248 million and £2,480 million in 2009-10 and 2010-11 respectively through the Affordable Housing Programme. Schemes bid for grant on a competitive basis. The HCA receive bids on a continuous basis and assess them against set criteria including value for money, as a result grant per unit for any year is not available until after year end.

The number of households registered on local authority housing waiting lists in each local authority, as at 1 April each year from 1997 to 2008, is published on the Communities and Local Government website in Table 600. Where local authorities and registered social landlords operate a common register, households registered with the RSL will be included in the data. However, registered social landlords are independent bodies and can keep their own waiting lists. The link for this table is as follows:

http://www.communities.gov.uk/documents/housing/xls/table600.xls

Social Rented Housing: Finance

Mr. Hepburn: To ask the Secretary of State for Communities and Local Government what capital funding his Department has provided for social housing in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [291543]

Mr. Ian Austin: The following tables show the funding provided through the Homes and Communities Agency's Affordable Housing Programme for social rent and low cost home ownership in South Tyneside local authority, the North East Region, and England in each year since 1997.

Affordable Housing Programme expenditure in South Tyneside

£ million

	Social rent	*LCHO*	*Total social rent and LCHO*
1997-98	0.65	0.35	1.00
1998-99	0.91	0.13	1.04
1999-2000	1.24	0.42	1.66
2000-01	0.59	0.11	0.70
2001-02	0.97	0.13	1.10
2002-03	2.44	0.12	2.56
2003-04	4.23	0.11	4.34
2004-05	1.44	0.07	1.51
2005-06	3.87	0.05	3.92
2006-07	2.64	0	2.64
2007-08	1.57	0	1.57
2008-09	1.52	0.03	1.55

Affordable Housing Programme expenditure in North East Region

£ million

	Social rent	*LCHO*	*Total social rent and LCHO*
1997-98	17.29	4.46	21.75
1998-99	15.45	2.57	18.02
1999-2000	15.71	1.56	17.27
2000-01	15.81	1.58	17.39
2001-02	18.65	1.36	20.01
2002-03	19.6	0.84	20.44
2003-04	34.94	2.07	37.01
2004-05	35.37	1.75	37.12
2005-06	31.94	2.55	34.49
2006-07	38.66	3.13	41.79
2007-08	33.53	2.55	36.08
2008-09	52.53	4.87	57.40

Affordable Housing Programme expenditure in England

£ million

	Social rent	*LCHO*	*Total social rent and LCHO*
1997-98	456.47	159.29	615.76
1998-99	446.51	115.75	562.26
1999-2000	522.79	79.31	602.10
2000-01	575.66	97.22	672.88

Homes and Communities Agency Investment Management System (IMS) Information on funding for affordable housing is not available by constituency.

INTERNATIONAL DEVELOPMENT

Afghanistan: Lapis Lazuli

Harry Cohen: To ask the Secretary of State for International Development whether his Department's efforts to promote economic development in Afghanistan have included steps to support exploitation for trade purposes of its lapis lazuli resources. [293218]

Mr. Michael Foster: The Department for International Development (DFID) committed almost £4.2 million to a four-year programme (2004-08) aimed at strengthening the institutional capacity of the Afghanistan Geological Survey and establishing a viable minerals industry (including Lapis Lazuli). Further information about this programme is available from:

http://www.bgs.ac.uk/AfghanMinerals/Index.htm

DFID is also working to improve the wider conditions for trade and investment by supporting Harakat (formerly the Afghanistan Investment Climate Facility). Further information on Harakat is available from

http://www.harakat.af

Departmental Information Officers

Andrew Rosindell: To ask the Secretary of State for International Development how many press officers his Department employs. [290330]

Mr. Michael Foster: The White Book, published by the Central Office of Information (COI) every six months, contains details of the Department for International Development's press team.

Departmental Travel

Justine Greening: To ask the Secretary of State for International Development how much his Department spent on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurant meals for (i) Ministers and (ii) staff in his Department in each of the last five years. [289967]

Mr. Douglas Alexander: The information requested is not held centrally and could not be provided without incurring disproportionate cost.

Travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively, and all spending on official entertainment is made in accordance with the principles set out in Managing Public Money.

I also refer the hon. Member to the Cabinet Office annual list of overseas travel over £500 undertaken by Ministers. The 2008-09 list was published on 16 July 2009 and can be viewed at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Overseas Aid

Mr. Crabb: To ask the Secretary of State for International Development how much UK bilateral aid he plans to allocate to each of the five fragile states identified in his new aid programme for job creation. [289926]

Mr. Michael Foster: As announced in DFID's 2009 Annual Report, the total planned expenditure by DFID in the next two years of the current comprehensive spending review (CSR) period in each of the five fragile states we identified earlier is as follows:

		£ million
	2009-10	*2010-11*
Afghanistan	123.5	123
Nepal	46	56
Yemen	35	50
Nigeria	120	140
Ethiopia	202	196

Mr. Crabb: To ask the Secretary of State for International Development how many jobs he expects to be created in *(a)* Nigeria, *(b)* Afghanistan, *(c)* Nepal, *(d)* Yemen and *(e)* Ethiopia by 2013 under his new bilateral aid programme for job creation. [289929]

Mr. Michael Foster: We plan to create up to 1.25 million new economic opportunities across post-conflict and fragile countries in which we work by 2013. These include the five countries that were initially identified: Nepal, Ethiopia, Yemen, Nigeria and Afghanistan. Exact targets for individual countries have not yet been finalised.

Mr. Crabb: To ask the Secretary of State for International Development what partners his Department has appointed to deliver his Department's bilateral aid programme for job creation in each of the five fragile states identified in that programme. [289932]

Mr. Thomas: The Department for International Development (DFID) has many programmes in fragile states that deliver job creation. These work with a wide range of partners. We will meet our targets for job creation by expanding existing programmes and by establishing new activities where relevant. Partner selection will depend on specific contexts and will involve partner governments, the private sector and NGOs.

Mr. Crabb: To ask the Secretary of State for International Development what proportion of bilateral aid allocated to the five fragile states identified in his Department's new programme for job creation will be delivered to the national exchequers of those five states. [289934]

Mr. Michael Foster: We are currently planning how to scale-up our job creation programmes but it is not possible at this stage to say what proportion will be disbursed through national exchequers.

Margaret Moran: To ask the Secretary of State for International Development which country received the largest allocation of funding support from his Department in 2009; which country is expected to receive the largest such allocation in 2010; and for what specific purposes in each case. [292776]

Mr. Michael Foster: The Department for International Development allocated the largest share of bilateral funding to the India country programme in the 2009-10 financial year (£275 million). We estimate that India will also receive the largest allocation of funding in 2010-11.

DFID's support is focused on assisting the Government of India to improve the impact its public policies and services have on reducing poverty. It works in the following main areas: education; health and nutrition; inclusive growth; governance reform; rural and urban development; the management of natural resources; and the empowerment of the poor, especially women and other marginalised groups in Indian society. More detailed information on our programme in India is available on the DFID website:

www.dfid.gov.uk

Security

David T.C. Davies: To ask the Secretary of State for International Development what expenditure his Department has incurred on engaging private security companies and private military companies for work undertaken in *(a)* Iraq and *(b)* Afghanistan in each of the last three years. [291781]

Mr. Michael Foster: The Department for International Development (DFID) uses the services of private security companies managed and administered by the Foreign and Commonwealth Office. DFID's share of these is as follows. We do not contract with private military companies.

		£ million
	Iraq	*Afghanistan*
2006-07	6.1	1.8
2007-08	5.0	2.3
2008-09	5.5	2.3

HEALTH

Arthritis: General Practitioners

Mr. Allen: To ask the Secretary of State for Health what steps his Department is taking to ensure that GPs have greater awareness of rheumatoid arthritis to enable earlier identification of the disease. [292772]

Ann Keen: The Department has published a good practice commissioning pathway for inflammatory arthritis which supports clinicians in identifying cases of rheumatoid arthritis and ensuring that they are set on the right pathway of care. This describes key symptoms, for example where patients should be referred for urgent treatment.

General practitioners can also use the Map of Medicine to determine the best possible treatment options for their patients, including information on the various patterns of onset, diagnostic tests and medical treatment of rheumatoid arthritis[1].

The Department has not made any specific assessment of access to or quality of care services for people with rheumatoid arthritis.

It is the responsibility of primary care trusts as commissioners of healthcare services to ensure that their populations have access to the services that they require.

The Department has published a good practice commissioning pathway for inflammatory arthritis. All 18 weeks commissioning pathways provide information to illustrate what services should be commissioned and provided in different levels of care. The guidance recommends that information is given to patients to help them understand and self-manage their condition at different stages of the treatment pathway.

"Your health, your way—a guide to long term conditions and self care" provides people living with long-term conditions, including rheumatoid arthritis, with information about the choices that should be available to them locally to enable them to self care in partnership with health and social care professionals.

NHS Choices also provides a wealth of information to assist patients in recognising the symptoms of a variety of conditions, including rheumatoid arthritis. The national health service guide to rheumatoid arthritis features information on the warning signs and symptoms of the condition and streaming of a rheumatologist outlining symptoms, treatment and aspects of living with the rheumatoid arthritis.

Mr. Allen: To ask the Secretary of State for Health what steps his Department is taking to ensure that GPs make information on rheumatoid arthritis available to the public. [292724]

Ann Keen: The central focus of Your health, your way—a guide to long term conditions and self care is to promote discussion between health and social care professionals and individuals with long term conditions about what options there are for self care and what support and information is available to help improve the way they manage their own health and well-being.

The Department is also developing the Information Prescriptions programme which aims to empower people with long-term conditions and their carers by giving them information to help them better manage their condition and care.

Information Prescriptions can be created through NHS Choices for a number of long-term conditions, including rheumatoid arthritis. Individuals can access this information directly, or alternatively, health professionals may provide the information during a consultation. Local versions of Information Prescriptions are being developed across the country and we are encouraging primary care trusts and general practitioner practices to develop directories of information and processes for providing personalised information to patients and their carers.

E.coli

Mr. Peter Ainsworth: To ask the Secretary of State for Health what arrangements there are to ensure that, when a case of E.coli infection is diagnosed, information regarding the diagnosis is passed to the Health Protection Agency. [293274]

Gillian Merron: When a local national health service laboratory makes a presumptive diagnosis of E. coli 0157, the laboratory should send the sample to the Health Protection Agency's (HPA) Gastrointestinal Infections Reference Unit at the Centre for Infections for confirmation of the diagnosis. The NHS laboratory is also encouraged to report suspect E coli 0157 cases by telephone to the HPA's local Health Protection Unit for rapid investigation and appropriate public health action. Where E. coli 0157 infection is suspected to be a food borne infection, notification is statutorily required.

The HPA is currently putting in place an additional reporting mechanism for Haemolytic Uraemic Syndrome (HUS), a severe consequence of some E. coli 0157 infections so that when clinicians identify a case of HUS, they will alert the HPA.

The Department has recently consulted on new statutory proposals to make all E. coli 0157 infections, "Haemolytic uraemic syndrome (HUS)" and "infectious bloody diarrhoea" notifiable to facilitate more rapid detection of clusters of cases.

E.coli: Godstone Farm

Mr. Peter Ainsworth: To ask the Secretary of State for Health what assessment he has made of the Health Protection Agency's performance in containing the spread of E.coli from Godstone Farm; and if he will make a statement. [293273]

Gillian Merron: The role of the Health Protection Agency (HPA) in containing the spread of E. coli 0157 infection from Godstone Farm has been to provide health advice to the local authority, as the enforcing authority for Godstone Farm, and to the local primary care trust and the national health service, all of whom have responsibility for taking action. The advice the HPA has given has been acted upon and there has been successful prevention of the spread of infection from the farm. The farm closed on 12 September. With regard to the HPA's wider role in diagnosis, detection and surveillance of E. coli 0157 infection in respect of this particular outbreak, the HPA has already apologised for its lack of timely advice at the commencement of the outbreak and an independent investigation of the outbreak, has been announced by the HPA.

Health Visitors

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent health visitors were in post in *(a)* the NHS and *(b)* each primary care trust in each of the last five years. [292685]

---

[1] The Map of Medicine is a map of best available research evidence and a best evidence clinical guideline. It displays this knowledge in an easy-to-use pathways format, reflecting the patient journey and provides a framework for creating local pathways.

Ann Keen: A table showing the number of full time equivalent health visitors employed by the national health service in each primary care trust in the years requested, has been placed in the Library.

Hospitals: Parking

Mr. Burns: To ask the Secretary of State for Health pursuant to the answer of 14 September 2009, *Official Report,* column 2159W, on hospitals: parking, for what reasons income from charges on NHS staff for car parking at *(a)* Broomfield Hospital, Chelmsford and *(b)* St John's Hospital, Chelmsford rose from 2006-07 to 2007-08. [292182]

Mr. Mike O'Brien: Car Park charges are not set or controlled by Ministers so the Department does not hold this information. The hon. Member may wish to contact Mid Essex Hospitals Services NHS Trust, for the information requested, who are responsible for the charges on car parks.

Maternity Services

Norman Lamb: To ask the Secretary of State for Health how many *(a)* maternity wards and *(b)* maternity ward beds there were in (i) England, (ii) each strategic health authority and (iii) each NHS trust in each of the last three years. [292670]

Ann Keen: Information on the number of maternity wards is not collected. A table showing the average daily number of available beds on maternity wards by both strategic health authority and national health service trust in England for each of the last three years has been placed in the Library.

Norman Lamb: To ask the Secretary of State for Health (1) what estimate he has made of the proportion of women preparing for birth in the NHS who received support from the same midwife throughout pregnancy in the latest period for which figures are available; [292674]

(2) what estimate he has made of the proportion of women giving birth in the NHS who were offered a choice of *(a)* location of birth, *(b)* birth method and *(c)* method of pain relief during birth in the latest period for which figures are available. [292675]

Ann Keen: The commitments made in Maternity Matters that women will be cared for by a named midwife throughout pregnancy and have choice of location of birth, birth method and pain relief during birth are for delivery by December 2009. We have made it clear through the NHS Operating Framework that delivering the Maternity Matters commitments is a high priority for action.

The Department is working with strategic heath authorities (SHAs) to ensure the choice commitments are available. Every SHA now has plans in place to ensure high quality, personal care with greater choice over place of birth and care provided by a named midwife.

Norman Lamb: To ask the Secretary of State for Health what the midwife to birth ratio was in *(a)* England, *(b)* each strategic health authority area and *(c)* each primary care trust area in the latest period for which figures are available. [292678]

Ann Keen: The midwife to birth ratio for each strategic health (SHA) authority in England is included in the following table. The data by PCT is not available.

SHA	*Current full time equivalent midwife: births ratio*
North East	28.4
North West	29.1
Yorkshire and Humber	34.1
East Midlands	40.1
West Midlands	32.9
East of England	39.8
London	34.0
South East Coast	36.5
South Central	40.3
South West	32.6
England	34.8

Source:
Census and Office for National Statistics, September 2008

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent maternity support workers were in post in *(a)* the NHS, *(b)* each primary care trust and *(c)* each acute trust in each of the last five years. [292682]

Ann Keen: A table showing the number of maternity support workers within the national health service, by primary care trust and acute trust has been placed in the Library.

Maternity Services: Finance

Norman Lamb: To ask the Secretary of State for Health how much was spent on maternity services in *(a)* England, *(b)* each strategic health authority and *(c)* each NHS trust in each of the last three years. [292671]

Ann Keen: Information is not available in the format requested. The following table shows maternity expenditure by primary care trusts mapped to strategic health authorities (SHA).

			£000
	2006-07	*2007-08*	*2008-09*
East Midlands SHA	138,948	149,169	151,387
East of England SHA	131,464	159,823	171,369
London SHA	271,826	284,164	335,671
North East SHA	88,551	90,422	91,001
North West SHA	254,309	280,312	316,[illegible]10
South Central SHA	137,468	127,500	139,626
South East Coast SHA	111,155	118,452	133,822
South West SHA	128,545	164,714	1[illegible]529
West Midlands SHA	176,080	198,565	215,736
Yorkshire and the Humber SHA	178,431	213,775	231,112
England total	1,616,777	1,786,896	1,968,563

Source:
NHS Summarised Accounts 2006-07 to 2007-08

Midwives

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent midwives were in post in *(a)* the NHS, *(b)* each primary care trust and *(c)* each acute trust in each of the last five years. [292686]

Ann Keen: A table outlining the numbers has been placed in the Library.

Midwives: Finance

Norman Lamb: To ask the Secretary of State for Health how much funding his Department has allocated to increase numbers of NHS midwives in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [292679]

Ann Keen: On 25 February 2008 the then Secretary of State for Health, my right hon. Friend the Member for Kingston upon Hull, West and Hessle (Alan Johnson) announced a package of measures to improve maternity services with an additional £330 million over three years going out to primary care trusts (PCTs). This funding is available to expand the maternity work force.

In addition we have provided a total of £1.5 million to strategic health authorities for 2009-10 and 2010-11 to support midwifery, recruitment, return and retention.

It is for individual PCTs to determine how to use the funding allocated to commission services to meet the healthcare needs of their local population. The funding figures for 2012 are not available.

Midwives: Manpower

Norman Lamb: To ask the Secretary of State for Health how many of the 4,000 extra midwives to be provided by 2012 have already been provided in each strategic health authority area; and how many he expects will be provided in each such area in each year to 2012. [291935]

Ann Keen: A table outlining the number of midwives in each strategic health authority area since 2006 is shown as follows.

National health service hospital and community health services: Qualified midwives in England by strategic health authority area as at 30 September each specified year

	2006	*2007*	*2008*
England	24,469	25,093	25,664
North East Strategic Health Authority area	1,276	1,288	1,331
North West Strategic Health Authority area	3,959	4,010	3,892
Yorkshire and the Humber Strategic Health Authority area	2,445	2,449	2,472
East Midlands Strategic Health Authority area	1,704	1,745	1,771
West Midlands Strategic Health Authority area	2,770	2,861	2,850
East of England Strategic Health Authority area	2,328	2,407	2,476
London Strategic Health Authority area	4,307	4,407	4,785
South East Coast Strategic Health Authority area	1,760	1,820	1,915
South Central Strategic Health Authority area	1,550	1,677	1,735
South West Strategic Health Authority area	2,370	2,429	2,437

We do not hold current information on predicted annual midwife numbers by SHA. Local NHS organisations are best placed to plan and recruit the right people with the right skills to best meet the needs of the local population.

We continue to work with local NHS organisations and monitor increasing midwife numbers.

The latest NHS workforce census as at 30 September 2008 shows we have over 25,600 midwives employed in the NHS, the highest level since 1997. Primary Care Trusts have met our commitment to recruit an additional 1,000 midwives and the NHS is making good progress with its recruitment plans.

Midwives: Training

Norman Lamb: To ask the Secretary of State for Health how many people have enrolled on the Midwifery Return to Practice course in each of the last two years. [292672]

Ann Keen: The data we have received from strategic health authorities (SHAs) show 93 midwives enrolled on the scheme for 2008-09. Data are not available for 2009-10 as several courses will not commence until 2010.

The Department has recently provided a total of £1.5 million to SHAs for 2009-10 to support midwifery recruitment, return and retention. Return to practice is only one way to increase midwifery numbers. Other local initiatives include leadership development in maternity services to support succession planning, retention plans and individualised plans for midwives due to retire to support them to remain in practice, maternity support worker development and midwifery project facilitators and mentors to support midwives on Return to Practice programmes to ensure newly qualified and recently returned midwives can integrate fully into the national health service.

There are expectations that similar funding will be available to SHAs leading up to 2012.

Norman Lamb: To ask the Secretary of State for Health how many training places were available for midwifery in each of the last five years. [292673]

Ann Keen: The number of midwifery training places which were available in each of the last five years is shown in the following table.

Midwifery	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Degree	895	1,042	788	1,307	1,944
Diploma	744	517	648	412	0
Other	735	661	554	352	328
Total	2,374	2,220	1,990	2,071	2,272

Source:
Quarterly Monitoring Returns.

There has been a 38 per cent. increase in the number of students entering training to become a midwife since 1996-97 to 2,272 in 2008-09.

Norman Lamb: To ask the Secretary of State for Health what the attrition rate from *(a)* three-year and *(b)* 18-month midwifery courses in each strategic health authority was in each of the last five years. [292677]

Ann Keen: Information on attrition rates from 18-month midwifery courses is not held centrally.

Attrition rates from three-year midwifery courses in each strategic health authority (SHA) from 2003-04, the earliest year available, are shown in the following table. Students from later cohorts have yet to graduate.

Midwifery attrition rates

Percentage

	2003-04		*2004-05*		*2005-06*	
SHA	*Diploma*	*Degree*	*Diploma*	*Degree*	*Diploma*	*Degree*
North East	42.9	17.6	28.6	14.0	n/a	13.79
North West	n/a	n/a	n/a	n/a	10.47	12.50
Yorkshire and the Humber	10.8	23.3	13.5	9.3	30.77	14.58
East Midlands	10.4	27.9	10.7	32.4	17.81	8.57
West Midlands	n/a	n/a	n/a	n/a	n/a	20.69
East of England	9.0	n/a	7.7	7.1	18.88	15.38
London	15.0	7.7	8.2	23.6	1.47	13.54
South East Coast	35.5	18.2	26.2	13.4	n/a	14.97
South Central	42.1	15.9	54.8	2.5	21.92	16.95
South West	28.8	14.7	23.8	31.0	30.0	20.56

Notes:

1. Some SHAs could not provide data for 2003-04 and 2004-05.

2. 2005-06 cohorts still have large numbers of students yet to graduate so figures should be treated as provisional.

Harry Cohen: To ask the Secretary of State for Health how many midwifery training places were commissioned by his Department for the 2008-09 academic year. [293216]

Ann Keen: The national health service strategic health authorities commissioned 1,944 midwifery degree training places and 328 18 month diploma training places for the 2008-09 academic year.

There has been a 38 per cent. increase in the number of students entering training to become a midwife since 1996-97 to 2,272 in 2008-09.

Midwives: Vacancies

Norman Lamb: To ask the Secretary of State for Health how many midwifery vacancies in the NHS there are; and what the *(a)* three-month vacancy rate and *(b)* total vacancy rate for NHS midwives was in each of the last five years. [292680]

Ann Keen: The latest NHS Vacancy Survey shows that there were 191 midwifery three month vacancies (1 per cent. of the midwifery work force) in the national health service in England on 31 March 2009.

The three month vacancy rate and total vacancy rate for NHS midwives in each of the last five years is shown in the following table:

The NHS Information Centre for health and social care vacancies surveys March each year vacancies in England for qualified midwifery staff

Percentage

	Three month vacancy rate	*All vacancies rate*
2005	1.8	—
2006	1.0	—
2007	0.5	—
2008	0.8	2.1
2009	1.0	3.4

Notes:

1. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post from the previous September non-medical workforce census (full-time equivalent).

2. Three month vacancies are vacancies as at 31 March which trusts are actively trying to fill which had lasted for three months or more.

3. Total vacancy rates are vacancies expressed as a percentage of total vacancies plus staff in post from the previous September non-medical workforce census (full-time equivalent).

4. A vacancy is defined as one which employers are actively trying to fill as at 31 March.

5. Not available. Total vacancies were collected for the first time in 2008.

Sources:

The NHS Information Centre for health and social care Vacancies Survey.

The NHS Information Centre for health and social care Non-Medical Workforce Census

NHS: Crimes of Violence

Andrew Stunell: To ask the Secretary of State for Health how many sickness days were taken as a result of assaults of staff in each NHS trust in the most recent year for which figures are available; how many working days were lost per staff member as a result of assault in each NHS trust area in that year; and what estimate he has made of the average cost to NHS trusts of working days lost as a result of assaults on NHS staff in the most recent period for which figures are available. [289273]

Ann Keen: This information is not collected centrally.

If a member of staff is assaulted on duty, a record must be made and maintained locally as a requirement under health and safety legislation.

NHS: Foreign Workers

Mr. Sarwar: To ask the Secretary of State for Health how many *(a)* doctors and *(b)* nurses from developing countries have joined the NHS in each of the last five years for which figures are available. [293681]

Ann Keen: The Department does not have a clear definition, nor a list of nations classified as being, developing countries. A table containing details of the country of qualification of doctors, broken down into the United Kingdom, European economic area, outside the European economic area and unknown country of qualification has been placed in the Library. The country of qualification for nurses is not collected. It must be stated that the country of qualification does not necessarily denote that this is the birth land of the individual.

NHS: Pensions

Steve Webb: To ask the Secretary of State for Health how many members of the NHS pension scheme are expected to reach scheme pension age in each of the next 10 years. [292836]

Ann Keen: The information is not available and could be obtained only at disproportionate cost. Membership data as at 31 March 2006 was provided by National Health Service Pensions to the Government Actuary's Department (GAD). GAD estimates there are 560,000 active members of the scheme within 10 years of their normal pension age. This equates to around 440,000 members with a normal pension age of 60 aged over 50 and around 120,000 members with a normal pension age of 55 aged over 45. The average retirement age from the scheme is 62.

Obstetrics: Gynaecology

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent obstetrics and gynaecology consultants were in post in *(a)* the NHS and *(b)* each acute trust in each of the last five years. [292684]

Ann Keen: A table outlining the number of full-time equivalent obstetrics and gynaecology consultants in post in the national health service and each acute trust in each of the last five years has been placed in the Library.

Paediatrics

Norman Lamb: To ask the Secretary of State for Health how many full-time equivalent paediatricians were in post in each strategic health authority in each of the last five years. [292683]

Ann Keen: The following table outlines the number of full-time equivalent paediatricians in post in each strategic health authority in each of the last five years.

Hospital and Community Health Services (HCHS): Medical staff within the paediatric group of specialties by Strategic Health Authority England at 30 September each year full time equivalents

		2004		2005		2006		2007		2008	
		All staff of which	*Consultant*	*All staff of which*	*Consultant*	*All staff of which*	*Consultant*	*All staff of which*	*Consultant*	*All staff of which*	*Consultant*

Notes:
Data are full time equivalents rounded to the nearest whole number.
Data Quality
Workforce statistics are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens any impact on figures already published will be assessed but unless this is significant at national level they will not be changed. Where there is impact only at detailed or local level this will be footnoted in relevant analyses.
This work remains the sole and exclusive property of The Information Centre and may only be reproduced where there is explicit reference to the ownership of The Information Centre.

Social Services

Mr. Lansley: To ask the Secretary of State for Health with reference to page 106 of his Department's Green Paper, Shaping the future of care together, what estimate he has made of the percentage of the costs of the partnership option which could be met from the existing social care budget. [291864]

Phil Hope: Full figures relating to the proposals outlined in the Green Paper are contained within the impact assessment, a copy of which has previously been placed in the Library.

These are ongoing costs to the care and support system in comparison to the current system. These are indicative only, and are based on a set of modelling assumptions, as well as estimates about likely mechanisms for implementation.

If this funding model was implemented we would expect these costs could be substantially revised and refined depending on the funding available. Costs would have to be met from within the public spending envelope set for future spending reviews, which will be in line with the plans for fiscal consolidation set out at Budget 2009. There would also be one-off costs relating to the change of system, which are not quantified.

Social Services: Nutrition

Mr. Burstow: To ask the Secretary of State for Health what the timetable is for publication of his Department's report on nutrition in care settings; and if he will make a statement. [293103]

Phil Hope: We expect that the Nutrition Action Plan Delivery Board's final report will be published later this year.

St. Thomas' Hospital

Kate Hoey: To ask the Secretary of State for Health what plans he has to maintain the standard of service provided by the specialist stroke unit at St Thomas' Hospital. [290067]

Ann Keen: This is a matter for the local national health service.

CHILDREN, SCHOOLS AND FAMILIES

Charities

Bob Spink: To ask the Secretary of State for Children, Schools and Families what grants his Department and its predecessors made to charitable organisations in each of the last five years. [292652]

Ms Diana R. Johnson: I refer the hon. Member to the previous reply given on 22 January 2009, *Official Report*, column 1697W, to the hon. Member for Castle Point (Bob Spink).

This information can be provided only at disproportionate cost.

Children: Day Care

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families how many registered childminders there have been in each local authority area in the North West in each quarter of each year since 1997; and if he will make a statement. [289285]

Dawn Primarolo: Information on the number of registered childminders in each local authority area in the North West Region in each year since 1997 has been placed in both Libraries.

Quarterly data are only available from March 2003 onwards. Data were not collected in 2002 because of the transfer of responsibility to Ofsted.

Departmental Information and Communications Technology

Justine Greening: To ask the Secretary of State for Children, Schools and Families what IT systems have been in development for use within his Department in the last five years; what the reason for the development of each system was; how much has been spent on the development of each system; and which systems have been subsequently *(a)* implemented, *(b)* terminated prior to implementation and *(c)* terminated following implementation. [290532]

Ms Diana R. Johnson: The information requested can be provided only at disproportionate cost.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Children, Schools and Families what percentage of procurement contracts his Department and its predecessors awarded to small businesses in *(a)* 2006-07, *(b)* 2007-08, *(c)* 2008-09 and *(d)* 2009-10; and if he will make a statement. [293238]

Ms Diana R. Johnson: This information could be provided only at disproportionate cost.

Departmental Public Expenditure

Tim Loughton: To ask the Secretary of State for Children, Schools and Families with reference to table 8.4 of his Department's Annual Report 2009, page 176, to which programmes *(a)* the 2009-10 and *(b)* the 2010-11 budget for (i) the Youth Task Force and (ii) Youth Programmes has been allocated. [293272]

Dawn Primarolo: The breakdown of the Youth Task Force and Youth Programmes, which are shown aggregated in DCSF's departmental annual report 2009, are provided in the following tables for the years 2009-10 and 2010-11:

Departmental report allocation

		£
	2009-10	*2010-11*
(i) Youth Task Force Programmes		
Youth Task Force—Communications	2,000	3,256
Youth Task Force Research and grants	10,046	3,597
Youth Task Force Programmes total	12,046	6,853
(ii) Youth Programmes		
Contact Point (Capital)	3,800	35,200
Youth Challenge Fund	800	4,300
Workforce Development Capital Grant	218	218
National Youth Agency (NYA)/National Voluntary Youth Agency (NVYO) Grants	1,000	8,000
Children and Families Directorate (CFD) Capital Grant	13,160	21,334
Voluntary Child Services (VCS) Children Young People and Families (CYPF) Grant and capacity improving	29,807	21,802
Communications/Participation/Child and Adolescent Mental Health Services (CAHMS)	1,614	864
Vetting and Barring Scheme (VBS)/Integrated Children's System(ICS)/Making Safeguarding Everyone's Responsibility (MSER)/Adoption Strategy/Quality Protects (QP)	67,033	59,523
Family Fund Trust/Contact a Family	25,332	23,322
10 Year Strategy Additions (including Youth Facilities, Community Cohesion, Youth Crime Prevention, Do it for real, Vetting and Barring, and Young Media Fund)	39,142	66,000
Youth Sector Support	40,730	40,000
Peer Mentoring	240	240
Youth Programmes total	222,876	280,803

Members: Correspondence

Mr. Blunt: To ask the Secretary of State for Children, Schools and Families if he will send a copy of his reply to the letter of 21 September 2009 from Mr. Christopher Curtis, the headmaster of St. Bede's School, Redhill, to the hon. Member for Reigate, to whom the original letter was copied. [293470]

Ms Diana R. Johnson: The Department's correspondence target is to answer all items of correspondence from within 15 working days of receipt. Mr. Curtis's letter was received in the Department on 29 September and, in line with this target, a full reply will be sent on or before 20 October. In line with information legislation it is not the Department's practice to send a copy of final replies to copy recipients unless advised to do so by the correspondent. The hon. Member may wish to approach Mr. Curtis directly to ask if he will provide him with a copy of the letter.

Primary Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children attended *(a)* two, *(b)* three, *(c)* four, *(d)* five and *(e)* 10 primary schools in each of the last 10 academic years for which figures are available. [293385]

Dawn Primarolo: The information requested would require substantial new analysis. This could be provided only at disproportionate cost.

Pupils: Discipline

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what forms his Department issues to schools to complete relating to disruptive pupils; and if he will place in the Library a copy of each such form. [291941]

Mr. Coaker: The Department does not issue forms for schools to complete when dealing with a disruptive pupil. However our guidance on the use of force to control or restrain pupils strongly advises schools to maintain systematic records of significant incidents and provides a model record form that they are able to use for this purpose. A copy of that guidance, including the model form, is shown in the following link:

http://www.teachernet.gov.uk/docbank/index.cfm?id=12187

Pupils: Teachers

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families what the pupil to teacher ratio in *(a)* primary and *(b)* secondary schools is in each London borough in the latest period for which figures are available; and if he will make a statement. [293062]

Mr. Coaker: The information requested is published in table 27 of the Statistical First Release (SFR) "School Workforce in England (including local authority level figures) January 2009 (Revised)" published on 29 September 2009. The SFR is available at the following web link:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000874/Tables19to27_Vals.xls

Schools: Broadband

Mr. Swire: To ask the Secretary of State for Children, Schools and Families what support is available to introduce broadband services into primary and secondary schools. [292400]

Ms Diana R. Johnson: The introduction of broadband into primary and secondary schools has been supported by both funding and regional support networks. Targets were set for over 99 per cent. of schools to be connected by the end of 2006, and by that date 98.96 per cent. of primary schools and 99.82 per cent. of secondary schools were reported as connected. Funding continues to be made available for the introduction of broadband and its use via the Harnessing Technology and School Development Grants and 10 regional broadband consortia support schools in their areas and nationally through the National Education Network.

Schools: Sports

Mr. Bone: To ask the Secretary of State for Children, Schools and Families what the cost to the public purse of undertaking the most recent Schools Sport Surveys was. [292571]

Mr. Iain Wright: The cost of undertaking the annual School Sport Survey in 2008/09, via the DCSF's contractors TNS, was £296,628 including VAT.

Secondary Education: Per Capita Costs

Mr. Kemp: To ask the Secretary of State for Children, Schools and Families how much funding per secondary school pupil has been allocated in *(a)* Sunderland and *(b)* England for 2009-10. [289334]

Mr. Coaker: The Dedicated Schools Grant (DSG) guaranteed per pupil unit of funding (GUF) for 2009-10 for Sunderland is £4,137. The average guaranteed per unit of funding for 2009-10 for England is £4,218. This is for all funded pupils aged three to 15 and is in cash terms. Separate figures are not available for secondary schools as funding is not allocated by phase.

Teachers: Pensions

Steve Webb: To ask the Secretary of State for Children, Schools and Families how many members of the teachers' pension scheme are expected to reach scheme pension age in each of the next 10 years. [292838]

Mr. Coaker: The following table shows the number of in-service teachers who will reach age 60—the normal pension age (NPA) for existing members of the Teachers' Pension Scheme (TPS) on 1 January 2007—in the next ten years. Since January 2007 any new entrant to the TPS has a NPA of 65. There will also be a number of out of service teachers who will become eligible for their pension benefits over the next 10 years.

Membership of the Teachers' Pension Scheme (TPS)[1] by age, March 2008, provisional—England and Wales

	In service	
Age	Full-time	Part-time[2]
50	15,810	5,870
51	16,410	6,090
52	16,900	6,150
53	17,430	6,210
54	18,210	6,480
55	17,150	6,550
56	15,820	6,810
57	14,280	6,720
58	12,280	6,690
59	9,780	6,240
Total	154,07	63,810

[1] Teachers with recorded service in any establishment that is within the TPS (includes state funded schools, further education, and other higher and independent sector institutions that are members of the TPS).

[2] Part-time teachers include a proportion who are not contributors to the TPS.

Note:

Figures are rounded to the nearest 10.

Written Answers to Questions

Friday 16 October 2009

BUSINESS, INNOVATION AND SKILLS

Employment Agencies: EU Law

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills what recent meetings have taken place between his Department and representatives of the Trades Union Congress on the EU Agency Workers Directive. [292177]

Mr. McFadden *[holding answer 15 October 2009]:* Since October 2008, when the EU Agency Workers Directive was agreed, my officials have met a wide range of organisations to discuss implementation of the Directive. This includes National consultation events held in London and the regions as part of the public consultation exercise held between 8 May and 31 July 2009. Officials have also had a number of bilateral discussions with representatives of not only the Trades Union Congress but also organisations representing hirers and agencies to explore specific issues arising from the consultation paper in more detail.

Royal Mail: Industrial Disputes

Mr. Willis: To ask the Minister of State, Department for Business, Innovation and Skills what discussions he has had on the terms of proposals put by the Communication Workers Union to Royal Mail on 13 October 2009 on the postal services dispute; and if he will make a statement. [293843]

Mr. McFadden: Ministers have met with both parties over the past weeks to listen to their views and to encourage dialogue but have made it very clear that strikes are not the way to resolve differences or safeguard the future of our postal service. It is for Royal Mail's management and the union to resolve the dispute through talks.

Mr. Willis: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to resolve the industrial dispute affecting Royal Mail. [293844]

Mr. McFadden: I have remained in close contact with the unions and Royal Mail management throughout this dispute. Our message to them has been clear—strikes are not the way to resolve differences or safeguard the future of our postal services and we urge them to resolve all issues through dialogue.

Royal Mail: Pensions

Mr. Gordon Prentice: To ask the Minister of State, Department for Business, Innovation and Skills what the size of the Royal Mail pension fund deficit is; what it has been in each year since 2000; and if he will make a statement. [293539]

Mr. McFadden: The current size of the accounting deficit as reported in the Royal Mail's 2008-09 report and accounts is £6.8 billion. The last formal actuarial valuation of the pension deficit was given as £3.4 billion in March 2006. The trustees are undertaking the next triennial actuarial valuation, which started in March 2009 and will need to finish by June 2010. The following table shows both accounting and actuarial pension deficit values since March 2003, which is when the scheme first fell into deficit.

Funding of the pension scheme remains an operational matter between Royal Mail and the trustees.

Royal Mail pension deficit figures since financial year 2002-03

£ billion

Financial year	*Accounting deficit*	*Actuarial deficit*
2002-03	4.7	2.5
2003-04	4.4	—
2004-05	4.0	—
2005-06	5.6	3.4
2006-07	5.0	—
2007-08	2.9	—
2008-09	6.8	—

Note:
Figures are rounded to the nearest £100 million

CABINET OFFICE

Civil Service: Manpower

Mr. Hurd: To ask the Minister for the Cabinet Office how many full-time equivalent staff were employed in each department and agency of the Civil Service in 1996-97. [290136]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning how many full-time equivalent staff were employed in each department and agency of the Civil Service in 1996-97. (290136)

The number of full-time equivalent staff employed by each government department and agency in 1996-7 has been published by Cabinet Office and is available in hardcopy from the House of Commons Library.

An online edition of Civil Service Statistics 1997 is available at:

http://www.civilservice.gov.uk/Assets/css97_tcm6-2540.pdf .

Cybercrime

Mr. Blunt: To ask the Minister for the Cabinet Office what procedures the Government have in place to respond to a cyber attack against *(a)* Government networks and *(b)* the networks of private companies comprising UK critical national infrastructure; and if she will make a statement. [292697]

Tessa Jowell: Her Majesty's Government have a wide ranging set of measures in place to protect the United Kingdom from all forms of electronic attack including cyber-terrorism and cyber crime, and to respond appropriately.

These measures include:

The establishment in September of the Office of Cyber Security (OCS) and the Cyber Security Operations Centre (CSOC), to direct and coordinate the new national cyber security strategy.

CPNI, The Centre for the Protection of National Infrastructure, provides advice on electronic or cyber protective security measures to the businesses and organisations that comprise the UK's critical national infrastructure, including public utilities companies and banks. It also runs CSIRTUK, the Combined Security Incident Response Team (UK), which advises partners in industry who operate elements of the national infrastructure, how to manage the response to incidents.

GovCertUK, part of GCHQ, works closely with CSIRTUK; it provides warnings, alerts and assistance in resolving serious IT incidents for the public sector.

When GovCertUK becomes aware of an incident it provides the affected Department (usually through its IT Security Officer) with all the available information and offers relevant advice to help resolve the situation. On occasion, and as necessary, GovCertUK also provides on-site support to affected departments.

CESG, also part of GCHQ, provides government departments with advice and guidance on how to protect against, detect and mitigate various types of cyber attack.

In addition:

All Government Departments have access to the Government Secure Intranet (GSi) which securely connects around 200 Government Departments and Agencies.

The Government's Data Handling Review published in June 2008 mandated a number of minimum data security measures for HMG such as penetration testing of Government IT systems.

Mr. Blunt: To ask the Minister for the Cabinet Office what steps the Government are taking to achieve common standards of cyber security between EU member states; and if she will make a statement. [292498]

Tessa Jowell: The Government are working closely with the Commission, other European member states and ENISA (the European Network and Information Security Agency) to increase levels of security and resilience in the communications sector at many different levels. This includes collaborative efforts aimed at increasing European cooperation on policy to enhance cyber security, such as developing European priorities, principles and guidelines on long-term internet resilience and stability.

The Government also takes an active part in major standards bodies (including ETSI—the European Telecommunications Standards Institute), organisations and discussions concerned with ICT standards, to ensure that processes are in place to create an effective standards regime in this area.

Mr. Blunt: To ask the Minister for the Cabinet Office whether the Government has a framework in place to share cyber incident event data with *(a)* the private sector and *(b)* relevant research institutions; and if she will make a statement. [292499]

Tessa Jowell: CPNI, the Centre for the Protection of the National Infrastructure, runs the Combined Security Incident Response Team (CSIRTUK) a service that provides advice for the private sector on managing responses to electronic incidents.

Details of security incidents reported to CPNI are treated in the strictest confidence.

CPNI facilitates regular forums with private and public sector organisations, including research bodies, during which electronic security issues and any appropriate mitigating measures are discussed. These meetings are held under agreed confidentiality rules among participants.

General, non-classified protective advice and best practice about countering the threat from cyber attacks is also provided on the CPNI website.

CHILDREN, SCHOOLS AND FAMILIES

Centre for Excellence and Outcomes in Children and Young People's Services

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how much has been spent on the Centre for Excellence and Outcomes in Children and Young People's Services in each year since its creation; and what the projected spending on the centre is in each of the next five years. [293344]

Dawn Primarolo: The Centre for Excellence and Outcomes in Children and Young People's Services was created in 2008-09 and spent £2.783 million. Projected spending is currently £5.573 million for 2009-10 and £5.466 million for 2010-11. The grant expires on 31 March 2011.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the projected cost is of the annual review of ContactPoint in 2009-10. [293377]

Dawn Primarolo: ContactPoint security arrangements are under a continuous review and its full security accreditation will be validated annually. The current projected cost of the annual security penetration test is £50,000, which will be met from within the overall £44 million annual operating budget for ContactPoint.

Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* infant, *(b)* primary and *(c)* secondary classes in each local authority area have at least 30 pupils; and if he will make a statement. [277513]

Ms Diana R. Johnson: Class size information for 2009 can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000843/index.shtml

The latest available information can be found in the following table. Class size legislation allows for classes of up to 30. Our usual measure of large classes is 31 or more pupils.

Classes as Taught[1]: Number of classes with 30 pupils[2] or more by local authority area, position in January 2008 (Final), England

	Key Stage 1 classes[3]	*Maintained primary school[4] classes*	*State-funded secondary school[4, 5] classes*

School Census

Departmental Public Expenditure

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer to the hon. Member for Surrey Heath of 9 September 2009, *Official Report*, columns 1937-8W, on schools: finance, which individual programmes are included in the category Positive Activities for Young People Programmes; and how much funding has been allocated to each such programme. [293269]

Ms Diana R. Johnson *[holding answer 15 October 2009]:* In the reply given on 9 September 2009, *Official Report*, column 1936W, by the Parliamentary Under-Secretary of State for Schools, we offered a figure of £94 million for the expenditure in 2010-11.

The Positive Activities for Young People Programme is now a single programme which is paid to local authorities as part of their Area Based Grant.

Pupil Exclusions: Disadvantaged

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the rate of permanent exclusion from school was in each income deprivation affecting children index decile of deprivation in the last year for which figures are available. [293608]

Dawn Primarolo: Information on the rate of permanent exclusion in each income deprivation affecting children index decile of deprivation, according to the location of the school, is shown in the table.

Primary, secondary and special schools[1,2,3] rate of permanent exclusion by level of deprivation of school[4], England—2007-08 (estimates)[5]

Level of deprivation of school based on IDACI[4] (percentage)	*Rate of permanent exclusion[3,6]*
0-10 most deprived	0.12
10-20	0.13
20-30	0.14
30-40	0.11
40-50	0.12
50-60	0.10
60-70	0.09
70-80	0.09
80-90	0.08
90-100 least deprived	0.09

Primary, secondary and special schools[1,2,3] rate of permanent exclusion by level of deprivation of school[4], England—2007-08 (estimates)[5]

Level of deprivation of school based on IDACI[4] (percentage)	*Rate of permanent exclusion[5,6]*
Total for all schools	0.11

[1] Includes middle schools as deemed.

[2] Includes city technology colleges and academies (including all-through academies).

[3] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[4] 2007 Income Deprivation Affecting Children Index at Super Output Area level based on the location of the school.

[5] Figures relating to permanent exclusions are estimates based on incomplete pupil-level data.

[6] The number of permanent exclusions in each IDACI band as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January 2008.

School Census

Schools: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 June 2009, *Official Report*, column 996W, on schools: standards, what the estimated cost of collecting the information would be; which data protection rules would be contravened by collecting it; on what basis the estimate of £90 million was made; how much of the £90 million was paid by his Department; and from which budgetary headings the money came. [293542]

Dawn Primarolo: We do not hold the information on each individual adviser or their cost for 2008-09. We estimate that the cost of collecting this would exceed the cost threshold of £750 applicable to central Government. Furthermore, to provide information on individual advisers would infringe the rights of an individual's personal information and therefore be in breach of the Data Protection Act 1998.

The estimate of £90 million was derived from information collected through the Department's review of its field forces in 2008. It is difficult to provide a precise breakdown of expenditure on each of the field forces, since they are delivered through a range of mechanisms—some are directly contracted (so the cost of advisers is incorporated within a larger contract), some are located in Government Offices as secondees, and some are employed directly by DCSF or its NDPBs. The £90 million includes some funding from other Government Departments in the delivery of improvement support where there is shared policy interest. It is difficult to disaggregate the proportion paid by this Department.

The Department's contribution forms a proportion of its allocation from the Comprehensive Spending Review (CSR).

Schools: Vetting

Mr. Lidington: To ask the Secretary of State for Children, Schools and Families whether *(a)* hon. Members, *(b)* Ministers and *(c)* elected members of a local education authority will be required to register with the Independent Safeguarding Authority before visiting a school under the provisions of the Vetting and Barring Scheme; and if he will make a statement. [288813]

Dawn Primarolo *[holding answer 21 July 2009]:* The hon. Member will have received a copy of the Secretary of State's letter of 31 July, which addresses all the points raised in this parliamentary question. I attach a copy for ease of reference.

Letter from Ed Balls, dated 31 July 2009:

The new Vetting and Barring scheme as it applies to Members of Parliament and schools

I am writing to all Members of Parliament (MPs) representing constituencies in England and Wales about the new Vetting and Barring Scheme (VBS), with a courtesy copy to MPs representing constituencies in Scotland and Northern Ireland.

Following recent questions in the House, which were prompted by some misleading media coverage, I want to make clear how the VBS will operate and, in particular, how it will apply to MPs when they work *for* schools, but not when they make visits to schools without working for those schools. (The same principles would also apply in relation to work for children's centres.)

As you may be aware the VBS is being introduced in response to a recommendation from the independent Bichard Inquiry, established following the Soham murders by school caretaker Ian Huntley. Sir Michael Bichard's Inquiry into these tragic events found that there was more we could reasonably do so that people who have already shown they pose a threat to children are prevented from taking up positions in schools. The VBS is designed to achieve precisely this in relation to schools.

All new entrants to the schools workforce will have to register under the VBS from November 2010. For those who were already doing such work before November 2010, starting with those who have never been subject to CRB checks, we will phase in registration between 2011 and 2015.

In the schools context, people who are not members of the schools workforce will be required to register with the VBS for one of only two reasons. The first reason is because they frequently work for a particular school or schools. Conversely, someone who just visits schools, for example to watch a school play or attend a prize-giving, to meet the head teacher or to observe a lesson in a classroom, will not have to register under the VBS.

MPs will therefore not have to register with the VBS in the course of their normal duties such as visits to schools or children's centres in their constituencies. The only circumstances in which they would have to register are if, for example, an MP has arranged to go into schools to, say, teach politics to groups of pupils once a month for several successive months, as this means they would be classed as working for schools. Anyone doing this as paid work would have to pay a one-off charge of £64 to register under the VBS, but if an MP is doing this as a volunteer the £64 fee would not apply.

The second and only other situation, in the schools context, in which people who are not members of the school and children's workforce will have to register with the VBS is by virtue of the particular post and decision-making powers they hold. For this reason some local councillors and council officers will be required to register, including all Lead Members for Children and Directors of Children's Services. On this basis, I and my DCSF ministerial team plan to register with the Independent Safeguarding Authority as soon as registration starts in 2010.

Further information about the VBS can be found at www.isa-gov.org.uk . In addition, I also enclose a note setting out the facts in response to some of the myths about the VBS which have appeared recently in the media.

My Department, which leads for the Government in relation to policy on the safeguarding of children, is the main funder of the VBS together with the Department of Health, which has the parallel lead for vulnerable adults. The VBS in England and Wales is being delivered for DCSF and for the Department of Health by the Home Office, which also leads for the Government on criminal records information.

I am copying this letter to Gwenda Thomas AM, Deputy Minister for Social Services in the Welsh Assembly Government.

COMMUNITIES AND LOCAL GOVERNMENT

Analytical Services Research Programme

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what research projects have been commissioned by his Department's *(a)* Analytical Services Research Programme and *(b)* Communications Directorate in the last 24 months. [292704]

Barbara Follett: Details of research projects commissioned from the Analytical Services Research Programme are available from our Research Database (RD) at:

http://www.rmd.communities.gov.uk/

The database provides information on projects commissioned by Communities and Local Government and predecessor departments going back to 30 November 2001. This includes the subject, contractor and cost of each research commission.

For details of research commissioned by the Communications Directorate I refer the hon. Member to the reply given on 2 June 2008, *Official Report*, column 538-39W, as amended on 9 July 2008, *Official Report*, column 9MC. From that date onward all research commission by Communications is on the Research Database.

Atherton Associates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether officials of his Department have met representatives of Atherton Associates in the last 18 months. [292826]

Barbara Follett: This information is not held centrally and could be provided only at disproportionate cost.

Building Alterations

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what changes to permitted development rights which have restricted the rights of property owners to extend a dwelling have been made in the last 36 months. [292809]

Mr. Ian Austin: The Government introduced a new regime of permitted development rights for householders in October 2008. This replaced the previous volume-based limits approach with one which sets clearer limits on the size and position of household developments that can benefit from permitted development rights.

The Town and Country Planning (General Permitted Development) (Amendment) (No. 2) (England) Order 2008 allows householders to extend their properties without the need for planning permission subject to the limitations and conditions that are set out in the order.

Charities

Bob Spink: To ask the Secretary of State for Communities and Local Government what grants his Department made to charitable organisations in each of the last five years. [292654]

Barbara Follett: A complete list of funding to charitable institutions over the past five years could be made available only at a disproportionate cost.

However, I refer the hon. Member to the list of charitable institutions that this Department funded in 2008-09 as published in our resource accounts on 14 July 2009 (HC449, pages 17-21) and also those funded in 2007-08 as published in the departmental annual report in May 2008 (Cm 7394).

Civil Service Compensation Scheme

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the proposed changes to the Civil Service Compensation Scheme will have implications for compensation schemes in *(a)* local government and *(b)* non-departmental public bodies overseen by his Department. [292664]

Barbara Follett: Proposed changes to the Civil Service Compensation Scheme will have no implications for the compensation scheme available to local government employees or for NDPBs who have separate provisions.

Community Development Foundation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what funding his Department is providing to the Community Development Foundation in 2009-10; and what the *(a)* function and *(b)* purpose of the foundation is. [292579]

Barbara Follett: Communities and Local Government are providing £1,706,000 in grant in aid to our NDPB the Community Development Foundation in 2009-10. CDF's charitable objects are: to develop the capacity and skills of members of socially and economically or socially disadvantaged communities in such a way that they are better able to identify, and help meet, their needs and to participate more fully in society.

The aims of the Community Development Foundation are to maintain contact with grassroots experience, through consultancy and managed programmes and projects, links with individual practitioners, and indirectly through collaborative work with partner organisations; identify transferable good practice, through research, evaluation and collaborative activity; advise policy-makers and disseminate good practice, through policy work, training and conferences, publications and consultancy.

Council Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many council homes he expects to be built in each year under the local authority new build programme. [293000]

Mr. Ian Austin: The housing pledge, a centrepiece of our building Britain's future plan, announced an extra £1.5 billion to build new houses over this year and next. Funds from this pledge have been earmarked to support direct development by local authorities, to add to the £100 million already announced in the Budget.

Round 1 of the local authority new build programme announced in September resulted in 49 councils being awarded funding to build 217 schemes across the country providing 2,174 new homes. Bidding in Round 2 closes at the end of October.

We expect the programme to provide around 3,500 new homes, completed in 2010-11 and 2011-12.

Council Housing: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his most recent estimate is of the revenue raised by local authorities from reducing their council tax discount on empty homes; and whether this revenue will *(a)* continue to be kept by local authorities after the 2011-12 settlement and *(b)* be taken into account in the calculation of their tax-base for the purposes of allocating central government grant. [292891]

Barbara Follett: As at October 2008, reductions to council tax discounts for empty homes generated an annual additional revenue of £104 million over England. "Additional revenue" refers to the extra amount raised by applying a discount smaller than 50 per cent. We expect to calculate the council tax projections for the 2011-12 settlement based on the Council Tax Base (CTB) returns that authorities supply in 2008, 2009 and 2010. These will take into account the reduction in council tax discount on empty homes.

Council Housing: Tenants

Bob Spink: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of families required to move home by a local authority following the expiry of the right to statutory succession to a local authority property in each of the last five years; and if he will make a statement. [292668]

Mr. Ian Austin: No estimate has been made.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what proportion of the expenditure of each local authority in England was raised from council tax in the latest period for which figures are available. [292695]

Barbara Follett: I have placed in the Library of the House a table showing the latest estimates of the percentage of revenue expenditure financed by council tax by each local authority in England for 2008-09.

Council Tax: Ministers of Religion

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance his Department has given to billing authorities on *(a)* the categories of duty which a minister of religion should be able to demonstrate in order to be eligible for a Class E or Class H council tax exemption, *(b)* the definition of a minister of religion and *(c)* the religions which are recognised for the purpose of this exemption. [292708]

Barbara Follett: On 21 September 1994 the then Department of Environment sent to chief finance officers of billing authorities the following guidance:

"Under class E of SI 1992/551, the owner of a dwelling is liable to pay the council tax in respect of it if it is

> "a dwelling which is inhabited by a minister of religion of any religious denomination as a residence from which he performs the duties of his office."

Under class H of SI 1992/558, a dwelling is exempt from the council tax if it is

> "an unoccupied dwelling which is held for the purpose of being available for occupation by a minister of any religious denomination as a residence from which to perform the duties of his office."

The term "minister of religion" is not defined in the Act. Neither is the concept of occupying a property as a residence from which to conduct the duties of the office of a minister of religion. Authorities must consider the facts of each case in determining whether or not the person who inhabits, or for whom a property is held, is a minister of religion, and whether or not the property is used or held for use as a residence from which a minister of religion conducts the duties of his office.

In the Department's view a person might normally be considered a minister of religion if his duties include at least some of the following:

conducting religious worship;

providing pastoral care, especially to those who are sick, distressed or needy;

conducting weddings, funerals or baptisms (or their equivalent);

providing leadership to local members of his denomination;

overseeing the ministry of others who perform these functions, providing them with support and pastoral care.

It is also the Department's view that, in considering whether or not a minister conducts his duties from a property, regard may normally be had to whether he is available at that property to provide pastoral care, or whether business relating to his role as minister is conducted there. It is the Department's view that it would not normally be sufficient for a minister merely to reside in the property and undertake his private worship there."

Council Tax: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency's automated valuation model has been used to assist in the amendment of council tax bandings; and whether the model is connected to his Department's council tax banding support tool. [292714]

Barbara Follett: The information is as follows.

(a) The AVM has not been used directly to assist in the amendment of council tax bandings.

(b) The council tax banding support tool was developed using automated valuation modelling techniques.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much has been spent from the public purse to date on *(a)* the 2007 council tax revaluation and *(b)* computer databases and data gathering associated with that revaluation. [292739]

Barbara Follett: I refer the hon. Member to the answer given by my right hon. Friend the Member for East Ham (Mr. Timms) on 7 July 2009, *Official Report*, column 775W.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 June 2009, *Official Report*, column 190W, on council tax, (1) how many dwellings in England have been assigned the value significant code of OS (patio) in each local authority area, or in each equivalent local administrative area that the Valuation Office Agency's database uses, in the most recent period for which figures are available; [292853]

(2) how many homes in each local authority area have a *(a)* GG value significant code and *(b)* OS code; [293206]

(3) with reference to the Valuation Office Agency's reply to request 11437929.1/CEO/TE made under the Freedom of Information Act 2000, if he will place in the Library a copy of the chart showing the number of dwellings assigned with each individual dwellinghouse code and each individual value significant code across England in the most recent period for which figures are available; [293257]

(4) how many dwellings in each local billing authority, or closest administrative unit used by the Valuation Office Agency, have been recorded with a *(a)* VC and *(b)* VE value significant code. [293350]

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 June 2009, *Official Report*, column 25W, on council tax: valuation, for what reasons the automated valuation model (AVM) is not being used for council tax valuations and revaluations; what use is being made of the AVM database; and whether the database is being updated with property attribute information. [293015]

Barbara Follett: The automated valuation model (AVM) is not being used for a council tax revaluation as there is no revaluation taking place. It is not being used for individual council tax valuations, as it was developed as a tool for mass appraisal and is not an efficient tool for valuing individual properties.

There is no AVM database. The AVM accesses the Valuation Office Agency's digitised database of property records.

The Valuation Office Agency's digitised database of property records is continually updated with property attribute information as part of ongoing work in connection with maintaining current council tax valuation lists.

Mr. Gray: To ask the Secretary of State for Communities and Local Government how many properties within the Wiltshire County Council area are recorded with each individual (a) dwelling house code and (b) value significant code, including each individual (i) type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of bathrooms, (v) number of floors, (vi) floor level, (vii) parking, (viii) garaging, (ix) conservatory type, (x) age, (xi) outbuilding and (xii) modernisation code according to electronic records held by the Valuation Office Agency. [293105]

Barbara Follett: The number of properties with each individual dwellinghouse code and each value significant code, for all local authority areas in England, will be placed in the Library of the House.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the minimum size is of an external building next to a domestic dwelling which can be classified as an outbuilding by the Valuation Office Agency for the purposes of its dwellinghouse coding for council tax valuations. [293321]

Barbara Follett: None, but an external structure must be value significant to be recorded as an outbuilding for the purposes of dwellinghouse coding.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what changes have been made to the *(a)* eligibility and *(b)* ability of households to appeal against their council tax banding since May 1997. [293346]

Barbara Follett: There have been no changes to the eligibility of households to make proposals against their council tax bands.

Facilities to make a proposal became more accessible in June 2002 when the Valuation Office Agency introduced an application onto its website that allowed proposals to be made online.

Since 1 April 2008, taxpayers who have made a proposal and are unhappy with the decision of the Valuation Office Agency's listing officer can now appeal directly to an independent Valuation Tribunal.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government during what period of time a homeowner is able to appeal against the council tax band of their property. [293349]

Barbara Follett: There are limited circumstances in which a formal challenge (known as a 'proposal') will be accepted by the Valuation Office Agency as having been validly made, some of which are subject to a time limit. A person may, for example, make a proposal to alter the council tax banding of their property within six months of becoming the council tax payer. Further details of the circumstances and time limits are available from the Valuation Office Agency's website at:

http://www.voa.gov.uk/council_tax/can_i_appeal.htm

If, having made a valid proposal, a householder is unhappy with the decision made by the Valuation Office Agency's Listing Officer; an appeal can be made to an independent Valuation Tribunal within three months of that decision.

Anyone who has concerns that their property's council tax band is incorrect should contact the local listing officer who may amend the banding if there is sufficient evidence to justify it.

Departmental Cost Effectiveness

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what targets his Department has been set for achieving value for money in its operations; and what progress has been made in meeting those targets. [293260]

Barbara Follett: The Department's value for money targets and its plans to achieve these are set out in the 2009 Department annual report (chapter 9, page 150). In summary, the comprehensive spending review 2007 (CSR07) set the Department a target to achieve £887 million vfm gains by March 2011, comprising of:

£734 million through the supply of new affordable housing;

£110 million from the Fire and Rescue Service;

£43 million by reducing the cost of running the Department.

Progress against these targets will be published in the Department's 2009 autumn performance report.

Departmental Databases

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what *(a)* information and *(b)* datasets held on the Places Database (i) are not accessible to the public via the Places internet interface and (ii) are only accessible from within his Department; [292750]

(2) which datasets are contained on his Department's Places Database. [292754]

Mr. Ian Austin: All the data and information that are held within the Places Database are accessible to the public.

The information requested on each the datasets contained on the Places Database has been deposited in the Library of the House.

Departmental Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 September 2009, *Official Report*, column 2007W, on departmental manpower, what the *(a)* job titles and *(b)* divisions are of each of the 59.5 full-time equivalent staff on fixed term contracts. [292861]

Barbara Follett: The following table sets out the division and grade of the full-time equivalent staff on fixed term contracts, according to our personnel records as requested.

							Grade
Location	*AO and equivalent*	*EO and equivalent*	*HEO and equivalent*	*SEO and equivalent*	*G7and equivalent*	*G6 and equivalent*	*SCS*
Communities Group	1	2	2	2	2	—	3
Corporate Delivery Group	—	2	4	—	—	—	—
Housing and Planning	1	9	7	8	3	2	1
HR & Business Change Group	—	—	—	—	—	—	1
Local Government and Regeneration Group	—	2	—	—	—	—	1
Regions and Communities	—	—	—	—	—	—	1
Strategy and Performance	—	—	—	—	—	—	3
The Planning Inspectorate	—	—	—	—	—	—	1
On loan to other Government Departments	—	—	—	—	—	—	2

Departmental Procurement

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 12 May 2009, *Official Report*, column 714W, on departmental procurement, what the cost was of procuring aerial photographs from Infoterra for the digital mapping project; and which public sector bodies are parties to the Pan-Government Agreement. [293028]

Mr. Ian Austin: The Pan-Government Agreement currently provides 106 central Government bodies (listed as follows) with geographic data. The data are used for a variety of purposes including environmental analysis and land registration. The aerial photography component is worth a maximum of £9.54 million +VAT in the first four years.

Departmental Public Expenditure

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 8 July 2009, *Official Report*, column 901W, on departmental public expenditure, when he expects his Department's impact assessments to be published. [292978]

Barbara Follett: Departmental impact assessments will be published alongside Bills on their introduction to Parliament in the usual way after the Queen's Speech. The Department is continuing to work with lead Departments to identify costs for inclusion in individual impact assessments for each new Bill.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 September 2009, *Official Report*, column 2007W, on departmental finance, what the breakdown by budgetary subheading is of his Department's other current spending for 2008-09. [293044]

Barbara Follett: The Department's other current expenditure in 2008-09 was £15.8 millions (page 50, line G Resources Accounts 2008-09). The breakdown of this is as follows:

	£ million
Pay	[1]3.4
Non-pay	[2]11.0
Non-cash	[3]1.4
Total	15.8

[1] Expenditure on outward secondees fully offset by income received (including in appropriation in aid column of accounts)
[2] Includes a range of compensation payments over the course of the year, most notably a £9.3 million payment following parliamentary commissioner for administration ruling on a planning case.
[3] Balance of provision for compensation payments to ex-PSA staff which are non discretionary.

Departmental Research

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what research projects his Department has commissioned in the last 24 months. [292703]

Barbara Follett: Details of research projects commissioned by Communities and Local Government and its predecessors are available from our research database (RD) at:

http://www.rmd.communities.gov.uk/

The database provides information on projects commissioned by Communities and Local Government and predecessor Departments going back to 30 November 2001. This includes the subject, contractor and cost of each research commission.

Departmental Visits Abroad

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 1 June 2009, *Official Report*, columns 190-1W, on departmental visits abroad, which divisions of his Department sent civil servants to represent his Department and to provide expert advice on policy and subject issues in *(a)* North America, *(b)* Australia and (c) Asia in the 12 months to 31 March 2009. [292863]

Barbara Follett: Records on civil servants sent by divisions of the Communities and Local Government (CLG) to represent the Department and to provide expert advice on policy and subject issues in *(a)* North America, *(b)* Australia and *(c)* Asia in the 12 months to 31 March 2009 are not held centrally. As a consequence, this information can be obtained only at disproportionate cost.

All travel is undertaken in accordance with the Civil Service Management Code.

Fire Services: Pensions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the monetary cost of employers' contributions to fire service pensions was *(a)* in cash terms and *(b)* as a proportion of the total expenditure of fire and rescue authorities in (i) the most recent year for which figures are available and (ii) in 1997-98. [292592]

Barbara Follett: The Firefighters' Pension Schemes 1992 and 2006 are unfunded, pay-as-you-go schemes and under the financing arrangements in operation in 1997-98 pensions were paid from revenue: there were no employers' contributions.

New financing arrangements came into operation in April 2006 for English fire and rescue authorities, since when employers have paid a contribution of 21.3 per cent. of pensionable pay for members of the Firefighters' Pension Scheme 1992 and 11 per cent. for members of the New Firefighters' Pension Scheme 2006; in addition a charge is paid to cover the cost of any ill-health retirement.

In 2008-09, employers' contributions from English authorities totalled £203.477 million, which was 9.6 per cent. of total expenditure.

FlexSpace

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment he has made of the outcome against objectives of the operation of the FlexSpace initiative in his Department's accommodation. [292728]

Barbara Follett: The planned reduction in Communities and Local Government's London estate from two buildings to one was achieved on 5 October 2009 with the final relocation of staff from Ashdown House to Eland House, thus enabling savings of £4.5 million per annum on reduced operating costs.

The success of the migration to flexible desking will be formally assessed in early 2010. A staff survey was carried out in January 2009 to establish a baseline for how staff in Communities and Local Government assessed their working environment. The same survey will be run in March 2010, some three months after the last moves to flexible desking, to measure the level of improvement. The survey will be supplemented by workshops, focus groups and individual interviews.

Government Office for London

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what functions and responsibilities in relation to housing are undertaken by the Government Office for London. [293002]

Mr. Ian Austin: Housing is the policy responsibility of Communities and Local Government, and GOL works to deliver a number of the Department's housing targets in London. GOL uses its local knowledge both to work with a range of partners, including the Mayor of London, The Homes and Communities Agency (HCA) and the London boroughs, to promote and improve understanding of the Government's housing policy and to influence the development of new housing initiatives.

GOL's housing role includes advising CLG Ministers on the Mayor's housing strategy and his recommendations on the allocation of funding from the regional housing pot in London, negotiating housing targets in London boroughs' local area agreements, and advising Ministers on housing growth issues in north London and Croydon.

In addition, GOL's planning work contributes to the housing agenda through its planning responsibilities. These include advising on and scrutinising the London Plan and Local Development Frameworks on behalf of the Secretary of State for Communities and Local Government to ensure that provision is made for both affordable and market housing. GOL also has a national role in confirming planning, housing and regeneration compulsory purchase orders in England on behalf of the Secretary of State for Communities and Local Government, which facilitates regeneration and housing schemes nationwide.

Greater London Authority: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimates were made by his predecessor Department of the *(a)* cost and *(b)* staffing complement of the Greater London Authority prior to its creation. [293352]

Barbara Follett: The White Paper, "A Mayor and Assembly for London", which set out the Government's proposals for the creation of the Greater London Authority (GLA) in March 1998 provided an indicative estimate that the GLA would have around 250 staff and an annual cost of around £20 million a year.

This initial estimate was subsequently refined as the GLA's specific duties and responsibilities became clearer following the passage of the GLA Act 1999. The then Minister for Local Government announced in February 2000 that the GLA's first full year budget for 2000-01 would be £32.5 million, to be funded by grant and precept. This first budget assumed an indicative staff complement of 400 FTE staff for the GLA.

Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent estimate his Department has made of the average age of a first-time buyer of a domestic property. [292702]

Mr. Ian Austin: The average (median) age of a first time buyer of a residential property in the UK in August 2009 was 29 years old.

Source:

The Council of Mortgage Lenders.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether an impact assessment has been prepared in relation to the housing policies announced in the draft legislative programme. [292733]

Mr. Ian Austin: No housing policies were announced as part of the Draft Legislative Programme 2009-10.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in which regions regional housing executives have been established. [292816]

Mr. Ian Austin: The only region with a body known as a regional housing executive is the West Midlands. This was established in September 2006. Other regions have similar bodies, with responsibilities including the preparation of a regional housing strategy and advising Ministers on bids for elements of the regional housing pot.

These bodies include representatives from local authorities (and are mainly chaired by a local authority member) as well as key stakeholders and the HCA.

Housing: Apprentices

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 14 September 2009 on apprenticeships and new housing, whether the apprenticeships with the projects' developers will be open to *(a)* EEA nationals, [illegible] A2 nationals and *(c)* A8 nationals. [292839]

Mr. Ian Austin: On 14 September 2009 my right hon. Friend the Housing Minster announced that all projects funded from future rounds of the housing pledge will be required to offer apprenticeships places. The aim of this policy is to increase opportunities for young and/or unemployed people who have been particularly hard hit by the current economic climate. Many of these projects will be carried out by registered social landlords who have a commitment to support their local communities and will be seeking to ensure maximum benefits for young and/or unemployed people living in the vicinity of their developments.

The new apprenticeships places will comply with current UK legislation.

Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many residential new build planning applications were granted in each of the last five years; and what estimate his Department has made of the proportion of residential new build sites with planning permission which have not been developed. [292694][1]

Mr. Ian Austin: The number of planning applications for residential developments that have been granted for last five years is set out in the table:

Planning applications granted on residential developments in England[1]

	Applications granted on residential dwellings
2003-04	49,500
2004-05	56,600
2005-06	51,300
2006-07	49,500
2007-08	50,500

[1] England figures have been rounded to the nearest 100 and include estimates for non-responding authorities.

Notes:

Information for 2008-09 to be published on 29 October 2009.

Source:

Communities and Local Government General Development Control Returns

Information on whether planning applications have been developed or not is not held centrally.

Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much he expects the Homes and Communities Agency to pay to housing developers for completion of homes under the National Affordable Housing programme in each of the next three years. [292460]

John Healey: As set out in the Homes and Communities Agency's Corporate Plan, we are expecting to invest £3,248 million and £2,480 million in 2009-10 and 2010-11 respectively through the Affordable Housing programme on either starts on site or completions. Budgets for 2011-12 will be subject to the outcome of the next spending review. Housing developers are eligible to submit bids for this grant funding.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 17 July 2009, on housing, how much funding will be transferred from *(a)* the Growth Fund, *(b)* the Decent Homes Arms Length Management Organisation Programme, *(c)* the Private Sector Renewal programme and *(d)* each of the Homes and Communities Agency programmes to contribute to the £1.5 billion of funding announced in the Building Britain's Future. [293035]

1.*[Official Report, 28 October 2009, Vol. 498, c. 3MC.]*

John Healey: To enable investment to build an extra 20,000 new affordable homes for rent and low cost sale, I have reduced £128 million from the Growth Fund and £75 million from the Private Sector Renewal Fund through 2009-11 and rescheduled £150 million from the Decent Homes ALMO programme. In addition, I have charged the Homes and Communities Agency with producing £183 million of the overall £1.5 billion package through more efficient and flexible management of its range of housing and regeneration programmes.

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average grant per unit for a home sold under *(a)* Rent to HomeBuy, *(b)* HomeBuy Direct, *(c)* New Build HomeBuy, *(d)* MyChoice HomeBuy, *(e)* OwnHome, *(f)* the First Time Buyers Initiative and *(g)* Social HomeBuy was in each of the last three years. [292480]

John Healey: The following is a breakdown of the average grant per unit for homes completed in the last three years:

Average grant per unit on completions for the last three years

	2006-07	*2007-08*	*2008-09*
Rent to Homebuy	n/a	n/a	35,503
Homebuy Direct	n/a	n/a	n/a
New Build HomeBuy	12,676	17,752	24,173
MyChoice HomeBuy	n/a	n/a	35,795
OwnHome	n/a	n/a	27,577
FTBI	91,713	91,149	77,915
Social Homebuy[1]	11,413	12,179	10,464

[1] The grant relates to sales in the Housing Association sector only as grant is not given in the local authority sector.

Source:

Homes and Communities Agency.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average purchase price for a home sold via *(a)* Rent to HomeBuy, *(b)* HomeBuy Direct, *(c)* New Build HomeBuy, *(d)* MyChoice HomeBuy, *(e)* OwnHome, *(f)* the First Time Buyers Initiative and *(g)* Social HomeBuy was in each region in each of the last three years. [292481]

John Healey: The following tables show average regional market value of HomeBuy properties completed in the last three years.

2006-07

£

	Social HomeBuy	*New Build HomeBuy*	*First Time Buyers Initiative*
East Midlands	83,333	129,202	n/a

West Midlands	153,375	135,135	138,104
Yorkshire and the Humber	n/a	116,030	161,520

2008-09

£

	Social HomeBuy	*New Build HomeBuy*	*First Time Buyers Initiative*	*My Choice*	*Own Home*
East Midlands	n/a	141,341	130,747	123,134	139,651
Eastern	192,500	158,578	210,129	162,854	173,112
London	205,020	226,977	211,702	259,098	217,958
North East	77,571	113,813	130,141	118,956	130,970
North West	80,207	128,114	130,498	130,079	139,687
South East	180,150	181,285	195,949	171,414	181,717
South West	n/a	161,091	175,575	151,598	168,713
West Midlands	113,542	114,302	131,166	128,685	141,015
Yorkshire and the Humber	130,000	121,344	138,049	122,830	142,275

There were no Rent to HomeBuy sales recorded in 2008-09. New Build HomeBuy and Social HomeBuy purchasers are able to purchase a share of the property value from 25 per cent. upwards.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many households renting under the Rent to HomeBuy scheme have subsequently acquired a share in their home. [292482]

John Healey: The Rent to HomeBuy scheme was introduced in July 2008 to help eligible households benefit from an affordable rent while they save for a deposit for a pre-specified period (up to five years). There were no sales returns from registered social landlords recorded on the CORE (continuous recording) database held by the Tenants Services Authority as at 31 March 2009.

Housing: Public Expenditure

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the central Government expenditure on housing was in *(a)* cash terms and *(b)* real terms in each year since 1996-97. [292635]

Barbara Follett: Data on public expenditure by function are published annually in "Public Expenditure Statistical Analyses". The latest edition was published in June 2009 (Cm 7630) and includes data from financial year 1987-88 up to and including 2008-09.

Housing: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what obligations local authorities have to *(a)* undertake a private sector housing condition survey and *(b)* provide resulting information to his Department; [292554]

(2) what the timetable is for the completion of the latest round of private sector housing condition surveys. [292878]

Mr. Ian Austin: All local authorities are expected to have in place a local housing strategy. This provides an analysis of the housing needs of an area, covering housing across all tenures and provides a framework for ensuring that all parties act in a co-ordinated way to tackle housing problems. It is in local authority's interests to collect information across all housing tenures through housing condition surveys, including those privately owned, to ensure it has a plan in place for its current and future housing needs for all local residents. The Government do not stipulate either the precise detail of local housing condition surveys, the timetable of these or that local authorities share the information collected with Communities and Local Government. It is for local authorities to decide the best way to take this forward.

Housing: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency takes into account the potential for planning permission, where such permission has not been explicitly granted, when its district valuer arm values homes for right to buy purposes. [292552]

Barbara Follett: The Valuation Office Agency reflects any realistic potential for further development when valuing dwellings for right to buy purposes. This is required under the statutory basis of valuation, as contained within section 127 Housing Act 1985 and is in full accordance with the Royal Institution of Chartered Surveyors' code of practice, "Valuations for Right to Buy, Right to Acquire and Equity Sharing of Social Housing".

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many domestic dwellings in England have been assigned the notification code CL26 by the Valuation Office Agency in each year since 2006-07. [292731]

Barbara Follett: The number of properties, in England, reviewed and cleared with notification change code CL26 is as follows.

	Number
2006-07	39,017
2007-08	63,233
2008-09	51,068

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brentwood and Ongar of 26 June 2007, *Official Report*, on housing: valuation, what method the Valuation Office Agency uses to establish how much a permanent greenhouse is worth. [293024]

Barbara Follett: The Valuation Office Agency uses the comparison method to value domestic property for council tax purposes, whatever features it may have. Individual items would not be considered in isolation but by reference to the effect they have on the value of the whole.

Institute of Revenues Rating and Valuation Wales Conference

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the speech, presentation and handouts made by the representative of the Valuation Tribunal Service at the Institute of Revenues Rating and Valuation Wales conference held in Bournemouth on 30 September 2009. [292879]

Barbara Follett: I have placed in the Library a copy of the presentation given by Anne Galbraith OBE, Chairman of the Valuation Tribunal Service, entitled "The Modern Appeals Service" given at the Institute of Revenues Rating and Valuation's Annual conference in Bournemouth on 30 November 2009.

Land: Databases

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) which organisations have subscribed to the new Pan-Government Agreement on geographical information; [292752]

(2) which public sector organisations have purchased data from the colour infra-red product through the new Pan-Government Agreement. [292753]

Mr. Ian Austin: The following government organisations are members of the PGA.

Organisations annotated with * have licensed aerial photography and therefore have access to the colour infra-red product.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 11 March 2009, *Official Report*, columns 487-8W, on land: databases, what aerial and satellite photography members of the Pan-Government Agreement will have access to; and what associated photography products are provided by *(a)* Ordnance Survey, *(b)* Landmark and *(c)* Dotted Eyes. [292856]

Mr. Ian Austin: Members of the Pan-Government Agreement have access to a range of data from three suppliers (Landmark-Dotted Eyes, Next Perspectives and Ordnance Survey). The Next Perspectives consortium provides aerial photography (25 cm resolution colour imagery; colour infra-red data); and height data (contour and digital terrain models). Satellite data are not included.

There are no other suppliers of aerial photography products under the PGA. Ordnance Survey provides a range of products including large, medium and small scale data; transport; boundaries; address and gazetteer data. The Landmark-Dotted Eyes consortium supplies the PGA with postcodes and points of interest data.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to local authorities on their implementation of Financial Reporting Standard 12. [292737]

Barbara Follett: The Department has not issued any guidance on Financial Reporting Standard (FRS) 12. The application of FRS 12 to local authorities is governed by the 'Code of Practice on Local Authority Accounting in the United Kingdom: A Statement of Recommended Practice', published by the Chartered Institute of Public Finance and Accountancy. This code is identified as a proper practice in relation to the accounts of local authorities by regulation 31 of the Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 (SI 2003 No 3146).

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to local authorities on the operation of their financial reserves. [292738]

Barbara Follett: The Department has not issued guidance to local authorities on the operation of their financial reserves. Decisions on the level of reserves are a matter for local authorities. The Chartered Institute of Public Finance and Accountancy (CIPFA) publish professional guidance on the establishment and maintenance of local authority reserves.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 29 September 2009, on council efficiency, which local authorities reported efficiency savings in relation to *(a)* adopting alternate weekly refuse collections and *(b)* introducing wheeled refuse containers. [293023]

Barbara Follett: The Department does not collect information from councils on the value of efficiencies broken down by individual service sectors. Councils are required to report only the total net value of ongoing cash-releasing value for money gains that have impacted since the start of the 2008-09 financial year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 21 May 2009, *Official Report*, column 1510W, on national insurance contributions: local authorities, whether the planned additional cost of national insurance contributions for local authorities will be treated as a new burden for the purposes of determining local authority grant. [293025]

Barbara Follett: The increase in national insurance contributions for employers announced in the pre-Budget report 2008 applies to all employers and does not impact disproportionately upon local authorities. Consequently, the new burdens doctrine does not apply.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effect of the introduction of the International Financial Reporting Standard to local government on *(a)* staff leave costs in local government and *(b)* other local government costs. [293322]

Barbara Follett: The Department is currently assessing the financial implications of the introduction for local government of the International Financial Reporting Standards in financial year 2010-11. We are considering the effects in relation to staff leave costs as well as other costs and propose to consult local authorities shortly.

Local Government: Accountability

Margaret Moran: To ask the Secretary of State for Communities and Local Government (1) which local authorities have passed *(a)* delivery of and *(b)* ownership of services in respect of their duty to involve to social enterprises; and whether any such transfer has also involved a transfer of premises; [292646]

(2) what steps he is taking to assess the effectiveness of *(a)* local authorities and *(b)* other public agencies in discharging their obligations in respect of their (i) duty to promote democracy and (ii) duty to involve; [292647]

(3) what information his Department holds on those local authorities which have not yet put in place mechanisms in respect of their duty to *(a)* involve and *(b)* promote democracy obligations; and if he will make a statement; [292649]

(4) what information his Department holds on whether local authorities and other public agencies are engaging representatives of vulnerable persons as required under the provisions of the 7. [292650]

Barbara Follett: The duty to promote democracy is included in the Local Democracy, Economic Development and Construction Bill currently in Parliament. It is not yet, therefore, a statutory duty.

In terms of the duty to involve, it is principally for local authorities and relevant public bodies to which this currently applies to assess for themselves the effectiveness of when and how they involve others, and how this improves services and community cohesion in an area. My Department does not collate and hold detailed information on how individual authorities are implementing the duty to involve, including any transfers of services to social enterprises. Under the new Comprehensive Area Assessment, the independent inspectorate of local services will be considering how well local authorities and partners understand and respond to the needs and aspirations of local people. The first set of CAA reports are due to be published on 10 December.

Inspectorates have made it clear that they will pay particular attention in their assessments to people whose personal circumstances present a risk to themselves or to others. They will report clearly where their needs are not being met or where they have concerns about them being met in future, allowing for the different levels of risk and urgency associated with such circumstances.

Margaret Moran: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated to *(a)* local authorities and other public bodies and *(b)* other organisations in respect of their (i) duty to involve and (ii) duty to promote democracy obligations over the next three years. [292648]

Barbara Follett: The Department has not allocated additional funding for the duty to involve. Involving and consulting local people is not a new task. Better engagement of local people should help public bodies to deliver better and more efficient local services. It is reasonable to expect authorities to factor in value for money when considering the appropriate level of engagement.

The duty to promote democracy is included in the Local Democracy, Economic Development and Construction Bill currently in Parliament. It is not yet, therefore, a statutory duty. Final decisions about funding allocations have not yet been made.

Local Government: Barnet

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much funding his Department has provided to the London borough of Barnet to test behavioural economics to date. [292883]

Barbara Follett: The Department gave £350,000 to the London borough of Barnet in 2008-09 for pilot projects on behavioural change on recycling.

Local Government: Influenza

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of his Department's pandemic influenza contingency plan. [291151]

Barbara Follett: A copy of the pandemic influenza contingency plan will be placed in the Library of the House.

Met Office

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department provides funding to the Met Office. [292863]

Barbara Follett: Communities and Local Government provides funding to the Met Office for the provision of the web-based FireMet service. FireMet is a weather system designed to provide the Fire and Rescue Service with the latest weather information to help them identify a safe approach when dealing with a major incident.

Funding provided to date is as follows and covers costs associated with the development of the FireMet system, associated training and operational delivery of the service.

2006-07: £21,385

2007-08: £36,010

2008-09: £53,716

Mortgages: Government Assistance

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been *(a)* distributed to each local authority through the Preventing Repossession Revenue Grant and *(b)* subsequently spent by each authority; how many people applied for grants; how many grants were issued in the ranges (i) £0 - £249, (ii) £250 - £499, (iii) £500 - £999, (iv) £1,000 - £1,999, (v) £2,000 - £2,999, (vi) £3,000 - £3,999, (vii) £4,000 - £4,999 and (viii) £5,000 or more; what assessment he has made of the effect of the scheme in preventing repossession or eviction in each year since the grant's inception; and what assessment he has made of the likely effects of the scheme in the next two years. [292082]

John Healey: The £20 million Preventing Repossessions Fund was announced by the Chancellor in the Budget to enable local authorities to offer small loans up to a maximum value of £5,000 to families at risk of homelessness through repossession or eviction. A list of allocations made in June 2009 to individual local authorities for 2009-10 has been placed in the House Library. Information about the use councils have made of this grant and number of households who have received a payment from the fund will be published later this year.

The fund forms part of the range of assistance that has been put in place at every stage to help struggling households. It provides additional support to local authorities in their work to prevent repossessions and eviction in difficult cases where households may have multiple debts or negative equity.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what information was used to establish the areas where advertising for the Mortgage Help campaign was to be concentrated; and if he will make a statement. [292477]

John Healey: 22 priority areas were identified for additional targeting as part of the Mortgage Help campaign to help prevent repossessions by encouraging concerned homeowners to seek help and advice. These areas were identified as facing a greater risk of increased repossessions using labour market data and mortgage possession data.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the annual budget for the Mortgage Help campaign is; and how much is expected to be spent on *(a)* campaign advertising and *(b)* the campaign's website in 2009-10. [292478]

John Healey: In the financial year 2009-10 the total allocated budget for the Mortgage Help campaign is £1.855 million. The campaign is still running, and so spend allocations for different aspects of the campaign have not yet been finalised. The Department will publish a breakdown of the actual campaign spend at the time of its next annual report.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 8 September 2009 on support for homeowners, what criteria were used to select the 22 hotspot areas; and what account was taken of mortgage repossession figures held by the Ministry of Justice in that selection. [293021]

John Healey: 22 priority areas were identified for additional targeting as part of the Mortgage Help campaign to help prevent repossessions by encouraging concerned homeowners to seek help and advice. These areas were identified as facing a greater risk of increased repossessions using labour market data and mortgage possession data.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what statistics *(a)* his Department and *(b)* the Valuation Office Agency are compiling on the level of take-up of deferred business rates under his Department's scheme to allow partial deferral of 2009-10 increases. [292746]

Barbara Follett: On *(a)*, the Department is planning to collect figures on the total number of deferrals granted and the total amount deferred for each local billing authority.

On *(b)*, the Valuation Office Agency does not collect these data.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether he plans to reduce average business rate bills in April 2010 if retail price index inflation is negative in September 2009. [292884]

Barbara Follett: Under schedule 7 of the Local Government Finance Act 1988 the increases in the business rates multipliers each year are capped by the previous September's RPI. Therefore the September 2009 RPI of -1.4 per cent. will exert a downward pressure on the multipliers and 2010-11 rates bills. Under the same legislation, the multipliers will also be adjusted to ensure that the overall tax yield does not increase as a result of the 2010 revaluation. The Government have no plans to amend the way that the multipliers are calculated.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessments have been made of the effects of the introduction of the new regime of empty property business rates to date. [293368]

Barbara Follett: An Impact Assessment was published with the Explanatory Memorandum to the Non-Domestic Ratings (Unoccupied Property) (England) Regulations 2009. It may be viewed on the Office of Public Sector Information website at the following address:

http://www.opsi.gov.uk/si/si2009/em/uksiem_20090353_en.pdf

Non-Domestic Rates: Advertising

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Ludlow of 16 September 2009, *Official Report*, column 2288W, on the Valuation Office Agency: publications, whether an advertising station which is not let out, not reserved and not displaying any image is eligible for empty property rate relief if its rateable value is under the empty property rate relief threshold. [293031]

Barbara Follett: I refer the hon. Member to the answer given to the hon. Member for Bromley and Chislehurst (Robert Neill) on 11 February 2009, *Official Report*, columns 2065-066W.

Non-Domestic Rates: Diplomatic Missions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 6 July 2009, *Official Report*, column 547W, on diplomatic missions, if he will allow local authorities to withdraw services from diplomatic missions which do not pay the national non-domestic rates billed to them. [292977]

Barbara Follett: Local authorities are under statutory obligations to provide certain services in their areas and cannot therefore withdraw such services where a diplomatic mission fails to pay the element of its business rates bill for which it is responsible.

Non-Domestic Rates: Empty Property

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much net revenue has been raised from the new regime of empty property business rates in each year since their introduction. [292589]

Barbara Follett: Local authorities reported that they granted £487 million of empty property relief in 2008-09 and estimate that in 2009-10 they will grant empty property relief of £570 million.

These data are available in the National non-domestic rates statistics releases that are available on the Communities and Local Government website at:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/nondomesticrates/

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether he plans to introduce anti-avoidance measures following the lowering of the threshold on empty property business rates in April 2010. [292590]

Barbara Follett: The Government have no plans to introduce any empty property rates anti-avoidance measures at this time.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which local authorities have responded to his Department's information-gathering exercise on empty property business rates. [292628]

Barbara Follett: All 354 billing authorities in existence as of 31 March 2009 provided data on *(a)* the numbers of empty properties as of 31 March 2009 and *(b)* of those, the number of empty properties with a rateable value of less than £15,000. The data were provided on the billing authority's annual NNDR3 return.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what *(a)* individuals and *(b)* organisations have responded to his Department's consultation on modernising empty property relief. [292710]

Barbara Follett: A list of respondents to the consultation is contained in the summary of responses document at Annex A. The summary can be found at the following link:

http://www.communities.gov.uk/publications/localgovernment/meprresponse

A copy of the document has already been placed in the Library of the House.

Non-Domestic Rates: Ports

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether *(a)* yacht clubs and *(b)* fishing companies located within the curtilages of ports are liable to pay business rates on a retrospective basis following the Valuation Office Agency's review of port valuations. [292817]

Barbara Follett: The Government do not hold information on the identity of ratepayers liable for business rates. A liable party for business rates will have paramount control of a property. Whether a yacht club or a fishing company has paramount control of a property within the curtilage of a port will depend on the facts of each case. If there is paramount control then it would warrant a separate assessment and if they were not previously assessed then they would have been affected by the review.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many assessments of individual hereditaments there have been by the Valuation Office Agency to date in relation to the new regime of business rates on ports; and how many of these have subsequently been corrected or subjected to an appeal. [292875]

Barbara Follett: The assessment of separate occupations is not new and was not introduced by the Valuation Office Agency's review of ports. Over 1,600 properties within the 45 ports in England were separately assessed immediately prior to the completion of the review of each port. As at 8 July 2009 the number of properties within ports that are separately assessed with an effective date of 1 April 2005 is 2,207, a net increase of around 600 compared to the position immediately prior to the review of each port.

As at 9 September, the Valuation Office Agency has applied fast track arrangements to 703 appeals made by port businesses, 355 of which relate to new business rating assessments with an effective date of 1 April 2005.

Of the 355 appeals, 154 have been settled, 48 by agreement and 106 withdrawn. Where agreement has been reached this has resulted in a reduction in the rateable value.

Non-Domestic Rates: Take-Away Food

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether operators of mobile food vending vans are liable for the payment of business rates. [292757]

Barbara Follett: Mobile food vending vans are not rateable. The sites they park on and any operational base from which they work may have a liability for rates.

Non-Domestic Rates: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the timetable is for the 2010 business rates revaluation; and when he expects bills reflecting the revaluation to be issued to those liable for business rates. [294101]

Barbara Follett: The 2010 rating list will come into force on 1 April 2010. Regulations implementing the 2010 transitional arrangements will be made before the end of December 2009 and the small business non-domestic multiplier and the national non-domestic multiplier will be confirmed in the new year after Parliament approves the Local Government Finance Report. The issuing of rates bills is a matter for Billing Authorities, but we expect that rate bills for 2010-11 will be issued by Billing Authorities during March 2010.

Official Hospitality

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 1 June 2009, *Official Report*, column 203W, on official hospitality, if he will place in the Library a copy of each page of his Department's staff handbook relating to guidance on the declaration of gifts, hospitality and financial interests. [292865]

Barbara Follett: A copy of the pages of the Department's staff handbook relating to guidance on the declaration of gifts, hospitality and financial interests will be placed in the House of Commons Library.

Oxford Economic Forecasting

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what *(a)* research and *(b)* reports have been commissioned from Oxford Economic Forecasting by his Department and its agencies in the last 36 months. [292813]

Barbara Follett: Details of research projects commissioned by Communities and Local Government and its predecessors are available from our Research Database (RD) at:

http://www.rmd.communities.gov.uk/

The database provides information on projects commissioned by Communities and Local Government and predecessor departments going back to 30 November 2001. This includes the subject, contractor and cost of each research commission.

Planning Permission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department issues to *(a)* councillors and *(b)* local planning authorities on consideration to be given to issues of (i) predisposition and (ii) predetermination in determining the outcome of planning applications. [292712]

Mr. Ian Austin: Predisposition and predetermination in relation to the conduct of councillors and officers fall within the wider consideration of probity.

The Local Government Act 2000 introduced a requirement for each local authority to adopt a code of conduct for councillors, based on the Model Code of Conduct set by the Government and endorsed by Parliament. All councillors have to give a written undertaking to observe the code, or cease to be a member of the authority. The current Model Code, introduced in 2007, sets new rules on personal and prejudicial interests. The Code may be viewed at:

http://www.opsi.gov.uk/si/si2007/uksi_20071159_en_1

The Standards Board for England, the strategic regulator for local authority standards committees and the body which works with councillors and conduct regime practitioners, issues guidance on the code of conduct. The Standards Board has also issued a paper on predisposition, predetermination and bias.

The Department has not issued any guidance for local authority employees. Local authority employees' behaviour regarding the consideration of planning applications would be determined by their terms and conditions of employment. In addition, the employing authority may have a code of conduct for employees addressing this issue. The Local Government Association has issued guidance in "Probity in Planning: The Role of Councillors and Officers - Revised Guidance Note on Good Planning Practice for Councillors and Officers Dealing With Planning Matters". This can be viewed at:

http://www.lga.gov.uk/lga/aio/1940404

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what types of planning application were not considered by local planning authorities, prior to the establishment of the Infrastructure Planning Commission. [292899]

Mr. Ian Austin: Planning applications under the Town and Country Planning Act 1990 are made to the relevant local planning authority. In London, the Mayor has powers to take certain planning decisions. The Secretary of State deals with appeals and projects called in for determination.

Nationally significant infrastructure projects will in future be considered by the Infrastructure Planning Commission which will in general replace consents granted by Ministers under a range of different Acts such as the Highways Act 1980, Electricity Act 1989 and Transport and Works Act 1992.

Planning Permission: Agriculture

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brentwood and Ongar of 17 October 2007, *Official Report*, column 1339W, on planning: agriculture, what changes there have been to planning policy on the protection of the best and most versatile agricultural land since October 2007; and whether the new Planning Policy Statement 4 will include further changes to the regime. [293224]

Mr. Ian Austin: The have been no changes to planning policy on the protection of best and most versatile (BMV) agricultural land since October 2007. The Government's planning policy on BMV agricultural land is set out in Planning Policy Statement 7 (PPS7): "Sustainable Development in Rural Areas" published in August 2004.

The new Planning Policy Statement 4 (PPS4): Planning for Prosperous Economies will not include any policies on BMV agricultural land. The relevant policies in PPS7 will continue to apply.

Planning Permission: Fees and Charges

Paul Farrelly: To ask the Secretary of State for Communities and Local Government (1) what discretion local authorities have in determining the fees payable by applicants seeking to extend existing planning consents for up to three years from 1 October 2009; [293036]

(2) what statutory level of fees is payable by applicants seeking to extend existing planning consents by up to three years from 1 October 2009; [293037]

(3) what recent assessment he has made of the merits of setting at £500 the fee charged by local authorities applying for an extension to existing planning permissions for up to three years from 1 October 2009. [293038]

Mr. Ian Austin: Fees are currently set through The Town and Country Planning (Fees for Applications and Deemed Applications) Regulations 1989 as amended by The Town and Country Planning (Fees for Applications and Deemed Applications) (Amendment) (England) Regulations 2008. Local authorities are not able to apply discretion to the regulations. Until the fees regulations are further amended later this year, the level of fee payable for an application to extend the time limits for implementation of an existing planning permission is as it would be for a new application for the same development. When the fees regulations are amended, a reduced fee level will be payable. Proposed fee levels, which are currently under consideration, are for £500 for a major development, £50 for a householder application and £170 for any other application. The fee levels will be subject to parliamentary debates in both Houses before coming into force.

Planning Permission: Parking

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) whether section 51 of Planning Policy Statement 3 on parking overrides the maximum parking standards for residential development contained in the 2001 edition of Planning Policy Guidance 13 on Transport; [292546]

(2) what changes his Department and its predecessors have made to *(a)* minimum and *(b)* maximum parking standards in planning guidance since 2001; [292621]

(3) whether his Department has set any targets to reduce car ownership through the application of planning policy; [292692]

(4) whether his Department has issued any recent guidance to local planning authorities on the grant of planning permission for the construction of new garages for purposes other than the storage of vehicles; [292699]

(5) whether an impact assessment was produced to accompany *(a)* the 2000 edition of PPG3 and *(b)* the 2001 edition of PPG13; [292808]

(6) if he will make it his policy to amend planning policy guidance to abolish maximum parking standards. [292824]

Mr. Ian Austin: PPS3 paragraph 51 does not override PPG13. Planning Policy Statement 3: Housing (PPS 3) and Planning Policy Guidance Note 13: Transport (PPG 13) should be read together.

The original Planning Policy Guidance Note 3: Housing (2000) contained a reference to minimum parking for residential units of 1.5 spaces per unit. This policy was removed in PPS 3 (2006). PPG 13 makes it clear that there should be no minimum parking standards for development, other than for disabled people. The maximum car parking standards in PPG 13 remain unchanged since 2001. The requirement for maximum standards continues in the current draft Planning Policy Statement 4:Planning for Prosperous Economies.

The Government have not set any targets to reduce car ownership through planning policy.

A specific regulatory impact assessment was not prepared for the 2001 edition of PPG 13. The sustainable site location policies set out in PPG 13 are repeated in other Planning Policy Statements (including 1, 3 and draft PPS 4) which do have impact assessments. The draft PPS 4 consultation impact assessment considers non-residential parking policy issues. The impact assessment is part of the consultation document available on the Communities and Local Government website:

http://www.communities.gov.uk/documents/
planningandbuilding/pdf/consultationeconomicpps.pdf

A regulatory impact assessment was produced for PPS 3, which superseded PPG 3, and is available on the Communities and Local Government website:

http://www.communities.gov.uk/publications/
planningandbuilding/pps3ria

This impact assessment considers residential parking policy issues.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what planning applications the Planning Inspectorate has allowed at appeal in the last 12 months where a condition of granting the application included a requirement that the garage accommodation which formed part of the application be kept available for the parking of vehicles at all times. [292697]

Mr. Ian Austin: Data in relation to conditions imposed as a result of planning appeals that have been allowed are not held centrally by the Planning Inspectorate and could be recovered only at disproportionate cost.

Public Houses: Postal Services

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many public houses have post offices facilities within them, according to rating list records held by the Valuation Office Agency. [293366]

Barbara Follett: This information could be provided only at disproportionate cost.

Public Works Loan Board

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department plans to review the costs to local authorities of making early repayments to the Public Works Loan Board. [292874]

Barbara Follett: The UK Debt Management Office, together with the Public Works Loan Board and HM Treasury is currently reviewing the frequency with which fixed interest rates are set. The consultation document is available on the Debt Management Office website at:

http://www.dmo.gov.uk/
documentview.aspx?docname=PWLB/
condoc20090928.pdf&page=

Quirk Review

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which recommendations of the Quirk Review have *(a)* been and *(b)* not been implemented. [292999]

Barbara Follett: "Making Assets Work", the Quirk Review of Community Management and Ownership of Public Assets, was published in May 2007. The Government accepted its recommendations and published their response to the Quirk Review, "Opening the Transfer Window". Action has been taken to implement all the recommendations and has included a widespread promotional campaign; publishing guidance on managing risks in asset transfer; updating local authority asset management guidance; and the Advancing Assets demonstration programme to support local authority and community partners in asset transfer. The Advancing Assets programme is continuing and a dedicated Asset Transfer Unit has been established to provide independent guidance, advice and support on asset transfer.

Rates and Rating

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effects of the rating system for on-sale premises on their competitive position in relation to supermarkets; and if he will make a statement. [293651]

Barbara Follett: We have made no assessment of the effects of the rating system on public houses.

Recycling

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department issues to local authorities on the treatment of *(a)* local authority collection of garden waste and *(b)* home composting of garden waste for the purposes of assessing progress towards local authority recycling targets. [292804]

Dan Norris: I have been asked to reply.

Local authorities in England no longer have centrally imposed statutory targets on recycling and composting—this is consistent with Government policy to give local areas more freedom and flexibility on how they deliver national objectives.

The Government believe local authorities are better placed to make decisions on the best waste management strategy for their local area, so it does not direct or interfere in the decisions they make.

DEFRA has not provided any specific guidance but provides a range of targeted support to help local authorities deliver their targets through bodies such as the Waste Implementation Programme and the Waste and Resources Action Programme (WRAP).

WRAP has also been working on a model to calculate how much waste is diverted from landfill via home composting. The model, once complete, could help councils include home composting in targets to divert biodegradable municipal waste from landfill under the Landfill Allowance Trading Scheme.

Regional Planning and Development: Green Belt

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in which locations the draft regional spatial strategies submitted to his Department recommend a review of green belt protection. [292735]

Mr. Ian Austin: A Regional Spatial Strategy, whether in draft or in its final form issued by the Secretary State, would not affect the level of protection afforded to Green Belt. This is set out in National Planning Policy. Policies in Regional Spatial Strategies may recommend that, in a particular area, there should be a review of land designated as green belt.

Regional Planning and Development: South East

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department plans to undertake new strategic environmental assessments on the South East Regional Spatial Strategy. [292802]

Mr. Ian Austin: There are currently a number of legal challenges to the south-east regional spatial strategy which relate to the adequacy of the strategic environmental assessment that was undertaken and we are awaiting the outcome of court proceedings.

Social Rented Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what 39 data items are recorded for an average property on the National Register of Social Housing. [292872]

Mr. Ian Austin: The National Register of Social Housing records, on average, 39 data items for each dwelling. The following are the 39 most-recorded data items, as of 6 October 2009.

NROSH data item description:

Local Authority Location of Dwelling
National Land and Property Gazetteer Unique Property Reference Number
Data provider's Property Reference Number
Supporting People Administering Authority Reference Number
Confirmation of ownership
Code of the Owner
Confirmation of manager
Data provider's estate name
Data provider's estate reference number
Data provider's block or scheme name
Data provider's block or scheme reference number
Social Rented Housing Categories
Self contained or not self contained
Furnished or unfurnished
Valuation
Cloned valuation
Date of valuation
Type of dwelling
Form of structure
Number of floors in the dwelling
Floor in the block on which the dwelling is located
Purpose built or converted
Year built
Year built is estimate
Type of Construction
Number of private living rooms
Number of bedrooms
Number of bed spaces
Basis for SAP Rating
Decent Homes Standard date of inspection
Standard of thermal efficiency
Dates occupied
Dates vacated
Choice based lettings
Tenure Type
Rent payments per year
Rent
Target rent
Helpline

Social Rented Housing: Foreigners

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much and what proportion of social housing was allocated between 2002 and 2007 to tenants who were not born in the United Kingdom. [293262]

Mr. Ian Austin: This information is not available.

Information on the number of social housing lettings is collected through the Continuous Recording of Letting form (CORE). Place of birth is not recorded.

For estimates of allocations by nationality, I refer the hon. Member to the answer I gave her on 1 September 2009, *Official Report*, column 1844W.

Social Rented Housing: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated for achievement of the Decent Homes standard in each of the next three years. [292876]

Mr. Ian Austin: Decisions on future years' funding for Decent Homes have not yet been taken.

Solution Establishment Workshop

John McDonnell: To ask the Secretary of State for Communities and Local Government what the *(a)* purpose and *(b)* nature of the Solution Establishment Workshop (SEW) set up under FireControl is; when SEW commenced work; what functions SEW has been assigned; when SEW is expected to complete its work; and whether he expects outcomes from the SEW exercise to be published. [289210]

Mr. Malik *[holding answer 12 October 2009]:* The purpose of the FireControl Solution Establishment Workshops (SEWs) is to bring together key partners in the Fire and Rescue Service, the Department and EADS to design and develop the IT system. The SEWs will ensure that the system meets mandatory requirements and the operational needs of the users, and builds on the work completed so far in order to deliver an effective, resilient network. The SEWs build on an extensive series of technical workshops which have taken place since the project was awarded in 2007.

SEWs began work on 22 June 2009 and are scheduled to complete their work in November 2009. The outcomes from the SEW exercise will be communicated to key stakeholders.

Surrey Police: Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what outturn total Band D council tax bill was levied in each billing authority in Surrey in 2009-10 following the capping of Surrey Police Authority. [292545]

Barbara Follett: Details of the average band D council tax payable in 2009-10 in each billing authority in Surrey following the designation of the Surrey police authority are shown in the table.

	£
Elmbridge	1,483
Epsom and Ewell	1,442
Guildford	1,447
Mole Valley	1,438
Reigate and Banstead	1,482
Runnymede	1,416
Spelthorne	1,450
Surrey Heath	1,482
Tandridge	1,484
Waverley	1,482
Woking	1,483

The information is also available in table 6 of the statistical release "Council Tax levels set by local authorities in England 2009-10 (Revised)" that was published on the Communities and Local Government website on 30 July and is available at the following link:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistis/counciltax/rates/

Sustainable Communities Act 2007

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what timetable his Department has set for the *(a)* consideration and *(b)* approval of local authority proposals under the Sustainable Communities Act 2007. [292822]

Barbara Follett: The timetable for the consideration and approval of local authority proposals made under the Sustainable Communities Act 2007 will be determined by the number and complexity of proposals shortlisted by the selector.

Wind Power: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the Valuation Office Agency's guidance and methodology for valuing wind turbines; and what criteria apply to the inclusion of power generation in the *(a)* national and *(b)* local rating list. [292617]

Barbara Follett: The guidance and methodology for valuing wind turbines for rating purposes is set out in the VOA Rating Manual, which can be found on the VOA website:

http://www.voa.gov.uk/instructions/chapters/rating_manual/vol5/sect530/frame.htm

Since April 2000 power generators have appeared in local rating lists. The identity of the occupier, the purpose of occupation and the extent of property occupied is generally straightforward and normally within a small geographical area and a single billing authority.

The central rating list contains network properties such as the Transco gas networks and the clean water supply companies. These hereditaments cover large areas and numerous administrative boundaries.

Working Conditions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the guidelines given to staff of his Department on the flexi-desk environment in operation in his Department. [292755]

Barbara Follett: Communities and Local Government adopted a core brief for all staff moving to flexible desking and applied small modifications to this if a Directorate should have any particular needs.

Briefings material issued to the Human Resources Directorate have been lodged in the Library of the House as an example.

CULTURE, MEDIA AND SPORT

Casinos

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of progress in establishing a casino in each of the local authority areas where *(a)* a large and *(b)* a small casino is permitted. [293853]

Mr. Sutcliffe: Officials attend regular meetings with the 16 licensing authorities permitted to issue large and small casino premises licences in order to provide advice and support where it is requested by them. It remains up to the individual licensing authorities to decide when to announce their process and timetable for applications for the new premises licences.

Horse Racing: Betting

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made in relation to the modernisation of the Horse Race Betting Levy; what progress he expects to be made in the next three months; and if he will make a statement. [293749]

Mr. Sutcliffe: The recently ratified 49th Levy scheme will bring some much needed stability and certainty for the racing and bookmaking industries. They must now build on this momentum to work together for the benefit of racing and come to their own agreements rather than relying on Government to adjudicate. I am very pleased Paul Lee has taken on the role of Levy Board chair as I believe he will provide the kind of leadership needed to proceed with modernising the Levy. I am meeting him shortly and look forward to hearing his thoughts on the next steps.

Horserace Totalisator Board

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport (1) what recent representations he has received from organisations interested in buying the Tote; and if he will make a statement; [293745]

(2) how much his Department has spent on consultancy fees in relation to the sale of the Tote; how much he expects to spend on such fees; and if he will make a statement; [293746]

(3) whether he plans to guarantee the jobs of Tote staff on the sale of the Tote; and if he will make a statement; [293747]

(4) if he will take steps to ensure that the internet services provided by the Tote are not transferred abroad on the sale of the Tote; and if he will make a statement. [293748]

Mr. Sutcliffe: The arrangements for the sale of the Tote are yet to be determined and discussions are continuing with all the relevant parties. The present intention is that the sale process itself will not start until summer 2010 with a latest completion date of March 2011. We expect to be able to give further details on the process in the next few months.

The Government's position remains that we will honour our commitment to return half of the net proceeds of any market sale to racing subject to the requirements of European state aid and competition rules. I am unable to disclose commercially confidential or sensitive information about the valuation of the tote or prospective Government payments to agents.

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport when *(a)* he and *(b)* the Parliamentary Under-Secretary of State, the hon. Member for Bradford South, were first informed of the recent announcement of proposals for the sale of the Tote. [293845]

Mr. Sutcliffe: Discussions on possible plans to realise the full value of various assets, including the Tote, have been taking place over the last few weeks. A decision in principle was made by Ministers to include the Tote in the list of assets to be sold on 23 September 2009, subject to agreement by colleagues.

Licensing Laws: Languages

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what information his Department holds on the number of languages in which tests related to obtaining a personal licence for the retail sale of alcohol are administered. [293854]

Mr. Sutcliffe: The Department's criteria for accredited personal licence course providers do not stipulate that examinations must be taken in languages other than English. Course providers are free to make a commercial decision to allow the examination to be taken in other languages if there is a demand for such a service.

DEFENCE

Aircraft Carriers

Mr. Hoyle: To ask the Secretary of State for Defence what estimate has been made of the number of *(a)* direct and *(b)* indirect jobs in the supply chain which would be created as a result of the construction of the two proposed new aircraft carriers; what information his Department holds on the number of such jobs which would be created in each constituency; and if he will make a statement. [293221]

Mr. Quentin Davies: It is anticipated that work on the Queen Elizabeth Class Aircraft Carriers will create or sustain between 7-8000 jobs at the Tier 1 shipyards in Glasgow, Rosyth, Portsmouth and Devon. We do not hold information relating to the number of indirect jobs or the breakdown of jobs in each constituency. Throughout the supply chain we expect companies to employ local people thereby boosting local economies across the UK.

Cyprus: Military Bases

Andrew Rosindell: To ask the Secretary of State for Defence what green technologies have been installed in the Sovereign Base Areas of Akrotiri and Dhekelia. [293299]

Mr. Kevan Jones: All Service family accommodation built in the last 15 years and all new single living accommodation in Cyprus includes green technology in the form of solar panels to provide supplementary heating of hot water. These panels are also fitted into older properties where it is cost effective to do so.

A number of other environmental initiatives are in place within the Sovereign Base Area, including the installation of showers in all new-builds to conserve water, designing buildings to maximise thermal efficiency thereby minimising the requirement for air conditioning, and a recycling service.

Israel: Military Aid

Clare Short: To ask the Secretary of State for Defence what official links there are between UK and Israeli armed forces; and if he will make a statement. [293011]

Bill Rammell: Our defence relationship with Israel is in line with HMG's policy in support of the Middle East Peace Process of having a balanced relationship with the Israelis and the Palestinians. We periodically have formal strategic level dialogue and engagement with Israeli military and civilian defence staff counterparts, including some direct contact in support of our equipment procurement programmes.

Radar: Wind Power

Danny Alexander: To ask the Secretary of State for Defence pursuant to the answer of 1 April 2008, *Official Report*, column 797W, on radar: wind power, how many pre-planning applications his Department had objected to on the grounds of interference with defence equipment on the latest date for which figures are available; how many such applications related to sites in Scotland; and how many such applications in *(a)* the UK and *(b)* Scotland were subsequently withdrawn. [293446]

Mr. Kevan Jones: Between January 2006 and 7 October 2009, the Ministry of Defence has been consulted on 3,502 pre-planning applications and has expressed concerns to 1,054 of the pre-planning applications on the grounds of interference with defence equipment and or operations. Of those concerns, 233 are related to onshore sites in Scotland. Information appertaining to applications that have been withdrawn is not held centrally and could only be provided at disproportionate cost.

The following table provided illustrates each years total number of pre-planning applications.

	Total number of pre-applications	*Concerns*
2006	731	343
2007	802	327
2008	1037	320
2009	932	64

Typically assessments take several months to complete due to the complexity of each individual assessment and the volume of pre-planning applications consulted on. As a result 846 pre-planning applications submitted in 2008-09 are currently undergoing assessment. It is likely that concerns will be raised for some of these outstanding pre-applications. However, where concerns are raised, mitigation options will be suggested to the developer where possible.

University Officer Training Corps

Ann Winterton: To ask the Secretary of State for Defence what plans he has for the operation of the University Officer Training Corps in the next six months. [293150]

Mr. Kevan Jones: The Army has taken a number of savings measures in order to stay within agreed funding allocation for this financial year. As part of these savings, all University Officer Training Corps (UOTC) cadet and volunteer instructor pay will cease until April 2010. This will generate savings of £3 million.

It is hoped that the majority of core training activity, specifically the Military Leadership and Development Programme, will continue on a voluntary basis. Undergraduates and volunteer instructors will continue to be reimbursed for travel and subsistence costs.

Non-core training activities may also continue on a voluntary basis at the discretion of Commanding Officers subject to the availability of volunteer instructors.

Wind Power

Danny Alexander: To ask the Secretary of State for Defence with reference to the answer of 11 March 2008, *Official Report*, column 296W, on wind power, to which wind farm proposals his Department has objected since January 2008; and for what reasons in each case. [293342]

Mr. Kevan Jones: Since January 2008 the Ministry of Defence (MOD) has objected to 52 wind farm planning applications, the details of which are recorded in the following table.

	Site name	*Planning authority*	*Reason for MOD objection*
2008	Waun Garno	Powys County Council	Unacceptable restriction on operational low flying
	East Skichen	Angus Council	Interference with air traffic control (ATC) radar
	Dusty Drum	Angus Council	Interference with ATC radar
	North Hall	East Riding Council	Interference with ATC radar
	Redland	Caradon County Council	Interference with ATC radar
	Hook Moor	Leeds City Council	Interference with ATC radar
	Chittering	South Cambridgeshire District Council	Interference with ATC radar
	Gwyndy Quarry Gaia 1	Isle of Anglesey	Interference with ATC radar
	French Farm	Peterborough City Council	Interference with ATC radar
	Rothes Extension	Scottish Government	Interference with ATC radar
	Little White Alice	Kerrier District Council	Interference with Fleet radar
	Kingsthorpe stables	West Lindsey District Council	Interference with ATC radar
	Withernwick	East Riding Council	Interference with air defence (AD) radar
	The Firs	Aberdeenshire Council	Interference with AD radar
	Brunel University	Hillingdon London Borough	Interference with ATC radar
	Maer Hills	Newcastle under Lyme Borough Council	Interference with ATC radar
	Woodside Farm	Moray Council	Interference with ATC radar and statutory safeguarding concerns
	Everest Community College	Hampshire County Council	Interference with ATC radar

	Site name	*Planning authority*	*Reason for MOD objection*
	Briar Lodge	North Shropshire District Council	Interference with ATC radar
2009	Todd Hill	Castle Morpeth Borough Council	Interference with threat radars
	Close Farm	Hambleton District Council	Interference with [illegible]C radar
	Trevena Cross Nurseries	Kerrier District Council	Interference with Fleet radar
	Race Bank	Department of Energy and Climate Change	Interference with AD radar
	Neslam Farm	South Kesteven Council	Interference with ATC radar
	Greenacre	Kerrier District Council	Interference with Fleet radar
	Docking Shoal	Department of Energy and Climate Change	Interference with ATC radar
	Linton	Uttlesford District Council, South Cambs District Council	Interference with ATC radar
	Cloffrickford	Aberdeenshire Council	Interference with Met Office radar
	Heysham	Lancaster City Council	Interference with ATC radar
	Sycamore Farm	North Kesteven District Council	Interference with ATC radar
	Howe Hills Wind Farm	Durham County Council	Interference with ATC radar
	Burnthouse	Fenland District	Interference with ATC radar
	Dun Law II	East Lothian Council	Interference with threat radar
	Woodlane	Selby District Council	Interference with ATC radar
	Carnebone	Cornwall Council	Interference with Fleet radar
	Dusty Drum	Angus Council	Interference with ATC radar
	Solwaybank	Dumfries and Galloway Council	Unacceptable restriction on low flying, interference with ATC radar
	Bishopwood	Selby District Council	Interference with ATC radar and statutory safeguarding concerns
	Branston Community College	Lincolnshire County Council	Interference with ATC radar
	Baumber	East Lindsay District Council	Interference with ATC radar
	Llwchyrhal Uchaf	Ceredigion	Interference with ATC radar
	St. Ivo Outdoor Centre	Huntingdon District Council	Interference with ATC radar
	Rosewain Farm	Allerdale Borough Council	Interference with NATS radar (military) and threat radar
	H&H Celcon	East Riding of Yorkshire	Interference with ATC radar
	Auckland House	Wiltshire Council	Interference with ATC radar
	Saughmont	Angus Council	Interference with ATC radar
	CleekHall	Selby District Council	Interference with ATC radar
	Saywell	Boston Borough Council	Interference with ATC radar
	Carlesgill extension	Dumfries and Galloway Council	Interference with threat radar and Eskdalemuir Seismological Recording Station
	Infinis Westfield	Fife Council	Interference with Met Office radar
	Bower Hinton	South Somerset District Council	Interference with Fleet radar
	Monynut	Scottish Government	Interference with AD radar

The MOD only objects to planning applications for wind farms where it is essential to do so. All wind farm applications that we assess are subject to individual consideration. We consider a range of factors such as safety or the impact on Air Defence or Air Traffic radars and objections will only be lodged against planning applications if the operational impact is assessed as being unmanageable. Even where concerns are raised, mitigation options will be suggested to the developer where possible.

ENERGY AND CLIMATE CHANGE

Coal: Industrial Health and Safety

John Mann: To ask the Secretary of State for Energy and Climate Change how many *(a)* live optional risk offer scheme and *(b)* dead optional risk offer scheme coal health compensation scheme applications have been made by the 50 solicitors' firms which have made the highest number of each type of claim. [292010]

Mr. Kidney: The number of awards made under the Live Optional Risk Offer Scheme (LOROS) and Dead Optional Risk Offer Scheme (DOROS) for Chronic Obstructive Pulmonary Disease (COPD) claims submitted by the 50 highest claimants' representatives under the coal health compensation scheme is shown in the following tables as at 4 October 2009.

Coal compensation claims where applications have been made under the LOROS scheme

Chronic Obstructive Pulmonary Disease		
Claimants' representatives	*Location*	*Total LOROS claims*

Total		95,793

John Mann: To ask the Secretary of State for Energy and Climate Change how much his Department has paid in probate costs in relation to the coal health compensation scheme to each firm of solicitors operating for claimants in *(a)* Bassetlaw constituency and *(b)* England and Wales; and how many such claims for probate costs have been received. [292533]

Mr. Kidney: I will place in the Libraries of the House tables which show how much in probate costs the Department has paid out under the coal health compensation schemes in respect of Bassetlaw constituency and in England and Wales as at 4 October 2009.

There were no probate costs in Bassetlaw constituency under the Vibration White Finger scheme.

The figures reflect probate costs that were paid after May 2006. Prior to this date probate costs were not recorded separately and the Department is unable to report on them. The Department is unable to provide the number of claims made for probate costs as these are also not recorded separately.

Departmental Buildings: Energy

Greg Clark: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the *(a)* display energy certificate and *(b)* advisory report for public buildings issued in respect of each property occupied by (i) the Coal Authority, (ii) the Nuclear Decommissioning Authority, (iii) the United Kingdom Atomic Energy Authority, (iv) the Advisory Committee on Carbon Abatement Technologies, (v) the Fuel Poverty Advisory Group, (vi) the Renewables Advisory Board, (vii) the UK Chemical Weapons Convention National Authority Advisory Committee, (viii) the Committee on Climate Change, (ix) the Committee on Radioactive Waste Management and ([illegible]) the Office of Gas and Electricity Markets. [289840]

Mr. Kidney: Copies of the display energy certificate (DEC) and advisory report for buildings occupied by the Nuclear Decommissioning Authority and Ofgem will be placed in the Libraries of the House. A display energy certificate and advisory report for the Coal Authority's headquarters in Mansfield is awaited and will be placed in the Library as soon as they are available.

A display energy certificate (DEC) rating has not been completed for the building that the CCC currently occupies. If and when it is conducted, the CCC will send it to the House Libraries for display. The decision over whether to apply for a DEC rating for the building is up to the building manager and the CCC has no jurisdiction over this. The CCC recently had an energy performance certificate produced for its offices. The CCC's offices were awarded an E-rating for energy efficiency. Copies of the energy performance certificate have been placed in the Libraries of the House.

The Advisory Group on Carbon Abatement Technologies, Fuel Poverty Advisory Group, Renewables Advisory Board, the UK Chemical Weapons Convention National Authority Advisory Committee and the Committee on Radioactive Waste Management do not occupy their own property.

The Department for Business, Innovation and Skills has lead responsibility for the UK Atomic Energy Authority. UKAEA does not have any properties which fall within the requirements of the legislation.

Heating: Fuels

Mr. Charles Kennedy: To ask the Secretary of State for Energy and Climate Change whether he plans further regulation of the heating fuels sector; and if he will make a statement. [290882]

Joan Ruddock *[holding answer 9 September 2009]:* The Gas Act 1986 (as amended), which amongst other things set up the gas regulatory bodies, exempted heating oil and liquefied petroleum gas (LPG) from its provisions. The Gas Act principally addressed the issues of setting up a regulatory regime to ensure that the national transmission system for gas users was not exploited. In contrast, there is no natural monopoly in the transport of heating oil or LPG by road. The heating fuels market operates with a number of distributors competing for supply using alternative supply sources. In that sense, it is broadly similar to other products such as diesel and petrol. The Department therefore has no plans for the economic regulation of the heating fuels sector.

The Renewable Heat Incentive (RHI), which will encourage the uptake of renewable heat generation, to meet our renewable energy and carbon targets, will be funded through a levy on suppliers of fossil fuel for heat. It is intended that the scheme will be introduced from April 2011 with the detail of the scheme being set out in secondary legislation under Section 100 of the Energy Act 2008.

Housing: Carbon Emissions

Mr. Evans: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken to assist park home residents to reduce their *(a)* carbon dioxide emissions and *(b)* heating bills. [293615]

Joan Ruddock: It is difficult to reduce the carbon emissions and heating bills of park homes due to the lack of scope for key energy efficiency measures, such as cavity wall and loft insulation. Where scope does exist, such as through draught-proofing and high-efficiency lights and appliances, assistance is available to park homes residents through schemes such as the Carbon Emissions Reduction Target and Warm Front.

Warm Front is currently working in partnership with a gas distributor and a local residents association to enable 61 residents of Elm Tree caravan park in Hartlepool to be connected to the mains gas network. This project meant these homes, previously utilising liquid petroleum gas, coal or forms of electric heating, reduced their likely energy bills and likely carbon consumption. The project considerably reduced the otherwise prohibitive cost that had prevented each park home individually connecting to the gas network.

The Warm Front scheme has also begun a piloting exercise of external wall insulation for 100 park home properties. If this trial is successful, then this may be included as a main measure offered through the scheme.

Free expert advice on practical ways to save energy in the home is also available through the ACT ON C02 advice line.

Warm Front Scheme

Bob Spink: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the proportion of the referrals generated by the Warm Front marketing team which are second surveys. [293441]

Mr. Kidney: Warm Front has assisted 2,069,069 households to date (30 September 2009), of which 0.5 per cent. (10,725) have received a second survey.

Bob Spink: To ask the Secretary of State for Energy and Climate Change what criteria were used to assess the *(a)* cost-effectiveness and *(b)* reliability of Ideal ISAR (i) 24HE and (ii) 30HE condensing boilers for use by Eaga plc under the Warm Front scheme. [293444]

Mr. Kidney: The Ideal ISAR 24HE and 30HE boilers were approved by DECC's predecessor Department, DEFRA, for use on the Warm Front Scheme at the start of the current phase of the scheme in 2005.

The Ideal ISAR boiler and other boilers were reviewed by the Grant Aided Installer Network (GAIN) who concluded that the ISAR range of boilers was the most reliable and cost effective on the market at the time.

Eaga, the scheme manager, and the Department continually reviews feedback from customers, installers, inspectors and the scheme aftercare providers to identify major reliability issues with any of the products used on the scheme.

Bob Spink: To ask the Secretary of State for Energy and Climate Change what representations he has received on Eaga plc's commercial interest in WarmSure Ltd. in relation to the Warm Front Scheme. [293445]

Mr. Kidney: The use of WarmSure for the provision of Warm Front aftercare services was agreed with Eaga as part of their contract with DECC to deliver the Warm Front Scheme.

It is not possible to provide information on third party representations specifically in relation to Eaga's commercial interest in WarmSure, without incurring disproportionate cost.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bottles: Recycling

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the merits of a national bottle deposit scheme in reducing littering. [293628]

Dan Norris: In December 2008 DEFRA published a report looking at the features of packaging deposit systems and the role they might play in increasing recovery and recycling and reducing littering in the UK. The report found little hard evidence to suggest that deposit schemes reduce littering and thought that the major impact of such a scheme would be to divert packaging from waste bins to recycling bins.

Overall, the report concluded that resources could be more effectively used in improving current systems than in developing a parallel one for deposits on packaging. Improving household collections and developing the away from home recycling infrastructure are likely to be more cost-effective in increasing recycling and tackling litter.

Bovine Tuberculosis: Disease Control

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to the public purse of implementing statutory measures to control bovine tuberculosis in each of the next five years; and what estimate he has made of the likely reduction in such costs consequent on control measures introduced by his Department. [293848]

Jim Fitzpatrick: Forecasting spend on bovine TB is extremely difficult not least because there has often been significant year to year fluctuations in the number of infected cattle disclosed through testing and slaughterhouse surveillance. Spend on testing and compensation forms a major part of our TB control costs—future spend in these areas is highly dependent on the number of TB infected cattle disclosed and prevailing open market prices for cattle (since compensation paid through table valuations is directly linked to open market prices).

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs when the requirement under EU Directive 64/432/EEC that all farms in a country where bovine tuberculosis (bTB) is greater than one per cent. of the cattle herd be tested for bTB annually was abandoned. [293855]

Jim Fitzpatrick: EU Directive 64/432/EEC requires annual testing where bTB prevalence is greater than 1 per cent. in a 'defined area'. Historically, England has used parishes (not the country as a whole) as the defined area for setting TB testing intervals, and these have been reviewed annually.

In accordance with a recommendation from the TB Eradication Group for England we are developing a new approach for determining routine TB testing intervals, that more effectively takes account of local TB risks. While this work is ongoing, an interim regime will be in place from 1 January 2010.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to his Department and its predecessor of *(a)* compensation paid directly to farmers for removal of animals, *(b)* veterinary tuberculin testing, *(c)* haulage for removal of animals, *(d)* abattoir and official veterinary surgeon services in respect of slaughter, *(e)* on-farm slaughter, *(f)* disposal and incineration and *(g)* valuation fees was in respect of the implementation of statutory testing and slaughter under bovine tuberculosis regulations of (i) cattle classed as bovine tuberculosis reactors, inconclusives or dangerous contact animals and (ii) all other mammals (A) between 1986 and 1996 and (B) since 1997. [293860]

Jim Fitzpatrick: The following table provides a summary of TB related expenditure incurred by DEFRA in relation to compensation, testing, haulage/disposal of livestock compulsorily slaughtered on TB control grounds, and valuers' fees. The way in which financial data have been collected/collated means that we are not able to provide a detailed breakdown of spend, in the form the hon. Gentleman has requested, for the years prior to 1999.

I am unable to provide details of Government staff costs related to 'in-abattoir' controls: policy responsibility for a key element of this work (verifying that meat is fit for human consumption) rests with the Food Standards Agency, rather than DEFRA. Also, the costs of on-farm slaughter for the small minority of cattle unfit to be sent to licensed abattoirs are not recorded separately.

(£ million)

	Compensation paid[1]	*Haulage / Disposal*	*Valuers fees*	*Cattle testing*[2]
2007	13.6	1.3	0.0[5]	32.6
2006	16.4	1.2	0.2	37.7
2005	31.4	1.0	0.5	35
2004	23.7	0.9	0.4	36.4
2003	25.7	0.7	0.5	33.2
2002	21.7	0.7	0.4	24.7
2001	4.6	0.2	0.1	5.4
2000	5.7	0.5	0.1	13.3
1999	3.4	0.1	0.1	17.6
1998	3.6	—	—	7.3
1997	2.4	—	—	5.5
1996	2.3	—	—	—
1995	2.0	—	—	—
1994	2.0	—	—	—
1993	2.1	—	—	—
1992	0.7	—	—	—
1991	0.7	—	—	—
1990	1.1	—	—	—
1989	0.6	—	—	—
1988	0.4	—	—	—
1987	0.5	—	—	—
1986	0.3	—	—	—

[1]. Compensation includes payments to farmers for 'reactors' and 'direct contact' animals which are compulsorily slaughtered, and non-bovine species.

[2] Cattle testing—the cost of carrying out the testing of cattle for TB by arranging, assessing and monitoring tests, conducting investigations of incident herds and diagnostic testing by Local veterinary Inspectors across GB.

Notes:

1. Data from 1999 have been taken from the DEFRA Oracle Financial System. Information pre-1999 has been taken from the respective annual reports of the Chief Veterinary Officer.
2. Data are provisional and subject to change.
3. DEFRA holds the testing budget for the whole of GB.
4. The 1997 figure is for the calendar year - figures for 1998/99 onwards are per financial year.
5. Valuers' fees - expenditure in 2007 and 2008 was below £100,000.

With regards to livestock disposal costs, no such estimate has been made. For most cattle compulsorily slaughtered on TB control grounds, DEFRA has received a net payment from abattoirs rather than incurred a cost.

MHS officials inspect carcasses of such cattle when slaughtered in licensed abattoirs, a small proportion of TB affected cattle are condemned as unfit for human consumption e.g. if TB lesions are identified in more than one part of the carcase. In such cases DEFRA does makes a payment to the abattoir to cover its disposal costs. It is not possible to provide details of slaughter costs in the form requested: typically an abattoir will receive batches of cattle being slaughtered on disease control grounds rather than single animals—if one (or more) of these animals is condemned, the cost to DEFRA will be offset by the total salvage value received from those passed as fit for human consumption.

Departmental Buildings

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* his Department and *(b)* its agencies spent on (i) electricity, (ii) heat, (iii) water and sewerage services and (iv) disposal of waste on the latest date for which figures are available; what proportion of such (A) electricity and (B) heat was from renewable sources; what the weight was of such waste; what proportion of such waste was recycled; at what cost such waste was recycled; and what area of office floor space (1) his Department and (2) its agencies own or lease. [illegible]

Dan Norris: The following amounts were spent on energy and water in 2007-08.

				Cost (£)
Organisation	*Electricity*	*Gas*	*Oil*	*Water*
DEFRA	1,171,745	199,292	29,101	89,651
Animal Health	192,356	59,655	9,853	58,152
MFA	15,379	3,986	2,094	2,820
RPA	537,396	113,370	18,277	72,001
CEFAS	379,799	90,529	0	165,069
FERA (formerly CSL)	1,198,146	460,979	291	81,782
VLA	1,352,292	996,636	229,056	117,190
Total	4,847,113	1,924,447	288,612	586,665

Data for 2008-09 have not yet been verified by OGC therefore cannot be released.

DEFRA is unable to identify the cost for waste disposal and recycling as this activity is part of a composite facilities management contract specifically engineered to offer value for money, accordingly the individual costs for waste disposal and recycling are not identified. Similarly, the costs of recycling and recovered waste set out below are not individually identifiable.

In 2007-08, 55.9 per cent. of electricity purchased was from renewable sources. DEFRA did not purchase any gas/heat from renewable sources.

The DEFRA estate generated 4,816 tonnes of waste, 29 per cent. of the waste was recycled (recycled, composted, re-used externally).

It should be noted that DEFRA incinerates approximately 30 per cent. of its waste, from which significant quantity of heat and energy is recovered. Current Sustainable Development Commission reporting does not acknowledge energy recovery from waste incineration as recycling or waste recovery under current Sustainable Operations on the Government Estate (SOGE) guidelines. It is expected that energy recovered from incineration will be included in future SOGE targets. DEFRA recovers 60 per cent. of the waste generated (recycled, composted, reused externally, incinerated with energy recovery).

DEFRA and its core Executive agencies own and lease 230,000 square metres of office space.

Departmental Energy

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the *(a)* display energy certificate and *(b)* advisory report for public buildings issued in respect of each property occupied by (i) the Forestry Commission and (ii) the Office of Water Services. [illegible]

Dan Norris: There are no Display Energy Certificates in Forestry Commission buildings in England as they have all been assessed as outside the requirement for a certificate. In almost all cases this is due to the buildings having a useful floor area of less than 1,000 square metres.

Ofwat are in the process of obtaining a display energy certificate and advisory report. These will be published by the Office of Government Commerce when available and a copy will be placed in the Library.

Dogs: Quarantine

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs if he will relax the quarantine rules in respect of rescue dogs returning to the UK from service overseas; and what representations he has received in respect of the quarantine of the rescue dog Darcy of the urban search and rescue section of the Essex fire and rescue service. [291847]

Jim Fitzpatrick: The Government recognises the excellent work carried out by search and rescue dogs in responding to overseas disasters, such as the recent earthquake in Indonesia, and their rapid and valuable response to such emergencies.

We also appreciate the difficulty the current quarantine requirements cause for owners of these rescue dogs, particularly the rule requiring that dogs coming into the UK from certain countries, including Indonesia, are placed in quarantine on their arrival. This long standing rule is in place to protect the UK from the incursion of serious diseases such as rabies.

DEFRA has not received any formal representation in respect of the rescue dog Darcy. However, we are happy to consider ways to support rescue dogs, consistent with the law and the overriding need to protect the UK population from disease.

Farmers: Income

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average annual income of *(a)* farmers and *(b)* hill farmers in (i) England and (ii) Cumbria was in each year since 1997. [291917]

Jim Fitzpatrick: The following tables show Farm Business Income[1] (FBI) for England and Cumbria for all farm types and for grazing livestock farms in the less favoured areas (LFA). Farm Business Income is the most robust measure of income but is not available prior to 2003-04. Equivalent data are also shown for Net Farm Income[2] (NFI).

[1] Farm Business Income represents the financial return to all unpaid labour (farmers and spouses, non-principal partners and directors and their spouses and family workers) and on all their capital invested in the farm business, including land and buildings.

[2] Net farm income is defined as the return to the principal farmer and spouse alone for their manual and managerial labour and on the tenant type capital of the business. An imputed rent is deducted for owner-occupied farms as is a charge for other unpaid labour.

All farm types

Farm Business Survey, England

Note:

The Farm Business Survey sample covers businesses with a Standard Labour Requirement (SLR) of at least 0.5, i.e. a size considered sufficient to occupy a farmer for at least half their time.

Hill Farming

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many hill farmers left the industry in each year since 1997. [291923]

Jim Fitzpatrick: DEFRA does not collect figures on the number of farmers who leave the industry each year. The information collected from the June Survey of Agriculture only allows an indication of net change.

The total number of holdings classified within Less Favoured Areas (LFAs) from 2000-08 are shown in the following table, along with the number of principal farmers working on these holdings. As many holdings are very small, we have also provided an estimate excluding the very smallest holdings considered to require a farmer less than half-time. This gives a better indication of trends.

Figures are only available from 2000 onwards as the method of classifying holdings within LFAs changed in 2006 and results were only backdated to 2000. Therefore, results pre-2000 are not comparable.

	Number of farmers[1] on LFA holdings	*Number of farmers[1] on LFA holdings of >0.5 SLR[2]*	*Total number of LFA holdings*	*Number of LFA holdings >0.5 SLR[2]*
2000	36,046	21,174	26,806	10,943
2001	38,187	20,092	28,092	10,064
2002	36,524	20,376	29,668	10,360
2003	35,279	19,969	30,058	10,289
2004	36,120	20,057	30,365	10,185
2005	36,131	19,301	30,678	10,310
2006	36,348	19,709	31,501	10,387
2007	35,811	18,459	32,666	10,108
2008	35,828	18,015	33,163	10,148

[1] Farmers are defined as full- and part-time principal farmers, partners, directors and spouses working on holdings.

[2] Standard Labour Requirement. The theoretical number of workers required to run a holding, based on its cropping and livestock activities. Results above 0.5 SLR cover farms which require more than half a full-time farmer.

Notes:

1. Less Favoured Areas (LFAs) were established in 1975 as a means to provide support to mountainous and hill farming areas. The present LFAs in England are subdivided into two areas. The more environmentally challenging areas within the LFA are classed as 'Severely Disadvantaged Areas' (SDA). The remainder is classified as 'Disadvantaged Areas' (DA).
2. There has been an increase in registered holdings in recent years for several reasons. The introduction of the Single Payment Scheme in 2005 led to large increases in the numbers of holdings registered with the RPA. Large numbers of holdings were also registered for animal tracing purposes particularly following the foot and mouth disease outbreak in 2001.

Source:

June Survey of Agriculture and central DEFRA definitions of LFA boundaries.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many hill farms ceased operating as hill farms in each of the last five years. [291924]

Jim Fitzpatrick: DEFRA does not collect figures on the number of holdings that cease operating each year. The information collected from the June Survey of Agriculture only allows an indication of net change.

The total number of holdings classified within Less Favoured Areas (LFAs) for the past five years are shown in the following table. As many holdings are very small, we have also provided an estimate excluding the very smallest holdings considered to require a farmer less than half-time. This gives a better indication of trends.

	Total number of LFA holdings	*Number of LFA holdings >0.5 SLR[1]*
2004	30,365	10,185
2005	30,678	10,310
2006	31,501	10,387
2007	32,666	10,108
2008	33,163	10,148

[1] Standard Labour Requirement. The theoretical number of workers required to run a holding, based on its cropping and livestock activities. Results above 0.5 SLR cover farms which require more than half a full-time farmer.

Notes:

1. Less Favoured Areas (LFAs) were established in 1975 as a means to provide support to mountainous and hill farming areas. The present LFAs in England are subdivided into two areas. June Survey of Agriculture and central DEFRA definitions of LFA boundaries.

Nitrate Vulnerable Zones

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the financial effect on farmers of operating inside the new Nitrate Vulnerable Zones with effect from 1 January 2010. [293634]

Huw Irranca-Davies: The Nitrate Pollution Prevention Regulations (2008), which implement the EU Nitrates Directive in England, increase the area designated as nitrate vulnerable zones (NVZs) to approximately 70 per cent. of the country and tighten the mandatory action programme of measures that apply within these zones. The impact assessment estimates the total annual cost to farmers of complying with the regulations to be £48.5 million-£68.6 million. The UK's successful negotiation of a derogation from the livestock manure N farm limit, one of the more demanding requirements set by the Nitrates Directive, means these costs could be reduced by £16.9 million to £21.7 million per annum.

The impact assessment can be downloaded via

www.opsi.gov.uk/si/si2008/em/uksiem_20082349_en.pdf

Ragwort: Disease Control

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has undertaken on the extent of ragwort poisoning of horses; and if he will make a statement. [293861]

Huw Irranca-Davies: DEFRA has not undertaken any specific studies on the extent of ragwort poisoning of horses. However, DEFRA's policy under the Weeds Act 1959 is to control injurious weeds where there is a threat to animal welfare or agricultural activities.

Natural England investigates complaints about ragwort on behalf of DEFRA and will take enforcement actions where there is a risk of:

Weeds spreading to land used for grazing horses and other animals;

Weeds spreading to land used for the production of conserved forage;

Weeds spreading to land used for other agricultural activities; and

The complainant has already made reasonable efforts to contact the landowner and occupier where the weeds are growing.

DEFRA's code of practice on how to prevent the spread of Ragwort was published in July 2004. DEFRA worked with the British Horse Society, rural consultancy ADAS, English Nature, Wildlife and Countryside Link and other stakeholders to draw up the code. It provides comprehensive guidance on how to develop a strategic and cost-effective approach to weed control. The code gives advice on:

Identification of Common Ragwort;

Risk assessment and priorities for Ragwort control;

Control methods their suitability and efficacy;

Environmental considerations; and

Health and safety issues.

Water

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs how many water resource management plans have been submitted by water companies in England. [293756]

Huw Irranca-Davies: In spring 2008, all 21 English water companies submitted their draft water resources management plans and consulted publicly on them during summer 2008. The Secretary of State has now considered the draft plans, the representations made in respect of the drafts and the water companies' statements of response to the representations. On 3 August 2009 he issued decision letters to the water companies on the next steps.

10 of the water companies are now able to publish their final plans and three have already done so. The remaining 11 are either providing further information in support of their plan, or their plan will be considered further at a public inquiry or hearing.

FOREIGN AND COMMONWEALTH OFFICE

Burma: Asylum

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to the Burmese authorities over the recent attack by Burmese forces on the Ler Per Her refugee camp. [293757]

Chris Bryant: We continue to be deeply concerned about the situation in Karen State, and closely followed reports of fighting in June 2009, including reports of an attack on the Ler Per Her refugee camp. We raised our concerns in a UN Security Council discussion on the protection of civilians in armed conflict on 26 June 2009. The EU, with strong UK support, issued a statement on 11 June 2009 calling for an end to hostilities. It expressed particular concern about the humanitarian impact of the ongoing conflict.

We have repeatedly urged both the military regime in Burma and the Karen National Union to intensify their efforts to find a peaceful settlement that will bring about a permanent end to the conflict. Direct representations on this issue were made most recently at meetings between our ambassador and Burmese Ministers on 18 and 19 June 2009. Our embassy in Rangoon continues to monitor the situation closely.

Colombia: Military Aid

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's plans are for the future provision of UK military aid to Colombia; and if he will make a statement. [293008]

Chris Bryant: The Government do not provide military aid to Colombia. I refer my hon. Friend to the written ministerial statement on Colombia, laid before the House by my right hon. Friend the Foreign Secretary on 30 March 2009, *Official Report*, column 40WS.

I have, in addition, written to the Chairman of Foreign Affairs Committee, outlining the work we do in Colombia. A copy of this letter is in the Library of the House.

Overseas Territories

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the net cost to the Exchequer of each UK overseas territory. [292503]

Chris Bryant: The following Government Departments meet the costs of, and provide the majority of the assistance to, the Overseas Territories: the Foreign and Commonwealth Office (FCO), the Department for International Development (DFID), the Ministry of Defence (MOD), the Department for Transport (DFT) and the Department for Environment Food and Agriculture (DEFRA).

The UK is responsible for 14 Overseas Territories. The following figures cover staff and administration costs in support of defence, sustainable development, safety and security, good governance and the environment.

Department	*Cost (£ million) (2008-09)*
FCO	
Overseas Territories Directorate—Home costs	2.5
Overseas Territories Directorate—Overseas costs (including capital costs)	3.1
Overseas Territories Directorate—Programme allocation (Overseas Territories Programme Fund)	6.5
Gibraltar—Home costs	0.3
Gibraltar—Overseas costs	1.1
DFID	
Administration costs (home and overseas)	2.1
Assistance to Pitcairn, Montserrat, St. Helena, Ascension, Tristan da Cunha, TCI and cross-territory projects	55.87
MOD	
British Forces in Falklands and Ascension	78.51
Gibraltar	55.60
British Indian Overseas Territories	2.3
DFT	
Programme and running costs for aviation and maritime safety and air accident investigations	3.1
DEFRA	
Costs to Kew and Joint Nature Conservation Committee	0.5
British Antarctic Survey (BAS) costs	4.0
Darwin Projects	0.04
Total	215.52

South Africa: Politics and Government

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to encourage *(a)* South Africa and *(b)* the South African Development Community to seek to ensure President Mugabe complies with the terms of the power-sharing agreement with Morgan Tsvangirai. [293121]

Mr. Ivan Lewis: We are in regular touch with both South Africa and the Southern African Development Community (SADC) as a part of our contact with international partners on Zimbabwe. The SADC, as sponsor and guarantor of the Global Political Agreement (GPA), has a key role to play in supporting reform in Zimbabwe. South Africa, although no longer in the SADC chair, remains closely involved in the organisation's discussions. It is a member of the new SADC Troika on Zimbabwe. President Zuma visited Harare in August 2009 and called for the full and timely implementation of the GPA. He reiterated this jointly with the EU at the EU-Africa summit on 11 September 2009.

My right hon. Friend the Prime Minister discussed Zimbabwe with President Zuma when they met at the G8 in June 2009, as did my right hon. Friend the Foreign Secretary in his telephone call with the South African Foreign Minister in July 2009.

My noble Friend, the then Minister for Africa, Asia and the UN, Lord Malloch-Brown, regularly encouraged SADC Ministers to support implementation of the GPA, most recently in the margins of the World Economic Forum meeting in Cape Town in June 2009. We will continue to make working with the region to promote reform in Zimbabwe a priority.

USA

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent requests his Department has made to the US administration for talks between the President of the United States of America and Government representatives. [293827]

Mr. Ivan Lewis: The Foreign and Commonwealth Office has made no recent requests for discussions between President Obama and representatives of the Government.

My right hon. Friend the Prime Minister and US President Barack Obama have regular Video Teleconference discussions on key issues. They most recently spoke on 8 October 2009.

HEALTH

Accident and Emergency Departments

Mr. Gordon Prentice: To ask the Secretary of State for Health what recent assessment he has made of the efficiency and effectiveness of those accident and emergency departments in England whose annual volume of attendances is below 55,000; and if he will make a statement. [293195]

Mr. Mike O'Brien: It is for primary care trusts to assess the efficiency and effectiveness of the accident and emergency (A&E) services they commission. The Department has set an operational standard that 98 per cent of patients should not spend more than four hours. in A and E departments. National annual performance against the standard was 98.1 per cent. in 2008-09. Performance of individual trusts is published on the Department's website, but performance of individual A and E departments is not collected centrally. As seen in the 2008 Healthcare Commission survey of A and E, nationally patient ratings of care are continue to be positive—patient satisfaction with the overall quality of care is high: 88 per cent., rate it as "excellent", "very good" or "good".

Mr. Gordon Prentice: To ask the Secretary of State for Health which NHS hospital trusts in England have *(a)* one, *(b)* two, *(c)* three and *(d)* four or more accident and emergency departments. [293196]

Mr. Mike O'Brien: A list of national health service hospital trusts sorted according to whether they have one, two, three, four or more type 1 or type 2 accident and emergency departments has been placed in the Library.

Mr. Gordon Prentice: To ask the Secretary of State for Health what services must be provided in a designated *(a)* accident and emergency department and *(b)* Urgent Care Centre. [293197]

Mr. Mike O'Brien: Configuration of services is a matter for local decision-making by primary care trusts. For the purposes of performance data collection, the Department uses the following definitions:

Type 1 Accident and Emergency (A&E) department: A consultant led 24 hour service with full resuscitation facilities and designated accommodation for the reception of accident and emergency patients;

Type 2 A&E department: A consultant led single specialty accident and emergency service (eg ophthalmology, dental) with designated accommodation for the reception of patients; and

Type 3 A&E department: Other type of A&E/minor injury units (MIUs)/Walk-in Centres with designated accommodation for the reception of accident and emergency patients. A type 3 department may be doctor led or nurse led. It may be co-located with a major A&E or sited in the community. A defining characteristic of a service qualifying as a type 3 department is that it treats at least minor injuries and illnesses (sprains for example) and can be routinely accessed without appointment. A service mainly or entirely appointment based (for example a general practitioner practice or outpatient clinic) or one mainly or entirely accessed via telephone or other referral (for example most out of hours and primary care services)is not a type 3 A&E service even though it may treat a number of patients with minor illness or injury.

The Department has not set a definition for 'urgent care centre'.

Ambulance Services: Lancashire

Mr. Gordon Prentice: To ask the Secretary of State for Health what *(a)* number and *(b)* percentage of ambulances attending 999 calls in East Lancashire in each year since 2004 had a trained paramedic on board. [293199]

Mr. Mike O'Brien: Information about paramedics on board ambulances responding to 999 calls is not collected centrally.

Charities

Bob Spink: To ask the Secretary of State for Health what grants his Department made to charitable organisations in each of the last five years. [292660]

Ann Keen: Information on all Department grant funding to charitable organisations is not available in the format requested from central records and could only be provided at disproportionate cost.

Tables showing grant awards from the funding years 2004-05 up to the current funding year 2009-10 with the identifiable data available including Social Enterprise Pathfinders, Social Enterprise Investment Fund, Children's Hospice and Hospice at Home, Dignity in Care (one year capital awards), Tobacco policy programme, Section 64 General Scheme of Grants, Innovation, Excellence and Service Development Fund, Strategic Partner Programme and the Opportunities for Volunteering grant scheme, have been placed in the Library.

Departmental Consultants

Mr. Fallon: To ask the Secretary of State for Health how many management consultants were employed on short- and long-term contracts in his Department in the last 12 month period for which figures are available. [293629]

Ann Keen: The Department does not collect the information requested. It is preferred practice to award consultancy contracts based on outcomes for a fixed fee. As a result it is at the discretion of the management consultancies to manage the number of staff allocated to projects at any one time to most effectively deliver the required outcomes.

The Department publishes its overall expenditure on management consultancy, which is available on the Department's website:

www.dh.gov.uk/en/FreedomOfInformation/
Freedomofinformationpublicationschemefeedback/
FOIreleases/DH_103938

Endometriosis

Mr. Jenkins: To ask the Secretary of State for Health what steps he is taking to raise awareness amongst employers of the needs of people with endometriosis. [292562]

Gillian Merron: There is no specific Government advice for employers in relation to endometriosis in the workplace.

The Government's response 'Improving Health and Work: changing lives' in November 2008 to Dame Carol Black's review of the health of Britain's working age population, 'Working for a Healthier Tomorrow', published in March 2008, is putting in place support for individuals, health care professionals and employers to enable individuals to return to work at the earliest opportunity and to remain in work. This includes widespread reforms to occupational health services through NHS Plus, the development of a 'Fit for Work Service', and the development of the 'Fit note', which will give employers more information about what steps they can take to help people to return to work.

Copies of these documents have been placed in the Library.

General Practitioners: Rural Areas

Tim Farron: To ask the Secretary of State for Health what estimate he has made of the number of rural parishes without a GP in each year since 1997. [293202]

Mr. Mike O'Brien: The information requested is not held centrally.

Health Services: Christchurch

Mr. Chope: To ask the Secretary of State for Health when he expects the sale of the vacant premises of the former health centre at Saxon Square, Christchurch to be completed. [293753]

Mr. Mike O'Brien: Following the decision of the local national health service trust not to utilise the property and the landlord's decision not to accept a surrender of the lease, agreement is being finalised with the landlord on the extent of repair works to be undertaken in compliance with a previously served Repairs Notice. Once agreement is reached, the works will be undertaken and the property formally marketed. The availability of the property has for some time been included on the Electronic Property Information Mapping Service (e-PIMS)—the central database of Government civil estate managed by the Office of Government Commerce.

Midwives: Training

Norman Lamb: To ask the Secretary of State for Health how many student midwives were in receipt of a bursary in each of the last five years; what the average bursary paid to a student midwife was in each such year in *(a)* cash and *(b)* real terms; how much was paid out to student midwives in bursaries in each such year, expressed in (i) cash and (ii) real terms; what the cost was of all bursaries paid to student midwives; and by how much in real terms the bursary changed in each of those years. [292666]

Ann Keen: The number of midwifery students who held a bursary and the average bursary paid to those students can be found in the following table.

Academic year	*Number of bursary holders*[1]	*Average basic bursary in cash terms*[1] *(£)*	*Average basic bursary in 2009 prices*[1,2] *(£)*	*Average bursary (inc. allowances) in cash terms*[1] *(£)*	*Average bursary (inc. allowances) in 2009 prices*[1,2] *(£)*
2004-05	3,738	5,326	5,882	5,521	6,097
2005-06	3,901	5,437	5,886	5,657	6,124
2006-07	3,812	5,494	5,788	5,716	6,022
2007-08	3,996	5,588	5,718	5,813	5,948

Academic year	*Number of bursary holders*[1]	*Average basic bursary in cash terms*[1] *(£)*	*Average basic bursary in 2009 prices*[1,2] *(£)*	*Average bursary (inc. allowances) in cash terms*[1] *(£)*	*Average bursary (inc. allowances) in 2009 prices*[1,2] *(£)*
2008-09	4,265	5,524	5,524	5,715	5,715

[1] Includes EU students who are not eligible for a bursary and those who receive a nil award after income assessment.

[2] Based on Consumer Price Index (CPI) at April in the middle of the academic year i.e.

CPI for 2004-05 taken at April 2005.

Sources:

Office for National Statistics

NHS Business Services Authority

The average bursary awarded to students reflects the change in the proportion of diploma to degree students because bursary awards to degree students are means-tested. Degree students are also eligible for a student loan. Since 2004, the number of midwifery degree programmes commissioned by the national health service has increased and the number of diploma programmes reduced significantly.

The total cost of the bursaries can be found in the following table.

Academic year	*Total spend (exc. allowances) in cash terms (£)*	*Total spend (exc. allowances) at 2009 prices*[1] *(£)*	*Total spend (inc. allowances) in cash terms (£)*	*Total spend (inc. allowances) at 2009 prices*[1] *(£)*
2004-05	19,908,213	21,984,897	20,637,109	22,789,826
2005-06	21,209,791	22,961,632	22,067,168	23,889,825
2006-07	20,944,277	22,066,650	21,787,618	22,955,184
2007-08	22,327,766	22,846,534	23,228,490	23,768,185
2008-09	23,560,311	23,560,311	24,373,689	24,373,689

[1] Based on CPI at April in the middle of the academic year i.e. CPI for 2004-05 taken at April 2005.

NHS Foundation Trusts: Governing Bodies

Mr. Bone: To ask the Secretary of State for Health how many people serve on the governing council of a foundation hospital; and by what method they are selected. [292565]

Mr. Mike O'Brien: The National Health Service Act 2006 does not stipulate the number of governors at an NHS foundation trust. Each NHS foundation trust decides how many governors should be included in its constitution. The members of the NHS foundation trust must elect the majority of the governors. The other governors are appointed by organisations such as the primary care trust, the local authority and the university, where the NHS foundation trust has a medical or dental school. Schedule 7 of The National Health Service Act 2006 sets out the statutory requirements for an NHS foundation trust's constitution.

Mr. Bone: To ask the Secretary of State for Health what process is followed to *(a)* select and *(b)* remove (i) the chairman, (ii) the chief executive and (iii) directors of a foundation hospital. [292566]

Mr. Mike O'Brien: The process for selecting and removing the chairman, chief executive and directors of a foundation trust hospital is contained in Schedule 7 of the National Health Service Act 2006. The board of governors at a general meeting appoint or remove the chairman and the other non executive directors. The non-executive directors appoint or remove the chief executive. It is for a committee consisting of the chairman, the chief executive and the other non-executive directors to appoint or remove the executive directors.

NHS: Finance

Norman Lamb: To ask the Secretary of State for Health how many NHS trusts are borrowing money from his Department; what interest rates are being charged on each loan; what the term of each loan is; and how much interest has been paid on each to date. [292689]

Mr. Mike O'Brien: The Department makes loans to national health service trusts and national health service foundation trusts. The information requested is provided in the following table.

NHS trust name	*National loan fund rate (fixed for term) (percentage)*	*Term of loan (years/ months)*	*Interest paid to date (£000)*
Ashford and St Peter's Hospitals NHS trust	5.40	6 years	1,641

Obesity: Magnetic Resonance Imagers

Mr. Gordon Prentice: To ask the Secretary of State for Health what estimate he has made of the number of NHS patients who were too obese to fit into a magnetic resonance imaging scanner in the last 12 months; and what alternative provision is available for such patients. [293181]

Mr. Mike O'Brien: The Department does not collect information on the size of patients undergoing diagnostic imaging examinations using an magnetic resonance imaging (MRI) scanner.

Immediately prior to an MRI scan, the patient's weight is determined in order to assess the appropriate scanning parameters. This will also establish if the patient may be accommodated by the particular MRI scanner. MRI scanners have table weight limits and aperture diameters which may differ between different manufacturers' models. In some instances, the imaging service may have an MRI scanner to accommodate an obese patient, but where they do not, the radiologist will select the most appropriate alternative imaging procedure, such as ultrasound.

Quality and Outcomes Framework

Sandra Gidley: To ask the Secretary of State for Health (1) in which geographical areas the 2011-12 Quality and Outcomes Framework pilot indicator studies will take place; [292798]

(2) what criteria were used to select *(a)* the disease areas and *(b)* the geographical areas for inclusion in the pilot indicator studies for the 2011-12 Quality and Outcomes Framework. [292903]

Mr. Mike O'Brien: Details of the geographical areas used for piloting potential indicators for inclusion in the Quality and Outcomes Framework (QOF) are a matter for the National Institute for Health and Clinical Excellence (NICE). NICE intends to publish its recommendations on indicators for piloting in due course.

The criteria used for prioritisation of potential topics for inclusion in the QOF are set out in NICE's interim process guide for the development of indicators. A copy has already been placed in the Library.

Sandra Gidley: To ask the Secretary of State for Health when he expects the list of 13 new indicators for inclusion in the Quality and Outcomes Framework to be published. [292828]

Mr. Mike O'Brien: On 10 August, the National Institute for Health and Clinical Excellence (NICE) published its recommendations on indicators for potential inclusion in the Quality and Outcomes Framework for financial year 2010-11. The recommendations included the introduction of four new indicators and the retirement of eight existing indicators.

NICE has also published details of indicators in development and in need of further review on its website. A copy has already been placed in the Library.

Rohypnol

Mr. Hoyle: To ask the Secretary of State for Health how many cases were recorded of *(a)* women and *(b)* men being admitted to hospital following non-consenting consumption of Rohypnol in England in each of the last five years. [292318]

Ann Keen *[holding answer 13 October 2009]:* Information about how many cases were recorded of women and men being admitted to hospital following non-consenting consumption of Rohypnol in England is not collected centrally.

Mr. Hoyle: To ask the Secretary of State for Health what guidance his Department has issued to primary care trusts on the testing of admitted patients suspected of being given Rohypnol or associated drugs. [292319]

Mr. Mike O'Brien *[holding answer 13 October 2009]:* While there is no specific guidance on the testing of admitted patients suspected of being given Rohypnol or associated drugs, guidance and training about testing patients who have been sexually assaulted is available to health care professionals on the Care and Evidence website at:

www.careandevidence.org/2b.asp

The taskforce on the health aspects of Violence Against Women and Girls is currently examining how the national health service can improve the way it meets the needs of victims of sexual assault.

Tuberculosis

Dan Rogerson: To ask the Secretary of State for Health what the *(a)* location, *(b)* date of diagnosis, *(c)* date of completion of treatment, *(d)* age, *(e)* occupation and *(f)* suspected cause of infection was of each person who contracted Mycobacterium bovis in each of the last 10 years; and how many persons were diagnosed [illegible]th tuberculosis complex in each such year. [293850]

Ann Keen: The available information is shown in the following tables. The exact location is not available because of the risk of deductive disclosure. These data are available by strategic health authority (SHA) region. Data are therefore presented by SHA region.

Table 1: Isolates of Mycobacterium bovis (M. bovis) from humans by region, England, 1998 to 2007

HOME DEPARTMENT

Crime

Chris Grayling: To ask the Secretary of State for the Home Department with reference to Table 6.02 in Home Office Statistical Bulletin 11/09, Crime in England and Wales 2008-09, what proportion of offences in each offence group has resulted in *(a)* a charge or summons, *(b)* a caution, *(c)* a Penalty Notice for Disorder and *(d)* an offence taken into consideration, in each year since 2002-03. [289594]

Alan Johnson: The information requested for the 10 offence groups and the overall total has been provided in the following table.

Percentage of offences recorded by specific method of detection and offence group

	Percentage of offences recorded resulting in:			
Offence group and financial year	*Charge or summons*	*Caution*	*Penalty notice for disorder*	*Offence taken into consideration*

Crime: Statisti[illegible]

Chris Grayling: To ask the Secretary of State for the Home Department what work has been done to map levels of recorded crime in a given geographical area against different indicators of social deprivation in the last five years. [289591]

Alan Johnson: In the last five years, the Home Office has analysed levels of recorded crime by type of area and this information has been presented as graphs and text but not mapped.

In 2008, the Home Office published an analysis of recorded crime in local authority districts by type of area. Crime varies by area according to factors such as levels of social deprivation. These variations were explored using recorded crime by grouping local authority districts into clusters in relation to their population characteristics, such as the nature of employment and industry and socioeconomic characteristics, from the 2001 census (see Section 6.4, Crime in England and Wales 2007/08, http://www.homeoffice.gov.uk/rds/crimeew0708.html).

Tables showing recorded crime figures at different geographic levels are also available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/crimeew0809.html

This website allows users to download the recorded crime tables. This provides users with the recorded crime figures which they may then use for mapping levels of recorded crime against different indicators of social deprivation.

Chris Grayling: To ask the Secretary of State for the Home Department with reference to the supplementary table, Crime and Disorder Reduction Partnership areas: Recorded crime for seven key offences and BCS comparator 2007-08 to 2008-09 in the Home Office Statistical Bulletin, Crime in England and Wales 2008-09, for what reasons the number of total recorded offences are not provided for each Crime and Disorder Reduction Partnership. [289597]

Alan Johnson: Following the introduction of Crime and Disorder Reduction Partnerships (CDRP) under the Crime and Disorder Act 1998, data were only collected for six key offences for 1999-2000. From 2000-01 onwards data were collected for all offences at CDRP level but the supplementary tables continued to concentrate on the key offences.

Data for the total number of offences recorded at CDRP level are readily available and have been provided when requested for parliamentary questions and for inquiries from the general public.

The Home Office also makes available crime rates per head of population (including rates for total crime) at CDRP level in the form of crime maps for the years 2002/03 to 2008/09. This can be accessed at:

http://www.homeoffice.gov.uk/rds/ia/atlas.html

Data prior to 2002-03 are not directly comparable because of the introduction of the National Crime Recording Standard in April 2002.

Crimes of Violence

Chris Grayling: To ask the Secretary of State for the Home Department with reference to Table 7.12 in the Home Office Statistical Bulletin, Crime in England and Wales 2008-09, how many offences of *(a)* wounding with intent to do grievous bodily harm (GBH) and *(b)* wounding or inflicting GBH without intent were carried out with a knife in 2008-09. [289595]

Alan Johnson: The information requested is given in the following table.

It should be noted that GBH offences for 2008-09 will not be comparable with those published for 2007-08. This is due to a change in the clarification rules for recording GBH with intent, and a change in the definition of GBH without intent. Under advice from the National Statistician the offences of GBH with and without intent and ABH and other injury were combined when published.

Further information is given in Box 2.1 on page 14 of Crime in England and Wales, 2008-09: Volume 1.

Number of GBH and ABH offences involving a knife or sharp instrument recorded by the police for 2008-09[1]

[1] Includes racially or religiously aggravated wounding or inflicting GBH.

Entry Clearances: Pakistan

Mr. Soames: To ask the Secretary of State for the Home Department what response his Department has made to the report by Chris Taylor of the UK Border Agency on travel permits from Pakistan; what the principal conclusions of the report were; and if he will place a copy of the report in the Library. [291205]

Mr. Woolas *[holding answer 16 September 2009]*: A member of staff in the Islamabad visa section was asked in 2006 to conduct an internal review of a number of visa cases for the purpose of maintaining and improving processes and decision-making. This was part of routine procedure to monitor and continuously improve performance. As such, the observations made in the review were one of many contributions to the continuous business improvement process within UKBA International Group, previously UK Visas.

As a result of this process, there have been significant improvements made to visa processing in Pakistan since 2006, for example:

In 2007 we began recording biometrics of all Pakistani visa applicants, which are cross-checked against UK Police and immigration databases.

We have increased verification checks on key documentation. For example, all education certificates are verified with the Pakistan Higher Education Commission.

We have improved our risk profiling of Pakistani visa applications, meaning that extra checks are made on applications considered higher risk.

We have introduced the Points Based System, which has consolidated about 80 immigration routes into a five tier system and introduced still tougher standards on UK employers and colleges seeking to bring migrants into the UK.

Since the beginning of 2007, we have provided counter-terrorism and forgery training to all entrance clearance and intelligence staff being posted overseas.

We have run specific counter-terrorism training sessions in high risk posts, including Islamabad.

In 2008 we introduced paragraph 320 7a and 7b into the immigration rules which allows entrance clearance staff to ban those who use forged or fraudulent documents in visa applications from entering the UK for up to 10 years.

As a result of these and other actions, refusal rates for visa applications for Pakistani nationals have risen 14 per cent. since 2006 (32 per cent. in 2006 to 46 per cent. in 2008-09).

Forced Marriage

Margaret Moran: To ask the Secretary of State for the Home Department which organisations in England and Wales in receipt of Government funding undertake work relating to forced marriage; and how much each has received from the Government in each of the last three years. [293426]

Mr. Alan Campbell: The following table contains information on organisations dealing with issues concerning forced marriage who received Government funding over the past three years.

£

Government Department	*Organisation funded*	*Purpose of funding*	*Amount funded in 2007-08*	*Amount funded in 2008-09*	*Amount funded in 2009-10*	*Total funding*

Year Totals			42,600	199,053	356,100	—
Total				587,753		

[1] Min £20,000 per organisation.

Sentencing: Homicide

Margaret Moran: To ask the Secretary of State for the Home Department what discussions he has had with the Sentencing Guidelines Council on the length of sentences for murder committed by members of gangs. [292793]

Claire Ward: I have been asked to reply.

I have had no discussions with the Sentencing Guidelines Council on the length of sentences for murder committed by gangs. I have consulted the Council on the review of the starting point for determining the minimum term for murder using a knife and I await its formal response. Guidance on setting the minimum term to be served for murder is set out in Schedule 21 to the Criminal Justice Act 2003 and the Council guideline on the overarching principle of seriousness states that offenders operating in groups or gangs should be treated as an aggravating factor for the purposes of sentencing. I note that the Crown Court recently handed down sentences with 39 and 35 year minimum terms to the top members of a gang in Manchester and a 35 year minimum term for a gang member from Sheffield who ordered a murder from his prison cell.

Sexual Offences

Mrs. Maria Miller: To ask the Secretary of State for the Home Department how many cautions have been issued for sexual offences in each of the last 10 years. [289346]

Mr. Alan Campbell [*holding answer 12 October 2009*]: Information provided by the Ministry of Justice on the number of offenders cautioned for sexual offences, England and Wales 1998 to 2007 (latest available) is shown in the following table.

Data for 2008 will be published in November 2009.

Number of offenders issued with a caution for sexual offences, England and Wales 1998 to 2007[1, 2]

	Number
1998	1,726
1999	1,469
2000	1,301
2001	1,240
2002	1,203
2003	1,339
2004	1,553
2005	1,764
2006	1,922
2007	1,966

[1] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.

[2] These data are on the principal offence basis.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Young Offenders

Chris Grayling: To ask the Secretary of State for the Home Department how many people aged *(a)* under 10, *(b)* 10 to 17, *(c)* 18 to 20 and *(d)* 21 years and over were (i) arrested, (ii) charged and (iii) convicted for (A) violent and (B) non-violent offences in each of the last five years. [289592]

Alan Johnson: Available information on numbers of persons arrested, broken down by age group is given in table A. The table covers the period from 2003-04 to 2007-08 (latest available). There is no link from these centrally reported data to any subsequent outcome. Data on arrests are published on a financial year basis.

Additionally, information provided by the Ministry of Justice showing the number of persons proceeded against at magistrates' courts and found guilty at all courts for violent and non-violent offences, broken down by age group, in England and Wales from 2003 to 2007 (latest available) can be viewed in table B.

The Ministry of Justice does not centrally collect charging data; proceeded against data is provided in lieu. The court proceedings database held by the Ministry of Justice does not hold information on convictions and prosecutions data for persons aged under 10 who are under the age of liability. Data on court proceedings are published on a calendar year basis.

Data for 2008 will be available in the autumn of 2009.

The court statistics provided by the Ministry of Justice relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Table A: Number of persons arrested for recorded crime (notifiable offences) by age group and type of offence[1] 2003-04 to 2007-08: England and Wales

	Number of arrests[2]					
Notifiable offence group	*Aged under 10*	*Aged 10-17*	*Aged 18-20*	*Aged 21 and over*	*Age unknown*	*All ages*
2003-04						
Violent offences	100	83,000	56,900	256,000	900	396,800
Other offences	500	230,300	145,200	555,600	1,900	933,800
Total	700	313,200	202,200	811,700	2,700	1,330,400
2004-05[3]						
Violent offences	200	96,700	66,800	294,000	900	458,400
Other offences	500	236,100	137,000	519,500	1,900	894,900
Total	800	332,800	203,700	813,400	2,800	1,353,400
2005-06						
Violent offences	200	108,500	74,500	331,800	800	515,800
Other offences	500	239,900	140,300	531,100	2,000	914,000
Total	800	348,500	214,700	863,100	2,700	1,429,800
2006-07						
Violent offences	93	115,173	81,617	362,585	1,037	560,505
Other offences	353	238,197	144,293	536,643	2,165	921,651
Total	446	353,370	225,910	899,228	3,202	1,482,156
2007-08						
Violent offences	41	102,802	77,864	363,629	1,685	546,021
Other offences	122	212,599	145,759	568,021	2,744	929,245
Total	163	315,401	223,623	931,650	4,429	1,475,266

[1] Violent offences includes the offence categories of: violence against the person; sexual offences; robbery offences. Other offences includes the offence categories of: burglary; theft and handling stolen goods; fraud and forgery; .criminal damage; drug offences; other offences.

[2] Figures from 2003-04 to 2005-06 are rounded to the nearest 100 therefore figures for these years may not add up to the totals, subsequent years' figures are unrounded. Additionally, figures for violent and other offences may not be accurate due to the summing of rounded figures.

[3] Figures updated since publication of 2004-05 bulletin.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Table B: The number of persons proceeded against at magistrates courts, and found guilty at all courts for offences relating to violent, and non violent offences, in England and Wales, by age group, 2003 to 2007[1,2,3]

	Proceeded against					Found guilty				
Age group	*2003*	*2004*	*2005*	*2006*	*2007*	*2003*	*2004*	*2005*	*2006*	*2007*
10-17										
Violent offences	18,618	18,217	18,123	18,457	18,555	9,668	10,457	11,061	11,713	12,337
Non violent offences	122,172	118,445	113,608	107,732	107,979	82,873	85,733	85,096	81,976	85,104
18-20										
Violent offences	15,798	14,604	14,433	14,653	14,230	8,129	8,520	8,821	9,449	9,849
Non violent offences	205,968	191,682	174,739	165,256	158,361	154,359	148,231	137,806	133,612	130,763
21 and over										
Violent offences	68,049	60,914	57,853	53,953	50,938	31,897	32,438	32,938	33,708	33,669
Non violent offences	1,556,205	1,603,373	1,502,837	1,408,127	1,371,432	1,194,295	1,252,609	1,199,530	1,143,315	1,136,243
All ages										
Violent offences	102,465	93,735	90,409	87,063	83,723	49,694	51,415	52,820	54,870	55,855
Non violent offences	1,884,345	1,913,500	1,791,184	1,681,115	1,637,772	1,431,527	1,486,573	1,422,432	1,358,903	1,352,110

[1] Data are on the principal offence basis.

[2] Data includes the following offence types:
Violent offences:
Violence against the person
Sexual Offences
Robbery
Non Violent offences:
Burglary
Theft and handling stolen goods
Fraud and forgery
Criminal damage
Drug offences
Other indictable offences
Indictable motoring offences
Summary offences (excluding motoring)
Summary motoring offences

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court proceedings data held by CJEAU—Office for Criminal Justice Reform—Ministry of Justice

Justine Greening: To ask the Secretary of State for the Home Department (1) what the stated aim of the Youth Crime Action Plan Initiative is; how much funding has been *(a)* distributed to and *(b)* spent by local authorities through the grant in each year since the grant's inception; and how much his Department expects to spend in the next two years; [292421]

(2) what categories of expenditure are covered by funding through the Youth Crime Action Plan Initiative grant; and what assessment has been made of the success of the funding against its objectives of *(a)* preventing youth offending, *(b)* reducing re-offending, *(c)* building public confidence and offering better support to young victims and *(d)* ensuring that those in the youth prison system are able to achieve the five Every Child Matters outcomes. [292422]

Mr. Alan Campbell: The Youth Crime Action Plan, published in July 2008, is the cross-Government strategy for dealing with the full range of issues around youth crime and justice through a triple track approach of prevention, non-negotiable support, and tough enforcement.

The action plan is backed by £100 million of new funding, including funding for 71 local areas to implement a package of intensive measures to address youth crime. In 2008-09, the 69 areas in England received a total of £4.5 million, plus an additional £1.7 million for positive activities on Friday and Saturday nights, and the areas report that this money has been spent in its entirety. The 69 areas will receive £24.2 million in 2009-10, plus an additional £1.4 million for summer alcohol activity, and a further indicative amount of £24.2 million in 2010-11. In addition, two areas in Wales will receive a total of £350,000 in 2009-10 and can expect the same in 2010-11 to implement the elements of the package that are non-devolved.

The action plan funding covers expenditure to support the triple track approach. For example, to provide support for families in the greatest difficulty; police and social workers taking unsupervised young people off the streets at night; and to ensure that more young offenders carry out unpaid work to repay their communities in their leisure time.

This action plan's achievements so far are set out in Youth Crime Action Plan One Year On, published in July 2009, and build on [illegible] Government's earlier successes which have seen recently a fall in the number of children entering the criminal justice system for the first time and a fall in the rate of reoffending.

INTERNATIONAL DEVELOPMENT

Building Britain's Future

Andrew Rosindell: To ask the Secretary of State for International Development how many recent functions he has attended to promote the proposals contained in Building Britain's Future, Cm 7654. [290431]

Mr. Douglas Alexander: I attended one official function for Building Britain's Future which took place on 16 July 2009 in Swindon.

JUSTICE

Burges Salmon Solicitors

Dan Rogerson: To ask the Secretary of State for Justice when the Solicitors Regulation Authority expects to complete its investigation of Burges Salmon LLP; and whether he expects the adjudication process to be expedited in that case. [290072]

Bridget Prentice: Although the Solicitors Regulation Authority (SRA) does not usually comment on ongoing investigations, it is aware that matters relating to this particular investigation are already in the public domain. The SRA has informed me that it is giving high priority to this case. The SRA considers the investigation to be complex but expects it to be completed within a few months, at which time a decision will be made about appropriate action.

Channel Islands: Tidal Power

Andrew Rosindell: To ask the Secretary of State for Justice pursuant to the Answer of 7 May 2009, *Official Report*, column 359W, on British Overseas Territories: renewable energy, what progress has been made by the Islands of Jersey and Guernsey in establishing tidal energy commissions. [293421]

Mr. Wills: Guernsey has put in place a 'shadow' Renewable Energy Commission. In June 2009 the States of Guernsey directed the drafting of legislation for arranging the licensing of the operation and deployment of macro renewable energy systems in Guernsey. The intention is to establish a commission by the end of 2010.

Jersey has put in place a 'shadow' Tidal Power Commission that is looking at the feasibility of harvesting offshore renewable energy resources. Should this appear economically viable they will make recommendations to Jersey Ministers in respect of the composition of the Tidal Power Commission and the commercial, fiscal and legislative regimes necessary to regulate the harvesting of this resource.

Councillors: Data protection

Mrs. Spelman: To ask the Secretary of State for Justice what recent guidance his Department has issued to local authorities on whether councillors are required to register individually under the provisions of the Data Protection Act 1998. [292638]

Mr. Wills: The Information Commissioner's Office (ICO) is the UK's independent authority with responsibility for enforcing the Data Protection Act 1998 and administering the register of data controllers under that Act. The ICO produces guidance to help individuals and organisations understand their rights and obligations and has published a good practice note entitled "Advice for the elected and prospective members of local authorities" which includes advice on the issue of councillors' notification under section 18 of the Act. This advice is available on the ICO's website and I have placed a copy in the Library.

Crown Dependencies: Prisons

Andrew Rosindell: To ask the Secretary of State for Justice what the prison *(a)* capacity and *(b)* population is in each of the British Crown Dependencies. [293450]

Mr. Wills: The maximum capacity of prisons in the Crown Dependencies is as follows: HMP La Moye (Jersey) 258, Guernsey Prison 122, and 138 on the Isle of Man. On 13 October 2009 their prison populations were 187, 72 and 110 respectively. The capacity of each prison is restricted in terms of limits on male, female and special categories.

Departmental Manpower

John Mann: To ask the Secretary of State for Justice how many staff there were in *(a)* his Department's predecessor in 1997 and *(b)* his Department on the latest date for which figures are available. [292067]

Mr. Wills: In 1997 the Ministry of Justice's predecessor was the Lord Chancellor's Department, which had responsibility for appointing and advising on the appointment of judges, running the court system and a certain number of tribunals and assisting in the reform of the English law. To this end it controlled the Public Trust Office, the Courts Service, the Official Solicitor's Office, the Office of the Judge Advocate General, the Legal Aid Board and several more government agencies.

Since 1997 there has been a number of machinery of government changes, which resulted in the establishment of the Ministry of Justice in May 2007. These changes included the establishment of the Department for Constitutional Affairs from the Lord Chancellors Department in June 2003; the creation of Her Majesty's Courts Service from the Magistrates Courts Service and the Courts Service in April 2005; the setting up of the Tribunals Service from other Government Departments in April 2006; and the transfer of HM Prison Service, as part of the National Offender Management Service, with the creation of the Ministry of Justice in May 2007.

Along with the organisational changes, the management information systems and the data they hold have been subject to significant change. As a consequence, information on numbers of staff in all the Department's predecessors for 1997 could be obtained only at disproportionate cost.

However, it is possible to provide for 1 April 1997 published information on civil service staff numbers from the Cabinet Office website. The number of full-time equivalent staff recorded as working within the Lord Chancellor's Department was 10,652 and for HM Prison Service it was 37,704.

The latest staff figures for the Ministry of Justice are published quarterly by the Office for National Statistics (ONS) and they form part of their public sector employment statistics. The latest published data for the Ministry of Justice (30 June 2009) are set out in the table. The table provides full-time equivalent (FTE) figures for the Ministry of Justice (as published by the ONS).

Staff numbers (FTEs) as at 30 June 2009

	Number
MOJ HQ	3,020
NOMS[1]	50,660
HMCS	18,940
Tribunals Service	2,850
Office of the Public Guardian	360
Scotland Office	110
Wales Office	60
Total[2]	76,000

[1] The figures for the National Offender Management Service (NOMS) refer to HQ and directly employed staff in public sector prisons only. They do not include the National Probation Service where the responsibility for staffing lies with the 42 areas and trusts who employ these staff.

[2] The total figures do not include the Land Registry (5,860) or National Archives (630) recorded by the ONS under the category of Justice. These agencies are not reported as part of the Ministry of Justice's departmental annual report.

Family Courts

Mr. Andrew Turner: To ask the Secretary of State for Justice which family courts have plans to hold open days. [291658]

Bridget Prentice: Open days are held by many courts across HMCS covering a broad range of jurisdictions including family. The extent and regularity of these are determined locally, by local managers, according to local needs, and there is no central record kept of past events or future plans.

Fraud: Prosecutions

Miss McIntosh: To ask the Secretary of State for Justice how many prosecutions which resulted in a conviction there have been for offences related to credit card fraud in each of the last three years. [293487]

Claire Ward: There is no specific offence of credit card fraud. Prior to January 2007 persons involved in this type of activity are likely to have been prosecuted under the deception offences in the 1968 and 1978 Theft Acts relating to obtaining property by deception. From January 2007 offenders are likely to have been proceeded against under the various fraud offences contained in the Fraud Act 2006. The common law offence of conspiracy to defraud might also be relevant, depending on the circumstances of the case. Data covering offences under the relevant sections of these acts for the number of persons proceeded against at magistrates' courts and found guilty at all courts in England and Wales, for the years 2005 to 2007 (latest available) are shown in the following table.

Data for 2008 are planned for publication at the end of January 2010.

Number of defendants proceeded against at magistrates' courts and found guilty at all courts for selected offences relating to fraud, England and Wales, 2005 to 2007[1,2,3,4]

	2005	*2006*	*2007*
Proceeded against	9,955	7,983	8,200
Found guilty	7,625	6,266	6,107

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Defendants may be proceeded against in one year and found guilty in the following year.

[4] Includes the following statutes and corresponding offence description:
Theft Act 1968 Sec 15.
Obtaining property by deception.
Theft Act 1978 Sec 1.
Obtaining services by deception (except railway frauds).
Common Law.
Conspiracy to defraud.
Fraud Act 2006 S.1(2a)(3)(4) & 2
Dishonestly makes a false representation to make a gain for himself or another or to cause loss to another or to expose another to a risk.
Fraud Act 2006 S.1(2b)(3)
Dishonestly fails to disclose information to make a gain for himself or another or to cause loss to another or to expose another to a risk.
Fraud Act 2006 S.6
Possession etc. of articles for use in frauds
Fraud Act 2006 S.7
Make, adapt, supply or offer to supply any article knowing that it is designed or adapted for use in the course of or in connection with fraud, or intending it to be used to commit or facilitate fraud

Evidence and Analysis Unit - Office for Criminal Justice Reform

Human Trafficking

Jim Cousins: To ask the Secretary of State for Justice what services will be available for trafficked women under the Poppy project in the City of Newcastle upon Tyne in *(a)* 2009-10 and *(b)* 2010-11. [292800]

Claire Ward: The Council of Europe Convention on Trafficking which the Government ratified in December last year commits the UK to provision of sheltered accommodation for all those trafficked women who need it.

The Government have consequently invested £4million into specialist support services for victims of human trafficking over the next two years. This includes an investment of £3.7 million into the Poppy project to expand and improve the services that are available to victims that have been trafficked into the sex-industry and domestic servitude. The additional investment will see an expansion of supported accommodation, with refuge places for victims of trafficking for sexual exploitation and domestic servitude in London, Sheffield and Cardiff. The investment will also fund a new national co-ordinator who will help set best practice standards and work with areas to raise awareness with local agencies and funding commissioners. There will also be an increase in advocacy workers to help provide one-to-one tailored support and the community outreach team will also be extended with two link workers based within the UK Human Trafficking Centre to work in partnership with the police, UK Border Agency and other partners to help with victim identification and onward referral into support.

Additionally, £300,000 is being invested into the UK Human Trafficking Centre to develop flexible support services for victims of labour trafficking.

Trafficked women in the City of Newcastle upon Tyne can therefore access the full range of support provided by the Poppy project; including tailored support from the community outreach team and if needed, be relocated to supported accommodation in the identified locations, safety permitting.

Legal Profession: Fees and charges

Mr. Drew: To ask the Secretary of State for Justice how many clients have been represented by no-win no-fee solicitors in employment tribunals in the most recent 12 month period for which figures are available. [292601]

Bridget Prentice: The Ministry of Justice (MOJ) does not hold the information requested. A survey of Employment Tribunal Applications (SETA) conducted by the (then) Department of Trade and Industry in 2003 suggests that damages-based agreements funded 11 per cent. of cases. A further survey was conducted in 2008 the results of which are expected to be published later this year.

Means Warrants: Greater London

Jim Dowd: To ask the Secretary of State for Justice what his most recent assessment is of the monetary value of means warrants written off in Greater London in each of the last five years for which figures are available. [290080]

Bridget Prentice: The total values of financial penalties administratively cancelled by the HMCS London area in the last five years are shown in the table.

	Amount administratively cancelled (£)
2008-09	21,154,762.19
2007-08	14,299,628.59
2006-07	13,157,208.52
2005-06	573,379.42
2004-05	1,038,403.34

The amount shown equates to all administratively cancelled financial penalties not just the monetary value of means warrants which have been written off. The Department is unable to provide data solely relating to means warrants without incurring disproportionate costs.

Party Conferences

Mr. Don Foster: To ask the Secretary of State for Justice whether any of his Department's non-departmental public bodies sent representatives to attend one or more political party conferences in 2009. [293472]

Mr. Wills: No non-departmental public bodies sponsored by the Ministry of Justice sent representatives to any of the political party conferences in 2009.

Political Parties: Finance

Mr. Tyrie: To ask the Secretary of State for Justice if he will ask each of the three participating political parties if they will consent to place all background papers and minutes from the inter-party talks on the funding of political parties in the public domain; and if he will place in the Library a copy of those papers. [292599]

Mr. Straw: As I said in the debate on the publication of the White Paper, Party finance and expenditure in the United Kingdom, on 16 June 2009, *Official Report*, column 695 release of these papers is a matter for Sir Hayden Phillips, not the Government.

Prisons: Drugs

David Howarth: To ask the Secretary of State for Justice whether there was any discrepancy between the number of drugs received into prison pharmacies in England and Wales and the number prescribed in these prisons in the most recent 12 month period for which figures are available; and what arrangements are in place for regular auditing to verify such information. [292604]

Phil Hope: I have been asked to reply.

This information is not collected centrally. The responsibility for commissioning offender health services in publicly run prisons in England has been fully devolved to national health service primary care trusts since 2006 and as such pharmacy services are commissioned locally.

Local clinical audit and governance is in place for offender medication management as in the wider NHS.

Prisons: Manpower

Lynne Jones: To ask the Secretary of State for Justice which staff *(a)* grades, *(b)* rates of pay and *(c)* vacancies there were in the prison service in each of the last three years; what his Department's policy on recruitment in the prison service has been in each such year; if he will consider proposals for a new prison officer grade, including rate of pay; and if he will make a statement. [292436]

Maria Eagle: The grades at which staff were employed in HM Prison Service is shown in the following table together with the maximum and minimum rate of pay for each grade or payband in each year of the last three years.

	2006-07		*2007-08*		*2008-09*	
Grade	*Min*	*Max*	*Min*	*Max*	*Min*	*Max*
Sen Man A	60,442	78,832	60,442	80,858	62,515	82,071
Sen Man B	55,528	76,793	55,528	78,483	58,165	79,661
Sen Man C	53,357	69,157	53,357	70,679	55,060	71,740

Note:

The figures (shown in £ sterling) do not include location, unsocial hours or other allowances, overtime or other additional payments.

The pay and allowances of operational grades within HM Prison Service (officers and operational managers) is subject to annual review by the Prison Service Pay Review Body (PSPRB). The pay and allowance of other grades are set through collective bargaining.

Vacancy data were not collated centrally or subject to full data assurance until recently although the information was created in local business units. Reliable data available nationally show that the number of vacancies across prisons and NOMS headquarters, reported on 31 March 2009, was 2,564. Data from earlier years could be collected only by requesting information from a large number of business units, which would entail disproportionate cost.

Recruitment policies within the Prison Service and NOMS have undergone significant change to use information technology better and administer processes through a shared service centre. As a result most of the pre and post assessment recruitment activity takes place on line and has been centralised. Prison officers are the largest group of staff recruited, reflecting increases in prison capacity, and recruitment activity for this group of staff has been streamlined so that application and initial testing occurs on-line followed by a single day assessment event that includes work based simulations and a fitness test.

All new prison officers appointed on or after 1 October 2009 are subject to new terms and conditions based on a 37 hour week with associated new rates of pay. There are two paybands for new Prison Officers, depending on the role undertaken. All new Prison Officers start employment in the Prison Officer 2 core officer role in the lower payband.

The total appointment salary for new appointments in Prison Officer 2 roles is £17,1871. This is composed of £14,690 base pay plus £2,497 for unsocial hours working. This rate may be reviewed by the PSPRB as part of their annual review of Prison Service salaries. These new staff may elect to work up to four additional hours on top of the standard 37 net hours per week. These additional hours will be paid at an enhanced rate to reflect they are non-pensionable. In parts of the country, officers will receive a location allowance also.

Secure Accommodation: Secure Training Centres

David Howarth: To ask the Secretary of State for Justice what the maximum capacity is of each *(a)* secure children's home, *(b)* secure training centre and *(c)* young offender institution; what the occupancy rate of each is; and if he will make a statement. [292607]

Maria Eagle: The following table shows the number of contracted places at each *(a)* secure children's home (SCH), *(b)* secure training centre (STC), and *(c)* young offender institution (YOI) in the under-18 secure estate. The occupancy rate of each, as at 9 October 2009, is shown as a percentage. Data have been provided by the Youth Justice Board and have been drawn from administrative computer systems.

	Contracted places	*Occupancy rate (percentage)*

Solicitors Regulation Authority

Dan Rogerson: To ask the Secretary of State for Justice how many cases have been processed by the Solicitors Regulation Authority in each year since its creation; and how many such cases resulted in *(a)* no further action decision and *(b)* sanctions against a solicitor. [290069]

Bridget Prentice: The information I have received from the Solicitors Regulation Authority (SRA) states that over 18,000 investigations have been concluded since its creation in January 2007. This breaks down as follows:

Date	*Number of cases*
2007	[1]6,883
2008	[2]7,341
2009 (January to June)	[3]3,838

[1] A monthly average of 573.6
[2] A monthly average of 611.8
[3] A monthly average of 639.7

Where regulatory action is deemed appropriate, outcomes for these investigations can be categorised in one of three ways. First a sanction may be applied with no action required or secondly the case may be referred to the Solicitors Disciplinary Tribunal or thirdly a case is closed due to ongoing action elsewhere. The SRA has provided me with a break down of sanctions against solicitors for this period. These are as follows:

	Number regulatory action required	*Percentage of cases*	*Sanction applied*	*Percentage of cases*	*Disciplinary referral/ ongoing action*	*Percentage of cases*
2007	5,257	76	960	14	666	10
2008	5,750	78	784	11	807	11
2009[1]	2,956	77	408	11	474	12

[1] January to June

Dan Rogerson: To ask the Secretary of State for Justice what the average length of time taken by the Solicitors Regulation Authority to determine a case was in the latest period for which figures are available. [290070]

Bridget Prentice: The information I have received from the Solicitors Regulation Authority (SRA) states that, based on a total number of 3,838 cases closed between January and June 2009, standard cases were closed within 3.1 months on average. This includes time taken for referral for adjudication where necessary.

The SRA has further explained that, where allegations are assessed as being high-risk, and it is deemed necessary to do so, field-based investigations may be undertaken. Based on 211 such investigations concluded between January and June 2009, these cases took an average of 9.8 months from authorisation to completion, including the issue of a report where necessary. In addition, 11 extremely complex cases were concluded within this period, taking an average of 16.0 months to complete.

Dan Rogerson: To ask the Secretary of State for Justice what the average length of time is between the determination of a case by the Solicitors Regulation Authority and its conclusion by adjudication in the latest period for which figures are available. [290071]

Bridget Prentice: The information I have received from the Solicitors Regulation Authority (SRA) states that cases adjudicated upon internally are dealt with either by an individual adjudicator or a panel of adjudicators. Over 1,000 adjudications took place in between January and June 2009. Decisions by an individual adjudicator had a turnaround time of 23 days on average (0.8 months). An adjudication panel decision took an average of 34 days (1.1 months).

Matters referred for disciplinary proceedings may be combined with others into single cases brought before the Solicitors Disciplinary Tribunal (SDT). It takes an average of 184 days (6.0 months) to put these cases together, and the SDT then aims to schedule a hearing within six months of issue of proceedings.

Unpaid Fines

Mr. Fallon: To ask the Secretary of State for Justice how much was outstanding in unpaid fines to the courts in the latest year for which figures are available; and from how many people. [292507]

Bridget Prentice: At the end of the 2008-09 financial year there was a total of £545 million outstanding in unpaid financial penalties across England and Wales. Her Majesty's Courts Service systems do not identify the number of individuals to which the outstanding balance relates. The outstanding balance has risen through the application of a strict policy that only allows fines to be written off in certain circumstances. The outstanding balance includes fines imposed a number of years ago during the period when fines could not be cancelled (2004-06) and fines which are being paid by instalments.

The national payment rate for financial penalties at the end of the 2008-09 financial year was 85 per cent. and 71 per cent. excluding the value of administrative cancellations.

HMCS is currently implementing the 'Criminal Compliance and Enforcement Services—A Blueprint for 2008 to 2012' which was launched in July 2008 and is currently being implemented by all of the HMCS regions. The blueprint sets out HMCS's strategic objective which is for a cheaper, faster and more proportionate system that primarily focuses on 'first time' compliance while continuing to apply the principles of rigorous enforcement to the hard core of defaulters.

Young Offenders: Restraint Techniques

David Howarth: To ask the Secretary of State for Justice if he will place in the Library a copy of the documentation relating to Adapted C & R piloted in Feltham and Cookham Wood Young Offender Institutions in May 2006 and as referred to in paragraph 8.30 of the 2008 Independent Review of Restraint in Juvenile Secure Settings. [292605]

Maria Eagle: I refer the hon. Gentleman to the answer I gave on 12 October 2009, *Official Report*, column 181W.

A pilot of juvenile restraint techniques (JRT) for use on young people (15-17 year olds) commenced in May 2006. An interim evaluation report was produced in April 2007 and I have arranged for a copy of this to be placed in the House of Commons Library. Shortly after the completion of this report, the "Independent Review of the Use of Restraint in Juvenile Secure Settings" was announced and a decision was taken to suspend further work on JRT pending the outcome of the review.

The Government's response to the independent review was published in December 2008 and part of this announced the development of a more comprehensive system of restraint for young people as part of a wider behaviour management system. Piloting of this new system of restraint is expected to begin early next year.

David Howarth: To ask the Secretary of State for Justice if he will place in the Library a copy of the Prison Service review into the case for extending the use of the baton to young people's estates, as referred to in paragraph 8.39 of the 2008 Independent Review of Restraint in Juvenile Secure Settings. [292606]

Maria Eagle: I refer the hon. Gentleman to the answer I gave on 12 October 2009, *Official Report*, column 181W.

I have arranged for a copy of the Prison Service report, "Review of the Potential Use of the Baton in the Young People's Estate" to be placed in the House of Commons Library.

NORTHERN IRELAND

Administration of Justice: Translation Service

Mark Durkan: To ask the Secretary of State for Northern Ireland whether the National Framework Agreement on arrangements for the use of interpreters, translators and language service professionals within the criminal justice system applies to Northern Ireland. [292834]

Paul Goggins: I refer the hon. Member to the answer I gave on 7 July 2009, *Official Report*, column 656W.

OLYMPICS

Olympic Games 2012: Heating

John Mann: To ask the Minister for the Olympics how many buildings which will be used for the London 2012 Olympics will use heat generated by *(a)* solar panels and *(b)* ground source heat pumps. [292002]

Tessa Jowell: There are no plans to use solar panels or ground source heating pumps to heat the venues on the Olympic Park. Heat for these buildings will be provided from a purpose built Energy Centre and Community Energy Network. The Energy Centre comprises biomass boilers fuelled by renewable wood pellets and is designed to capture enough heat during the electricity production process to supply heating and hot water to all the buildings on the Olympic Park.

These measures are part of the Olympic Delivery Authority's strategic approach to energy supply on the Olympic Park, which seeks to achieve the ambitious target that carbon emissions from the built environment in the Park should be reduced by 50 per cent., against 2006 standards' levels, by 2013. The strategic approach includes designing permanent venues to make them 15 per cent. more energy efficient than the 2006 Building Regulations require and building a wind turbine that will produce the energy equivalent to supplying 1,000 homes over an average year.

TRANSPORT

Aviation: Greater London

Bob Spink: To ask the Minister of State, Department for Transport whether he has made an assessment of the likely environmental impact of an airport located in the Thames Estuary. [293392]

Paul Clark: Options for offshore or coastal airports were considered extensively in the work leading to the Air Transport White Paper in 2003. A summary assessment of their impacts was presented in the report 'Development of Airport Capacity in the Thames Estuary', December 2003, available on the Department for Transport website at:

www.dft.gov.uk/about/strategy/whitepapers/air/docs/lopmentofairportcapacity5669.pdf

Gatwick Airport

Mr. Hoyle: To ask the Minister of State, Department for Transport what the Government's role is in establishing the future *(a)* operation and *(b)* ownership of Gatwick Airport; and if he will make a statement. [293849]

Paul Clark: Gatwick is a designated airport under the Airports Act 1986 and as such its future operation is a matter for its operator and the Civil Aviation Authority.

The sale of Gatwick airport was required by the Competition Commission following its investigation into the supply of airport services by BAA. The Competition Commission's requirements for any new owner of Gatwick were set out in detail in its report (which was published on 19 March 2009). These include that it should have appropriate expertise and financial resources to operate and develop the airport, as well as a sufficient degree of independence from BAA.

The sale is a commercial matter for BAA subject to it satisfying the Competition Commission's requirements. The Government have no formal role in the transaction and have no statutory powers to intervene in it. Department for Transport officials have ensured that the various bidders for the airport have had equal access to information on the regulatory context and broader aviation policy framework as it affects Gatwick. Officials have also shared information on these matters with the Competition Commission to assist in the Competition Commission's formal consideration of the suitability of various bidders.

BAA has challenged the legality of certain of the Competition Commission's findings, and its appeal is due to be heard by the Competition Appeals Tribunal on 19-21 October.

Northern Rail: Rolling Stock

Norman Baker: To ask the Minister of State, Department for Transport for what reasons the number of new rail carriages originally planned for Northern Rail has been reduced. [290300]

Chris Mole: No decision has yet been made on the total number of vehicles that Northern Rail should add to its train fleet. The Department for Transport is currently working with Northern Rail on a first phase of additional rolling stock to address overcrowding issues.

Parking

Mrs. Spelman: To ask the Minister of State, Department for Transport whether revenue raised by local authorities from *(a)* on-street parking charges and *(b)* parking fines is ring-fenced. [292586]

Mr. Khan: The revenue raised from on-street parking charges must be used in accordance with Section 55 (as amended) of the Road Traffic Regulation Act 1984, which limits the use of surplus funds to transport related objectives or for environmental purposes.

Local authorities in England operating under the Civil Parking Enforcement (CPE) regime issue Penalty Charge Notices (PCNs) for parking contraventions. The revenue raised from PCNs must also be used in accordance with Section 55 (as amended) of that Act. Where the local authority has not taken on the CPE powers under the Traffic Management Act 2004 to enforce parking contraventions, enforcement is carried out under criminal law by the Police who issue parking fines for parking offences. The revenue raised from parking fines goes to the Treasury.

Railway Stations: Ticket Offices

Lynne Featherstone: To ask the Minister of State, Department for Transport how many non-Transport for London railway station ticket offices in each London borough have *(a)* been closed and *(b)* had opening hours reduced in each of the last four years; and if he will make a statement. [293059]

Chris Mole: The Department for Transport does not hold this information in the form requested. Full details of National Rail ticket office opening hours are listed in Schedule 17 of the Ticketing and Settlement Agreement (TSA) and a copy of this document, for years 2005 to 2009, has been placed in the Library of the House.

A number of National Rail ticket offices in London have closed permanently as part of railway infrastructure improvement schemes:

King's Cross Thameslink station where the National Rail station closed as part of the Thameslink Programme. A new station and ticket office was opened at St. Pancras International.

Custom House, Silvertown and North Woolwich where the National Rail stations closed to enable an extension to the Docklands Light Railway to be built.

Lynne Featherstone: To ask the Minister of State, Department for Transport what assessment his Department has made of the effects on passenger safety of the closure of railway station ticket offices on the First Connect line through Hornsey and Wood Green; and if he will make a statement. [293058]

Chris Mole: First Capital Connect (FCC) has followed the Ticketing and Settlement Agreement processes for changing ticket office opening hours. The Ticketing and Settlement Agreement is an inter-operator agreement which sets out, among other things, arrangements for ticket retailing. A safety assessment is not required under this Agreement.

Since the start of the franchise FCC has invested heavily or achieved the following:

Has achieved Secure Stations at all of their stations within the Greater London area;

Improved relationships and joint working with the British Transport Police to manage out crime and improve response to crime.

Railways: Standards

Bob Spink: To ask the Minister of State, Department for Transport what records his Department holds on the number of rail services which departed stations prior to their scheduled departure time in the last 12 months; what proportion of these services arrived at their destination on time; and if he will make a statement. [293599]

Chris Mole: Data on trains which may have departed from stations before their scheduled time are not held by the Department for Transport, but by Network Rail. Please contact Iain Coucher, chief executive of Network Rail, at the following address for this information:

Mr. Iain Coucher
Chief Executive
Network Rail
Kings Place
90 York Way
London
N1 9AG

Of all train arrivals, 91.3 per cent. arrived at their destination within the specified punctuality margin in the 12 months up to 19 September 2009.

TREASURY

Council Tax: Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 16 September 2009, *Official Report*, column 2287W, on the Valuation Office Agency, on what date the Valuation Office Agency published its guidance on council tax bands and self-contained units. [293030]

Ian Pearson: Practice Note 5 of the Valuation Office Agency (VOA) council tax manual contains the instructions giving guidance on council tax bands and self contained units. These instructions were published online when the VOA website was originally set up in January 2000.

A new fact sheet designed to assist the public in understanding council tax law on self-contained units was published in May 2007 and is also available on the VOA website.

Private Finance Initiative

Jim Cousins: To ask the Chancellor of the Exchequer what guidance he has given to Government departments on the fair valuation of risk and risk transfer in the evaluation of bids under the private finance initiative where *(a)* RBS and *(b)* Lloyds Banking Group are partners in such bids. [292799]

Ian Pearson: None. Guidance on public private partnerships in general is available on the Treasury website at:

www.hm-treasury.gov.uk/ppp_index.htm

Public Expenditure

Mrs. Villiers: To ask the Chancellor of the Exchequer with reference to the Pre-Budget Report and Comprehensive Spending Review 2007, page 49, what his most recent estimate is of the projected levels of long-term funding for his Department in order to provide for the 2.25 per cent. real growth in the Long-Term Funding Guideline to 2018-19 set out in that document. [290160]

Mr. Byrne: Departmental budgets for the next spending review period will be set in due course.

Public Expenditure: Transport

Mrs. Villiers: To ask the Chancellor of the Exchequer with reference to the Pre-Budget Report and Comprehensive Spending Review 2007, page 49, what his most recent estimate is of the projected levels of spending on transport to 2018-19. [290159]

Mr. Byrne: Departmental budgets for the next spending review period will be set in due course.

Revenue and Customs: Telephone Services

Mr. Oaten: To ask the Chancellor of the Exchequer how many people would pay *(a)* more, *(b)* less and *(c)* the same for calls to HM Revenue and Customs helplines with 0845 prefixes if they were changed to numbers with 0300 prefixes. [293637]

Mr. Timms: HM Revenue and Customs does not hold this information. The cost of calls to 0845 and other non geographical numbers is dependent on several factors. Calls are charged to the customer based on the tariff arrangements they have with their service provider, the device they use for the call and the location from which they call. There are therefore many hundreds of variations of call costs.

Stamp Duties

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Exchequer of only levying stamp duty on the individual dwellings in a bulk rental purchase. [292901]

Sarah McCarthy-Fry: No such estimate has made.

Taxation: Pensions

Steve Webb: To ask the Chancellor of the Exchequer whether lump sum arrears of basic state pension paid under the reinstatement of deficiency notices project are taxable; and if he will make a statement. [292837]

Mr. Timms: HM Revenue and Customs does not seek to assess any tax arising on arrears of state pension paid under reinstatement of deficiency notices.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer what data sources the Valuation Office Agency uses to determine the plot size when gathering data on a dwelling. [292736]

Ian Pearson: The Valuation Office Agency (VOA) uses digital mapping software to calculate plot size.

Valuation Office: Empty Property

Mrs. Spelman: To ask the Chancellor of the Exchequer what records the Valuation Office Agency holds on the number of empty non-domestic properties on the Rating List. [292709]

Ian Pearson: Valuation Office records do not show whether non-domestic property entered in the rating lists in England and Wales are either occupied or unoccupied.

WOMEN AND EQUALITY

Government Equalities Office: Manpower

Andrew Rosindell: To ask the Minister for Women and Equality how many people aged over *(a)* 55 and *(b)* 65 years are employed by the Government Equalities Office. [290384]

Michael Jabez Foster: The Government Equalities Office employs less than five staff over the age of 55 and none over 65 years. The Government Equalities Office does not confirm numbers less than five in order that individuals may not be identified.

WORK AND PENSIONS

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of people on incapacity benefit have voluntarily joined Pathways to Work in each year for which information is available. [288619]

Jonathan Shaw *[holding answer 21 July 2009]*: Official statistics on the number of participants in Pathways to Work are available up to January 2009, these are published at:

http://research.dwp.gov.uk/asd/workingage/ib_ref_p2w.asp

We cannot estimate the proportion of the eligible population who have volunteered for Pathways each year without incurring disproportionate cost. We do, however, hold information of the number of volunteers in each year, up to January 2009. This is shown in the following table.

Number of individuals who volunteered for Pathways to Work

	Individual Jobcentre Plus starts	*Individual Provider starts*
October to December 2003	500	n/a
January to December 2004	7,500	n/a
January to December 2005	9,210	n/a
January to December 2006	11,870	n/a
January to December 2007	22,390	1,960
January to December 2008	13,620	61,760
January to end of January 2009	710	4,570

Note

A person is counted once in each year, though they may appear in several years. As a result, the total number of individuals which have volunteered for Pathways since its inception cannot be derived by adding the number of individuals which have volunteered each year.

DWP Information Directorate 100 per cent. Work and Pensions Longitudinal Study.

Written Answers to Questions

Monday 19 October 2009

TRANSPORT

Aviation Noise

Mr. Laurence Robertson: To ask the Minister of State, Department for Transport what recent assessment he has made of the appropriateness of charges made by the Civil Aviation Authority to re-license planes which have had silencers fitted; and if he will make a statement. [293669]

Paul Clark: The approval of silencers for civil aircraft is in most cases the responsibility of the European Aviation Safety Agency (EASA). For aircraft not covered by EASA, the Civil Aviation Authority (CAA) would only become involved where they have not previously approved the modification to the aircraft type. In those cases the CAA will need to investigate the proposed modification as part of the approval process. The applicant will be charged for modification investigation in accordance with the CAA's published Airworthiness Scheme of Charges. The CAA charging schemes are reviewed annually in consultation with the Secretary of State for Transport.

Dartford Tunnel: Mobile Phones

Mr. Greg Knight: To ask the Minister of State, Department for Transport whether his Department plans to make mobile telephone coverage available in the Dartford Tunnel. [293858]

Chris Mole: Mobile phone coverage is already available in both bores of the Dartford tunnel.

Dartford-Thurrock Crossing

Mr. Heald: To ask the Minister of State, Department for Transport what estimate he has made of the cost to the economy of time spent by vehicles waiting to cross the Dartford Crossing; and if he will make a statement. [292761]

Chris Mole: A study commissioned by the Department for Transport in 2008 aggregated the delays for 2007 and converted them into a monetary sum using published values of time. This calculated the cost of delay at the Dartford Crossing at around £40 million per annum. The initial results of the study can be found at:

www.dft.gov.uk/about/strategy/capacityrequirements/dartfordrivercrossing

The aggregate dwell time at the toll facilities is used to match flows to the capacity of the northbound tunnels.

Mr. Heald: To ask the Minister of State, Department for Transport what recent estimate he has made of the average time taken by a vehicle to cross the Dartford Crossing; and if he will make a statement. [292762]

Chris Mole: Between M25 junction 2 and M25 junction 30, which includes the Dartford Crossing the average journey northbound is 10 minutes 11 seconds and 11 minutes 40 seconds southbound. The data used are from August 1 to August 24 2009.

Mr. Heald: To ask the Minister of State, Department for Transport what recent representations he has received on waiting times for vehicles at the Dartford Crossing. [292763]

Chris Mole: In the six months from 1 April to 30 September 2009, the Department for Transport has received 69 items of ministerial correspondence specifically categorised as being about congestion and delays at the Dartford Crossing.

In addition, the Highways Agency has dealt itself with a further 40 e-mails, 23 letters and 76 telephone calls from members of the public.

Lorries: Safety

Mr. Greg Knight: To ask the Minister of State, Department for Transport what his most recent estimate is of the number of unsafe heavy goods vehicles on UK roads which are registered overseas; and what steps his Department is taking to reduce this number. [293859]

Paul Clark *[holding answer 16 October 2009]*: Foreign-registered vehicles represent around 3.5 per cent. of all heavy goods vehicle (HGV) traffic on Britain's roads. In 2008-09, the Vehicle and Operator Services Agency (VOSA) checked 61,000 foreign-registered HGVs and found roadworthiness related concerns with 40 per cent. of them. This compares with 64,800 spot checks on UK registered HGVs where 32.6 per cent. were found to have roadworthiness related concerns.

The Government have introduced a number of measures to tackle non-compliance with the regulations. We have made an additional £24 million available to VOSA over a three-year period from 2008 to enable them to carry out more enforcement checks on HGVs on international journeys.

We have also introduced a new scheme to allow the police and VOSA to take on the spot financial deposits from offending drivers with no satisfactory address in the United Kingdom. In the first three months of operation, almost £700,000 has been collected from such drivers.

In addition, VOSA routinely informs the authorities of other EU member states about offences involving their commercial vehicle drivers.

Manchester-Burnley Railway Line

Mr. Gordon Prentice: To ask the Minister of State, Department for Transport what progress has been made in reinstating the Todmorden Curve; and what estimate he has made of the cost of that work. [294137]

Chris Mole: Burnley borough council has commissioned Network Rail to carry out a study for the chord (and any other infrastructure changes required) which is due for completion by the end of the year. The study will confirm the expected capital cost, which is currently estimated at £5 million.

Motor Vehicles: Lighting

Dr. Iddon: To ask the Minister of State, Department for Transport (1) when his Department plans to publish its response to the consultation on proposed amendments to the vehicle lighting and construction regulations, which closed on 9 October 2008; [293683]

(2) what estimate he has made of the cost of making retro-reflective markings mandatory on all newly-registered heavy goods vehicles over 7.5 tonnes; and what methodology was used to make that estimate; [293684]

(3) what representations his Department has received from the road haulage industry on the introduction of mandatory retro-reflective markings on newly-registered heavy goods vehicles; [293687]

(4) what estimate he has made of the economic effects on manufacturers and fitters of retro-reflective markings of his Department's decision to postpone making such markings mandatory for all newly-registered heavy goods vehicles. [293688]

Paul Clark: A summary of the responses to the consultation will be published at the same time as the statutory instrument amending the lighting regulations so as to provide (among other things) for the new retro-reflective marking requirements. This is expected to be before the end of the year.

The methodology used to estimate the cost of mandatory conspicuity markings is contained in the impact assessment that accompanied the consultation. This is available at:

http://www.dft.gov.uk/consultations/archive/2008/regulationsamendments/

The cost to fit tape to a new vehicle was estimated at between £186 and £388 per vehicle depending on whether simple line marking or full contour marking is used. A seven year life span was assumed, after which the markings would need to be replaced. The total number of new vehicles to be fitted with markings was estimated at 35,821 per year. Using these figures the average cost to fit markings on new vehicles was estimated at approximately £8.8 million per year. Taking into account the additional replacement costs after seven years the estimated annual cost over twelve years was between £16 and £17 million per year depending on the implementation strategy.

Both the Road Haulage Association and Freight Transport Association (FTA) responded to the original consultation. There has also been regular contact between Department for Transport officials and the FTA to discuss how the regulations would be implemented and to answer technical queries.

No detailed analysis of the effect on tape manufacturers and fitters of postponing conspicuity marking tape requirements has been carried out. They will, as now, be free to market their products in the period leading up to the mandatory requirement for marking tape in 2011.

Railways: Freight

Anne Main: To ask the Minister of State, Department for Transport what assessment his Department has made of the Strategic Rail Authority's Strategic Rail Freight Interchange Policy; and if he will make a statement. [293471]

Chris Mole: Pending the publication of the National Networks National Policy Statement draft for consultation, the Strategic Rail Authority's Strategic Rail Freight Interchange Policy remains Department for Transport policy guidance.

A short policy statement on Strategic Rail Freight Interchanges is also contained in the recent Department publication "Strategic Rail Freight Network: The longer term vision".

Rivers: Pollution

Norman Baker: To ask the Minister of State, Department for Transport how many incidences of *(a)* marine, *(b)* oil and *(c)* other pollution have been recorded in UK waters in each year since 1990 from shipping registered in (i) the UK, (ii) the EU and (iii) other countries; what steps were taken to clean up in each case; what costs were incurred and what fines were levied in each case; by whom these were paid; and if he will make a statement. [292780]

Paul Clark: Details of incidences of marine pollution being released from ships in the UK pollution control zone are given in annual reports produced by the Advisory Committee on Protection of the Sea. Reports for the years 2001 through to 2007 are available on the Maritime and Coastguard Agency's website at:

http://www.mcga.gov.uk/c4mca/mcga07-home/emergencyresponse/mcga-pollutionresponse/mcga-dops_cp_environmental-counter-pollution.htm

The information with regard to the port of registry of the ships is not contained in the Committee's annual report. This information is not available.

Comprehensive clean-up costs information is not held centrally.

PRIME MINISTER

Afghanistan: Peacekeeping Operations

Mr. Gordon Prentice: To ask the Prime Minister what assessment he has made of the implications for the NATO mission in Afghanistan of the government of Canada's decision to withdraw combat forces in 2011; and if he will make a statement. [293647]

The Prime Minister: I refer my hon. Friend to the answer I gave on 14 October 2009, *Official Report*, column 313.

Iraq Committee of Inquiry

Mr. Hague: To ask the Prime Minister whether he has received a request to give evidence to the Chilcot Inquiry. [293571]

The Prime Minister: The Iraq inquiry will make announcements in due course about the hearings it will conduct and which witnesses will appear. In the event serving Ministers or Government officials are called, the Government reiterate their commitment to co-operate fully with the inquiry.

USA

Andrew Rosindell: To ask the Prime Minister which Ministers have visited the United States on official business in the last 12 months. [293315]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House.

HOUSE OF COMMONS COMMISSION

Internet: Registration

Mr. Hurd: To ask the hon. Member for North Devon, representing the House of Commons Commission whether the Commission has made representations to Nominet on the registration of the Red Rag website domain name using a House of Commons address. [288988]

Nick Harvey: No.

Members: European Travel Scheme

Mr. Jenkins: To ask the hon. Member for North Devon, representing the House of Commons Commission how many claims were made by hon. Members under the European travel scheme in each of the last five years. [293772]

Nick Harvey: The answer is as follows. Figures prior to 2005-06 are not available.

Financial year	*Number of claims*
2008-09	209
2007-08	207
2006-07	210
2005-06	181

SCOTLAND

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Scotland what percentage of procurement contracts his Department awarded to small businesses in *(a)* 2006-07, *(b)* 2007-08, *(c)* 2008-09 and *(d)* 2009-10; and if he will make a statement. [293240]

Ann McKechin: The Scotland Office does not record the information in the format requested. The Office endeavours to utilise existing contracts of other Government Departments whenever possible.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Scotland how much his Department spent on first class rail travel for civil servants in each of the last three years; and if he will make a statement. [293096]

Ann McKechin: The Scotland Office does not separately record expenditure on first class rail travel. All rail travel is undertaken by the most efficient and cost-effective way, in accordance with the Civil Service Management Code, a copy of which is available in the Libraries of the House.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Electronic Equipment

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* mobile telephones, *(b)* Blackberrys and *(c)* laptop computers were issued to staff of his Department in each of the last five years; and how many of these were issued to (i) new staff and (ii) existing staff following the (A) loss or (B) theft of a previous device. [290521]

Dan Norris: Details on the specific devices are as follows:

	2005-06	*2006-07*	*2007-08*	*2008-09*	*2009-10 to date*
Mobile Handsets Issued	809	364	219	185	59
Mobile Handsets Lost or Stolen	4	4	0	0	3
BlackBerry Handsets Issued	65	128	194	311	104
BlackBerry Handsets Lost or Stolen	1	8	5	12	5
Average number of Laptops on Estate	2,069	2,069	2,069	6,129	7,688
Laptops Lost or Stolen	18	22	13	20	12

Notes:

1. Figures for mobile handsets and BlackBerry devices issued are taken from purchase records and will not include devices issued that have been reused.
2. Figures for lost/stolen Blackberry handsets also include PDAs.
3. DEFRA reporting standards do not record losses and thefts separately nor is information available on whether losses were definitely replaced.
4. Figures for lost and stolen devices reported between 2005-06 and 2007-08 represent core-DEFRA, Animal Health, Natural England and Veterinary Laboratories Agency. From 2008-09 onwards the figure above represents core-DEFRA only.
5. Computers/laptops are paid for via a managed service which is charged for on a usage basis. DEFRA monitors the total volume of kit on the estate (which consists of a user base made up of the core-Department and several agencies/NDPBs) on a monthly basis to calculate charges, rather than how many devices are issued or replaced over time.
6. DEFRA has invested in encryption technology in the laptop and BlackBerry services for all new issues. Over 95 per cent. of the current devices are encrypted.
7. The total PC/laptop kit has reduced overall within DEFRA. The increase in laptop volumes above is due to 'single device' policy that has removed a significant number of desktop PCs in exchange for one corporate laptop per user in order to drive up environmental and mobile working benefits.

Farmers: Nitrates

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the farming industry on the identification of areas where the requirements placed on farmers to comply with nitrates legislation exceed the minimum requirements of the Nitrates Directive. [292717]

Huw Irranca-Davies: DEFRA introduced the Nitrate Pollution Prevention Regulations 2008 in accordance with the Nitrates Directive 91/676/EEC following extensive consultation during 2007-08.

In addition to the formal consultation, DEFRA officials met representatives of the farming industry on numerous occasions to discuss the Action Programme measures. These represent what DEFRA considers to be the best way of fulfilling our obligations under the nitrates directive, while maintaining a sustainable agricultural industry. The measures were developed to reflect good agricultural practice and are based on best available science. My ministerial colleagues and I also frequently discuss the implementation of the nitrates directive when we meet farmers.

Holiday Accommodation: Taxation

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with HM Treasury Ministers on the effect of the abolition of furnished holiday lettings tax relief on the rural economy. [293430]

Dan Norris: Ministers and officials have discussions on a wide range of issues as part of the process of policy development.

Government will publish an impact assessment at pre-Budget report 2009 alongside draft legislation.

Nature Conservation: British Overseas Territories

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether there are plans to change the responsibilities of the Department for Environment, Food and Rural Affairs regarding conservation issues in UK Overseas Territories; [293294]

(2) what progress has been made by the Joint Nature Conservation Committee in developing a coherent strategy to manage biodiversity and promote conservation in the UK Overseas Territories; and if he will make a statement; [293295]

(3) how much funding will be made available for the Overseas Territories Challenge Fund as part of the United Kingdom Government's Darwin Initiative in the next 12 months; [293456]

(4) how much funding the UK Overseas Territories in the Caribbean have received under the Darwin Initiative scheme in each year since 2005; [293457]

(5) how much funding the UK Overseas Territories in the South Atlantic have received under the Darwin Initiative scheme in each year since 2005; [293458]

(6) what recent measures have been taken to achieve a co-ordinated approach to environmental protection across Government departments in relation to the *(a)* UK Overseas Territories and *(b)* Crown Dependencies. [293469]

Huw Irranca-Davies: There are no plans to change the responsibilities regarding conservation issues in the UK's Overseas Territories.

The Joint Nature Conservation Committee (JNCC) was commissioned by the Interdepartmental Ministerial Group on biodiversity (IDMGb) to draft a Government Strategy for the Conservation and Sustainable Use of Biodiversity in the UK Overseas Territories. This was done with the express intention of improving the effectiveness of co-ordination of the UK Government's support for biodiversity in the Overseas Territories. The strategy was announced at a reception on Collaboration on Environmental and Biodiversity Issues in the Overseas Territories, hosted by the Foreign and Commonwealth Office (FCO) at the end of June.

The strategy, which is shortly to be published, establishes, inter alia, a partnership of the three participating Government Departments, with JNCC providing the secretariat. The Strategy also establishes that my Department will co-ordinate the work of the partnership with the FCO and the Department for International Development (DFID).

In addition, an Interdepartmental Group on Biodiversity in the Overseas Territories has been established following agreement of the strategy. This group, comprising the same member Departments as the IDMGb, met for the first time on 29 September and established its key principles and terms of reference, one of which will be to co-ordinate to best effect UK Government support for biodiversity in the Overseas Territories.

Turning to the Darwin Initiative's new Overseas Territories Challenge Fund, I announced the establishment of this fund in June. It is intended to pay for up to 10 projects relating to biodiversity in the Overseas Territories, each costing up to £25,000. These will be comparable to existing Darwin scoping projects, aiming towards main-round projects, but for longer periods and involving some initial implementation work. The cost of Challenge Fund payments will come from a sum of up to £1.5 million, which I announced at the same event will be earmarked within the Darwin Initiative this year for Overseas Territories projects.

In terms of specific figures provided under the Darwin Initiative for projects in the Caribbean and South Atlantic Overseas Territories, these are as follows:

For the Caribbean Overseas Territories, since 2005, the figures are:

	£
2005-06	151,218
2006-07	156,378
2007-08	65,602
2008-09	31,227
2009-10	188,294

For the South Atlantic Overseas Territories, since 2005, the figures are:

	£
2005-06	71,294
2006-07	39,389
2007-08	52,077
2008-09	5,000
2009-10	27,856

Retail Trade: Rural Areas

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of rural parishes without a general store in each year since 1997. [293201]

Dan Norris: The Secretary of State has made no estimate of the number of rural parishes without a general store.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the number of *(a)* newsagents, *(b)* fishmongers, *(c)* bakers and *(d)* butchers that have closed in (i) rural and (ii) non-rural areas in each year since 1997; [293227]

(2) what estimate he has made of the number of food shops that have closed in *(a)* rural and *(b)* non-rural areas in each year since 1997. [293228]

Dan Norris: DEFRA does not collect data on the numbers of different types of shops in urban and rural areas. However, the following table shows the number and rate of insolvencies in the retail industry nationally and in rural and urban areas between 2003 and 2009. 2003 is the earliest year for which DEFRA has data.

	Total number of retail insolvencies			*Rate per 1,000 businesses*		
	Rural	*Urban*	*England*	*Rural*	*Urban*	*England*
2003	212	1,325	1,537	1.0	1.4	1.3
2004	183	1,352	1,535	0.8	1.3	1.2
2005	267	1,613	1,880	0.9	1.3	1.2
2006	276	1,889	2,165	0.8	1.3	1.2
2007	319	1,875	2,194	0.9	1.2	1.2
2008	464	2,506	2,970	1.2	1.6	1.5
2009[1]	285	1,584	1,869	1.5	1.9	1.8

[1] 2009 data are for Q1 and Q2 (January to June) only.

Notes:

1. Figures refer to average annual rates of insolvencies per 1,000 businesses.

2. Rural-urban definition is applied to the postal address of where business is registered.

Source:

pH Group 2009.

The rate of insolvencies in rural areas has been consistently lower than the national average since 2003.

Rights of Way

Ms Angela C. Smith: To ask the Secretary of State for Environment, Food and Rural Affairs how many panel inquiries have been adjourned for consideration of evidence submitted outside the time limits set in the Rights of Way (Hearing and Inquiries Procedure) (England) Rules 2007; and what the reasons for granting the adjournment were in each case. [294227]

Huw Irranca-Davies: The information requested regarding public inquiries is unavailable as it is not recorded by the Planning Inspectorate or published in its year-end statistics.

NORTHERN IRELAND

Criminal Damages Compensation 1997

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many applications for compensation under the Criminal Damages (Compensation) (Northern Ireland) 1977 Order have been made in each of the last five years; and how many such applications were certified by the Chief Constable. [292759]

Paul Goggins: The following table sets out the number of applications for Criminal Damage received and the number certified with a Chief Constable's Certificate within the last five years.

	Number of claims received	*Number certified by chief constable*
2004-05	935	83
2005-06	1,248	250
2006-07	896	53
2007-08	666	40
2008-09	756	19
2009-10 (to date)	457	5
Total	4,958	450

Libya

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland what measures of cooperation and training with Libya involving *(a)* Police Service of Northern Ireland officers and staff and *(b)* any other departments or agencies for which he is responsible he has authorised in the last 12 months; and if he will make a statement. [292159]

Paul Goggins: All requests made to the Police Service of Northern Ireland (PSNI) for international assistance must be approved by the Northern Ireland Policing Board, and then the Secretary of State, under section 8 of the Police (NI) Act 2000. I have provided one authorisation within my area of responsibility in the last 12 months involving co-operation and training to Libya. This related to an approval under Section 8 for a serving member of the Police Service of Northern Ireland to provide training to the Libyan Police. This approval followed a request from the National Police Improvement Agency for the assistance of the PSNI, and in response to the Northern Ireland Policing Board who supported this request. The assistance involved the delivery of three weeks tactical command training in January 2009 as part of a Foreign and Commonwealth Office sponsored programme of work designed to help Libya meet their human rights obligations by fostering policing techniques that meet international standards.

Northern Ireland Independent Monitoring Board

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to introduce a code of practice for the Independent Monitoring Board. [293652]

Paul Goggins: A code of conduct for the Independent Monitoring Board was agreed by the Council of Independent Monitoring Boards in Northern Ireland on 26 November 2008.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he plans to take to assist self-employed people to participate fully in the operation of the Independent Monitoring Board. [293662]

Paul Goggins: Vacancies on Independent Monitoring Boards are publicly advertised to encourage anyone who is interested in serving as a member of the IMB on a voluntary basis, regardless of employment status, to consider applying where they can give the required time commitment.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Dai Davies: To ask the Secretary of State for Defence what items of military equipment British forces in Afghanistan have *(a)* borrowed from and *(b)* lent to other coalition forces. [293622]

Mr. Bob Ainsworth: As part of a 42 country coalition in Afghanistan, the United Kingdom has agreements in place with the majority of members. These agreements include the capability to loan and borrow equipment. I am withholding the details of these activities as its disclosure would or would be likely to prejudice relations between the United Kingdom and other participating states.

Andrew Rosindell: To ask the Secretary of State for Defence how many *(a)* armoured personnel carriers and *(b)* tanks have been deployed in Afghanistan in each month since January 2006. [293792]

Bill Rammell: There have been no tanks deployed in Afghanistan. I am withholding the information about the number of armoured personnel carriers deployed in Afghanistan as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Navy personnel have been stationed in Afghanistan in the last 18 months. [293819]

Bill Rammell: The number of UK service personnel in Afghanistan fluctuates on a daily basis but as at 1 October 2009, approximately 5,030 Royal Naval personnel have been identified as having deployed to Afghanistan in the last 18 months.

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Air Force personnel have been stationed in Afghanistan in the last 18 months. [293837]

Bill Rammell: The number of UK service personnel in Afghanistan fluctuates on a daily basis but as at 1 October 2009, approximately 7,870 Royal Air Force personnel have been identified as having deployed to Afghanistan in the last 18 months.

Armed Forces: Christmas Deliveries

John Mann: To ask the Secretary of State for Defence what arrangements his Department has put in place to ensure Christmas deliveries to members of the armed forces serving in Afghanistan. [294113]

Mr. Bob Ainsworth: The Ministry of Defence will be making all possible efforts to ensure deliveries of Christmas mail to members of the armed forces serving in Afghanistan. Additional aircraft will be chartered as necessary to transport mail to theatre and there will be increased resources dedicated to mail movement within Afghanistan.

We also have plans to mitigate the impact of any industrial action by the Communications Workers Union; however, prolonged industrial action will inevitably impact on mail deliveries to armed forces.

We are also doing all we can to channel the public's generosity away from unsolicited parcels which have the ability to overload the system and cause delays for mail from families.

Armed Forces: Food

Willie Rennie: To ask the Secretary of State for Defence what proportion of *(a)* all food, *(b)* beef and *(c)* lamb supplied to UK forces based in (i) the UK, (ii) Germany, (iii) Iraq and (iv) Afghanistan was sourced from UK producers in the latest period for which figures are available. [294064]

Mr. Kevan Jones: The information is not held in the format requested. However, a report on the proportion of domestically produced food used by Government Departments, and also supplied to hospitals and prisons under contracts negotiated by NHS Supply Chain and HM Prison Service, was published in November 2008, covering the year from 1 April 2007 to 31 March 2008. This report, and the first one covering the previous year, can be found at the following link:

http://www.defra.gov.uk/farm/policy/sustain/procurement/awareness.htm

Overall, the proportion of domestically produced food procured by MOD has increased from 43 per cent. in 2006-07 to 59 per cent. in 2007-08.

The third report of this nature will be published in November 2009, and will demonstrate the work being undertaken to find opportunities to source British products, while working within the legal framework governing public procurement.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence how many service families have been placed by Modern Housing Solutions in *(a)* Premier Travel Inns and *(b)* other hotels in each year since 2005; and if he will make a statement. [294042]

Mr. Kevan Jones: For information related to 2005 to June 2007, the hon. Member is referred to the answer given by my predecessor on 26 July 2007, *Official Report*, column 1246W, to the hon. Member for North Devon (Nick Harvey).

Information on the number of service families placed in Premier Travel Inns or other hotels between July 2007 and today is not held centrally. I will therefore write to the hon. Member with the information requested once it has been collated.

Willie Rennie: To ask the Secretary of State for Defence what proportion of service families' accommodation was deemed uninhabitable in each year since 2004. [294043]

Mr. Kevan Jones: We do not use the term 'uninhabitable'. Sometimes properties are unable to be occupied for various reasons including demolition or major refurbishment. Our records do not separately identify such properties from other unoccupied Service Family Accommodation (SFA).

All currently occupied SFA is recorded as being of a habitable standard.

Willie Rennie: To ask the Secretary of State for Defence how much was spent on substitute services accommodation in each year since 2004. [294044]

Mr. Kevan Jones: The Department is required to accommodate entitled service personnel within 10 miles of their duty station (or 20 miles with permission of their Service Commander). When no Service Family Accommodation (SFA) is available within this area, service families may be offered Substitute SFA (SSFA), which personnel are entitled to retain for the duration of their tour, to avoid disruption to family life.

Substitute Single Service Accommodation (SSSA) is granted to entitled single personnel when Single Living Accommodation (SLA) is not available at or close to their duty station.

The amount spent on SSFA and SSSA in each year since 2004 is as follows:

£ million

	SSSA	*SSFA*	*Total*
2004	32.9	11.0	43.9
2005	36.8	13.0	49.8
2006	40.5	15.0	55.5
2007	44.5	14.6	59.1
2008	50.9	17.4	68.3
2009 (to date)	44.0	17.0	61.0

Armed Forces: Postal Services

Mr. Laurence Robertson: To ask the Secretary of State for Defence what plans he has for the future of the British Forces Postal System; and if he will make a statement. [293671]

Mr. Kevan Jones: The information was published in Defence Internal Brief, Serial 2009DIB/37 dated 6 October 2009, copies of which are available in the Library of the House.

Armed Forces: Rehabilitation

Andrew Rosindell: To ask the Secretary of State for Defence how much his Department spent on rehabilitation for wounded soldiers in each of the last 12 months. [293795]

Mr. Kevan Jones: The Defence Medical Services manage a widespread armed forces rehabilitation network that has some 180 Primary Care Rehabilitation Facilities and 15 Regional Rehabilitation Units (RRUs) as well as the flagship Defence Medical Rehabilitation Centre at Headley Court in Surrey. Patients from all the armed services requiring rehabilitation are treated at the facility and location that is most appropriate.

The annual running costs of Headley Court are approximately £13.5 million. Responsibility for the individual management of the primary care and RRU facilities is shared between the single service commands, with oversight from the Joint Medical Command. However, each service funds its respective RRUs differently. Owing to the number of different internal budgets to which costs would be attributable, any detailed analysis of local rehabilitation expenditure would therefore incur disproportionate costs.

Where an individual requires specialist rehabilitation services or equipment that can best be provided by a non-MOD organisation (such as some aspects of neurological rehabilitation and specialised prosthetics) this will be arranged at additional cost. In the financial year 2008-09, about £1.6 million was spent on such services by the Joint Medical Command.

Colombia: Military Aid

Mr. Rooney: To ask the Secretary of State for Defence (1) whether his Department has refused to provide assistance to any *(a)* individuals and *(b)* units of the Colombian security forces on human rights grounds in the last five years; [293604]

(2) which official in his Department is responsible for monitoring the human rights performance of members of the Colombian security forces who have received training or other assistance from the United Kingdom. [293613]

Bill Rammell *[holding answer 16 October 2009]:* I refer the hon. Member to the answer given by the then Parliamentary Under-Secretary of State, Foreign and Commonwealth Office, my hon. Friend the Member for Lincoln (Gillian Merron) on 12 March 2009, *Official Report*, column 621W, to the hon. Member for Aylesbury (Mr. Lidington).

Mr. Rooney: To ask the Secretary of State for Defence how many Colombian security forces personnel have received United Kingdom counter-narcotics assistance in each of the last five years. [293614]

Bill Rammell *[holding answer 16 October 2009]:* I refer the hon. Member to the answer my predecessor gave on 14 January 2009, *Official Report*, column 737W, to the hon. Member for Bridgend (Mrs. Moon).

Cyprus

Mr. Dismore: To ask the Secretary of State for Defence which UK units are deployed as part of the United Nations Peacekeeping Force in Cyprus; which units will replace them on the next rotation; and if he will make a statement. [293731]

Mr. Kevan Jones: The 27 Regiment Royal Logistics Corps are currently deployed as part of the United Nations Peacekeeping Force in Cyprus. They will be replaced, in April 2010, by a Territorial Army unit from 2 Division and 40 Signal Regiment. Based on current plans, the units will rotate every six months between Regular units and Territorial Army units.

Mr. Dismore: To ask the Secretary of State for Defence what the strength is of the UK contingent in the United Nations Peacekeeping Force (UNFICYP) in Cyprus; what the cost was of the UK UNFICYP contingent in the latest year for which figures are available; and how much of that cost is to be reimbursed from each source of reimbursement. [293737]

Mr. Kevan Jones: As at 16 October 2009 there were 288 personnel deployed on Operation TOSCA, the UK contribution to UNFICYP. The cost for this deployment in the financial year 2008-09 was £16 million; charged to the tri-departmental (FCO, MOD and DfiD) peacekeeping budget, of which we expect around £2.5 million will be reimbursed by the United Nations.

Mr. Dismore: To ask the Secretary of State for Defence what progress has been made in the refurbishment of the Ledra Palace to provide better accommodation to the UK United Nations Peacekeeping Force in Cyprus contingent; who paid for that work; what the cost of that work has been; and if he will make a statement. [293739]

Mr. Kevan Jones: The renovation and refurbishment of the Ledra Palace Hotel continues as part of an agreed three year programme between 2007 and 2010 between the Republic of Cyprus and the UN. All work on the external fabric of the building is complete providing a watertight structure. All roofs have now been repaired and/or replaced, the fire detection and alarm systems have been installed, asbestos removal in the boiler rooms and cellars is complete, the floor covering in the gymnasium has been replaced and the ration store refurbished. The recommissioning of rooms in the west wing is complete and a total of 35 rooms have been handed over to the UN Forces in Cyprus (UNFICYP). In addition to this the renovation of the Ledra Palace Hotel Medical Centre is nearing completion.

There is no direct cost to the UK for this work. The work is being carried out by the Republic of Cyprus in an arrangement with the United Nations and we do not have visibility of the associated costs.

Cyprus: Armed Forces

Andrew Rosindell: To ask the Secretary of State for Defence how many British servicemen are stationed at the British Sovereign Base Areas of Akrotiri and Dhekelia. [293453]

Bill Rammell: As at 1 September 2009 there were 2,550 UK service personnel stationed in the Sovereign Base Areas in Cyprus.

This figure has been rounded to the nearest 50 in order to provide a meaningful level of detail as there are constant service personnel movements in and out of the Sovereign Base Areas in Cyprus.

Cyprus: Military Aircraft

Andrew Rosindell: To ask the Secretary of State for Defence how many fixed wing aircraft of each type are stationed at the British Sovereign Base Areas of Akrotiri and Dhekelia. [293452]

Bill Rammell: There are no fixed wing aircraft stationed in the British Sovereign Base Areas in Cyprus. RAF Akrotiri does however routinely support movements of fixed wing assets through Akrotiri as part of its role as a forward mounting base for current operations.

Departmental Manpower

Mr. Carmichael: To ask the Secretary of State for Defence how many people are employed on a *(a)* full-time and *(b)* part-time basis at each of his Department's bases in Scotland [294105]

Mr. Kevan Jones: Validated figures below the local authority level have not been compiled and can not be supplied without incurring disproportionate cost.

The table shows the number of civilian personnel in Scotland as at 1 July 2009, broken down by local authority, and full and part-time status.

			Headcount
	Total	*Full-time*	*Part-time*
Scotland	5,980	5,500	480
Aberdeen City	80	80	[1]—
Aberdeenshire	30	30	[1]—
Angus	60	50	[1]—

			Headcount
	Total	*Full-time*	*Part-time*
West Lothian	[1]—	[1]—	—

[1] Denotes frequency of five or less.

Notes:

1. Table includes all civilian personnel employed in MOD Core TLBs and trading funds. Figures exclude RFAs and LECs for which location data are not held centrally.

2. Numbers are rounded to the nearest 10. Numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias. Because of rounding, totals may not always equal to the sum of the parts.

Source:

DASA (Quad-Service)

The following table shows the number of military personnel (UK regular forces) in Scotland as at 1 July 2009, broken down by local/unitary authority. UK regular forces includes all trained and untrained personnel. Gurkhas, full-time reserve personnel, and mobilised reservists are excluded.

UK regular forces

	Number
Scotland	11,950
Aberdeen City	20
Aberdeenshire	20
Angus	900
Argyll and Bute	2,980
Clackmannanshire	—
Dumfries and Galloway	—

West Dunbartonshire	—
West Lothian	—

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Defence what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293231]

Bill Rammell: The majority, approximately 95 per cent., of MOD's contracts with supplier companies are managed through the MOD's central contract processes. When a new contract is placed under this system, a commercial officer is required to identify whether the company is a small and medium enterprise (SME). Within the contracts system, an SME is defined as a company with less than 250 employees. The MOD central contracts database shows the percentages of new contracts let where the company has been identified as an SME. This information is provided as follows:

	Percentage of procurement contracts awarded to SME
2006-07	46
2007-08	46
2008-09	48
2009-10[1]	46

[1] Six months.

Contracts for which the SME information is incomplete have been excluded, and this currently comprises approximately 4 per cent. of contracts let.

The Ministry of Defence is working with the Office of Government Commerce and other Departments to implement the recommendations of the Glover report in regard to increasing SME participation in public procurement.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Defence how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293330]

Mr. Kevan Jones: The information requested for 2006-07 and 2007-08 is not held centrally and could be provided only at disproportionate cost. With the introduction of the Defence Travel (DT) in 2008, however, visibility of rail bookings can now be captured. Rail booking is processed through an online booking tool or offline through a Travel Management Company, Hogg Robinson Group (HRG). The spend for FY 2008-09 on 1st class travel through DT was £6.497 million. This figure does not include rail warrants (which were not withdrawn until 30 April 2009) or short notice travellers paying at ticket offices and reclaiming the cost.

The entitlement to first class travel is laid down in Joint Service Publication 800, Defence Movements and Transportation Regulations. The class of rail travel in UK Mainland is based on rank or, for civil servants, grade. Officers and civil servants who are Lt Cdr, Major, Sqn Ldr, pay band C2 and above are entitled to first class travel at public expense. This includes acting rank. Standard class passengers travelling with entitled officers for essential duty reasons may also travel first class.

Elizabeth Cross

Andrew Rosindell: To ask the Secretary of State for Defence (1) how many Elizabeth Crosses have been awarded to families of service personnel; [293826]

(2) what estimate he has made of the number of recommendations for the award of the Elizabeth Cross to be made in the next nine months. [293828]

Mr. Kevan Jones: Since August this year, a total of 292 Queen Elizabeth Crosses and Memorial Scrolls have been issued to the eligible Next Of Kin (NOK) of deceased service personnel who have died on operations, or as a result of an act of terrorism since 1 January 1948. A further 406 awards have been prepared for presentation to eligible NOK at organised events.

It is estimated that there are currently 8,000 eligible NOK, although it is not possible for the Ministry of Defence to determine how many retrospective or future recommendations for the award of the Elizabeth Cross and Memorial Scroll will be made within the next nine months.

Falkland Islands: Military Aircraft

Andrew Rosindell: To ask the Secretary of State for Defence how many fixed wing aircraft of each type are stationed in the Falkland Islands. [293455]

Bill Rammell: The following fixed wing aircraft types and numbers are currently based at Mount Pleasant Airfield in the Falklands:

	Number
Typhoon	4
Hercules C-130	1
VC10	1

Indian Ocean: Military Aircraft

Andrew Rosindell: To ask the Secretary of State for Defence what fixed-wing Royal Air Force aircraft are deployed in the Indian Ocean. [293831]

Bill Rammell: There are no UK fixed wing aircraft stationed in the British Indian Ocean Territory.

Israel: Military Aid

Clare Short: To ask the Secretary of State for Defence what recent meetings have taken place between senior members of the UK armed forces and representatives of the Israeli Defence Force; what the purpose of each meeting was; and who attended each meeting. [293630]

Mr. Bob Ainsworth *[holding answer 16 October 2009]*: There has been one such meeting: the Chief of the Defence Staff visited Israel in Sep 09. He met with his Israeli counterpart Gen Ashkenazi and other senior members of the Israeli military. He also went to the Occupied Palestinian Territories and met with senior Palestinians including the Minister of the Interior and the President's Chief of Staff. The purpose of his visit was in support of the middle east peace process.

Military Aircraft: Helicopters

Mr. Hancock: To ask the Secretary of State for Defence what steps his Department is taking to recruit, train and retain pilots for *(a)* Merlin and *(b)* Chinook helicopters. [292326]

Mr. Kevan Jones: I refer the hon. Member to the answer I gave on 12 October 2009, *Official Report*, column 430W, to the hon. Member for Romford (Andrew Rosindell).

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 16 July 2009, *Official Report*, columns 589-90W, on military aircraft, what plans his Department has to meet the required pilot strength in the Merlin and Chinook forces. [292337]

Bill Rammell: Required and actual strengths will both vary with time due to many factors including operational requirements, the introduction of newly trained crew on completion of training courses at set times during the year, the number of trained personnel assigned to non-flying duties (as part of the necessary broader career development), injuries, and service leavers. The helicopter fleet is managed to ensure that our operational and other commitments are met.

The RAF and Royal Navy are recruiting and training sufficient personnel to ensure that the Defence Helicopter Flying School (DHFS) rotary wing training pipeline is fully stocked with trainee pilots for both Merlin and Chinook forces.

Military Aircraft: Northern Ireland

Andrew Rosindell: To ask the Secretary of State for Defence what fixed-wing Royal Air Force aircraft are stationed in Northern Ireland. [293830]

Bill Rammell: Two Grob Vigilant Tl aircraft operated by 664 Volunteer Gliding Squadron at Newtownards airfield are the only Royal Air Force fixed-wing aircraft stationed in Northern Ireland.

Military Decorations: Expenditure

Andrew Rosindell: To ask the Secretary of State for Defence how much his Department spent on medals for service personnel in each of the last 10 years. [293793]

Mr. Kevan Jones: Figures are only available for the last four years since the separate services medal offices joined to become the Ministry of Defence Medal Office.

The actual cost of purchasing medals is provided in the table.

	Cost of medals (£ million)
2005-06	2.35
2006-07	2.49
2007-08	1.73
2008-09	1.58

Military Decorations: Fife

Sir Menzies Campbell: To ask the Secretary of State for Defence how many veterans' badges have been issued to residents of *(a)* Fife and *(b)* North East Fife constituency; and how many of those were awarded to widows or widowers of former service personnel. [293979]

Mr. Kevan Jones: This information is not held in the format that identifies how many veterans' badges have been issued to residents of Fife and North East Fife constituency and could be provided only at disproportionate cost. We have, however, identified that a total of 3,415 veterans' badges have been issued to residents who have included Fife as part of their address.

Navy: Festivals and Special Occasions

Andrew Rosindell: To ask the Secretary of State for Defence what the cost to his Department was of hosting Navy Days 2009; how many people visited each event; and which Ministers from his Department were present at each event. [293825]

Mr. Kevan Jones: The Navy Days 2009 event was held at HM Naval Base Devonport over two days on 5 and 6 September 2009. As the final accounts have yet to be ratified, the exact cost for hosting the event is not yet available. The indicative expenditure is, however, approximately £300,000 with a marginal surplus generated as income through, for example, ticket sales, brochure sales, advertising and sponsorship. As such, the event ran at zero net cost to the Department.

Based on advance ticket sales and those purchased at the gate, in excess of 20,000 people attended the event over the two days. Both my hon. Friend the Minister for the Armed Forces and I were invited. Unfortunately, however, neither of us were able to attend.

Nepal: Helicopters

Clare Short: To ask the Secretary of State for Defence pursuant to the answer of 9 September 2009, *Official Report*, column 2000W, on helicopters: Nepal, whether the Government has made any representations to the government of Nepal as a result of the investigation. [293750]

Mr. Bob Ainsworth *[holding answer 16 October 2009]:* The UK Ministry of Defence has written to the Nepalese Defence Minister informing Nepal of the conclusion of the investigation.

Clare Short: To ask the Secretary of State for Defence pursuant to the answer of 9 September 2009, *Official Report*, column 2000W, on helicopters: Nepal, what concerns prompted the establishment of the inquiry into the gifting of two helicopters to the Royal Nepal Army in 2002. [293751]

Mr. Bob Ainsworth *[holding answer 16 October 2009]:* Concerns over the airworthiness of the aircraft were raised by the Royal Nepalese Army during servicing of one of the aircraft. These concerns prompted the investigation into the procurement of the two aircraft and the use of UK Government funds.

Clare Short: To ask the Secretary of State for Defence pursuant to the answer of 9 September 2009, *Official Report*, column 2000W, on helicopters: Nepal, what the cost to the public purse was of each helicopter gifted to the Royal Nepal Army; and what the purchase price of a new model M1-17 helicopter was at the time the gift was made. [293752]

Mr. Bob Ainsworth *[holding answer 16 October 2009]:* The total cost for the two gifted helicopters was £2.5 million, £1.25 million per aircraft.

Information on the purchase price of a new helicopter at the time the gift was made is not held centrally and could be provided only at disproportionate cost.

Nuclear Submarines: Decommissioning

Mr. Dai Davies: To ask the Secretary of State for Defence who the advisers are to his Department's interim storage of laid-up submarines (ISOLUS) programme; for what reason *(a)* Dr. Jane Hunt and *(b)* Dr. Bill Thompson are no longer advisers to the programme; how many participants in the programme have left it since the departure of Dr. Hunt and Dr. Thompson; and how much is being spent on the ISOLUS programme in 2009-10. [293623]

Bill Rammell: The Submarine Dismantling Project (SDP—formerly the ISOLUS project) Advisory Group provides independent scrutiny and advice to the MOD on SDP activities and plans. There are 25 non-MOD members, who represent a range of organisations, covering inter alia industry, academia, regulatory bodies and non-governmental organisations.

A full list of the members of the SDP Advisory Group can be found on the SDP website:

http://www.submarinedismantling.co.uk/ConsultationIAG.html

Drs. Hunt and Thompson were employed under a contract to Lancaster university to provide communications support to the project. On the expiry of that contract in March 2009, a new contractor was employed following an open competition. Lancaster university did not bid for that contract. Following a subsequent review of the group's membership, it was assessed by the MOD that the two individuals' skills were duplicated elsewhere within the group. It was therefore decided that their continued membership was not necessary and, as members' attendance is funded by the MOD, did not represent good value for taxpayers' money.

Since the departure of Drs. Hunt and Thompson in August 2009, two other members of the group have tendered their resignations.

The current forecast spend on SDP in financial year 2009-10 is £3.9 million.

Party Conferences

Mr. Don Foster: To ask the Secretary of State for Defence whether any of his Department's non-departmental public bodies sent representatives to attend one or more political party conferences in 2009. [293473]

Mr. Bob Ainsworth: None of the Ministry of Defence's Executive, Advisory or Independent Monitoring Board non-departmental public bodies sent representatives to any of the political party conferences in 2009.

Royal Regiment of Scotland: Manpower

Angus Robertson: To ask the Secretary of State for Defence what the *(a)* trained, *(b)* actual strength and *(c)* numbers fit for duty requirement is for each (i) regular and (ii) territorial infantry battalion of the Royal Regiment of Scotland. [293428]

Bill Rammell: Infantry manning deficits have been reduced markedly and the situation continues to improve fast due to a number of factors including the introduction of exceptional action measures, financial incentives, improved marketing and the current economic situation. However, the strength of individual battalions will tend to fluctuate naturally over time, according to their planned duties.

"Trained Requirement" has been interpreted as the maximum number of trained posts in a battalion's peace time configuration.

"Actual strength" has been interpreted as the number of personnel assigned to a battalion for its planned duties. It will also include augmentees who are temporarily assigned if needed to support the role of the battalion, for operational military tasks and events that cannot be achieved within required strengths. Similarly, the figures exclude those assigned out of the battalion to augment other units.

"Fit for duty" has been interpreted as fit for primary role, including personnel listed as having limited deploy ability, plus personnel who are unfit for deployment but who can perform a role in an alternative capacity. The difference between the actual strength and number fit for duty represents those who are medically non-effective and therefore unfit for any form of duty.

As at 1 October 2009, the figures for Royal Regiment of Scotland regular battalions are provided in the following table.

Battalion	*Trained requirement*	*Actual strength*	*Scots*
1 Scots	630	556	554
2 Scots	627	518	515
3 Scots	630	625	614
4 Scots	686	584	583
5 Scots	650	542	540

As at 1 October 2009, the figures for Royal Regiment of Scotland Territorial Army battalions are provided in the following table.

Battalion	*Trained requirement*	*Actual strength*	*SCOTS*
6 SCOTS	430	270	n/a
7 SCOTS	500	360	n/a

n/a = not available.

Data concerning fit for duty personnel are not collected for the Territorial Army.

Service Complaints Commissioner

Lembit Öpik: To ask the Secretary of State for Defence what changes have been made to the location of offices of the Service Complaints Commissioner for the Armed Forces in the last 12 months; and if he will make a statement. [294188]

Mr. Kevan Jones: The Service Complaints Commissioner has been in her independent external office (Victoria Street, London, SWI) since July 2008. We have secured an additional office within that building to accommodate recent increases in support staff and equipment.

Somalia: Armed Conflict

Mr. Wallace: To ask the Secretary of State for Defence what British military assistance has been provided for operations in Somalia; and if he will make a statement. [293164]

Bill Rammell: The UK armed forces have provided a colonel to the UN political office in Somalia, which is attempting to co-ordinate international policy towards Somalia, and in so doing works closely with Africa Union Mission in Somalia (AMISOM), which directly supports the stand up of the Transitional Federal Government in Mogadishu.

We are working comprehensively with other Whitehall Departments on a broad Somalia strategy. In line with this, we are providing training and support to Uganda and Burundi who are providing troops for AMISOM, and are working to build the capability of the Somaliland Coastguard. We are also engaged with international partners, including through the international Contact Group on piracy off the coast of Somalia, to deliver regional capability building projects.

Furthermore, we are currently at the forefront of three international counter-piracy operations off the coast of Somalia: the EU Operation Atalanta; the NATO Operation Ocean Shield; and the coalition Combined Task Force 151.

Territorial Army: Medals

Mr. Lancaster: To ask the Secretary of State for Defence if he will reduce the requirement for members of the Territorial Army to have qualified for bounty from nine out of 10 years to eight out of 10 years for applications for the Volunteer Reserve Service Medal. [293128]

Bill Rammell: There are currently no plans to amend the eligibility criteria for the Volunteer Reserve Service Medal. To receive this award, reserve forces men and women, regardless of rank, must be certified efficient, as required by their obligatory training commitment defined in individual service regulations.

Trident

Joan Walley: To ask the Secretary of State for Defence what his estimate is of *(a)* the cost and *(b)* the length of time it would take to decommission Trident and its facilities; and if he will make a statement. [289768]

Mr. Bob Ainsworth: When nuclear submarines leave the naval service, they will be subject to a process known as Defuel, De-equip and Lay-up Preparation, which will involve spent nuclear materials being removed for storage at Sellafield, and any remaining irradiated material being secured within the reactor compartment. In line with current practice for other submarines now leaving service, the submarines themselves will then be stored afloat at either Devonport or Rosyth, pending final disposal.

The submarines will then be dismantled, a process that will take approximately 12 months. The current budget for this process (known as the Submarine Dismantling Project) is some £1.5 billion. This covers the dismantling of 27 nuclear submarines from HMS Dreadnought through to HMS Vengeance, the 4th boat in the current nuclear deterrent fleet. At present costs of decommissioning cannot be broken down by class.

Faslane and other facilities associated with the submarine flotilla will remain in service to support the future deterrent and the Astute class submarine. There are no plans for decommissioning these facilities.

Type 42 Destroyers

Andrew Rosindell: To ask the Secretary of State for Defence what official visits he has made to Type 42 destroyers in the last 12 months. [293815]

Mr. Bob Ainsworth: None.

JUSTICE

Counter-Terrorism

Mr. Sanders: To ask the Secretary of State for Justice if he will make an assessment of the potential impact of implementation of the UN Convention for the Protection of All Persons from Enforced Disappearance on British counter-terrorism policy. [293124]

Mr. Wills: The Government support the International Convention and believe that it will have an important role in preventing enforced disappearance and secret detention in the future. The UK played an active part in the negotiations prior to the drafting of the convention and supported its adoption in 2008 at the UN Human Rights Council and the UN General Assembly.

The UK is prepared to give its signature to treaties only when it has a clear intention to ratify within a reasonable timescale. The Government are conscious of the potentially significant impact of the convention in the domestic context, and we are therefore continuing our detailed assessment of the provisions of the convention and their effect across all areas of UK law and policy.

In particular, we are analysing the extent to which common law provisions may need to be replicated in statute law; whether any new criminal offences would need to be introduced; and whether the UK would enter any reservations or declarations on ratification.

Ratification will require primary legislation to facilitate changes to domestic law and the introduction of such primary legislation will depend on securing parliamentary time. The complexity of the issues still under consideration means that we are not setting a deadline for completion of our analysis, but work is being progressed as rapidly as possible.

Departmental Dismissal

Justine Greening: To ask the Secretary of State for Justice how many staff have *(a)* been dismissed and *(b)* had their contract terminated by his Department in each of the last five years; what the primary reason was in each case; and what the severance costs in relation to (i) dismissal and (ii) contract termination were in each such year. [290250]

Mr. Straw: The number of staff dismissed and who have had their contracts terminated over the last five years together with the reason for dismissal is shown in the following table. The figures given over this period represent the Ministry of Justice (from May 2007) and its predecessor organisations.

Reason for dismissal	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Dismissal for inefficiency during probation	33	48	49	10	11
Dismissal on disciplinary grounds	143	173	224	318	186
Dismissal for inefficiency	212	235	263	227	322
End of conditional appointment (failed pre-employment checks)	0	0	0	2	3
End of fixed term contract	199	886	673	701	641
Voluntary early severance on compulsory terms	2	6	27	81	36
Voluntary early severance on flexible terms	0	0	5	39	0
Grand total	589	1,348	1,241	1,378	1,199

The number of dismissals as a proportion of the Ministry's work force (based on headcount) is 1.73 per cent. for 2007-08 and 1.48 per cent. for 2008-09.

The costs associated with these dismissals and contract terminations are not recorded centrally. In the last five years, there have been no compulsory redundancies. The severance costs related to voluntary early departures (as a result of re-organisations and restructurings) are not distinguishable from the costs of other types of dismissal, for example, compromise agreements. A manual check of each individual file would need to be undertaken to establish these figures, and this would incur disproportionate cost.

Departmental Pay

Justine Greening: To ask the Secretary of State for Justice what employee reward schemes are offered to staff of his Department; what the primary purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290254]

Mr. Straw: The Ministry of Justice reward schemes exist to provide employees with remuneration relevant to their work. These schemes cover:

Basic pay (and allowances where appropriate);

Non-consolidated performance pay; and

Flexible benefits.

Arrangements for basic and non-consolidated performance pay for senior civil servants (SCS) are based on recommendations made by the Independent Senior Salaries Review Body. Reward arrangements for grades below the SCS are delegated to Departments. In the Ministry of Justice (MOJ) there are separate reward schemes in place for staff in grades below the SCS working in National Offender Management Service (NOMS) and the rest of the Ministry.

Ministry of Justice (excluding NOMS)

The following table provides details of the cost of administering basic pay, allowances and non-consolidated performance pay schemes and the number of staff participating in them. The costs cover the period where there has been machinery of Government changes. The costs are associated with the Department of Constitutional Affairs from 1 April 2004 to 30 April 2007 and the Ministry of Justice since May 2007.

	Staff participating	*Cost of operating the reward system (£)*
2008-09	27,808	2,668,900
2007-08	27,581	2,553,465
2006-07	28,163	3,429,364
2005-06	24,309	3,116,358
2004-05	12,687	n/a

n/a = Not available.

Notes:

1. The data for 2004-05 reflects staff employed (and subject to the pay award) by the former DCA prior to the Magistrates Courts Service (MCS) becoming part of the DCA on 1 April 2005.

2. The increase in 2005 reflects the increase subsequent to the merger with the Magistrates Courts Service and the machinery of government changes which led to the establishment of the Tribunals Service on 1 April 2006.

3. Totals include all SCS staff subject to pay determination by the MOJ including sister Departments. Payroll services for basic and non-consolidated performance pay and allowances is provided by an outsourced payroll provider.

Flexible benefits schemes enable staff to exercise a degree of choice in respect of the way they are rewarded within the limits of their overall reward package. The following table contains information about participation in these arrangements in the MOJ since the schemes introduction in 2007.

Scheme	*Number of Staff who have participated in this since its introduction in 2007*
Salary Sacrifice Scheme for Childcare Vouchers	504
Salary Sacrifice Scheme for bicycles and cycles safety equipment	78
Voluntary Benefits	9,060
Buying and Selling Annual Leave	1,173

The non-payroll costs for the administration associated with the schemes above since their introduction in 2007 is £210,000.

The National Offender Management Agency (NOMS)

Details of the number of staff participating in the NOMS reward arrangements are contained in the following table.

	Staff participating[1]
2008-09	52,956
2007-08	51,239
2006-07	49,571
2005-06	48,874
2004-05	48,848

[1] Data relates to staff employed in HM Prison Service. Staff employed by the national probation service are paid by their local probation board.

The NOMS Agency also offers the following flexible benefits:

Work Life Balance working patterns;

Salary Sacrifice scheme for Childcare; and

Season ticket and bicycle loan schemes

The cost of administration of the pay and reward arrangements for NOMS over the last five years are not centrally recorded. The information can be obtained only at a disproportionate cost.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Justice what percentage of procurement contracts *(a)* his Department and its predecessor and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293235]

Mr. Wills: At present the size (number of people) and status of businesses is not information that is captured as standard when contracts are awarded to suppliers. To obtain the relevant information would incur disproportionate cost.

Injunctions

Paul Farrelly: To ask the Secretary of State for Justice (1) what assessment he has made of the effectiveness of legislation to protect *(a)* whistleblowers and *(b)* press freedom following the injunctions obtained in the High Court by (i) Barclays and Freshfields solicitors on 19 March 2009 on the publication of internal Barclays reports documenting alleged tax avoidance schemes and (ii) Trafigura and Carter Ruck solicitors on 11 September 2009 on the publication of the Minton report on the alleged dumping of toxic waste in the Ivory Coast, commissioned by Trafigura; [293006]

(2) what assessment he has made of the implications of the Court of Appeal judgment in May 2009 in the case of Michael Napier and Irwin Mitchell *v.* Pressdram Limited in respect of press freedom to report proceedings in court. [292409]

Mr. Straw: The issues raised by this and other similar cases are important and deserve to be properly explored. I intend to look into the issues raised and am ready to discuss them with my hon. Friend and any other hon. Member concerned. A meeting with representatives of the national press, senior officials of my Ministry has already been arranged.

Paul Farrelly: To ask the Secretary of State for Justice what mechanisms HM Courts Service uses to draw up rosters of duty judges for the purpose of considering time of the essence applications for the issuing of injunctions by the High Court. [293013]

Mr. Straw: All High Court judges are required to act from time to time as duty judges for the purpose of dealing with urgent court business, such as applications to issue injunctions. Separate rosters are maintained for the Chancery, Family and Queens Bench Divisions but in each case these provide for a High Court judge being available to deal with such matters for 24 hours a day and on every day of the year.

Lancaster Farms Young Offender Institution

Mr. Wallace: To ask the Secretary of State for Justice whether he has any plans to *(a)* market test and *(b)* contract out HM Young Offender Institution Lancaster Farms in the next 12 months. [293160]

Maria Eagle: There are currently no plans either to market test, or to contract out HM Young Offenders Institution Lancaster Farms.

Magistrates Courts: Working Hours

Paul Holmes: To ask the Secretary of State for Justice which magistrate courts are planned to *(a)* close and *(b)* reduce their sitting hours in the next two years. [293760]

Bridget Prentice: On 13 October 2009, *Official Report*, columns 24-25WS, my right hon. Friend the Lord Chancellor and Secretary of State for Justice made a written ministerial statement to the House announcing the launch of 20 consultation exercises for magistrates courts closures. These courts are underutilised and in many cases their facilities for court users, including victims and witnesses, are inadequate. The Lord Chancellor will make a decision whether to close a court after considering the responses to consultations.

HMCS regularly reviews the use and condition of its estate. Where there is an underutilised court and alternative facilities within a reasonable travelling distance we will consider holding consultations to seek views; on whether to close a court.

HMCS must keep the level of magistrates courts sitting commensurate to the amount of work—local management decisions, involving local judiciary, including magistrates, and staff will be taken regularly to ensure that that is the case.

Prison Accommodation

Simon Hughes: To ask the Secretary of State for Justice how many prison cells have been built in England and Wales in each year since 1997; and at what cost in each such year. [293140]

Mr. Straw: We do not record capacity provision by the number of cells built (which can be single or double cells) but rather by prison places.

The following table shows the number of new prison places built since 1997 and the average capital building cost per place, including ancillary costs.

	Number of places[1]	*Average capital building cost per place*[2]
1997-98	4,716	60,000
1998-99	1,222	67,000
1999-2000	1,646	65,000
2000-01	640	61,000
2001-02	920	79,000
2002-03	1,780	57,000
2003-04	1,376	77,000
2004-05	2,570	100,000
2005-06	940	119,000
2006-07	180	150,000
2007-08	2,111	152,000
2008-09	1,882	142,000

[1] The number of new places does not take into account any places provided through crowding, or any places that have been taken out of use.

[2] The costs shown only cover the capital building costs of each new place. No adjustment has been made for inflation.

Probation: North West

Andrew Stunell: To ask the Secretary of State for Justice how many Probation Service staff there were in each probation area in the north-west in each of the last five years; and what the ratio of offenders to Probation Service staff was in each case. [291310]

Mr. Straw: Over the five-year period, funding for Probation across England and Wales has increased overall by 32.2 per cent., with the number of qualified probation officers increasing by 4.4 per cent. In the north-west region, funding has increased by 16.2 per cent., with the number of qualified probation officers increasing by 4.3 per cent. The total number of staff in each probation area in the north-west region is shown in the following table, together with the ratio to offenders.

Ratio of offenders to probation staff in the north-west

Staff in post figures shown as full time equivalents

		2004[2]	*2005*[2]	*2006*[1]	*2007*[1]	*2008*[2]
Cheshire	Staff in post[3]	346	376	379	366	368
	Ratio—offenders:staff[4]	8.0:1	8.7:1	9.9:1	10.2:1	10.5:1
Cumbria	Staff in post[3]	173	190	198	196	176
	Ratio—offenders:staff[4]	11.1:1	9.9:1	9.5:1	10.9:1	12.2:1
Greater Manchester	Staff in post[3]	1,306	1,341	1,411	1,270	1,284
	Ratio—offenders:staff[4]	11.0:1	11.2:1	11.5:1	13.1:1	12.6:1
Lancashire	Staff in post[3]	602	578	565	563	556
	Ratio—offenders:staff[4]	10.1:1	11.1:1	12.6:1	13.6:1	13.7.1
Merseyside	Staff in post[3]	777	784	754	715	719
	Ratio—offenders:staff[4]	11.9:1	13.1:1	13.8:1	13.3:1	12.9:1

[1] Figures as at 31 December.

[2] Figures as at September 2008; the latest date for which there are corresponding Staffing and Offender figures.

[3] Includes all staff employed within the area/region.

[4] Calculated against all staff employed within the area/region.

Secure Accommodation: Young Offenders

Mr. Burrowes: To ask the Secretary of State for Justice to which secure facilities young people who had previously been detained at Orchard Lodge. Secure Children's Home were moved when that facility was closed in July 2009. [294187]

Maria Eagle: The Youth Justice Board (YJB) announced its intention to stop contracting for places at Orchard Lodge Secure Children's Home on 26 March 2009. Between March and July, the YJB did not place any young people at the home whose period of detention would have extended beyond July 2009 and almost all young people at the home were either released or moved to other establishments as part of their sentence plan. The only young person remaining at Orchard Lodge at the time of its closure was transferred to the enhanced Carlford Unit at Warren Hill Young Offenders Institution on 31 July.

Sentencing

Derek Wyatt: To ask the Secretary of State for Justice (1) how many of those people who received indeterminate public protection sentences and who have passed their tariff date have been released; [293963]

(2) how many indeterminate public protection sentences have been handed down in each year since they were introduced. [294046]

Maria Eagle: Prisoners serving an indeterminate sentence for public protection can only be considered for release once they have completed the minimum period imposed by the court for punishment and deterrence (the tariff). There is nothing automatic about release once the tariff has expired; an offender serving a sentence of imprisonment for public protection will be released only when the independent Parole Board determines that the risk of harm which he presents may be safely managed in the community.

The number of prisoners serving indeterminate sentences for public protection who had past tariff and were released on licence in each year since 2005 is as follows:

Year of release	*Number released*
2006	0
2007	12
2008	33
2009	31

These figures have been drawn from the Public Protection Unit database and the IPP database and, as with any large scale recording systems, are subject to possible errors with data entry and processing.

The number of offenders received into prison establishments on indeterminate sentences of imprisonment for public protection since 2005 is as follows:

Year of sentence	*Number sentenced*
2005	420
2006	1,570
2007	1,747
2008	1,315

This table is an extract from tables 6.17 in Offender Management Caseload Statistics 2008, a copy of which has been placed in the House of Commons Library and which can also be found at the following website:

http://www.justice.gov.uk/publications/prisonandprobation.htm

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

FOREIGN AND COMMONWEALTH OFFICE

Anguilla: Energy

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress made by Anguilla towards energy independence; and if he will make a statement. [293462]

Chris Bryant: Responsibility for energy issues has been devolved to the Overseas Territory governments.

The Government of Anguilla (GOA) advised us that their progress towards energy independence has so far included the following:

Formal Establishment of the Anguilla National Energy Committee under the Department of Environment;

A draft National Energy Policy has been verbally endorsed by the GO A. This is expected to be formalised by 1 December 2009;

A renewable Energy Co-ordinator, supported by OTEP funding (Overseas Territories Environment Programme, a joint Foreign and Commonwealth Office and Department for International Development fund), has been retained and is currently working to promote the goals of the Draft National Energy Policy;

Funds have been raised through the GOA (EC$ 500,000) and OTEP (£100,000) for the establishment of the Anguilla Renewable Energy Office;

A National Energy Committee covers high-level international consultancy, data collection and data analysis;

A business plan has been developed for a special entity currently called "RECorp" which will establish and operate a first phase 2-3 megawatt wind farm under a power-purchase agreement with ANGLEC, Anguilla's sole electrical utility.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of Anguilla's energy production has been drawn from renewable sources in each year since 2004. [293463]

Chris Bryant: Less than 1 per cent. of Anguilla's energy production has been drawn from renewable sources in each year since 2004. This is primarily through solar panels and solar water heaters.

British Antarctic Territory: Climate Change

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the United Kingdom has given to assessment exercises of the effect of climate change on future levels of emperor penguin populations in the British Antarctic Territory. [293465]

Mr. Ivan Lewis: The British Antarctic Survey (BAS) have been using remote sensing satellite images to locate emperor penguin colonies in Antarctica. The colonies were identified by the reddish brown patches of guano left by the penguins on the ice, which are visible in satellite images.

The survey identified a total of 38 colonies in Antarctica, 10 of which were new. As the low resolution of the satellite imagery did not allow any population assessment, BAS will conduct new research, part funded by the Foreign and Commonwealth Office, using high resolution satellite imagery to look at the distribution of emperor penguin breeding colonies in the British Antarctic Territory (BAT).

BAS are also collaborating with French, Australian and US colleagues to look at emperor penguin colonies elsewhere on the continent.

British Antarctic Territory: Polar Regions Unit

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what projects are being undertaken by the British Antarctic Survey and the FCO Polar Regions Unit. [293466]

Chris Bryant: The British Antarctic Survey (BAS) undertakes a very wide variety of scientific projects in Antarctica, South Georgia and the Arctic. These projects are managed through the strategic science framework of the BAS called Polar Science for Planet Earth (PSPE). PSPE concentrates on key scientific questions of global or fundamental importance that can be best answered by research requiring access to the polar regions. It consists of six major programmes each consisting of several projects. The PSPE Programmes are: Climate, Chemistry and Past Climate, Ecosystems, Environmental Change and Evolution, Ice Sheets and Polar Oceans. Further details of PSPE, and the component research programmes and projects, can be found on the BAS website:

www.antarctica.ac.uk/bas_research

The Foreign and Commonwealth Office Polar Regions Unit also support a range of projects each year to underpin delivery of the strategic objectives of the British Antarctic Territory; these include projects which contribute to the environmental protection, education and outreach, heritage and governance of the Territory, and many of these are undertaken in partnership with BAS. The unit is also working with BAS and the Royal Geographical Society to develop a new educational website on the Arctic:

www.discoverthearctic.org.uk.

British Indian Ocean Territory: Environment Protection

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what conservation schemes operate in the British Indian Ocean Territory to protect low-lying vulnerable atolls from the effects of climate change. [293467]

Chris Bryant: All coral atolls in the Indian Ocean are suffering attrition due to coral mortality and sea level rise. The northern Chagos atolls have been monitored for the key coral components, especially those primarily responsible for providing a breakwater effect in shallow water.

Coral atolls in the Chagos Islands fare much better than most because they do not face the additional stresses caused by human inhabitation (sewage discharges, shoreline development, dredging, etc). Observations have been made on erosion since 1996 in some areas.

The Overseas Territories Environment Programme (OTEP), a joint Foreign and Commonwealth Office and Department for International Development fund totalling £1 million annually, funds projects in the Overseas Territories dealing with environment, biodiversity, energy, recycling, climate change adaption and mitigation, and sustainable development.

The programme is currently contributing funding to a two-year project involving specialist scientists from elsewhere in the Indian Ocean, which will collect data on the condition of all atolls in the British Indian Ocean Territory, looking in particular at the effects of climate change on the reefs, with a view to informing and improving environmental management.

British Overseas Territories Conservation: Meetings

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to meet representatives of the United Kingdom Overseas Territories Conservation Forum in the next six months; and whether he has met them in the last six months. [293468]

Chris Bryant: My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs has not met representatives of the UK Overseas Territories Conservation Forum in the last six months and has no plans to do so in the next six months. However, I co-hosted a reception on 30 June 2009 with my ministerial colleagues from the Department for Environment, Food and Rural Affairs and the Department for International Development for the British non-governmental organisation community involved in environmental protection work in the Overseas Territories at which we met members of the forum. In addition, my officials have regular meetings with members of the forum.

British Overseas Territories: Climate Change

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are in place to ensure that the interests of the UK Overseas Territories are recognised at the forthcoming UN climate change summit in Copenhagen. [293303]

Mr. Ivan Lewis: The Foreign and Commonwealth Office is working in concert with the Department of Energy and Climate Change, the lead UK negotiating department on the forthcoming UN climate change summit in Copenhagen, to ensure that any commitments entered into at Copenhagen or subsequently will take into account the interests of the British Overseas Territories.

British Overseas Territories: Crown Dependencies

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs which *(a)* Overseas Territories and *(b)* Crown Dependencies are oil producers; and what their barrel production levels were in the latest year for which figures are available. [293447]

Chris Bryant: None of the British overseas territories is an oil producer. Information on the Crown dependencies is available from the Ministry of Justice which is responsible for the Crown dependencies.

British Overseas Territories: Environmental Charters

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken to ensure that the commitments outlined in the 2001 Environmental Charters signed between the United Kingdom and the UK Overseas Territories are being met. [293459]

Chris Bryant: We are in touch with the Overseas Territories about progress against the commitments set out in the Charters, and to establish how much the Territories use and value the Charters. The Charters were raised with Territory leaders at the Overseas Territories Consultative Council (the annual meeting of UK Ministers and Territory leaders) in 2007 and there have been discussions since then by officials at working level. The Overseas Territories Environment Programme, funded jointly by the Foreign and Commonwealth Office and the Department for International Development, spends £1 million annually on projects in the Overseas Territories which are designed to help deliver the commitments in the Charters.

Both the UK and the Overseas Territories feel that, while the Charters provide a useful framework, they are too generic and need to be tailored to meet the specific needs of each territory. We are therefore looking to revise the Charters to make them more focused on individual territory needs.

British Overseas Territories: Prisoners

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* prison capacity and *(b)* current jail population is in each of the UK Overseas Territories in the Caribbean. [293449]

Chris Bryant: The latest figures available are:

Overseas territory	*Certified normal accommodation*	*Current population*
Anguilla	35	58
British Virgin Islands	98	120
Cayman Islands	145	216
Montserrat	52	15
Turks and Caicos Islands	[1]102	108

[1] Rising shortly to 150

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of accounts of a large number of graves of missing Greek Cypriot people having been found in a Turkish military zone site near Lapithos in Cyprus; and if he will make a statement. [293710]

Chris Bryant: The Government have received no official account but is aware of reports in the Cypriot press.

Cyprus: Turkey

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Turkey in the last 12 months on steps to secure a political settlement in Cyprus. [293715]

Chris Bryant: My right hon. Friend the Foreign Secretary has had frequent discussions with the Government of Turkey in the last 12 months on a Cyprus settlement, most recently with Foreign Minister, Ahmet Davutoglu on 25 September 2009.

Cyprus: Visits Abroad

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* visits to and *(b)* meetings with Turkish Cypriots resident in the part of Cyprus governed by the Republic of Cyprus his Department has undertaken; and if he will make a statement. [293721]

Chris Bryant: Our high commission in Nicosia regularly visits and meets with a number of interlocutors from across the island. It is not possible to quantify the number of meetings and visits nor the residency and ethnicity of those people met.

Gaza: United Nations Fact Finding Mission

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made any representations to the government of Israel consequent upon the report of the United Nations Fact-Finding Mission on the Gaza conflict. [293678]

Mr. Ivan Lewis: My right hon. Friend the Prime Minister spoke to Prime Minister Netanyahu on 18 September 2009 and again on 14 October 2009. My right hon. Friend the Foreign Secretary spoke to Defence Minister Barak on 29 September 2009 and 13 October 2009.

We have made clear that, while the Goldstone report has its flaws, there are serious allegations against both Hamas and Israel. Israel has undertaken a number of investigations. But we do not believe these have yet adequately addressed the concerns. We urge Israel to investigate allegations fully and credibly to ensure that there is full accountability for any breaches of the rule of law.

Greece: Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Greece on a political settlement in Cyprus in the last 12 months. [293713]

Chris Bryant: My right hon. Friend the Foreign Secretary has had frequent discussions with the Government of Greece in the last 12 months on a Cyprus settlement, most recently with the Greek Prime Minister on 14 October 2009.

Guinea

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assurances he has received from the Government of Guinea that the investigation into the violence which took place at an Opposition rally on 28 September 2009 will be independent and impartial; and if he will make a statement. [293777]

David Miliband: The military-led Government in Guinea has offered to investigate the violence which took place at an opposition rally on 28 September 2009. However, the International Contact Group for Guinea, of which the UK is an active member, has recommended that any investigation needs to be independent, impartial and should be international in nature. We support this position and are consulting with the African Union, Economic Community of West African States (ECOWAS) and other international partners about how such an investigation might be taken forward.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with members of the Africa Union on the situation in Guinea following the violence at an Opposition rally on 28 September 2009; and if he will make a statement. [293778]

David Miliband: Foreign and Commonwealth Office officials have been in close touch with the African Union through the International Contact Group for Guinea, including at the Group's last meeting in Abuja, Nigeria on 12 October 2009. Officials will also be discussing the situation with the African Union Commission in Addis Ababa. We will continue to work closely with our partners in the African Union and with the West African regional body, the Economic Community of Western African States, to support their efforts to secure a peaceful resolution to the current tensions in Guinea.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to monitor the political situation in Guinea following the violence at an Opposition rally on 28 September 2009; and if he will make a statement. [293781]

David Miliband: Our ambassador in Guinea is an active member of the International Contact Group on Guinea and has maintained a constant dialogue with EU and G8 partners on the ground in order to ensure the UK fully monitors the political situation in Guinea. Our ambassadors in the region are also in contact with President Chambas of the Economic Community of West African States and the Governments of Guinea's neighbours.

Iraq

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps the Government has taken in co-operation with the United States Administration to improve the security of civilians in Iraq. [293311]

Mr. Ivan Lewis: Following the end of Combat Operations in April 2009, the UK continues to provide training and assistance to all of Iraq's security forces in conjunction with allies and partners. In-country activity includes: providing forensic training to the Iraqi police service; contributing UK police officers to the EU's JUSTLEX rule of law project; providing military training to the Iraqi army through the North Atlantic Treaty Organisation Training Mission—Iraq (NTM-I) and we will also shortly recommence training and support to the Iraqi navy alongside US forces following the ratification of a UK-Iraq co-operation agreement. Activities in the UK include Iraqi attendance at a range of police and military training courses.

Iraq: Security

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the security situation in Iraq. [293317]

Mr. Ivan Lewis: Recent attacks, including on 19 August 2009 in Baghdad and on 11 October 2009 in Ramadi, show that terrorist groups are still trying to undermine the significant progress made in Iraq over recent years. Nevertheless, the overall security in Iraq continues to improve as the capability of the Iraqi security forces grows. Importantly, the Iraqi people in provincial and Kurdish regional elections this year chose leaders who promote democracy, human rights and the rule of law over those who offer nothing but violence. January 2010's national election will provide further proof of this.

Middle East: Armed Conflict

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government plan to take in response to the findings of the UN inquiry by Judge Goldstone into human rights abuses during the Gaza conflict. [291965]

Mr. Ivan Lewis: My right hon. Friend the Prime Minister spoke to Prime Minister Netanyahu on 18 September 2009 and again on 14 October 2009. My right hon. Friend the Foreign Secretary spoke to Defence Minister Barak on 29 September 2009 and 13 October 2009.

We have made clear that, while the Goldstone report has its flaws, there are serious allegations against both Hamas and Israel. Israel has undertaken a number of investigations. But we do not believe these have yet adequately addressed the concerns. We urge Israel to investigate allegations fully and credibly to ensure that there is full accountability for any breaches of the rule of law.

Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the Immovable Property Commission in providing a remedy for Greek Cypriots in respect of property in Northern Cyprus; and if he will make a statement. [293716]

Chris Bryant: The Immovable Property Commission (IPC) was set up in 2005 in an attempt to provide a local remedy to the disputed ownership of properties in Cyprus. There are currently eight test cases under review in the European Court of Human Rights (ECHR), with the aim of identifying whether the IPC can be used as an effective local remedy. It is for the ECHR to decide whether the IPC offers an effective local remedy.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the number of *(a)* Greek Cypriots who have made a claim to the Immovable Property Commission in Northern Cyprus and *(b)* cases which have been resolved by that commission with (i) exchange of property, (ii) restitution and (iii) compensation; and if he will make a statement. [293717]

Chris Bryant: According to figures recently released, over the past three years 422 applications have been made to the Immovable Property Commission (IPC). Of these, 75 cases have been resolved: two were resolved with compensation and exchange; four with compensation and restitution; one for restitution after a settlement; and the remainder with compensation.

Nothern Cyprus: Property

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to amend the advice on his Department's website concerning the purchase of property in Northern Cyprus to take account of recent judgments of the European Court of Justice; and if he will make a statement. [293650]

Chris Bryant: Our travel advice warns of possible legal proceedings as a result of purchasing disputed properties in the north of Cyprus and strongly advises British citizens to take qualified and independent legal advice before purchasing such property. The Government's travel advice is constantly reviewed in light of changing events and will be updated as necessary.

Overseas Aid: Domestic Violence

Margaret Moran: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the largest sum allocated by his Department to an overseas project to tackle domestic violence, specifying amounts, organisations and outcomes, was in each year since 2001; [292778]

(2) what plans he has for future spending on projects to tackle domestic violence overseas. [292779]

Chris Bryant: The Department for International Development leads on this issue globally and supports a range of initiatives aimed at tackling violence against women, including domestic violence, through its development assistance programmes. This has included work in Ghana and Sierra Leone supporting the implementation of new legislation on domestic violence; and in Nepal, providing technical assistance to the Prime Minister's Office on the National Campaign to end gender based violence.

The Foreign and Commonwealth Office (FCO) has funded one related project on domestic violence overseas in the recent past. This was a three-year community policing project being run in Russia between 2006 and 2009 (at a cost of approximately £300,000) by the Global Opportunities Fund for Human Rights. The aim of the project was to train police officers on prevention of community and domestic violence, working with Justices of the Peace, Non-Governmental Organisations and relevant municipal organisations, to reduce domestic violence.

The FCO's Human Rights and Democracy Strategic Programme Fund supports projects on equality, including tackling the structural and institutional roots of gender discrimination through effective implementation of international law, but we do not have dedicated funds for tackling domestic violence and sexual abuse overseas.

South Atlantic Invasive Species Project

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether there are plans to extend the South Atlantic Invasive Species project beyond December 2009. [293297]

Mr. Ivan Lewis: The South Atlantic Invasive Species project is funded by the EU through European Development Funds. We are not aware of the EU's plans to fund the project beyond December 2009.

St. Helena: Electricity

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 20 May 2009, *Official Report*, column 522W, on St. Helena: wind power, what targets have been set to meet St. Helena's electricity needs through wind power. [293420]

Chris Bryant: The wind power programme on St. Helena is the responsibility of St. Helena Government. St. Helena currently generates 25 MWh (3-4 per cent. of the total energy consumption) through wind power and has projected wind generation of 70 MWh (10 per cent. of consumption) per month from April 2010 when it is anticipated that all six turbines on St. Helena will be in operation.

Turks and Caicos Islands: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of constitutional developments in the Turks and Caicos Islands; and if he will make a statement. [293305]

Mr. Ivan Lewis: I refer the hon. Member to the written ministerial statement of 12 October 2009, *Official Report*, column 9WS.

UN Convention for the Protection of All Persons from Enforced Disappearance

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in assessing the potential impact of ratification of the UN Convention for the Protection of All Persons from Enforced Disappearance on UK law; when he expects the assessment to be completed; and if he will introduce primary legislation to permit the UK to ratify the Convention. [293125]

Mr. Wills: I have been asked to reply.

The Government support the International Convention and believe that it will have an important role in preventing enforced disappearance and secret detention in the future. The UK played an active part in the negotiations prior to the drafting of the convention and supported its adoption in 2008 at the UN Human Rights Council and the UN General Assembly.

The UK is prepared to give its signature to treaties only when it has a clear intention to ratify within a reasonable timescale. The Government are conscious of the potentially significant impact of the convention in the domestic context, and we are therefore continuing our detailed assessment of the provisions of the convention and their effect across all areas of UK law and policy.

In particular, we are analysing the extent to which common law provisions may need to be replicated in statute law; whether any new criminal offences would need to be introduced; and whether the UK would enter any reservations or declarations on ratification.

Ratification will require primary legislation to facilitate changes to domestic law and the introduction of such primary legislation will depend on securing parliamentary time. The complexity of the issues still under consideration means that we are not setting a deadline for completion of our analysis, but work is being progressed as rapidly as possible.

Tony Baldry: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects the Government to ratify the UN Convention on the Protection of All Persons from Enforced Disappearance; and what the reasons are for the time taken. [293129]

Mr. Wills: I have been asked to reply.

The Government support the International Convention and believes that it will have an important role in preventing enforced disappearance and secret detention in the future. The UK played an active part in the negotiations prior to the drafting of the Convention and supported its adoption in 2008 at the UN Human Rights Council and the UN General Assembly.

The UK is prepared to give its signature to treaties only when it has a clear intention to ratify within a reasonable timescale. The Government are conscious of the potentially significant impact of the Convention in the domestic context, and we are therefore continuing our detailed assessment of the provisions of the Convention and their effect across all areas of UK law and policy.

In particular, we are analysing the extent to which common law provisions may need to be replicated in statute law; whether any new criminal offences would need to be introduced; and whether the UK would enter any reservations or declarations on ratification.

Ratification will require primary legislation to facilitate changes to domestic law and the introduction of such primary legislation will depend on securing parliamentary time. The complexity of the issues still under consideration means that we are not setting a deadline for completion of our analysis, but work is being progressed as rapidly as possible.

USA: Nuclear Weapons

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US administration on the international threat of nuclear proliferation. [293318]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary discusses nuclear disarmament and non-proliferation regularly with US Secretary of State Hillary Clinton and did so most recently on 11 October 2009. Mrs. Clinton said after that meeting that British leadership had been pivotal in the run up to the historic UN Security Council session on nuclear non-proliferation and disarmament chaired by President Barack Obama. The Council unanimously adopted UN resolution 1887 that affirmed its commitment to work toward a world without nuclear weapons.

Varosha

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the Turkish Cypriot claim to property rights in Varosha, as asserted by the land-holding foundation EFKAF; and if he will make a statement. [293699]

Chris Bryant: The Government have made no such assessment.

HOME DEPARTMENT

Crime: Northumberland

Mr. Ronnie Campbell: To ask the Secretary of State for the Home Department how many *(a)* crimes and *(b)* violent crimes were reported in (i) Blyth Valley and (ii) Northumberland in the last four years. [289374]

Mr. Alan Campbell: The available information is given in the following table.

A number of changes have been made to recorded crime in response to suggestions in the two reviews of crime statistics. One such change is that the term 'violent crime' is no longer used and we now provide figures for violence against the person.

Table 3 Offences recorded by the police in Blyth Valley and Northumberland: 2005-06 to 2008-09

	Number of offences			
	2005-06	*2006-07*	*2007-08*	*2008-09*
Area and offence				
Blyth Valley local authority area	1,011	1,268	882	964
Violence against the person	5,637	5,913	5,112	4,977
Total recorded crime				

Table 3 Offences recorded by the police in Blyth Valley and Northumberland: 2005-06 to 2008-09

	Number of offences			
	2005-06	2006-07	2007-08	2008-09
Northumberland Basic Command Unit				
Violence against the person	3,490	4.159	2,951	3,193
Total recorded crime	18,935	19,735	16,341	16,461

Human Trafficking: Greater London

John Austin: To ask the Secretary of State for the Home Department what recent discussions he has had with the Metropolitan Police Service on the future of its specialist unit to combat trafficking in human beings; and if he will make a statement. [293856]

Mr. Alan Campbell: The deployment of resources and staff is a matter for the Commissioner of the Metropolitan Police.

Human trafficking is core police business and, as such, work to combat this crime should be mainstreamed into existing budgets.

The Government provide additional funding of £435,000 to the Metropolitan Police for the current financial year to enable them to do so in line with other forces in England and Wales. This was done on the basis that such work would be funded from within their existing budget from the financial year 2010-11.

John Austin: To ask the Secretary of State for the Home Department whether additional resources will be available for the Metropolitan Police to counteract any trafficking in human beings associated with the number of tourists expected to attend the London 2012 Olympics. [293863]

Mr. Alan Campbell: Human trafficking is core police business and as such should be resourced from within existing budgets.

Intelligence on human trafficking is assessed on a quarterly basis as part of the Olympics Organised Crime Threat Assessment. While intelligence does not suggest that there is any increase in human trafficking linked to the Olympics at the moment we remain vigilant. To this end the Clubs and Vice Unit of the Metropolitan police is working over the next three years to disrupt prostitution and recover victims, including victims of trafficking in the five Olympic boroughs.

Should the intelligence indicate an increase in trafficking we shall ensure that the appropriate measures are in place.

Police: Ethnic Groups

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many *(a)* officers and *(b)* senior officers in the West Midlands police service are from ethnic minorities. [291530]

Mr. Hanson: Data on the number of minority ethnic officers in West Midlands police service broken down by rank, as at 31 March 2009, are provided in the following table.

This and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www. homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

Minority ethnic officer strength in West Midlands police force, by rank, as at 31 March 2009, full-time equivalent

	Number
ACPO rank	1
Chief Superintendent	0
Superintendent	5
Chief Inspector	4
Inspector	29
Sergeant	74
Constable	550
Total	663

Rape: Hertfordshire

Mike Penning: To ask the Secretary of State for the Home Department how many offences of rape were reported in *(a)* Hemel Hempstead constituency, *(b)* Dacorum, *(c)* Hertfordshire and *(d)* England and Wales in each of the last five years; and how many of them resulted in (i) a prosecution and (ii) a conviction. [289461]

Mr. Alan Campbell: Information is not available in the form requested as it is not possible to track individual offences through to their outcome at court. The available information relates to the number of offences of rape recorded by the police in the last five financial years. Prosecutions and convictions data are based on the number of offenders and has been provided by the Office for Criminal Justice Reform. These data are published on a calendar year basis and are counts of persons classified by their principal offence. For these reasons the two datasets are not directly comparable.

Table 1 gives the number of offences of rape recorded by the police in Dacorum, Hertfordshire and England and Wales. Data for Hemel Hempstead are not available. Table 2 provides data on the number of defendants proceeded against and convicted for all rape offences for Hertfordshire and England and Wales. Data for Hemel Hempstead and Dacorum are not available.

Table 1: Offences of rape recorded in the Dacorum crime and disorder reduction partnership area, Hertfordshire police force area and England and Wales

Financial year	*Dacorum*	*Hertfordshire*	*England and Wales*
2004-05	20	184	14,013
2005-06	22	211	14,443
2006-07	28	199	13,774
2007-08	21	172	12,639
2008-09	19	132	13,133

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts for rape and attempted rape offences, Hertfordshire police force area and England and Wales, 2003 to 2007[1, 2]

	2003		2004		2005		2006		2007	
	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty	Proceed against	Found guilty
Hertfordshire police force area	38	10	55	13	51	8	57	8	25	12
England and Wales	2,790	673	2,689	751	2,826	796	2,567	863	2,363	873

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Terrorism

Mr. Meacher: To ask the Secretary of State for the Home Department what attacks on the UK were known to have been *(a)* planned and *(b)* executed by terrorist groups linked to (i) Afghanistan and (ii) Pakistan in the last 10 years. [293495]

Mr. Hanson *[holding answer 15 October 2009]:* The majority of significant UK attack plots in this decade have had considerable links abroad, with a substantial proportion of these terrorist attacks and threats being associated with al-Qaeda. Al-Qaeda and those groups and individuals affiliated to and influenced by them undoubtedly represent the greatest current terrorist threat to the UK. Al-Qaeda regards the UK as a key target, and as a potential source of recruits. As a result of international military action in Afghanistan, Al-Qaeda has largely been forced out of its 'safe havens' and is now mainly based on the Pakistan/Afghanistan border.

WORK AND PENSIONS

Employers' Liability Insurance Policies

17. **David Taylor:** To ask the Secretary of State for Work and Pensions what recent representations she has received on the mandatory arrangements for recording employers' liability insurance policies; and if she will make a statement. [293513]

Jonathan Shaw: We have received a range of representations on this issue including from hon. Members.

While the vast majority of people can trace their employers' liability insurance policies easily, too many still find it very difficult.

We are working closely with the insurance industry to improve the tracing of old policies so that those who need to access civil compensation are able to do so.

Jobseeker's Allowance

18. **Angela Watkinson:** To ask the Secretary of State for Work and Pensions what proportion of the population in *(a)* the UK and *(b)* Upminster constituency is claiming jobseeker's allowance. [293514]

Jim Knight: 4.2 per cent. of the working age population in Great Britain and 4 per cent. of the working age population in the Upminster parliamentary constituency is claiming jobseeker's allowance.

Departmental Contact Centre

21. **Mr. Carmichael:** To ask the Secretary of State for Work and Pensions what her most recent assessment is of the performance of her Department's contact centre; and if she will make a statement. [293517]

Jim Knight: As of September 2009, the Department for Work and Pensions is currently responding to 99 per cent. of all customer calls to make new claims to working-age benefits with an average wait of 15 seconds for the call to be answered. This equates to over 637,000 customers helped by Jobcentre Plus Contact Centres in the last month alone.

Polygamous Marriages: Benefit Payments

22. **David T.C. Davies:** To ask the Secretary of State for Work and Pensions what estimate she has made of the number of people in polygamous marriages who are in receipt of income-related benefits payments. [293518]

Jim Knight: Information on the numbers of polygamous marriages within the benefits system is not collected at a national level. However, arrangements within the benefit system ensure there is no advantageous treatment for people in polygamous marriages.

Youth Unemployment

23. **Mr. Crabb:** To ask the Secretary of State for Work and Pensions what steps the Government are taking to reduce youth unemployment. [293519]

Mr. Heald: To ask the Secretary of State for Work and Pensions what steps the Government are taking to reduce youth unemployment. [293499]

Mr. Jamie Reed: To ask the Secretary of State for Work and Pensions what steps she is taking to reduce unemployment among young people; and if she will make a statement. [293505]

Jim Knight: I refer the hon. Members to the answer I gave today to the hon. Member for Macclesfield (Sir Nicholas Winterton).

Jobcentres

24. **Mr. Hamilton:** To ask the Secretary of State for Work and Pensions what recent representations her Department has received on standards of customer service at Jobcentres. [293520]

Jim Knight: Jobcentre Plus receives many representations from various organisations and customers on its standards of service, many of which are positive. Jobcentre Plus continually works with these groups to improve the service it delivers to customers and key partners.

Employment Schemes: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the answer of 14 September 2009, *Official Report*, column 2137W, on employment schemes: disabled, under what circumstances disabled people not in work and not in receipt of jobseeker's allowance or employment and support allowance receive assistance from employment programmes; what her most recent estimate is of the number of disabled people who meet such criteria; and if she will make a statement. [292913]

Jonathan Shaw *[holding answer 14 October 2009]:* The Department for Work and Pensions has not made such an estimate.

Employment: Sight Impaired

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what assessment her Department has made of the effects of Braille literacy on the employment prospects of people who are visually impaired; and if she will make a statement. [293054]

Jonathan Shaw: The Department for Work and Pensions has not undertaken such an assessment.

Research Report

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many individuals in each birth cohort, are modelled as having a payback of *(a)* less than 0.5, *(b)* between 0.5 and 1, *(c)* between 1 and 1.5, *(d)* between 1.5 and 2, *(e)* between 2 and 2.5, *(f)* between 2.5 and 3 and *(g)* above 3 as shown in Figure 4.3 on page 55 of DWP Research Report number 558. [287115]

Angela Eagle: The information is as follows:

Table 1: Number of those saving into a defined contribution pension at any point after 2012, with an employer contribution, in each payback group, by birth cohort

	Payback (£)						
	<1	1-1.5	1.5-2	2-2.5	2.5-3	>3	Total (million)
Birth cohort (Thousand)							
Pre-1960	250	650	1,250	450	200	650	3.4
1960-70	250	550	1,800	1,500	650	850	5.8
1970-80	150	350	1,000	1,500	1.300	1,450	5.8
1980-90	150	200	650	1,100	1,400	3,100	6.6
1990-2000	150	150	500	950	1,200	3,800	6.8

Note:
Population estimates are based on the modelled population and may be subject to sampling error. All numbers are rounded to the nearest 50,000.
Source:
Pensim2.

This table covers all individuals in these cohorts who save in any defined contribution pension with an employer contribution at any point after 2012. It is consistent with the payback figures presented in the report, "Saving for retirement: Implications of pensions reforms on financial incentives to save for retirement", published in February this year. Overall, less than 5 per cent. are modelled as expecting a payback of less than 1.

This table covers all cohorts who are expected to live out their lives before 2100, including many who will not enter the workforce and/or start saving until many years after 2012, and others who are already saving. As such, the figures should not be compared directly with new savers or those eligible for automatic enrolment in 2012.

Those with payback of less than 0.5 have not been shown separately due to the small sample size of this group in the model; they make up approximately a quarter of the group with payback of less than 1.

Please note that opt-out rates in the model are assigned randomly to employees, and do not take account of characteristics of individuals or how they might behave. The numbers in the lower payback groups may be over-estimated if those who go on to see high levels of benefit interactions are more likely to opt out. The figures are based on reasonable assumptions about the future as set out in "Saving for retirement: Implications of pensions reforms on financial incentives to save".

Work Capability Assessments

Danny Alexander: To ask the Secretary of State for Work and Pensions what procedures are in place to ensure consistency in work capability assessments. [293041]

Jonathan Shaw: All medical reports completed by Atos Healthcare, healthcare professionals who have successfully completed their training period are subject to 100 per cent. quality assessment before they are recommended for approval by the DWP Chief Medical Officer.

In addition, medical reports completed by healthcare professionals undertaking disability benefit medial examinations on behalf of the DWP and other Government Departments are subject to a rigorous and comprehensive audit system. The Integrated Quality Audit Systems (IQAS) which constitutes randomly selected audits is based on a statistically valid and robust audit process which is undertaken on every Atos Healthcare, healthcare professional on a monthly basis. Any reports found to be deficient in the audit are corrected prior to them being returned to the Departments' decision makers.

A healthcare professional's work can also be subjected to audit if it is found that any work is reported to be deficient on an opportunistic basis, for instance if the healthcare professional is subject to significant levels of customer complaints or the Department's Business Unit returns medical reports which are considered deficient by the decision maker.

Full-time Atos Healthcare Medical Services healthcare professionals who have undertaken specific training in audit work carry out the audit. Where there is any cause for concern, proactive management intervention ensures that remedial action is taken promptly as appropriate.

CULTURE, MEDIA AND SPORT

Cultural Heritage

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what recent estimate he has made of the annual financial contribution of the heritage sector to the economy. [292303]

Margaret Hodge: Heritage provides a vital contribution to the national economy and contributes to the success of a range of industries including tourism, retail, entertainment and construction. Although no aggregate figure is available, several studies of which English Heritage is aware have sought to identify the contribution within a particular context. In the north-west alone it is estimated that Heritage and its ancillaries contribute £1.6 billion in gross value added (GVA) to the economy.

A Heritage Lottery Fund study of major projects they completed in 2007 estimates them to have created £33 million in local GVA and to support the equivalent of 1,277 full-time equivalent jobs. Tourism, one of the largest industries in the UK, was estimated to be worth approximately £86 billion in 2007. Evidence from VisitBritain shows England's historic buildings are key motivators for those considering a visit to the country and they also top the table of activities undertaken by those who actually do visit.

Privately owned historic houses generate an economic contribution of over £1.6 billion; while England's cathedrals generate around £150 million per annum of benefits for the local and national economies.

Digital Broadcasting: Wales

Mr. Crabb: To ask the Secretary of State for Culture, Media and Sport (1) what estimate he has made of the time necessary to restore ITV channels to those homes no longer able to receive them as a result of the digital switchover in Wales; [294312]

(2) what steps his Department is taking to restore ITV channels to homes which lost them as a result of the digital switchover in Wales; [294313]

(3) what estimate he has made of the number of homes that no longer receive ITV channels as a result of the digital switchover in Wales. [294314]

Mr. Simon: We believe that up to 1 million households could have been affected by the loss of ITV3 and ITV4 after the digital television retune. In some cases the services will be restored at digital switchover.

There is a licence requirement that the three Public Service Broadcasting (PSB) digital multiplexes, which carry the public service broadcasting channels, should reach 98.5 per cent. of UK households after Digital Switchover. Since the national re-tune, ITV3 and ITV4, which are not PSB channels, have been carried on commercial multiplexes where the licence post-Switchover requirement is that 90 per cent. of household coverage is achieved. Any decision to build out beyond 90 per cent. coverage would be a commercial decision for the multiplex operators.

E-Legal Deposits

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of e-legal deposits which would have been made to date had the e-legal deposit regulations come into force in accordance with the original timetable; and when he expects the regulations to enter into force. [293894]

Margaret Hodge: The Legal Deposit Libraries Act 2003 commenced on 1 February 2004. It was always the intention that the Act would be implemented progressively, as it is enabling legislation in a complex and challenging area. The Act made provision for the establishment of an advisory panel which was created in 2005. The panel produced its first set of recommendations in Autumn 2008, and a further set in spring 2009. Draft regulations which may result from those recommendations would be subject to full public consultation and to affirmative resolution in both Houses. I am working to ensure these matters are now expedited so that e-legal deposits are facilitated.

Historic Buildings: Conservation

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many buildings were *(a)* added to and *(b)* removed from the Buildings At Risk Register in each year since 2000. [292302]

Margaret Hodge *[holding answer 12 October 2009]:* English Heritage has advised that the number of buildings added to and removed from the national Buildings At Risk Register in each year since 2000 are as follows:

	Number of buildings removed from Buildings at Risk Register	*Number of buildings added to Buildings at Risk Register*
2008-09	69	64
2007-08	57	69
2006-07	88	52
2005-06	94	68
2004-05	91	58
2003-04	94	66
2002-03	114	98
2001-02	114	94
2000-01	109	102
1999-2000	108	141

The national Buildings At Risk Register includes Grade I and II* listed buildings and structural scheduled monuments (structures rather than earthworks) at risk.

Holiday Accommodation: Taxation

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with Treasury colleagues on the effect of the abolition of furnished holiday lettings tax relief on the tourism industry. [293431]

Margaret Hodge: My predecessor, the hon. Member for Stevenage (Barbara Follett), raised this issue with Treasury colleagues and wrote to them setting out in detail the industry's concerns about these changes.

The Department remains in discussion with Treasury and HM Revenue and Customs (HMRC) about the impact of these rule changes on the tourism industry. HMRC will be publishing their assessment of this, together with draft legislation, at the same time that the pre-Budget report is issued.

ITV: Finance

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what response he has made to ITV regarding the proposal on its entitlement to a portion of the revenue from the television licence fee; and if he will make a statement. [293890]

Mr. Simon: The Government are not aware that ITV has made a proposal on its entitlement to a portion of the revenue from the television licence fee.

The Government have consulted on the sustainability of plurality of news in the Nations, locally and in the regions, and on the idea of using a small portion of the television licence fee, on a competitive basis, to support plurality of multi-media news provision. The consultation closed on 22 September; Government received 89 responses.

The Government are considering those responses and will set out their views in due course.

Monuments: Preservation

Shona McIsaac: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the state of preservation of war memorials. [292380]

Margaret Hodge: English Heritage advises Ministers on matters relating to England's historic built environment. Statutory protection is given to those war memorials which are, or form part of, a listed building or scheduled ancient monument. There are approximately 1,200 purpose built war memorials that are listed buildings.

English Heritage's Heritage at Risk Register contains only four designated war memorials considered to be at risk. In three cases, English Heritage is taking action in conjunction with the owners or the local authority to secure the preservation of the memorial in question and in the fourth case, the memorial is in local authority care.

Of the four memorials, one has received grant aid from English Heritage and a second has been offered such assistance.

English Heritage's Heritage at Risk Register contains four designated war memorials at risk; three are listed buildings and the fourth is a Scheduled Monument.

Of the three listed buildings, one is in local authority care (action under consideration), another is in private ownership (action in hand in association with local authority) and the third is in the care of a charitable trust (action in hand with grant-aid from English Heritage).

The joint owners of the scheduled war memorial have been offered a grant for repair under the English Heritage/Wolf son Foundation grant scheme.

Listed buildings

1. In local authority care (action under consideration)—War memorial, Saltburn by Sea, Tees Valley. Grade 11*. Arts and Crafts style memorial to the dead of the Great War 1914-18 with bronze sculpture by Sir Willam Reynolds-Stephens. A community-based group is promoting a scheme for the restoration of the memorial and it's setting, in conjunction with the local authority. EH is to liaise with local authority over repairs proposals.

2. In private ownership (action in hand in association with local authority)—Islington War Memorial Arch, Manor Gardens, London. Grade 11. Listed War memorial designed by Percy Adams, formally part of the Royal Northern Hospital. Repairs being carried out in discussion with local authority.

3. In the care of a charitable trust (action in hand with grant-aid from English Heritage)—Thanksgiving Shrine of Our Lady of Lourdes, Blackpool. Grade 11*. 20th century war memorial chapel. £70,560 offered in 2006 towards urgent repairs. Further work is envisaged. In the care of the Historic Chapels Trust (ongoing EH grant-aid).

Scheduled war memorial

The joint owners of the scheduled war memorial have been offered a grant for repair under the English Heritage/Wolfson Foundation grant scheme—Montreal Park Obelisk, Riverhead, Kent. 18th century monument to the Canadian wars. £1,130 offered in 2007 towards repairs under the War Memorials Grant Scheme. This has not yet been taken up.

Tourism: Costs

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the travel and tourism industry on the effects of single person supplements on tourism. [293633]

Margaret Hodge *[holding answer 16 October 2009]:* The Department for Culture, Media and Sport and the Office of Fair Trading have previously examined the question of single person supplements and concluded that wherever there was a reasonable economic case for such charges decisions on the charging of supplements are primarily matters for the industry.

Tourism: Marketing

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport how much the Government spent on *(a)* marketing Britain overseas and *(b)* marketing England in the UK in (i) 1997, (ii) 2006, (iii) 2007 and (iv) 2008. [292363]

Margaret Hodge: DCMS provides public funding to VisitBritain for promoting Britain as a tourist destination to overseas markets. VisitEngland receives public funding from within VisitBritain's allocation for promoting England as a tourist destination to the domestic market.

The following table outlines the information requested:

£000

	Net expenditure on marketing	*Domestic expenditure*	*Overseas expenditure*
2006-07	28,913	10,428	18,485
2007-08	32,093	12,907	19,186
2008-09	31,846	10,084	21,762

Source:
VisitBritain

VisitBritain was created in 2003. It was formed out of a merger between the British Tourist Authority and the English Tourist Board. I will write to the hon. Member with the information requested for 1997 as soon as possible.

HEALTH

Arthritis

Mr. Allen: To ask the Secretary of State for Health what estimate he has made of average waiting times for rheumatoid arthritis patients for follow-up consultations with a rheumatology specialist in *(a)* Nottingham North constituency and *(b)* England in the latest period for which figures are available. [292773]

Mr. Mike O'Brien: The Department does not collect waiting times data for follow-up consultations at specialty level.

Data published by the Department looking on an all speciality basis show that the ratio of subsequent attendance (follow-up) to first out-patient appointment has remained broadly stable over the last three years at around two (subsequent attendances) to one (first out-patient appointment).

Source:
Department of Health Monthly Activity Return (MAR) and Quarterly Activity Return (QAR)

Mr. Allen: To ask the Secretary of State for Health (1) what assessment he has made of regional variations in the availability of treatments for rheumatoid arthritis approved by the National Institute for Health and Clinical Excellence; [292774]

(2) what assessment he has made of the implementation of clinical guideline 79 issued by the National Institute for Health and Clinical Excellence for rheumatoid arthritis in each *(a)* strategic health authority and *(b)* primary care trust. [292775]

Mr. Mike O'Brien: The Department has not made any specific assessment of regional variations in the availability of treatments for rheumatoid arthritis approved by the National Institute for Health and Clinical Excellence (NICE) or on the implementation of clinical guideline 79 issued by NICE for rheumatoid arthritis in each strategic health authority and primary care trust. It is the responsibility of national health service bodies to implement NICE guidance and NICE publishes a number of implementation tools alongside its guidance to help facilitate this.

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Health what timetable has been set for increasing the level of payments made to haemophiliacs infected with HIV through contaminated blood products, as referred to in his Department's response to Lord Archer's report on Contaminated Blood and Blood Products; and if he will make a statement. [294048]

Gillian Merron: The starting date for the increased level of payments has been set at 20 May 2009, the date on which the Government's response to Lord Archer's report was published. All payments will be backdated to that date.

We are anxious that the new arrangements for the beneficiaries of the Macfarlane and Eileen trusts are carefully worked out in discussion with the trustees. Departmental officials are working with the trusts to that end.

Cancer: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health how many free prescriptions for patients diagnosed with cancer in Tamworth constituency have been dispensed since the inception of the scheme; and at what cost. [293776]

Mr. Mike O'Brien: This information is not held centrally.

Dementia: Drugs

Mr. Burstow: To ask the Secretary of State for Health what the timetable is for the publication of the report by Professor Sube Banerjee on the use of anti-psychotic drugs; and if he will make a statement. [293100]

Phil Hope: The review by Professor Sube Banerjee on the prescribing of anti-psychotic drugs for people with dementia will be published in November.

Dental Services: Waiting Lists

Mr. Wallace: To ask the Secretary of State for Health what waiting time target his Department has set for a person to obtain an appointment at a dental practice which holds a contract to deliver NHS services. [293393]

Ann Keen: Managing appointments appropriately, and in a timely manner, is a matter for dental providers and primary care trusts.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Health what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293241]

Phil Hope: The Department does not currently collect data centrally on the number of contracts awarded to small businesses.

However, following the publication of the Glover report in November 2008, the Office of Government Commerce established its 'Access For All' programme in April 2009. This was developed to coordinate the implementation of the Glover Committee recommendations across Government and the public sector. One of the recommendations is that all Government Departments report annually on their contract spend with small and medium enterprises (SMEs). The Department is fully committed to supporting this work.

The Department is responsible for two agencies:

NHS Purchasing and Supply Agency (NHS PASA)—a snapshot of current contracts on 14 October 2009, shows that the ratio of SME awarded contracts against all NHS PASA awarded contracts is currently 31 per cent. Data for the years 2006-07, 2007-08, 2008-09 and 2009-10 are not available broken down on an annual basis.

Medicines and Healthcare products Regulatory Agency (MHRA)—MHRA does not currently collect data centrally on the number of contracts awarded to small businesses.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Health how much his Department spent on first-class rail travel for officials in each of the last three years; and if he will make a statement. [293333][1]

Phil Hope: The Department has spent the following on first-class travel.

	£
2006-07	4,640,501.02
2007-08	4,977,335.59
2008-09	6,475,462.75

It should be noted that the above figures represent travel booked through the central booking system which constitutes the vast majority of how travel is booked and paid for.

Depressive Illnesses

Bob Spink: To ask the Secretary of State for Health what steps the NHS is taking to improve clinical outcomes from treatment provided to patients diagnosed with *(a)* major depression, *(b)* atypical depression, *(c)* psychotic depression, *(d)* dysthymia and *(e)* manic depression. [293602]

Phil Hope: Since 2001-02, total planned investment in adult mental health services has increased by 50 per cent. (£2.0 billion), putting in place the extra services and staff needed to transform mental health services. Nine consecutive years of increased spending by the national health service on mental health services has provided more staff, and increasing numbers of people with a severe mental illness are receiving treatment from community teams outside of hospital settings.

Our significant investment in the Improving Access to Psychological Therapies programme (IAPT), will see annual funding rising to £173 million, 3,600 extra therapists trained and 900,000 more people treated by 2011. This investment in IAPT will help to add to the existing provision of psychological therapies, increase capacity, reduce waiting times and drive up quality standards.

The National Institute for Health and Clinical Excellence (NICE) expects to issue revised guidance on treating depression later this year. NICE issued guidance on treating bipolar disorder in 2006, which indicates evidence-based approaches to treatment and covers psychological as well as drug treatments for these conditions. General practitioners and consultant psychiatrists are expected to take NICE guidance fully into account when deciding on the most appropriate treatment for their patients.

Doctors: Training

Lynne Jones: To ask the Secretary of State for Health what estimate he has made of the number of *(a)* medical trainees expected to achieve Certificate of Completion of Training status in each of the next five years and *(b)* consultant posts likely to be available in each such year. [293340]

Ann Keen: The Workforce Review Team (WRT) prediction of the number of medical trainees expected to achieve Certificate of Completion of Training (CCT) status in each of the next five years is shown in the following table:

	Projected graduates 2008
2009-10	5,750
2010-11	6,225
2011-12	5,650
2012-13	5,877
2013-14	5,400

Notes:

1. The data are for junior doctors expecting to reach their CCT (secondary and general practitioner) in the coming years. This will not be pure growth in the number of trained doctors in the national health service since many will be recruited to replace retirements etc. of existing work force.

2. These are expected CCT dates and are subject to variation due to failure for doctors to progress through training as expected which can be for many reasons for example maternity leave, educational issues, illness, undertaking research.

3. Also to clarify these will be graduates of higher specialty post graduate training and not medical school graduates.

Local NHS organisations are best placed to determine the levels of service and resource required to meet the health needs of the local population. Therefore, the number of consultant posts likely to be available in each year is not collected centrally.

Lynne Jones: To ask the Secretary of State for Health what recent assessment he has made of the effects on the practical experience gained by medical trainees specialising in surgery of trends in the use of *(a)* out-of-hours lists and *(b)* independent sector treatment centres for routine operations. [293341]

Mr. Mike O'Brien: The Department has not commissioned any specific research in this area but is aware, through stakeholder engagement, of issues relating to postgraduate medical training. Evidence of the impact on training of using out of hours lists and independent sector treatment centres (ISTCs) is anecdotal and variable.

However, wherever training takes place, trainee doctors cannot progress through training unless they have demonstrated they are competent and have met the standards set by the competent authority, which in this case is the Postgraduate Medical Education and Training Board.

In 2006, the Department published its policy on training in independent sector treatment centres. This stated that any training that takes place in ISTCs will be required to meet the same standards as training in other organisations. The Department will also publish shortly the Staff Passport. This will clarify how training standards will continue to be met given the plurality of providers.

---

[1] *[Official Report, 22 October 2009, Vol. 497, c. 7-8MC]*

Drugs

Mr. Sanders: To ask the Secretary of State for Health if he will commission a study into the impact of the parallel trade of medicines within the European Union on the supply of medicines in England. [293120]

Mr. Mike O'Brien: We have no plans to commission such a study. We are monitoring the situation closely and are in regular contact with pharmaceutical companies, wholesalers and pharmacy bodies.

Drugs: Counterfeit Manufacturing

Mr. Sanders: To ask the Secretary of State for Health how many cases of counterfeit medicines entering the UK via a parallel trader were recorded in each month of the last two years. [293117]

Mr. Mike O'Brien: There have been no reported cases of counterfeit medicines entering the United Kingdom via a parallel trader in the last two years. The last instance was in May 2007 where four recalls were issued in respect of three specific medicines which had entered the UK market through that route.

No fatalities or serious adverse reactions have been attributed to counterfeit medicines in the UK up to now.

Hospital Wards

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* acute, *(b)* elderly, *(c)* mental health, *(d)* children's *(e)* maternity and *(f)* other Nightingale wards have been recorded in Estates Return Collection Information as in use in each NHS organisation in each year since 1997. [291784]

Mr. Mike O'Brien: The information is not available in the precise format requested.

Since 2002-03, the Department has collected annual data from national health service trusts on the number of Nightingale wards in use over the reporting year, through the estates returns information collection. Since 2005-06, the data has been collected on a voluntary basis and therefore will not be complete. The available data for each year since 2002-03 has been placed in the Library.

The information provided has been supplied by the NHS and has not been amended or validated centrally. The accuracy and completeness of the information is the responsibility of the provider organisation.

Hospitals: Infectious Diseases

Lynne Jones: To ask the Secretary of State for Health with reference to his Department's involvement in the Conference on Healthcare Associated Infection on 31 October 2008, what assessment he has made of the subsequent consensus statement; and if he will make a statement. [293874]

Ann Keen: The Department welcomes initiatives to help reduce healthcare associated infections and was pleased to participate in the conference on 'The Relevance of Healthcare Associated Infection in Modern Surgical Practice'. The consensus statement issued subsequently by the Association of Surgeons of Great Britain is likely to be of wide interest to the health s[illegible]. The statement aims to heighten awareness of healthcare associated infections amongst national health service clinicians and managers. It also highlights the benefits of evidence based approaches, such as the care bundles used in our programme to reduce infections. It therefore makes a positive contribution to combating these infections.

Human Papilloma Virus: Vaccination

Mr. Blunt: To ask the Secretary of State for Health how many reports of suspected adverse reactions to the *(a)* AHPVA021BA and *(b)* AHPVA024BA batch of the Cervarix vaccine have been made to the Medicines and Healthcare Products Regulatory Agency. [293279]

Mr. Mike O'Brien: As of 13 October 2009, the Medicines and Healthcare products Regulatory Agency (MHRA) has received 254 suspected adverse drug reaction (ADR) reports for Cervarix vaccine with the batch number AHPVA021BA, and 129 suspected ADR reports for the batch number AHPVA024BA. It is noted that four suspected ADR reports received by MHRA related to patients who have received a Cervarix vaccination from both batches.

MHRA has not identified any safety concerns or batch defects associated with the Cervarix batch numbers AHPVA021BA and AHPVA024BA. As with any vaccine, the MHRA will continue to closely monitor the safety of Cervarix during usage in the immunisation programme and publishes regular summaries of all suspected ADR reports associated with Cervarix on its website:

www.mhra.gov.uk

McKinsey and Company

Mr. Geoffrey Robinson: To ask the Secretary of State for Health how much was spent on the report commissioned by his Department from McKinsey and Company on reducing costs. [293249]

Mr. Mike O'Brien: The information requested is commercial and publishing it would raise issues of commercial confidentiality.

National Archives

Mr. Amess: To ask the Secretary of State for Health what files held by his Department have been transferred to the National Archives during each of the last 12 months; and if he will make a statement. [293285]

Phil Hope: The Department has not transferred any files to The National Archives in the last 12 months. The Department normally transfers material on an annual basis rather than monthly. The list of files being prepared for transfer have been placed in the Library.

Mr. Amess: To ask the Secretary of State for Health what files held by his Department will be transferred to the National Archives during each of the next 12 months; and if he will make a statement. [293286]

Phil Hope: Records created by the Department during the years 1982-87 that were marked to be considered for permanent preservation are being assessed for transfer to the National Archives. The recommendations of the Department's reviewers will be considered jointly with the National Archives, and an agreed list of files for transfer will be completed. It is not possible to state at this time which files will be included in that list.

National Institute for Health and Clinical Excellence

Lynne Jones: To ask the Secretary of State for Health what mechanisms are in place for monitoring compliance with (a) National Institute for Health and Clinical Excellence (NICE) clinical guidelines and (b) NICE technology appraisals. [293875]

Mr. Mike O'Brien: In 2008-09, national health service organisations were asked to assess themselves against a core standard that incorporates compliance with the National Institute for Health and Clinical Excellence's (NICE) technology appraisals. These self-assessments were independently validated by the Care Quality Commission and showed that 95.2 per cent, of NHS organisations could provide evidence of compliance with this standard.

Clinical guidelines relate to a whole pathway of care and can make a large number of recommendations spanning all stages of care from diagnosis to treatment of a condition. In view of their complexity and because of the different states of readiness for implementation in the NHS, clinical guidelines are not subject to the same performance management assessment as NICE's technology appraisals. Compliance with NICE's clinical guidelines is a developmental standard for NHS organisations and the Government expect NHS organisations to implement them over time using available resources.

Use of NICE technology appraisals and clinical guidelines to prioritise investment and promote quality improvement is one of the ways in which primary care trusts can demonstrate progress towards becoming world class commissioners under the world class commissioning assurance framework.

NHS: Ernst and Young

Mr. Dai Davies: To ask the Secretary of State for Health what assessment he has made of the value for money of the consultancy work provided to the NHS by Ernst and Young. [294004]

Mr. Mike O'Brien: The Department has not undertaken a separate assessment of the work provided to the national health service by Ernst and Young. As part of its ongoing drive to make the NHS accountable at a local level, the NHS constitution and the statement of NHS accountability have placed the emphasis on ensuring value for money to the boards of NHS organisations.

NHS: Finance

Mr. Dai Davies: To ask the Secretary of State for Health what discussions he has had with *(a)* ministerial colleagues and *(b)* the International Monetary Fund (IMF) on proposals from the Economic Counsellor of the IMF that reforms are required in the healthcare system to tackle the UK's budget deficit. [294005]

Mr. Mike O'Brien: The Department has had no discussions with the IMF, who did not make specific reform proposals. The Chancellor of the Exchequer's Budget sets out a plan to address the Budget deficit. The implications for individual Government Departments will be set out in the next Spending Review, however the ministerial team has ongoing discussions about reforms needed to deliver best value from available national health service resources.

Oral Surgery Review Committee

Mrs. Curtis-Thomas: To ask the Secretary of State for Health when the Oral Surgery Review Committee first met; what the Committee's terms of reference are; how much notice of the meeting was given to members of the Committee; who the members of the Committee are; what relevant qualifications each has; and which members *(a)* attended and *(b)* did not attend the meeting. [293157]

Ann Keen: The Oral Surgery working group first met on 23 September 2009, members were given 52 days notice of the meeting.

The group's draft terms of reference, which are yet to be finalised, are: to understand the background of how the specialty of oral surgery (OS) has developed to date and its relationship to Oral and Maxillofacial Surgery (OMFS);to examine the service implications of the development of the specialty of OS; to identify the needs and expectations of patients and the public; to examine the current provision of education and training in OS; to assess the cost implications of the development and commissioning of OS; to assess the availability and accessibility of specialist services in both OS and OMFS with a specific focus on how the needs of patients and the public are currently met; and to consider the implications of any recommendations made by the OS review group and their feasibility.

Details of committee members are listed in the following table, with a note of whether they attended the first meeting.

Name	*Title/role*	*Attendance at meeting on 23 September 2009*
Professor Nairn Wilson (Chair)	Dean and Head of Institute, King's College London.	Yes
Keith Altman	Consultant Oral and Maxillofacial Surgeon, Chair of the British Dental Association's Central Committee for Hospital Dental Services.	—
Barry Cockcroft	Chief Dental Officer, England.	—
Professor Chris Franklin	Chair of the Committee of Postgraduate Dental Deans and Directors.	Yes
Michael Hahn	Consultant Oral Surgeon.	Yes

Name	*Title/role*	*Attendance at meeting on 23 September 2009*
Richard Hayward	Oral Surgeon working in general practice, former Dean of Faculty of General Dental Practice.	Yes
James Parker	Oral Surgeon working in hospital, past President of the British Association of Oral surgery.	Yes
Bernard Speculand	Consultant Oral and Maxillofacial Surgeon.	Yes
Derrick Willmot	Dean of Faculty of Dental Surgery.	Yes
Amit Bose	Policy Manager, Department of Health.	Yes
Rachel Noble	Project Manager.	Yes
Jerry Read	Head of Oral Health Section, Department of Health.	Yes

Party Conferences

Mr. Don Foster: To ask the Secretary of State for Health whether any of his Department's non-departmental public bodies sent representatives to attend one or more political party conferences in 2009. [293476]

Phil Hope: Of the Department's 10 non-departmental public bodies, only the Care Quality Commission sent representatives to the political party conferences in 2009.

Prescriptions: Fees and Charges

Mr. Sanders: To ask the Secretary of State for Health how much was spent on reimbursements of No Cheaper Stock Obtainable concessions in each month between June 2008 and September 2009. [293118]

Mr. Mike O'Brien: This information can be provided only at disproportionate cost.

Mr. Sanders: To ask the Secretary of State for Health how many No Cheaper Stock Obtainable applications from the Pharmaceutical Services Negotiating Committee were *(a)* received and *(b)* granted in each month between June 2008 and September 2009. [293119]

Mr. Mike O'Brien: The number of No Cheaper Stock Obtainable applications received and granted in each month between June 2008 and September 2009 is shown in the following table.

	Applications received from Pharmaceutical Services Negotiating Committee	*Applications granted by the Department of Health*
June 2008	5	5
July 2008	5	4
August 2008	2	2
September2008	2	2
October 2008	3	2
November 2008	9	8
December 2008	4	4
January 2009	4	3
February 2009	3	2
March 2009	5	3
April 2009	6	6
May 2009	5	5
June 2009	6	5
July 2009	6	6
August 2009	7	4
September 2009	6	5
Total	78	66

Source:
NHS Prescription Services Record of Concessions

Some applications granted may be for the same product in different months.

School Fruit and Vegetable Scheme

Mr. Todd: To ask the Secretary of State for Health pursuant to the answer of 30 June 2009, *Official Report*, column 233W, on the school fruit and vegetable scheme, when the pilot scheme will be complete; and when he expects the results of the pilot to be available. [294139]

Gillian Merron: There are no current pilots for the school fruit and vegetable scheme (SFVS). The scheme was originally piloted in more than 500 schools throughout England in 2000 and 2001 as the 'National Fruit Scheme'. An evaluation of the scheme can be found at the following address:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4009412

The scheme was taken over from the Big Lottery Fund by the Department in 2004 and is now operating throughout England.

Working in partnership with nutritionists from Leeds university, the National Foundation for Educational Research (NFER) evaluated the impact of the SFVS, and results were published in September 2007 on the Department's website at the following address:

www.dh.gov.uk/en/Publichealth/Healthimprovement/FiveADay/FiveADaygeneralinformation/DH_4002149

Further evaluation of the scheme by NFER started in May 2009, and is expected to be published sometime later this year.

Strokes

Jim Cousins: To ask the Secretary of State for Health how many new cases of *(a)* stroke and *(b)* transient ischaemic attack occurred in each primary care trust area in each of the last three years. [293190]

Ann Keen: The Information Centre for health and social care has provided the data requested. This information has been placed in the Library.

Swine Flu: Vaccination

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 12 October 2009, *Official Report*, column 765W, on swine flu, who will be responsible for giving housebound patients swine influenza vaccinations. [294114]

Gillian Merron: Arrangements for the vaccination of housebound patients against swine influenza will be the same as for seasonal influenza. As with seasonal influenza we are not being prescriptive about who should vaccinate housebound patients. It will be for primary care trusts to decide which health care professionals are best placed to vaccinate this group of patients but we would normally expect this to be undertaken by community nursing staff who are in regular contact with these patients anyway.

Thalidomide

Mr. Charles Kennedy: To ask the Secretary of State for Health whether he plans to review his policy on the provision of state financial aid for people affected adversely by thalidomide; and if he will make a statement. [292797]

Mr. Mike O'Brien: Thalidomide survivors are already compensated through a private settlement agreed between the Thalidomide Trust, the body established to administer payments to survivors, and Diageo PLC.

I am meeting with the National Advisory Council to the Thalidomide Trust on the 22 October to explore ways of improving access to personal budgets and direct payments in social care, as well as the feasibility of developing a pilot that tests the use of personal health budgets for thalidomide survivors.

Vulnerable Adults: Protection

Mr. Burstow: To ask the Secretary of State for Health what the timetable is for the publication of the Government's response to its consultation, "No secrets: guidance on developing and implementing multi-agency policies and procedures to protect vulnerable adults from abuse"; and if he will make a statement. [293102]

Phil Hope: The consultation on the review of "No secrets" was comprehensive and wide-ranging.

We were pleased that such a large number of people contributed to the review. A wide range of professionals, totalling approximately 9,000 and including social workers, health staff, police officers, probation staff, lawyers and many others, participated. We were particularly pleased that some 3,000 members of the public took part, including those with learning difficulties, older people, those with mental health problems and people from a wide variety of ethnic backgrounds, who came to the consultation events and debated and discussed the many issues with us.

The summary of the responses was published in July this year, together with all the responses from organisations. The analysis and consideration of such a large volume of responses takes time; these are complex matters, which cut across health, social care and the criminal justice system. The Government response is being prepared by four Departments; the Home Office, the Ministry of Justice, the Attorney-General's Office and the Department of Health.

We are examining all the issues raised and plan to make an announcement later this year.

Warfarin

Jim Cousins: To ask the Secretary of State for Health how many people received warfarin prescribed by a GP in each primary care trust area in each of the last three years. [293191]

Mr. Mike O'Brien: The number of patients prescribed a specific medicine is not collected centrally. Information on the number of warfarin prescription items prescribed in England and dispensed in the community in the United Kingdom, by primary care trust, has been placed in the Library.

BUSINESS, INNOVATION AND SKILLS

Broadband

Lembit Öpik: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department has taken to increase levels of access to broadband services since the publication of the Digital Britain report; and if he will make a statement. [294189]

Mr. Timms: The Department has recently set up the Network Design and Procurement Company which it pledged to do in the Digital Britain Report. The company will be responsible for the procurement process to deliver the necessary upgrade and replacement works to deliver the Universal Service Commitment (USC) for 2Mbps to virtually every community by 2012 and, in due course, the administration of the Next Generation Fund outlined in the Digital Britain White Paper.

On take up of broadband and the Digital Inclusion agenda, the Government have also appointed Martha Lane Fox as our Digital Inclusion Champion. Her role will be to find ways of helping people without previous experience of computers to develop the skills needed to make use of the internet in order to take advantage of the benefits it offers.

Business

Ann Winterton: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effect of overseas outsourcing on the UK labour market. [293507]

Mr. McFadden: The Department has made no formal assessment of the effect of overseas outsourcing on the UK labour market, though it has commissioned research in this area, notably on offshoring and wage inequality in the UK in 2007 (available on the BIS website) and a report from OVUM: "The impact of global sourcing on the UK software and IT services sector" in June 2006.

The Department also continues to monitor academic and other studies into overseas outsourcing. These have suggested that there are no significant links between overseas outsourcing and lower overall employment.

Business Council for Britain

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many times the Business Council for Britain has met in the last four years. [291889]

Ms Rosie Winterton: Since it was established in June 2007, the Business Council for Britain has met formally seven times.

Business Council for Britain: Finance

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what costs the Business Council for Britain has incurred in the last four years. [291888]

Ms Rosie Winterton: BIS provides secretariat support for the Business Council for Britain. Since it was established in June 2007, the Business Council has incurred a sum of £870 for hospitality, but no other costs for travel or other expenses.

Business Link

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many Business Link staff have been disciplined for financial irregularities in each of the last four years. [291970]

Ms Rosie Winterton: "Disciplined for financial irregularities" has been defined as any sanction under each employers disciplinary policy and procedures relating to breach of rules relating to financial transactions.

No Business Link employee who was directly employed in the provision of the Business Link service, by RDAs and their Business Link Providers, has been disciplined for financial irregularities since delivery of the Business Link service was contracted by RDAs to the current Business Link Providers. RDAs are unable to access the records of previous providers of the Business Link service.

Business Link: Travel

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on *(a)* standard, *(b)* business and *(c)* first class air travel by Business Link in each of the last four years. [292919]

Ms Rosie Winterton *[holding answer 14 October 2009]*: To gather this data to the level of detail and within the timeframe requested would incur disproportionate cost.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurants by Business Link staff in each of the last four years. [292930]

Ms Rosie Winterton *[holding answer 14 October 2009]*: To gather this data to the level of detail requested would incur disproportionate cost.

Business: Government Assistance

Paul Rowen: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses in each constituency have received trade credit insurance under the Working Capital Scheme. [288655]

Ms Rosie Winterton *[holding answer 21 July 2009]*: As of 2 October, 58 suppliers have purchased Trade Credit Insurance under the Government Top-up Scheme, in the following constituencies.

Constituency	*Number of suppliers*
Belfast South	1
Birkenhead	1
Birmingham, Ladywood	2
Birmingham, Sparkbrook and Small Heath	2
Bradford North	1
Broxbourne	1
Burnley	1
Cannock Chase	1
Cities of London and Westminster	1
Cleethorpes	1
Coatbridge, Chryston and Bellshill	1
East Hampshire	1
East Londonderry	1
Eccles	1

Mr. Gibb: To ask the Minister of State, Department for Business, Innovation and Skills how much had been lent by each approved lender under the Enterprise Finances Guarantee scheme since 14 January 2009. [292148]

Ms Rosie Winterton *[holding answer 12 October 2009]*: In relation to the amount of lending made by individual approved lenders I consider it important, at this stage, to maintain the confidentiality of information exchanged between Capital for Enterprise Limited (CFEL), which administers EFG on behalf of BIS, and participating lenders to maintain the trust of lenders using EFG and to maximise its use and effectiveness.

However, as of 7 October, over £860 million of eligible applications from over 7,500 firms has been granted, being processed or assessed by 27 active lenders. Of which, over 5,600 businesses have been offered loans totalling over £575 million.

CFEL and BIS closely monitor lending under the scheme, and the Department via CFEL is in regular contact with the central EFG teams for each approved lender.

Business: Insurance

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 9 September 2009, *Official Report*, column 2067W, on business insurance, what the monetary value of applications approved to date under the Trade Credit Insurance Scheme is. [292094]

Ms Rosie Winterton *[holding answer 12 October 2009]*: As of 2 October, the value of cover provided by approved applications under the Trade Credit Insurance Top-up Scheme is £13,029,000.

Business: Meetings

Mr. Dunne: To ask the Minister of State, Department for Business, Innovation and Skills whether *(a)* Ministers and *(b)* officials in his Department have met representatives of small businesses in the last 12 months to discuss security issues for such businesses arising from proposals to phase out cheques as methods of payment. [291744]

Ms Rosie Winterton: None.

Departmental Telephone Services

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills how many full-time equivalent officials in his Department work on the Pay and Work Rights telephone helpline service. [293642]

Mr. McFadden: There are six full-time equivalent officials in the Department who work on the Pay and Work Rights helpline, and the associated vulnerable workers awareness campaign. The helpline itself is provided by a third party supplier.

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of calls per calendar month to his Department's Pay and Work Rights telephone helpline service since the establishment of the service. [293643]

Mr. McFadden: The Department estimates that the average monthly call volume, including uplift due to the vulnerable workers awareness raising campaign, to the Pay and Work Rights helpline will be 6,000-15,000.

Gloucester Linkages Project

Mr. Dhanda: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to conclude his deliberations on the Gloucester Economic Linkages Project. [293964]

Ms Rosie Winterton: The Department has now approved the additional funding of £7.7 million being sought for the Gloucester Economic Linkages Project. I have today written to the South West Regional Development Agency informing them of this decision.

Regional Development Agencies: Manpower

Margaret Moran: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of staff of each regional development agency are *(a)* black and minority ethnic people and *(b)* women. [291759]

Ms Rosie Winterton: Staff are taken to be any individual who is directly paid and employed by the agency on a permanent or fixed term contract. The figures in the table exclude temporary staff, seconded staff, contractors, external consultants, chair and board members.

The following table provides the latest data held by each RDA:

RDA	*Number of staff members who identify as BME*	*Percentage of total staff who identify as BME*	*Number of staff members who are female*	*Percentage of total staff who are female*
AWM	54	15.1	180	49.7
EEDA[1]	6	2.6	128	55.9
EMDA	28	10	161	58
LDA	154	26.6	302	52.1
NWDA	36	8	206	43
ONE	11	2.6	274	65

RDA	*Number of staff members who identify as BME*	*Percentage of total staff who identify as BME*	*Number of staff members who are female*	*Percentage of total staff who are female*
SEEDA[2]	15	4.6	194	59.7
SWRDA[3]	3	1	205	58
YR	48	10.6	268	60.6

[1] The figure on BME staff is an estimate based on EEDA's internal CIPHR system, which requires staff to enter their ethnic classification. Not all EEDA staff have completed this section.

[2] Key population data for the south east (based on the latest Census) shows the population of the south east as 4.9 per cent. BME.

[3] Key population data for the south west (based on the latest Census) shows the population of the south west as 98 per cent. white. Please also note that the figure on BME staff is an estimate based on SWRDA's internal monitoring system, which requests staff to enter their ethnic classification. Not all SWRDA staff have completed this section.

Regional Development Agencies: Official Hospitality

Margaret Moran: To ask the Minister of State, Department for Business, Innovation and Skills what arrangements pertain to the receipt of hospitality by *(a)* staff and *(b)* board members of each regional development agency. [291477]

Ms Rosie Winterton: Each regional development agency (RDA) has established policy and procedures for the receipt of gifts and hospitality. All RDA staff and board members must declare gifts and hospitality received according to each RDAs' policy in their official registers.

Regional Development Agencies: Pay

Mrs. Spelman: To ask the Minister of State, Department for Business, Innovation and Skills how much was paid in bonuses to *(a)* the Chief Executive and *(b)* each board member of each regional development agency in each of the last three years. [277992]

Ms Rosie Winterton *[holding answer 4 June 2009]:* The information is as follows.

1. The financial value of the bonus payments made to RDA Chief Executives stated relates to performance against objectives delivered in the previous year. Details for each RDA are set out in the table.

2. Board members are not awarded performance related bonuses.

3. The data exclude London, which is the responsibility of the Mayor.

£

RDA	*2005/06*	*2006/07*	*2007/08*
AWM	20,697.48	22,341	23,102
EEDA	20,000	22,000	18,000
EMDA	16,515	21,225	22,838
NWDA[1]	22,649	22,649	19,252
ONE	22,594	23,278	23,102
SEEDA	25,500	17,404	24,579
South West RDA[2]	20,212	15,766	16,422
YF[3]	20,000	[3]26,000	17,000

[1] NWDAs bonus payments for 2005/06 and 06/07 were the same as they were both calculated on the 2006/07 salary as 2005/06 award was received late in the year.

[2] During 2006/07 SWRDA changed CEO. The figures for this year include costs for two CEOs.

[3] During 2005/06, YF changed CEO. The figure for 2006/07 is therefore comprised of bonuses paid to two CEOs and breaks down into separate payments £23,000 and £3,000 respectively.

Royal Mail: Meetings

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how many meetings the management of Royal Mail has had with the Communication Workers Union *(a)* since 2007 and *(b)* during 2009. [294546]

Mr. McFadden: Meetings that the management of Royal Mail has had with the Communication Workers Union are a matter which is the responsibility of Royal Mail's management. I have therefore asked the Chief Executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member.

A copy of the response will be placed in the Libraries of the House.

Shareholder Executive

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure the Shareholder Executive incurred on external advisory services in relation to the Launch Investment Support for *(a)* GKN and *(b)* Bombardier. [291896]

Ms Rosie Winterton: Shareholder Executive incurred no expenditure on external advisory services in relation to its work on the applications made by GKN or Bombardier although external advisers were appointed by the Department's Aerospace Industry Group.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how much has been raised from the sale of assets from the Shareholder Executive portfolio in each of the last four years. [291897]

Ms Rosie Winterton: The information is in the following table:

	US$ billion
2005-06	5.4
	0.3
2006-07	0
2007-08	2.4
2008-09	5.2

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure the Shareholder Executive incurred on external advisory services in each of the last four years. [291898]

Ms Rosie Winterton: The information is in the following table:

	£ Million
2005-06	4.7
2006-07	4.6
2007-08	[1]3.1
2008-09	[2]5

[1] £2.9 million gross spend less £6 million recovered.

[2] £11.4 million gross spend less £6.4 million recovered.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure the Shareholder Executive incurred on each class of air travel in each of the last four years. [291899]

Ms Rosie Winterton: We do not keep a record of class of air travel. A mixture of standard and business class is used dependent on availability and flexibility of flights.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what expenditure the Shareholder Executive incurred on *(a)* car hire, *(b)* train travel, *(c)* air travel, *(d)* hotels and *(e)* restaurants in each of the last four years; and what proportion of such expenditure was incurred in respect of the Corporate Finance Practice. [291900]

Ms Rosie Winterton: The following table shows expenditure incurred by Shareholder Executive (ShEx) in each area for each of the last four financial years and how much of this was incurred by Corporate Finance Practice (CFP). We do not have a breakdown for expenditure incurred in "*(e)* restaurants" as such claims are made as part of wider subsistence claims.

				£000
	Car hire (taxis)	*Rail travel*	*Air travel*	*Hotels*
2005-06				
ShEx	22.4	20.9	38.2	3.4
CFP	1.5	3.2	4.9	0.4
2006-07				
ShEx	17.8	18.6	9.3	5.9
CFP	1.1	5.2	4.4	0.8
2007-08				
ShEx	11.3	23.2	12.0	6.4
CFP	1.1	4.8	2.7	0.9
2008-09				
ShEx	13.6	44.6	20.6	4.9
CFP	0.5	5.8	0.3	0.3

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how much the Shareholder Executive spent on staff entertainment in each of the last four years. [291901]

Ms Rosie Winterton: The information is in the following table:

	£
2005-06	0
2006-07	170
2007-08	420
2008-09	555

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many people were employed in the Corporate Finance Practice of the Shareholder Executive in each of the last four years. [291942]

Ms Rosie Winterton: The number of staff employed in the Corporate Finance Practice (CFP) at the end of each of the last four financial years was as follows:

	Number
2005-06	3
2006-07	3
2007-08	7
2008-09	8

The number of staff currently employed in CFP is 11.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many times representatives of the Shareholder Executive have met the Executive's Advisory Group since May 2008. [291943]

Ms Rosie Winterton: Representatives of the Shareholder Executive have met the Advisory Group on six occasions since May 2008.

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of progress towards achieving the Government's target for asset sales from the Shareholder Executive in each of the last four years. [292716]

Ms Rosie Winterton: The Government have announced a target of securing £16 billion from asset and property disposals for the period to end-March 2014. Of this, £3 billion is expected to come from asset sales. Shareholder Executive is working with HM Treasury and other asset-owning Departments to progress this work. An update on progress against this target will be included in the autumn pre-Budget report.

Shareholder Executive has not previously been set targets for asset sales.

Students: Loans

Paul Rowen: To ask the Minister of State, Department for Business, Innovation and Skills (1) what his most recent estimate is of the amount owing to the Student Loans Company in repayments and loans; [294116]

(2) what estimate he has made of the number of students who owe money for *(a)* tuition fee loans and *(b)* maintenance loans. [294117]

Mr. Lammy: Provisional information shows that at the end of financial year 2008-09 the total student loan balance for England was £25.97 billion. This includes loans not yet due for repayment and covers fee loans and maintenance loans, including the older mortgage style loans. At the same point in time there were 962,300 borrowers with tuition fee loans. There were 2,866,000 borrowers with maintenance loans, of whom 298,200 had the older mortgage style loans.

Paul Rowen: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the likely effect of the proposed sale of the student loans book on *(a)* the interest rate on student loans and *(b)* students who are borrowing or repaying loans; and if he will make a statement. [294118]

Mr. Lammy: Regardless of whether a loan is sold or retained, there will be no change in the regulations, terms and conditions for existing loans. Purchasers of sold loans will not be able to charge a different rate of interest; they will not be able to change the income threshold for repayments; and they will not be able to use a borrower's personal details for any purpose beyond that which is required for management of the loans.

ENERGY AND CLIMATE CHANGE

Departmental Recruitment

Mr. Hoyle: To ask the Secretary of State for Energy and Climate Change what data his Department and its predecessor holds on the level of diversity in its recruitment of employees in each of the last three years. [290512]

Joan Ruddock: No data are available centrally from either BIS or DEFRA (predecessor Departments). As DECC have also used BIS on an outsourced basis for all recruitment since its inception, similarly no data are available for this period. The data could be obtained only at disproportionate cost.

Departmental Responsibilities: Costs

Simon Hughes: To ask the Secretary of State for Energy and Climate Change how much *(a)* his Department and *(b)* its agencies spent on (i) electricity, (ii) heat, (iii) water and sewerage services and (iv) disposal of waste on the latest date for which figures are available; what proportion of such (A) electricity and (B) heat was from renewable sources; what the weight was of such waste; what proportion of such waste was recycled; at what cost such waste was recycled; and what area of office floor space (1) his Department and (2) its agencies own or lease. [290457]

Joan Ruddock: Since its inception, DECC has made use of the Department of Business, Innovation and Skills (formerly BERR) and DEFRA's central facilities management systems. As a consequence the information you have requested is not held centrally by the Department.

For the latest available figures from BIS and DEFRA I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for the Department of Environment, Food and Rural Affairs on 16 October 2009, *Official Report*, column reference 1156W. This response includes Whitehall Place, which is now occupied by DECC, but covers 2007-08 which is prior to the formation of DECC. No later information is currently available.

We do however have information on one of our buildings, Atholl House in Aberdeen, which is based on a DECC occupancy of 30 per cent (1,567 square metres) covering the period 1 April 09 to 31 August 2009.

Members: Correspondence

Mr. Evennett: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 12 October 2009, on Dartford Creek cable bridge, whether his Department received a letter dated 3 August 2009 from the hon. Member for Bexleyheath and Crayford on the subject. [293598]

Mr. Kidney: I can confirm that the hon. Member's letter dated 3 August 2009 was received by the Department. I understand that my noble Friend the Minister of State responded in September 2009.

Written Questions: Government Responses

Mr. Evennett: To ask the Secretary of State for Energy and Climate Change when he expects to provide a substantive reply to question 290928 tabled on 9 September 2009 on the power cut at Dartford Creek on 20 July 2009. [293214]

Mr. Kidney: The hon. Member for Bexley and Crayford was given an incorrect answer to his question on 12 October 2009, *Official Report*, column 486W. I refer the hon. Member to the written ministerial statement I made today correcting this answer.

CHILDREN, SCHOOLS AND FAMILIES

Education Maintenance Allowance

Mr. Flello: To ask the Secretary of State for Children, Schools and Families if he will review the criteria for educational maintenance allowance (EMA) with a view to granting greater discretion in allowing reassessment of eligibility for EMA in circumstances where a household's income changes substantially within a financial year. [292376]

Mr. Iain Wright: We have no current plans to change the criteria for EMA eligibility. For most young people, eligibility for education maintenance allowance (EMA) is subject to an assessment of their household income based on the financial year prior to the academic year in which they start their course. A successful assessment provides a young person with a guaranteed entitlement of up to three years of EMA on the same rate regardless of whether their income increases. If there is a drop in income from one year to the next then a young person may apply to be reassessed for the subsequent academic year. They could be assessed as eligible for EMA where they were not previously, or an increased rate of it. They would receive the EMA guarantee based on the rate awarded following the most recent assessment.

There are a limited number of exceptional circumstances in which a young person may apply to be reassessed for EMA during the academic year.

Those circumstances are:

(i) someone whose income was taken into account in determining financial eligibility has died;

(ii) a person whose income was taken into account in determining financial eligibility has experienced a reduction in income due to their own disability, or the disability of any other person for whom he or she has responsibility as primary carer (disability means as defined in the Disability Discrimination Act 1995);

(iii) Since the assessment of income was made, the young person has become estranged from their parents, guardians or someone else whose income was taken into account in determining financial eligibility;

(iv) The young person has become a parent with responsibility for their own child.

The financial needs of young people can be affected by a range of circumstances, including reductions in household income due to redundancy, or reduced working hours. Other mechanisms exist to help with the costs of supporting young people aged 16 to 19 in learning. Child benefit provides support for parents regardless of income, and tax credits are designed to tailor support to current circumstances and to be responsive to changing needs.

In addition to the support provided to families, discretionary learner support funds are made available via the Learning and Skills Council to colleges and local authorities. This funding is provided to enable schools and colleges, using their discretion, to help individual learners who may otherwise experience financial hardship or barriers to continuing in learning.

This year we have strengthened the guidance to providers to emphasise that these funds must be targeted to young people who have most need of them, including those who may face financial hardship following in year changes to their household income.

We will continue to look at additional help via discretionary learner support funds and provide rapid and appropriate responses to changes in employment.

Paddy Tipping: To ask the Secretary of State for Children, Schools and Families if he will estimate the cost of extending education maintenance allowance to all school leavers entering further education; and if he will make a statement. [293541]

Mr. Iain Wright: EMA was introduced as an incentive to encourage more young people from lower income households to stay on in post compulsory learning, and to address the issue that the UK had one of the lowest post-16 participation rates in OECD countries. The scheme was piloted from 1999 and rolled out nationally, to consecutive cohorts of learners in full-time education, from September 2004. It was extended to trainees in unwaged training provision in 2006.

We have previously estimated that, to have made the lowest level of EMA (the £10 per week payment) available to all learners not already receiving it would have increased expenditure by around £300 million in the 2007/08 academic year. We have not estimated the cost for 2009/10 and do not plan to do so. We believe that, to be effective, state support needs to be targeted where there is most need.

Education: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent estimate he has made of the average annual cost to schools of delivering *(a)* Key Stage 1 and 2 national tests, *(b)* GCSEs and *(c)* A-levels and AS-levels; and if he will make a statement. [293411]

Mr. Iain Wright: The National Curriculum tests for Key Stage 1 and 2 are made freely available to schools.

For GCSEs, A-Levels and AS-Levels the Department began collecting information in 2002-03 in sufficient detail to answer this question. No comparable data is available for previous years. The information in the table below covers the combined costs of all relevant examination entry fees, including GCSEs, A/AS levels and GNVQs, and any accreditation costs related to pupils. We do not collect separate data on each type of qualification.

Examination Fees

	(E21)[1](£)[2]
2002-03	155,611,000
2003-04	173,843,000
2004-05	198,227,000
2005-06	220,056,000
2006-07	240,861,000
2007-08[3]	265,305,000

[1]. Includes expenditure by local authority maintained schools in England on the costs of examination entry fees, and costs of accreditation related to pupils (the payments centres make to awarding bodies to register with them to take their qualification). This includes GCSEs, A/AS levels and GNVQs; it excludes the cost of exam resources like test papers, or administration costs in schools.
[2]. Figures are rounded to the nearest thousand pounds.
[3]. 2007-08 data remains provisional and subject to change.

http://www.dcsf.gov.uk/localauthorities/section52/subPage.cfm?action=section52.default&ID=58
(Budget Data Archive)

European Schools

Mr. Boswell: To ask the Secretary of State for Children, Schools and Families what steps he is taking to encourage the development and modernisation of the network of European schools in respect of their *(a)* governance, *(b)* finance and *(c)* pedagogy, with reference both to (i) actions within the UK and (ii) by seeking international agreement. [294038]

Mr. Iain Wright: At international level the UK actively engages in discussions at the European Schools Board of Governors to develop and modernise the system. Steps currently being taken include:

(a) giving the 14 European Schools greater autonomy and control of their budgets;

(b) establishing a method to achieve a fairer distribution among member states of the cost of seconding teachers; and

(c) an evaluation of the European Baccalaureate.

Within the UK, work is ongoing with interested parties to explore the possibility of the European School of Culham becoming an Academy and moving into the English national system.

Outreach Workers

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how many outreach workers are expected to be employed through the £79 million expenditure for outreach workers up to 2011 announced by his Department; [294111]

(2) how many outreach workers were employed in Sure Start Children's Centres in each quarter for which information is available; and what qualifications such workers are required to have. [294112]

Dawn Primarolo: The Department does not collect information on how many outreach workers have been, or are expected to be, employed by 2011 in Sure Start children's centres. Staffing levels in children's centres are a matter for local management by local authorities and their partner agencies. The Government's "Sure Start Children's Centres: Phase 3 Planning and Delivery" document suggests that in the most disadvantaged areas there should be at least three outreach workers per children's centre. In less disadvantaged areas, local authorities will decide on the best approach based on their assessment of local needs.

The additional funding which the Government have made available each year since 2008 means that local authorities can increase the number of outreach workers in centres serving the most disadvantaged communities by two, in addition to the funding for one outreach worker per children's centre that had already been included in local authorities' Sure Start early years and child care grant. Funding for outreach is not a separate sum of money allocated to local authorities—they decide how to allocate funding to individual children's centres in their area to meet the needs in each community.

The qualifications required for practitioners engaged in outreach in Sure Start children's centres will depend on the different job roles and purposes developed in each centre, which will be in response to local need. Relevant qualifications include those from child care, family support, social care, counselling, teaching and community work. The Sure Start children's centres practice guidance makes clear the expectation that children's centres should be working towards all staff being trained to at least NVQ level 2.

Pre-school Education

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what the estimated cost is of extending the free early education entitlement to 250,000 extra two year olds; and from which budget the funding will be provided. [294109]

Dawn Primarolo: The extension of the free early education entitlement to 250,000 extra two-year-olds is being fully funded through savings from phasing out tax relief on child care vouchers at no extra cost to the taxpayer. More details will be set out in the pre-Budget report.

Qualifications and Curriculum Development Agency: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much funding he expects to allocate to the Qualifications and Curriculum Development Agency in *(a)* 2009-10 and *(b)* 2010-11; and if he will make a statement. [293397]

Mr. Iain Wright: The Qualifications and Curriculum Authority's budget for 2009-10, which includes funding for Ofqual, is £188 million.

There has been no decision on funding for 2010-11.

Schools: Transport

Tim Farron: To ask the Secretary of State for Children, Schools and Families how much funding his Department has contributed to the Travelling to School Initiative in rural areas in each year since the initiative began. [294055]

Dawn Primarolo: Funding for the Travelling to School Initiative is allocated on a local authority wide rather than an area basis. Consequently we are unable to provide the data requested.

TREASURY

Banks: Iceland

Mr. Oaten: To ask the Chancellor of the Exchequer what recent discussions he has had with the Icelandic government on its plans to reimburse the UK for expenditure incurred as a result of the collapse of Icelandic banks. [294040]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings and discussions with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings and discussions.

Child Trust Fund: Bexley

Mr. Evennett: To ask the Chancellor of the Exchequer how many children in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley had received child trust fund payments on the latest date for which figures are available. [293131]

Sarah McCarthy-Fry: The latest statistics on child trust fund accounts, to be published in the near future, show that 5,587 children born before 6 April 2008 in the Bexleyheath and Crayford constituency and 15,480 children born before 6 April 2008 in the London borough of Bexley have a child trust fund account.

Previous years' statistics were published on 6 November 2008 and can be viewed on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/ctf/cons-stats-oct08.pdf

Departmental Official Cars

Andrew Stunell: To ask the Chancellor of the Exchequer how much his Department spent on hire vehicles in each of the last five financial years. [291507]

Sarah McCarthy-Fry: Spending by the Treasury on car hire in the last five years is set out in the following table. In 2007 the Treasury and the Office of Government Commerce corporate services merged to create the Treasury

Group Shared Services, which works across two sites (one in London and one in Norwich) The programme realised savings of £1.9 million, as reported in table 4a of the addendum to the Autumn Performance Report 2008, available from:

www.hm-treasury.gov.uk/d/apr2008_addendum120509.pdf

	Amount (£000)
2008-09	7
2007-08	7
2006-07	6
2005-06	3
2004-05	3

Departmental Rail Travel

Mr. Burstow: To ask the Chancellor of the Exchequer how much his Department spent on first class rail travel for civil servants in each of the last three years; and if he will make a statement. [293094]

Sarah McCarthy-Fry: Information on the number and class of tickets purchased is not normally held, because the Treasury's accounting system records the costs of travel but not the number or type of tickets bought. However, the Treasury's travel management company provided information on the number and type of tickets purchased through them covering travel by all members of the Department, including Ministers.

The combined spending of HM Treasury and the Debt Management Office on UK and overseas first class rail travel was £546,000 in 2006-07, £447,000 in 2007-08 and £379,000 in 2008-09. Tickets bought but subsequently refunded are excluded and some tickets are bought directly by the traveller, so this information is not a complete record of all tickets purchased.

All travel is undertaken in accordance with the 'Civil service Management Code' and the 'Ministerial Code'.

Financial Services Authority's Retail Distribution

Philip Davies: To ask the Chancellor of the Exchequer what estimate has been made of the number of independent financial advisers who will be required to requalify as a result of implementation of the proposals in the Financial Services Authority's Retail Distribution Review. [293113]

Sarah McCarthy-Fry: The Retail Distribution Review is a matter for the FSA, as the independent regulator. The FSA's current estimate is that less than half of Independent Financial Advisers will need to gain a new qualification. However, this estimate is made difficult because there is currently no register of the relevant information, the qualification requirements have not been finalised and Independent Financial Advisers gain new qualifications continually.

Members: Correspondence

Lynne Jones: To ask the Chancellor of the Exchequer for what reason letters sent from his Department in 2009 to the hon. Member for Birmingham, Selly Oak from *(a)* the Financial Secretary to the Treasury, dated 12 March (ref. A/852/08), 2 June (ref. 1/70557/09) and 17 August (ref. 3/10608/09), *(b)* the Financial Services Secretary, dated 17 June (ref. 5/3755/2008) and 25 July (ref. 5/04757/2009) and *(c)* the Exchequer Secretary to the Treasury, dated 15 June (ref. 4/33435/2009) and 4 August (ref. 3/10485/2009) were printed on one side of each sheet of paper only. [293872]

Sarah McCarthy-Fry: I refer the hon. Member to the answer I gave her on 12 October 2009, *Official Report*, column 252W. The Treasury continues to work towards further increasing the use of double sided printing.

Royal Mail

Mr. Tyrie: To ask the Chancellor of the Exchequer pursuant to the answer of 12 October 2009, *Official Report*, columns 23-28, on sale of Government assets, what consideration he gave to including all or part of Royal Mail in the portfolio of assets which are proposed to be sold. [293442]

Mr. Byrne: Royal Mail was not specifically mentioned in the portfolio of assets announced on 12 October because it and the postal market have already been subject to a wide ranging review led by Richard Hooper CBE which reported less than a year ago.

The proposed sale of a minority stake in Royal Mail is part of a wider package of measures to secure its future and to ensure that the universal postal service is maintained. Under this package Royal Mail would remain in public ownership.

Tax Allowances

Mrs. Maria Miller: To ask the Chancellor of the Exchequer what the estimated saving to the public purse is from removing the employer-supported childcare tax and national insurance exemptions. [294110]

Mr. Timms: Further details of the changes to income tax and NICs exemptions for Employer Supported Childcare (ESC) will be published alongside the 2009 pre-Budget report.

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the cost to businesses of submitting tax returns online in *(a)* ASCII and *(b)* XBRL formats. [293158]

Mr. Timms: No estimate of the cost to business of submitting tax returns online using ASCII has been made.

In April 2009 HM Revenue and Customs (HMRC) published an updated impact assessment about online filing services, including the use of XBRL enabled software. The impact assessment is available at:

http://www.hmrc.gov.uk/ria/carter-ia-final1.pdf

At that stage, the work on XBRL was largely qualitative rather then quantitative However there have been rapid developments in the XBRL market over the last six months. HMRC will publish an updated impact assessment reflecting this shortly.

Jim Cousins: To ask the Chancellor of the Exchequer what *(a)* requirements and *(b)* guidance apply to the promotion of tax avoidance schemes by banks in receipt of assistance under the (i) Asset Protection Scheme and (ii) Credit Guarantee Scheme. [293192]

Sarah McCarthy-Fry: We cannot comment on the affairs of individual taxpayers due to taxpayer confidentiality. We expect all banks to comply fully with their tax obligations and although avoidance is not illegal we vigorously challenge it, through the courts if necessary, including where the bank is partly owned by the Government.

The Government and HM Revenue and Customs have always moved quickly and effectively to tackle tax avoidance in all its forms. The 2009 Budget announced further measures to tackle avoidance including disclosure regime enhancement, swift action to close down aggressive tax avoidance schemes, publicity for avoidance schemes which are considered ineffective, and new principle-based approaches to avoidance legislation. In June HM Revenue and Customs published a consultation document on a voluntary code of practice on taxation for the banking sector. The code seeks to ensure that banks comply with not just the letter, but also the spirit of the law.

Jim Cousins: To ask the Chancellor of the Exchequer what terms and conditions apply to the agreements made by the Government for amnesties for British taxpayers with accounts in *(a)* Liechtenstein and *(b)* British overseas territories; what the reasons are for such terms and conditions in each case; and if he will make a statement. [293193]

Mr. Timms: Two separate arrangements—the New Disclosure Opportunity (NDO) and Liechtenstein Disclosure Facility (LDF)-were launched on 1 September 2009.

Both provide taxpayers with an incentive to disclose voluntarily income, gains and assets hidden offshore and pay back taxes together with interest and penalties. The NDO is the last opportunity for people to come forward voluntarily and receive favourable penalties. If they do not, they will be leaving themselves open to investigation and potential criminal prosecution after 30 November 2009 when the notification window closes.

Details of the terms and conditions of both of these arrangements are available on the HMRC website:

http://www.hmrc.gov.uk/disclosure/liechtenstein-disclosure.htm

http://www.hmrc.gov.uk/offshoreaccounts/feature-terms.htm

Taxation: Holiday Accommodation

Mr. Weir: To ask the Chancellor of the Exchequer what modelling his Department has undertaken on the likely effects the abolition of furnished holiday lettings tax relief will have on *(a)* tourism, *(b)* rural areas and *(c)* regional economies. [293437]

Mr. Timms: The Government announced the withdrawal of the furnished holiday lettings scheme from 2010 at the 2009 Budget in order to provide advance notice of the change, and allow those affected time to plan.

Estimates of the revenue impact of this change were published at Budget 2009. An impact assessment will be published at the 2009 pre-Budget report alongside draft legislation.

Mr. Weir: To ask the Chancellor of the Exchequer what legal advice his Department took in advance of the decision to abolish furnished holiday lettings tax relief. [293438]

Mr. Timms: As was the case with the previous Administration, it is not the Government's practice to provide details of its legal advice.

Mr. Weir: To ask the Chancellor of the Exchequer what consultation his Department undertook with stakeholders in advance of the decision to abolish furnished holiday lettings tax relief. [293439]

Mr. Timms: The decision to repeal the Furnished Holiday Lettings relief from April 2010 was taken because the relief may not be compliant with EU law. It was therefore not appropriate to consult on whether a change should be made.

The repeal was announced in the Budget 2009 in order to provide advance notice of the change, and allow those affected time to plan.

Although a formal consultation is not planned, the Government do intend to publish draft legislation at the 2009 pre-Budget report, and will be happy to receive comments at that time.

Mr. Weir: To ask the Chancellor of the Exchequer what estimate he has made of the number of businesses which will be affected by the abolition of furnished holiday lettings tax relief. [293440]

Mr. Timms: HM Revenue and Customs' (HMRC) administrative systems do not record the number of companies with income from furnished holiday lettings. Based on information held by Companies House, we estimate that fewer than 500 companies have furnished holiday lettings as their main source of income. There may also be a number of companies who have a small amount of furnished holiday lettings income to supplement their main source of income.

More broadly, in 2007-08, the last full year for which information is available, approximately 60,000 individuals declared income from furnished holiday lettings to HMRC.

An impact assessment will be published at the pre-Budget report 2009 alongside draft legislation.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer what aerial photography the Valuation Office Agency has obtained for its new Geographical Information System; and whether this information was obtained *(a)* through the Pan-Government Agreement, *(b)* directly from Ordnance Survey or *(c)* by another means. [292751]

Ian Pearson: As noted in the response given by the former Financial Secretary on 21 April 2009, *Official Report*, column 1688W, the use of aerial photography is not within the scope of the Agency's Geographical Information System.

Working Tax Credit

Jim Cousins: To ask the Chancellor of the Exchequer how many working tax credit recipients were receiving the 50-plus element on 1 January *(a)* 2008 and *(b)* 2009. [293189]

Mr. Timms: The estimated number of households receiving working tax credit and benefiting from the 50-plus element on 1 January 2008 was 14,600.

The equivalent figure for 1 January 2009 was 16,600 households.

WOMEN AND EQUALITY

Equality and Human Rights Commission: Manpower

John McDonnell: To ask the Minister for Women and Equality what the Equality and Human Rights Commission's *(a)* budget and *(b)* estimated expenditure on interim staff is for 2009-10. [294050]

Maria Eagle: Costs and projected spend on interim staff for 2009-10 is as follows:

		£000
	Budget	*Actual*
2009-10	—	[1]6,592

[1] Provisional

There was no budget set for agency or interim staff costs. These costs were managed within the overall budget for staffing.

The Commission are currently undertaking a mid-year review of all budgets so the 2009-10 budget is subject to change.

John McDonnell: To ask the Minister for Women and Equality what the Equality and Human Rights Commission's budget for interim staff was in *(a)* 2007-08 and *(b)* 2008-09. [294051]

Maria Eagle: The Equality and Human Rights Commission came into existence in October 2007. Interim staff costs from October 2007 are as follows:

	Actual (£000)
October 2007 to March 2008	1,818
April 2008 to March 2009	6,247

There was no budget set for agency or interim staff costs. These costs were managed within the overall budget for staffing.

Equality and Human Rights Commission: Pay

John McDonnell: To ask the Minister for Women and Equality how many staff in each grade employed by the Equality and Human Rights Commission received no pay rise in each of the last two years. [294053]

Maria Eagle: The breakdown of employees of the Equality and Human Rights Commission by grade who have received no pay rise during 2007-08 and 2008-09 is as follows:

Level	*Total*	*Percentage of total permanent employees*
Director and above	18	100.0
L1	8	32.0
L2	9	9.8
L3	31	21.7
L4	32	31.7
L5	18	28.1
Legacy grades	8	50.0
Total	124	26.2

CABINET OFFICE

Charity Commission

Mr. Tyrie: To ask the Minister for the Cabinet Office (1) what declaration of political activity has been made by each *(a)* Commissioner and *(b)* Executive Director of the Charity Commission; [292597]

(2) what the total annual monetary remuneration of each commissioner of the Charity Commission is, including *(a)* expenses and *(b)* monies paid to compensate for tax liability. [292598]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the commission to reply.

Letter from Andrew Hind, dated October 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Questions that ask for a list of declarations of political activities made (292597) and the total annual monetary remuneration of each Board member including expenses and any monies paid to compensate for tax liability (292598).

Appointments to the Commission's non-executive Board (as 'Members of the Commission') only came under the formal regulation of the Office of the Commissioner for Public Appointments (OCPA) in February this year, so a declaration of political activity has not yet been required from the majority of our Board members. The Chair, however, was re-appointed in July under OCPA's formal regulation, so a declaration of political activity was made then. That declaration was that the Chair is inactive politically. The senior Executive team - me and the four Executive Directors, are all Senior Civil Servants and thus abide by the Civil Service Management Code and contractual commitments to impartiality; all of us are politically inactive.

We have a comprehensive biographical section and Register of Interests available publicly on our website, respectively at http://www.charitycommission.gov.uk/tcc/commissioners.asp and http://www.charitycommission.gov.uk/tcc/decint.asp. These provide further details of the Commission's Board members' and senior executives' backgrounds.

Details of the remuneration of Members of the Commission are shown in our 2008/09 Resource Accounts, available in the House Library and on our website at http://www.charitycommission.gov.uk/Library/spr/pdfs/reac0809.pdf. For ease, I attach at Annex A the relevant table (extended slightly to reflect the compensation for tax liability and the content of this letter) from these accounts. Members of the Commission are remunerated at a rate of £350 a day. The terms of their appointments are for 4-6 days a month for the two legally-qualified Members and 2-3 days a month for the others. The Chair's appointment is for a minimum of three-days-a-week.

Expenses for 2008/09 are also published on our website at http://www.charitycommission.gov.uk/tcc/expenses.asp and I attach this table at Annex B. We will be publishing, in the next few weeks, the first six months' of expenses claimed / paid in 2009/10.

I hope this is helpful and please do let me know if you wish to discuss or need anything further.

Annex A: 2008-09 remuneration (audited)

	2008-09 remuneration (£000)
Dame S. Leather DBE[1] (Chair)	80-85
J. Williams[1] (Member)	20-25
T. Woodcraft[1] (Member)	5-10
Simon Jones[2] (Member)	15-20
Sharmila Nebhrajani[2] (Member)	5-10
Dr. Andrew Purkis OBE[2] (Member)	10-15
Theo Sowa[2] (Member)	10-15
Simon Wethered[2] (Legally-qualified Member)	20-25
John Wood[2] (Legally-qualified) Member)	15-20

[1] Indicates part-time non-Executive appointed on a three-year fixed term contract, with the option of extension or reappointment. J. Williams and T. Woodcraft transferred to the new contracts for members on 4 January 2008 and 1 May 2008 respectively, and since transfer, receive the same remuneration as those members appointed since 1 July 2007.

[2] Members appointed since July 2007 receive a daily fee of £350. No pension contributions are paid.

Note:

In addition to the above, Dame Suzi Leather in accordance with her contract of employment received additional payments amounting to £25,403 in respect of reimbursement of travel and subsistence costs arising from her home base being out of London. The Charity Commission meets the resulting tax liability of £22,335 for this contractual commitment.

Annex B: Charity Commission expenses incurred by board members and the senior executive team

In line with its commitment to transparency and openness, the Charity Commission has decided to publish board members', chief executive's and directors' expenses online. This publication of expenses covers the financial year 2008-09 (1 April 2008 to 31 March 2009) for each board member and director by significant expense class—see following table.

Expenses will be published hereafter quarterly, i.e. covering the previous three months. These expenses will be scrutinised by the Charity Commission's Audit Committee every six months.

	Subsistence	*Mileage*	*Accommodation*	*Rail*	*Flights*	*Taxis*	*Bus/ Coach*	*Parking*	*Postage*	*Food*	*Total*
Board members											
Dame S. Leather (Chair)	125.03	102.72	330.23	1,110.06	—	4,697.22	—	—	—	—	6,365.26
J. Williams	—	—	—	286.43	—	30.00	—	—	—	—	316.43
T. Woodcraft	—	—	—	66.43	—	—	—	—	1.08	—	67.51
S. Jones	—	24.80	815.69	2,086.30	—	124.50	—	2.00	8.95	223.81	3,286.05
S. Nebhrajani	—	—	—	23.48	—	53.00	—	—	—	—	76.48

S. Wethered	—	—	91.41	267.36	—	58.69	—	—	—	—	417.46
J. Wood	—	—	91.29	149.58	—	32.00	—	—	—	27.41	300.28
Total	125.03	127.52	1,419.91	4,359.78	0.00	5,004.41	0.00	2.00	10.03	257.57	11,306.25
Directors											
A. Hind (CEO)	—	—	864.12	2,248.77	63.43	681.89	9.00	—	—	139.48	4,006.69
R. Chapman	86.88	—	407.86	2,473.70	491.78	834.50	—	—	—	—	4,294.72
K. Dibble	232.03	28.80	658.58	1,437.22	—	443.77	—	—	—	—	2,800.40
N. Allaway	—	140.80	451.40	3,687.00	114.00	6.60	1.50	14.50	—	—	4,415.80
D. Locke	1,146.02	—	3,001.24	4,705.30	—	444.90	—	—	—	15.89	9,313.35
Total	1,464.93	169.60	5,383.20	14,551.99	669.21	2,411.66	10.50	14.50	—	155.37	24,830.96
Grand total	1,589.96	297.12	6,803.11	18,911.77	669.21	7,416.07	10.50	16.50	10.03	412.94	36,137.21

Notes:

1. The reported expenses include the cost of all travel, accommodation and other support services for board members, the chief executive and directors. The variation in travel and accommodation expenses between board members reflects their respective time commitments and duties, the range of activities they undertake, the location of their homes and other individual factors. All board members, directors and the chief executive are required to travel around the UK to some extent.
2. The Commission has four offices in England and Wales: London, Liverpool, Newport (Gwent) and Taunton. With the probable exception of the chair and chief executive, the majority of board members' and directors' travel is between these offices.
3. Rail travel and accommodation are mainly booked through central agencies rather than by individuals who then claim the expense back. The costs shown, therefore, are those incurred by individuals rather than 'expenses claimed'.
4. 'Subsistence' covers the allowances payable for significant time out of the office and for overnight stays, at rates agreed with HMRC.
5. Where the board and directors attend key events that are organised centrally and through a 'block booking' by the Commission, e.g. where open board meetings are held away from the London office, the accommodation and food costs are not included as, retrospectively, this would involve disproportionate resource and expense. Events of this type held in 2008-09 were open board meetings in Liverpool and Swansea, the Charity Commission's Annual Public Meeting in London and the board's away day in Hertfordshire. The cost of these would add around £300 in total to each individual's accommodation/food costs.

Former Ministers

Mr. Meacher: To ask the Minister for the Cabinet Office which former Ministers have been given leave to take up appointments in the private sector within two years of leaving ministerial office; and which appointment each was given leave to accept. [290644]

Tessa Jowell: The Ministerial Code, published in July 2007, states that on leaving office, Ministers must seek advice from the Advisory Committee on Business Appointments about any appointments or employment they wish to take up within two years of leaving office, apart from unpaid appointments in non-commercial organisations.

Details of advice given by the Committee on appointments taken up by former Ministers are outlined in the Committee's annual reports which are available in the Libraries of the House or on its website at:

www.acoba.gov.uk

Households: Poverty

Mr. Oaten: To ask the Minister for the Cabinet Office what her latest estimate is of the number of *(a)* households and *(b)* households in poverty without a landline telephone. [294041]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply to the hon. Member. A copy of the response will be placed in the Libraries of the House.

Unemployment

Miss McIntosh: To ask the Minister for the Cabinet Office how many people resident in *(a)* Vale of York constituency and *(b)* England were in receipt of jobseeker's allowance on the latest date for which figures are available. [293179]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people resident in (a) Vale of York constituency and (b) England were in receipt of jobseekers allowance on the latest date for which figures are available. (293179)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. In September 2009 the number of persons claiming JSA who were resident in the Vale of York was 1,185. The number of persons claiming JSA who were resident in England was 1,329,140.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at: http://www.nomisweb.co.uk.

Written Questions: Government Responses

Mr. Greg Knight: To ask the Minister for the Cabinet Office when she expects to answer Question 281652, on Civil Service nationality, tabled on 17 June 2009. [293864]

Tessa Jowell: Question 281652 was answered on 9 October 2009. It appears in the *Official Report*, dated 12 October 2009, columns 397-99W.

Young People: Jobseeker's Allowance

Lembit Öpik: To ask the Minister for the Cabinet Office what proportion of people aged between 16 and 24 years in Montgomeryshire was claiming jobseeker's allowance on the latest date for which figures are available; and if she will make a statement. [294186]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what proportion of people aged between 16 and 24 in Montgomeryshire was claiming job seeker's allowance on the latest date for which figures are available. (294186)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. In September 2009 the proportion of 16 to 24 year olds resident in the Montgomeryshire parliamentary constituency claiming Jobseeker's Allowance was 7.7 per cent.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at: http://www.nomisweb.co.uk.

COMMUNITIES AND LOCAL GOVERNMENT

Buildings: Energy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the re-cast Article 4 of the Energy Performance of Buildings Directive will require minimum energy performance standards for existing *(a)* domestic and *(b)* non-domestic buildings which are not otherwise laid out in the specified exemptions. [292633]

John Healey: Article 4 of the re-cast of the Energy Performance of Buildings Directive will not require any new obligations in respect of energy performance standards for existing *(a)* domestic and *(b)* non-domestic buildings above those currently laid out in the Energy Performance of Building Regulations 2007 (SI 2007/991).

Campaign for More and Better Homes

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 21 July 2009, *Official Report*, column 1662W, on LLM Communications, which Minister in his Department approved the payments to the Campaign for More and Better Homes. [293229]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 9 September 2009, *Official Report*, column 2011W.

Commission for Architecture and the Built Environment

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the responsibilities and remit are of *(a)* the Commission for Architecture and the Built Environment, *(b)* the Homes and Communities Agency's Design and Sustainable Development Team, *(c)* the Homes and Communities Agency's Advisory Team for Large Applications, *(d)* the Homes and Communities Agency's National Consultancy Unit and *(e)* the Homes and Communities Agency's Urban Design Compendium. [292889]

John Healey: The Commission for Architecture and the Built Environment (CABE) and the Homes and Communities Agency (HCA) both have an interest in ensuring high standards in the built environment, and have distinct but complementary roles.

(a) CABE is the Government's statutory advisor on architecture, urban design and public space. It promotes education and high standards in architecture, the understanding and appreciation of it and the design, management and maintenance of the built environment. Its statutory functions are set out in Part 8 of the Clean Neighbourhoods and Environment Act 2005 at:

http://www.opsi.gov.uk/acts/acts2005/ukpga_20050016_en_10

The HCA is the national housing and regeneration agency with a delivery role to create opportunity for people to live in high quality, sustainable places. It provides funding for affordable housing, and brings land back into productive use. It also aims to improve quality of life by raising standards for the physical and social environment and therefore works in a number of different ways to achieve this.

(b) The HCA's Design and Sustainable Development Team is responsible for setting standards in respect of all major HCA projects and programmes; developing and trialling new approaches, and developing and demonstrating best practice through exemplar developments including on the use of brownfield land.

(c) The Advisory Team for Large Applications provides local planning authorities with a specialist advisory service across the country. This team works with local authorities and the private sector to help unblock and speed up large and complex planning applications. See

http://www.homesandcommunities.co.uk/hca_expertise

(d) The HCA's National Consultancy Unit (now the Land and Development Consultancy Unit) provides HCA regional teams and partners with support and advice on their projects in regeneration and growth areas; manages the HCA's property and technical frameworks and those of its delivery partner panels; develops and disseminates specialist best practice in development, placemaking and community involvement.

(e) The HCA's Urban Design Compendium is a document that gives urban designers worldwide guidance on the principles of urban design and highlights how these can be applied in practice. See the following for more details:

www.urbandesigncompendium.co.uk

Community Infrastructure Levy

Robert Neill: To ask the Secretary of State for Communities and Local Government what assessment has been made of the effect of the Community Infrastructure Levy on the burden of regulation on house builders. [289501]

John Healey: The Government have made an assessment of the impact of the Community Infrastructure Levy (CIL) upon landowners and developers including house builders, in preparing the impact assessments on CIL, which have accompanied the different legislative stages of the passage of the Planning Act 2008 and the ongoing development of CIL regulations.

The most recent assessment was published on 30 July to accompany the draft CIL regulations and can be found at:

http://www.communities.gov.uk/publications/planningandbuilding/infrastructurelevypartial

Conservatories: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 16 September 2009, *Official Report*, column 2209W, on conservatories, how many conservatories in England are recorded on the Valuation Office Agency's automated valuation model. [293032]

Barbara Follett: The automated valuation model is not used to record the presence of a conservatory. Details, by Billing Authority, of the number of properties in the Valuation Office Agency's property attribute database recorded with each of the dwellinghouse codes (including codes for different types of conservatories) will be placed in the Library of the House.

Consolidated PR

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what payments the Audit Commission has made to Consolidated PR in the last three years. [292723]

Ms Rosie Winterton: This is an operational matter for the Audit Commission, and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 19 October 2009:

Your Parliamentary Question has been passed to me for reply. You asked a similar question in May 2009 (pursuant to the Answer to the hon. Member for Peterborough of 12 March 2009, Official Report, column 752W, on publicity, what projects were undertaken by each of the public relations companies hired by the Audit Commission; and for what reason the Commission did not use its own staff in each case).

We advised that the Audit Commission contracted with Consolidated Communications, a communications and public relations company, in 2006 and 2007 during a period of substantial reorganisation of our publishing and media relations. Consolidated offered advice and support, replacing functions that, temporarily, were not available in house. For this service, the Audit Commission paid a total of £137,700.

A copy of this letter will be placed in Hansard.

Conveyancing: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 May 2009, *Official Report*, column 230W, on conveyancing: fees and charges, if he will publish the data which his Department has collected on CON29 search fees charged by local authorities. [292989]

John Healey: This information is already in the public domain as individual local authorities publish details of the fees they charge for a CON29 search.

Council Tax: Databases

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will undertake a privacy impact assessment of the Valuation Office Agency's automated valuation model and associated council tax databases in light of the amounts of digital property data being stored by that Agency. [292630]

Barbara Follett: No. The Valuation Office Agency's Automated Valuation Model was developed before privacy impact assessment became mandatory and the project posed no risk to the privacy of an individual.

Council Tax: Energy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what representations his Department has received from the Energy Saving Trust on *(a)* levels of council tax on homes with an energy efficiency rating of F or G and *(b)* the sale and rent of homes with an energy efficiency rating of F or G. [292705]

John Healey: EST have made representations on a number of policy areas including responses to the Home Energy Savings Strategy (HESS) joint DECC/CLG consultation, the Rugg review and the Beyond Decent Homes inquiry.

Council Tax: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 June 2009, *Official Report*, column 189, on council tax: valuation, how many proposals were submitted to the Valuation Office Agency (VOA) in each of those four years requesting a band change; and how many and what proportion were *(a)* accepted, *(b)* rejected by the VOA and not subject to appeal, *(c)* rejected by the VOA, considered by the Valuation Tribunal Service and not successfully appealed against and *(d)* rejected by the VOA, considered by the Valuation Tribunal Service and successfully appealed against. [293343]

Barbara Follett: The information requested is shown as follows:

	(a)	*(b)*	*(c)*	*(d)*	*Total settled*
2005-06	14,455	11,397	840	1,262	27,954
2006-07	13,296	12,244	999	793	27,332
2007-08	15,132	10,624	5,477	1,244	32,477
2008-09	9,856	17,185	4,457	974	32,472

Councillors

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of local authority councillors who simultaneously hold posts in both tiers of local government in areas where a two-tier system operates. [292997]

Ms Rosie Winterton: My Department has made no such estimate.

The LGA/IDeA 2008 National Census of Local Authority Councillors in England found that 41.3 per cent. of representatives of shire counties were members of another local authority.

Derelict Land

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the policy of the Homes and Communities Agency is on allowing brownfield land it owns or controls to be used for *(a)* commercial or industrial and *(b)* mixed used development. [292584]

John Healey: The Homes and Communities Agency is working to release the potential of some of the country's most challenging brownfield sites by levering in private investment and supporting local authorities to develop these sites in a sustainable way. The Government's target is that 60 per cent. of all new housing should be on brownfield land, and all development on previously developed land should be designed to deliver what is needed locally and be in line with local planning requirements. This includes commercial/industrial and mixed used developments, public space and leisure uses, as well as housing.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) if he will place in the Library a copy of the recent guidance produced by the Audit Commission for local authorities on the frequency of household waste collections; [292729]

(2) if he will place in the Library a copy of the guidance produced by the Audit Commission for local authorities on the frequency of household waste collections. [293364]

Ms Rosie Winterton: The Audit Commission does not issue guidance to local authorities on the frequency of local waste collections.

Eco-Towns

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in which locations proposed eco-town developments are being considered. [292585]

John Healey: I refer the hon. Member to my written statement of 16 July 2009, *Official Report*, column 42WS.

Eco-Towns: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much central government funding will be allocated to support specific developments in the eco-town programme; and over what periods. [293362]

John Healey: I refer the hon. Member to my written statement of 16 July 2009, *Official Report*, column 42WS. This sets out the funding that we will be making available over the next two years as part of the eco-towns programme, and the continuing Government support that will be available.

Eco-Towns: Public Relations

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much expenditure his Department has incurred on *(a)* exhibitions and *(b)* road shows to promote eco-towns. [292871]

John Healey: The eco-towns programme undertook a consultation road show which included a series of exhibitions as part of these events. For the cost of these events I refer the hon. Member to the information on the Department's website published at the time of the Department's 2008-09 Annual Report at:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

Empty Dwelling Management Orders

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many empty dwelling management orders each local authority has issued since their inception. [292810]

Mr. Ian Austin: To date, 27 interim empty dwelling management orders (EDMOs) have been approved by the Residential Property Tribunal Service (RPTS) since the legislation came into effect in April 2006. However, local authorities claim that in many cases the threat of an EDMO has been sufficient to make owners take action to bring long-term empty homes back into use.

We are confident that the legislation is beginning to work well. We always intended that the legislation should be used only as a last resort where other measures have proved unsuccessful. We want to encourage voluntary re-occupation of empty homes but this can only work well where there is realistic compulsion to back them up. EDMOs provide this compulsion and should therefore be a key component of a comprehensive empty property strategy.

Local authority	*Number of interim EDMOs authorised*
Bolton Borough Council	1
Carlisle District Council	2
London Borough of Bromley	1
London Borough of Hammersmith and Fulham	1
London Borough of Hounslow	1
London Borough of Lewisham	5
New Forest District Council	1
Norwich City Council	6
Peterborough City Council	2
South Norfolk District Council	1
Southend-on-Sea Borough Council	2
South Oxfordshire District Council	1
South Tyneside Borough Council	1
Swale Borough Council	1
Wychavon District Council	1
Total	27

Energy Performance Certificates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans there are to increase access by *(a)* public sector bodies, *(b)* delivery bodies and *(c)* industry groups to the Energy Performance Certificate database; and whether a privacy impact assessment was prepared in relation to extending access to the Energy Saving Trust. [292548]

John Healey: We will consult on a data sharing strategy later this year. It will set out our proposals for increased access by a range of organisations, including public sector bodies, delivery partners and others, to the data collected through energy performance certificates (EPC) and display energy certificates (DEC).

A small-scale privacy impact statement was completed by CLG in relation to the sharing of EPC data with the Energy Savings Trust.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what procedures are used to verify the accuracy of energy performance certificates for existing residential dwellings; and what accreditation schemes are in place. [292742]

John Healey: Accreditation schemes are responsible for conducting quality audits of the energy performance certificates (EPCs) produced by the energy assessors (EAs) they accredit in accordance with CLG requirements as set out in the guidance document which can be viewed online at:

http://www.communities.gov.uk/documents/planningandbuilding/pdf/319273.pdf

Accreditation schemes that are in place can be viewed online at:

http://www.communities.gov.uk/planningandbuilding/theenvironment/energyperformance/energyassessment/accreditation/

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the agreement between his Department and the Energy Saving Trust on the use of Energy Performance Certificate data. [292743]

John Healey: I have placed a copy of the agreement between Communities and Local Government and the Energy Savings Trust governing the sharing of EPC data available in the Library of the House.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department is the lead Government department for policy formulation on commercial *(a)* energy performance certificates and *(b)* display energy certificates. [292811]

John Healey: The Department is the lead department for policy formulation on all *(a)* energy performance certificates and *(b)* display energy certificates.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to page 41 of his Department's publication on the Recast of the energy performance of buildings directive, by what mechanism his Department verifies that at least two per cent. of all energy performance certificates are checked and verified for accuracy by the accreditation bodies. [292840]

John Healey: Accreditation schemes are responsible for conducting quality audits of the energy performance certificates (EPCs) produced, and reporting the outcome to CLG in their annual reports. In addition to their reporting requirements, accreditation schemes have been subject to an external audit to assess their compliance with the terms of their approval. Annual reports can be viewed online at the following address:

https://www.ndepcregister.com/schemeAnnualReports.html

English Partnerships: Homes and Communities Agency

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what financial adjustments were made to the land assets of English Partnerships when they were transferred to the Homes and Communities Agency. [292644]

John Healey: Since its launch on 1 December, the Homes and Communities Agency (HCA) has operated a single accounting policy, which harmonised the policies of its various predecessor bodies, namely: English Partnerships (EP consisting of the Commission for New Towns (CNT) and the Urban Regeneration Agency (URA)), the investment arm of the Housing Corporation, and the Academy for Sustainable Communities.

Since its creation, the HCA carries development assets at market value. Before the creation of HCA, development assets were carried at the lower of cost (at time of purchase/transfer) and estimated market value in CNT, and at the lower of current replacement cost and net realisable value in URA. As a result of this, the following accounting policy valuation adjustments were made at the point of transfer of these assets from EP to the HCA, set out in the following table.

Land development assets (so excluding other assets such as debtors)

(£ million)

	English Partnerships	*Commission for New Towns*	*Urban Regeneration Agency*
Net assets at time of merger	703	222	481
Accounting policy adjustments	394	384	10
Restated net assets at time of merger	1097	606	491

Financial Dynamics

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Beckenham of 6 October 2008, *Official Report*, column 304W, on departmental procurement, what the purpose was of the payments made to Financial Dynamics; and what subsequent payments have been made to the company. [292991]

Barbara Follett: The payments made to Financial Dynamics in the financial year 2007-08 were for advertising and publicity services. A subsequent payment of £5,816 was made in September 2008 for conference set-up costs.

Floods and Water Bill

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether local authorities will receive additional funding to pay for the new responsibilities set out in the Floods and Water Bill if that Bill is enacted. [293361]

Huw Irranca-Davies: I have been asked to reply.

The Government have undertaken to ensure that all net new burdens on local government arising from the implementation of the draft Flood and Water Management Bill are fully funded.

Government Office for London

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much programme expenditure was paid via the Government Office for London in the most recent 12 month period for which figures are available; and what the administrative cost of the Government Office for London was during that period. [292593]

Ms Rosie Winterton: The total programme expenditure for the financial year 2008-09 for the Government Office for London was £148,373,713.

The total administrative costs for the financial year 2008-09 for the Government Office for London was £15,871,409.

Government Offices for the Regions: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much programme expenditure was managed by the Government Office for each region in the latest 12 months for which figures are available. [292821]

Ms Rosie Winterton: I refer the hon. Member to the answer given to the hon. Member for Falmouth and Camborne (Julia Goldsworthy) on 6 March 2008, *Official Report*, column 2781W.

Government Offices for the Regions: Mass Media

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 May 2009, *Official Report*, columns 249-50W, for what reasons media monitoring services were contracted by or on behalf of each Government Office for the Regions which used them in each of the three years; and which companies provided the services used by each such office in each of the three years. [292990]

Ms Rosie Winterton: In the past, a number of Government offices have taken media monitoring contracts to ensure we can monitor and respond to issues and concerns of residents in the region, and to help inform our role in working with places—both to challenge and support their delivery for their residents, and to monitor and feedback to Whitehall Departments.

Local means of doing this have varied between in-house and use of contracted services, but over the last two years the Government office network has driven efficiency savings by taking out a consistent contract for each GO.

As of this year, there has been one media monitoring contract with TNS Media Monitoring Services which covers the whole network.

Media monitoring providers for Government offices in the last three years

Government office	*Year*	*Provider*
GO East.	2006-07	Central Office of Information (COI)
	2007-08	TNS Media Monitoring Services
	2008-09	TNS Media Monitoring Services[1]
GO North East	2006-07	COI
	2007-08	COI
	2008-09	TNS Media Monitoring Services[1]
GO London	2006-09	Meltwater News
GOYH	2006-07	No record kept locally
	2007-08	COI
	2008-09	TNS Media Monitoring Services[1]
GOEM	2008-09	TNS Media Monitoring Services[1]
GOSW	2006-07	COI
	2007-08	COI
	2008-09	Meltwater News
GONW	2008-09	TNS Media Monitoring Services[1]

[1] In 2008-09 the network contracted media monitoring services on behalf of five Government offices.

Government Offices Regional Coordination Unit

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the budget of the Government Offices Regional Coordination Unit is for 2009-10; how many staff it employs; and what its function is. [292819]

Ms Rosie Winterton: The Regional Coordination Unit ceased to exist on 30 April 2009. A new structure, the Government Office Network Centre and Services, came into being on 1 May 2009.

The Government Office Network Centre and Services provides the Secretariat for the Network Governance Committees, the Council of Regional Ministers provides support for Regional Ministers and the Government's work with regional grand and select committees. It also leads the Network strategy and communications arrangements.

The running cost budget for Regional Coordination Unit and Government Office Network Centre and Services for 2009-10 is £5.8 million.

As at 1 October 2009, there are 28.6 full-time equivalent staff working for Government Office Network Centre and Services GONCS. 73.1 full-time equivalent staff have transferred to Department of Communities and Local Government line management.

Home Information Packs

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the cost to the public purse has been of *(a)* marketing, *(b)* public relations, *(c)* advertising and *(d)* communications expenditure in relation to home information packs to date. [292632]

John Healey: For details of all communications expenditure on home information packs prior to the financial year 2008-09, I refer the hon. Member to the answer given by my right hon. friend the Member for Derby, South (Margaret Beckett) on 19 March 2009, *Official Report*, column 1291W, to the hon. Member for Falmouth and Camborne (Julia Goldsworthy). For details of all communications expenditure on home information packs in 2008-09, I refer the hon. Member to the information on the Department's website at:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

published at the time of the Department's 2008-09 Annual Report.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what accreditation schemes for *(a)* home information packs and *(b)* home condition reports have been notified to his Department. [292740]

John Healey: The information is as follows:

(a) There are no accreditation schemes for home information packs.

(b) Home condition reports (HCRs) are produced by Home Inspectors certified by the following Government approved certification schemes:

BRE (Buildings Research Establishment) Training and Accreditation

RICS (Royal Institution of Chartered Surveyors) Accreditation and Certification

SAVA (Surveyors and Valuers Accreditation Ltd.) Certification Scheme.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much his Department has spent on the home information pack programme since its inception. [292815]

John Healey: I refer to the answer given by my right hon. Friend the Member for Derby, South (Margaret Beckett) to the hon. Member for Brentwood and Ongar (Mr. Pickles) on February 2008, *Official Report*, column 1313W. Since then an additional £4,543,432 has been spent on Home Information Packs up to the end of the 2008-09 financial year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many of the home condition reports on the Home Condition Register received subsidy in whole or in part from public initiatives to encourage the take-up of home condition reports. [293109]

John Healey: I refer the hon. Member to the reply given by my right hon. Friend the Member for Derby, South (Margaret Beckett) to the hon. Member for Bromley and Chislehurst (Robert Neill) on 9 February 2009, *Official Report*, column 1693W.

Homes and Communities Agency

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what role the Homes and Communities Agency has in the regional planning process. [292616]

John Healey: The Homes and Communities Agency (HCA) deploys £5 billion of public investment in housing and regeneration and should therefore be a key participant in the regional planning process.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what framework agreements for the *(a)* Homes and Communities Agency and *(b)* Tenants Services Authority are in the process of establishing. [292620]

John Healey: The framework document for the Homes and Communities Agency is available to view on their website at:

http://www.homesandcommunities.co.uk/financial_ memorandum

The framework document for the Tenant Services Authority is available to view on their website at:

http://www.tenantservicesauthority.org/upload/pdf/
Framework_document.pdf

The document was also placed (DEP2009-2275) in the Library of the House on 26 August 2009.

Homes and Communities Agency: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much the Homes and Communities Agency will spend on property and regeneration in each of the next three years; and how much English Partnerships and associated bodies which were incorporated into the Agency spent on such matters, in each of the last three years. [292553]

John Healey: The Homes and Communities Agency's (HCA) planned (gross) expenditure on its property and regeneration programme for 2009-10 and 2010-11 is set out in its corporate plan 2009-11, which has been published on its website at:

http://www.homesandcommunities.co.uk/publications

The figures provided in the plan reflect Departmental Expenditure Limit (DEL) budgets. Spending plans for 2011-12 fall into the next spending round period and have yet to be determined.

The HCA was formed from the following predecessor bodies: English Partnerships, the investment arm of the Housing Corporation, and the Academy for Sustainable Communities. The HCA also took over delivery of a number of this Department's programmes, such as Housing Market Renewal, the Growth Areas and the Thames Gateway, which have links with regeneration and housing. The HCA's current 'property and regeneration' spending programme is the successor to the former EP spending programme alone.

The HCA's published corporate plan provides a DEL spend figure for 2008-09 on 'property and regeneration' for the full 12 month period (on a merger accounting basis). Hence this figure includes within it spend during the first eight months of 2008-09 when the programme was delivered by English Partnerships (EP) prior to the launch of the HCA on 1 December 2008. Final audited spend out-turn for EP on a net DEL basis for 2007-08 and 2006-07 was reported in its published annual accounts available on its website at:

http://www.englishpartnerships.co.uk/
corporateinformation.htm

in the financial key performance indicators section (page 63 for 2007-08, and page 61 for 2006-07).

Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 20 July 2009, *Official Report*, column 813W, on housing, what information his Department holds on the number of newspapers which printed the article by the Minister for Housing and Planning. [292983]

John Healey: An article I wrote appeared in a number of local and regional newspapers. The article was made available to newspapers through The Central Office of Information. CLG does not hold a central record of the total number of newspapers the article appeared in.

Housing Associations: Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what records the Homes and Communities Agency holds of levels of remuneration awarded to members of housing association boards. [293005]

John Healey: The Homes and Communities Agency (HCA) does not hold records of levels of remuneration awarded to members of housing association boards.

Housing: Databases

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent discussions his Department has had with the Valuation Office Agency on access by the agency to access property data held on the *(a)* Home Condition Report and *(b)* Energy Performance Certificates registers. [292877]

John Healey: We have no record of any such representation by the Valuation Office Agency.

Housing: Energy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what discussions he has had with the housing and property industry on the extent to which energy performance is reflected in the value of a property. [292551]

John Healey: The Department for Communities and Local Government is working with the Royal Institute of Chartered Surveyors and other stakeholders on a project to explore the extent to which energy performance is reflected in the value of a property and the effect on the market price of homes as a result of the installation of different energy efficiency and renewable heat and energy technologies.

This work is due to report at the end of the year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his Department's most recent estimate is of the level of average annual carbon dioxide emissions for a domestic dwelling from heat loss. [292623]

Joan Ruddock: I have been asked to reply.

The latest estimate of average CO_2 emissions for a domestic dwelling due to energy use for heating the rooms is around two tonnes per year. This is based on data published in 2008 by the Buildings Research Establishment.

Household energy consumption and the related emissions can be reduced significantly through the installation of basic, low-cost insulation measures to reduce heat loss through the building fabric. For example, energy use for space heating can be reduced by about 25 per cent. through installation of cavity wall insulation.

Electricity: £10,900.86. The electricity tariff is a 100 per cent. renewable supply.

Gas: £1,338.59

Water: £3,616.58

Disposal of waste: £910.76. 8,217kg of waste was produced in that period, of which, 49.4 per cent. was recycled. The breakdown and record of the cost of the individual waste elements that are sent to landfill, 'energy from waste' or to recycling is not held centrally by DECC and could be obtained only at disproportionate cost.

Housing: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government for what reasons local authorities are ineligible for Kickstart Housing Delivery funding. [294127]

John Healey: The aim of the Kickstart programme is to unlock stalled sites in England for the development of high-quality, mixed tenure homes. Local authorities are note eligible to apply for funding from the Kickstart Housing Delivery fund as there is a separate funding pot available to authorities to deliver new social housing on land they already own and that can be developed only by them. Where a local authority has appointed a delivery partner, for example through a disposal or development agreement to bring forward a site for housing development, the delivery partner can apply. The successful projects from round one of the local authority new build programme were announced in September. 49 local authorities, covering every region of the country, will receive a share of £130 million Government funding to build over 2,000 homes.

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many properties were available for sale under the *(a)* Rent to HomeBuy, *(b)* HomeBuy Direct and *(c)* New Build HomeBuy scheme in each of the last three months. [292479]

John Healey: Information on low cost home ownership completions, April to September 2009, will be released by the Homes and Communities Agency later this year.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* Rent to HomeBuy, *(b)* HomeBuy Direct, *(c)* New Build HomeBuy, *(d)* MyChoice HomeBuy, *(e)* OwnHome, *(f)* the First Time Buyers Initiative and *(g)* Social HomeBuy in 2009-10. [292483]

John Healey: The Homes and Communities Agency will publish information on expenditure through the Affordable Housing Programme for 2009-10 after the end of that financial year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many *(a)* housing associations and *(b)* local authorities offer Social Homebuy. [292575]

John Healey: 62 housing associations and 10 local authorities currently offer Social Homebuy.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many completed Social Homebuy transactions there have been since the introduction of the scheme. [292576]

John Healey: I refer the hon. Member to the answers given to the hon. Member for Putney (Justine Greening) on 4 February 2009, *Official Report*, columns 1282-283W; to the hon. Member for Welwyn Hatfield (Grant Shapps) on 24 March 2009, *Official Report*, column 218W; and to the hon. Member on 8 May 2009, *Official Report*, columns 446-47W.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government for what reason the Open Market Homebuy scheme has been closed. [292700]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 12 October 2009, *Official Report*, column 326W.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much his Department spent on the *(a)* advertising, *(b)* marketing and *(c)* publicising of Open Market Homebuy since the scheme's inception. [292701]

John Healey: The Department has conducted no such activity for the specific promotion of open market homebuy.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been sold via *(a)* Rent to HomeBuy, *(b)* HomeBuy Direct, *(c)* New Build HomeBuy, *(d)* MyChoice HomeBuy, *(e)* OwnHome, *(f)* the First Time Buyers Initiative and *(g)* Social HomeBuy in 2009-10 to date. [292299]

John Healey *[holding answer 12 October 2009]:* Information on low cost home ownership completions, April to September 2009, will be released by the Homes and Communities Agency later this year.

Housing: Regeneration

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the objectives are of the Home and Community Agency's Single Conversation process. [292615]

John Healey: The purpose and function of the single conversation is clearly outlined on the Homes and Communities website. The relevant page can be accessed at:

http://www.homesandcommunities.co.uk/single conversation.htm

Housing: Sales

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what research his Department has commissioned into *(a)* gazundering and *(b)* gazumping in the last 12 months. [292898]

John Healey: Reliable information on the incidence of gazumping and gazundering was one of the key aims of the research study "Key research on easier home buying and selling, DETR 1998".

Housing: Surveys

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the results of the recent survey by the Tenant Services Authority on attitudes to *(a)* home ownership and *(b)* renting. [292624]

John Healey: The recent results of the Tenant Services Authority's (TSA) survey on attitudes to *(a)* home ownership and *(b)* renting are contained in a document entitled 'Existing Tenants Survey 2: Landlord Services'. This is currently available to view electronically on the TSA website at:

http://www.tenantservicesauthority.org/server/show/nav.14348

Infrastructure Planning Commission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to Cabinet Office guidance on the conduct of the Civil Service during general elections, whether the Infrastructure Planning Commission may submit recommendations to the Secretary of State after the dissolution of Parliament. [293222]

John Healey: Once the IPC is able to receive applications for a particular infrastructure sector, the decision making role arising from recommendations from the IPC will become an ongoing function of the Secretary of State.

Constitutionally, Government continue to carry out its ongoing functions throughout a General Election period. Therefore, the IPC may submit recommendations to the Secretary of State during the period in which Parliament is dissolved.

Local Government and Public Involvement in Health Act 2007

Margaret Moran: To ask the Secretary of State for Communities and Local Government what recent guidance his Department has issued to those of its agencies which are subject to section 138 of the Local Government and Public Involvement in Health Act 2007 in respect of a duty to involve. [292651]

Ms Rosie Winterton: Statutory guidance covering the duty to involve was published by my Department in July 2008, entitled "Creating Strong, Safe and Prosperous Communities." This guidance is available on the Communities and Local Government website at:

www.communities.gov.uk/publications/localgovernment/strongsafeprosperous

My Department has also worked with the Community Development Foundation to produce voluntary guidance on what the duty might look like in practice. This document was published by the Community Development Foundation in April 2009. This guidance is available on the Community Development Foundation website at:

http://cdf.likecube.com/web/guest/publication?id=20497

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many of his Department's agencies required to introduce a duty to involve under section 138 of the Local Government and Public Involvement in Health Act 2007 have established a mechanism for doing so. [292715]

Ms Rosie Winterton: There are no Community and Local Government agencies listed under section 138 of the Local Government and Public Involvement in Health Act 2007 for the duty to involve.

The Department is using the Local Democracy, Economic Development and Construction Bill, presently before Parliament, to extend the duty to involve so that it applies to a number of additional public authorities. These additional authorities include the Homes and Communities Agency, an agency of my Department.

Margaret Moran: To ask the Secretary of State for Communities and Local Government what recent assessment he has made of the effectiveness of the provisions of the Local Government and Public Involvement in Health Act 2007; and if he will make a statement. [292718]

Ms Rosie Winterton: As part of post legislative scrutiny, Government are required to conduct an impact assessment between three to five years after legislation has come into effect. The Act received Royal Assent on 30 October 2007, so the earliest timeframe for post legislative scrutiny would be 2010.

An initial impact assessment was carried out for the provisions in the Act, and this can be found on the Communities and Local Government website and in the House Library.

Local Government Information Unit

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 May 2009, *Official Report*, columns 246-7W, on the Local Government Information Unit, if he will place in the Library a copy of the completed project report produced by the Local Government Information Unit for his Department. [292992]

Barbara Follett: The LGIU report on the role of councillors was commissioned by the independent Councillors Commission to help inform their report. It was not, nor was ever intended to be, published. Instead it provided the Commissioners with information to enable them to fully consider relevant issues relating to the councillor role and to publish their final report 'Representing the Future' in December 2007.

Local Government: Consultants

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance has been given to local authorities on the hiring of public affairs consultants; and whether the communications activities of such consultants are covered by the Code of Conduct on Local Authority Publicity. [292555]

Ms Rosie Winterton: The code of recommended practice on local authority publicity, to which councils must have regard, makes provision on the content and style for all publicity funded by the council and about how a council should approach its publicity, including the extent to which expert advice is needed for publicity.

Local Government: Freedom of Information

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether local partnerships will be subject to the provisions of the Freedom of Information Act 2000. [292642]

Ms Rosie Winterton: Local Strategic Partnerships (LSPs) are voluntary, non-statutory partnerships made up of members from the public, private and third sectors and centred on a local authority area. LSPs are not listed as a public authority in the FoI Act. However, as they are partnerships, local authority members and possibly other public sector members will be public authorities for the purposes of the FoI Act. Accordingly while an FoI request cannot be made to the LSP, it may be possible to make a FoI request for information on an LSP to public sector members of the LSP.

Local Government: Publicity

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the terms of reference are for the Audit Commission's review of council newspaper advertising; what methodology the Commission is using to conduct the review; and under what timetable he expects the review to take place. [293166]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 19 October 2009:

Your Parliamentary Question outlined above has been passed to me for reply.

The Audit Commission is currently considering whether to undertake research on the value for money achieved by council spending on communicating with the public; this could include expenditure on, and income from, information sheets and newsletters.

The Commission is consulting with stakeholders and considering whether a national study would be warranted and feasible. No decision has yet been made about the scope, methodology or timetable of any work.

A copy of this letter will be placed in Hansard.

Mr. Hunt: To ask the Secretary of State for Communities and Local Government what recent steps the Audit Commission has taken to inquire into the practice of local authorities taking paid advertising to support information sheets. [294104]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 19 October 2009:

Your Parliamentary Question outlined above has been passed to me for reply.

The Audit Commission is currently considering whether to undertake research on the value for money achieved by council spending on communicating with the public; this could include expenditure on, and income from, information sheets and newsletters.

The Commission is consulting with stakeholders and considering whether a national study would be warranted and feasible. No decision has yet been made about the scope, methodology or timetable of any work.

A copy of this letter will be placed in Hansard.

Local Government: Redundancy Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which *(a)* organisations and *(b)* individuals have submitted responses to the Audit Commission's call for evidence on severance settlements for senior council staff and have not requested that their submissions be treated in confidence. [292820]

Ms Rosie Winterton: This is an operational matter for the Audit Commission, and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 19 October 2009:

Your Parliamentary question outlined above has been passed to me to reply.

Five individuals have submitted responses to the general Call for Evidence and have not requested that their submissions be treated in confidence:

David Oddie (no organisation given)

Paul Francis, Kent Messenger Group

Maxine Thorne, Links Consultancy

Mike Schofield, Isitfair.co.uk

Melanie Carter, Bates Wells & Braithwaite

One further response was submitted under, we presume, a pseudonym of Jez Ebel.

The Chartered Institute of Personnel and Development have also expressed a wish to contribute to the research in a verbal response.

The following bodies have submitted written responses to a separate letter sent to them by the Audit Commission:

Society of Local Authority Chief Executives (SOLACE)

Association of Local Authority Chief Executives (ALACE)

Association of Local Authority Treasurer's Societies (ALATS)

Association of Council Secretaries and Solicitors (ACSeS)

The responses to the Call for Evidence will be combined with other evidence and summarised in a report to be published early in 2010.

A copy of this letter will be placed in Hansard.

Local Government: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which data collections from local authorities that were part of the best value performance indicator set and are not part of the national indicator set his Department is continuing to obtain. [293108]

Ms Rosie Winterton: Best value performance indicators (BVPIs) were replaced by the new national indicator set on 1 April 2008. However, some of the data used to measure BVPIs forms part of larger data returns, which continue to be collected for uses such as financial management and to inform policy direction. Wherever we have been able to identify such data, the relevant BVPIs are listed in the following tables. In addition, the first table lists 16 former BVPI questions which were included in the new Place Survey in order to provide a balanced questionnaire and maximise the response rate; and the second table lists seven fire and rescue service BVPIs which are not collected directly but are available to CLG through the joint FRS/CLG incident recording system.

Data collected from local authorities

BVPI number	*BVPI name*
9	Percentage of council tax collected
10	Percentage of non-domestic rates collected
150	Expenditure per head of population
63	Average SAP rating of all HRA dwellings
66a	Percentage of rent collected (percentage)
66c	Rent written off as not collectable as percentage of LA's rent roll (percentage)
66d	Rent collection and arrears recovery: evictions
69	Percentage of rent lost through vacants (percentage)
72	Percentage of urgent repairs completed within Government time limits (percentage)
73	Average time taken to complete non-urgent repairs (days)
202	Number of rough sleepers
212	Average re-let time (days) of HRA stock
106	New homes on previously developed land
200a	Plan Making: Development Plan
200b	Plan Making: Milestones
Former BVPIs included in the Place Survey	
3	Overall satisfaction with council
4	Satisfaction with complaints handling
89	Satisfaction with cleanliness
90a	Satisfaction with waste collection
90b	Satisfaction with waste recycling (local facilities)
90c	Satisfaction with waste disposal (local tips)
103	Satisfaction with transport information
104	Satisfaction with bus services
CPA E14	Satisfaction with transport information—those who have seen information in the last year
CPA E15	Satisfaction with bus services—those who have used the bus service in the last year
119a-e	Satisfaction with cultural recreational facilities
119a	Sports and leisure facilities
119b	Libraries
119c	Museums and galleries
119d	Theatres and concert halls
119e	Parks and open spaces

Data collected from fire and rescue authorities

BVPI number	*BVPI name*
11a	Top 5 per cent. earners: women
11b	Top 5 per cent. earner: minority ethnic communities
11c	Top 5 per cent. earners: with a disability
12	Working days lost due to sickness absence
13	Voluntary leavers/staff
14	Percentage of early retirements
15	Percentage of ill health retirements
16a	Percentage of employees with a disability
17a	Percentage of black and ethnic minority employees
146i	Calls to malicious false alarms: not attended
146ii	Calls to malicious false alarms: attended
144	Accidental dwelling fires confined to room of origin
Available to CLG through the joint FRS/CLG incident recording system	
206iii	Deliberate fires: secondary (excluding vehicles)
206iv	Deliberate fires: secondary (in vehicles)
207	Fires in non-domestic premises
208	Escaping unharmed from accidental dwelling fires
209i	Smoke alarms: activated
209ii	Smoke alarms: not activated
209iii	Smoke alarms: none fitted

Mortgages: Government Assistance

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government what steps his Department is taking to increase public awareness of measures to assist homeowners with mortgage repayments. [292560]

John Healey: The Department launched the new Mortgage Help communications campaign on 8 September 2009, specifically aimed at homeowners who are concerned about their mortgage payments. Advertising directs concerned homeowners to the campaign website

www.direct.gov.uk/mortgagehelp

for tailored advice on the steps they can take to keep their home. This includes sources of help and protection available through government schemes. Advertising also directs concerned homeowners to the help available through the campaign's money advice partners, which include the National Debtline, CAB, CCCS and Shelter.

The campaign highlights that more than 300,000 households have received help and advice with their mortgage since April 2008.

Local press and outdoor advertising is appearing initially in 22 areas which are at higher risk of repossessions, as calculated by court order data and rises in claims for job seekers allowance.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) how many households in each Government Office Region have received financial support from the Preventing Repossession Fund since its inception; [292756]

(2) how many households have received financial support from the Repossessions Prevention Fund. [293110]

John Healey: The £20 million Preventing Repossessions Fund was announced by the Chancellor in the Budget to enable local authorities to offer small loans to families at risk of homelessness through repossession or eviction. This forms part of the range of assistance that has been put in place at every stage to help households struggling to pay their mortgage. Information about the number of households who have received a payment from the fund will be published later this year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 8 September 2009, on support for homeowners, what forms of advertising were used; and what the cost was of that advertising. [293020]

John Healey: The Mortgage Help campaign is being promoted through national and local press, digital advertising, digital search and outdoor media. The campaign is still running and final costs are not yet available. The Department will publish a breakdown of campaign costs at the time of its next annual report.

National Policy Statements

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 5 February 2009, *Official Report*, columns 1435-6W, on national policy statements, what the latest timetable is for the *(a)* draft publication of, *(b)* consultation on and *(c)* designation of the first tranche of National Policy Statements. [292854]

John Healey: The Department for Communities and Local Government published an update to the Route Map for implementation of the Infrastructure Planning Commission regime, including the timetable for preparation of National Policy Statements, on its website on Tuesday 14 July 2009. Copies are also in the Library of the House.

Non-Domestic Rates

Justine Greening: To ask the Secretary of State for Communities and Local Government what effect the rate of retail price index inflation of minus 1.4 per cent. will have on the level of business rates from April 2010; and if he will make a statement. [293895]

Barbara Follett: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 16 October 2009, *Official Report*, column 1131.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many hereditaments on the Rating List in England had a SCAT Code of 442 according to records held by the Valuation Office Agency in each of the last five years for which figures are available. [292690]

Barbara Follett: The number of hereditaments in England with a SCAT Code of 442 (Takeaway Food Outlets) as at the appropriate dates is as follows:

As at 1 April	*Number*
2005	1,590
2006	1,883
2007	2,045
2008	2,206
2009	2,356

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his latest estimate is of the percentage change in rateable values between *(a)* the 2005 and *(b)* the 2010 draft rating list for each special category code, according to records held by the Valuation Office Agency. [292996]

Barbara Follett: I have placed a table of estimates of the percentage change in rateable values, by special category code, between the 2005 rating list and the 2010 draft rating list, as at 29 May 2009, in the Library of the House. These data are consistent with the consultation document titled: "The Transitional Arrangements for the Non-Domestic Rating Revaluation 2010 in England", published on 8 July 2009. A copy of the consultation document is available at the following link:

http://www.communities.gov.uk/publications/localgovernment/nndrrevaluation2010

An updated draft list will be available for this type of analysis shortly.

Non-Domestic Rates: Renewable Energy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) if he will place in the Library a copy of the Valuation Office Agency's guidance on the rating of *(a)* microgeneration wind turbines, *(b)* solar voltaic cells and *(c)* ground source heat pumps for the 2010 business rates revaluation; [292827]

(2) pursuant to the answer to the hon. Member for Bromley and Chislehurst of 3 June 2009, *Official Report*, column 589W, on non-domestic rates: microgeneration, whether the 2010 rates revaluation will result in an increase in rateable values on properties in which microgeneration equipment was installed between 2008 and April 2010. [292849]

Barbara Follett: Microgeneration plant and machinery, including micro wind turbines and small-scale solar or photovoltaic cells, installed on or before 31 March 2010 are, in principle, liable to be included in the rateable values of properties for the 2010 revaluation. However, the Valuation Office Agency has no evidence that any of these are of sufficient value to, in practice, affect the rateable values of properties. Its advice on the rating of *(a)* microgeneration wind turbines, *(b)* solar voltaic cells and *(c)* ground source heat pumps is available in the Rating Manual on the Valuation Office's website at Volume 4 Section 3 Practice Note 8:

http://www.voa.gov.uk/instructions/chapters/rating_manual/vol4/sect3/frame.htm

Non-Domestic Rates: Valuation

Mrs. Spelman: To ask the *Secretary of State* for Communities and Local Government for what reasons a privacy impact assessment has not been undertaken in relation to the 2010 business rates revaluation. [293026]

Barbara Follett: A privacy impact assessment has not been undertaken for revaluation 2010. This is because the business rates revaluation applies only to non-domestic properties and does not represent a genuine risk to the privacy of the individual.

North East Economic Forum

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what funding *(a)* his Department, *(b)* its agencies and *(c)* the North East Regional Assembly and its successor body has provided to the North East Economic Forum. [292812]

Ms Rosie Winterton: The Department has provided no direct funding to the North East Economic Forum. We can confirm that neither the North East Assembly nor its successor body have made any payments to the North East Economic Forum.

Since its establishment in 2005, the North East Economic Forum has received £155,190.44 from One North East to support its activities. This funding has supported costs associated with three major regional conferences and a number of associated events.

Planning Permission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department plans to make further revisions to Planning Policy Statement PPS1. [292579]

John Healey: No review of Planning Policy Statement 1, 'Delivering Sustainable Development' has yet been programmed.

Property Codes Compliance Board

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what funding from the public purse has been given to the *(a)* Property Codes Compliance Board and *(b)* Property Ombudsman in the last 12 months. [292732]

John Healey: None.

Regional Planning and Development

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the name and address is of each regional planning body in England; and what the timetable is for regional development agencies to become the regional planning bodies. [292540]

Mr. Ian Austin: The current name and address for each regional planning body in England is given in the following table. There are no proposals for regional development agencies to become regional planning bodies.

Name of regional planning body	*Address*
North East Planning body	c/o Association North East councils, The Axis Building, Maingate, Kingsway North, Team Valley, Gateshead, NE11 0NQ
Yorkshire and Humber Joint Regional board	c/o Local government Yorkshire and Humber, 18 King Street, Wakefield, WF1 2SQ
East of England Regional Assembly	Flempton House, Flempton, Bury St. Edmunds, Suffolk, IP28 6EG
East Midlands Regional Assembly	Phoenix House, Nottingham Road, Melton Mowbray, Leics, LE13 0UL
North West Regional Leaders' Forum	c/o 4NW, Wigan Investment Centre, Waterside Drive, Wigan, WN3 5BA
South East England Partnership Board	Berkley House, Cross Lanes, Guildford, GU1 1UN
South West Strategic Leaders' Board	c/o South West Councils, Dennett House, 11 Middle Street Taunton, TA1 1SH
West Midlands Regional Assembly	Regional Partnership Centre, 3rd Floor, Albert House, Quay Place, 92-93 Edward Street, Birmingham, B1 2RA

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which areas are receiving reductions in their Growth Point funding compared to original anticipated allocations in the latest period for which allocations have been determined. [293347]

John Healey: The Government published a consultation paper on 2 October which seeks views on its proposed approach to making changes to the Growth Fund capital funding allocations in 2010-11. This includes options for consideration which might alter the Government's proposed approach for reducing allocations. I aim to publish our response to the consultation and revised funding allocations for 2010-11 within four weeks of the close of the consultation. The deadline for submitting comments is 13 November.

Regional Planning and Development: Green Belt

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in which local authorities proposals have been made for green belt reviews in each of the most recent regional spatial strategies. [292595]

Mr. Ian Austin: Regional spatial strategies (RSS) do not express any planning policies which refer to specific sites (local authority areas); they identify broad locations, which may be located in a local authority area or cross a number of local authority boundaries.

Current RSS are recommending green belt reviews as follows:

North East

No specific proposals.

North West

Policy RDF4 allows for potential green belt changes associated with expansion of Manchester and Liverpool airports and a multi-modal freight proposal at Newton le Willows.

Yorkshire and Humber

Policy YH9 confirms that the extent of green belt should not change, but that green belt round York needs defining. Specific mention is also made of a potential need for strategic review of the West Yorkshire green belt, which extends into Leeds, Wakefield, Calderdale and Kirklees.

West Midlands

The Secretary of State is currently considering the recommendations of the independent panel report.

East Midlands

The principle of the Nottingham-Derby and Burton-Swadlincote green belts will be retained. However a comprehensive review of the most sustainable locations for growth within Nottingham Core Housing Market Area and Hucknall will be required urgently to consider how to accommodate future growth requirements over at least the next 25 years. As this may include considering locations within the green belt, when implementing this review through their local development documents.

East of England

Local review of green belt in Broxbourne, and that strategic reviews of green belt boundaries to meet regional development needs are needed in:

Stevenage, including land in North Hertfordshire;

Harlow, including land in East Hertfordshire and Epping Forest; and

Luton/Dunstable/Houghton Regis and Leighton Linslade.

South East

Policy SP5 the existing broad extent of green belts in the region is appropriate however, in order to meet regional development needs in the most sustainable locations, selective reviews of green belt boundaries are required:

in metropolitan green belt to the north east of Guildford, and possibly to the south of Woking, and

in the Oxford green belt to the south of the city.

In addition, a boundary review will be required in the area of the former DERA site at Chertsey.

Smaller scale local reviews are likely to be required in other locations, including around Redhill-Reigate, and these should be pursued through the Local Development Framework process.

South West

Following consideration of the recommendations of the independent panel that considered the draft RSS, the Secretary of State published her proposed changes to the RSS in July 2008. These include proposals to revise the general extent of the Bristol and Bath, Gloucester and Cheltenham and South East Dorset green belts to accommodate urban extensions as part of the most sustainable solution for delivering housing and other development. Changes are also proposed to the general extent of the Bristol and Bath green belt to provide for regionally significant development at Bristol International airport and the port of Bristol, and to the South East Dorset green belt to provide for development at Bournemouth airport.

London

The published London plan, February 2008 (consolidated with alterations since 2004) do not propose any changes to the London green belt.

Shelter: Eco-Towns

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which Minister in his Department approved payments from his Department to Shelter for the production of publications about the housing situation in and around potential eco-town locations. [292868]

John Healey: I refer the hon. Member to the answer given by my hon. Friend the Member for Hartlepool (Mr. Wright) to the hon. Member for Welwyn Hatfield (Grant Shapps) on 20 November 2008, *Official Report*, column 761W.

Shelter: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what funding his Department is making available to Shelter as part of the money advice partnership scheme. [292895]

John Healey: Communities and Local Government has provided up to £1.4 million of funding to Shelter for money advice services in 2009-10 to support delivery of Homeowners Mortgage Support and the Mortgage Rescue Scheme. In addition, we have provided £1.77 million to fund the National Homelessness Advice Service (NHAS) in 2009-10, a partnership between Shelter and the Citizens Advice Bureaux which provides specialist advice on homelessness prevention.

Social Rented Housing: Rents

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what his most recent estimate is of the increase in rents in *(a)* council housing and *(b)* housing association social housing predicted over each of the next three years as part of his Department's Target Rent Scheme. [292892]

Mr. Ian Austin: Social rents are expected to rise in accordance with the rent restructuring formula, which allows for an average annual increase of RPI plus 0.5 per cent., with RPI set at the end of September in the year preceding. We do not have specific estimates for increases over the next three years.

The Tenant Services Authority (TSA) regulates registered social landlords (RSLs) in England to ensure that they provide decent homes and services for tenants. To protect tenants, TSA regulation places a limit on the maximum amount by which rents can rise each year. Rent can be increased by a maximum of RPI plus 0.5 per cent., plus £2 per week for individual rents that are below target levels.

In July, as part of a consultation on draft directions to the Tenant Services Authority, the Government published proposals relating to the regulation of rents set by registered social landlords after 1 April 2010. These proposals are based on a continuation of the rent restructuring policy set out in the document 'Guide to Social Rent Reforms' which was published by the

Government in March 2001. The consultation paper is available via the Communities and Local Government website:

http://www.communities.gov.uk/publications/housing/tsadirections

The Department intends to publish the final directions shortly.

Social Rented Housing: Sustainable Development

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many local authorities are not eligible to apply for funding from the Local Authority Challenge Fund. [293111]

John Healey: All English local authorities with a housing function are able to bid, and apply for funding to build new council homes. County councils are therefore the only local authorities who cannot bid for funding under this programme. Bidders need to pre-qualify as investment partners with the Homes and Communities Agency before grant can be awarded.

Standards Board for England

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the cost of the Standards Board for England was for the most recent 12-month period for which figures are available. [292594]

Ms Rosie Winterton: The 2008-09 annual report and accounts for the Standards Board for England, available on the Standards Board's website at:

www.standardsforengland.gov.uk

shows the Standards Board for England cost the Government, through grant in aid, £8,285,000 for that year.

Standards Board for England: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the budget of *(a)* the Standards Board for England and *(b)* the Adjudication Panel was in (i) 2009-10 and (ii) 2010-11. [292725]

Ms Rosie Winterton: As stated in table 2 of the Standards Board for England's corporate plan for 2009-12, 'The changing role of the Standards Board for England', available on their website at:

www.standardsforengland.gov.uk

the planned budget for the Standards Board is £7,420,000 in 2009-10 and £7,372,000 in 2010-11.

Responsibility for the Adjudication Panel for England rests with the Ministry of Justice.

Standards for England

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the cost to the public purse has been of the re-branding of the Standards Board for England as Standards for England. [292897]

Ms Rosie Winterton: The rebranding, which the Standards Board for England decided to undertake and to find from within its budgets of £8,285,000 for 2008-09 and £7,420,000 for 2009-10, cost £43,000.

These costs arise from a branding and identity review which the board considered necessary given its changed remit, as recommended by the Committee for Standards in Public Life, to become the strategic regulator for council standards committees and from subsequent development of the brand.

Tenant Services Authority

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment he has made of the performance of the Tenant Services Authority against its objectives since its inception. [292734]

John Healey: The TSA are required to produce an Annual Report. I have asked the TSA to demonstrate in this report the extent to which the organisation has met its objectives since its inception. The annual report will be published and laid before Parliament by the end of the year.

Tribal Consulting

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government for what reason Tribal Consulting has been employed by his Department to oversee the Total Place initiative; what Tribal's remit is; and what the cost is of the contract. [292896]

Ms Rosie Winterton: Tribal Consulting has been employed to work on two contracts for the Total Place initiative.

The 'Customer Insight' project assesses the use of information on the needs of people by the Total Place pilots. Specifically it asks what sort of information is available, how it is used and does this knowledge change how local services are provided to the public. It will cost £60,000 (excluding VAT).

The remit of the 'Spend Counting and Deep Dive' is to identify common issues raised by the Total Place pilots and what bearing central Government budgeting has on these, to better understand how the many sources of public sector funding arrive in a local area and to produce an evaluative report on the Total Place initiative. It will cost £218,000 (excluding VAT).

Working Neighbourhoods Fund

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans he has for the Working Neighbourhoods Fund after 2010-11. [292618]

Ms Rosie Winterton: The Government have not determined any arrangements for the Working Neighbourhoods Fund beyond 2010-11.

Written Answers to Questions

Tuesday 20 October 2009

NORTHERN IRELAND

Criminal Damages Compensation 1997

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many successful applications under the Criminal Damages (Compensation) (Northern Ireland) 1997 Order in each of the last five years were made by *(a)* the Loyal Orange Order and *(b)* the Gaelic Athletic Association. [292758]

Paul Goggins: The following table sets out the number of successful applications for *(a)* the Loyal Orange Order and *(b)* the Gaelic Athletic Association.

	The Loyal Orange Order	*The Gaelic Athletic Association*
2004-05	4	0
2005-06	3	0
2006-07	2	0
2007-08	12	0
2008-09	0	1
2009-10 (to date)	0	0
Total	21	1

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Northern Ireland what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293244]

Paul Goggins: The following table shows what percentage of procurement contracts *(a)* the Northern Ireland Office (NIO), including the Public Prosecution Service Northern Ireland but excluding its NDPBs and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10.

				Percentage
	2006-07	*2007-08*	*2008-09*	*2009-10*
NIO	28	26	30	13
Forensic Science NI	2	0	13	0
Youth Justice Agency	7	0	4	6
Compensation Agency	2	0	0	0
NI Prison Service	17	13	13	0

From 3 November 2008, the NIO contracted out its procurement services to the Central Procurement Directorate (CPD) in the Department of Finance and Personnel in Northern Ireland under a service level agreement (prior to this, the NIO ran its own procurement unit). These figures are for all contracts that are arranged through the CPD (or, prior to 3 November 2008, the NIO's procurement unit). Collating information on other procurement contracts could be done only at disproportionate cost.

Northern Ireland Independent Monitoring Board

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* employed and *(b)* self-employed members of the public are participating in the work of the Independent Monitoring Board. [293661]

Paul Goggins: There are 13 employed and two self-employed members across the Independent Monitoring Board.

CULTURE, MEDIA AND SPORT

Circuses: Licensing

Peter Luff: To ask the Secretary of State for Culture, Media and Sport what progress his Department has made in the development of a new licensing system for travelling circuses; and if he will make a statement. [293940]

Mr. Sutcliffe: I refer the hon. Member to the answer I gave him on 14 October 2009, *Official Report*, column 907W.

English Heritage: Fees and Charges

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the *(a)* minimum, *(b)* average and *(c)* maximum price of entry to an English Heritage property was in each year since 1997. [292301]

Margaret Hodge *[holding answer 12 October 2009]*: English Heritage has over 400 sites in its care of which around 112 charge admission. The remaining sites are free to visit.

For the purposes of this answer, English Heritage has provided data for the 104 sites that were consistently in its care for the full period in question. The average price of entry to an English Heritage property, based on one full price adult ticket, in each of the following years was as follows:

		£		
	Minimum charge	*Average charge*	*Maximum charge*	*Constant sample of sites*
1996-97	1.00	2.16	6.00	104
1997-98	1.10	2.26	6.00	104
1998-99	1.30	2.48	6.60	104
1999-00	1.40	2.61	6.90	104
2000-01	1.50	2.70	6.90	104
2001-02	1.60	2.83	7.20	104
2002-03	1.60	3.01	7.50	104
2003-04	1.80	3.24	8.00	104
2004-05	2.00	3.48	8.50	104
2005-06	2.30	3.69	8.95	104
2006-07	2.30	3.88	9.50	104
2007-08	2.40	4.09	9.80	104
2008-09	2.50	4.33	10.50	104
2009-10	3.00	4.52	13.40	104

Football: World Cup

John Battle: To ask the Secretary of State for Culture, Media and Sport what representations he has received on the inclusion of Leeds as a venue in the Football Association's bid to host the 2018 World Cup; and if he will make a statement. [294016]

Mr. Sutcliffe: The Football Association are leading in the bid for the 2018 and 2022 FIFA World Cups and are following a selection process to make venues available for FIFA to select host cities and training venues.

Gambling Research, Education and Treatment Foundation

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much has been spent on re-branding the Responsibility in Gambling Trust into The GREaT (Gambling Research, Education and Treatment) Foundation; and how much will be spent on setting up a new website for the organisation. [293878]

Mr. Sutcliffe: The Gambling Research, Education and Treatment Foundation (GREaT) is a registered charity funded through voluntary donations. Therefore, it would be appropriate for the hon. Member to write to the chairman at The GREaT Foundation, 10 Brick Street, London, W1J 7HQ.

Gambling: Licensing

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many remote gambling licences have been issued by the Gambling Commission in each year since 2007; and how many such licensed remote gambling operators are regulated by the UK Gambling Commission. [293624]

Mr. Sutcliffe: The UK Gambling Commission has provided the figures on remote licences issued in each of the last three calendar years.

Number

Calendar year	*Remote operating licences issued*	*Remote operating licences surrendered/ revoked/lapsed*	*Ancillary remote licence[1] issued*	*Ancillary remote licence/ surrendered/ revoked/lapsed*
2007	189	2	346	4
2008	96	29	56	38
2009	86	34	52	47

[1] An ancillary remote licence allows a non-remote licence holder to provide ancillary gambling facilities by means of remote communication in restricted circumstances.

As of October 2009, there are 306 operators holding a remote operating licence with the Commission and 385 operators holding a remote ancillary operating licence. These figures include 18 operators who hold both a remote operating licence and a remote ancillary operating licence.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the gross gambling yield from remote gambling was in each of the last two years; and how many new player registrations for such gambling there were in each year since statistics have been collected. [293625]

Mr. Sutcliffe: The Gambling Commission has published statistics on remote gambling conducted by its licensed operators since the changes under the Gambling Act 2005 came fully into effect on 1 September 2007.

Estimated figures are available for the second half of 2007-08 and for the full 2008-09 financial year as set out in the following table:

Time period	*Estimated gross gambling yield (£ million)*	*Estimated new player registrations (million)*
1 September 2007 to 31 March 2008	614.5	1.6
1 April 2008 to 31 March 2009	896	4.9

These figures do not include amounts gambled on sites located overseas by British residents but do include amounts gambled on sites located in Britain by overseas residents.

Holiday Accommodation

Lembit Öpik: To ask the Secretary of State for Culture, Media and Sport whether his Department has contributed to the impact assessment on the abolition of the furnished holidays letting rules being carried out by HM Treasury. [294594]

Margaret Hodge: My hon. Friend the Member for Stevenage (Barbara Follett) raised this issue with Treasury Ministers and wrote to them setting out the industries concerns about these changes in detail.

My officials and I remain in discussion with Treasury and HM Revenue and Customs (HMRC) about the impact of these rule changes on the tourism industry. HMRC will be publishing their assessment of this together with draft legislation at the same time that the pre-Budget report is issued.

National Lottery

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what recent estimate he has made of the administration costs of each of the National Lottery distributors. [294375]

Mr. Simon: My Department encourages the national lottery distributors to keep their administration costs as low as possible and to share best practice, and their latest accounts indicate that most have reduced their operating costs in cash terms. However, as administration costs vary considerably depending on the type and size of grant given and the amounts that applicants receive, the costs listed by the distributors in their annual reports are not readily comparable between distributors.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the income of the National Lottery good causes has been in *(a)* actual and *(b)* real terms in each year since the National Lottery began. [294646]

Mr. Simon: The information requested is provided in the following tables:

(a) Actual (cash) terms

£000

	Arts	*Sports*	*Heritage*	*Big Lottery Fund and predecessors*	*Olympics*
1994-95	58,693	58,688	58,691	117,396	—

2007-08	8.3	8.5
2008-09	5.8	5.8

[1] Costs in 2008-9 prices. Calculated using GDP deflators

Playing Fields: Planning Permission

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many times Sport

England has been consulted on planning applications on playing fields below 0.4 hectares in size since April 2009; and how many of those planning applications have been rejected. [293881]

Mr. Sutcliffe: In December 2009 Sport England will publish the latest annual playing field statistics available for the year 2007-08. However, information on the number of applications referred to Sport England as a consequence of the change in definition of a playing pitch from 0.4 to 0.2 hectares will not be available until December 2010.

Sports: Facilities

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what proportion of sports facilities in each region are listed on the Active Places website; and how many unique users the website has had in each year since it was set up. [293880]

Mr. Sutcliffe: Active Places only lists certain types of sports facilities. It is therefore not possible to say what proportion of sports facilities in each region are listed on the Active Places website as there are no figures available for this.

The number of unique users the website has had in each year since it was set up is as follows:

	Number
2004	59,660
2005	161,506
2006	204,348
2007	218,378
2008	114,270

Sport England

HOUSE OF COMMONS COMMISSION

Parliament Square: Construction

Mr. Greg Knight: To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will take steps to ensure that contractors digging up and closing Parliament square and Victoria street do so as far as possible at times when the House is not sitting. [294141]

Nick Harvey: Works in the streets around the Parliamentary Estate are controlled by Westminster city council and Transport for London. These organisations are aware of the requirement that Members' access is not to be impeded. The Parliamentary Director of Estates will make representations to both organisations on the need to minimise disruption to the House during sitting times.

TRANSPORT

Bus Services: Concessions

Norman Baker: To ask the Minister of State, Department for Transport what recent assessment he has made of the merits of the introduction of mandatory free companion passes for those who accompany blind or partially-sighted people on bus journeys. [292781]

Mr. Khan: The Government recently improved the statutory minimum concession to provide free off-peak local bus travel anywhere in England for eligible disabled people and those aged 60 or over.

There are no plans at present to extend the statutory minimum to include companion passes. Under the Concessionary Bus Travel Act 2007, local authorities have the flexibility to offer locally funded benefits over and above the statutory minimum, including companion passes. I believe that local authorities are best placed to know about the needs and circumstances of their residents and to decide on the most appropriate concessions to offer in their particular area based on their overall financial priorities.

The inclusion of companions to the entitlement is not just a question of cost, but also of ensuring robust and fair definitions of eligibility, mitigating against fraud and managing bus services' ability to respond.

The Department for Transport recently commissioned some research on the cost and impact of options for extending the current statutory minimum concessionary travel scheme. Based on this research, the Department estimates that it would cost around an extra £104 million per annum to extend the statutory minimum concession to enable free companion passes to those older and disabled people who require them.

Cycling: Helmets

Annette Brooke: To ask the Minister of State, Department for Transport what recent representations he has received on the wearing of cycle helmets; and if he will make a statement. [294371]

Paul Clark: The Department for Transport frequently receives representations both for and against making the wearing of cycle helmets compulsory.

On Thursday 13 August, the Government responded to a petition submitted by Luke Griggs of Headway—the brain injury association—to introduce a new law to make it compulsory for children under 16 to wear helmets while cycling. The response sets out the Government's position on cycle helmet wearing and can be found on the Number10.gov.uk website at:

http://www.number10.gov.uk/Page20350

Dartford-Thurrock Crossing: Tolls

Mr. Greg Knight: To ask the Minister of State, Department for Transport what studies his Department has undertaken on the effect of the 50 per cent. toll rise on the number of vehicles using the Dartford crossing; and if he will make a statement. [293865]

Chris Mole: The Department for Transport has not commissioned any specific studies to consider the effect of the recent changes to charges at the Dartford crossing. However, the Highways Agency regularly monitors the performance and use of the crossing. An impact assessment was undertaken on the proposed changes when they were consulted upon.

In a six-month period before the changes to the charges (1 April to 30 September 2008) 27,356,979 vehicles used the Dartford crossing. In a comparable period (1 April to 30 September 2009) 27,054,297 vehicles used the Dartford crossing after the changes to the charges.

Roads: Speed Limits

Mr. Greg Knight: To ask the Minister of State, Department for Transport what guidance he has issued to the Highways Agency on the imposition of temporary speed limits on main roads at times when road works are not taking place. [294142]

Chris Mole: National guidance to all highway authorities, including the Highways Agency about applying temporary speed limits during the suspension of road works, is given in Traffic Signs Manual Chapter 8 paragraphs D3.7.10 and D3.7.11. The guidance seeks to prompt designers and operatives to remove speed limits when cones etc. have been removed and there are no other risks which justify retaining the lower limit.

Mr. Greg Knight: To ask the Minister of State, Department for Transport for what reasons a 50 miles per hour limit on the A1 in the vicinity of the junction with the B1048 was in force in September 2009; and if he will make a statement. [294143]

Chris Mole: The 50 miles per hour speed limit was in place in September 2009 on the A1 in the vicinity of the junction with the B1048 for safety reasons, as the safety fence was incomplete and there were excavations along the verges for drainage repairs, as part of the A1 Eaton Socon Bypass resurfacing scheme. The works and speed limit started on 4 September and will be in place until completion of works in late December 2009.

This scheme involves drainage repairs, resurfacing of both concrete carriageways with low noise surfacing and the renewal of the existing safety fence. The works are carried out using overnight lane closures during the week, and weekend full carriageway closures.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Domestic Waste: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department has issued any recent guidance to waste collection authorities on charging charity shops for the disposal of donated but unsold non-reusable household waste. [294558]

Dan Norris: On 12 October 2007, the Department for Environment, Food and Rural Affairs issued guidance to all local authorities on the classification and reporting of waste. This letter included DEFRA's interpretation of the Controlled Waste Regulations (1992) with respect to waste from charities and charity shops.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have expressed a preliminary interest in levying charges for the collection of household waste. [294559]

Dan Norris: No authorities have yet come forward to formally express an interest in participating in a pilot waste incentive scheme.

The hon. Member for Lewisham, Deptford (Joan Ruddock) wrote to local authorities on 20 June 2008 inviting them to come forward, noting that DEFRA would only release the name of any authority which came forward, at the point of an explicit expression of interest.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish the summary of responses to his Department's June 2008 consultation on draft guidance on incentives for recycling by households. [294617]

Dan Norris: A summary of responses to the formal consultation on "Waste Incentive Schemes: draft recycling service guidance" was published on 27 March 2009 and can be found on DEFRA's website.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many organisations responded to his Department's consultation on the guidance on the operation of waste incentive charges for the collection of household waste. [294629]

Dan Norris: The Department received 29 responses in total to its informal June 2008 consultation on incentives for recycling by households, which also included the recycling service guidance.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the implications of the transposition of the revised Waste Framework Directive (Directive 2008/98/EC) on the municipal collection of household waste. [294454]

Dan Norris: On 16 July 2009 my Department published a consultation paper on the transposition of key provisions of the revised Waste Framework Directive. The provisions addressed in that consultation paper include those in Article 11(1) on the collection of waste. The consultation paper contains an initial impact assessment.

The consultation paper referred to is available on the DEFRA website at:

www.defra.gov.uk/corporate/consult/waste-framework/index.htm

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 1 June 200[illegible], *Official Report*, columns 8-9W, on waste disposal, if he will place in the Library a copy of the WasteDataFlow returns of each local authority for *(a)* quarter 3 and *(b)* quarter 4. [294456]

Dan Norris: The WasteDataFlow data for quarter 4 of 2008-09, and the final data at local authority level for all of 2008-09, will be published on DEFRA's website on 5 November 2009. In line with the National Statistics Code of Practice, these data cannot be released before this date.

Provisional data for quarter 3 of 2008-09 is published at regional level on DEFRA's website at:

http://www.defra.gov.uk/evidence/statistics/environment/wastats/bulletin09qtr.htm

Provisional local authority level data for quarter 3 can be viewed by registering to use WasteDataFlow at

http://www.wastedataflow.co.uk/

and downloading summary reports. These reports, including the background datasheets, are publicly available and contain detailed data for each local authority. To print out and put in the Library every data entry by each local authority in England could be done only at disproportionate cost.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether he proposes to amend *(a)* enforcement powers and *(b)* penalties levied in respect of household waste offences consequent upon the coming into force of the Regulatory Enforcement and Sanctions Act 2008. [294548]

Dan Norris: I do not propose to amend either the enforcement powers or the penalties.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons no *(a)* impact assessment and *(b)* equalities impact assessment was conducted in relation to clauses in the Climate Change Act 2008 in respect of the statutory duties of waste collection authorities for the collection of household waste. [294554]

Dan Norris: The amendment to section 46 of the Environmental Protection Act 1990, made through the Climate Change Act 2008, provides a single point of reference in legislation for local authorities. As it was a clarification of published policy and not a new measure, consultation and development of an impact assessment were not deemed necessary.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research has been commissioned by his Department into the *(a)* waste collection and *(b)* waste disposal implications of the shift to mercury-based compact fluorescent light bulbs for domestic use. [294557]

Dan Norris: I refer the hon. Member to the answer given by my right hon. Friend the Member for Liverpool, Wavertree (Jane Kennedy) on 23 February 2009, *Official Report*, column 8W.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent guidance his Department has issued to local authorities on the adoption of *(a)* no side waste policies and *(b)* no closed lid policies. [294560]

Dan Norris: DEFRA has issued no such guidance.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if his Department will accept bids from joint waste authorities to participate in waste collection charge pilot schemes. [294608]

Dan Norris: Powers provided in the Climate Change Act allow up to five local authorities to pilot incentives to encourage household waste minimisation and recycling.

A joint waste authority (JWA) would be able to put forward a proposal to pilot a waste incentive scheme in its area if it had responsibility for waste collection.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance the Waste Improvement Network has published on the operation of *(a)* closed lid policies and *(b)* no side-waste policies for the collection of household waste. [294610]

Dan Norris: Neither the Waste Improvement Network (WIN), nor the Waste and Resources Action Programme has issued any such guidance.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate *(a)* his Department and *(b)* the Waste and Resources Action Programme has made of the average capital cost, excluding value added tax, of a household wheeled refuse container, including the cost of delivery. [294616]

Dan Norris: I refer the hon. Member to the answer I gave to the hon. Member for Peterborough (Mr. Jackson) on 20 July 2009, *Official Report*, columns 723-24W.

Marine Aggregate Levy Sustainability Fund

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are followed in deciding what research projects to fund from the Marine Aggregate Levy Sustainability Fund. [294308]

Huw Irranca-Davies: The DEFRA-chaired Marine ALSF Steering Group agrees the strategic direction of marine projects funded by the ALSF and ensures that they meet with the ALSF objectives.

For the majority, the Marine ALSF Steering Group commissions projects via open calls advertised on the MALSF website. All Expressions of Interest and full tenders are evaluated by a panel drawn from the Marine ALSF Steering Group members. There may also be occasions where a short list of contractors is compiled from previously submitted Expressions of Interest and these contractors invited to submit full proposals at a later stage of commissioning. On a few occasions the Marine ALSF Steering Group may commission work by single action tender.

All procurement and operation of evaluation panels is governed by the Marine Environment Protection Fund procurement protocol and panel terms of references contained within document "MEPF: who we are and how we operate" which is published on the MALSF website at:

http://www.alsf-mepf.org.uk/downloads/documents/mepf---how-we-operate.aspx

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications for *(a)* Collaborative Offshore Wind Research into the environment and *(b)* Marine Aggregates Levy Sustainability Fund project funding have been made by the Centre for Environment, Fisheries and Aquaculture Science; and how many of them have been successful. [294374]

Huw Irranca-Davies: The figures for *(a)* Collaborative Offshore Wind Research (COWRIE) and *(b)* Marine Aggregates Levy Sustainability Fund-Marine Environment Protection Fund (ALSF-MEPF) applications made by the Centre for Environment, Fisheries and Aquaculture Science are as follows:

COWRIE

	Number
Submitted	2
Successful	2

ALSF-MEPF

	Number
Submitted	28
Successful	17
Unsuccessful	9
Awaiting outcome	2

Pesticides: Licensing

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 9 September 2009, *Official Report,* column 1919W, on weedkillers, what recent discussions officials in his Department have held with representatives of Dow AgroSciences Ltd on the relicensing of the herbicide aminopyralid; and if he will make a statement. [294385]

Dan Norris: The Chemicals Regulation Directorate (CRD) of the Health and Safety Executive is the part of central Government responsible for the regulation of pesticides, detergents, chemicals, on behalf of DEFRA Ministers. CRD officials had a number of contacts, as is usual, during the course of the consideration of recent applications for approval of two new products containing aminopyralid.

River Lymington: Ferries

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to protect the Natura 2000 site at the mouth of the Lymington river from damage by commercial ferry operators; and if he will make a statement. [293175]

Huw Irranca-Davies: Natural England is in discussion with the relevant ferry operator over the action that can be taken to avoid any adverse effect on the integrity of the Natura sites in the vicinity of the Lymington river from ferry operations.

Should Natural England advise that mitigation action cannot be taken to prevent any adverse effects, the Secretary of State, in conjunction with Natural England, will consider what steps it might be appropriate to take to avoid any damage to the protected sites.

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the total annual cost to the public purse was of *(a)* the Waste and Resources Action Programme and *(b)* the Waste Improvement Network in the last year for which figures are available. [294459]

Dan Norris: The Waste and Resources Action Programme's grant funding for 2008-09 was £55 million. The cost of running the Waste Improvement Network (WIN) for 2008-09 was £195,783. This cost covers delivery of the WIN Website, the Waste and Recycling Mentoring Scheme (WROMS) online conferencing tool, the co-ordination of waste network chairs and the development of an online self assessment tool for councils.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the Waste and Resources Action Programme's Waste Prevention Toolkit. [294469]

Dan Norris: I refer the hon. Member for Meriden to the answer I gave on 13 July 2009, *Official Report,* column 16W.

Waste Management

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of *(a)* the amount and *(b)* the percentage of waste sent to landfill abroad in each of the last five years. [294056]

Dan Norris *[holding answer 19 October 2009]:* The UK Plan for Shipments of Waste, which sets out Government policy on shipments of waste, prohibits the export of waste from the UK for landfill or other disposal operations with very few exceptions. Waste may, however, be exported for recovery, including recycling. Therefore, no such estimate has been made.

Weed Control: Avon

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects on farmers incomes of English Nature discontinuing the practice of weed cutting in the lower Avon Valley; and if he will make a statement. [293148]

Huw Irranca-Davies: In 2004, the Environment Agency gave notice to landowners and farmers that it would review mechanised weed cutting in the lower River Avon in five years' time. The review, which was undertaken through a local partnership between the Environment Agency, Natural England and fishery and farming interests, concluded that there were no flood or nature conservation benefits from the practice. Consequently mechanised weed cutting was discontinued.

No assessment has been made of the implications on farmers' incomes of discontinuing mechanised weed cutting in the lower River Avon, although Natural England continues to give support and advice through Environmental Stewardship to farmers and landowners who wish to change their farming practice.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what expenditure English Nature incurred on weed cutting in the lower Avon Valley in each of the last five years; and if he will make a statement. [293149]

Huw Irranca-Davies: Natural England (formerly English Nature) is not involved operationally in weed cutting but does provide scientific advice on the likely impacts of this activity.

Mechanised weed cutting on the River Avon System has been carried out by the Environment Agency as part of its routine river management.

The Environment Agency estimates the annual cost of weed cutting on the Lower Hampshire Avon over the last five years to be in the order of £120,000 per annum. This figure includes the direct operational costs (e.g. staff time and equipment), indirect costs (e.g. proportional costs for plant and consumables), plus additional costs such as those associated with liaison with local stakeholders. Costs vary year on year depending on how much weed has been cut, the timing of the cuts, and patterns of activity.

Weedkillers

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library copies of the reports his Department has received on the half-life of the herbicide aminopyralid. [294487]

Dan Norris: There is a range of information relating to the way that aminopyralid degrades in a variety of situations. This information can be found in the disclosure document published by the Advisory Committee on Pesticides. I will ensure that a copy will be placed in the Library of the House when it is published shortly.

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of each item of correspondence between Ministers in his Department and *(a)* Dow AgroSciences Ltd and *(b)* the Advisory Committee on Pesticides in relation to the herbicide aminopyralid exchanged in the last three years. [294488]

Dan Norris: A copy of the requested correspondence will be placed in the Library of the House shortly.

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the potential effects of aminopyralid on human health; and if he will make a statement. [294489]

Dan Norris: The core data package for aminopyralid was first considered by the Advisory Committee on Pesticides at their meeting in September 2005. The assessment has been published by the European Food Safety Authority (EFSA) as part of the European consideration of aminopyralid, and can be obtained via their website:

http://dar.efsa.europa.eu/dar-web/provision

The Advisory Committee on Pesticides considered whether there was any risk to human health arising from the misuse of that led to aminopyralid products appearing in manure earlier this year. The ACP considered that there was no unacceptable risk. The records of these meetings (in May and June 2009) can be found on the ACP website at:

www.pesticides.gov.uk/acp.home.asp

The disclosure document summarising the assessment will be placed on this website shortly and a copy will be placed in the Library of the House.

HEALTH

Blood: Contamination

Bob Russell: To ask the Secretary of State for Health how many people have *(a)* died and *(b)* contracted sepsis as a result of receiving bacterially contaminated transfused blood components in the last five years; and if he will make a statement. [293867]

Gillian Merron: Since 8 November 2005, the Medicines and Healthcare products Regulatory Agency (MHRA) has been the United Kingdom competent authority for the safety and quality of blood components for transfusion. In that time MHRA has received 14 statutory reports of transfusion-transmitted bacterial infection where the transfused component was identified as probably or definitely the source of sepsis. Of these 14 reports, two involved deaths.

A voluntary reporting scheme Serious Hazards of Transfusion (SHOT), funded by the UK Blood Services, operates alongside the statutory MHRA system. Between 1 January 2004 and 31 December 2008, SHOT recorded 13 confirmed cases of bacterial infection transmitted by blood components in the UK. Of these, three individuals died. Although both MHRA and SHOT actively encourage participation in the SHOT scheme, it is possible that not all reports to MHRA will be shared with SHOT, and there may be further clinical investigation of individual cases reported via SHOT, hence the slight discrepancy between MHRA and SHOT figures. However, the two schemes are working to reconcile their data.

Dental Services

Mr. Lansley: To ask the Secretary of State for Health whether NHS dentists are permitted to refuse to provide further treatment to patients if they do not attend for check-ups when advised to do so. [294353]

Ann Keen: Most dental practices choose to provide ongoing care to their patients including recalls at appropriate clinical intervals. However, once a course of treatment is completed, patients are free to change practice. Equally, dental providers are not compelled as part of their national health service contractual arrangements to offer further courses of treatment once the current one is complete. It is up to individual practices to decide whether to offer further courses of treatment to patients who do not respond to advice on recall intervals.

Miss McIntosh: To ask the Secretary of State for Health how many dentists were providing NHS services in *(a)* Vale of York constituency, *(b)* North Yorkshire and *(c)* England in each year since 1997; and if he will make a statement. [294573]

Ann Keen: The number of national health service (NHS) dentists, in England, as at 31 March, 1997 to 2006 are available in annex E and annex G of the "NHS Dental Activity and Workforce Report England: 31 March 2006". Annex E provides information by strategic health authority (SHA) and by primary care trust (PCT). Annex G provides information by constituency.

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report, published on 23 August 2006, has already been placed in the Library and is available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dwfactivity

The number of dentists with NHS activity during the years ending 31 March, 2007, 2008 and 2009 are available in table G1 of annex 3 of the "NHS Dental Statistics for England 2008/09" report. Information is provided for England and by SHA and PCT but is not available by constituency. This information is based on the new dental contractual arrangements, introduced on 1 April 2006. This report, published on 19 August 2009, has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalstats0809

Following a recent consultation exercise, this measure is based on a revised methodology and therefore supersedes any previously published work force figures relating to the new dental contractual arrangements. It is not comparable to the information collected under the old contractual arrangements. This revised methodology counted the number of dental performers with NHS activity recorded via FP17 claim forms in each year ending 31 March.

These published figures relate to a headcount and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

Human Fertilisation and Embryology Bill 2007-08

Mr. Amess: To ask the Secretary of State for Health (1) if he will place in the Library a copy of each document in his Department's file EAX/036 Human Fertilisation and Embryology Bill 2007-08; and if he will make a statement; [293282]

(2) if he will place in the Library a copy of each document in his Department's file EAX/034 Human Tissue and Embryos (Draft) Bill; and if he will make a statement. [293283]

Gillian Merron: We can confirm that the Department does hold these files. It will take some time to review the information requested and assess what information can be released. We will endeavour to do so within 20 working days, which is the period of time that would apply had the hon. Member submitted his question as a freedom of information request. I will write to the hon. Member in due course and place a copy of my letter in the Library.

Human-Animal Hybrid Embryos

Mr. Dhanda: To ask the Secretary of State for Health if he will bring forward legislative proposals to amend the Human Fertilisation Act 2008 to extend protection to embryos whose statutory storage period has expired; and if he will make a statement. [289162]

Gillian Merron: Yes. The Government have made the Human Fertilisation and Embryology (Supplementary Provision) Order 2009 which applies to embryos whose statutory storage period had expired. The order permits, from 1 October, such embryos to remain in storage for 10 years from the date they were first put into storage.

In addition to the order, the Government have also introduced the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) (Amendment) Regulations 2009. These enable embryos that remain in storage by virtue of the order to benefit from the extended storage periods set out in the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009 provided they fulfil the conditions set out in those regulations.

In Vitro Fertilisation

Mr. Laurence Robertson: To ask the Secretary of State for Health what guidance his Department has issued on the requirement to destroy embryos frozen under the Human Fertilisation and Embryology Act *(a)* 1990 and *(b)* 2008; what his policy is on embryos which have been stored for five years; and if he will make a statement. [291817]

Gillian Merron: The Human Fertilisation and Embryology Authority (HFEA) code of practice provides guidance for centres on fulfilling the requirements placed on them by the legislation.

As a result of the Human Fertilisation and Embryology Act 2008 the statutory limit on storage for embryos has been extended from five to 10 years, bringing it into line with the storage period for gametes (sperm and eggs). The Human Fertilisation and Embryology (Statutory Storage Periods for Embryos and Gametes) Regulations 2009 set out the criteria that must be fulfilled for storage periods to be extended beyond 10 years.

For embryos that had been in storage for more than five years on the 1 October, where a five-year storage period applied to those embryos, the Government have made the Human Fertilisation and Embryology (Supplementary Provision) Order 2009. The order permits, from 1 October, such embryos to remain in storage for 10 years from the date they were first put into storage. In addition to the order, the Government have also introduced the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) (Amendment) Regulations 2009. These regulations enable embryos that remain in storage by virtue of the order to benefit from the extended storage periods set out in the Human Fertilisation and Embryology (Statutory Storage Period for Embryos and Gametes) Regulations 2009 provided they fulfil the conditions set out in those regulations.

Low Birthweight Babies

Jim Cousins: To ask the Secretary of State for Health what percentage of babies born alive had a birth weight of less than 2.5 kg in *(a)* England, *(b)* each strategic health authority area and *(c)* each primary care trust area in each of the last three years. [293187]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent questions asking:

What proportion of babies born in each primary care trust area of England were of low birth weight in the period since 1997. (293188)

What percentage of babies born alive had a birth weight of less than 2.5 kg in (a) England, (b) each strategic health authority and (c) each primary care trust area in each of the last three years. (293187)

The table attached provides the percentage of live births that were of low birth weight (less than 2.5kg) in: (a) England, (b) each strategic health authority and (c) each primary care organisation area for 1997 to 2008 (the latest year available).

A copy has been placed in the House of Commons Library.

Figures for 15 primary care organisations have been suppressed because of small numbers, in order to protect the privacy of individual mothers and babies.

NHS Foundation Trusts: Governing Bodies

Mr. Bone: To ask the Secretary of State for Health what estimate he has made of the average size of the electorate of a foundation hospital governing board; and what the average number of votes cast in elections to such bodies has been. [292564]

Mr. Mike O'Brien: The average size of the electorate of a foundation trust governing board is shown in table 1. These figures are based on the 115 foundation trusts authorised on or before 1 March 2009. The average number of votes cast in elections, referred to as aggregate election turnout in table 2, was collected by Monitor for the first time in 2008-09 and relates to elections held between 1 April 2008 and 31 March 2009.

Table 1

At year end (31 March)	*2008-09*	*Average 2008-09*	*2009-10 (Estimate)*	*Average 2009-10 (Estimate)*
Public constituency	924,087	8,036	1,065,096	9,262
Staff constituency	420,783	3,659	432,340	3,759
Patient constituency	120,453	1,047	143,326	1,246
Total membership	1,465,323	12,742	1,640,762	14,267

Notes:
1. Total foundation trust membership grew by 11 per cent. in 2008-09.
2. Public membership grew by 14 per cent. and staff membership by 9 per cent. during this period, however, patient membership fell due to a number of trust consolidating their patient and public constituencies.
3. Foundation trust plans show forecast membership growth of 12 per cent. during 2009-10.

Table 2

		Uncontested elections		
Constituency	*Number of elections*	*Number*	*Percentage*	*Aggregate election turnout (Percentage)*
Public	233	40	17	27
Patient	34	3	9	26
Staff	86	27	31	19
Total	353	70	20	26

Notes:
1. 283 of the 353 elections held were a direction competition between more than one candidate.
2. More than 125,000 members voted in these 283 elections.

Radiotherapy

Mr. Graham Stuart: To ask the Secretary of State for Health what research his Department has evaluated on the effectiveness of stereotactic radiosurgery in the treatment of low-grade brain tumours. [293970]

Gillian Merron: None.

The point has not yet been reached where it would be possible to undertake the secondary research from which a comparative assessment of the effectiveness of this relatively new therapy could be made.

Social Services: Leeds

John Battle: To ask the Secretary of State for Health what steps his Department is taking to increase the provision of social care and support in the Leeds West constituency; and if he will make a statement. [293946]

Phil Hope: The Department is investing circa £3.5 billion over this comprehensive spending review period to support improvements in the provision of social care. In particular, the social care reform grant will provide an extra £520 million for the reform and transformation of adult social care, helping people to retain independence and exercise choice and control over the help they need.

In 2009-10, Leeds adult social care received a total of nearly £17.6 million of revenue and capital grant funding, both specific and non-specific. Of this, Leeds adult social care received £2.74 million in social care reform grant (revenue). Total grant funding by the Department to Leeds adult social care will increase to nearly £17.9 million in 2010-11. No data are available to identify the proportion of this funding used to support people in West Leeds.

The responsibility for the provision of adult social care within West Leeds lies with Leeds city council and it will have worked with its local partnerships to inform and develop joint strategic needs assessment to identify and agree local priorities.

Social Services: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health what steps his Department is taking to increase the provision of social care and support in Tamworth constituency. [292559]

Phil Hope: The Department is investing circa £3.5 billion over this comprehensive spending review period to support improvements in the provision of social care. In particular, the social care reform grant will provide an extra £520 million for the reform and transformation of adult social care, helping people to retain independence and exercise choice and control over the help they need

In 2009-10, Staffordshire Adult Social Care received a total of nearly £15.5 million of revenue and capital grant funding, both specific and non-specific. Of this, Staffordshire Adult Social Care received £2.85 million in Social Care Reform Grant (revenue), which is set to rise to £3.54 million in 2010-11.

The responsibility for the provision of adult social care within Tamworth lies with Staffordshire county council and it will have used Local Strategic Partnerships to inform and develop a Joint Strategic Needs Assessment in Staffordshire to identify and agree local priorities.

Swine Flu: Aviation

Bob Spink: To ask the Secretary of State for Health if he will commission research on the effects on swine influenza transmission of the number of cabin air changes per hour during commercial flights; and if he will make a statement. [293601]

Gillian Merron: The Department via the National Institute for Health Research has funded fourteen research projects related to swine influenza. None of these projects investigates influenza transmission during commercial flights.

Aircraft cabin air in the majority of commercial aircraft is exchanged and filtered every two to three minutes, exceeding the minimum number of air changes per hour that the World Health Organization recommends for healthcare facilities to prevent the transmission by droplet nuclei of infectious pathogens. In addition, a study published by the American Medical Association in 2002 found no evidence that cabin air re-circulation increases the risk for upper respiratory tract infections in commercial jet passengers.

The Department therefore does not have any plans to commission research in this area.

WALES

Departmental Training

John Mason: To ask the Secretary of State for Wales how many external training courses have been attended by staff of his Department in the last 12 months; and what the cost of attendance at each such course was. [289695]

Mr. Hain: Staff have attended a total of 18 external training courses in the last 12 months. The total cost for all 34 of those attendees was £16,094.19.

WORK AND PENSIONS

Carer's Allowance: Birmingham

Mr. Godsiff: To ask the Secretary of State for Work and Pensions how many people in Birmingham Sparkbrook & Small Heath constituency *(a)* are entitled to and *(b)* receive carer's allowance. [291566]

Jonathan Shaw: The information is in the following table.

Carer's allowance—Birmingham Sparkbrook and Small Heath constituency

	Number
Total number entitled at February 2009	3,080
Total number in payment at February 2009	2,450

Notes:
1. Figures are rounded to the nearest 10.
2. Carers entitled to receive carer's allowance may not be paid it because they receive an overlapping benefit equal to or greater than their weekly rate of carer's allowance.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study

Children: Maintenance

Alan Simpson: To ask the Secretary of State for Work and Pensions how long on average it takes the Child Support Agency to pass deduction of earning payments on to the recipient parent; and what steps she is taking to introduce *(a)* same-day and *(b)* same-week processing. [292105]

Helen Goodman *[holding answer 12 October 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how long on average it takes the Child Support Agency to pass deduction of earning payments onto the recipient parent; and what steps she is taking to introduce (a) same-day and (b) same-week processing. [292105]

Once the Child Support Agency has received the payment from the non-resident parent's employer, the average length of time it takes the Agency to process the payment and pass it on to the parent with care is one day. Cash and postal orders can be passed on to the parent with care on the same day as they are received into the Agency's bank. Many automated methods of payment such as child maintenance received from the non-resident parent by direct debit are forwarded once the banking system has cleared the funds. In these cases the parent with care receives maintenance three days later on average. This process takes longer if payments are made to the parent with care by cheque.

It should be noted that employers are required to pass on maintenance deducted from employee's earnings by the nineteenth day of the following month, parents with care may therefore experience a delay in receiving their first payment.

I hope you find this answer helpful.

Employment and Support Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate she has made of the average *(a)* cost of carrying out and *(b)* time taken to carry out a work capability assessment for the employment support allowance; and if she will make a statement. [294032]

Jonathan Shaw: It is not possible to supply the cost of medical examinations. This is because if the information was disclosed it would prejudice the commercial interests of the Department for Work and Pensions (DWP) and/or Atos Healthcare IT Services Ltd., the Medical Services contractor. This falls under the exemption in section 43 of the Freedom of Information Act.

The time taken to carry out a work capability assessment (WCA) for employment support allowance varies dependant on the customer's medical condition. This is because the examining health care professional's (HCPs) aim is to obtain the necessary information that is required by the Decision Maker, whose task it is to make the decision on benefit entitlement. The examination will therefore take as long as necessary to obtain sufficient information for the purpose of determining entitlement to benefit.

Incapacity Benefit: Appeals

Hugh Bayley: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 29 June 2009, *Official Report*, columns 1287-8, on incapacity benefit, what proportion of incapacity benefit claimants in *(a)* the UK and *(b)* Yorkshire and the Humber who had their claims terminated for failing a personal capability assessment/own occupation test between December 2007 and November 2008 (i) appealed and (ii) had their benefit reinstated on appeal. [290005]

Jonathan Shaw: The information is not held centrally.

Incapacity Benefit: Employment Support Allowance

Steve Webb: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants in each region she estimates will be migrated to employment support allowance in each quarter until 2013; and if she will make a statement. [293578]

Jonathan Shaw: The information requested is not available.

We are still making detailed plans for the migration of existing incapacity benefits claimants to employment and support allowance.

Steve Webb: To ask the Secretary of State for Work and Pensions how many assessors *(a)* there are and *(b)* there are expected to be in 2010 to assess (i) existing incapacity benefits claimants and (ii) new employment and support allowance claimants; and if she will make a statement. [293582]

Jonathan Shaw: Currently there are 526 health care professionals who are fully trained to undertake incapacity benefit (IB) medical examinations and 687 health care professionals trained to undertake employment and support allowance (ESA) medical examination. I can advise that Atos Healthcare are undertaking a training programme to enable health care professionals to undertake both IB and ESA medical examinations.

Projected figures relating to the expected HCP resources for the year 2010 are currently not available.

Industrial Diseases: Compensation

John Mann: To ask the Secretary of State for Work and Pensions what percentage of claimants for industrial disease claims for coalminers beat knee and osteoarthritis were refused a claim in the first three months of eligibility of claim for medical assessment. [292765]

Jonathan Shaw: Information on the number of disallowed claims for prescribed disease A6 (beat knee) is not available.

The number of cases for osteoarthritis of the knee decided following a medical examination was 375. Of these 234 were either refused industrial injuries disablement benefit (IIDB) or refused an increase in IIDB. This equates to 62 per cent. of claimants.

John Mann: To ask the Secretary of State for Work and Pensions what assessment her Department has made of the incidence of coactivity in claimants when assessing industrial disease claims for coalminers beat knee and osteoarthritis. [292766]

Jonathan Shaw: The Department for Work and Pensions has made no specific assessment of the incidence of coactivity in industrial disease claims for coalminers beat knee and osteoarthritis. The medical assessment in these claims would assess all the relevant loss of faculty and resulting disability from osteoarthritis of the knee or beat knee or both.

John Mann: To ask the Secretary of State for Work and Pensions what health assessment process her Department uses to assess industrial disease claims for coalminers beat knee and osteoarthritis. [292767]

Jonathan Shaw: Following receipt of a claim, a Jobcentre Plus decision maker will decide whether the claimant satisfies the occupational criteria for the prescribed disease. If the prescription is satisfied, a referral is made to Atos Healthcare who will request any previous X-rays and/or any relevant hospital letters relating to the condition. All claimants are subsequently examined by a doctor working for Atos Healthcare. The doctor will, through a combination of history and examination findings, provide advice to the decision maker as to whether the condition is diagnosed, and if it is, on the level of disablement with reference to a person of the same age and sex whose physical and mental condition is normal.

John Mann: To ask the Secretary of State for Work and Pensions what use her Department makes of the WOMAC index questionnaire in assessing industrial disease claims for coalminers' beat knee and osteoarthritis. [292768]

Jonathan Shaw: The Department for Work and Pensions does not use the WOMAC index questionnaire in assessing coalminers' beat knee and osteoarthritis.

Jobcentre Plus: Manpower

Mr. Harper: To ask the Secretary of State for Work and Pensions how many dedicated mental health experts are working in the Jobcentre Plus network. [294598]

Jonathan Shaw: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves, dated October 2009:

The Secretary of State has asked me to reply to your question asking how many dedicated mental health experts are working in the Jobcentre Plus network. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

We are introducing the post of Mental Health Coordinator within each Jobcentre Plus District. We currently have 42 coordinators in post, with a further six to take up post in November. It is not our advisers' nor that of the Mental Health Coordinators' role to be expert in mental health conditions. However, the coordinators have an important role in improving and facilitating links between local mental health organisations and employment services. They also ensure that Jobcentre Plus advisers are aware of the mental health support available in their district for those customers who would benefit.

Pensioners: Poverty

John Battle: To ask the Secretary of State for Work and Pensions what recent estimate she has made of the number of pensioners living in poverty in Leeds West constituency; and if she will make a statement. [293939]

Angela Eagle: Estimates of poverty, published in the Households Below Average Income series, only allows a breakdown of the overall number of people in poverty at Government office region level. Therefore, information for Leeds, West constituency is not available.

Latest information for Yorkshire and the Humber Government office region, is based on three-year averages and is provided in the following table:

Pensioners falling below various thresholds of median household income, after housing costs, Yorkshire and the Humber Government office region, 2005-06 to 2007-08

	Number
Below 60 per cent. of contemporary median household income	200,000
Below 50 per cent. of contemporary median household income	100,000
Below 60 per cent. of the 1998-99 median household income uprated in line with prices	100,000

Pensions: Costs

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what estimate she has made of the effect on the Exchequer of a change in the eligibility age for the state retirement pension for *(a)* men and *(b)* women to (i) 66, (ii) 67 and (iii) 68 years. [293621]

Angela Eagle: Estimates of the net savings from increasing State Pension age for men and women to 66, 67 and 68 as part of the additional benefit spend of the overall package of reforms in the 2007 Pension Act package of reforms can be found in the pension reform factsheet. The relevant tables are Figure 16 (spend in cash terms), Figure 19 (spend in 2007-08 prices terms) and Figure 22 (spend in per cent. of GDP terms). A copy of the factsheet has been placed in the House of Commons Library and is also available at the following link:

http://www.dwp.gov.uk/docs/pensions-reform-factsheet.pdf

Work Capability Assessment

Mrs. May: To ask the Secretary of State for Work and Pensions what her most recent estimate is of the likely effect of the new Work Capability Assessment on the proportion of existing incapacity benefit claimants expected to *(a)* pass the assessment and move into the work-related activity group of the employment and support allowance, *(b)* pass the assessment and move into the support group of the employment and support allowance and *(c)* fail the assessment when they are reassessed between 2010 and 2013. [297731]

Jonathan Shaw *[holding answer 9 September 2009]:* When the new Work Capability Assessment is applied to existing incapacity benefits claimants, our initial estimates are that overall, around 65 per cent. will be assessed to be in the work-related activity group of employment and support allowance, 20 per cent. will be assessed to be in the support group, and 15 per cent. will be disallowed employment and support allowance.

These are working assumptions that will continue to be evaluated and updated in light of new evidence.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many and what percentage of applicants in *(a)* the UK and *(b)* Scotland (i) failed and (ii) failed with no points the work capability assessment in the latest period for which figures are available; and how many of those in each category had their employment support allowance re-instated after appeal. [293042]

Jonathan Shaw: National level statistics on the work capability assessment covering Great Britain were published on 13 October 2009 and are available via the ONS publication hub. A copy of the publication has been placed in the Library and can be accessed directly on the following website:

http://research.dwp.gov.uk/asd/workingage/esa_wca.asp

The published data summarises work capability assessment results for employment support allowance claims up to the end of February 2009. The Department does not assess people on the basis of passing or failing the work capability assessment. At the work capability assessment people can be assessed as falling into one of three categories:

Support group (for those with severe disabilities)—they receive a higher rate of benefit entitlement overall and exemption from mandatory involvement with pathways;

Work related activity group—they receive higher rate of benefit than those on jobseeker's allowance and are mandated to engage with Pathways to Work;

Fit for work—individuals can ask for a reconsideration or appeal if they disagree with the decision.

The following table summarises the published figures for Great Britain and the equivalent figures for Scotland.

ESA on-flows October 2008 to February 2009 by result of medical assessment

	Great Britain		*Scotland*	
Work capability result	*Volumes*	*Percentage*	*Volumes*	*percentage*
Support group	10,000	5	800	4
Work related activity group	21,600	11	1,500	7
Fit for work	68,800	36	8,600	42
Claim closed before assessment complete	74,500	38	8,000	39
Assessment still in progress	19,000	10	1,600	8

Note:
Figures are rounded to the nearest 100

HOME DEPARTMENT

62 South Eaton Place

Mrs. Spelman: To ask the Secretary of State for the Home Department on what date the home information pack for 62 South Eaton Place was updated to reflect the fact that the freehold was being sold with the leasehold. [293112]

Mr. Woolas: The Department has served notice under the Leasehold Reform Act to acquire the freehold to merge with its leasehold interest of 62 South Eaton Place so as to achieve better value for money on its outright disposal. Until the freehold is acquired the home information pack cannot be amended.

Mrs. Spelman: To ask the Secretary of State for the Home Department whether a property information questionnaire has been produced as part of the home information pack for 62 South Eaton Place. [294083]

Mr. Woolas: There was no legal requirement to prepare a property information questionnaire with the home information pack for 62 South Eaton Place. The sale particulars and supporting information held by the selling agent has met the requirements of prospective purchasers.

Alcoholic Drinks: Crime

Greg Mulholland: To ask the Secretary of State for the Home Department how many shopkeepers were prosecuted in *(a)* England, *(b)* West Yorkshire and *(c)* Leeds North West for selling alcohol to underage drinkers in the latest period for which figures are available. [294291]

Mr. Alan Campbell: I refer the hon. Member to the answer I gave on 3 February 2009, *Official Report*, column 1024W. The table is broken down into male, female and other defendants, but we are not able to differentiate between shopkeepers and any other defendants. Figures are broken down into police force area and are not available by constituency. The data for 2008 will be available at the end of January 2010.

Anti-Semitism

Mr. Amess: To ask the Secretary of State for the Home Department (1) what estimate he has made of the number of anti-Semitic attacks during Jewish high holy days in *(a)* 2008 and *(b)* 2009; and if he will make a statement; [R] [293290]

(2) what steps the Government is taking to protect the Jewish community from anti-Semitic attacks; and if he will make a statement. [R] [293291]

Mr. Alan Campbell: The Government abhor all forms of hate crime. It is not possible to make estimates of the number of anti-Semitic attacks during Jewish high holy days. However, the Association of Chief Police Officers National Community Tension Team (NCTT) collects intelligence data on hate crime which informs police deployment decisions and acts as an indicator of community tension. As such, NCTT data can inform responses to fluctuations in anti-Semitic attacks connected to particular events on an operational basis for the police.

The Home Office has identified £5 million from the 2009-10 budget of the Office for Security and Counter Terrorism (OSCT) to reduce the vulnerability of crowded places to terrorist attack. This funding will be allocated to priorities identified by local partnerships and risk assessments carried out by Counter Terrorism Security Advisers (CTSAs). The funding will be directed at local authorities to improve the protection of crowded places locations and third sector organisations, such as the Community Security Trust, should work with local authorities to explore how they may make use of this funding.

The All-Party Inquiry into Anti-Semitism: Government Response One year on Progress Report published in May 2008 set out our current programme of work to combat anti-Semitism. A command paper will be published by May 2010 setting out further progress. We have also recently published a Cross-Government Hate Crime Action Plan to tackle all forms of hate crime, including anti-Semitism.

Antisocial Behaviour Orders

Mr. Moss: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued to people *(a)* under and *(b)* over the age of 18 years in (i) England and (ii) North East Cambridgeshire in each of the last five years; and if he will make a statement. [290669]

Mr. Alan Campbell *[holding answer 9 September 2009]*: The latest available published data on the number of antisocial behaviour orders (ASBOs) issued covers the period 1 April 1999 to 31 December 2007 and are not available below Criminal Justice System (CJS) area level.

The available information is shown in the following tables. The first table shows the number of orders issued to young people (defined as being aged 10 to 17 at the date of appearance in court) and the second the number of orders issued to adults (defined as being aged 18 or over at the date of appearance in court).

Table 1: Number of antisocial behaviour orders issued to persons aged 10 to 17[1] at the Cambridgeshire criminal justice system (CJS) area and at all courts in England as reported to the Home Office by the Court Service, January 2003[2] to December 2007

	CJS area	
	Cambridgeshire	*England*
2003	10	598
2004	3	1,291
2005	14	1,493
2006	15	971
2007	4	869
Total	46	5,222

[1] Previously issued data have been revised.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Table 2: Number of antisocial behaviour orders issued to persons aged 18+[1] at the Cambridgeshire criminal justice system (CJS) area and at all courts in England as reported to the Home Office by the Court Service, January 2003[2] to December 2007

	Cambridgeshire	*England*
2003	5	679
2004	23	2,013
2005	34	2,344
2006	16	1,509
2007	16	1,250
Total	94	7,795

[1] Previously issued data have been revised.
Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

OCJR Court Proceedings Database

Antisocial Behaviour: Crime Prevention

Mr. Evennett: To ask the Secretary of State for the Home Department (1) what recent estimate he has made of the number of mosquito ultrasonic devices in use in *(a)* London and *(b)* England; [293535]

(2) if he will review the use of mosquito ultrasonic deterrent devices by *(a)* police forces and *(b)* others. [293536]

Mr. Alan Campbell: Information on the use of mosquito dispersal devices is not collected centrally by the Home Office.

We encourage local agencies to consider the full range of innovations, schemes and practices intended to reduce crime, the fear of crime and antisocial behaviour. It is for local agencies like the police and local authorities to decide on the most appropriate interventions to tackle antisocial behaviour based on their knowledge of what works best locally. The Home Office does not promote or recommend any particular commercial product or venture above this.

The use of any device like "mosquito" which claims to disperse groups of young people should be treated with caution and if used should form part of an overall strategy to tackle drivers of that antisocial behaviour and to encourage more constructive behaviour.

We have no plans to review the use of mosquito ultrasonic deterrent devices.

Asylum

Jim Cousins: To ask the Secretary of State for the Home Department how many cases have been *(a)* dealt with and *(b)* concluded under the legacy casework programme. [293168]

Mr. Woolas: The total conclusions now stand at over 197,500 cases concluded to end of May 2009 and Lin Homer, chief executive of the UK Border Agency, will update the Home Affairs Select Committee on performance to date this month.

Closed Circuit Television

James Brokenshire: To ask the Secretary of State for the Home Department what progress has been made on implementation of the National CCTV Strategy; and if he will make a statement. [294212]

Mr. Alan Campbell: Progress continues to be made on implementing the National CCTV Strategy led by the National CCTV Strategy Programme Board. The Programme Board has been reviewing the recommendations made in the strategy and, as indicated in my answer to the hon. Member for Epsom and Ewell (Chris Grayling) on 11 May 2009, *Official Report*, columns 521-22W, some of the recommendations are either no longer appropriate or need reviewing. We will announce the outcome of that review in due course.

Crime: Enfield

Joan Ryan: To ask the Secretary of State for the Home Department how many incidents of crime were recorded in Enfield North constituency in each year since 1997. [294194]

Mr. Alan Campbell: Statistics for the Enfield North constituency are not collected centrally.

The available information relates to offences recorded by the police in the Enfield local authority area and is given in the following table. Data for total crime at local authority level are only available from 2000-01.

Table 1: Offences recorded by the police in Enfield—2000-01 and 2001-02[1]

	Number of offences
2000-01	28,019
2001-02	29,401

[1] The data in this table is prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 2: Offences recorded by the police in Enfield—2002-03 to 2008-09[1]

	Number of offences
2002-03	30,042
2003-04	29,998
2004-05	28,131
2005-06	27,473
2006-07	27,058
2007-08	25,248
2008-09	24,566

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Crime: Leeds

Greg Mulholland: To ask the Secretary of State for the Home Department how many incidents of crime were recorded in Leeds North West constituency in each year since 1997. [294294]

Mr. Alan Campbell: Statistics for the Leeds North West constituency are not collected centrally.

The available information relates to offences recorded by the police in the Leeds local authority area and is given in the following tables. Data for total crime for Leeds are only available centrally from 2001-02.

Table 1: Offences recorded by the police in Leeds, 2001-02[1]

	Number of offences
2001-02	120,477

[1] The data in this table is prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 2: Offences recorded by the police in Leeds, 2002-03 to 2008-09[1]

	Number of offences
2002-03	128,920
2003-04	125,692
2004-05	103,404
2005-06	98,014
2006-07	94,184
2007-08	85,737
2008-09	82,272

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Departmental Advertising

Dr. Cable: To ask the Secretary of State for the Home Department on which initiatives of his Department and its agencies expenditure on advertising has been incurred in each of the last five years; how much was spent on each such initiative; and which such initiatives were offered for tender through the Central Office of Information. [292528]

Mr. Woolas: The following table outlines Home Office and its agencies spend on advertising in each of the last five years, broken down by campaign area. All were carried out via the Central Office of Information.

Recruitment advertising is not done centrally but carried out across the Department and hence spend could be obtained only at disproportionate cost.

	Campaign	*Cost (£)*
2004-05	Acquisitive Crime Reduction	6,100,808
	Antisocial Behaviour	366,553
	Child Protection on the Internet	290,225
	Clean Up campaign 2005-06	25,722
	Domestic Violence	432,263
	Drugs (including FRANK campaign)	936,688
	Gun Crime	162,042
	Police Specials Recruitment	1,885,559
	UK Passport Service[1]	124,630
2005-06	Acquisitive Crime Reduction	4,123,311
	Alcohol Misuse Enforcement Campaign	92,204
	Antisocial Behaviour	396,475
	Child Protection on the Internet	862,229
	Clean Up campaign	39,819
	Crime Stoppers	82,182
	Domestic Violence	534,587
	Drugs (including FRANK campaign)	1,524,701
	Park Mark Car Parks	94,260
	Police Specials Recruitment	1,389,166
	Rape	66,153
	UK Passport Service[1]	76,000
2006-07	Acquisitive Crime Reduction	3,266,192
	Alcohol Binge drinking	1,975,005
	Alcohol Misuse Enforcement Campaign	231,713
	Child Protection on the Internet	46,824
	Domestic Violence	800,384
	Drugs (including FRANK campaign)	3,467,021
	Immigration	790,860
	Knife Amnesty	137,083
	PCSO Recruitment	1,748,743
	Rape	280,022
	Single Non-Emergency Number	780,325
	Stop and Search	134,501
	Identity and Passport Service (IPS) Communications[1]	105,950
2007-08	Alcohol Harm Reduction	2,900,411
	Community Safety	866,889
	Drugs (including FRANK campaign)	898,509
	Immigration	1,973,558
	Kerb Crawling	218,025
	Mobile Phone Blocking	190,162
	IPS—Passport Authentication by Interview	1,043,714
	IPS Communications[1]	78,417
2008-09	Acquisitive Crime Reduction—Burglary	918,170
	Alcohol Harm Reduction	2,790,203
	Community Safety	2,346,390
	Drugs (including FRANK campaign)	717,397
	Human Trafficking	8,928
	Immigration—Points Based System	2,453,007
	IPS Communications[1]	21,500

[1] IPS Communications costs (and its predecessor the UK Passport Authority) were related to informing the public of passport fee increases and encouraging the public to get the applications in early to help distribute passport demand more evenly throughout the year.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for the Home Department what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293234]

Mr. Woolas: The Home Department is committed to implementing the recommendations of the Glover Report and is working to achieve these. It has the ability to identify small and medium enterprises (SMEs) on its system and currently has 1,883 registered.

The Department does not capture company size information in relation to number of employees below that of the definition of SMEs, which are enterprises that employ fewer than 250 employees.

To provide information of the number of contracts awarded to small businesses for the Home Department and its agencies for each of the last four financial years would incur disproportionate cost.

Departmental Travel

Mr. Burstow: To ask the Secretary of State for the Home Department how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293334]

Mr. Woolas: During 2008-09 the Home Office spent £3.8 million on first class rail travel with its main travel service provider. The Department's spend on all travel 2008-09, not including expenditure incurred by its agencies, was £14.6 million. The cost of travel for pervious financial years cannot be provided without incurring disproportionate cost.

All Home Office expenditure on rail travel conforms to the principles of regularity, propriety and value for money, and any other guidance as applicable contained within Managing Public Money and the Treasury handbook on Regularity & Propriety.

Justine Greening: To ask the Secretary of State for the Home Department how much his Department spent on *(a)* train travel, *(b)* hotels and *(c)* restaurant meals for (i) Ministers and (ii) staff in his Department in each of the last five years. [290167]

Mr. Woolas: Information required to answer this question could be obtained only at disproportionate cost.

Details of business expenses and hospitality received by departmental senior officials for the quarter 1 April to 30 June 2009 can be viewed at:

http://www.homeoffice.gov.uk/about-us/publications/annual-reports-strategy

The Cabinet Office annual list of overseas travel over £500 undertaken by Ministers for 2008-09 was published on 16 July and can be viewed at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Servant Management Code respectively. All spending on official entertainment is made in accordance with the principles set out in Managing Public Money.

Disadvantaged People

Justine Greening: To ask the Secretary of State for the Home Department what the purpose of the Adults Facing Chronic Exclusion pilot is; how much funding under the pilot has been *(a)* distributed to and *(b)* spent by each local authority in each year since the pilot began; and how much such funding he expects to be (i) distributed and (ii) spent in the next two years. [291944]

Mr. Malik: The ACE Programme is a three-year, £6 million fund designed to test new approaches to tacking chronic social exclusion among the most marginalised people in society.

12 pilot projects have been directly funded across England. They are testing out ways to improve outcomes for adults with chaotic lives and multiple needs through developing new types of intervention and changing local service provision. They are led by voluntary organisations, working in partnership with other local agencies.

The funding breakdown is as follows:

Funding (£)

Pilot location	*Pilot organisation*	*September 2007-08*	*2008-09*	*2009-10*	*2010-11*	*Total*
Newcastle	Tyneside Cyrenians	107,061	189,673	0	0	296,734
Luton	NOAH	87,194	189,478	102,280	0	378,952
Lambeth and Southwark	Thamesreach	110,379	222,390	225,654	113,642	672,065
Islington	Forensic Therapies	87,500	175,000	175,000	87,500	525,000
Merton	South West London	94,500	189,000	189,000	94,500	567,000
Lambeth	St. Mungo's	81,898	177,808	208,395	112,483	580,584
Chatham, Kent	MCCH	88,667	159,833	159,833	82,667	491,000
Bolton	Turning Point	92,915	214,214	147,846	0	454,975
Milton Keynes	RDA Milton Keynes	89,000	178,000	178,000	89,000	534,000
Halifax	Calderdale Women's Centre	96,276	177,659	196,936	95,434	566,305
Manchester and Durham	After Adoption	52,874	85,308	90,603	38,594	267,379
Bristol	Fairbridge	60,000	112,745	112,954	55,372	341,071
	Total	1,048,264	2,071,108	1,786,501	769,192	5,675,065

Justine Greening: To ask the Secretary of State for the Home Department what recent assessment he has made of progress made under the Adults Facing Chronic Exclusion pilot to date; to what areas of expenditure funding under the pilot is available; what estimate he has made of the number of people supported under the pilot in each year since its establishment; and what forecast he has made of the equivalent number in each of the next two years. [291945]

Mr. Malik: Assessment of the progress made by the Adults facing Chronic Exclusion pilots is being measured through the ACE national evaluation, which is being undertaken by Matrix Consultants. The evaluation aims to assess the project process, its impact on outcomes for both service users and services, and the cost effectiveness of the interventions.

The ACE programme is spent on services which achieve one or more of the following:

Simplifying the complexities associated with several statutory services working collaboratively (Housing, benefits, health and criminal justice system) to offer co-ordinated support to someone with multiple needs.

Offering practical help to people to access several social services at one time

Helping people to negotiate difficult times in their lives such as leaving prison, leaving care and fleeing domestic violence

The pilots work with approximately 1,000 people per year.

Drug Seizures: London Airports

Tom Brake: To ask the Secretary of State for the Home Department how much cocaine has been seized at *(a)* Gatwick and *(b)* Heathrow airport in each month since April 2009. [293126]

Mr. Woolas: From April 2009 until the end of September 2009, a total of 496.51 kilos of cocaine were seized by UK Border Agency officers working in the Border Force south region, which includes all ports along the south coast and Gatwick airport. During the same period, a total of 234.07 kilos of cocaine were seized by UK Border Agency officers in the Heathrow region.

The following table provides a monthly breakdown of these seizures.

Cocaine seizures

Quantity (kilos)

	Year to date	*April*	*May*	*June*	*July*	*August*	*September*
South region	496.51	59.46	79.58	72.82	135.35	26.25	123.05
Heathrow region	234.07	30.86	46.54	48.69	21.40	44.34	42.24

The above data have been extracted from locally-collated management information. They are provisional and therefore may be subject to change.

Entry Clearances

Mr. Lidington: To ask the Secretary of State for the Home Department what the average time taken by the UK Border Agency was from the receipt of an application from a European national for permanent residence to the determination of a case in the latest period for which figures are available. [293115]

Mr. Woolas: In the current operational year to date the average time taken to determine an application for permanent residence submitted by a European national is 7.3 months from the date of receipt.

Mr. Lidington: To ask the Secretary of State for the Home Department what target his Department has set for the average length of time for the UK Border Agency to determine applications for leave to remain under the seven years child concession. [293116]

Mr. Woolas: The UK Border Agency considers each case on its own individual merits and as such the length of time taken to consider an application under the seven years child concession will vary. Therefore we are unable to provide a specific time frame for considering these applications. However, all remaining applications made under the seven year child concession will be considered by the UK Border Agency by spring 2010.

Entry Clearances: Appeals

Fiona Mactaggart: To ask the Secretary of State for the Home Department how long on average it took for a visa to be issued following a successful appeal against a visa refusal in the last three months. [291871]

Mr. Woolas: It takes approximately six weeks for the decision of the AIT to be notified to visa sections overseas, including time taken for the UK Border Agency to decide whether to appeal against the decision. The visa section will then contact the appellant within three weeks, to request return of the passport. Once this is obtained, further checks may be carried out to ensure there has not been a change of circumstances since the decision. The visa is then issued. The visa section aims to complete the further processing as soon as possible but this will depend on the speed with which the passport is returned and the number of checks that need to be carried out. It is too early to give details on the last three months.

Offenders: Mentally Ill

Philip Davies: To ask the Secretary of State for the Home Department what proportion of people arrested were deemed to have mental health problems in the latest period for which figures are available. [293980]

Mr. Hanson: The information requested on arrests is not collected centrally.

The arrests collection held by the Home Office covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery. Information on the mental health of persons arrested does not form a part of the collection.

Police

Andrew Rosindell: To ask the Secretary of State for the Home Department how many serving *(a)* police officers and *(b)* police community support officers were arrested for (i) drug-related offences, (i) offences related to possession of a knife, (iii) offences related to possession of a gun and (iv) theft in the last 12 months. [293794]

Mr. Hanson: The Home Office does not hold this information.

Police Stations

Jenny Willott: To ask the Secretary of State for the Home Department (1) how many police stations there were in each police force area in *(a)* each of the last five years and *(b)* each of the last 12 months, excluding mobile police stations; and if he will make a statement; [294072]

(2) how many police stations were *(a)* opened and *(b)* closed in each police force area in (i) each of the last five years and (ii) each of the last 12 months; and if he will make a statement. [294073]

Mr. Hanson: The management of the police estate and allocation of resources are matters for each police authority and chief officer, who are responsible for assessing local needs.

Regulation of Investigatory Powers Act 2000

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department how many people have been convicted of offences under the Regulation of Investigatory Powers Act 2000; if he will commission research into the efficacy of the legislation; and if he will make a statement. [293656]

Mr. Hanson: Information showing the number of persons found guilty at all courts for offences under the Regulation of Investigatory Powers Act 2000 ('RIPA') in England and Wales from 2000 to 2007 is shown as follows:

Persons found guilty at all courts of offences under RIPA in England and Wales

Offence	*Statute*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Unlawful interception of a postal, public or private telecommunications system	Sections 1(1), (2), (7)	—	—	1	3	4	1	—	—
Failure to give effect to an interception warrant	Sections 11(4), (7)	—	—	—	—	1	—	—	—
Unlawful disclosure of details of interception warrant	Sections 19(4)	—	—	—	—	—	—	—	1
Failure to disclose key to protected information	Section 53	—	—	—	—	—	—	—	—
Disclose details of a S49 notice	Section 54	—	—	—	—	—	—	—	1
Total		—	—	1	3	5	1	—	2

These are from the official Ministry of Justice statistics. Figures for 2008 are due to be published at the end of January 2010. The encryption provisions of RIPA came into force on 1 October 2007 and these figures are therefore not yet reflected in the table. Some information is available in the Chief Surveillance Commissioner's report for 2008-09 which shows there were two s53 convictions for failing to disclose the key to protected information.

The Government are satisfied that offences set in RIPA are appropriate and that the legislation is being used effectively.

Roads: Accidents

Andrew George: To ask the Secretary of State for the Home Department pursuant to the answers of 17 June 2009, *Official Report*, columns 295-6W, on road accidents, what the estimated cost in police time of dealing with road closures due to road traffic accidents on *(a)* motorways and *(b)* trunk roads in each police force area in the South West was (i) from July to December 2005, (ii) in 2006, (iii) in 2007, (iv) in 2008 and (v) in 2009 to date. [287098]

Mr. Alan Campbell: This information is not collected centrally.

DEFENCE

Afghanistan

Andrew Rosindell: To ask the Secretary of State for Defence what visits each of the Ministers in his Department has made to Afghanistan in each of the last 12 months. [293808]

Mr. Bob Ainsworth: The dates of both my and my predecessors' visits to Afghanistan in the last 12 months, and those of Ministers in my Department are detailed as follows. The Minister for International Defence and Security and Minister for Strategic Defence Acquisition Reform have not visited Afghanistan in the last 12 months.

Secretary of State for Defence—John Hutton

18 to 23 October 2008: Iraq and Afghanistan

18 to 21 January 2009: Afghanistan and Pakistan

Secretary of State for Defence—Bob Ainsworth

26 to 30 June 2009: Afghanistan

2 to 7 October 2009: Afghanistan and Pakistan

Minister for Veterans

4 to 8 February 2009: Afghanistan

Minister for Defence Equipment and Support

5 to 8 January 2009: Afghanistan

10 to 12 August 2009: Afghanistan

Minister for the Armed Forces

21 to 24 December 2008: Afghanistan

26 to 30 July 2009: Afghanistan.

Afghanistan: Peacekeeping Operations

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Navy personnel have been injured in Afghanistan in the last 18 months. [293821]

Mr. Kevan Jones: Between 1 March 2008 and 15 September 2009 (the latest date for which validated data are held) there have been 95 naval service personnel injured in Afghanistan, of which 15 were from the Royal Navy and 80 were from the Royal Marines. Injury can either be as a result of battle (wounded in action) or non battle (operational accidents).

Andrew Rosindell: To ask the Secretary of State for Defence how many UK armed forces rounds of ammunition of each type have been *(a)* lost and *(b)* stolen in Afghanistan in each month since 2001. [293833]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Air Force personnel have been injured in Afghanistan in the last 18 months. [293836]

Mr. Kevan Jones: Between 1 March 2008 and 1 September 2009 (the latest date for which validated data is held) there have been 65 RAF personnel injured in Afghanistan. Injury can either be as a result of battle (wounded in action) or non-battle (operational accidents).

Andrew Rosindell: To ask the Secretary of State for Defence how many UK weapons of each type have been *(a)* lost and *(b)* stolen in Afghanistan in each month since 2001. [293840]

Mr. Bob Ainsworth: Information on lost and stolen UK weapons in Afghanistan is not held centrally and could be provided only at disproportionate cost. Individual units record their weapon losses but information is not aggregated centrally.

Armed Forces Compensation Scheme

Willie Rennie: To ask the Secretary of State for Defence how many serving armed forces personnel are awaiting *(a)* reconsideration of a decision on their claim under the Armed Forces Compensation Scheme and *(b)* an appeal hearing before the Pensions Appeal Tribunal. [293999]

Mr. Kevan Jones: As at 16 October 2009 there were 15 serving armed forces personnel who had registered for a reconsideration prior to 1 July 2009 (the latest date for which validated data are available) and are awaiting an outcome under the armed forces compensation scheme (AFCS).

As at 16 October 2009 there were 125 serving armed forces personnel who had registered an appeal prior to 1 July 2009 (the latest date for which validated data are available) and are awaiting an appeal hearing before the First Tier Tribunal (formerly the Pension Appeal Tribunal) under the AFCS.

Armed Forces: Cadets

Ann Winterton: To ask the Secretary of State for Defence how much will be spent on pay for adult instructors in the cadet force in the next six months. [293151]

Mr. Kevan Jones: Details of the remaining budget for 2009-10 paid days training (PDT) for adult instructors in each of the three services cadet forces and their respective combined cadet forces (CCF), are provided in the following table.

Cadet force and CCF	*Remaining PDT budget (£ million)*
Army Cadet Force and CCF (Army)	1.3
Air Cadet Organisation and CCF (RAF)	2.0
Navy Command Cadets	0.36

Armed Forces: Drugs

Willie Rennie: To ask the Secretary of State for Defence how many drug tests for each class of drugs on *(a)* Army, *(b)* Navy and *(c)* RAF personnel from each regiment produced positive results in each quarter since January 2008. [293998]

Mr. Kevan Jones: The following tables reflect the results of drug tests in the armed forces since January 2008. A breakdown of the Army figures by regiment could be provided only at disproportionate cost.

Royal Navy

	Total number of tests	*Number of positive results*		
		Class A	*Class B*	*Class C*
2008				
1 January to 31 March	3,114	15	0	7
1 April to 30 June	3,404	8	0	6
1 July to 30 September	3,239	25	0	4
1 September to 31 December	3,026	14	0	2
2009				
1 January to 31 March	2,779	5	3	1
1 April to 30 June	3,879	5	5	0
1 July to 31 July	1,829	3	5	0

Army

	Total number of tests	*Number of positive results*		
		Class A	*Class B*	*Class C*
2008				
1 January to 31 March	19,885	127	5	87
1 April to 30 June	24,787	199	3	96
1 July to 30 September	19,978	128	4	69
1 September to 31 December	32,652	168	3	111
2009				
1 January to 31 March	25,045	90	40	33
1 April to 30 June	26,932	83	88	10
1 July to 31 July	10,540	16	28	5

Royal Air Force

	Total number of tests	*Number of positive results*		
		Class A	*Class B*	*Class C*
2008				
1 January to 31 March	3,310	2	0	2
1 April to 30 June	2,436	4	0	7
1 July to 30 September	3,477	2	3	4
1 September to 31 December	4,458	6	0	6
2009				
1 January to 31 March	2,742	3	0	0
1 April to 30 June	3,386	0	0	2
1 July to 31 July	804	0	0	0

Notes:

1. A single test sample may contain more than one class of drug; the sum of positive test results for class A, B and C drugs may therefore be greater than the overall number of positive results.

2. Cannabis was re-classified from class C to class B in January 2009 and is therefore included in the positive results in whichever class the drug was considered in at the time the test was taken.

Armed Forces: Foreigners

Andrew Rosindell: To ask the Secretary of State for Defence how many citizens from *(a)* British Overseas Territories and *(b)* Crown Dependencies are serving in the British armed forces. [293308]

Mr. Kevan Jones: As at 1 September 2009, the number of UK regular armed forces personnel from British Overseas Territories was 390. This figure includes 40 people who recorded their nationality on the joint personnel administration (JPA) system as 'British Hong Kong'.

Since the introduction of JPA, we cannot identify those from Crown dependencies.

Due to ongoing validation of data from the JPA system, these statistics are provisional and subject to review.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence how many cases of carbon monoxide poisoning were reported as occurring in services accommodation in each of the last five years. [294001]

Mr. Kevan Jones: There have regrettably been three substantiated cases of carbon monoxide leaks, all in 2007. Immediate action was taken in all three cases and in two cases occupants required medical attention.

This Department takes the health and safety of all occupants of service family accommodation seriously and has a legal duty to investigate all suspected reports of carbon monoxide, test any suspect appliances and conduct annual gas safety inspections.

Willie Rennie: To ask the Secretary of State for Defence how many engineers are contracted by Modern Housing Solutions to undertake work on service accommodation; and at what cost. [294002]

Mr. Kevan Jones: Given changes in works undertaken, it is not possible to provide a meaningful figure for the number of engineers contracted at any particular time. The numbers vary depending on the work being undertaken, and seasonal variations.

Armed Forces: Pay

Willie Rennie: To ask the Secretary of State for Defence how many *(a)* overpayments and *(b)* underpayments of salary there were to armed forces personnel in each month since January 2008; and of what total amount in each case. [293997]

Mr. Kevan Jones: Detailed information about the number of armed forces personnel over and underpaid since January 2008 is not held because the joint personnel administration system used is now in "steady state".

The Service Personnel and Veterans Agency's performance against its key targets for pay accuracy can, however, be found in its annual report and accounts, and copies of these can be found in the Library of the House. Details are set out as follows.

For financial year 2007-08, 99.49 per cent. of personnel were paid accurately with 99.9 per cent. being paid by the due date.

During financial year 2008-09, 97.9 per cent. of personnel were paid accurately with 99.9 per cent. being paid by the due date.

Delays or errors in individual payments can also occur as the result of late or incorrect inputs by individuals or unit human resource staff. We do not hold data on this.

Departmental Information Officers

Willie Rennie: To ask the Secretary of State for Defence how many press officers his Department has. [293994]

Mr. Kevan Jones: Currently, there are 110 press officers employed across the Ministry of Defence (as recorded in the Central Office of Information's White Book). This includes civilian and military staff across the Department (including within single services) and is defined as those who directly interface with national or regional media on news issues, and in direct support of operations.

Departmental Pay

Willie Rennie: To ask the Secretary of State for Defence how many of his Department's staff received annual remuneration, including benefits, of £100,000 or more in the last year for which figures are available. [293996]

Mr. Kevan Jones: For financial year 2008-09 the MOD had 95 employees, of these, three have left MOD employment, whose gross earnings paid through payroll for the year exceeded £100,000.

Departmental Training

John Mason: To ask the Secretary of State for Defence how many external training courses were attended by staff of his Department in the last 12 months; and what the cost was of each course. [289675]

Mr. Kevan Jones: MOD is dedicated to developing its staff and provides training and development opportunities to help employees realise their full potential and support the achievement of business objectives.

External training costs are delegated to lower level budgets and as such, the information requested is not held centrally and could be provided only at disproportionate cost.

European Fighter Aircraft

Mr. Soames: To ask the Secretary of State for Defence how many Typhoon aircraft are expected to be mothballed after delivery to the Royal Air Force. [294484]

Mr. Kevan Jones: The term 'mothballing' has been taken to mean a serviceable aircraft in long-term storage and subject only to Anti-Deterioration Maintenance. There are no current plans to mothball Typhoon aircraft after delivery to the Royal Air Force.

General Richard Dannatt

Frank Dobson: To ask the Secretary of State for Defence whether his consent was sought for substantive discussions between General Richard Dannatt and the right hon. Member for Witney while the General was a serving officer. [294140]

Mr. Bob Ainsworth *[holding answer 19 October 2009]*: No such consent was sought.

Government Communications

Willie Rennie: To ask the Secretary of State for Defence how many staff in his Department *(a)* are classified as Government communicators and *(b)* have access to the Government Communications Network. [293995]

Mr. Kevan Jones: Our records indicate that the Ministry of Defence has 508 staff classified as Government communicators, all of whom have access to the Government Communications Network for their professional development. This figure is split approximately 35 per cent. service and 65 per cent civilian employees. These staff principally perform communications roles and include: press officers, media, marketing, internal comms, e-media, stakeholder communications, media training, events, visits, branding, design, publications, our deployable military media operations capability, strategy and planning.

Iraq and Afghanistan: Peacekeeping Operations

Mr. Evans: To ask the Secretary of State for Defence how many serving soldiers have injuries sustained during operations in *(a)* Iraq and *(b)* Afghanistan. [293632]

Mr. Kevan Jones *[holding answer 16 October 2009]:* For the period 1 January 2003 to 15 September 2009 (the latest date for which casualty data is available) 1,521 soldiers (Army personnel only) who are currently serving sustained injuries on operations in Iraq.

For the period 7 October 2001 to 15 September 2009 (the latest date for which casualty data is available) 841 soldiers (Army personnel only) who are currently serving sustained injuries on operations in Afghanistan.

Please note that Service personnel may have deployed to both theatres of operation and therefore it is possible for an individual to have been injured in Iraq and Afghanistan on separate occasions. Any such individual will have been counted once in both datasets.

The information supplied in this answer is a subset of that published on the MOD website on a fortnightly basis.

Mediterranean Region: Navy

Andrew Rosindell: To ask the Secretary of State for Defence how many Royal Navy personnel have taken part in Operation Active Endeavour in the last two years. [293818]

Mr. Kevan Jones: The number of Royal Navy personnel who have taken part in Operation Active Endeavour in the last two years is approximately 3,600.

Military Aircraft

Dr. Murrison: To ask the Secretary of State for Defence what consideration he has given to improving helicopter support to front line services by *(a)* providing short refresher courses to recently retired personnel, *(b)* providing short refresher courses to crews serving in ground appointments, *(c)* taking flying-current crews from flying training appointments and *(d)* providing financial retention incentives to air crew. [294493]

Mr. Kevan Jones: The level of aircrew manning is currently sufficient to meet the tasks that they are required to undertake.

Aircrew who rejoin the services following retirement already undergo refresher training before taking up flying appointments, as do flying crew returning from non-flying assignments.

The proper distribution of flying crews between the flying training system and front line units is reviewed regularly. It is, of course, vital that the flying training system remains sufficiently manned to maintain the throughput of crews onto the frontline.

On financial retention incentives, I refer the hon. Member to the answer I gave on 12 October 2009, *Official Report,* column 430W, to the hon. Member for Romford (Andrew Rosindell).

Military Attachés

Mr. Soames: To ask the Secretary of State for Defence to which UK embassies in the Middle East a defence attaché is deployed. [294485]

Mr. Kevan Jones: There is a defence attaché deployed to the following UK embassies in the middle east:

Bahrain
Iraq
Kuwait
Oman
Qatar
Saudi Arabia
United Arab Emirates
Yemen.

Parachute Regiment: Manpower

Dr. Murrison: To ask the Secretary of State for Defence how many members there are of the Parachute Regiment; and how many of them are combat available in the parachute role. [294492]

Mr. Kevan Jones: As at 19 October 2009, there are a total of 1,076 members of the Parachute Regiment of which 676 are combat available in the parachute role.

The figures above are for the 2nd and 3rd Battalions of the Parachute Regiment and, include both officers and soldiers.

Combat available has been interpreted as personnel who are able to be deployed and are ready to parachute. This figure therefore excludes recruits arriving in the Battalion who have not yet completed their parachute course, those who are not jump trained and who are not fully effective to deploy.

I am withholding the information for 1st Battalion the Parachute Regiment as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Territorial Army

Mr. Lancaster: To ask the Secretary of State for Defence what assessment he has made of the effect of the decision to reduce Territorial Army (TA) training on *(a)* the morale of members of the TA, *(b)* the ability of the TA to support the regular Army on operations and *(c)* retention rates in the TA. [293127]

Bill Rammell: This year is very challenging in resource terms, and success in Afghanistan must take priority. As such, the Army has directed that the regular forces and the reserves must focus available resources on supporting the ongoing campaign in Afghanistan, which means reducing activity levels elsewhere. All TA activity not directly in support of operations will therefore be stopped or reduced for the remainder of this financial year. This does not affect TA soldiers who have been or will be earmarked for deployment to Afghanistan. These individuals are getting and will continue to get the training that the Army considers necessary to prepare them for their deployment.

The Army recognises the potential impact on the morale of those whose opportunities to train will be reduced, and the possible consequent impact on TA retention. However, the current fiscal climate requires that we direct resources where they are most needed, and our priority remains the support of current operations, where the TA continues to make a vital contribution.

Mr. Crabb: To ask the Secretary of State for Defence how many Territorial Army reservists live in *(a)* Pembrokeshire and *(b)* Wales. [294324]

Mr. Kevan Jones: Data on the UK residential location of members of the Territorial Army are not held centrally in databases of individual records, and it is therefore not possible to provide figures for the numbers of Territorial Army reservists living in Pembrokeshire or Wales.

Mr. Lancaster: To ask the Secretary of State for Defence whether his Department plans to reduce levels of training of Territorial Army recruits. [293135]

Bill Rammell *[holding answer 15 October 2009]:* This year is very challenging in resource terms, and success in Afghanistan must take priority. As such, the Army has directed that the regular forces and the reserves must focus available resources on supporting the ongoing campaign in Afghanistan, which means reducing activity levels elsewhere. All TA activity not directly in support of operations will therefore be stopped or reduced for the remainder of this financial year. This does not affect TA soldiers who have been or will be earmarked for deployment to Afghanistan. Nor does it affect initial training for Territorial Army recruits.

JUSTICE

Criminal Justice System

Chris Huhne: To ask the Secretary of State for Justice how many people in each age group entered the criminal justice system for the first time in each year since 1997. [294204]

Claire Ward: The requested figures are shown in the following table. Figures before 2000 have not been included as the available data are known to be incomplete before that date.

These figures have been drawn from the police's administrative IT system, the police national computer (PNC), which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

First time entrants[1] to the criminal justice system, England and Wales, by age group, 2000-01 to 2008-09

Number of offenders

	Age group								
	10-14	*15-17*	*18-20*	*21-24*	*25-29*	*30-39*	*40-49*	*50 and over*	*Total*
2000-01	41,600	48,200	46,500	33,200	27,600	35,900	20,900	16,400	270,500
2001-02	40,600	48,400	43,900	34,000	27,400	37,300	22,000	16,600	270,100
2002-03	36,100	47,200	42,800	36,700	28,700	39,800	23,300	17,800	272,500
2003-04	38,300	49,800	42,800	38,300	29,100	42,000	25,400	18,800	284,600
2004-05	42,900	52,800	39,600	35,800	29,200	42,800	26,800	19,900	289,800
2005-06	48,700	58,400	42,500	39,600	33,300	47,600	31,200	22,500	323,800
2006-07	50,200	59,600	42,900	39,700	34,400	48,100	32,200	23,000	330,200
2007-08	44,400	56,000	42,000	[illegible]	34,700	47,500	32,900	24,000	320,700
2008-09[2]	n/a	n/a	38,000	[illegible]	33,100	43,600	30,300	22,700	n/a

[1] An offender is considered to be a first time entrant to the criminal jus [illegible] first occasion they receive either a conviction, a caution, a reprimand or a final warning as recorded on the police national computer.

[2] Figures for juvenile first time entrants for 2008-09 for England will be published in November by the Department for Children, Schools and Families.

Cybercrime

Mrs. Iris Robinson: To ask the Secretary of State for Justice what steps he plans to take to prevent people in prison issuing threats through the internet. [293655]

Maria Eagle: Prisoners are allowed only supervised access to the internet for educational purposes and this is limited to specific learning sites.

Prisons take a variety of measures to prevent unauthorised access to the internet by prisoners which will be mainly through use of illegally acquired mobile phones. The Government are determined to address the risks that mobile phones in prison present to security and to the safety of the public. This is a significant challenge given the advances in technology and our commitment to running decent and effective regimes. We have, though, made significant progress in implementing a strategy to tackle illicit mobile phones. This includes: minimising the number of mobile phones entering prisons; finding mobile phones that are smuggled into prisons; disrupting mobile phones that cannot be found.

In addition, the National Offender Management Service has an agreement with one of the leading internet social networking sites to ensure that any inappropriate material that may be posted by prisoners is removed as soon as it can be identified.

Employment and Support Allowance: Appeals

Mr. Oaten: To ask the Secretary of State for Justice how long on average it has taken for appeals against refusal of employment and support allowance to be heard in the last 12 months. [293636]

Bridget Prentice: The first tier tribunal-social security and child support target is to bring 75 per cent. of appeals to hearing within 14 weeks of receipt. It has taken an average of 10.22 weeks for appeals against the refusal of employment and support allowance to be heard during the period 1 October 2008 and 30 September 2009. This time is calculated from receipt of the appeal by the Tribunals Service to hearing by the first tier tribunal-social security and child support. The Tribunals Service is unable to provide information on the length of time between the appeal being lodged with the Department for Work and Pensions and it being submitted to the Tribunals Service.

General Elections

Mr. Pickles: To ask the Secretary of State for Justice what proportion of costs to local authorities of administrating a general election poll are refunded by central Government grant. [294370]

Mr. Wills: Returning officers are entitled to recover their charges in respect of services rendered or expenses incurred at parliamentary elections if they were necessarily rendered or incurred for the efficient and effective conduct of the election and they do not exceed the overall maximum recoverable amount specified in an Order made by the Secretary of State. Provision is made for this purpose from the consolidated fund.

Homicide

James Brokenshire: To ask the Secretary of State for Justice (1) how many people have pleaded guilty to a charge of manslaughter on the grounds of diminished responsibility in each of the last five years; [294223]

(2) how many people who had pleaded guilty to a charge of manslaughter on the grounds of diminished responsibility were being held in secure accommodation at each location on the latest date for which figures are available. [294225]

Claire Ward: The number of persons who pleaded guilty at the Crown court and were sentenced for manslaughter on the grounds of diminished responsibility, in England and Wales, from 2003 to 2007 (latest available) is shown in the following table. These figures include offenders who were given an unrestricted hospital order, a restricted hospital order or an immediate custodial sentence.

The statistics given relate to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Data for 2008 are planned for publication at the end of January 2010.

Persons who pleaded guilty and sentenced at the Crown court for manslaughter on the grounds of diminished responsibility, England and Wales, 2003 to 2007[1, 2]

Offence: Manslaughter on the grounds of diminished responsibility

S[illegible]te: Homicide Act 1957, section 2

			Sentence breakdown			
	Pleaded guilty	Total sentenced	Unrestricted hospital order[3]	Restricted hospital order[4]	Immediate custody	Otherwise dealt with
2003	19	19	9	1	9	—
2004	19	19	4	4	8	3
2005	19	19	3	6	8	2
2006	10	10	—	7	2	1
2007	19	19	1	12	6	—

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Unrestricted hospital order, under the Mental Health Act 1983, section 37(1).

[4] Restricted hospital order, under Mental health Act 1983, section 41.

Evidence and Analysis Unit—Office for Criminal Justice Reform.

Land: Registration

Mr. Boswell: To ask the Secretary of State for Justice what consideration he has given to the expansion of the programme of compulsory land registration; and if he will make a statement. [294023]

Mr. Wills: The creation of a comprehensive land register for England and Wales is one of Land Registry's strategic objectives. Over 70 per cent. of England and Wales, including most urban land, is now registered in about 21 million registered titles. The registered area has increased from 45 per cent. in 2004 when data on geographic coverage first became available. This growth is principally attributable to Land Registry's strategy of persuading landowners of the benefits of voluntarily first registration.

First registration of unregistered land is compulsory after certain specific trigger events, including, a sale, a first mortgage or a transfer on death. Two new trigger events, the appointment of a new trustee and the partition of land among trust beneficiaries, were added by the Land Registration Act 2002 (Amendment) Order 2008, which came into force on 6 April 2009. There are no plans at present to introduce any additional triggers.

Other potential trigger events and methods of compulsion were examined as part of the preparatory work for the 2008 Order but at that time were considered impracticable, due to their complexity, or inappropriate, because of the nature of the sanctions that would be required.

Legal Aid

Mr. Swire: To ask the Secretary of State for Justice how many applications for legal aid from residents of *(a)* Devon, *(b)* East Devon constituency and *(c)* England there have been in each of the last five years. [291940]

Bridget Prentice: Applications for civil legal aid advice are made to individual providers, and we record the number of instances of advice provided, rather than the number of applications made. Applications for civil legal aid representation are made to the Legal Services Commission. Not all applications are granted. The applications received for representation for the last five years in the requested areas is shown in the following table:

			Number
	East Devon	*Devon*	*England*
2004-05	327	3,430	180,591
2005-06	310	3,357	182,187
2006-07	277	3,019	177,309
2007-08	239	2,690	161,206
2008-09	218	2,899	171,492

Paul Holmes: To ask the Secretary of State for Justice how many applications for legal aid there have been from residents of *(a)* Derbyshire, *(b)* Chesterfield constituency and *(c)* England in each of the last five years. [293666]

Bridget Prentice: Applications for civil legal aid advice are made to individual providers, and we record the number of instances of advice provided, rather than the number of applications made. Applications for civil legal aid representation are made to the Legal Services Commission. Not all applications are granted. The applications received for representation for the last five years in the requested areas is as follows:

Financial years	*Chesterfield*	*Derbyshire*	*England*
2004-05	534	2,597	180,591
2005-06	607	2,930	182,187
2006-07	613	2,773	177,309
2007-08	618	2,564	161,206
2008-09	587	2,346	171,492

Legal Aid: Eligibility

Mr. Swire: To ask the Secretary of State for Justice what criteria are used to determine eligibility for legal aid. [291939]

Bridget Prentice: There are different eligibility criteria for civil and criminal legal aid:

Eligibility for legal aid in civil matters depends on the client satisfying the relevant financial eligibility criteria, and the case must pass a merits test and be within the scope of the scheme. Those in receipt of income support, income-based jobseeker's allowance, guarantee state pension credit or income related employment support allowance automatically qualify financially for legal aid. Otherwise, they can obtain 'free' or non-contributory assistance, if they have a gross monthly income of less than £2,657, a monthly disposable income below £315 and disposable capital of £3,000 or less. If their monthly disposable income is between £316 and £733, or disposable capital between £3,000 and £8,000, they will be offered funding on the basis that they agree to pay contributions towards their legal costs. On 6 April 2009 we increased the financial eligibility limits for civil legal aid by 5 per cent. to their current level.

The merits test considers whether legal aid applicants have reasonable grounds for taking, defending or being a party to proceedings, and that it is reasonable, in the particular circumstances of the case, for legal aid to be granted.

Eligibility for legal aid in criminal trials depends on the defendant satisfying the 'Interests of Justice' test and the relevant financial eligibility criteria. Suspects being held at the police station as part of a criminal investigation are automatically entitled to legal advice, regardless of income; this may be provided on a 'face to face' basis under the police station duty solicitor scheme, or for less serious offences, via a national telephone helpline.

The income-based means test for defendants appearing before the magistrates court weights the applicant's gross annual income to reflect their family and household circumstances. If an applicant's weighted gross annual income exceeds £22,325, they are financially ineligible for a grant of representation; if it is £12,475 or less, they are financially eligible for a grant of representation. All applicants in receipt of income support, income-based jobseeker's allowance, or the guaranteed state pension credit are automatically deemed financially eligible, as are applicants under the age of 18.

For those applicants whose adjusted gross annual incomes fall between the two thresholds, a more detailed assessment of their income is carried out. After certain deductions are made, if the applicant's disposable income does not exceed £3,398, they will be financially eligible under the new scheme.

Magistrates Courts: Closures

Tim Farron: To ask the Secretary of State for Justice how many magistrates courts have been closed in *(a)* rural and *(b)* non-rural areas in each year since 1997. [293209]

Bridget Prentice: The following table shows details of the magistrates court closures (broken down into *(a)* rural and *(b)* non-rural areas) which have taken place since 1997.

Number of magistrates courts closed in each year since 1997[1]

	Rural 75	*Rural 50*	*Significant rural*	*Other urban*	*Large urban*	*Major urban*	*Total number of courts closed*
1997	2	4	3	3	1	8	21
1998	12	4	1	3	2	3	25
1999	1	0	1	2	1	2	7
2000	8	1	0	2	0	2	13
2001	12	7	3	3	3	2	30
2002	5	0	2	0	0	0	7
2003	9	2	1	1	0	0	13
2004	1	0	0	0	0	1	2
2005	0	0	0	0	0	0	0
2006	0	1	0	0	0	1	2
2007	1	2	0	0	0	1	4
2008	0	0	0	0	0	0	0

	Rural 80[2]	*Rural 50*	*Significant rural*	*Other urban*	*Large urban*	*Major urban*	*Total number of courts closed*
2009	1	0	0	0	0	0	1

[1] The rural constituency classification (introduced by the Rural Evidence Research Centre on behalf of the Department for Environment, Food and Rural Affairs in 2006) has been used to define whether court closures took place in rural/urban areas. The classification divides constituencies into the following six categories:
Rural 75: Over 75 per cent. of the population live in rural settlements (including 207 large market towns)
Rural 50: Over 50 per cent. of the population live in rural settlements (including 207 large market towns)
Significant rural: More than 37,000 or between 26 per cent. and 50 per cent. of the population live in rural settlements.
Other urban: Fewer than 37,000 or less than 26 per cent. of the population live in rural settlements.
Large urban: A minimum of 50,000 or 50 per cent. of the population live in a large urban area.
Major urban: A minimum of 100,000 or 50 per cent. of the population live in a major urban area (i.e. over 750,000 of the population).
[2] The rural constituency classification (introduced by the Rural Evidence Research Centre on behalf of the Department for Environment, Food and Rural Affairs) changed in April 2009 and one rural classification has changed from rural 75 to rural 80

Offenders: Mental Health

Alison Seabeck: To ask the Secretary of State for Justice what estimate his Department has made of the number of offenders subject to a custodial sentence who have previously been given a conditional discharge; and what proportion of those offenders have been diagnosed with mental health problems. [293532]

Claire Ward: Out of 94,600 sentences of immediate custody in England and Wales in 2007, in the latest year for which figure are available, 52,200 offenders (55 per cent.) had on at least one pervious sentencing occasion received a conditional discharge. Information about the mental health of these offenders is not available.

These figures have been drawn from the police's administrative IT system, the police national computer (PNC), which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

The figures represent a further breakdown of the criminal history statistics published in chapter 6 of "Sentencing Statistics 2007" which can be found at:

http://www.justice.gov.uk/publications/sentencingannual.htm

Prisoners: Location

Chris Huhne: To ask the Secretary of State for Justice how many prisoners were held in prisons more than 50 miles from normal place of residence at the latest date for which figures are available. [294177]

Maria Eagle: As of 8 May 2009, there were 32,126 prisoners held in prisons more than 50 miles from their home area.

This figure includes male and female prisoners, those sentenced and on remand and adults, young offenders and juveniles.

All prisoners are asked for details of their home address on first reception to prison and on discharge from prison. Approximately 60 per cent. of prisoners are shown to have given a recognised address.

If no address is given, various proxies are used to determine distance from home, including next-of-kin address and committal court address.

Prisons: Parole Board for England and Wales

Derek Wyatt: To ask the Secretary of State for Justice how many prisoners serving sentences of life imprisonment at HMP Standford Hill are waiting for an oral parole board hearing. [293962]

Bridget Prentice: There are four prisoners serving sentences of life imprisonment at HMP Standford Hill who are waiting for an oral parole board hearing.

Prisons: Politics

David Howarth: To ask the Secretary of State for Justice (1) what recent steps he has taken to tackle radicalisation in prisons; and what assessment he has made of the effectiveness of such measures; [292613]

(2) what recent assessment he has made of trends in the level of radicalisation in prisons; and what evidence was used in making such assessments. [292614]

Mr. Straw: There is a range of continuing activity better to reduce the risks associated with violent extremism and radicalisation in prisons, as part of the wider programme of work being delivered by the National Offender Management Service to deal with these issues across prisons and probation services. Recent steps include: commencing the roll out of an awareness raising package across all prisons in England and Wales, building on the series of briefings, written material and training events that have already been delivered at both national and local level; strengthening arrangements to collect and share intelligence; and continuing to build upon a detail programme of research, trial and evaluations to develop intervention approaches for extremist offenders. This activity contributes directly to the Prevent objective in the Government's Contest strategy to reduce the risk of people becoming terrorists or supporting violent extremism.

Systematic assessments of trends in the levels of violent extremism and radicalisation in prisons, based on intelligence gathering and analysis undertaken by prison staff and police, are undertaken on a regular basis. The nature and extent of the threat, and the effectiveness of measures to manage the associated risks are assessed as part of public service agreement 26

> "to reduce the risk to the UK and its interests overseas from international terrorism"

which is classified and not reported on publicly.

Robbery: Young Offenders

Chris Huhne: To ask the Secretary of State for Justice how many people aged *(a)* 10 to 12, *(b)* 13 to 15, *(c)* 16 to 17, *(d)* 18 to 20 and *(e)* 21 or more years old in each police force area were convicted of robbery in each year since 1997. [294178]

Claire Ward: Information showing the number of persons found guilty of robbery, broken down by age and force, England and Wales, from 1997 to 2007 (latest available) has been placed in the Libraries of the House.

Data for 2008 are planned for publication at the end of January 2010.

Sexual Offences: Sentencing

Chris Huhne: To ask the Secretary of State for Justice how many people have been given indefinite sentences for sexual offences committed when they were under the age of 18 years in each year since 2000. [294176]

Claire Ward: The available information is shown in the following table. The table relates to the age at sentence as the age at offence is not available centrally.

Number of indeterminate sentences for sexual offences, given to offenders aged under 18, since 2000

	All indeterminate[1]
2000	1
2001	0
2002	0
2003	1
2004	0
2005	4
2006	12
2007	10

[1] Detention for public protection and life sentences

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:

OMS Analytical Services, Ministry of Justice

The sentence of detention for public protection for serious offences committed by those under 18 was introduced in the Criminal Justice Act 2003 and was commenced for offences committed on or after 4 April 2005. The data are presented on the principal offence basis: where an offender has been sentenced for more than one offence the principal offence is the offence for which the heaviest penalty was imposed; where the same sentence has been imposed for more than one offence the principal offence is the one for which the statutory maximum is most severe.

Sexual Offences: Young Offenders

Chris Huhne: To ask the Secretary of State for Justice how many Schedule 1 offenders there are; and how many of them committed the relevant offence when under the age of 18-years. [294150]

Maria Eagle: The term "Schedule 1 offenders" originates from the list of offences contained in Schedule 1 of the Children and Young Persons Act 1933. Following that Act, the term was informally extended to a range of offences in subsequent Acts, resulting in different definitions between Agencies. To resolve this, the Home Office issued guidance in 2005 and officially discontinued the term.

This information is therefore unavailable in the format requested.

INTERNATIONAL DEVELOPMENT

Cayman Islands: Hurricanes and Tornadoes

Andrew Rosindell: To ask the Secretary of State for International Development how much the Government has spent on post-hurricane reconstruction efforts in the Cayman Islands since September 2008. [293304]

Mr. Michael Foster: The Government of the Cayman Islands did not request external assistance for the emergency period or for reconstruction. The United Kingdom has provided no further support to the emergency assistance provided by the Royal Fleet Auxiliary Wave Ruler and support to a study on the impacts of the hurricane by the United Nations Economic Commission for Latin America and the Caribbean (UNECLAC).

The Department for International Development is in regular contact with the Cayman Island Government and Governor's Office. Much progress has been made on reconstruction; housing repair is well under way, hotels have re-opened and all Government buildings, schools and hospitals are now functioning.

Consolidated Contractors Corporation

David Davis: To ask the Secretary of State for International Development what *(a)* meetings, *(b)* communications and *(c)* other contacts Ministers and officials in his Department have had with the Consolidated Contractors Corporation (CCC Group) and its international offshoots in the last five years. [294378]

Mr. Michael Foster: There have been no formal meetings, communications or other contacts between Ministers of the Department for International Development and the Consolidated Contractors Corporation (CCC Group) and its international offshoots in the last five years. Similarly, our records do not indicate any meetings, communications or contacts with officials.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for International Development what percentage of procurement contracts his Department awarded to small businesses in *(a)* 2006-07, *(b)* 2007-08, *(c)* 2008-09 and *(d)* 2009-10; and if he will make a statement. [293236]

Mr. Michael Foster: The percentage of procurement contracts let by the Department for International Development (DFID) to small businesses during the requested period cannot be provided without incurring disproportionate cost.

Developing Countries

Richard Burden: To ask the Secretary of State for International Development (1) how much his Department plans to spend on social protection programmes in developing countries *(a)* bilaterally and *(b)* through multilateral institutions in the next three years; [293972]

(2) how much his Department plans to spend on nutrition-related programmes in developing countries *(a)* bilaterally and *(b)* through multilateral institutions in the next three years; [293973]

(3) how much his Department plans to spend in support of maternal, newborn and child health in developing countries *(a)* bilaterally and *(b)* through multilateral institutions in the next three years. [293974]

Mr. Michael Foster: Latest information on the Department for International Development's (DFID) aid allocations by programme to 2010-11 were published in its 2009 annual report which is available in the Library of the House and on the DFID website:

www.dfid.gov.uk

More detailed allocations are made by individual country programmes, or in the case of core funding to multilateral institutions by those organisations. As such aggregate projections by sector are not available.

Developing Countries: Debt

Mr. Jenkins: To ask the Secretary of State for International Development what recent steps he has taken to help developing countries to reduce their debt. [292563]

Mr. Thomas: The UK Government have taken a strong lead on debt relief and are carefully monitoring the effect of the current financial crisis on debt levels of the poorest countries. Recent steps taken include:

> Support to the World Bank and IMF's review of the Debt Sustainability Framework. This is the main instrument for monitoring debt levels and guiding new borrowing and lending, and is used by the Multilateral Development Banks to determine assistance to the poorest countries.
>
> A call from the Chancellor at this year's IMF spring meetings for a temporary reduction in interest rates to zero for the IMF's concessional lending to low-income countries. This was agreed and will apply until December 2011.

Many countries are better off today because of international initiatives to reduce debt, in which the UK has played a lead role. Under the Heavily Indebted Poor Countries (HIPC) and the Multilateral Debt Relief Initiatives, $117 billion (approx £74 billion) of debt relief has been agreed since 2000. 35 out of 40 eligible countries are now receiving debt relief under HIPC, and this year Burundi, Central African Republic and Haiti all completed the process and received irrevocable debt cancellation.

Global Environment Facility: Finance

Andrew Rosindell: To ask the Secretary of State for International Development how much funding the Government have contributed to the Global Environment Facility in each of the last 10 years. [293461]

Mr. Thomas: The UK is currently contributing towards the fourth replenishment period of the Global Environment Facility (GEF) Trust Fund. Our contributions are £35 million each year, totalling £140 million across the four years 2007-10.

Previously, the UK contributed a total of £118 million to the third replenishment period of the GEF Trust Fund, averaging £29.5 million in each of the four years 2003-06. We contributed £85 million towards the second replenishment of the GEF Trust Fund across the four years 1999-02, averaging £21.25 million each year.

Overseas Aid: Internet

Andrew Rosindell: To ask the Secretary of State for International Development what recent support his Department has given to developing countries to develop *(a)* broadband, *(b)* wireless internet and *(c)* other internet capabilities. [293841]

Mr. Michael Foster: The Department for International Development has not recently given support to developing countries to develop broadband, wireless and other internet capabilities.

Overseas Territories: Climate Change

Andrew Rosindell: To ask the Secretary of State for International Development what assessment he has made of the outcomes of the participation of the UK Overseas Territories in the Caribbean Community Climate Change Centre's Enhancing Capacity for Adaptation to Climate Change project. [293460]

Mr. Michael Foster: The Enhancing Capacity for Adaptation to Climate Change project is ongoing. Monitoring reports show progress is being made against each of the objectives—establishing climate change focal points and committees, building capacity, developing public education and outreach programmes, developing national strategies and sharing information.

Department for International Development officials participated in two of the project's workshops and reported that the project team were well qualified and experienced, there was strong stakeholder engagement, and a high level of awareness of climate change impacts among Government, non-government, business, and other organisations.

Additional feedback from the territories indicates that they welcome the opportunity to participate in this programme. They acknowledge it is ambitious, but remain committed to delivering the objectives.

Overseas Territories: Nature Conservation

Andrew Rosindell: To ask the Secretary of State for International Development what outcomes were reached at the conservation conference hosted by the United Kingdom Overseas Territories Conservation Forum held in June. [293296]

Mr. Michael Foster: The aim of the conference was to bring together representatives from Government, non-governmental organisations, academic, and other organisations working in the UK overseas territories and other small islands to promote co-operation and sharing of information and experiences on solving environmental problems. This will help meet obligations under international environment agreements and UK/Overseas Territories Environment Charters.

My hon. Friend, the Minister for Marine and Natural Environment, spoke at the conference and announced an additional £1.5 million over the next three years for biodiversity projects in the overseas territories.

The UK Overseas Territories Conservation Forum will submit a final report on the conference shortly.

Pakistan: Internally Displaced Persons

Mr. Andrew Smith: To ask the Secretary of State for International Development what assistance his Department has provided to those who were displaced from and are returning to the Swat district of Pakistan. [293857]

Mr. Michael Foster: The Department for International Development (DFID) has so far provided £22 million for people displaced by the conflict in the North West Frontier Province and the Federally Administered Tribal Areas. These funds are being used by humanitarian agencies to meet critical needs of people displaced in camps and host communities. This support is providing vital assistance to those who have started to return home through the provision of shelter, protection, water, sanitation, food and medical assistance. The UK is also providing funding through the UN's Central Emergency Response Fund and the European Commission's Humanitarian Aid Office.

On 14 October the Prime Minister announced a further UK contribution of £10 million for early recovery programmes to help vulnerable communities affected by the conflict to start rebuilding their lives and to support them through the coming winter.

Vietnam: Overseas Aid

Andrew Rosindell: To ask the Secretary of State for International Development what aid his Department plans to send to victims of the recent flooding in Vietnam. [293842]

Mr. Michael Foster: The Department for International Development (DFID) is contributing to relief funding by the European Commission (16 per cent. of this is attributed to DFID). The European Commission has allocated €2 million for Vietnam, Laos and Cambodia. In Vietnam, the funding is being used to support relief efforts by non-governmental organisations in the affected areas.

DFID is also supporting strategic programmes aimed at disaster risk reduction in Vietnam. This is implemented through support to the United Nations in Vietnam as well as the Global Facility for Disaster Reduction and Recovery with the World Bank.

FOREIGN AND COMMONWEALTH OFFICE

Iran's Nuclear Programme

14. **Mr. Amess:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the development of Iran's nuclear programme; and if he will make a statement. [293915]

David Miliband: We remain extremely concerned about Iran's nuclear programme. In August the IAEA Director General reported that Iran had not suspended its enrichment activities contrary to the requirements of five UNSCRs and still refuses to answer questions about studies with a possible military dimension.

The fact that Iran has been covertly developing an enrichment facility near Qom, in breach of UN and IAEA obligations, casts further doubt on their peaceful intentions.

Afghanistan

15. **Mr. Baron:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the new UK foreign policy strategy for Afghanistan. [293916]

Mr. Ivan Lewis: As a top foreign policy priority, my right hon. Friend the Foreign Secretary frequently discusses Afghanistan and Pakistan with his counterparts. Discussions regularly cover the strategy approach announced by my right hon. Friend the Prime Minister on 29 April 2009, *Official Report*, column 869. There is broad international agreement on the importance of addressing the situation in both countries, and on the need to seek political solutions alongside military ones.

Trade Unions: Iraq

16. **Mr. David Anderson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on trade union rights in Iraq; and if he will make a statement. [293917]

Mr. Ivan Lewis: We have supported, and will continue to do so, the efforts of all Iraqis to build trade unions across the workplace and free from government intervention, the rights to which are enshrined in their constitution. We have made clear to the Iraqi Government our view that the right to form free and fair unions is a fundamental right.

Gaza

17. **Mr. Slaughter:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure early consideration by the United Nations of the report of the United Nations fact finding mission on the Gaza conflict. [293918]

Mr. Ivan Lewis: The report of the UN fact finding mission on the Gaza conflict has already been considered by the UN. It was discussed in an open meeting of the Security Council on 14 October 2009 and by a Special Session of the Human Rights Council on 15 and 16 October 2009. As we made clear in those discussions, while we have concerns about aspects of the report, there are serious issues remaining about both parties' conduct during Operation Cast Lead.

European Parliament

18. **Mr. Borrow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effectiveness of the Government's work with political groups in the European Parliament. [293919]

Chris Bryant: Both Ministers and officials continue to engage effectively with the European Parliament at all levels in order to promote UK interests and secure the best outcomes for our citizens. The Government have a strategic plan for this engagement. Since June's European Parliament elections, we have averaged one ministerial visit in each week when the Parliament has been sitting.

Non-proliferation Treaty

19. **Tony Lloyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on the 2010 non-proliferation treaty review conference. [293920]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary discusses the 2010 NPT review conference regularly with US Secretary of State Hillary Clinton. Mrs. Clinton said on 11 October 2009 after their most recent meeting that British leadership had been pivotal in the run up to the historic Security Council session on nuclear non-proliferation and disarmament chaired by President Barack Obama on 24 September 2009.

West Bank

20. **David Cairns:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the United States Administration on the security situation in the West Bank. [293921]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary met US Secretary of State Hillary Clinton most recently on 11 October 2009. Their conversation focused on the need for all parties to exercise restraint and to calm tensions in Jerusalem, and the need to launch negotiations between the Israelis and the Palestinians. The UK and US work together to give strong support to the Palestinian Authority's work to improve the capability of and reform the Palestinian security forces. We commend the Palestinian Authority for the improvements it has made, which have delivered real changes in the lives of many on the West Bank.

EU Budget

21. **Mr. Crabb:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of progress towards reform of the EU budget; and if he will make a statement. [293922]

Chris Bryant: The Government remain committed to far-reaching reform of the EU budget refocusing it on jobs and growth; tackling climate change; and, ensuring security, stability and poverty reduction. We look forward to the publication of the European Commission's Budget Review White Paper, which will likely set out recommendations for the future of the budget. The Council will discuss these recommendations in late 2009 and 2010.

Macedonia

22. **Mr. Martlew:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government are providing support to the Government of Macedonia in their application for membership of the European Union. [293923]

Chris Bryant: The UK strongly supports Macedonia's EU membership aspirations and welcomes the Commission's recent recommendation to open accession negotiations.

The Government co-operate with EU partners to encourage the required reforms in Macedonia. Alongside its contribution to financing programmes under the EU's Instrument for Pre-accession Assistance (IPA), the Government are providing bilateral support in 2009-10 of around £890,000.

UK projects include work designed to improve Macedonia's public administrative capacity, strengthen its Parliament and help fight corruption.

Economic Recovery: EU

23. **Mr. Plaskitt:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he had with the Chancellor of the Exchequer on the co-ordination of policy on the EU's economic recovery with other EU member states. [293924]

Chris Bryant: My right hon. Friends the Chancellor and Foreign Secretary discuss the co-ordination of the EU's economic recovery regularly in meetings of the Cabinet and the National Economic Council.

Zimbabwe

24. **Sir Nicholas Winterton:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the progress of the Government of National Unity in Zimbabwe. [293925]

Mr. Ivan Lewis: The Government of Zimbabwe have made some progress, most notably on the stabilisation of the economy. Progress on political reform has been slower. We continue to urge the Government of Zimbabwe to meet their commitments under the Global Political Agreements; notably to media, electoral, legislative, judicial and security sector reform, and to address the issue of the appointments of the Central Bank Governor, Attorney-General and Provincial Governors.

Bahrain

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of the state of relations between the UK and the Government of Bahrain. [294486]

Mr. Ivan Lewis: The UK has a long-standing and strong relationship with Bahrain. But we are always considering ways in which we can make even stronger our political, defence, cultural and trade relations to mutual benefit.

Children: Kidnapping

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of children abducted from the UK in each of the last five years who are being held in Japan; and if he will make a statement. [294490]

Mr. Ivan Lewis: We are aware of the following cases involving British children who have been abducted to Japan in the last five years.

	Number
2008-09	4
2007-08	11
2006-07	3
2005-06	3
2004-05	10

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage the Government of Japan to sign the Hague Convention on the Civil Aspects of International Child Abduction; and if he will make a statement. [294491]

Mr. Ivan Lewis: I welcomed the Japanese Government's announcement last year that it was considering ratifying the 1980 Hague Convention on the Civil Aspects of International Child Abduction. We have made frequent representations to the Japanese Government on the issue.

On 16 October 2009 our ambassador took part with representatives of a number of other embassies in a joint demarche on Japanese Justice Minister Chiba, calling on Japan to accede to the Convention. My right hon. Friend the Foreign Secretary encouraged Japan to sign the Convention when he met the Japanese Foreign Secretary Okada on 22 September 2009. My Noble Friend the Secretary of State for Business, Innovation and Skills, Lord Mandelson also raised this issue with the Japanese Prime Minister on 5 October 2009. Our embassy in Tokyo has been regularly taking joint action together with other embassies, including the Canadian, French, US and Italian embassies.

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Government of *(a)* Cyprus, *(b)* Greece and *(c)* Turkey on cancelling of the annual military exercises conducted in Cyprus; and if he will make a statement. [293709]

Chris Bryant: Both the Turkish Cypriot and Greek Cypriot leadership announced on 13 October 2009 the cancellation of the Toros and Nikiforos military exercises respectively. The Government applauds this decision which is a positive development and shows what can be achieved through trust and co-operation.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for progress towards a settlement in Cyprus of the policy of the new PASOK Government in Greece on such a settlement; and if he will make a statement. [R] [293720]

Chris Bryant: We believe that the new Panhellenic Socialist Movement (PASOK) Government in Greece will be supportive of the two leaders' efforts to achieve a settlement. My right hon. Friend the Foreign Secretary discussed Cyprus with Greek Prime Minister George Papandreou on 15 October 2009 and both reiterated their support for the settlement process.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of progress on the negotiations towards a settlement in Cyprus; and if he will make a statement. [R] [293723]

Chris Bryant: The leaders of the two communities have shown a strong commitment to the Cyprus talks process. We welcome their recent decision to meet more regularly and urge both leaders to intensify their efforts to ensure this unique opportunity is not missed.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with international partners on the funding of a possible settlement in Cyprus; and if he will make a statement. [293725]

Chris Bryant: The Government have had no recent discussions with international partners on the funding of a possible settlement. This is an important issue which will need to be addressed as the talks progress.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of progress in the opening of the Limnitis crossing point in Cyprus; and if he will make a statement. [293726]

Chris Bryant: We welcome the agreement of the leaders of the two communities to open the Limnitis crossing point and have been following subsequent developments closely. We consider this initiative to be a valuable contribution to the building of mutual trust between the two sides.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the Famagusta Mayors' proposals to restore the historic walls of Famagusta and to conduct a survey of the work required to restore the infrastructure of Varosha; and if he will make a statement. [293727]

Chris Bryant: We attach importance to the restoration of historic monuments, including the historic walls of Famagusta. We believe that work, both to restore Famagusta and to plan for eventual resettlement of Varosha, would be useful confidence building measures.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made on the planned erection and unveiling of a memorial in Northern Cyprus to British people killed in the Cyprus war of independence; and if he will make a statement. [293728]

Chris Bryant: This is an independent initiative undertaken by the British Cyprus Veterans Association to commemorate the British servicemen who died in the 1950s. The memorial will be unveiled on 8 November 2009.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of recent progress in the remaining phases of the opening of the Ledra Street crossing point in Nicosia; and if he will make a statement. [293732]

Chris Bryant: We are following this issue closely and stand ready to support the UN's efforts to achieve agreement.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made by the UN committee on missing persons in Cyprus in recovering and identifying remains of missing persons; and if he will make a statement. [293734]

Chris Bryant: The UN committee on missing persons reported that, as of 15 October 2009, the remains of 570 people had been exhumed from different burial sites across the island. Of these, the remains of 179 individuals had been identified and returned to their families, of which 135 were Greek Cypriots and 44 Turkish Cypriots.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what grants the UK has given to the UN missing persons committee in Cyprus since its inception; if he will make an assessment of the merits of providing a further grant to support that committee's work; and if he will make a statement. [293735]

Chris Bryant: The UK has donated a total of $159,298 to the UN committee on missing persons since its inception. In August 2009, the European Commission (EC) allocated €2 million in funding to the committee from the EC Aid Regulation for the economic development of the Turkish Cypriot community. This will provide for half of the yearly needs of the committee for missing persons for the next 24 months. The Government have no plans for further donations.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make an estimate of the value of the cessation of the division in Cyprus in terms of *(a)* gross domestic product for the island and *(b)* income per capita; and if he will make a statement. [293736]

Chris Bryant: The Government have funded independent research by the International Peace Research Institute of Oslo (PRIO) into the economic benefits of a solution. Their report, "The Day After", found that Cypriots stand to gain an additional €1.8 billion per year in recurring benefits from a solution to the Cyprus problem. This translates into approximately €5,500 for every family every year. These were deliberately conservative estimates.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely consequences of the withdrawal of the United Nations Peace-keeping Force in Cyprus in the absence of a settlement in Cyprus; and if he will make a statement. [293738]

Chris Bryant: It is for the UN to produce its own independent assessment of the impact of any changes.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with the European Commission on the co-ordination of the consideration of bids for funding for the Nicosia Master Plan for projects in the buffer zone in respect of *(a)* south and *(b)* north Nicosia being considered by the EU Directorate General for (i) Regional Policy and (ii) Enlargement; and if he will make a statement. [293743]

Chris Bryant: This is a matter for the European Commission and the municipalities concerned. We are not involved in these discussions.

Cyprus: British Nationality

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the number of British nationals resident in Cyprus *(a)* north and *(b)* south of the Green Line; and if he will make a statement. [293741]

Chris Bryant: We do not have precise figures for the number of British nationals resident in Cyprus. However, we estimate that there are approximately 60,000 British nationals resident in the south of Cyprus and 7,000 British nationals resident in the north of Cyprus. We estimate that approximately half are dual British-Cypriot nationals.

Cyprus: Politics and Government

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received reports of the *(a)* hacking of the e-mails of the UN special representative in Cyprus and *(b)* publication of those e-mails in Phileleftheros newspaper; and if he will make a statement. [293724]

Chris Bryant: The Government are aware of the theft of UN documents and their subsequent publication in various newspapers. We continue to have every confidence in the UN Good Offices Mission and the UN Secretary General's Special Advisor, Alexander Downer.

Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of the total compensation paid by the Immovable Property Commission in northern Cyprus; and if he will make a statement. [R] [293711]

Chris Bryant: According to recent figures, the Immovable Property Commission has over the past three years paid close to £35 million in compensation.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of allegations of Turkish Army outlets undercutting prices charged by Turkish Cypriot businesses in respect of the sale of consumer goods in northern Cyprus; and if he will make a statement. [R] [293712]

Chris Bryant: We have received no reports on this matter.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent estimate he has made of the number of *(a)* Turkish and *(b)* Turkish Republic of Northern Cyprus troops in Northern Cyprus based on information from (i) Turkey, (ii) Cyprus, (iii) the United Nations Peacekeeping Force in Cyprus and (iv) the UK; and if he will make a statement. [R] [293714]

Chris Bryant: The Government have no estimate of the number of Turkish or Turkish Cypriot armed forces in the north of Cyprus. There are no troops from the Republic of Cyprus, UN Peacekeeping Force in Cyprus or from the UK in the north of Cyprus.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in the disbursement of the €259 million package of EU assistance to Northern Cyprus; and if he will make a statement. [293729]

Chris Bryant: By the end of September 2009, the Commission had contracted €133.9 million (52 per cent. of the overall programme) and endorsed €45.5 million for payment (18 per cent. of the programme). Tangible projects such as providing modern equipment to farmers, funding scholarships for students, improving traffic safety and replacing asbestos water pipes have already started and are making a real difference to the lives of ordinary Turkish Cypriots.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs which projects *(a)* contracted and *(b)* completed in Northern Cyprus have been funded from the 259 million euro of EU provided aid; what the value of each project is; and if he will make a statement. [293730]

Chris Bryant: Information on the projects funded by the Financial Aid Regulation can be found on the European Commissions website:

http://ec.europa.eu/enlargement/turkish_cypriot_community/index_en.htm

Turkey

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Turkey on permission for UN Committees on Missing Persons teams to work in areas under Turkish army control; and if he will make a statement. [293733]

Chris Bryant: The Government have consistently supported resolutions by the Committee of Ministers at the Council of Europe urging the Turkish authorities to take additional measures to allow effective investigations into the fate of missing persons, in particular by granting the UN committee on missing person's access to all relevant information and areas.

Turkey: Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the financial subsidies given by the government of Turkey to the Turkish Republic of Northern Cyprus in each of the last three years; and if he will make a statement. [293740]

Chris Bryant: The Government do not hold independent figures, however, in a speech given on 4 October 2009, Turkish Prime Minister Erdogan estimated that between 2003 and 2009, an average of $523 million per year, and in 2009 $815 million of aid was provided to the north of Cyprus.

Turkey: Varnava

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for his Department's policy of the judgment of the European Court of Human Rights Grand Chamber in the case of Varnava and others v. Turkey; and if he will make a statement. [293742]

Chris Bryant: The Government have made no such assessment but will continue to call on both sides to release all information in relation to the tragic case of the missing in Cyprus, and will also continue to support the good work of the UN Committee on Missing Persons.

United Arab Emirates

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what the objectives are of UK foreign policy to the United Arab Emirates. [294502]

Mr. Ivan Lewis: The UK aims to strengthen relations with the United Arab Emirates (UAE) in all fields to our mutual benefit.

We work closely with the UAE to promote support for enhanced regional and global security we aim to improve cultural, sporting and scientific cooperation including supporting the creation and promotion of large scale renewable energy programmes by the UAE.

Our work also aims to support British citizens in the UAE and to foster effective trade and economic cooperation that will further enhance links between British and Emirati businesses to operate successfully.

COMMUNITIES AND LOCAL GOVERNMENT

Council Housing: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much has been received gross in council tax receipts in *(a)* cash and *(b)* real terms by each local authority in England in each year since 1997-98. [293324]

Barbara Follett: A table will be placed in the Library containing details of the gross council tax receipts collected by each local authority in England in each year since 1998 -99 in both cash and real terms.

The data are taken from the Quarterly Return of Council Tax and Non-domestic rates returns completed annually by all billing authorities in England and the real terms data are given at 2008-09 prices.

Council Housing: Sutton

Mr. Burstow: To ask the Secretary of State for Communities and Local Government when he expects to respond to the points raised by the hon. Member for Sutton and Cheam during the summer recess adjournment debate on 21 July 2009, *Official Report,* columns 837-38; and if he will make a statement. [293267]

Mr. Ian Austin: On 17 July, the Secretary of State announced as part of the Housing Pledge that over this year and next Government will be investing a further £1.5 billion to build an extra 20,000 new affordable homes for rent and low cost sale.

As a consequence, £150 million has been reprioritised from the Decent Homes programme in 2010-11, to fund the Pledge initiative to contribute to the building of these new homes. That means the Government are spending more on housing this year.

Council Housing: Waiting Lists

Grant Shapps: To ask the Secretary of State for Communities and Local Government when he expects to publish updated data on the number of households on local authorities' housing waiting lists; and if he will make a statement. [293415]

Mr. Ian Austin: Local authorities report the number of households on their housing waiting lists on the Housing Strategy Statistical Appendix (HSSA). This information will be published in a statistical release, 'Local Authority Housing Statistics, England 2008/09: HSSA and BPSA Statistical Release', which has been pre-announced for publication on the United Kingdom Statistics Authority (UKSA) publication hub for November/December 2009.

Council Tax

Charles Hendry: To ask the Secretary of State for Communities and Local Government how many properties in each local authority district are in council tax band *(a)* A and *(b)* B. [294495]

Barbara Follett: A table has been placed in the Library giving details of the number of properties in each billing authority in England that are in council tax Band A and Band B.

The data are as at 29 March 2009 and are supplied to Communities and Local Government by the Valuation Office Agency.

The data are also available on the Communities and Local Government website at:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/counciltax/dwellingsvaluationlist/

Council Tax: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government under what circumstances the Valuation Office Agency will review the council tax banding of a dwelling upon the request of an occupier; and what the Agency's policy is on whether it will review a banding if the current occupier has resided in the dwelling for more than six months. [293348]

Barbara Follett: A review will normally be initiated, irrespective of duration of residence, in circumstances where the occupier provides information to suggest that the banding might be inaccurate.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many dwellings have had their property attributes updated by the Valuation Office Agency as a result of data obtained from the Rightmove portal in the last year for which figures are available. [293370]

Barbara Follett: A total of 64,014 dwellings have had their property attributes updated by the Valuation Office Agency as a result of data obtained from the Rightmove portal during the period 16 October 2008 to 30 September 2009.

Rightmove data are used routinely by VOA staff in the course of considering approximately 30,000 proposals/appeals and over 450,000 cases annually in respect of maintaining current council tax valuation lists. This provides quality assurance to ensure information about properties is correct and, ultimately, that taxpayers are asked to pay the right amount of tax. Rightmove also alleviates the need to inspect substantial numbers of properties thus minimising inconvenience to taxpayers. The use of Rightmove data more often than not results in no change to property attribute data.

Christopher Fraser: To ask the Secretary of State for Communities and Local Government how many properties are recorded with each individual *(a)* dwellinghouse code and *(b)* value significant code, broken down by (i) individual type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of bathrooms, (v) number of floors, (vi) floor level, (vii) parking, (viii) garaging, (ix) conservatory type, (x) age, (xi) outbuilding and (xii) modernisation code, in the local authority area of (A) King's Lynn and West Norfolk and (B) Broadland according to electronic records held by the Valuation Office Agency. [293896]

Barbara Follett: The number of properties with each individual dwellinghouse code and each value significant code, for all local authority areas in England, will be placed in the Library of the House.

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many properties in Forest of Dean district are recorded with each individual *(a)* dwellinghouse code and *(b)* value significant code, including each code for (i) type, (ii) number of rooms, (iii) number of bedrooms, (iv) number of bathrooms, (v) number of floors, (vi) floor level, (vii) parking, (viii) garaging, (ix) conservatory type, (x) age, (xi) outbuilding and (xii) modernisation, according to electronic records held by the Valuation Office Agency. [294497]

Barbara Follett: The number of properties with each individual dwellinghouse code and each value significant code, for all local authority areas in England, will be placed in the Library.

Departmental Dismissal

Justine Greening: To ask the Secretary of State for Communities and Local Government how many staff have *(a)* been dismissed and *(b)* had their contract terminated by his Department in each of the last five years; what the reason was in each case; and what the severance costs in relation to (i) dismissal and (ii) contract termination were in each such year. [290581]

Mr. Malik: The number of staff that have been dismissed or had their contract terminated over the last five years cannot be released due to reasons of confidentiality.

Departmental Ministerial Policy Advisers

Mr. Tyrie: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 16 July 2009, *Official Report,* column 656W, on Tony Clements, whether Mr Clements was a candidate selected to stand by a political party at a general election on the date of his appointment, 29 June 2009. [293538]

Barbara Follett: Mr. Clements was not a parliamentary candidate on the date of his appointment.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Communities and Local Government how much his Department and its predecessors spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293328]

Barbara Follett: The information requested is set out in the following table.

Financial year	*First class rail (£)*
2007-08	406.232
2008-09	419.249
2009-10 (to date September)	142,473

The figures shown in the table came from the Department's travel suppliers but it should be noted that staff may also purchase rail tickets directly from stations or through other suppliers. Identifying first class rail travel expenditure from these sources could be provided only at disproportionate cost.

Eco-towns

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much his Department has spent on the eco-town programme since its inception. [293252]

John Healey: The Department's spend for developing the eco-towns programme, including communications-related activity form part of the Department's running costs which are set out in the departmental annual report 2009.

Fire Engines: Sales

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which Minister took the decision to dispose of the Green Goddess fire engines used to provide emergency fire cover. [293367]

Mr. Malik: The decision to dispose of the Green Goddess fleet was taken by the Government. Green Goddesses no longer offered the most flexible and efficient means of delivering emergency fire cover. In addition the Department provided 46 high volume pumps to the fire and rescue service which removed the need for a reserve pumping capacity. The National Framework for the fire and rescue service makes it clear that fire and rescue authorities are responsible for the supply of all necessary vehicles and equipment.

Home Information Packs

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment has been made of the effect of increasing the personal search fee for the local land charges register on the cost of a home information pack. [292556]

Bridget Prentice: I have been asked to reply.

The Ministry of Justice carried out an assessment of the effect of increasing the personal search fee for the local land charges register—see the impact assessment in the post-consultation report "Local Authority Property Search Services" published by the Ministry of Justice on 16 September 2009. This stated that the increased cost was likely to be passed on by personal search companies to their customers. If this happens it may lead to an increase in the cost of home information packs in England. However, this is a matter for the market and the Government have no role in this. Copies of the report are already available in the Library.

Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what timetable has been set for the publication of the results of the second stage of his Department's review on the extent and effect of housing development on garden land. [293263]

Mr. Ian Austin: Our intention is to make a further announcement before Parliament and publish the findings of the review together with the evidence shortly.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which local planning authorities responded to the Government's review on the extent and impact of housing development on garden land; and if he will place in the Library a copy of each such response. [293264]

Mr. Ian Austin: There were 127 detailed responses from local planning authorities to stage 1 of the Review of Evidence. I will make a further announcement before Parliament and my Department will publish the findings of the review together with the evidence shortly. These will all be placed in the Library.

Housing: Databases

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what role Ordnance Survey has in the geo-referencing of the property database held by the Valuation Office Agency. [29325[illegible]

Mr. Ian Austin: Ordnance Survey and the Valuation Office Agency have been working together to align their spatial address databases. Through the Pan Government Agreement, the Valuation Office Agency currently receives the Ordnance Survey's ADDRESS-POINT product. It will shortly receive Ordnance Survey's latest spatial addressing product OS MasterMap Address Layer 2.

Housing: Public Consultation

Ms Keeble: To ask the Secretary of State for Communities and Local Government what assessment his Department has made of the effectiveness of the spending of grants provided for tenant participation in local housing authorities in each of the last three years. [293493]

Mr. Ian Austin: The Tenant Empowerment Programme (TEP) is a grant programme funded by Communities and Local Government and administered by the Tenant Services Authority. It enables tenants living in social housing to access independent advice, training and information directly. This helps them to challenge, influence or control how housing services are delivered to their communities. It does not fund landlords to undertake mainstream tenant participation which is core housing management activity.

The last internal evaluation of the TEP programme occurred in 2006. We are currently re-examining its scope and governance in light of the new institutional landscape for social housing.

Ms Keeble: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated to tenant participation in local housing authorities in each of the last three years. [293494]

Mr. Ian Austin: The Tenant Empowerment Programme supports tenants living in social housing to access information and training as well as enabling tenant groups to explore and undertake management of their homes. Grant is not paid directly to local authorities but rather to national, regional, and local tenant organisations and training providers working across all social housing providers.

Grant allocations for TEP were:

2007-08: £2.6 million

2008-09: £3.14 million

2009-10: £3.14 million.

Housing: Regeneration

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the timetable is for the review of the allocations to Housing Market Renewal Pathfinders; and what funding has been allocated to date in each year in each Pathfinder during the current Comprehensive Spending Review period. [293183]

John Healey: Funding allocations for HMR pathfinders during the current CSR period are given in the following table. The 2009-10 figures include £311 million allocated in March 2009 and a further £35 million which I announced in July 2009 and which was based on strong progress. Figures for 2010-11 are indicative.

£ million

HMR pathfinder	*2008-09*	*2009-10*	*2010-11*[1]
Birmingham Sandwell	25	19	11
East Lancashire	52	50	48
Hull and East Riding	30	29	28
Manchester Salford	52	46	42
Merseyside	54	51	47
Newcastle Gateshead	34	32	29
North Staffordshire	40	38	36
Oldham Rochdale	32	30	28
South Yorkshire	46	38	31
Tees Valley	13	11	10
West Cumbria	3	2	1
Total	381	346	311

[1] Indicative allocation.

Housing: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in what circumstances a proposal submitted to the Valuation Office Agency to reduce the banding of a dwelling is *(a)* considered by the agency alone and *(b)* referred to the Valuation Tribunal Service. [293106]

Barbara Follett: All proposals must be submitted to the Valuation Office Agency (VOA), who will issue a decision on each proposal. A proposal is considered by the VOA alone unless the decision is appealed to the independent Valuation Tribunal by the taxpayer or any other party who, by law, is in a position to make such an appeal (e.g. the owner if not also the taxpayer).

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what obligations there are on property owners to respond to requests from the Valuation Office Agency to complete questionnaires gathering information for the purposes of property valuation. [293320]

Barbara Follett: For domestic property questionnaires are issued to taxpayers so that they may voluntarily supply information that would otherwise have to be obtained by other means, such as an inspection. Using the questionnaires reduces the need to inspect, minimises the inconvenience to the taxpayer and enables the VOA to deal effectively and speedily with taxpayers' enquiries.

While, under section 27 of the Local Government Act 1992, the VOA can require an owner or occupier to supply information that will assist in maintaining council tax valuation lists, the questionnaires are not issued to taxpayers using these powers.

LLM Communications

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 21 July 2009, *Official Report*, column 1662W, on LLM Communications, for what reasons the Department paid LLM Communications directly. [293250]

John Healey: In 2006 the Campaign for More and Better Homes (CMBH) approached the Department seeking funding for a series of regional housing debates. It was agreed with CMBH that LLM Communications would be engaged to support this work and CLG engaged LLM on behalf of the partnership.

Lobbying

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance his Department has issued to its *(a)* special advisers, *(b)* civil servants and *(c)* policy advisers on 12 month contracts on meetings with lobbyists; and whether central records are kept of any such meetings. [293003]

Barbara Follett: Special advisers meet many people as part of the process of policy development and analysis. All such contacts are conducted in accordance with the Ministerial Code, the Civil Service Code, the Code of Conduct for Special Advisers and Guidance for Civil Servants: Contacts with Lobbyists:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/civil_service/lobbyists.aspx

In addition guidance on contact with lobbyists is provided to all civil servants through the staff handbook which is available on the Department's intranet.

Local Authority Business Growth Incentives Scheme

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government for what reason the Local Authority Business Growth Incentive funding scheme funding has been reduced to £50 million for 2010-11; and whether the funds previously allocated to the programme are to be transferred to another programme. [293259]

Barbara Follett: LABGI funding for 2010-11 was reduced from £100 million to £50 million as part of a review of Government spending priorities in early 2009 in light of the economic downturn.

Local Government

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment has been made of progress in the operation of two-tier pathfinders; and if he will place in the Library a copy of the report by the Office for Public Management consultancy, PricewaterhouseCoopers and Cardiff Business School on two-tier pathfinders. [293358]

Ms Rosie Winterton: My officials are currently reviewing progress on two-tier innovation with the four pathfinders and other councils. In the light of this we will be considering how best to encourage and facilitate improved two-tier working, particularly in the context of the Total Place initiative. The research contractors are still finalising the qualitative report and associated documents from the long-term evaluation of two-tier pathfinders and new unitary authorities. We anticipate this will be published early in the new year and will place a copy in the House Library.

Local Government Finance

Mr. Tyrie: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the underlying wage data (the ASHE Dataset) used as the basis of the calculation for the area cost adjustment for the most recent three years. [293537]

Barbara Follett: Information contained in the ASHE data is collected by ONS under the Statistics of Trade Act (1947), and is regarded as confidential. It is therefore not possible to make the ASHE dataset available in the Library.

Local Government: Publicity

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate his Department has made of the number of local authorities which publish a weekly municipal newspaper. [293161]

Ms Rosie Winterton: My Department has made no estimate of the number of local authorities that issue publicity in the form of a weekly newsletter or freesheet.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which *(a)* individuals and *(b)* organisations responded to his Department's consultation on the Code of Conduct on Local Authority Publicity. [293162]

Ms Rosie Winterton: I have arranged for a list of the over 300 people and organisations who responded to the consultation on the code of recommended practice on local authority publicity to be placed in the Library. We intend to publish a summary of consultees' comments by the end of the year.

Mortgages: Government Assistance

Mr. Hoban: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 14 May 2009, *Official Report*, column 1007W, on mortgages: Government assistance, which lenders are participating in the Homeowner's Mortgage Support Scheme; how many borrowers are participating in the scheme with each lender; and how much funding has been made available in respect of each lender. [289897]

John Healey: A full list of lenders participating in the scheme is available at:

http://www.direct.gov.uk/en/HomeAndCommunity/Keepingyourhomeevictionsandhomelessness/Mortgagesandrepossessions/DG_177637

The following lenders have recently joined the scheme: Bank of Ireland (including Bristol and West and the Post Office) and Kensington Mortgages on 1 October; and Basinghall Finance on 8 October.

A maximum guaranteed amount is set for each participating lender. This is based on market share information and is commercially confidential.

The Department plans to publish information in December on the number of households who have been helped through Homeowners Mortgage Support.

Muslim Council of Britain

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government on what dates Ministers in his Department have met representatives of the Muslim Council of Britain in the last 12 months. [294631]

Mr. Malik: The former Communities Minister, now the Minister of State, Department for Transport, my hon. Friend the Member for Tooting (Sadiq Khan), chaired a meeting of the Faith Communities Consultative Council on 11 November 2008 which was attended by a representative of the Muslim Council of Britain. My hon. Friend also held meetings with the Mosques and Imams National Advisory Board (MINAB) Steering Group on 2 December 2008, 15 January 2009, 4 March, and 22 April 2009 which were attended by representatives of the Muslim Council of Britain. In addition my hon. Friend met representatives from the Muslim Council of Britain in a separate meeting on 2 December 2008.

The former Secretary of State for Communities and Local Government and the former Communities Minister attended a meeting hosted by the Prime Minister on 25 November 2008 at which representatives of the Muslim Council of Britain were present.

National Housing and Planning Advice Unit

Grant Shapps: To ask the Secretary of State for Communities and Local Government what research projects the National Housing and Planning Advice Unit is carrying out; and if he will make a statement. [292351]

Mr. Ian Austin: Part of the National Housing and Planning Advice Unit's remit is to commission research in support of building an evidence base to advise Government and other stakeholders on the implications of housing supply on affordability. Since its launch it has developed and delivered a focused research programme exploring specific aspects of the housing supply and affordability problem from an independent perspective, with the aim of engaging stakeholders and informing the development of housing supply policy and practice. This programme of research activity is ongoing, and the unit is currently carrying out the following projects:

1. The Geography of Housing Market Areas in England: Implications for Analysis, Modelling and Policy.
2. Developing sub-regional or cross regional models of housing markets supply and affordability in England—proposal for feasibility studies.
3. The effect of supply constraints on housing costs.
4. An empirical investigation of planning delay and its impact on housing supply.
5. The Implications of Housing Type, Size, Mix and Density.
6. Mortgage possessions in the UK: a regional and national analysis.
7. The need for market and affordable housing.
8. House Prices and Cohort Home Ownership.
9. A review of European Planning Systems.

National Housing and Planning Advice Unit: Pay

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much the National Housing and Planning Advice unit spent on staff costs in each of the last three years. [292485]

Mr. Ian Austin: The National Housing and Planning Advice Unit was first set up in October 2006, had a fully operational team by March 2007 and was officially launched in June 2007. It is a small team of civil servants (there are currently 13 staff in post) whose work is shaped and steered by an expert board. The unit's remit is national, and its prime objective is to develop a strong and reliable evidence base on which to provide independent advice to Government and other stakeholders about the impact of planning proposals on affordability. In supporting this objective, it has provided comprehensive advice on housing supply numbers to be tested in the planning process, developed and delivered a focused research programme, and delivered affordability training events for stakeholders, with the aim of raising awareness of the affordability problem.

The unit spent the following on staff costs[1] in each of the last three years.

	£
October 2006 to March 2007	[1]68,490
April 2007 to March 2008	578,968
April 2008 to March 2009	606,212

---

[1] Staff costs are salaries of permanent staff, including pension and national insurance contributions. They do not include board fees, or salary costs of temporary staff.

	£
April 2009 to Current[2]	330,688

[1] This amount accounts for the six-month set-up period for the unit. For the first five months of this period, the unit had only one member of staff—it's chief executive, who was setting up the unit during this period, with other staff members joining the unit during February and March 2007. The £68,490 quoted applies therefore to only 1.42 full-time equivalent staff years. For the following years, the salary costs quoted relate to the full team (which equates to 12-13 staff years).

[2] To end of September 2009.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the value was of unpaid business rates *(a)* uncollected and *(b)* written off in each of the last five years in England. [293354]

Barbara Follett: The amount of business rates, in £ million, not collected within the year to which it relates for 2004-05 to 2008-09 is given in the following table.

	£ million
2004-05	261
2005-06	289
2006-07	229
2007-08	215
2008-09	423

Collection of non-domestic rates continues after the year to which it relates has ended so the final amount not collected for the year will be lower than that shown in the table.

This information is available in Table 3 of the statistical releases Collection Rates for Council Tax and Non-domestic Rates in England that are available on the Communities and Local Government website at

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/counciltax/collectionrates/

Estimates of the amount of business rates (in £ million) written off each year in the period 2003-04 to 2007-08 are given in the following table.

	£ million
2003-04	818
2004-05	779
2005-06	714
2006-07	579
2007-08	759

Data for 2008-09 will not be available until spring 2010.

This information is published annually in Table 2.3k of Local Government Financial Statistics England No 19 2009 that is available on the Communities and Local Government website at

http://www.communities.gov.uk/localgovernment/localgovernmentfinance/localgovernmentfinance/statistics

The data are taken from the Quarterly Return on Collection of Council Tax and Non-domestic Rates return (QRC4) and the national non-domestic rates return (NNDR3) that are completed annually by all billing authorities in England.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many firms eligible for small business rate relief were not claiming it on the latest date for which figures are available. [293369]

Barbara Follett: Data are not currently available on the number of businesses eligible for Small Business Rate Relief (SBRR). We asked local authorities to estimate the numbers of businesses that were eligible for SBRR in the annual national non-domestic rate return. We are examining these data to assess their quality before making a decision about whether they are suitable for publication. Meanwhile, we are working to see if we can establish an estimate of the number of businesses eligible for SBRR using previous research in this area and so assess the level of take-up.

The number of properties reported by local authorities as claiming SBRR as at December 31 2006 was 392,000. Local authorities also reported that they had granted £997 million in SBRR between April 1 2005 and March 31 2009. They expect to grant a further £306 million in 2009-10.

Non-Domestic Rates: Greater London

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 10 January 2008, *Official Report*, columns 767-68W, on the Crossrail line: finance, what information his Department holds on the likely *(a)* start date and *(b)* end date of the supplementary business rate in London. [293226]

Barbara Follett: The Department's understanding is that the Mayor of London intends *(a)* to start levying a business rate supplement (BRS) to support the funding of the Crossrail project from April 2010 and that *(b)* dependent on the future conditions of the financial markets which will facilitate the borrowing that the BRS will support, that the London Crossrail BRS will run for between 24 and 30 years.

The Mayor of London's plans are set out in his Crossrail BRS prospectus, published on July 30 2009 for consultation. The Business Rate Supplements Act 2009 requires that any revision to the prospectus would have to be consulted on.

Planning Permission

Mr. Andrew Turner: To ask the Secretary of State for Communities and Local Government how many planning applications were made in each district and single-tier authority in the last 12 month period for which figures are available; and how many and what proportion of these were referred to planning inspectors for decision in the case of each district or single-tier authority. [293804]

Mr. Ian Austin: The number of planning applications received for each district or single-tier authority in England in 2007-08 is published in table 1.7 from the annual Development Control Statistics, which can be found at:

http://www.communities.gov.uk/publications/corporate/statistics/developmentcontrol200708

Information on the number of planning applications referred to planning inspectors is published by the Planning Inspectorate but is not disaggregated by local authority.

Playing Fields: Planning Permission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what planning guidance has been produced by his Department on using *(a)* green belt, *(b)* countryside and *(c)* open space for use as playing fields in the last three years. [293344]

Mr. Ian Austin: Planning guidance on playing fields is contained in Planning Policy Guidance note 17—"Planning for Open Space, Sport and Recreation", which was published in 2002. No new planning guidance on playing fields has been issued since then.

Public Sector Relocation Independent Review

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what use has been made of the dataset of revaluations produced for the Lyons Review by the Valuation Office Agency since the conclusion of the review; and which public bodies have access to the dataset. [293261]

Barbara Follett: No revaluations took place for the Lyons review. A number of datasets containing address information, attribute data and value estimates were provided to the review team during the period of their review. The data were provided to the Lyons review team expressly for their use only.

The Valuation Office Agency has made no use of these datasets since the conclusion of the review.

No other public bodies have access to this information.

Regional Development Agencies

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government on what date regional development agencies will commence their roles as regional planning bodies. [293345]

Mr. Ian Austin: There are no proposals for regional development agencies to become regional planning bodies.

Social Rented Housing: Standards

Mr. Burstow: To ask the Secretary of State for Communities and Local Government what recent representations he has received on the decision to reduce Decent Homes funding; and if he will make a statement. [293101]

Mr. Ian Austin: Following the Housing Pledge announcement of 17 July 2009 the Department has thus far received around 34 representations. The representations were from Members of this House and representatives of local authorities.

Starbucks: Planning Permission

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many planning appeals relating to the establishment of Starbucks coffee shops have been considered by the Planning Inspectorate in the last 24 months. [293254]

Mr. Ian Austin: The Planning Inspectorate has considered eight planning appeals by the Starbucks Coffee company in the two-year period from 1 October 2007 to 30 September 2009. Of these, five appeals were allowed and three dismissed.

Tony Clements

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether Mr Tony Clements played a role in drafting the letter sent by the Minister for Housing and Planning to the Leader of Her Majesty's Opposition dated 28 July 2009. [293248]

Barbara Follett: Tony Clements had no role in drafting the letter sent by the Minister for Housing and Planning to the Leader of Her Majesty's Opposition dated 28 July 2009.

Town and Country Planning Act 1990

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many times the power contained in section 79, paragraph 3 of Schedule 6 of the Town and Country Planning Act 1990 has been used since 1997; on how many of those occasions his Department and its predecessors has not accepted in full the Planning Inspector's report and recommendations; and if he will place in the Library a copy of the guidance issued by his Department on the exercise of such discretion. [293531]

Mr. Ian Austin: Since April 1997, the Secretary of State has used the power mentioned (to recover planning appeals for determination by Secretary of State) on a total of 1,301 occasions. Since April 2002, the Secretary of State has disagreed with the Inspector's recommendation on a total of 76 planning appeals. This information was not routinely collected before 2002.

A written ministerial statement setting out the revised criteria for the recovery of appeals was made on 30 June 2008, *Official Report*, columns 43-44WS.

Travelling People: Caravan Sites

Ms Keeble: To ask the Secretary of State for Communities and Local Government what level of grant aid was provided to each local authority for improving Gypsy and Traveller sites in each of the last five years; and what the relevant outturn expenditure was by each authority in each year. [293490]

Mr. Malik: Grant for refurbishing existing and building new Gypsy and Traveller sites was paid through the Gypsy Site Refurbishment Grant up to and including financial year 2005-06 and since 2006-07 has been paid through the Gypsy and Traveller Site Grant.

The level of grant paid to each local authority by the Department for Communities and Local Government in financial years 2005-06 to 2008-09 has been placed in the Library. The Department does not hold records of the outturn expenditure by local authorities following these grant awards in financial years 2005-06 to 2008-09.

The Homes and Communities Agency is responsible for paying the Gypsy and Traveller Site Grant in the current financial year 2009-10. The agency has received bids for grant funding, but no payments have yet been made to local authorities.

Ms Keeble: To ask the Secretary of State for Communities and Local Government what assessment his Department has made of the effectiveness of the spending of grants provided to local authorities to improve Gypsy and Traveller sites in the last three years. [293491]

Mr. Malik: The Department has not carried out any formal review of effectiveness of the Gypsy and Traveller site grant in the last three years. From 2006-07 The process through which successful schemes were recommended was changed. Gypsy and Traveller site grant from this point formed part of the regional housing pot, with recommendations for successful schemes being made by Regional Assemblies. This helped to ensure that local knowledge about the ability of authorities to deliver schemes of this nature was better taken into account.

Bids were assessed, in a competitive process, against published bidding guidance centrally and analysed by independent consultants to assist Regional Assemblies in assessing schemes. The evaluation assessed bids against the following key criteria:

Does the scheme meet a clearly assessed need

Does the scheme offer value for money

Is the site sustainable

Can the scheme be delivered to time and to budget

Since April 2009, administration of the Gypsy and Traveller site grant has transferred to the Homes and Communities Agency who will be paying grant under their own new powers and monitoring regime.

Mr. Malins: To ask the Secretary of State for Communities and Local Government whether he has received any *(a)* letters and *(b)* other communication requesting anonymity of representation in planning application cases for Gypsy and Traveller pitches or sites in the last six months; and if he will make a statement. [294369]

Mr. Malik: The Department has not received any letters or other communications in the last six months requesting anonymity of representations in planning application cases for Gypsy and Traveller pitches or sites.

Valuation Office: ICT

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what proportion of the Valuation Office Agency's domestic property attribute data has been digitised; what the targets for full digitisation are; and what the total cost of the digitisation project is. [293256]

Barbara Follett: All of the Valuation Office Agency's (VOA) domestic property attribute data are digitised.

For the cost for digitising the VOAs property attribute data, I refer the hon. Member to the answer given on 9 January 2006, *Official Report*, column 268W.

CHILDREN, SCHOOLS AND FAMILIES

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which Minister has responsibility for the security of data held on the ContactPoint database. [293545]

Dawn Primarolo *[holding answer 16 October 2009]:* Baroness Morgan of Drefelin is responsible for ContactPoint at a ministerial level.

Children: Social Services

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) with reference to page 14 of the Ofsted report Learning lessons from serious case reviews: year 2, how many of the 38 deaths arising from homicides were *(a)* reported in serious case reviews that were inadequate in each local authority and *(b)* of children known to social services at the time of the incident; [294637]

(2) what the executive summary titles are of the 173 serious case reviews examined in preparation of the Ofsted report entitled Learning lessons from serious case reviews: year 2. [294638]

Dawn Primarolo: These are matters for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and copies of her replies can be found as follows.

Letter from Christine Gilbert, dated 19 October 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for response. (UIN 294637)

In the recently published report "Learning lessons, taking action: Year 2", Ofsted reported that between 1 April 2008 and 31 March 2009, Ofsted received 174 notifications of deaths of children where abuse was or was suspected to have been a factor. This figure included 38 deaths arising from homicide. Interrogation of data relating to these 38 deaths of children has identified that, to date, 10 of these notifications have resulted in serious case reviews that have been received and evaluated by Ofsted. The 10 reviews relate to 15 children. Four reviews were judged good, four adequate and two were inadequate.

Of the 15 children concerned, three were on the child protection register at the time of the incident, two were previously referred to social care services prior to the incident but were not receiving services and ten were not known to children's services. Ofsted has not yet received the remaining serious case reviews. The majority of serious case reviews take between 4 and 12 months to complete as, in some cases, the requirements of judicial proceedings can lead to delays in the review process,

A copy of this reply has been sent to Rt Hon Dawn Primarolo MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Letter from Christine Gilbert, dated 19 October 2009:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for response. (UIN 294638)

To protect families and especially vulnerable siblings, the executive summaries of all serious case reviews are anonymised prior to publication by Local Safeguarding Children Boards.

To enable inspectors to link each serious case review accurately with the notification of the specific incident, Ofsted records all serious case reviews under children's actual names or initials and not the pseudonym which may be used for the executive summary when it is published. It is not possible therefore for Ofsted to provide details of the executive summary titles later used by the Local Safeguarding Children Boards.

Ofsted does provide details of the date of its evaluations by local authority and has included a full list of the 173 serious case reviews as an annex to the report.

Using this information, it is possible to access each of the executive summaries through a helpful web link hosted by the National Society for the Prevention of Cruelty to Children:

http://www.nspcc.org.uk/inform/factsandfigures/readinglists/serious_case_reviews_2009_wda62916,.html

A copy of this reply has been sent to Rt Hon Dawn Primarolo MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families with reference to the Ofsted report entitled Learning lessons from serious case reviews: year 2, what steps he is taking in respect of those serious case reviews which were found to be inadequate. [294639]

Dawn Primarolo: Since 1 December 2008 all Local Safeguarding Children Boards responsible for serious case reviews which have been judged inadequate convene an independently chaired panel to reconsider the review before sending a report to the Secretary of State for Children, Schools and Families, and copied to Ofsted, which addresses the review's inadequacies. This process was applied retrospectively to all serious case reviews which Ofsted had evaluated as inadequate, as well as to those receiving an inadequate judgment after 1 December. Ofsted reported that 62 out of the 63 reports received by 31 March 2009 following inadequate SCRs were judged to be satisfactory. A further report was requested in respect of the one inadequate report; the revised version was judged by Ofsted as satisfactory. Ofsted noted in their report that the reconsiderations had resulted in greatly strengthened reviews and valuable lessons learnt with regard to safeguarding practice. These arrangements are reflected in new draft guidance currently subject to public consultation (chapter 8 of "Working Together to Safeguard Children").

Departmental Advertising

Pete Wishart: To ask the Secretary of State for Children, Schools and Families how much his Department spent on newspaper advertising carried in each newspaper in the most recent year for which figures are available. [289511]

Ms Diana R. Johnson: Expenditure on newspaper advertising by the Department for Children, Schools and Families for the period April 2008 to March 2009 is outlined in the following table.

DCSF: 2008/09

Publication	*Expenditure (£)*
Daily Express	104,980
Daily Mail	312,327
Daily Mirror	141,500
Daily Star	37,480
Daily Star on Sunday	6,950
Daily Telegraph	113,148
Financial Times	25,000
News of the World	120,901
Sunday Express	46,495
Sunday Mirror	75,036
Sunday Telegraph	68,430
The Guardian	69,656
The Independent	24,630
The Independent on Sunday	12,850
The Mail on Sunday	100,650
The Observer	32,600
The Sun	299,550
The Sunday Times	218,400
The Times	[illegible],600
Total	1,905,183

Departmental Consultants

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of expenditure by his Department and its predecessor on all forms of consultancy for each *(a)* year and *(b)* quarter from 31 March 1997; and if he will make a statement. [293396]

Ms Diana R. Johnson: Figures for the former Department for Education and Skills show that it spent the following sums from administration costs (the Department's internal running costs) on consultancy from 1997.

	£ million
1997-98	3.9
1998-99	5.0
1999-2000	3.7
2000-01	4.3
2001-02	5.0
2002-03	4.0
2003-04	4.7
2004-05	3.9

The costs of consultancy charged to programmes budgets (supporting external front-line delivery) before November 2004 were not recorded centrally, and could now be provided only at disproportionate cost. The total cost of consultancy charged to programmes from November to March 2004-05 was £4.4 million.

From the year 2005/06, consultancy costs as a whole have been captured. Set out as follows are comparable annual consultancy costs for the Department; your request for quarterly expenditure details is however one which could be met only at disproportionate cost.

Expenditure on consultants

	£ million
2005/06	21.5
2006/07	45.1
2007/08	61.4
2008/09	59.2

Departmental Internet

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which officials in his Department write the tweets on his Department's Twitter site. [293376]

Ms Diana R. Johnson: The Department's Twitter channel is managed by the Digital Communications

Unit. Updates to it form part of the business as usual editorial process for corporate news updates. For some policy announcements, officials from across the Department will provide the draft text for updates, which are then reviewed and edited as necessary.

Departmental NDPBs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what budget his Department has agreed with each of its non-departmental bodies for the period 2009 to 2011. [283290]

Ms Diana R. Johnson: Funding has been agreed only for 2009-10 and is shown in the following table.

2009-10

Name	*£ million*
British Educational Communications and Technology Agency (BECTA)	43
Children and Family Court Advisory and Support Service (CAFCASS)	124
Children's Workforce Development Council (CWDC)	70
National College for School Leadership (NCSL)	86
Partnership for Schools (PFS)	21
Qualifications and Curriculum Authority (QCA)	132
School Food Trust (SFT)	7
Training and Development Agency for Schools (TDA)	708
11 Million	3

Departmental Public Expenditure

Michael Gove: To ask the Secretary of State for Children, Schools and Families with reference to table 8.4 of his Department's annual report for 2009, which individual programmes and corresponding allocations for 2010-11 are aggregated under the items *(a)* Sure Start, *(b)* 14-19 Development, *(c)* Qualifications and Curriculum, *(d)* Youth Programmes, *(e)* other students' fund, *(f)* school standards grants and *(g)* academies. [292052]

Ms Diana R. Johnson: The Department's programmes shown aggregated in DCSF's Departmental Annual Report 2009 for the year 2010-11 are provided in the following table:

Departmental report allocation 2010-11

Programme details	*£000*
(a) Sure Start	
Sure Start: Other Current Programmes	72,309
Sure Start LA Current Grants	1,540,382
Childcare Initiative	41,900
Sure Start—LA Capital Grants	315,025
Extended Schools and Study Support	457,466
Sure Start total	2,427,082
(b) 14-19 Development	
14-19 Local Delivery	116,681
14-19 Diploma Costs	25,500
Attainment at 19	30,071
Bridging Allowances and Community Industry Pensions	1,455
14-19 Development total	173,707
(c) Qualifications and Curriculum	
Qualifications and Curriculum	91,762
Qualifications and Curriculum total	91,762
(d) Youth Programmes	
Contact Point (Capital)	35,200
Youth Challenge Fund	4,300
Workforce Development Capital Grant	218
National Youth Agency (NYA)/National Voluntary Youth Agency (NVYO) Grants	8,000
Children and Families Directorate (CFD) Capital Grant	21,334
Voluntary Child Services (VCS) Children Young People and Families (CYPF) Grant and capacity improving	21,802
Communications/Participation/Child and Adolescent Mental Health Services (CAHMS)	864
Vetting and Barring Scheme (VBS)/Integrated Children's System (ICS)/Making Safeguarding Everyone's Responsibility (MSER)/Adoption Strategy/Quality Protects (QP)	59,523
Family Fund Trust/Contact a Family	23,322
10 Year Strategy Additions	66,000
Youth Sector Support	40,000
Peer Mentoring	240
Youth Programmes total	280,803
(e) Other Standards Fund	
Standards Fund Current	2,213,161
Other Standards Fund total	2,213,161
(f) School Standards Grant	
School Standard Grants	1,665,925
School Standards Grant total	1,665,925
(g) Academies	
City Academy recurrent	284,312
Academies total	284,312

Education: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what resources from which standards funds have been allocated by his Department in the last 12 months. [293405]

Mr. Coaker: The following table shows the Standards Fund allocations made to local authorities for 2008-09 and 2009-10 to date.

Standards Fund allocations to local authorities

		£ million
	2008-09	*2009-10*
Revenue Grants		
School Development Grant	1,915.0	1,950.8
School Lunch Grant	78.8	78.8
Ethnic Minority Achievement Grant	184.9	194.0
Targeted Improvement Grant[1]	12.2	15.1
Making Good Progress	7.7	126.6
1-2-1 Tuition and Participation Key Stage 2 early roll out[2]	15.7	—
Extended Schools—Sustainability	73.5	134.5
Extended Schools Subsidy	7.1	37.8
Targeted Support for the Primary National Strategy	195.8	220.3

Standards Fund allocations to local authorities

£ million

	2008-09	*2009-10*
Targeted Support for the Secondary National Strategy	109.5	108.3
City Challenge[1]	32.8	10.13
Extending and increasing flexibility of free entitlement for 3-4 year olds	80.0	170.0
Music	82.6	82.5
Playing for Success	12.8	13.1
Key Stage 4 Engagement Programme	17.0	18.5
National Challenge[1]	54.9	37.3
Total Revenue Grants	2,880.2	3197.7
Capital Grants[3]		
Devolved Formula Capital	802.0	1,090.5
Building Schools for the Future (BSF)[4]	635.8	849.4
Primary Capital Programme	143.5	734.8
Targeted Capital Fund (TCF)—Standards and Diversity	53.6	66.8
Targeted Capital Fund (TCF)—One School Pathfinders	435.4	329.0
Targeted Capital Fund (TCF)—Main Programme	170.5	9.5
Targeted Capital Fund (TCF)—Kitchens	8.3	47.1
Targeted Capital Fund (TCF)—Cookery in the Curriculum	1.0	30.1

Specialist Schools Capital	17.5	12.9
School Travel Plans	15.4	11.0
Home Access for Targeted Groups[6]	18.0	—
Total Capital Grants	2,750.3	4,428.6

[1] Further allocations to be made during 2009-10 as projects progress.

[2] Within Making Good Progress from 2009-10.

[3] From October 2009 the Department has transferred certain of its operational functions in relation to schools capital funding, including capital grant payments to local authorities, to Partnerships for Schools.

[4] Full year spend for 2009-10 could reach £1,010 million (BSF) and £350 million (Framework Academies) if projects in the pipeline reach their expected milestones during the year.

[5] Part of TCF Standards and Diversity programme in 2008-09.

[6] Home Access Programme will be not routed through local authorities in 2009-10.

Pupils: Migration

Ms Buck: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the level of pupil mobility in *(a)* primary and *(b)* secondary schools in each local education authority in 2007-08. [286238]

Mr. Coaker *[holding answer 20 July 2009]:* The DCSF does not publish any estimates of pupil mobility. Estimates of pupil mobility in primary and secondary schools are provided here using the mobility indicators that form part of the DCSF's Contextual Value Added (CVA) models. These identify pupils as mobile if they join a school at non standard times. Only pupils at the end of Key Stage 2 and the end of Key Stage 4 in 2007/08 are included in the figures. A copy of these tables has been placed in the Libraries.

Social Workers: Young Offender Institutions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many social workers have worked full-time in young offender institutions in each year since 1997. [293649]

Maria Eagle: I have been asked to reply.

The information requested is not held centrally and could be provided only at a disproportionate cost.

Vetting: Appeals

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many people convicted of each type of offence have successfully appealed against automatic barring from working with children. [293543]

Dawn Primarolo *[holding answer 16 October 2009]:* No individuals who have been automatically placed on list 99 and barred from working with children have successfully appealed against automatic barring from working with children.

TREASURY

Adjudicator's Office

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what training staff of the Adjudicator's Office receive in respect of handling *(a)* complaints and *(b)* applications for compensation. [294632]

Mr. Timms: New staff at the Adjudicator's Office normally receive a 13 module training programme when they join the office. This programme includes separate modules on complaints handling and redress (compensation).

Consolidated Contractors Corporation

David Davis: To ask the Chancellor of the Exchequer what *(a)* meetings, *(b)* communications and *(c)* other contacts Ministers and officials in his Department have had with the Consolidated Contractors Corporation (CCC Group) and its international offshoots in the last five years. [294381]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Council of Economic Advisers: Departmental Responsibilities

Mr. Tyrie: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the job specification and terms of reference for members of his Department's Council of Economic Advisers who have the status of special advisers. [292600]

Sarah McCarthy-Fry: The Prime Minister provides Parliament with details of special advisers through an annual written ministerial statement. This includes members of the Council of Economic Advisers, who are appointed on special adviser terms.

The terms of reference for the Council of Economic Advisers are:

> "To advise the Chancellor of the Exchequer on the design and implementation of policies for the achievement of the Government's economic objectives."

Departmental ICT

Justine Greening: To ask the Chancellor of the Exchequer what IT systems have been in development for use within his Department in the last five years, what the reasons for the development of each system are; how much has been spent on the development of each system; and which systems have subsequently been *(a)* implemented, *(b)* terminated prior to implementation and *(c)* terminated following implementation. [290597]

Sarah McCarthy-Fry: The following table summarises the information requested for expenditure over £0.1 million on IT systems developed within HM Treasury in the five years to October 2009.

System name	*Reason for development*	*Status*	*Amount spent (£ million)*
Budget and Finance Bill Database	Secure single data repository for Budget and pre-Budget report data management and reporting	Implemented	0.2

In respect of the Department's Corporate Shared Services Programme, which had an IT-enabling element to underpin the shared Human Resource service for people in HM Treasury and the Office of Government Commerce, I refer the hon. Lady to the answer my predecessor gave to the hon. Member for Cardiff, Central (Jenny Willott) on 28 January 2009, *Official Report*, column 584W. It is not possible to disaggregate the cost of the IT-enabled element from the overall costs of the programme.

Economic Situation: Leeds

John Battle: To ask the Chancellor of the Exchequer what assessment his Department has made of the effect of the recession on the economy in Leeds West constituency; and if he will make a statement. [294022]

Sarah McCarthy-Fry: The Government recognise that the global economic downturn has affected all regions within the UK. Yorkshire Forward, as the regional development agency in the region, has taken forward a number of initiatives to provide assistance to families and businesses in these difficult times. The Chancellor will provide an update on the state of the economy at a national level in the 2009 pre-Budget report later this autumn.

Financial Services

Mr. Dai Davies: To ask the Chancellor of the Exchequer what discussions he has had with the Chairman of the Financial Services Authority on the social usefulness of activities of the financial services sector. [293993]

Sarah McCarthy-Fry: Ministers and officials meet the FSA on a regular basis to discuss a wide range of issues.

The paper "Reforming Financial Markets", published on 8 July 2009, sets out the Government's approach to reforming regulation of financial services.

Government: Assets

Mr. Tyrie: To ask the Chancellor of the Exchequer pursuant to the answer of 12 October 2009, *Official Report*, columns 23-28, on sale of Government assets, what valuation his Department placed in October 2007 on *(a)* the Tote, *(b)* the Dartford Crossing, *(c)* the student loan book, *(d)* the Channel Tunnel Rail Link, *(e)* the central Government property proposed for sale and *(f)* the local authority assets proposed for sale. [293443]

Mr. Byrne: Publishing details of valuations of Government assets ahead of any commercial negotiations with potential buyers would undermine the value for money of any disposal. However, departmental and national accounts provide some details of the book value of Government assets.

Inheritance Tax: Housing

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the Answer of 9 July 2009, *Official Report*, column 967W, on Taxation: Valuation Office, how many inheritance tax valuations submitted by taxpayers were adjusted following a challenge by the Valuation Office Agency in *(a)* 2004-05, *(b)* 2003-04, *(c)* 2002-03 and *(d)* 2001-02. [294446]

Ian Pearson: The number of inheritance tax cases in which the valuations submitted by taxpayers were adjusted following a challenge by the Valuation Office Agency in 2004-05 was 6,169. Figures for the earlier years cannot be obtained without incurring disproportionate cost.

Islamic Republic of Iran Shipping Lines: Financial Services

Mr. Hague: To ask the Chancellor of the Exchequer pursuant to the written ministerial statement of 12 October 2009, *Official Report*, column 1WS, on delegated legislation (counter terrorism), how many offices the Islamic Republic of Iran Shipping Lines maintains in the UK; whether they will be required to be closed; and if he will make a statement. [293789]

Sarah McCarthy-Fry: Companies House records state that the Islamic Republic of Iran Shipping Lines (IRISL) has one registered office in the UK.

The direction contained in the Financial Restrictions (Iran) Order 2009 requires all UK financial and credit institutions to cease business relationships and transactions with both Bank Mellat and IRISL, and their branches, wherever they are located. It does not require the IRISL office in the UK to be closed.

Research and Development Tax Credit

Miss McIntosh: To ask the Chancellor of the Exchequer what recent representations he has received on the research and development tax credit. [294584]

Ian Pearson: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Taxation: Holiday Accommodation

Lembit Öpik: To ask the Chancellor of the Exchequer how many people obtained relief under the furnished holiday letting rules for occupancy rates of *(a)* 10, *(b)* 15, *(c)* 20 and *(d)* more than 25 weeks in the 2007-08 tax year; and if he will make a statement. [294435]

Mr. Timms: Her Majesty's Revenue and Customs administrative systems do not hold information about the occupancy rates of let property, including properties let by those obtaining relief under the furnished holiday lettings rules.

An impact assessment will be published at the 2009 pre-Budget report alongside draft legislation.

Lembit Öpik: To ask the Chancellor of the Exchequer whether following the abolition of the furnished holiday letting rules owners of self-catering cottages and owners of bed and breakfast establishments will be subject to the same taxation regime. [294473]

Mr. Timms: Following abolition of the furnished holiday letting rules, the owners of most self catering cottages will be taxed on the basis that they are carrying on a property business, but where additional services are provided, some or all of the activities may amount to a trade.

There are long established rules for deciding whether an activity is a trade. Under these rules, running a bed and breakfast establishment is normally a trade.

Lembit Öpik: To ask the Chancellor of the Exchequer what recent discussions his Department has had with European Commission on the furnished holiday letting rules; and if he will make a statement. [294474]

Mr. Timms: The Government discuss a range of issues with the European Commission. As was the case with the previous Administration, it is not the Government's practice to provide details of these discussions.

Lembit Öpik: To ask the Chancellor of the Exchequer how many *(a)* organisations and *(b)* individuals have made representations against his plans to amend the furnished holiday letting rules since those plans were announced; and if he will make a statement. [294475]

Mr. Timms: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Lembit Öpik: To ask the Chancellor of the Exchequer what estimate he has made of the number of holiday cottages owned by those who will be affected by his proposed amendments to the furnished holiday letting rules. [294476]

Mr. Timms: From the information supplied in the 2007-08 income tax returns, HM Revenue and Customs estimate that the repeal of the furnished holiday lettings rules from April 2010 will affect approximately 75,000 properties.

An impact assessment will be published at the 2009 pre-Budget Report alongside draft legislation.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer whether a gateway review was undertaken in relation to the Valuation Office Agency's Geographical Information System. [292636]

Ian Pearson: The Office of Government Commerce Gateway review process applies to all major projects across Government and is designed to ensure high standards of project management.

OGC has not carried out a Gateway review of the VOA GIS project as it does not fall into the category of a major project. The VOA's GIS project has been categorised as low risk and is therefore subject to a different level of review.

Valuation Office: Data Protection

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Ludlow (Mr Dunne) of 14 September 2009, *Official Report,* column 2134W, on the Valuation Office: data protection, whether photographs of dwellings held on the Valuation Office Agency's photographic database are treated as personal data. [294361]

Ian Pearson: All data, including photographs, which qualified as personal data in accordance with paragraph 1.1 of the Data Protection Act 1998 are treated in accordance with that Act by the Valuation Office Agency.

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the Answer to the hon. Member for Ludlow of 14 September 2009, *Official Report,* column 2134W, on the Valuation Office: data protection, since what date the Valuation Office Agency has treated domestic property attribute data on individual dwellings as personal data. [294367]

Ian Pearson: Since 1998, all data, including domestic property attributes, which qualified as personal data in accordance with paragraph 1.1 of the Data Protection Act 1998 are treated in accordance with that Act by the Valuation Office Agency.

Valuation Office: Land Registry

Mrs. Spelman: To ask the Chancellor of the Exchequer how much the Valuation Office Agency has spent on the Land Registry Direct service since February 2007. [294531]

Ian Pearson: Over the period February 2007 to September 2009, the VOA spent £56,831 on the Land Registry Direct service.

Valuation Office: Training

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the Answer of 21 May 2009, *Official Report*, column 1514W, on the Valuation Office: training, what the content of the Euclidian programme is. [294444]

Ian Pearson: Euclidian is a suite of web-based interactive learning tools designed and developed by the Institute of Revenues Rating and Valuation (IRRV). The programmes, which cover a variety of benefit and revenue topics, are predominantly aimed at people working in local authorities.

Euclidian is hosted on the IRRV website at:

www.irrvlearning.org.uk

Welfare Tax Credits

Steve Webb: To ask the Chancellor of the Exchequer if he will estimate the effect on public expenditure of removing the second income threshold on tax credits and applying a consistent taper rate of *(a)* 40 per cent., *(b)* 41 per cent. and *(c)* 42 per cent. in each of the next five years; and if he will estimate the number of people who would have their awards reduced to zero in each case. [293380]

Mr. Timms *[holding answer 15 October 2009]:* The estimated savings from 2010-11 to 2014-15 from removing the second income threshold and applying a consistent taper rate at each of the rates requested, is provided in the following table. No account has been taken of possible behavioural effects.

Effect on expenditure

£ million

Taper rate	*2010-11*	*2011-12*	*2012-13*	*2013-14*	*2014-15*
40 per cent.	-1,010	-1,020	-1,000	-990	-960
41 per cent.	-1,290	-1,320	-1,310	-1,310	-1,300
42 per cent.	-1,560	-1,600	-1,610	-1,620	-1,630

Estimates of the additional number of claimants who would have their awards tapered to zero if these measures were implemented immediately are shown in the following table.

Additional number of claimants with awards tapered to zero

	Thousand
40 per cent.	1,520
41 per cent.	1,590
42 per cent.	1,640

Steve Webb: To ask the Chancellor of the Exchequer if he will estimate the effect on the Exchequer of reducing the income disregard for tax credits from £25,000 to *(a)* £2,500 and (b) £0 in each of the next five years. [293572]

Mr. Timms: This information requested is available only at disproportionate cost due to the complexity of the computations and assumptions involved. Reducing the income disregard would result in significant additional overpayments being generated. The extent to which these impact on the Exchequer will depend on the timing of these overpayments and whether or not they are ultimately recovered. There may also be a behavioural effect as incentives to report income changes could also be affected.

The hon. Member may find it informative to refer to the answer given to the hon. Member for Rayleigh (Mr. Francois), on 7 November 2006, *Official Report*, column 1043-1044W, regarding the estimated cost of increasing the income disregard from £2,500 to £25,000.

Low Birthweight Babies

Jim Cousins: To ask the Chancellor of the Exchequer what proportion of babies born in each primary care trust area were of low birth weight in the period since 1997. [293188]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent questions asking:

What proportion of babies born in each primary care trust area of England were of low birth weight in the period since 1997. (293188)

What percentage of babies born alive had a birth weight of less than 2.5 kg in (a) England, (b) each strategic health authority and (c) each primary care trust area in each of the last three years. (293187)

The table attached provides the percentage of live births that were of low birth weight (less than 2.5kg) in: (a) England, (b) each strategic health authority and (c) each primary care organisation area for 1997 to 2008 (the latest year available).

A copy has been placed in the House of Commons Library.

Figures for 15 primary care organisations have been suppressed because of small numbers, in order to protect the privacy of individual mothers and babies.

CABINET OFFICE

Charities

Jenny Willott: To ask the Minister for the Cabinet Office pursuant to the answer of 12 May 2009, *Official Report*, columns 690-92W, on charities: insolvency, (1) how many registered charities have declared themselves insolvent in each month since March 2009; and if she will make a statement; [294028]

(2) pursuant to the answer of 6 July 2009, *Official Report*, columns 251-53W, on charities, how many charities there were on the Charity Commission register in each month since March 2009; and if she will make a statement. [294029]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated October 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on how many registered charities declared themselves insolvent in each month since March 2009; and how many charities have been on the Charity Commission register in each month since March 2009.

With regard to how many registered charities declared themselves insolvent in each month since March 2009, the Charity Commission does not currently record this information centrally. However, I have set out the number of charities who were removed from the register, in each month, since March 2009 with the reasons recorded for their removal.

The table below refers to those charities which are required to register with the Commission by law. Smaller charities are not required to register with us; the threshold for registration was an annual income of £1,000 until April 2007 when this threshold was increased to £5,000.

Number

	2009							
Reason for removal	*March*	*April*	*May*	*June*	*July*	*August*	*September*	*Total*
Ceased to exist or operate due to merger, incorporation or transfer of funds	103	188	90	124	214	74	141	934
Ceased to exist or operate for other reasons	328	290	195	247	559	2,553	6,277	10,449
Voluntary removal of charities below the minimum registration threshold	300	1,379	739	216	108	69	52	2,863
Duplicate registrations and other corrections	6	17	2	3	3	4	0	35
Total	737	1,874	1,026	590	884	2,700	6,470	14,281

Charities removed from the Register due to insolvency are likely to have fallen under the category "Ceased to exist or operate for other reasons". However, it is unlikely that insolvency accounts for more than a small minority.

The increase in numbers of charities removed from August 2009 is a result of our work to improve the accuracy of the Register of Charities. A key aspect of our strategy is the prompt removal of charities that are inactive and with which we can no longer establish contact. The marked peak of removals of charities that have ceased to exist or operate in September 2009 is a direct consequence of this strategy.

With regard to how many charities have been on the Charity Commission register in each month since March 2009, please see the table below.

Number

	2009						
	31 March	*April*	*May*	*June*	*July*	*August*	*September*
Main charities	166,132	164,847	164,368	164,388	164,144	162,417	157,415
Linked charities	22,769	22,662	22,657	22,639	22,486	22,083	21,305
Total	188,901	187,509	187,025	187,027	186,630	184,500	178,720

Main charities are those required to prepare accounts and send an Annual Return or Annual Update to the Commission. Linked charities, such as subsidiary, group or constituent charities are each linked to a main charity for administrative purposes and do not report their financial results in their own right.

It is a rather complex picture because of the unusually high number of charities removed from the Register in recent months. I would be happy to give you a more detailed background briefing if that would be helpful.

Charities: Government Assistance

John Battle: To ask the Minister for the Cabinet Office what support her Department has made available to charities in the Leeds area during the recession; and if she will make a statement. [294014]

Angela E. Smith: As part of the Government support for the third sector during the recession, over £1.7 million has been provided to organisations in and around the Leeds area:

The Hardship Fund made three awards to organisations in Leeds totalling £228,498.

The Targeted Support Fund made 55 grants, which totalled £1.38 million in Calderdale, Kirklees, Wakefield and Bradford.

Nine organisations in the Leeds local authority area were successfully awarded Modernisation Fund bursaries (worth £9,000 in total). One organisation has received a Modernisation Fund loan in Leeds for £100,000.

As part of Government's response to recession, the Department for Work and Pensions is working with Voluntary Action Leeds to provide volunteer brokerage to individuals that have been unemployed for longer than six months.

A regional roadshow was held in the Yorkshire and Humber region on 21 April 2009 to promote the Government's recession support measures.

I am pleased that many third sector organisations in the Leeds area have been successful in accessing the Government's recession measures. This support is in addition to the £515 million that Government are already providing to support the third sector across England through its core programmes.

Internet: Advertising

Annette Brooke: To ask the Minister for the Cabinet Office when the *(a)* Central Sponsor for Information Assurance and *(b)* Centre for Protection of National Infrastructure was informed that trials of 121 Media/Phorm systems had taken place. [294373]

Angela E. Smith: The Information Security and Assurance (ISA) team (formerly the Central Sponsor for Information Assurance) within the Cabinet Office has the lead strategic role in setting and co-ordinating data handling policy for government and for delivering the National Information Assurance Strategy. ISA does not determine which particular systems, software or ICT products are used within the UK and as such ISA would not be informed officially of any trials carried out by 121 Media/Phorm systems.

The Centre for Protection of National Infrastructure reports to the Home Office and is accountable to the director general of the Security Service.

Lord Ashcroft

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office on which dates her Department passed material to the Information Commissioner in connection with the Freedom of Information request lodged by the hon. Member for Pendle pertaining to Lord Ashcroft. [293198]

Tessa Jowell: I refer the hon. Member to the replies I gave him on 14 July 2009, *Official Report,* columns 340-41W and 15 July 2009, *Official Report,* column 462W.

Performing Arts

Mr. Hurd: To ask the Minister for the Cabinet Office what guidance her Department has issued to *(a)* executive agencies and *(b)* non-departmental public bodies on the hiring from public funds of celebrities for (i) endorsement and (ii) other marketing purposes. [292096]

Tessa Jowell *[holding answer 12 October 2009]:* The Cabinet Office has not issued guidance to *(a)* executive agencies and *(b)* non-departmental public bodies on the hiring of celebrities using public funds for (i) endorsement and (ii) other marketing purposes.

Government Departments, their agencies and NDPBs decide their own communication priorities and will seek to make use of the most effective and cost efficient techniques to achieve their communications objectives. The use of personalities is one such approach which can help engage people extremely effectively.

All Government communications activities are subject to strict propriety guidance, which, along with relevant codes of conduct and guidance, define how public servants can properly, efficiently and effectively present government policies and programmes.

Teenage Pregnancy

Tim Loughton: To ask the Minister for the Cabinet Office how many maternities of mothers aged under 20 years there were in each constituency in England in each year since 1997. [294606]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many maternities of mothers aged under 20 years there were in each constituency in England in each year since 1997. (294606)

The table provides the number of maternities among women under the age of 20 years for each parliamentary constituency in England, for 1997 to 2007 (the most recent year for which figures are available). A copy of the table has been placed in the House of Commons Library.

Telephone Services

Mark Williams: To ask the Minister for the Cabinet Office what the Government's policy is on call charges by Government Departments for hon. Members for use of a telephone hotline on behalf of their constituents; and if she will make a statement. [292831]

Angela E. Smith: There are currently no plans to consider special charging arrangements for Members of Parliament calling government service providers on behalf of constituents.

Unemployment: Chelmsford

Mr. Burns: To ask the Minister for the Cabinet Office (1) how many people aged between 16 and 24 years in *(a)* Chelmsford local authority area and *(b)* West Chelmsford constituency had been unemployed for over (i) six and (ii) 12 months in each of the last six months; [294057]

(2) how many people aged between 16 and 24 years in *(a)* Chelmsford local authority area and *(b)* West Chelmsford constituency were unemployed in (i) May 1997 and (ii) each of the last six months for which figures are available. [294058]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how many people aged between 16 and 24 years in (a) Chelmsford local authority area and (b) West Chelmsford Parliamentary constituency have been unemployed for over (i) six and (ii) 12 months in each of the last six months; and how many people aged between 16 and 24 years in (a) Chelmsford local authority area and (b) West Chelmsford Parliamentary constituency were unemployed in (i) May 1997 and (ii) each of the last six months for which figures are available. (294057 & 294058)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

However, estimates of unemployment for the requested age bands and geographies are not available. As an alternative, in Table 1 we have provided the number of persons, aged 16 to 24, claiming Jobseeker's Allowance, in the requested geographies, for (a) over 6 months and (b) over 12 months in September 2009 and the previous 5 months. Table 2 contains the number of persons aged 16 to 24 claiming Jobseeker's Allowance in the requested geographies for (a) May 1997 and (b) September 2009 and the previous 5 months.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk.

Table 1: Number of people aged 16 to 24 claiming Jobseeker's Allowance in Chelmsford Local Authority and West Chelmsford Parliamentary constituency for over 6 months and 12 months.

	Chelmsford		*West Chelmsford*	
Date	*over six months*	*over12 months*	*over six months*	*over12 months*
April 2009	115	5	85	5
May 2009	130	10	100	5
June 2009	155	10	115	5
July 2009	145	10	105	10

BUSINESS, INNOVATION AND SKILLS

Gangmasters: Telephone Services

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what mechanism exists for his Department's Pay and Work Rights telephone helpline service to work in conjunction with the Gangmasters Licensing Authority. [293761]

Mr. McFadden: The Gangmasters Licensing Authority (GLA) was closely involved in the design and set-up of the Pay and Work Rights helpline, and relevant cases are automatically referred through to them. The GLA is a member of the Fair Employment Enforcement Board and involved in several other joint-working bodies supporting the helpline and related campaign.

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what steps he has taken to publicise his Department's Pay and Work Rights telephone helpline service to vulnerable workers, including those employed by gangmasters. [293762]

Mr. McFadden: On 22 September 2009 BIS launched a £2.5 million awareness raising campaign aimed at promoting the Pay and Work Rights Helpline to vulnerable workers and employers. This includes communications in national press, radio, leaflets, online, and face-to-face activity. Areas covered by the GLA have been included in this messaging and a specific element aimed at gangmasters and their workers is planned.

Higher Education: Admissions

John Battle: To ask the Minister of State, Department for Business, Innovation and Skills how many school students from Leeds West constituency entered higher education in the academic year 2008-09. [294020]

Mr. Lammy: It is not possible to identify whether entrants to higher education from Leeds West constituency attended schools or further education colleges. The number of 18 and 19-year-old undergraduate entrants from Leeds West constituency is given as an alternative.

The latest information from the Higher Education Statistics Agency (HESA) shows that in the 2007-08 academic year there were 180 undergraduate entrants to higher education, aged 18 or 19, from Leeds West constituency.

Undergraduate entrants from Leeds West constituency are defined by full and valid home post codes recorded for the student in the HESA student record. Some of these students, although resident in Leeds West, may not have attended schools in Leeds West constituency.

Figures for the 2008-09 academic year will be available from HESA in January 2010.

Higher Education: Greater London

Lynne Featherstone: To ask the Minister of State, Department for Business, Innovation and Skills what percentage of school leavers from each London borough went on to begin a university course in each of the last five academic years; and if he will make a statement. [293047]

Mr. Lammy: The Department does not collect data on the number of school leavers, who are resident in a particular area, who do not go on to higher education. Therefore, it is not possible to calculate the percentage of school leavers from London boroughs who do go on to higher education.

It is not possible to identify whether entrants to higher education from London boroughs attended schools or further education colleges.

The numbers of 18-year-old undergraduate entrants to higher education from London local authorities, in each of the last five academic years, are shown as an alternative in the table.

Figures for the 2008/09 academic year will be available in January 2010.

Higher Education Statistics Agency (HESA).

Higher Education: Radicalism

Mrs. Iris Robinson: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to minimise the influence of extremist Islamic activists in universities. [293660]

Mr. Lammy: There is some evidence of extremist or radical groups or individuals operating on a handful of campuses. Where the problem occurs it is very serious but it is not widespread. As part of HMG's Prevent strategy, there are a range of activities taking place within universities to help them manage the risk of violent extremism or radicalisation taking place within their institutions.

1. In January 2008, the former Department for Innovation, Universities and Skills issued guidance to all universities in England setting out practical advice and guidance on how to increase cohesion on campus and manage the risk of violent extremism.

2. This guidance is now being followed up with targeted support from BIS officials and police colleagues to some universities which fall within Prevent funded local authority areas.

3. BIS are also funding a full time inter-faith and Prevent officer at the NUS to work specifically to raise awareness and undertake training of NUS staff and officers.

4. Funding is being given to the Association of Muslim Chaplains in Higher Education through the CLG Community Leadership Fund to help them increase their capacity to support Muslim Chaplains working in HE and enable to them to deliver more effective pastoral support for Muslim students.

Higher Education: Student Numbers

Jim Cousins: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* UK and *(b)* overseas students there were at each university in (i) 2004-05, (ii) 2007-08 and (iii) 2008-09. [293184]

Mr. Lammy: The numbers of UK and overseas students enrolled at UK higher education institutions in 2004-05 and 2007-08 are given in Table 1 and Table 2. Enrolment numbers for 2004-05 and 2007-08 may not be directly comparable due to institutions changing their names and/or merging.

Figures for the 2008/09 academic year will be available in January 2010.

Lord Truscott

Greg Clark: To ask the Minister of State, Department for Business, Innovation and Skills if he will place in the Library a copy of the minutes of each meeting held between officials in his Department and Lord Truscott since the latter ceased to be a Government Minister. [256917]

Mr. McFadden: During the passage of the Energy Bill, officials from the Energy Bill Management Team in BERR met with a range of Peers and other interested stakeholders to answer questions and clarify the policy in the Bill. This included one meeting on 22 July with Lord Truscott. There are no minutes but I have placed information concerning the meeting in the Library, including correspondence between Lord Truscott's researcher and officials from the Department seeking clarification on some of the discussion points at the meeting.

Low Carbon Industrial Strategy

Mr. Dai Davies: To ask the Minister of State, Department for Business, Innovation and Skills for what reasons copies of the Low Carbon Industrial Strategy were not placed in the Vote Office after publication on 15 July 2009. [288596]

Mr. McFadden: Around 30 copies of the Department's report "The UK Low Carbon Industrial Strategy" were placed in the Vote Office on the morning of its publication. Unfortunately, demand for the report exceeded the number of copies available and there was a delay in obtaining additional copies for the Vote Office. I am sorry that some hon. Members were inconvenienced by being unable to get a copy from the Vote Office. The report was placed in the Library on the morning of its publication, however, and it was also available on the Department's internet site, as indicated in the written ministerial statement.

National Endowment for Science, Technology and the Arts: Finance

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills what the *(a)* income and *(b)* expenditure of the National Endowment for Science, Technology and the Arts was in each of the last three financial years. [293009]

Mr. Lammy *[holding answer 14 October 2009]:* The income and expenditure for the National Endowment for Science, Technology and the Arts (NESTA) in the last three financial years was as follows:

		£000
	Income	*Expenditure*
2006/07	21,987	20,531
2007/08	35,574	31,571
2008/09	29,969	25,496

This information can be found in NESTA's annual report and accounts for each year, which are available in the Library.

National Endowment for Science, Technology and the Arts: Party Conferences

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills whether the National Endowment for Science, Technology and the Arts sought approval from his Department to attend the party political conferences in 2009. [292946]

Mr. Lammy *[holding answer 14 October 2009]:* In accordance with Cabinet Office Guidance, the National Endowment for Science, Technology and the Arts (NESTA) sought and obtained permission from the Department for Business, Innovation and Skills, its sponsor department.

Mr. Don Foster: To ask the Minister of State, Department for Business, Innovation and Skills what costs were incurred by the National Endowment for Science, Technology and the Arts in attending the *(a)* Liberal Democrat, *(b)* Labour, *(c)* Conservative and *(d)* Scottish National Party conference in 2009. [292947]

Mr. Lammy *[holding answer 14 October 2009]:* NESTA incurred the following expenditure from attending party conferences in 2009:

	£
Liberal Democrats	3,598
Labour	13,436
Conservative	13,400
SNP	8,294

Post Offices

Mr. Charles Kennedy: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions he has had with Post Office Ltd on the future of the Network Change programme; and if he will make a statement. [293883]

Mr. McFadden: I am in regular contact with Post Office Ltd on a range of issues relating to the network.

The Network Change programme is now completed with the exception of three branches which will be replaced by Outreach services during the autumn. 93.3 per cent. of the total UK population remain within one mile of their nearest post office outlet.

Post Office Ltd is on course to achieve the expected cost-savings as a result of the programme, as part of an overall plan to reduce its costs by £270 million per annum, by 2010-11.

The level of customer business migrating from post offices which have closed under the programme to the remaining branches in the network is above target at 88 per cent.

Public Bodies: Finance

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what the return profit from the National Endowment for Science, Technology and the Arts' portfolio of investments was in each year since 1998. [292123]

Mr. Lammy *[holding answer 12 October 2009]:* The National Endowment for Science, Technology and the Arts (NESTA) received the following returns from investing its endowment:

	£ million
1998-99	8.37
1999-2000	11.80
2000-01	12.85
2001-02	9.66
2002-03	9.39
2003-04	9.76
2004-05	13.40
2005-06	13.75
2006-07	9.26
2007-08	22.46
2008-09	14.27

These figures are exclusive of bank interest received and are lower than the figures quoted in NESTA's annual reports and accounts for each year, which are available in the House of Commons Library.

Royal Mail: Industrial Disputes

Mr. Gordon Prentice: To ask the Minister of State, Department for Business, Innovation and Skills if he will make an assessment of the merits of the proposal by the Communication Workers Union that the dispute with the Royal Mail be resolved with third party mediation; and if he will make a statement. [293540]

Mr. McFadden *[holding answer 16 October 2009]:* I have been in close contact with the unions and management and have made it clear that strikes are not the way to resolve differences or safeguard the future of our postal service.

It is of course for the disputing parties to consider and agree to third party mediation.

Students: Nationality

Mrs. Iris Robinson: To ask the Minister of State, Department for Business, Innovation and Skills how many students on university courses were *(a)* UK nationals, *(b)* Republic of Ireland nationals and *(c)* foreign nationals other than from the Republic of Ireland in the 2008-09 academic year. [293659]

Mr. Lammy: Figures on total enrolments in UK higher education institutions (HEIs) for 2008/09 will not be available until January 2010. The information in the table below relates to the latest available year, 2007/08.

Total enrolments in higher education courses at UK HEIs by domicile[1], 2007/08

Domicile	*Number*
UK	1,964,315
Republic of Ireland	15,260
Overseas excluding Ireland	326,530
Total	2,306,105

[1] 'Domicile' refers to a student's home domicile prior to enrolling on their course.

Note:

Figures are rounded to nearest five.

Higher Education Statistics Agency (HESA)

ENERGY AND CLIMATE CHANGE

Carbon Reduction Commitment

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what assessment he has made of the effectiveness of the projected emissions savings of 1.2 million tonnes of carbon per year by 2020 under the Carbon Reduction Commitment in the achievement of the target to reduce greenhouse gas emissions by 32 per cent. on 1990 levels by 2020. [294070]

Joan Ruddock: Initial modelling indicated that at least 0.9MtC (3.2MtCO$_2$e) pa. of cost-effective savings are available through the CRC alone, while synergies with other measures such as the Energy Performance Buildings Directive and decarbonisation of the electricity supply within this sector can contribute to additional savings up to 1.2MtC (4.4MtCO$_2$e). However the final savings from the CRC will be determined by the emissions cap. DECC and the Committee on Climate Change are undertaking further analysis to determine the appropriate level of the cap, taking into account our carbon budget targets.

We intend to announce the potential savings available in 2011 and the actual cap in 2012.

Carbon Reduction Commitment: Local Government

Mrs. Spelman: To ask the Secretary of State for Energy and Climate Change what the base year is for carbon dioxide emissions for local authorities under the Carbon Reduction Commitment scheme. [293372]

Joan Ruddock: All participants' position in the CRC Energy Efficiency Scheme league table will primarily be determined by their average annual emissions over the preceding five years of the scheme, or since the start of the scheme, whichever is the shorter period.

Climate Change

Mr. Weir: To ask the Secretary of State for Energy and Climate Change on how many occasions Ministers from Scotland, Wales or Northern Ireland's devolved Administrations have been included in the UK delegation to UN framework convention on climate change conferences since 1999. [293424]

Joan Ruddock: Ministers from the devolved Administrations have never been included on the UK delegation to the Conference of the Parties to the UNFCCC.

The Scottish Executive has been represented by either one or two officials on the UK delegation every year since 1999, but where Ministers from the devolved Administrations have attended, this has always been on other delegations. For example, in 2007 a Scottish Minister participated as a member of the Climate Group delegation.

Committee on Climate Change

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change for what reasons the Committee on Climate Change's first annual report to Parliament was not available in the Vote Office to hon. Members on its day of publication or the following day; and what steps he has taken to ensure that future such reports are available to hon. Members on publication. [293936]

Joan Ruddock: The delay in making the Committee on Climate Change's (CCC) first annual report available in the Vote Office was the result of the CCC not being fully aware of the requirements. The annual report was laid in both Houses on 12 October as required, but the CCC did not make copies available to both Houses through the Vote and Printed Paper Offices. When alerted to the need to do this, the CCC did send copies to both Houses on 14 October.

The CCC regrets this oversight and has advised the Department that they have put in place steps to avoid it being repeated.

Electricity

Mr. Gray: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to encourage the Distribution Network Operators to meet climate change targets. [293870]

Joan Ruddock: Distribution Network Operators (DNOs) will play an important role in a range of measures DECC is taking to meet climate change targets. DECC is working with Ofgem to review the regulatory framework governing networks and ensure DNOs support our targets, including through the current price control review. DECC is also working with Ofgem to encourage more innovation in the grid through the low carbon network fund and through direct engagement with DNOs on smart grids.

Energy: Conservation

Mr. Gray: To ask the Secretary of State for Energy and Climate Change what targets his Department has for the reduction of end-user energy consumption. [293868]

Joan Ruddock: Across the whole economy reducing end-use energy consumption through increased efficiency is a crucial part of our strategy to meet emissions reduction targets.

In the short-term we have targets to increase the energy efficiency of housing by at least 20 per cent. from a 2000 baseline and to cut annual residential carbon emissions by 3.5MtC (12.8MtCO_2) by 2010 from a 1990 baseline. We are on track to meet both of these targets.

In the longer term, the recently published UK Low Carbon Transition Plan sets out our ambitious plans for increasing efficiency and reducing emissions to meet our emissions targets under the framework of carbon budgets. We expect policies driving energy efficiency and the provision of low carbon energy, will reduce emissions from homes by 29 per cent. and from workplaces by 12 per cent. by 2022.

Mr. Gray: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to reduce end-user energy consumption. [293869]

Joan Ruddock: The Heat and Energy Saving Strategy (HESS) consultation published in February and consolidated by the UK Low Carbon Transition Plan published in July, set out the steps we are taking to reduce energy consumption and emissions in the UK. These include:

building on existing commitment to make all new homes and non-domestic buildings zero carbon by 2016 and 2019 respectively

our aim for smart meters to be rolled-out to all domestic customers by the end of 2020

and new initiatives to incentivise low carbon energy generation; Feed in Tariffs for electricity and the Renewable Heat Incentive available from 2010 and 2011 respectively

The Carbon Emissions Reduction Target (CERT) is the principal driver of energy efficiency improvements in existing homes in Great Britain. We have recently increased the target suppliers must deliver by an additional 20 per cent. to save 185 million tonnes of CO_2. In addition we intend to extend this scheme for a further 21 months from the current end in April 2011 out to the end of 2012 delivering more benefits.

We also recently launched the Community Energy Saving Programme (CESP) trialling the delivery of energy efficiency measures following a house-by-house, street-by-street approach, and focusing on low income communities.

In the non-domestic sector, the Carbon Reduction Commitment Energy Efficiency Scheme (CRCEES) is a new energy efficiency scheme that will be introduced in April 2010. It aims to reduce energy consumption in the business and public sector workplaces through both behaviour and infrastructure change. The CRC will build on the existing Climate Change Levy (CCL) and Climate Change Agreements (CCAs) which encourage businesses to use energy more efficiently and reducing their emissions.

Nuclear Generation Sites

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what analysis the Government has conducted of the effects of *(a)* sea level rises and *(b)* storm surges on present and planned civil nuclear generation sites over the next (i) 100, (ii) 200 and (iii) 300 years; and if he will make a statement. [294036]

Mr. Kidney *[holding answer 19 October 2009]*: Ensuring the safety of existing nuclear power stations from sea level rise and flood risk (including storm surge) is carried out by the site operators, overseen by the Nuclear Installations Inspectorate (NII).

The nuclear licensing regime enforced by the NII requires existing site operators to ensure their sites are safe against sea level rise and storm surge throughout the life of the nuclear power stations, including during decommissioning. As a condition of each nuclear site licence the operator must review the site safety case at regular intervals (typically on a 10 year basis), taking account of the most recent climate change projections and to make any necessary modifications to flood defences and operating arrangements.

For new nuclear power stations the Government is running a Strategic Siting Assessment (SSA) to identify sites that are potentially suitable for deployment by 2025. The government response to the consultation on the SSA criteria and process

http://www.berr.gov.uk/files/file49865.pdf

outlined that nominated sites would be assessed against their capacity to be protected against flood risk, tsunami and storm surge throughout its lifetime, including the potential effects of climate change, allowing for the safe and secure storage of all the spent fuel and intermediate level waste produced from operation and decommissioning until it can be sent for final disposal in a geological disposal facility (GDF). The nominations are available at:

www.nuclearpowersiting.gov.uk

The SSA will look at the capacity of nominated sites to withstand flood risk and storm surge to 2100 using climate change modelling data from UK Climate Projections 09 (UKCP09).

Predictions of potential climate change impacts become less certain the further into the future the assessments are for, and it is not practicable to consider for existing or potential stations beyond 2100 at this stage. However, the SSA assessment will also consider the adaptability of the proposed flood protection mechanism to changes in the demand to give confidence that if the current predictions are revised, modifications to the defences are practicable, and as set out above all licensed stations are subject to periodic review which takes the most recent climate change projections into account.

Written Answers to Questions

Wednesday 21 October 2009

ELECTORAL COMMISSION COMMITTEE

Elections: Investigations

Mr. Pickles: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission what the average length of an investigation by the Electoral Commission has been since the Commission's establishment. [294338]

Mr. Streeter: The Electoral Commission informs me that in April 2008, it introduced a three stage approach to handling potential breaches of the party and election finance laws. First, it conducts an initial assessment using set criteria to determine whether the matter should become casework. Second, the vast majority of matters that become casework are dealt with as 'case reviews'. Finally, a small number of cases, where the matter is more complex, or may involve the use of statutory powers, are dealt with as 'investigations'.

Between 1 April 2008 and 16 October 2009, the Commission assessed 155 potential cases. Over that period, initial assessments were completed in an average of 11 days against a seven day target. The Commission has met the seven day target for matters assessed since July 2009. It also conducted 49 case reviews, which were completed in an average of 69 days against a target of 90 days. The Commission undertook two investigations, which averaged 386 days, against a target of completing 90 per cent. of investigations within 180 days.

CULTURE, MEDIA AND SPORT

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on overnight accommodation for *(a)* Ministers and *(b)* officials while overseas in each of the last three years. [294687]

Mr. Sutcliffe: All travel is conducted in accordance with the requirements of the Ministerial Code, Travel by Ministers and the Civil Service Management Code.

Expenditure on hotel and other privately provided accommodation is not held separately or by categories requested on the Department's accounting system. This information can be obtained only at disproportionate cost.

Information relating to overseas travel by Ministers is published on an annual basis by the Cabinet Office. It can be found at the following web link:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Gun Sports: Finance

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how much funding Sport England has provided for training of *(a)* pistol shooters and *(b)* shooters of other weapons in the last 12 months. [294717]

Mr. Sutcliffe: Sport England advise that over the past 12 months they have awarded the English Target Shooting Federation (ETSF) £194,726 in funding. This funding forms part of a wider £343,000 award made to the ETSF in 2007 to support the English shooting team at the 2010 Commonwealth Games.

The award is paid over three years from 2007 until 2010 and relates to the rifle, pistol, shotgun and full bore disciplines. It supports coaching, sport science training camps, athlete personal awards, warm weather training and general support costs.

The proportion of the award that is used to fund pistol shooting is an issue which is determined by the ETSF rather than Sport England.

Licensing Act 2003

Mr. Heald: To ask the Secretary of State for Culture, Media and Sport (1) if he will consider the introduction of a more flexible time limit for the granting of temporary event notices under the Licensing Act 2003; [294470]

(2) what estimate he has made of the number of voluntary organisations which did not submit temporary event notice applications under the Licensing Act 2003 within the 10 day time limit in the last 12 month period for which figures are available; [294471]

(3) if he will consider the merits of amending the Licensing Act 2003 to allow a temporary event notice to be granted when the required period of notice has not been given, subject to terms and conditions. [294472]

Mr. Sutcliffe: The Department for Culture, Media and Sport is indeed willing to consider the introduction of some flexibility on the period of notice required for a temporary event notice (TEN) under the Licensing Act 2003. We are currently developing a proposal, in discussion with a group of stakeholders, that would give the police discretion to validate a TEN for an event that they consider to be low-risk when that TEN was otherwise invalid because it was issued without the minimum notice. We hope to commence a three-month consultation on this proposal, along with other simplification proposals, before the end of the year.

We do not hold figures on the number of voluntary organisations that did not submit TENs within the 10 day time limit. However, the consultation will include an impact assessment containing a broad estimate of the number of events that may be affected by the proposed change, and the estimated economic impact. The consultation will invite comment on these estimates.

National Lottery: Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much each of the National Lottery distributors spent on *(a)* surveys and *(b)* Government relations in (i) 2006-07, (ii) 2007-08 and *(c)* 2008-09. [294733]

Mr. Simon: The information requested is not held centrally, and to collect this would incur disproportionate cost.

National Lottery: Manpower

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent staff each National Lottery distributor employs. [294734]

Mr. Simon: Staff numbers are provided in each Distributor's Annual Report and Accounts, copies of which are available in the Library.

Olympic Games: Gun Sports

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether there are plans to allow the British Olympic shooting team to train at Bisley. [294718]

Mr. Sutcliffe: Bisley has been identified by London Organising Committee of the Olympic Games as a pre-games training camp for London 2012 shooting and is already used by the British shooting squad in the rifle and shotgun disciplines. Decisions on the British Olympic shooting team will not take place until a few months before the London 2012 games and their use of the facilities at Bisley will be determined by the national governing body of the sport.

Party Conferences

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many of his Department's sponsored bodies attended party political conferences in 2009; and how much they spent at the *(a)* Liberal Democrat, *(b)* Labour and *(c)* Conservative party conferences. [292948]

Mr. Sutcliffe *[holding answer 14 October 2009]:* This information is not held centrally and to provide it would incur disproportionate cost.

Sports: Public Participation

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on its *(a)* Active People Survey 1 and *(b)* Active People Survey 2. [294732]

Mr. Sutcliffe: The Active People Surveys were delivered and funded by Sport England. The cost of Active People Survey 1 was £5,538,145. The cost of Active People Survey 2 was £3,152,272. DCMS provided a financial contribution of £885,274 to Active People Survey 2.

CHURCH COMMISSIONERS

Church Commissioners: Land

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many acres of the Church Commissioners' strategic land portfolio are *(a)* in the UK and *(b)* overseas. [294163]

Sir Stuart Bell: This portfolio contains 4,089 acres, all in the UK.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what acreage of land has comprised the Church Commissioners' strategic land portfolio in each of the last five years. [294164]

Sir Stuart Bell: The strategic portfolio has only been split from the rural portfolio over the past two years. It comprised 3,287 acres at the end of 2007 and 3,640 acres at the end of 2008.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how much of the Church Commissioners' assets were held in their strategic land portfolio *(a)* in the UK and *(b)* overseas in each of the last five years. [294166]

Sir Stuart Bell: 2.5 per cent. at the end of 2007 and 1.8 per cent. at the end of 2008, all in the UK.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what the policy of the Church Commissioners is on the use of land which is owned by them for the production of food. [294170]

Sir Stuart Bell: The Commissioners' farm land is let to tenants on Agricultural Holdings Act 1986 Tenancies and Farm Business Tenancies.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many acres of the Church Commissioners' rural let land portfolio has been transferred to their rural strategic land portfolio in each of the last five years. [294171]

Sir Stuart Bell: 349 acres were transferred in 2008 and 514 acres have been transferred in 2009.

Publications

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners pursuant to the answer of 5 July 2009, *Official Report*, column 326W, on Lambeth Palace, if he will place in the Library a copy of the Church Commissioners' policy on the publication of information. [294477]

Sir Stuart Bell: The Commissioners do not have a formal policy document on the publication of housing costs. Total see house costs are published but, given the range of property types and given that the majority of costs are incurred during a vacancy, we do not publish expenditure on individual houses.

Register of Interests

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will place in the Library a copy of the register of interests of members of the Church Commissioners' Assets Committee. [294306]

Sir Stuart Bell: The Commissioners make the Register available for inspection on their premises by Members of Parliament and others upon request. I am pleased to invite the hon. Gentleman to make an appointment to come to Church House and inspect the Register.

TRANSPORT

Dartford-Thurrock Crossing

James Brokenshire: To ask the Minister of State, Department for Transport what estimate he has made of the sale value of the Dartford River Crossing; and what assumptions he made in relation to *(a)* the level of tolls charged, *(b)* vehicle movements and *(c)* other factors in making that estimate. [294222]

Mr. Khan: No estimate of the saleable value of the Dartford River Crossing has been made. Any such valuation would depend on the nature of any commercial agreements for a sale, including, but not exclusively, the length of those arrangements, the level of future charges and forecast future traffic volumes. The assumptions made around those issues are the same as those which would be made for normal business planning purposes.

Departmental Advertising

Dr. Cable: To ask the Minister of State, Department for Transport on which initiatives of his Department and its agencies expenditure on advertising has been incurred in each of the last five years; how much was spent on each such initiative; and which such initiatives were offered for tender through the Central Office of Information. [292530]

Chris Mole: Expenditure for the Department for Transport's advertising campaigns from the 2004-05 fiscal year is in the following table. The majority of campaign advertising investment by the Department is in support of the THINK! road safety and the Act on CO2 campaigns. Major advertising investment by Executive Agencies has been by the Driver and Vehicle Licensing Agency, for the sale of marks, vehicle excise duty enforcement and electronic vehicle licensing.

£

Organisation	*Campaign*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*

---

[1] Procured via The Central Office of Information.

Departmental Information and Communications Technology

Justine Greening: To ask the Minister of State, Department for Transport what IT systems have been in development for use within his Department in the last five years; what the reason for the development of each system was; how much has been spent on the development of each system; and which systems have been subsequently *(a)* implemented, *(b)* terminated prior to implementation and *(c)* terminated following implementation. [290587]

Chris Mole: No central records are kept showing all ICT systems, and such a list could only be provided at disproportionate cost. However, tables showing the main systems for the Department for Transport (Central) and its Agencies have been placed in the Libraries of the House.

Departmental Internet

Justine Greening: To ask the Minister of State, Department for Transport what estimate his Department has made of the annual cost of maintaining and updating its Twitter account; and how many staff are responsible for updating the account. [292051]

Chris Mole: There have been no additional costs to date for the creation and maintenance of the Department for Transport corporate Twitter channel:

http://www.twitter.com/transportgovuk

No additional staff have been recruited and maintenance of the Twitter channel is being managed within the existing communications budget. The task is the responsibility of the departmental communications team as a whole as part of their overall range of duties; no staff are assigned to Twitter work specifically.

Driver and Vehicle Licensing Authority: Advertising

Mr. Greg Knight: To ask the Minister of State, Department for Transport if he will review the extent of the need for the Driver and Vehicle Licensing Agency to advertise its services on the radio. [294144]

Paul Clark: Radio commercials allow for detailed targeted messages at an affordable cost and the Department of Transport has had a good deal of success with radio campaigns. For example, since the start of the recent promotion of the Driver Licence online service campaign, there has been an approximate increase of 25 per cent. on licences issued online.

Radio can reach more people at a lower price than television advertising, with, therefore an increased return on investment.

A review of the extent of this advertising is not considered necessary at this time.

East Cost Railway Line

Norman Baker: To ask the Minister of State, Department for Transport how many new diesel trains the Secretary of State intends to procure for the new company issuing services on the East Coast Main Line; and when the *(a)* first and *(b)* last of these orders are likely to be (i) placed and (ii) delivered. [294049]

Chris Mole *[holding answer 19 October 2009]:* The Department for Transport does not intend to procure any diesel trains for services on the East Coast Main Line.

However, as part of the Intercity Express Programme, the Department is procuring new electric and bi-mode (electric and diesel) Super Express Trains to operate services on the East Coast and the Great Western Main Line from 2014.

This follows the electrification announcement by the Secretary of State in July 2009. Bi-mode trains utilise the electric wires where available and continue beyond the wires using the diesel engine. An announcement on the placing of orders for Super Express Trains will be made in due course.

Party Conferences

Mr. Don Foster: To ask the Minister of State, Department for Transport whether any of his Department's non-departmental public bodies sent representatives to attend one or more political party conferences in 2009. [293478]

Chris Mole: One of the Department for Transport's non-departmental public bodies, Passenger Focus, sent representatives to the Labour, Liberal Democrat and Conservative party conferences in 2009.

Railways: Birmingham

Mr. Jim Cunningham: To ask the Minister of State, Department for Transport what recent representations his Department has received on proposals for a high-speed rail hub at Birmingham International Airport. [293638]

Chris Mole *[holding answer 20 October 2009]:* Since the creation of High Speed Two, the Department for Transport has received two specific written representations with "High speed rail hub at Birmingham International Airport" as a subject heading. The Department receives general correspondence covering many policy areas, including high speed rail and the cities it may serve, from a number of individuals, organisations and companies.

High Speed Two's work will include consideration of a range of route options between London and the West Midlands, as well as the access to central London and the other cities served.

Road Signs and Markings

Mr. Greg Knight: To ask the Minister of State, Department for Transport when blue driver location signs were introduced by his Department; how many have been installed on the road network to date; and at what cost to the public purse. [294145]

Chris Mole: For more than 30 years, distance marker posts have been provided at 100 metre intervals along each hard shoulder of motorways. Marker posts enable maintenance contractors to identify exactly where repair works are needed. They also show the direction to the nearest motorway emergency phone.

Driver Location Signs were introduced in 2003 and approximately 16,000 signs have been installed on 80 per cent. of the motorway network at a cost of £5.9 million. During 2009-10 signs are being installed on the remaining parts of the Motorway Network at an additional cost of £1.6 million.

Driver Location Signs are more visible to the travelling public and this enables:

Motorists to quickly identify their location.

Emergency Services to get to incident scenes more quickly due to them receiving more accurate incident location information.

Research carried out on trial sections showed that response times of emergency service organisations were 10 per cent. quicker than previous responses to similar incidents. Getting the emergency services to the scene of an incident more efficiently ultimately leads to incidents being cleared more quickly.

Waterloo Station

Susan Kramer: To ask the Minister of State, Department for Transport what progress has been made on negotiations for franchise commuter train services arriving at and departing from at platform 20 at London Waterloo station; and when he expects those negotiations to be concluded. [289499]

Chris Mole: We are working with Network Rail to extend platforms at Waterloo station and across the whole south western network to increase capacity on some suburban routes from eight to ten carriage trains by 2014.

As part of this, we are investigating how Waterloo and Waterloo International Terminal platforms 20 to 24 can be used to help increase capacity on the network. Work has been carried out on platform 20 and option development work is now progressing on other platforms and enhancing the tracks outside the station to support the increase in capacity.

The Department for Transport is in discussion with Stagecoach South West Trains with regard to additional rolling stock and service enhancements for operating longer trains into Waterloo that are value for money and affordable for the taxpayer.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many single farm payment cheques were issued by the Rural Payments Agency for amounts less than *(a)* £60, *(b)* £40, *(c)* £20, *(d)* £10 and *(e)* £1 in (i) 2006, (ii) 2007 and (iii) 2009. [291921]

Jim Fitzpatrick: The number of single payment scheme (SPS) cheque payments issued by the Rural Payments Agency (RPA) for the bands and scheme years specified in the question are as follows:

	Number of payments		
Band	*SPS 2006*	*SPS 2007*	*SPS 2008*[1]
£40.01-£60.00	2,417	807	299
£20.01-£40.00	1,861	492	122
£10.01-£20.00	546	69	14
£1.01-£10.00	80	14	3
£0.01-£1.00	2	6	3

[1] A change in EU Regulations meant that RPA stopped making payments by cheque on 15 October 2008. All payments are now made via BACS.

Payment for the 2009 SPS scheme year commences on 1 December.

Bovine Tuberculosis: Disease Control

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs at how many premises registered to house *(a)* cattle and *(b)* camelids his officials have been refused entry for the purpose of bovine tuberculosis (i) testing, (ii) tracing and (iii) following up of confirmed disease in each of the last 10 years. [293639]

Jim Fitzpatrick: DEFRA does not hold figures on the number of people who have refused entry to officials for the purpose of TB testing (including tracing tests).

Movement Restrictions are placed on any farms which refuse to comply when cattle testing is overdue.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to his Department and its predecessor of *(a)* research into bovine tuberculosis, *(b)* support from (i) local authority health officers and (ii) the Veterinary Laboratories Agency in respect of bovine tuberculosis and (c) any other support provided in respect of bovine tuberculosis (A) between 1986 and 1996 and (B) since 1997. [293640]

Jim Fitzpatrick: The information is as follows.

Research

The table provides a summary of TB research cost to the Department from 1998 to 2008-09 and the amount spent on the surveillance contract with the Veterinary Laboratories Agency (VLA) and on the Randomised Badger Culling Trial (RBCT).

TB expenditure on research between 1998 and 2009 (GB)

£ million

	RBCT[1]	*VLA*[2]	*Other research*
1998-99	2.9	1.9	2.5
1999-2000	4.6	2.4	3.8
2000-01	6.6	3.5	5.3
2001-02	6	3.7	6.1
2002-03	6.6	4.1	6.5
2003-04	7.3	5.3	7

TB expenditure on research between 1998 and 2009 (GB)

£ million

	RBCT[1]	*VLA*[2]	*Other research*
2004-05	7.2	4.9	5.7
2005-06	6.2	7.5	6.5
2006-07	1.6	7.5	7.8
2007-08	0.03	7	8.5
2008-09	0	5.9	7.7

[1] Figure does not include research into culling methods or the badger population survey (£709,400 in 2005-06 and £834,700 in 2006-07).

[2] Surveillance activity undertaken by the Veterinary Laboratory Agency (VLA) includes all DEFRA funded work carried out by the VLA relating to TB in cattle and badgers including the supply of Tuberculin.

Note:

All financial data are actual expenditure only which have been incurred in the specified financial year.

A finance review of all bTB expenditure and income in the last 10 years has recently been undertaken. The review has validated all data associated with bovine Tuberculosis expenditure to improve the quality of data provided. As such the table above has been amended to reflect the outcome of the review. This is also available on the DEFRA website.

We are unable to provide figures prior to 1998.

Council health officers and VLA

DEFRA does not receive financial support from local council health officers or the Veterinary Laboratories Agency in respect of bovine tuberculosis, however we are committed to tackling this disease in partnership with all DEFRA's delivery bodies and the local authorities.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration he has given to bringing *(a)* camelids, *(b)* sheep, *(c)* goats and *(d)* pigs within the scope of the regulatory regime for control of tuberculosis in England. [293677]

Jim Fitzpatrick: DEFRA takes TB in all species, not just cattle, seriously and is committed to dealing with it. Existing legal provisions do allow DEFRA to restrict movements to and from any herd/flock of farmed (mammalian) species suspected of being infected by bovine tuberculosis—so as to reduce the risk of disease spread. In resolving TB problems in such species, DEFRA relies on the co-operation of animal owners to agree testing, slaughter and compensation arrangements.

A review to identify possible new controls that might help better control TB risks to/from non-bovine species is in hand. Any new policy would need to be effective, affordable and proportionate to the animal and public health risks.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of average payment per head to abattoirs for the dispatch of bovine tuberculosis reactor, inconclusive or dangerous contact cattle *(a)* between 1986 and 1996 and *(b)* since 1997. [293799]

Jim Fitzpatrick: No such estimate has been made. For most cattle compulsorily slaughtered on TB control grounds, DEFRA has received a net payment from abattoirs rather than incurred a cost.

Meat Hygiene Service officials inspect carcasses of such cattle when slaughtered in licensed abattoirs, a small proportion of TB affected cattle are condemned as unfit for human consumption e.g. if TB lesions are identified in more than one part of the carcase. In such cases DEFRA does makes a payment to the abattoir to cover its disposal costs. It is not possible to provide details of slaughter costs in the form requested: typically an abattoir will receive batches of cattle being slaughtered on disease control grounds rather than single animals—if one (or more) of these animals is condemned, the cost to DEFRA will be offset by the total salvage value received from those passed as fit for human consumption.

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle have been slaughtered as bovine tuberculosis reactors, inconclusives or dangerous contacts in each financial year since 1986. [293800]

Jim Fitzpatrick: The following table provides the number of cattle slaughtered in England as bovine tuberculosis reactors, inconclusive reactors and direct contacts. Data for these three categories of reactors are available in calendar years for 1998 to 2008.

I am unable to provide data for TB reactors, inconclusives or direct contacts before 1998.

	Reactors slaughtered	*Inconclusive reactors slaughtered*	*Direct contact reactors slaughtered*	*Total animals slaughtered under Bovine TB measures*
2008	26,038	487	930	27,455
2007	18,543	444	807	19,794
2006	14,585	361	1,061	16,007
2005	20,145	413	2,577	23,135
2004	15,093	351	1,862	17,306
2003	15,120	454	1,977	17,551
2002	15,482	580	2,381	18,443
2001	3,804	154	480	4,438
2000	6,029	210	951	7,190
1999	5,929	250	863	7,042
1998	4,102	201	724	5,027

Note:

2008 data were downloaded from DEFRA's Animal Health database (Vetnet) on 2 March 2009.

2007-05 data were downloaded on 18 March 2008.

2004-1998 data were downloaded on 7 March 2006.

Bovine Tuberculosis: Vaccination

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable he has set for the bovine tuberculosis vaccination of badgers project; and what steps he has taken to encourage *(a)* farmers and *(b)* landowners to participate in the project. [293892]

Jim Fitzpatrick: The information requested is as follows.

Timetable

The Food and Environment Research Agency (Fera) has begun to sign up farmers in the selected areas to participate in the project, and contractors to carry out vaccination are being recruited though an EU tender. Vaccination will begin in summer 2010, when the vaccine is expected to be licensed, and will take place for at least five years in each area. Sign-up and vaccination in the areas will be phased in over two years to allow time to train contractors. A chart showing the phasing process will be placed in the Library shortly.

Encouraging farmers and landowners

Communication is an important part of the project. Following is an outline of our communications which are aimed at informing all stakeholders of the details of the project and encouraging participation.

> DEFRA and Fera held meetings earlier this year with local vets and key regional representatives to inform them and enable vets to talk to their clients about the project. We have established a regular newsletter to keep local vets, regional representatives and others up to date.
>
> An inquiries phoneline and e-mail address have been set up and publicised.
>
> A new website has been launched, which gives an opportunity for farmers to sign up.
>
> Literature has been produced. This literature is also being distributed to farmers through DEFRA's Livestock Market Roadshow this autumn.
>
> The project team have given a presentation on the project to farmers at one local veterinary practice meeting, with opportunity for sign-up and will be doing the same with at least one further practice.
>
> To encourage farmers to participate, Fera are writing to all cattle farmers within the selected areas to invite them to apply to take part in the project and to attend local meetings to find out more. The first of these meetings has been held.
>
> Articles have been published in DEFRA's magazine for farmers and another is planned for the new year.

Departmental Air Travel

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 February 2009, *Official Report*, columns 1810-11W, on departmental air travel, what the figures are for each entry in the table for which the abbreviation tbc was used. [287354]

Dan Norris: Responsibility for the provision of carbon offsetting data for Government Departments and other public sector bodies transferred to the Department for Energy and Climate Change (DECC) on its creation in October 2008. I refer the right hon. Member to information on the DECC website at:

> http://www.decc.gov.uk/en/content/cms/whatwedo/icuk/cosoffsetting/govdata/govdata.aspx

Departmental Billing

John Mason: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of invoices from suppliers his Department paid within 10 days of receipt in June 2009. [288915]

Dan Norris: The percentage of invoices from suppliers the core-Department paid within 10 days of receipt in June, July, August 2009 was 99.8 per cent., 99.8 per cent. and 100 per cent. respectively.

Departmental Manpower

John Mason: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff there were in *(a)* his Department's predecessor in 1997 and *(b)* his Department on the latest date for which figures are available. [292062]

Dan Norris: The information is as follows:

(a) DEFRA's predecessor departments in 1997 were the Ministry of Agriculture, Fisheries and Food (MAFF) and the Department of the Environment. The number of staff employed by each Government Department and Agency in 1997 has been published by Cabinet Office (Tables 1A-1D) and is available on-line:

> http://www.civilservice.gov.uk/Assets/css97_tcm6-2540.pdf

(b) The latest staffing figures are as at 30 June 2009 and are available at:

> http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899&Pos=&ColRank=1&Rank=422

DEFRA was created on 8 June 2001 from MAFF and approximately 650 staff from the Department of Environment, Transport and the Regions (DETR). On 3 October 2008, approximately 320 DEFRA staff transferred to the newly-created Department of Energy and Climate Change (DECC).

Departmental Non-Domestic Rates

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many properties owned by his Department were liable for payment of *(a)* business rates and *(b)* empty property rates in each of the last five years; and what the bill for each was in each such year. [290529]

Dan Norris: The information is in the following tables.

DEFRA Freehold rate liabilities for 2005-10

	Number of properties	*With a liability of (£)*
2005-06	32	3,301,468
2006-07	31	3,442,168
2007-08	40	5,408,038
2008-09	40	4,196,976
2009-10	35	4,442,386
Total		20,791,036

Empty property relief for 2005-10

	Number of properties	*With a liability of (£)*
2005-06	2	24,095
2006-07	3	13,477
2007-08	1	1,006
2008-09	1	94,551
2009-10	n/a	n/a
Total		133,131

Departmental Pay

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many staff in his Department received remuneration including benefits of £100,000 or more in 2008-09; [291842]

(2) how many of his Department's staff received annual remuneration including benefits of £100,000 or more in 2008-09. [291850]

Dan Norris: The table shows the number of staff (excludes workers employed under a contract for services) who received remuneration[1], including benefits of £100,000 or more in 2008-09, in core-DEFRA and its Executive agencies, Animal Health (AH), Veterinary Medicines

Directorate (VMD), Marine and Fisheries Agency (MFA), Veterinary Laboratories Agency (VLA), Rural Payments Agency (RPA), Centre for Environment, Fisheries and Aquaculture Science (CEFAS) and the Food and Environment Research Agency (FERA).

[1] For the purposes of responding to the question, remuneration has been interpreted as including base salary, bonuses, allowances and superannuation costs.

Department/agency	*Number of staff receiving remuneration, including benefits of £100,000 or more in 2008-09*
Core-DEFRA	75
AH	4
VMD	1
MFA	1
RPA	2
VLA	3
CEFAS	1
FERA	4

Departmental Postal Services

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on Royal Mail services in each of the last two years. [288734]

Dan Norris: The combined spend of core-DEFRA and the DEFRA executive agencies from information held centrally is as follows:

Financial year	*£ million*
2007-08	5.58
2008-09	5.32

Departmental Procurement

Lorely Burt: To ask the Secretary of State for Environment, Food and Rural Affairs what progress his Department has made in implementing the recommendations of the Glover Report in its procurement processes. [287138]

Dan Norris: DEFRA's progress in implementing the 12 recommendations in the Glover Report is:

R1. By 2010, contract opportunities above £20,000 across the whole public sector should be advertised electronically with standard indicative contract value ranges, and accessible through a single, free, easy to search online portal.

This is being implemented as part of the DEFRA's Integrated Commercial Strategy and will go live in 2010.

R2. Government should issue all tender documentation electronically by 2010 and this should be kept as brief as possible. Businesses should be permitted to tender electronically for all public sector contracts by 2010; no "paper only" tenders should be required after this date, with an ambition for all tenders to be electronic by 2012.

This too will be implemented as part of our Integrated Commercial Strategy. We are planning to be fully compliant well in advance of the 2012 deadline.

R3. Details of contract awardees should be published online in a standard format within 48 days of contract signature, accessible via the single portal by 2010.

DEFRA has dedicated procurement pages on its external website and will include information on contracts awarded. It is DEFRA's intention to provide this information through the cross Government online portal.

R4. Tendering opportunities thought especially suitable for small and medium-sized enterprises or consortia of SMEs should be flagged by the procurer during the advertising process. Government should provide strategic and detailed guidance for procuring authorities on assessing suitable contracts for flagging, based on risk, value and market maturity.

Tendering opportunities for Government contracts are governed by the principles of Managing Public Money and the public procurement directives. DEFRA very much welcomes the participation of SMEs either individually or collectively. It is a key element of our Integrated Commercial Strategy to maximise the diversity of our supplier base including SMEs or consortia thereof and the structuring of all procurements will be done in such a way as to encourage this. We will also be encouraging prime contractors to optimise the use of SMEs in their sub-contracting.

R5. Qualification criteria that are not specific to a sector should be standardised and incorporated in all pre-qualification questionnaires so that businesses do not need to repeatedly submit the same core information in different formats.

DEFRA has included this as a requirement within the Integrated Commercial Strategy. Technical solutions for storing and disseminating supplier data and criteria are being considered as part of this process. It is expected that this will be fully in place by late autumn 2010.

R6. Procurers should give businesses the opportunity to provide details of all previous relevant experience when bidding for contracts, not just public sector experience. This should be taken into account when selecting successful tenderers.

DEFRA has already introduced this within current tender processes.

R7. Procurers should ensure that, where they rely on a particular accreditation scheme or standard as part of the process of prequalification or contract award, that they take a flexible approach. Businesses should be given the opportunity to provide evidence that they can meet the contract requirements by reference to other similar equivalent accreditations or standards they may already hold—especially where these have been recognised or required by other public sector procurers.

DEFRA has already introduced this within current tender processes.

R8. Departments should use their Innovation Procurement Plans to set out how procurement aligns with their overall commercial strategy, encourages innovation and gives advanced notice of long-term procurement plans.

DEFRA is finalising an Innovation Procurement Plan and expect to be able to issue this as part of its Integrated Commercial Strategy. Innovation in procurement is itself one of the key objectives of developing this strategy.

R9. Government should encourage wider use of outcome-based specifications across the public sector, as a means of driving innovation.

DEFRA has already introduced this within current tender processes.

R10. Government should expect and enable prime contractors to make their subcontracting opportunities accessible through the single, online portal created in Recommendation 1.

DEFRA will be encouraging this as part of its Integrated Commercial Strategy.

R11. Through contract management, Government should ensure that SMEs and other firms acting as sub-contractors obtain contract conditions, including promptness of payment terms that are no worse than those applicable to the prime contractor.

DEFRA already includes this requirement within all major contracts and is incorporating it into standard terms and conditions for all contracts.

R12. The Committee recommends that all central Government Departments should report annually on the value of their contract spend with SMEs, creating a reliable single source of quantitative data which can be used to inform future policy decisions and evaluate the recommendations in this report.

DEFRA now has a system in place that allows it to record full records of its suppliers including a classification for SMEs. It is expected that reporting will be available by or before March 2010.

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293239]

Dan Norris: The Department has been asked by the Office of Government Commerce to provide them by the end of financial year 2009-10 with the actual figure and percentage of departmental third party expenditure via small and medium sized enterprises as prime contractors and where they have been engaged through a departmental or pan-governmental framework agreement. This information is being compiled and the analysis will be included in DEFRA's 2010 departmental report.

Departmental Travel

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on *(a)* Ministerial cars and drivers, *(b)* taxis, *(c)* train travel, *(d)* the use of helicopters, *(e)* airline tickets and *(f)* chartered aeroplanes in each year since 1997. [289066]

Dan Norris: DEFRA came into being in June 2001. The Government Car and Despatch Agency is respon[illegible] for providing ministerial cars and drivers. I refer the hon. Member to the answer provided by my hon. Friend the Under-Secretary of State for Transport (Chris Mole) of 21 July 2009, *Official Report*, columns 1218-1220W.

From information held centrally, the core-Department's expenditure on taxis for the financial year 2006-07 onwards is:

Financial year	£
2006-07	268,095
2007-08	346,458
2008-09	299,401
2009-10 to September	59,996

From information held centrally, the core-Department's expenditure on air and train travel from July 2006 is:

	£	
	Air	*Rail*
July 2006-March 2007	1,107,106	1,868,731
April 2007-March 2008	1,505,097	1,978,850
April 2008-March 2009	1,049,256	1,733,417
April 2009-August 2009	663,886	936,916

There is no information held centrally on the use of helicopters and chartered aeroplanes.

Dogs

Mrs. Iris Robinson: To ask the Secretary of State for Environment, Food and Rural Affairs how many attacks by dogs on people of each age category were reported in each of the last five years. [293657]

Jim Fitzpatrick: Information showing the number of defendants found guilty at all courts for offences under section 3(1) and 3(3) of the Dangerous Dogs Act 1991 in England and Wales from 2003 to 2007 (latest available) can be viewed in the following table. The information provides both the number of cases where injuries were inflicted and also the number of cases where no injuries were inflicted.

The Court Proceedings Database held by the Ministry of Justice does not hold specific information on the age of the victims beyond descriptions provided by the statutes under which prosecutions are brought.

Data for 2008 are planned for publication at the end of January 2010.

Number of defendants found guilty at all courts for selected offences under the Dangerous Dogs Act 1991, England and Wales 2003-07[1,2]

		Found guilty				
Offence description	*Section of the Act*	*2003*	*2004*	*2005*	*2006*	*2007*
Owner or person in charge allowing dog to be dangerously out of control in a public place injuring any person	S.3(1)	302	350	403	458	456
Owner or person in charge allowing dog to be dangerously out of control in a public place, no injury being caused	S.3(1)	171	167	168	160	205
Owner or person in charge allowing dog to enter a non-public place and injure any person	S.3(3)	33	23	25	29	27

Number of defendants found guilty at all courts for selected offences under the Dangerous Dogs Act 1991, England and Wales 2003-07[1,2]

		Found guilty				
Offence description	*Section of the Act*	*2003*	*2004*	*2005*	*2006*	*2007*
Owner or person in charge allowing dog to enter a non-public place causing reasonable apprehension of injury to a person	S.3(3)	10	5	9	11	15
Total		516	547	605	658	703

[1] The number proceeded against and number found guilty statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces and the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Evidence and Analysis unit—Office for Criminal Justice

Domestic Waste: Fixed Penalties

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy to issue new statutory guidance to waste collection authorities to curtail the issuing of fixed penalty notices against households for minor breaches of the rules in relation to the disposal of household waste. [294620]

Dan Norris: Local authorities are not obliged by Government or the guidance we issue to impose fixed penalties. While we would expect them to be proportionate in their use of these powers, how they use these powers is entirely a matter for individual local authorities.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have introduced wheeled refuse containers for the collection of household waste, according to records held by *(a)* his Department and *(b)* the Waste and Resources Action Programme. [294450]

Dan Norris: I have placed the list of local authorities operating residual collections in wheeled bins for 2008-09 in the Library of the House.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 14 July 2009, *Official Report*, column 229W, on the Futuresource Conference, what the cost of the quantitative and qualitative research commissioned by the Waste and Resources Action Programme on Principles of a good collection service was; and which contractors provided the research. [294457]

Dan Norris: The quantitative and qualitative research, carried out by Brook Lyndhurst and ICM on behalf of the Local Government Association and the Waste and Resources Action Programme, cost £38,600. The research was to ensure that the principles of a good recycling service, called for by the fifth report (2006-07) of the Communities and Local Government Select Committee, were firmly based on evidence of the views and priorities of the public.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance or advice the Waste and Resources Action Programme (WRAP) has issued on the operation of *(a)* closed-lid policies and *(b)* no side waste policies in respect of the collection of household waste, other than in its guidance on alternative weekly collections. [294467]

Dan Norris: WRAP has published no additional guidance on either subject.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what pilot programmes involving the weighing of household refuse containers have been supported by *(a)* his Department and *(b)* the Waste and Resources Action Programme to date. [294615]

Dan Norris: Neither DEFRA nor the Waste and Resources Action Programme (WRAP) has supported pilot programmes involving the weighing of household refuse containers.

However, WRAP is preparing a review of such weighing systems to assess their suitability for use in reward schemes such as 'Recyclebank.'

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance *(a)* his Department and *(b)* the Waste and Resources Action Programme has issued on the use of (a) 140 litre and (b) 240 litre household wheeled refuse containers. [294621]

Dan Norris: The Government believe local authorities are best placed to make waste management strategy decisions for their local areas. It has issued no such guidance but does encourage local authorities to consult extensively with residents to ensure their opinions and preferences are taken into consideration.

WRAP has issued no such guidance.

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment the Waste and Resources Action Programme has made of household waste collections in overseas countries on *(a)* three-weekly or *(b)* four-weekly collection cycles. [294964]

Dan Norris: No such assessment has been made by the Waste and Resources Action Programme.

Food: Origin Marking

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in his Department's discussions with supermarkets on a voluntary scheme for country of origin food labelling. [292405]

Jim Fitzpatrick: DEFRA Ministers have raised the issue of country of origin labelling with the representatives of the main supermarkets. The supermarkets have agreed to comply with the Food Standards Agency's guidance on this issue.

The pigmeat and pigmeat products sector is of particular public concern. A sub-group of the Pig Meat Supply Chain Task Force that was established by DEFRA in March to include all elements of the supply chain, is in the process of drafting an industry wide voluntary code of practice on origin labelling with the aim of implementing it early next year.

Hill Farming

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely prospects for financial viability in the hill farming sector in the next 10 years. [293180]

Jim Fitzpatrick: The Secretary of State has not made any particular assessment of the financial viability of the hill farming sector in the next 10 years.

Shortly, we will publish the most recent data from the Farm Business survey showing farm incomes by farm type, including hill farms, in the year ended February 2009.

Early next year, DEFRA will be publishing forecasts of farm income in England for the year ending February 2010, by farm type, including hill farms.

Litter

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what policies his Department has in place to reduce levels of littering in England. [293627]

Jim Fitzpatrick: Local Environment Quality Surveys for England since 2001 show that while there has been some improvement in that time nearly a fifth of areas surveyed still fall below satisfactory levels for litter and about a quarter of people surveyed admit to littering. Each year the Government funds the campaigning charity Keep Britain Tidy (£5 million in 2009-10) to raise awareness of the problem, campaign for changes in behaviour and offer technical support and advice to national, regional and local government.

Local authorities, who have a legal duty to clear litter from public places, have been given the powers they need to tackle those that litter, most recently through provisions in the Clean Neighbourhood and Environment Act 2005. Information and guidance is provided to local authorities to help them to improve their enforcement and street cleansing services.

Marine Aggregates Levy Sustainability Fund

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what projects are being funded by the Marine Aggregates Levy Sustainability Fund in 2009-10. [294720]

Dan Norris: Projects commissioned in 2008-09 and drawing funds from the Marine Aggregates Levy Sustainability Fund in 2009-10 are:

	Project
MEPF 08/02	Marine Aggregate Integrated Assessment.
MEPF 08/P14	Marine Aggregates supply as part of a sustainable mix.
MEPF 08/P27	Derek the Dredger and the Marine Biologists.
MEPF 08/P33	Mitigation of Marine Aggregate Dredging Impacts—Benchmarking Equipment, Practices and Technologies against Global Best Practice.
MEPF 08/P37	Effects of aggregate dredging on marine food web structure and function.
MEPF 08/P39	Impacts of Marine Aggregate Extraction on Adjacent "Sabellaria spinulosa" aggregations and Other Benthic Fauna.
MEPF 08/P40	Dredging Impacts Verified in Relation to Scientific Evidence(DIVERSE).
MEPF 08/P64	Developing new ground truthing techniques for seabed mapping.
MEPF 08/P70	The development and application of an instrument array to measure the concentration of silt and sand in the overflow from aggregate dredgers.
MEPF 08/P73	Assessment of the distribution and intensity of fishing activities in the vicinity of aggregate extraction sites.
MEPF 08/P75	Best Practice Workshop and Guidelines on Aggregate Ecological Assessments.
MEPF 08/P76	Measuring the effects of suspended particulate matter and smothering on the behaviour, growth and survival of key species found in areas associated with aggregate dredging.
MEPF REC 08/01	2007 REC Data Projects: Analysis and Interpretation Thames Region.
MEPF REC 08/02	2007 REC Data Projects: Analysis and Interpretation South Coast Region.
MEPF REC 08/03	Humber Regional Environmental Characterisation (REC) Programme.
MEPF REC 08/04	East Coast Regional Environmental Characterisation (REC) Programme.
MEPF 07/S05	Communications and Dissemination Co-ordination of MEPF Activities.
MEPF 08/S04-05	Marine ALSF Science Co-ordination Services.
MEPF 08/S04-07	Marine ALSF GIS—enhancements II.
MEPF 08/S05	Fisheries Liaison Co-ordination (Onshore and Offshore) Services for the Regional Environmental Characterisation (REC) Surveys to be conducted in the East Coast and Humber regions.
MEPF 08/S07-03	Project Co-ordination of the Marine ALSF Regional Environmental Characterisation Studies.

A further nine projects are in the process of being commissioned from the Fund in 2009-10 and contracts for these projects have yet to be finalised.

Details of all current and completed projects funded by the Marine Aggregates Levy Sustainability Fund are published on the MALSF website at:

http://www.alsf-mepf.org.uk/projects/current-projects.aspx

Milk: Prices

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the average *(a)* farm gate price, *(b)* price given to processors and *(c)* supermarket price of a pint of milk in each of the last 12 months. [294054]

Jim Fitzpatrick *[holding answer 19 October 2009]*: The following tables show monthly UK farm gate and retail milk prices. No information is available on prices paid at all other points in the supply chain.

The farm gate price is calculated from monthly surveys of milk purchasers conducted in England and Wales by DEFRA, in Scotland by The Scottish Government Rural and Environment Research and Analysis Directorate (RERAD) and in Northern Ireland by the Department of Agriculture and Rural Development DARD. The farm gate price is the average price received by producers, net of delivery charges. No deduction has been made for superlevy.

UK farm gate milk price

	Units: pence per pint
September 2008	15
October 2008	16
November 2008	15
December 2008	15
January 2009	15
February 2009	14
March 2009	14
April 2009	13
May 2009	12

Noise: Pollution Control

Mr. Evennett: To ask the Secretary of State for Environment, Food and Rural Affairs what progress his Department has made on implementing its plans for a noise reduction strategy; and if he will make a statement. [293600]

Jim Fitzpatrick: The implementation of the Environmental Noise Directive (END) has been the Department's main focus of activity regarding noise. In meeting the requirements of the END, we are progressing Noise Action Plans, and this is helping to refine existing policy as evidence on the effects of noise continues to emerge. The Government are in the process of consolidating their longer term noise management policies, some of which can be found in the draft noise action plans, and determining how these could be best delivered.

Pet Travel Scheme

Mr. Boswell: To ask the Secretary of State for Environment, Food and Rural Affairs if he will conduct a risk assessment of the extent to which the importation of dogs infected with echinococcus multilocularis might be increased if the requirement for treatment with Praziquantel under the Pet Travel Scheme were relaxed. [294030]

Jim Fitzpatrick: The European Commission's proposal for an 18-month extension to the derogation which allows the UK to operate its current pet movement controls also includes provisions for the control of other diseases, such as echinococcus multilocularis. The Government will need to conduct a risk assessment to assess UK exposure to the parasite if the requirement for Praziquantel tapeworm treatment is removed. Should the evidence justify it, this would form part of the case to retain current controls.

Rural Areas: Low Incomes

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of *(a)* English farming households and *(b)* households in rural areas with incomes below the low income threshold. [291906]

Jim Fitzpatrick: The information is as follows:

(a) In 2007-08 for England, 25 per cent. of farm households were below the modified low income threshold (gross income before housing costs).

(b) In 2007-08 for England 18 per cent. of rural households were below the low income threshold (gross income before housing costs).

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding *(a)* his Department and *(b)* the Waste and Resources Action Programme has provided to Project Reduce to undertake studies of the contents of household refuse containers in the last 12 months. [294614]

Dan Norris: No funding for the undertaking of studies of the contents of households refuse containers has been provided by DEFRA to Project Reduce in the last 12 months. The Waste and Resources Action Programme had no involvement in this project.

Waste Management

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable has been set for the Environment Agency to establish its new online waste data tracking system. [294612]

Dan Norris: The Environment Agency is developing new web-based data reporting software called 'Generic Operator Returns'. This will provide a more efficient and up-to-date method for businesses to provide data to the Environment Agency. Following a successful trial implementation, external web data entry will be phased in from January 2010.

WORK AND PENSIONS

Employment: Autism

Mr. Evennett: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of adults with autism in *(a)* Bexleyheath and Crayford constituency and *(b)* London Borough of Bexley that are in (i) part-time and (ii) full-time employment. [294260]

Jonathan Shaw: The information requested is not available.

Employment and Support Allowance

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of claims for employment and support allowance took *(a)* fewer than 11 days, *(b)* between 11 and 40 days and (c) over 40 days to process in each month since the scheme came into operation. [291004]

Jonathan Shaw *[holding answer 14 September 2009]:* We are currently exploring whether we can develop some official statistics on processing times for Employment and Support Allowance new claims in the near future.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what percentage of people leaving incapacity benefit began claiming *(a)* incapacity benefit again and *(b)* employment and support allowance within a year of leaving the benefit in each of the last five years for which figures are available; and of those people what percentage were aged (i) 18 to 24, (ii) 25 to 49 and (iii) 50 years and over in each year. [291005]

Jonathan Shaw *[holding answer 14 September 2009]:* The available information has been placed in the Library.

Pension Funds: Trustees

Mr. Doran: To ask the Secretary of State for Work and Pensions what research she has *(a)* undertaken and *(b)* commissioned on the (i) costs, (ii) feasibility and (iii) effects on pension schemes of implementation proposals to require a minimum 50 per cent. member nominated trustees on the boards of pension funds. [294311]

Angela Eagle: The Department has commissioned a qualitative research study into the costs, feasibility and effects of any potential move to require pension scheme trustee boards to have 50 per cent. member-nominated trustees. The research contractor (BMRB) has now completed interviews with employers, scheme representatives and trade union representatives and is preparing a research report. This is expected to be published in the spring of 2010.

Social Security Benefits: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of claimants of *(a)* incapacity benefit, *(b)* employment and support allowance, *(c)* severe disablement allowance and *(d)* income support for incapacity undertook permitted work in each of the last 10 years as applicable. [291279]

Jonathan Shaw *[holding answer 16 September 2009]:* The available information is in the following table.

Incapacity benefit, severe disablement allowance or income support claimants with permitted work

Year ending February each year		*Number*	*Proportion (percentage)*
2003	Incapacity benefit	10,600	0.4
	Severe disablement allowance	1,400	0.4
	Income support	600	—
2004	Incapacity benefit	27,600	1.1
	Severe disablement allowance	6,700	2.1
	Income support	500	—
2005	Incapacity benefit	31,300	1.3
	Severe disablement allowance	7,400	2.4
	Income support	600	—
2006	Incapacity benefit	35,300	1.4
	Severe disablement allowance	8,000	2.7
	Income support	600	—
2007	Incapacity benefit	39,100	1.6
	Severe disablement allowance	8,300	3.0
	Income support	600	—
2008	Incapacity benefit	40,000	1.7
	Severe disablement allowance	8,400	3.1
	Income support	800	—
2009	Incapacity benefit	39,000	1.8
	Severe disablement allowance	8,600	3.4
	Income support	600	—

Notes:
1. Figures are produced from 5 per cent. sample data and have been uprated to be in line with the 100 per cent. proportions.
2. Numbers are rounded to the nearest 100.
3. Proportions are rounded to the nearest 1 decimal place.
4. "—" denotes nil or negligible.
5. Data not available in respect of employment and support allowance.
6. Income support permitted work cases are those where the claimant is disabled and earning less than £20 per week.
7. Those claimants with incapacity benefit who are also receiving income support are included in the incapacity benefit figures to avoid double counting.
8. Information on permitted work has only been available since the November 2002 quarter.
9. Permitted work categories (current rates):
a. Permitted Work Lower Level (up to £20 per week for unlimited period).
b. Supported Permitted Work (up to £93 per week for unlimited period (*supported)).
c. Permitted Work Higher Limit (up to £93 per week and < 16 hours for up to 26 weeks).
d. Permitted Work Higher Limit Subsequent (PWHL after 52 week gap (*supported)).
e. * The support must be given by a person employed by a public or local authority or voluntary organisation.

DWP Information Directorate 5 per cent. sample.

PRIME MINISTER

Serious Fraud Office

Mr. Dai Davies: To ask the Prime Minister whether he has received representations in respect of the current investigation by the Serious Fraud Office into BAE Systems. [293889]

The Prime Minister: This is a matter for the Serious Fraud Office.

CABINET OFFICE

Advertising Advisory Committee

Mr. Hurd: To ask the Minister for the Cabinet Office pursuant to the answer of 16 July 2009, *Official Report*, column 624W, on the Advertising Advisory Committee, if she will place in the Library a copy of the minutes of each Government Strategic Marketing Advisory Board meeting in the last 12 months, redacting commercially confidential elements. [291053]

Angela E. Smith *[holding answer 14 September 2009]*: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the normal practice of government to disclose detailed information in respect of such discussions.

Damian McBride

Mr. Maude: To ask the Minister for the Cabinet Office when she last met Mr. Damian McBride in the course of her official duties. [287399]

Tessa Jowell: I have not met Damian McBride in the course of my ministerial duties since his resignation on 11 April 2009.

Forfeiture Committee

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office on which dates the Forfeiture Committee has met since 1 January 2009. [287855]

Tessa Jowell: The Forfeiture Committee conducts most of its business in correspondence, but plans to meet on an annual basis to review the year's cases and discuss matters of policy. The Committee has met once in 2009, on 23 September. The subjects discussed by the Committee remain confidential.

Former Ministers: Pay

Mr. Meacher: To ask the Minister for the Cabinet Office what information her Department holds on the level of remuneration made to former Ministers given permission to take private sector jobs within two years of leaving office. [293486]

Tessa Jowell: The Ministerial Code requires that former Ministers must seek advice from the independent Advisory Committee on Business Appointments about any appointments or employment they wish to take up within two years of leaving office, apart from unpaid appointments in non-commercial organisations. There is no requirement for former Ministers to reveal details of their proposed remuneration packages.

Government Departments: Power of Information Taskforce

Margaret Moran: To ask the Minister for the Cabinet Office what guidance she has issued to Government departments on the implementation of the fee recommendations of the final report of the Power of Information Taskforce published on 2 March 2009. [292791]

Tessa Jowell: Following recommendation 10 of the Power of Information Taskforce report, the National Archives drafted new, tighter criteria for the application of fees for the provision of public sector information. This draft was published on 28 July 2009 on their blog "PSI Perspectives"

http://perspectives.opsi.gov.uk/

for public comment. The National Archives has also written to Departments drawing their attention to these draft criteria.

Margaret Moran: To ask the Minister for the Cabinet Office what mechanism is in place to track progress made by Government departments in implementing the recommendations of the final report of the Power of Information Taskforce, published on 2 March 2009. [292792]

Tessa Jowell: The Power of Information Taskforce sets out the strategic actions needed to harness the power of Web 2.0 technologies to improve the way Government communicates with citizens, with the aim of making policy making more collaborative and open.

The Director for Digital Engagement within the Cabinet Office works across Government Departments to encourage, support and challenge Departments in moving from communicating to citizens on the web, to conversing and collaborating with them through digital technology to improve the delivery of public services. As part of this role he is responsible for tracking the implementation of the Power of Information Taskforce report.

Scotland

Stewart Hosie: To ask the Minister for the Cabinet Office whether her Department plans to make a submission to the Scottish Executive's National Conversation consultation on Scotland's constitutional future. [288952]

Tessa Jowell: The Cabinet Office has not submitted evidence to the Scottish Government's National Conversation.

The Commission on Scottish Devolution was established by majority vote in the Scottish Parliament and with the full support of the UK Government. UK Departments submitted evidence to the Commission during its first phase of evidence gathering.

The Commission recently published its final report, which can be found here:

http://www.commissiononscottishdevolution.org.uk/uploads/2009-06-12-csd-final-report-2009fbookmarked.pdf

A steering group has been established under the chairmanship of the Secretary of State for Scotland to help the UK Government and the Scottish Parliament plan how to take forward the Calman recommendations and deliver stronger devolution within a stronger United Kingdom.

Suicide

Mr. Oaten: To ask the Minister for the Cabinet Office what suicide rates in each local authority area were in each of the last four years. [294309]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply to the hon. Member. A copy of the response will be placed in the Libraries of the House.

DEFENCE

Armed Forces Day

Jessica Morden: To ask the Secretary of State for Defence what discussions he has had with the Merchant Navy Association on its involvement in Armed Forces Day 2010. [294704]

Mr. Bob Ainsworth: While I have not had direct discussions, I can confirm that the Merchant Navy Association are part of the Armed Forces Day 2010 Steering Group, and were in attendance at the first meeting held in Cardiff on 22 September 2009.

I can also confirm that an invitation will be extended to the Merchant Navy Association to attend and participate in Armed Forces Day events across the United Kingdom, including the National Event in Cardiff.

Colombia: Military Aid

Mr. Rooney: To ask the Secretary of State for Defence pursuant to the answer of 26 November 1999, *Official Report*, column 115W, on Colombia, whether *(a)* advisory visits and *(b)* information exchanges between the UK and Colombia on operations in urban theatres, counter guerrilla strategy and psychiatry continue to take place. [293754]

Bill Rammell *[holding answer 16 October 2009]*: Advisory visits and information exchanges between the UK and Colombia on operations in urban theatres, counter guerrilla strategy and psychiatry no longer take place.

Defence Equipment

Mr. Jim Cunningham: To ask the Secretary of State for Defence what recent steps he has taken to ensure that all troops are properly equipped for each of their duties. [294504]

Mr. Bob Ainsworth: The Ministry of Defence is focused on ensuring our armed forces continue to be provided with the equipment they need for the conduct of operations in Afghanistan, our main effort. So far this financial year we have approved £410 million on Urgent Operational Requirements, a large proportion of which has been for Force Protection and to counter the threat from Improvised Explosive Devices (IEDs). New equipments, including vehicles, continue to be delivered as quickly as possible.

Defence Medical Services: Manpower

Sir Menzies Campbell: To ask the Secretary of State for Defence (1) what the current shortfall is of each rank of medical personnel available for active service; and if he will make a statement; [291717]

(2) what the *(a)* inflow and *(b)* outflow rates were of medical personnel in each of the three services in each of the last five years. [291719]

Mr. Kevan Jones: Manning statistics for the Defence Medical Services are updated twice a year, in April and October. The October 2009 figures are currently being collated, and verified figures should be available by the end of November. I will place these figures in the Library of the House.

Departmental Procurement

Mr. Jim Cunningham: To ask the Secretary of State for Defence when his Department next plans to renew its procurement processes. [294503]

Mr. Bob Ainsworth: The Ministry of Defence keeps its procurement processes under continuous review. At the strategic level we plan to publish a Strategy for Defence Acquisition in the new year which will take forward many of the recommendations in the report by Bernard Gray which was published on 15 October 2009.

Ex-Servicemen: Crime

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps his Department plans to take to seek to reduce the number of armed forces veterans in the criminal justice system. [294507]

Mr. Kevan Jones: The MOD's comprehensive resettlement package provides graduated re-training and advice on future careers, financial planning, access to housing and other benefits. For those considered vulnerable to social exclusion, we work closely with ex-service and wider charitable organisations, Communities and Local Government and the Devolved Administrations to reduce the potential of turning to crime by helping them finding a home, access appropriate health care and finding work.

If a veteran of the armed forces is imprisoned, the Veterans Prison In-Reach Group aims to raise awareness among the ex-service prison population of the help and support available to them and their immediate families while they serve their sentence and as they prepare for release. As well as the Ministry of Defence, the Group consists of the National Offender Management Service in the Ministry of Justice, The Royal British Legion, SSAFA Forces Help, Combat Stress, the Service Personnel and Veterans Agency, the National Association for the Care and Resettlement of Offenders, Action for Prisoners' Families, Her Majesty's Prison representatives, and representatives from the Devolved Administrations. Together, they work to explore new ways of better assisting veterans in prison, with the overall aim of reducing re-offending.

Nuclear Weapons

Mr. Dai Davies: To ask the Secretary of State for Defence what assessment he has made of the merits of reducing the number of nuclear warheads in the United Kingdom stockpile; what technical capability exists in the UK to dismantle redundant warheads; and whether the UK is able to make use of US expertise on this matter. [294253]

Mr. Bob Ainsworth: The Government are committed to retaining only the minimum credible nuclear deterrent capability. We regularly review the number of warheads in the UK stockpile in that light.

The UK technical capability to disassemble warheads is exercised and maintained at a level appropriate to enable effective warhead surveillance, essential stockpile maintenance and the timely disassembly of the stockpile should the need arise.

We do not rely on US capabilities to dismantle UK warheads. However, the UK has regular specialist technical exchanges with the US through the 1958 Mutual Defence Agreement. These exchanges include warhead disassembly, to share best practice and experience.

Territorial Army: Finance

Mr. Lancaster: To ask the Secretary of State for Defence for what reasons he decided to implement reductions in the budget available for the Territorial Army before the end of the 2009-10 financial year. [294120]

Bill Rammell *[holding answer 19 October 2009]:* This year is very challenging in resource terms, and success in Afghanistan must take priority. As much as the Regular forces, the Reserves must now focus available resources on supporting the ongoing campaign in Afghanistan, which means reducing activity levels elsewhere. These savings have been recommended by the Army and accepted by the Secretary of State. This is about putting today's operations first.

The measures that have been the subject of recent parliamentary debate and media reporting are specific to this financial year and reflect the fact that we are rightly focusing resources on the main effort, Afghanistan. And that means also focusing on forces currently deployed and the next roulement. But we have not taken these decisions without understanding potential risks, and we are absolutely determined that any risks to deployments to Afghanistan in 2012 will not be allowed to materialise. The Prime Minister is clear that the mission to Afghanistan will have all the resources and backing it needs to succeed.

We remain committed to ensuring that we have Reserve forces that meet the needs of Defence, today and tomorrow. Discussions about future tra[illegible] the TA will be based on the requirement to [illegible]rve its ability to support regular forces on operations, and on ensuring that TA soldiers are properly equipped and trained.

Those reserves deploying over the next year will of course continue to be paid for the training they do to prepare them for their deployment, as well as for the deployment itself. This training will vary for individuals, depending on the task they will be required to do and their current skill set. This pre-deployment training is not being cut back. It will continue to be validated at the Reserves Training and Mobilisation Centre at Chilwell, before individuals are mobilised to join a formed unit for an extended period of training ahead of operations. It cannot be said enough; no soldier will be allowed to deploy to Afghanistan without the necessary training and equipment, whatever their trade, whether regular or reserve.

SOLICITOR-GENERAL

Corruption

Sir Menzies Campbell: To ask the Solicitor-General what assessment the Attorney-General has made of whether the terms of Article 5 of the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions are binding when considering whether to consent to prosecute British companies and individuals in relation to allegations of overseas corruption. [294735]

The Solicitor-General: In considering an application for consent to the institution of criminal proceedings, the Attorney-General considers whether or not a prosecution would be in the public interest, in accordance with accepted prosecutorial principles. For the purposes of the 2005 UK phase 2 report of the OECD Working Group on Bribery in International Business Transactions, the then Attorney-General Lord Goldsmith confirmed that none of the factors listed in article 5 would be taken into account by him as public interest factors justifying a decision not to give consent. The present Attorney-General takes the same approach, and abides by article 5.

JUSTICE

Domestic Violence

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* longest, *(b)* average and *(c)* shortest waiting period for entry into a domestic violence perpetrator programme was in each probation area in each year since such programmes were introduced. [294199]

Maria Eagle: The National Offender Management Service are currently collating the requested information and I hope to shortly be in a position to write to the hon. Member before Prorogation.

Drugs: Crime

Chris Huhne: To ask the Secretary of State for Justice (1) how many people were *(a)* prosecuted, *(b)* convicted and *(c)* imprisoned for dealing (i) cannabis and (ii) ecstasy in each year since 1997; [294151]

(2) how many people were *(a)* found guilty and *(b)* sentenced to immediate custody for the unlawful importation of a controlled drug in each year since 1997; [294200]

(3) how many and what percentage of *(a)* male and *(b)* female prisoners were serving sentences for drug-related offences in each year since 1997. [294203]

Claire Ward: The number of defendants proceeded against at magistrates courts, found guilty at all courts and sentenced to immediate custody for 'possession with intent to supply' and 'supplying or offering to supply' cannabis and ecstasy in England and Wales, from 1997 to 2007 (latest available) is shown in table 1.

The number of defendants found guilty at all courts and sentenced to immediate custody for unlawful importation of a controlled drug in England and Wales, from 1997 to 2007, is shown in table 2.

The statistics given in tables 1 and 2 relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 are planned for publication at the end of January 2010.

The number of males and females serving sentences in prison establishments in England and Wales for drug offences from 1997 to 2009 (as at 30 June each year) is shown in table 3.

Table 1: The number of defendants proceeded against at magistrates courts, found guilty at all courts and sentenced to immediate custody for 'possession with intent to supply' and 'supplying or offering to supply' cannabis and ecstasy (methylenedioxymethamphetamine—MDMA) in England and Wales, 1997 to 2007

Source:

Figures taken from Offender Management Caseload Statistics, table 7.2 for 2007 and 2008 up to the year 2008 and from monthly Ministry of Justice Bulletin for June 2009

Electoral Systems: Armed Forces

David Howarth: To ask the Secretary of State for Justice (1) how many of those serving in HM Armed Forces are not eligible to vote; and for what reasons; [292610]

(2) how many of those serving in HM Armed Forces in Afghanistan will not be eligible to vote in the next general election; and for what reasons; [292611]

(3) what preparations have been made to ensure that those serving in HM Armed Forces in Afghanistan are able to vote in the next UK general election. [292612]

Mr. Wills: A person is eligible to vote in a parliamentary general election if they are:

aged 18 or over on polling day (a person can register once they are 16 but cannot vote until their 18th birthday);

a British or Commonwealth citizen resident in the UK;

or a citizen of the Irish Republic resident in the UK.

At 1 September 2009 the trained strength of the UK armed forces was 174,570. As at 14 October 2009, there are 9,760 personnel in the armed forces whose records show they are not eligible to vote in a general election. There are 400 personnel in the armed forces serving in Afghanistan whose records show they are not eligible to vote in the next general election.

The Government are committed to facilitating the participation of all service personnel in the next general election. A current campaign run by the Electoral Commission and the Ministry of Defence involves every armed forces unit, raising awareness of registration for service personnel and their families. To further support this work, the Government have announced that they will extend the service declaration period from three to five years as soon as parliamentary time allows. I recently met armed forces families' representatives and I have written to invite MPs with service establishments in their constituencies to meet with me and give their views on improvements to service voting arrangements. At present, the legislation allows service voters to vote by post or by proxy: we are working with the MOD and the Electoral Commission to ensure that we have in place the most effective measures to support participation among service personnel.

Jury Service

Chris Huhne: To ask the Secretary of State for Justice (1) how many people were summoned for jury service in each year since 1997; and how many and what proportion were disqualified, broken down by reason for disqualification; [294198]

(2) what proportion of those summoned for jury service were disqualified on each ground for disqualification in each year since 1997. [294258]

Bridget Prentice: The following table provides information from the Jury Central Summoning Board on the number of people summoned for jury service in the Crown court from 2001 to 2008. The table also provides information on the number of people who did not qualify for jury service.

As the number of disqualifications reported for a given year may include disqualifications for summons that were issued in previous years, a direct proportion of the total summons issued cannot be calculated. Information prior to 2001 is not available.

Numbers on disqualifications are classified into the three different groups. A more detailed breakdown is not available.

Annual statistics on jury summons are published by the Ministry of Justice in the annual command paper "Judicial and Court Statistics". The most recent edition, presenting statistics for 2008, was published in September 2009. Copies are available in the Library of the House and from the Ministry of Justice website at:

http://www.justice.gov.uk/publications/judicialandcourtstatistics.htm

Number of people summoned for jury service in the Crown court, 2001-08[1]

	2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Total number of summons issued	579,473	492,561	461,980	431,432	388,154	390,671	412,666	416,689
Disqualified—residency, mental disorders, criminality	118,339	105,314	98,045	89,112	77,364	85,061	94,171	96,325
Disqualified—on selection	48,271	59,892	58,830	55,410	49,765	53,031	58,900	72,854
Disqualified—failed Police National Computer check	69	160	139	148	193	185	207	103

[1] The number of disqualifications reported for a given year may include disqualifications for summons that were issued in previous years. Therefore, disqualifications as a percentage of the total number of summons issued within a year cannot be calculated.

Jury Central Summoning Board

Pleural Plaques: Compensation

Mr. Dai Davies: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Jarrow of 21 July 2009, *Official Report*, column 741, on pleural plaques, when he plans to publish a final response to the issue of compensation for people diagnosed with pleural plaques; and what recent representations he has received from the UCATT union on its members who have been exposed to asbestos contamination at work. [294003]

Bridget Prentice: The House of Lords decision has raised extremely complex and difficult issues which have required very careful consideration within Government. It has also been important to look beyond the issue of pleural plaques itself to consider how people who have been exposed to asbestos can be supported much more widely. We are actively considering all these issues in order to be in a position to publish a final response as soon as possible.

The Justice Secretary has received several representations from UCATT on asbestos related issues.

Julia Goldsworthy: To ask the Secretary of State for Justice when he expects to announce his decision on compensation for those with pleural plaques; and if he will make a statement. [294723]

Bridget Prentice: The House of Lords decision has raised extremely complex and difficult issues which have required very careful consideration within Government. It has also been important to look beyond the issue of pleural plaques itself to consider how people who have been exposed to asbestos can be supported much more widely. We are actively considering all these issues in order to be in a position to publish a final response as soon as possible.

Prison Sentences

Chris Huhne: To ask the Secretary of State for Justice (1) what the imprisonment rate was per 100,000 population in England and Wales in each year since 2001; [294197]

(2) what information his Department holds on the imprisonment rate per 100,000 population in *(a)* Scotland, *(b)* Northern Ireland and *(c)* the European Union area. [294259]

Maria Eagle: The following table gives information on the numbers of prisoners in all prison establishments with prison population ratios in England and Wales, Scotland and Northern Ireland 2001-08, and the average prison population ratio per 100,000 for the European Union where this published information is held within the Ministry of Justice.

The figures are derived from the tables provided in the annual publications Prison Statistics in England and Wales 2001-02, and Offender Management Caseload Statistics, 2003-08. These publications can be found at the following website, and copies are held within the House of Commons Library:

http://www.justice.gov.uk/publications/prisonandprobation.htm

Rate of prison population per 100,000 of general population 2001-08, England and Wales, Scotland and Northern Ireland

		England and Wales	*Northern Ireland*	*Scotland*	*Average EU*
2001	Prison population	67,056	910	6,137	—
	Rate per 100,000 population	127	51	115	—
2002	Prison population	71,324	1,026	6,404	—
	Rate per 100,000 population	137	61	126	92
2003	Prison population	72,992	1,160	6,524	—
	Rate per 100,000 population	138	70	131	—
2004	Prison population	75,057	1,274	6,805	—
2005	Rate per 100,000 population	142	72	133	130
2006	Prison population	76,896	1,301	6,792	—
	Rate per 100,000 population	144	76	133	—
2006	Prison population	79,085	1,433	7,111	—
	Rate per 100,000 population	147	82	139	—
2007	Prison population	80,692	1,468	7,291	—
	Rate per 100,000 population	149	83	142	123
2008	Prison population	83,406	1,507	7,741	—
	Rate per 100,000 population	153	85	150	124

The averages for the European Union are not strictly comparable due to the 2004 and 2007 enlargements.

Prisoners Release

James Brokenshire: To ask the Secretary of State for Justice how many applications for release from custody relating to people who pleaded guilty to a charge of manslaughter on the grounds of diminished responsibility were approved by mental health tribunals in each of the last five years; and what the average time taken between their conviction and release of such people was in each such year. [294224]

Bridget Prentice: Neither the First tier Tribunal—Mental Health nor the Ministry of Justice Mental Health Unit collects the information requested in this format. The First-tier Tribunal—Mental Health hears applications and references for people detained under the Mental Health Act 1983 (as amended by the Mental Health Act 2007). It does not record in its database the information requested. This information could be provided only at disproportionate cost by searching through all files to obtain these details. In any event, these files will only cover the last six months; anything beyond this date will have been destroyed in accordance with the Tribunals' record retention and disposal schedule.

Prisoners: Death

Chris Huhne: To ask the Secretary of State for Justice how many people died in prison of drug-related causes in each year since 1997. [294154]

Maria Eagle: The prison system for classifying deaths does not include a specific category for drug related deaths, which is a drug related death where the underlying cause is poisoning, drug abuse or dependence and any of the substances controlled under the Misuse of Drug Act (1971) are involved.

However, information is recorded on deaths where an overdose of any drug played a part. The table shows the numbers of non-natural deaths associated with a drugs overdose.

Non-natural drug related deaths in prison custody

	Other non-natural	*Self-inflicted*	*Total*
1997	—	—	0
1998	—	—	0
1999	—	2	2
2000	—	4	4
2001	—	2	2
2002	1	3	4
2003	—	3	3
2004	—	3	3
2005	1	5	6
2006	2	1	3
2007	—	3	3
2008	—	3	3

Note:
The deaths reported in this table have been extracted, from the total deaths in prison in the period in question. While every effort is made to maintain a high level of accuracy, these figures may change as subsequent information arises, such as verdicts. They should not be read or taken as absolute figures.

The drug related self-inflicted deaths refer to cases where an overdose of any drug resulted in death. Three of the four other non-natural deaths refer to situations where any drug may have contributed to the death but not in fatal amounts. The other case relates to a fatal attempt to smuggle drugs into prison.

Prisoners: Mobile Phones

Mr. Gordon Prentice: To ask the Secretary of State for Justice pursuant to the answer of 12 October 2009, *Official Report*, columns 139-40W, on prisoners: mobile telephones, how many people have been convicted for taking an unauthorised mobile telephone or component part into a prison. [293387]

Maria Eagle: Under the Offender Management Act 2007 it is an offence with a penalty of up to two years' imprisonment or an unlimited fine to bring a mobile phone or component part into a prison.

We know that from April 2008 to September 2009, there have been 142 arrests and 36 people charged with offences under the Offender Management Act 2007, which includes taking mobile phones or components into prison.

To provide the full information requested, it would be necessary to contact all prisons and young offender institutions, ask them to check their local records and to submit this information to headquarters. This could be carried out only at disproportionate cost.

From April 2009, convictions under the Act have been included in the Home Office Counting Rules and will be published in next year's Annual Crime Statistics Bulletin (July 2010), providing a more accurate picture.

Prisoners: Pay

Chris Huhne: To ask the Secretary of State for Justice what expenditure was incurred on unemployment pay for prisoners in 2008-09. [294201]

Maria Eagle: I regret that the information requested is not held centrally and could be obtained only by approaching 135 prisons separately which would be at disproportionate cost. Prison Service Order (PSO) 4460 (Prisoners' Pay) sets out a minimum unemployed rate of £2.50 a week. The PSO has been placed in the House Library and can also be viewed at the following web address:

http://www.hmprisonservice.gov.uk/resourcecentre/psispsos/listpsos/index.asp?startrow=51

Prisoners' pay policy is set out in PSO 4460. Prisoners are eligible for unemployment pay if they are willing to work but the establishment cannot find suitable employment or the prisoner is unable to work. Those who refuse to work must not receive any pay.

Probation

Chris Huhne: To ask the Secretary of State for Justice what the *(a)* average, *(b)* minimum and *(c)* maximum offender caseload was for a probation officer in each probation area in each year since 2002. [294205]

Maria Eagle: Figures for the average and maximum caseloads per probation officer in each probation area at 31 December 2008 are set out in the following table.

No data are available for minimum caseloads; and data for average and maximum caseloads are unavailable for previous years.

Average and maximum caseloads per probation officer at 31 December 2008

Probation area	*Average caseload per probation officer on 31 December 2008*	*Maximum caseload placed on any one probation officer on 31 December 2008*
Avon and Somerset	31	72
Bedfordshire	28	48
Cambridgeshire	52	91
Cheshire	44	58
Cumbria	31	54
Derbyshire	38	49
Devon and Cornwall	31	92
Dorset	48	57
Durham	33	55
Essex	43	70
Gloucestershire	28	71
Greater Manchester	36	70
Hampshire	27	62
Hertfordshire	37	77

Gwent	27	47
North Wales	39	66
South Wales	38	61

Remand in Custody: Young People

David Howarth: To ask the Secretary of State for Justice what recent progress has been made in relation to the proposal in the Youth Crime Action plan to delegate the budget for court-ordered secure remands to local authorities; and if he will make a statement; [292608]

(2) what recent assessment he has made of the implications for vulnerable young people of delegating the budget for court-ordered secure remands to local authorities; and if he will make a statement. [292609]

Maria Eagle: Responses to the Youth Crime Action Plan consultation indicated that we should look broadly at how we can best incentivise local authorities to invest in alternatives to custody. The Youth Justice Board is, therefore, exploring options as to how we might do this, including the potential of devolving budgets for Court Ordered Secure Remands as set out in the Youth Crime Action Plan and the potential for devolving wider custody budgets. We recognise this is a complex issue and proper consideration needs to be given to the implications of any changes to the placement of vulnerable young people. That is why the Youth Justice Board is undertaking a full analysis before providing advice to ministers in due course.

Vetting: Scotland

Chris Huhne: To ask the Secretary of State for Justice how many employees in his Department and its agencies in England and Wales were subject to a basic disclosure check by Disclosure Scotland in each year since 2002. [294158]

Bridget Prentice: In April 2007, the requirement for Baseline Personnel Security Standard (BPSS) came into effect. In May 2007 the Ministry of Justice was established and implemented BPSS with a Disclosure Scotland security check ratio of 1:5 of all new joiners (who are not subject to a Criminal Record Bureau standard or enhanced security checks).

The central recording of the numbers of Disclosure Scotland checks commenced from 1 October 2008 and up to 19 October 2009 there have been 505 checks. For the period 2002 to September 2008 it is not possible to provide the number of Disclosure Scotland checks because the Ministry holds no central records for it and its predecessor organisations. To obtain this information will require the examination of all employee records and this will incur a disproportionate cost.

The National Offender Management Service (NOMS) security vetting framework has not and does not currently use Disclosure Scotland to undertake any checks for the organisation. NOMS uses the Criminal Records Bureau (CRB) to conduct their minimum baseline security checks.

TREASURY

Adjudicator's Office: Complaints

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what the average time taken to reach a decision by the Adjudicator's Office following the receipt of a complaint from a member of the public in respect of *(a)* a complaint relating to the Tax Credit Office and *(b)* an application for compensation from the Tax Credit Office was in each of the last five years. [294638]

Mr. Timms *[holding answer 20 October 2009]:* The average time the Adjudicator's Office takes to reach a decision on a case, measured from acceptance of the complaint, for tax credits is:

	Weeks
2004-05	25
2005-06	18
2006-07	22
2007-08	21
2008-09	39

The Adjudicator's Office annual report sets out the reasons behind the recent increase in time taken to reach a decision, and the plans in place to address this. The annual report is available at

http://www.adjudicatorsoffice.gov.uk/pdf/report2009.pdf

The Adjudicator's Office considers compensation in each case as part of the complaint handling process; no separate application is required. As such no separate figures for compensation applications are available.

Child Tax Credit: Overseas Residence

Jim Cousins: To ask the Chancellor of the Exchequer (1) in respect of how many children ordinarily resident outside the UK payments of child tax credit are being made; and what checks on the residence of children are made before payment of such tax credits; [293174]

(2) what his policy is on obtaining evidence of a child's country of residence in relation to payment of child benefit; and what information he has on the number of children receiving child benefit who are not ordinarily resident in the UK. [293170]

Mr. Timms *[holding answer 15 October 2009]:* Information about the payment of child tax credit to families with children resident outside the UK is only available at disproportionate cost. Data is available on child benefit awards to EEA nationals in respect of children resident in another member state and I refer the hon. Member to the answer given to my hon. Friend the Member for Bassetlaw (John Mann) on 13 October 2009, *Official Report,* column 787W.

Child benefit and child tax credit is intended to help families in the UK. Generally, therefore, it is not payable in respect of children resident outside the UK. However, under EC coordinating regulations on social security for migrant workers and their families, which the UK has administered since it joined the European Economic Community in 1973, a European Economic Area (EEA) national working in one member state can claim family benefits (child tax credit together with child benefit) in that member state in respect of members of their family resident in other member states.

All claims for family benefits are subject to a wide range of checks throughout the life of each claim. Where claims for family benefits are made under the EC Regulations on behalf of children living in another member state, HMRC carry out further checks to verify the information provided by the customer to prevent erroneous or fraudulent claims. These checks include requiring the relevant authorities in the member state where the worker's family resides to confirm the composition of the family and to find out whether there are any family benefits in payment in that other member state.

Child Trust Fund: Leeds

John Battle: To ask the Chancellor of the Exchequer how many children in Leeds West constituency had received child trust fund payments on the latest date for which figures are available. [294018]

Sarah McCarthy-Fry: The most recent constituency level statistics on child trust fund accounts can be viewed on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/ctf/cons-stats-oct08.pdf

and show that 4,534 children born before 6 April 2007 in the Leeds West constituency have a child trust fund account.

Departmental Procurement

Mr. Prisk: To ask the Chancellor of the Exchequer what percentage of procurement contracts *(a)* his Department and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293243]

Sarah McCarthy-Fry: It would not be possible to identify from records held centrally by HM Treasury or its agencies which businesses were classified as small or medium-sized enterprises at the time when contracts were awarded to them without incurring disproportionate costs.

Departmental Visits Abroad

David Simpson: To ask the Chancellor of the Exchequer how much his Department spent on overnight accommodation for *(a)* Ministers and *(b)* officials while overseas in each of the last three years. [294697]

Sarah McCarthy-Fry: The requested information is not available, as the Treasury's accounting system does not record accommodation costs separately from subsistence spending.

Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Northern Rock

Mr. Todd: To ask the Chancellor of the Exchequer when the independent valuation of Northern Rock will be completed. [294006]

Sarah McCarthy-Fry: I refer the hon. Member to the written answer I gave to the hon. Member for South Derbyshire on 19 June 2009, *Official Report*, column 548W.

Royal Mint

Lorely Burt: To ask the Chancellor of the Exchequer what recent progress has been made on the disposal of the Royal Mint; and if he will make a statement. [291894]

Ian Pearson: Royal Mint is owned 100 per cent. by Government. It is currently vesting the business of the Royal Mint Trading Fund into a company structure, with the intention of completing the process by the end of this year. Vesting will have no impact on the ownership of the Royal Mint.

Taxation: Property

Mr. Swayne: To ask the Chancellor of the Exchequer how many penalties have been imposed by HM Revenue and Customs on estates as a consequence of a difference between the official valuation of a property and the final sale price in the last 12 months; how many such penalties have been challenged; how many such challenges have been upheld; and how much revenue accrued to the Exchequer from the imposition of such penalties. [294125]

Mr. Timms: The precise information requested is available only at disproportionate cost as HM Revenue and Customs' systems do not allow for identification of penalties imposed specifically due to a difference in the initial valuation of a property and the final sale of price of that property

Inheritance tax (IHT) rules require all assets—including property—in an estate to be valued for IHT purposes at the point immediately before the deceased's death. Where a property is subsequently sold within four years of this for less than the value on which IHT was paid 'loss on sale' relief may be claimed.

In the last 12 months penalties have been charged in 17 cases as a result of undervaluation of some part of the estate, resulting in approximately £120,000 of additional revenue accruing to the Exchequer

The numbers of penalties challenged and those subsequently upheld are not available.

Valuation Office: Expenditure

Mrs. Spelman: To ask the Chancellor of the Exchequer how much the Valuation Office Agency has spent on its automated valuation model for *(a)* council tax and *(b)* business rates. [294653]

Ian Pearson: The Valuation Office Agency do not record these costs separately for council tax and business rates.

Valuation Office: Rightmove

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer to my hon. Friend the Member for Ludlow (Mr. Dunne) of 14 September 2009, *Official Report*, column 2134W, on the Valuation Office: data protection, whether the Information Commissioner's Personal Data Flowchart guidance on domestic property data was taken into account when the Valuation Office Agency signed its contract with Rightmove.co.uk to obtain property data. [294366]

Ian Pearson: The contract is between HMRC and Rightmove.co.uk and predates the Personal Data Flowchart Guidance.

Welfare Tax Credits: Fraud

Steve Webb: To ask the Chancellor of the Exchequer (1) how much and what percentage of tax credits overpaid as a result of fraud have been recovered in each of the last five years; and if he will make a statement; [293573]

(2) how much of the sum overpaid in tax credits as a result of fraud has been classified as *(a)* recoverable and *(b)* unrecoverable in each of the last five years; and if he will make a statement. [293574]

Mr. Timms: The precise information requested is not available. HM Revenue and Customs (HMRC) does not keep separate records on the level of recoverable debt arising from compliance checks.

Information on tax credits debt and HMRC's estimates of tax credits error and fraud are provided in Trust Statement section of HMRC's departmental accounts.

HMRC's departmental accounts for the last five years are available at:

HEALTH

Dental Services

Mr. Lansley: To ask the Secretary of State for Health what percentage of dentists graduating from medical schools in England were not working in the NHS *(a)* three and *(b)* five years after qualification in each year since 1997 for which figures are available. [294355]

Ann Keen: We do not hold information about the number of dentists working privately, but almost all new dental graduates undertake one year's vocational training in a dental practice with a major national health service commitment. We are also aware that it is some years before a newly qualified dentist can build up a significant private practice and that most dentists work in mixed practice providing both NHS and private dentistry. There is no evidence of a shortage of dentists willing to take NHS contracts when they are offered.

Miss McIntosh: To ask the Secretary of State for Health what estimate he has made of the number of tooth *(a)* extractions and *(b)* fillings carried out under the NHS in each year since 1997. [294575]

Ann Keen: Information is not available in the format requested.

The estimated full year number of clinical dental items delivered, by patient type during 2003-04 and 2008-09, is available in Tables 1 and 2 for England and Tables 7 and 8 for Wales in the "Provisional Clinical Dental Report, England and Wales: Quarter 3, 31 December 2008—Experimental Statistics" report.

This publication carries the label "Experimental statistics". Experimental statistics are new official statistics undergoing evaluation. They are published in order to involve users and stakeholders in their development and as a means to build in quality at an early stage.

Note that as the nature of the dental contract was different in 2003-04 to 2008-09, covering a differing range of services, with different data collection practices and funding regimes in place, there are a number of reasons why figures are not fully comparable across the two years. The figures published should be treated with the caution appropriate to all experimental data.

This report, published on 19 August 2009, has been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/clinicaldental0809q3

Miss McIntosh: To ask the Secretary of State for Health what the budget for NHS dental services has been in *(a)* Vale of York constituency, *(b)* Yorkshire and the Humber and *(c)* England in each year since 1997. [294576]

Ann Keen: Prior to April 2006, most primary dental services were provided under former General Dental Service (GDS) arrangements. These were demand led services where the pattern of dental expenditure was largely determined by where dentists chose to practice, and how much national health service work they chose to undertake.

The NHS Information Centre for health and social care published the following report on 26 March 2008: "NHS Expenditure for General Dental Services and Personal Dental Services: England 199[illegible]8—2005-06". This report has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalexpend1997to2006

The report includes information on primary dental care expenditure by parliamentary constituency, primary care trust (PCT) and strategic health authority (SHA) area for 1997-98 to 2005-06 in Tables A3 and B3 of Annex 3. Table A3 relates to 'gross' expenditure and table B3 relates to 'net' expenditure. 'Gross' expenditure refers to the full cost of the payments recorded; 'net' expenditure reflects the cost of these payments to the NHS after the deduction of income from NHS dental charges paid by patients.

This information is based on the old contractual arrangements which were in place up to and including 31 March 2006. Further notes to aid interpretation of the information are shown in the 'Contents and Notes' page of Annex 3. The data will not be directly comparable with data based on the new dental service framework introduced from 1 April 2006.

The former GDS arrangements were replaced with effect from 1 April 2006, when PCTs were given responsibility for planning and commissioning primary dental services and provided with local, devolved, dental budgets. The primary dental service funding allocations made to the North Yorkshire and York PCT, the aggregate allocations to all PCTs within the Yorkshire and the Humber SHA, and the aggregate allocations to the NHS in England, for each of the four years since PCTs assumed full responsibility for primary dental care services, are in the following table. These are net of income from dental charges paid by patients, which are retained locally by PCTs to supplement the resources available for dentistry. PCTs may also dedicate some of their other NHS resources to dentistry if they consider this an appropriate local priority. Allocations are not apportioned by individual constituencies or towns; PCTs determine the distribution of resources within their area on the basis of local needs and priorities. Actual expenditure levels are determined by the pattern and type of services commissioned by each PCT and are recorded in the notes to PCT accounts.

Primary dental service net funding allocations

£000

	2006-07	*2007-08*	*2008-09*	*2009-10*
North Yorkshire and York PCT	25,195	26,894	30,088	31,392
Yorkshire and the Humber SHA	186,918	198,973	222,180	237,653
England	1,764,700	1,872,442	2,081,000	2,257,000

Notes:

1. The PCT allocation figure for 2006-07 is the aggregate of the allocations made initially to the Craven, Harrogate and Rural District, Hambleton and Richmondshire, Scarborough, Whitby and Ryedale, and Selby and York PCTs before they merged to form the North Yorkshire and York PCT with effect from 1 October 2006.

2. PCTs are awarded separate funding allocations to meet the cost of any dental vocational trainees who may be placed with dental practices in their area. The funding totals for the Yorkshire and Humber SHA, and England, include funding for vocational trainees.

Miss McIntosh: To ask the Secretary of State for Health how many units of dental activity in *(a)* band 1, *(b)* band 2 and *(c)* band 3 have been carried out by dentists in (i) Vale of York constituency, (ii) North Yorkshire and (iii) England in each year since 2006. [294577]

Ann Keen: Information is not available in the format requested.

The number of units of dental activity performed in England by treatment band in 2006-07, 2007-08 and 2008-09 is available in Table B3 of Annex 3 of the "NHS Dental Statistics for England: 2008-09" report. Information is provided by primary care trust and strategic health authority but is not available at constituency level. This information is based on the new dental contractual arrangements, introduced on 1 April 2006.

This report, published on 19 August 2009, has already been placed in the Library and is available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalstats0809

Dental Services: Children

Miss McIntosh: To ask the Secretary of State for Health what estimate he has made of the number of schoolchildren who received *(a)* screenings and *(b)* advice from dentists providing NHS services in each year since 1997. [294574]

Ann Keen: There is no information held centrally on which we could base an estimate of the number of children who still receive dental screening examinations in school. The National Screening Committee advised that that there is no evidence to support universal screening for dental disease among children aged six to nine years. In the light of this expert advice, we have concentrated on targeted initiatives like the Brushing for Life scheme which provides for families with young children to receive toothpaste and brushes at child health clinics or Sure Start centres, together with advice on how the children can be seen by a dentist.

Data published by the NHS Information Centre for health and social care showed that 7,643,000 children and young people aged under 18 were seen by a primary care national health service dentist in the 24-month period ending June 2009. This is equivalent to 69.5 per cent. of the population aged under 18.

Dental Services: Standards

Miss McIntosh: To ask the Secretary of State for Health how much funding has been recovered by the NHS as a consequence of targets for level of units of dental activity not being met in each year since 2006. [294572]

Ann Keen: Providers of national health service dental services have contracts with primary care trusts (PCTs) that set out the agreed annual contract sum and the corresponding level of services to be provided over the course of the year. These annual service levels are expressed mainly in terms of 'units of dental activity', which measure courses of treatment according to their relative complexity. Dental providers who under-deliver by up to 4 per cent. may carry this forward and make up the activity in the following year. Where a provider has delivered less than 96 per cent. of the agreed annual service level, it is at the PCTs discretion whether the undelivered activity is carried forward to the following year or an appropriate proportion of the annual contract sum is refunded to the PCT. This is a matter for PCTs to decide locally in the light of individual circumstances, and their decisions are not collected or held centrally.

Dental Services: Working Hours

Mr. Lansley: To ask the Secretary of State for Health with reference to paragraph 18 of his Department's evidence to the 2010 review of doctors' and dentists' remuneration, how many hours of NHS work dentists conducted in England in total in *(a)* each calendar year since 1997 for which figures are available and *(b)* each financial year since 1997-98 for which figures are available. [294356]

Ann Keen: Information for the annual hours of national health service dental work is not available.

Information on the normal weekly hours of dentists in the period since 1997 is set out in Table 19 of the NHS Information Centre (IC) for health and social care publication entitled "Dental Working Hours England and Wales 2006-07 and 2007-08". The publication has been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalworkinghours0708

The IC's report records that a study in 2000 found that dentists worked an average of 39.4 hours; the IC's Dental Working Hours Analysis recorded averages of 36.6 hours in 2006-07 and 37.0 hours in 2007-08. There were differences in the coverage of the surveys.

The 2000 survey does not give a complete split of weekly hours into NHS and private dental work and so a weekly NHS hours estimate is not available for the year 2000.

For 2006-07 and 2007-08 dentists provided estimates of the percentage of time spent on NHS work: 71.4 per cent. in 2006-07 and 70.8 per cent. in 2007-08 so that weekly NHS hours were 26.1 hours and 26.2 hours respectively.

The IC in its publication "NHS Dental Statistics for England", a copy of which has already been placed in the Library, report that 20,815 dentists performed some NHS dental activity in 2006-07 in England and

21,343 dentists some dental activity in 2007-08. However, some of these dentists did not work for the whole year. So these figures cannot be used to produce estimates of total annual hours worked.

In researching the information requested we have, however, noticed a small error in paragraph 18 of the Department's evidence to the Doctors' and Dentists' Review Body (DDRB) for the 2010 review. As noted, the survey which collected data for 2006-07 and 2007-08 (a single questionnaire for the two years) in fact showed a small increase in the average hours worked for the NHS by dentists doing some NHS work from 26.1 hours in 2006-07 to 26.2 hours in 2007-08. We shall be writing to the DDRB to correct this error.

Mental Health Services: Leeds

Greg Mulholland: To ask the Secretary of State for Health what estimate he has made of the amount spent on transferring patients with mental health problems from Leeds to treatment centres outside the Leeds area during the period April 2007 to March 2009. [294730]

Ann Keen: This information is not collected centrally. This information may be obtainable direct from the Leeds Primary Care Trust.

Greg Mulholland: To ask the Secretary of State for Health what steps he is taking to improve standards of mental health care in Leeds. [294731]

Phil Hope: The responsibility for providing healthcare, including specialist mental health care services, rests with primary care trusts (PCTs). The Department provides funding for PCTs to commission, or provide healthcare for their local populations from national health service or independent sector providers. We are not prescriptive about how individual PCTs spend their budgets and each PCT decides its own spending levels for specific healthcare treatments and services.

Since 2001-02, total planned investment in adult mental health services has increased by 50 per cent. (£2.0 billion), putting in place the extra services and staff needed to transform mental health services. Nine consecutive years of increased spending by the NHS on mental health services has provided more staff, and increasing numbers of people with a severe mental illness are receiving treatment from community teams outside of hospital settings.

Our significant investment in the Improving Access to Psychological Therapies programme (IAPT), will see annual funding rising to £173 million, 3,600 extra therapists trained and 900,000 more people treated by 2011. This investment in IAPT will help to add to the existing provision of psychological therapies, increase capacity, reduce waiting times and drive up quality standards.

Social Services: Disabled

Mr. Harper: To ask the Secretary of State for Health whether he plans to reform the care and support system for disabled people of working age; and if he will make a statement. [294740]

Phil Hope: The Care and Support Green Paper "Shaping the Future of Care Together", published on 14 July 2009, set out the Government's vision for a National Care Service that is universal, fair, affordable, clear and helps people to live their lives the way they want to. The Green Paper applies to all adults in England.

It is vital that everybody gets involved in the Big Care Debate to have their say on the future direction of the new care and support system. The consultation closes on 13 November 2009.

INTERNATIONAL DEVELOPMENT

Copenhagen Summit

10. **Danny Alexander:** To ask the Secretary of State for International Development what discussions he has had with his EU counterparts on the international development aspects of the forthcoming Copenhagen climate change summit. [294279]

Mr. Douglas Alexander: The General Affairs and External Relations Council has two sessions each year on development issues. Climate change was a focus of the May meeting and we will again be looking at climate change at the November meeting, as well as ensuring that we are represented at these meetings. I take numerous opportunities to discuss the road to Copenhagen with my EU counterparts.

Maternal and Child Mortality

11. **Mr. Sarwar:** To ask the Secretary of State for International Development what assistance his Department gives in *(a)* drafting and *(b)* implementing national plans for the reduction of maternal, newborn and child mortality in countries in receipt of aid from his Department. [294280]

Mr. Michael Foster: Maternal and child health is a priority for the Department for International Development (DFID). In Africa and Asia we work closely with partner governments in developing national health plans to tackle maternal and child health and deliver better services for the poorest.

At the UN General Assembly, we pledged £100 million to assist Nepal, Malawi, Ghana, Liberia, Burundi and Sierra Leone to expand access to free health care. This will save millions of women and children's lives.

Food Security: Africa

12. **Ms Keeble:** To ask the Secretary of State for International Development what steps his Department is taking to ensure security in the supply of food for people in developing countries in Africa. [294281]

Mr. Thomas: The UK supports agriculture, rural development and food security programmes in 18 countries across Africa, contributing £73 million last year including £20 million on food security in Ethiopia. We are providing additional assistance this year for the Horn of Africa. We provide support through multilateral institutions. We support Africa's vision for a doubling of agricultural production over the next 20 years to secure food supplies over the longer term.

Millennium Development Goals

13. **Mr. Tom Clarke:** To ask the Secretary of State for International Development what recent assessment he has made of the Government's contribution to the achievement of the millennium development goals. [294282]

Mr. Douglas Alexander: The UK Government are committed to delivery of the millennium development goals through its public service agreement on international poverty reduction. Our July White Paper set out how we will respond to new challenges building a platform for further action on poverty beyond 2015. The latest assessment of the Government's contribution to the achievement of the millennium development goals is contained in DFID's 2009 annual report, also published in July and available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Aid Target

14. **Jim Sheridan:** To ask the Secretary of State for International Development what progress has been made towards the achievement of the UK's target of spending 0.7 per cent. of gross domestic product on overseas aid. [294283]

Mr. Douglas Alexander: The Government remain committed to delivering 0.7 per cent. of GNI as official development assistance by 2013. We have recently announced plans to introduce legislation to ensure the commitment is met. In 2008 UK official development assistance stood at 0.43 per cent. of GNI in line with the trajectory set out in the 2007 comprehensive spending review and will reach at least 0.56 per cent. by 2010-11.

Afghanistan: Infant Mortality

Mr. Sarwar: To ask the Secretary of State for International Development what assistance his Department has given to the Government of Afghanistan to help in reducing levels of infant mortality. [293682]

Mr. Douglas Alexander: The Department for International Development (DFID) supports the Afghan Government in reducing levels of infant mortality through the Afghanistan Reconstruction Fund (ARTF). DFID has provided £360 million to the ARTF since 2002, and is planning a further £165 million to 2013. This will cover around 14 per cent. of the total operating costs of the Afghan health sector.

In Helmand, the UK is supporting the Afghan Government's efforts to improve health care through the cross-departmental conflict fund and the provincial reconstruction team.

Government of Afghanistan programmes in the health sector have achieved the following results:

Full immunisation of children has risen from 15 per cent. in 2003 to 27 per cent. in 2006

The number of Afghan midwives has increased from 467 in 2002 to 2,167 in 2008;

82 per cent. of the population now live in a district with access to basic healthcare across the country, compared with 9 per cent. in 2003. As a result, an estimated 40,000 more Afghan children will see their fifth birthdays this year compared to 2002.

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for International Development how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293335]

Mr. Douglas Alexander: The requested information could not be provided without incurring disproportionate cost.

Eritrea

Mr. Moore: To ask the Secretary of State for International Development what the Government's policy is on the provisions of the development agreement reached between the European Commission and Eritrea in September 2009; and if he will make a statement. [293770]

Mr. Thomas: The UK Government welcome the new European Commission Country Strategy for Eritrea that it signed with the Government of Eritrea in September 2009. This will provide €122 million between 2009 and 2013 to help the Eritrean people improve governance and reduce poverty and food insecurity. Over half of the population live below the national poverty line.

The development co-operation is part of the broader partnership between the European Union and Eritrea based on the Cotonou Agreement of June 2000. As part of Article 8 of this agreement, there will be political dialogue between the parties on political and human rights issues.

Eritrea: International Broadcasting

Mr. Moore: To ask the Secretary of State for International Development pursuant to the answer of 14 September 2009, *Official Report,* column 496, on Eritrea: international broadcasting, what requests for funding to support Radio Erena his Department has received in the last three years; and if he will make a statement. [29376[illegible]]

Mr. Thomas: The Department for International Development (DFID) has not received any requests for funding to support Radio Erena in the last three years.

Eritrea: Overseas Aid

Mr. Moore: To ask the Secretary of State for International Development what assessment he has made of the freedom of access for non-government organisations and aid agencies to assist people in Eritrea; and if he will make a statement. [293769]

Mr. Thomas: Freedom for non-government organisations and aid agencies to operate within Eritrea is limited due to constraints put in place by the Government of Eritrea. The Government of Eritrea does not consider these organisations to have a significant role to play in either the development of the country or in addressing relief needs. After agreeing a limited travel itinerary with the

Eritrean authorities, Department for International Development (DFID) officials were able to visit partner agencies in Eritrea in August of this year.

Georgia: Armed Conflict

Mr. Sanders: To ask the Secretary of State for International Development what steps his Department has taken to assist those displaced as a result of the conflict in Georgia in August 2008. [293123]

Mr. Michael Foster: In response to the conflict in August 2008 the Department for International Development (DFID) initially committed £2 million to humanitarian agencies providing assistance to affected civilians in Georgia and the Russian Federation (RF). Of this £1 million was allocated to the International Committee of the Red Cross for their operations in Georgia and North Ossetia in the RF. £550,000 was allocated to the United Nations High Commissioner for Refugees (UNHCR), £250,000 was given to the United Nations Office for the Coordination of Humanitarian Affairs, and £200,000 to the Hazardous Areas Life-Support Organisation (HALO).

In December 2008, DFID provided a further £2 million humanitarian aid to be channelled through UNHCR. This provided Internally Displaced People (both pre and post 2008 conflict) with "winterised" shelter and continued access to basic provisions.

Iraq Committee of Inquiry

Mr. Hague: To ask the Secretary of State for International Development (1) whether he has received a request to give evidence to the Chilcot Inquiry; [293559]

(2) how many *(a)* Ministers and *(b)* officials in his Department have received requests to give evidence to the Chilcot Inquiry; and if he will make a statement. [293564]

Mr. Michael Foster: I refer the right hon. Member to the answer that will be given by my right hon. Friend, the Prime Minister today.

Literacy: Developing Countries

Greg Mulholland: To ask the Secretary of State for International Development what recent steps he has taken to improve levels of literacy in the world's 10 poorest countries. [294293]

Mr. Michael Foster: The Department for International Development (DFID) is committed in partnership with other donors, to the realisation of all six goals of the Education for All (EFA) agenda.

Through our long-term commitment to provide £8.5 billion in support of education overseas to 2015, we are supporting poor countries to invest in quality basic education, including lower secondary, to ensure that children attain the fundamental skills they need to participate in social and economic life.

DFID has recently directly supported adult literacy programmes in Uganda, Kenya, India and Yemen, as well as through humanitarian aid programmes. In India, DFID supports the accelerated Tara Akshar Reading programme, a fast track programme aiming to teach people to read in 50-hours over a period of 30-days. In Yemen, DFID and participating donors are financing a substantial basic education programme which includes support to both primary and adult basic education.

Party Conferences

Mr. Don Foster: To ask the Secretary of State for International Development whether any of his Department's non-departmental public bodies sent representatives to attend one or more political party conferences in 2009. [293479]

Mr. Michael Foster: The Department for International Development's non-departmental public body, the Commonwealth Scholarship Commission (CSC), did not send representatives to any of the political party conferences.

COMMUNITIES AND LOCAL GOVERNMENT

Communications Annual Report 2008-09

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to his Department's Communications Annual Report 2008-09, if he will place in the Library a copy of the evaluation report for *(a)* the Home buying and Home selling communications campaign, *(b)* the eco-towns campaign and *(c)* the promoting take-up of online council services on waste and recycling campaign. [292888]

Barbara Follett: The information is as follows:

(a) The purpose of the Home buying and selling campaign was to provide information to buyers, sellers and estate agents about changes in the law, and directed people online for more detail. It was evaluated through the number of visits to the campaign website for which I refer the hon. Member to the information on the Department's website published at the time of the Department's 2008-09 Annual Report:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

(b) The purpose of the eco-towns campaign was to promote the consultation process. It was evaluated through the number of visits to the consultation micro-site at 34,189 visitors and the number of consultation responses at 7,500 at the end of the consultation period.

(c) The evaluation report on the online council waste and recycling campaign will be placed in the Library.

Community Infrastructure Levy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the Community Infrastructure Levy will be applied to new *(a)* affordable housing and *(b)* social housing developments. [294086]

Mr. Ian Austin: The Government are currently seeking views on proposals as to whether and how the Community Infrastructure Levy should apply to affordable or social housing developments in its consultation regarding the introduction of the Community Infrastructure Levy which was launched on 30 July 2009 and will conclude on 23 October 2009. No final decisions have yet been made.

Council Tax: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many of the Valuation Office Agency's full-time equivalent staff work on valuations for council tax purposes. [294099]

Barbara Follett: In the last full year, 2008-09, the Valuation Office Agency used 714 full-time equivalent staff for council tax purposes.

Departmental Responsibilities

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which Minister in his Department has responsibility for architectural policy. [292691]

Mr. Ian Austin: My right hon. Friend the Secretary of State for Culture, Media and Sport has responsibility for building design; and that Department is responsible for architectural design policy and sponsors the Commission for Architecture and the Built Environment (CABE).

However, Communities and Local Government also recognises the value of architecture, and the importance that good design in architecture and the built environment plays in creating sustainable communities. My right hon. Friend the Secretary of State for Communities and Local Government has appointed me to take forward this work for this Department. I also have the responsibility for the Department's work with CABE, which we jointly sponsor with DCMS to ensure that the architectural design agenda is embedded across Government.

In addition, the Secretary of State for Communities is accountable to Parliament for the Architects' Registration Board (ARB). This is the UK's Statutory Regulator for Architects, and is responsible for the registration of architects and the prescription of architectural courses as described in the Architects Act 1997.

Eco-Towns

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much his Department and its agencies have spent on each budgetary heading related to communications, marketing, public relations, design and media on eco-towns. [292557]

John Healey: I refer the hon. Member to the information published on the Department's website alongside its 2009 annual report:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

Energy Performance Certificates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what representations his Department has received on Energy Performance Certificates taking into account energy efficiency derived from air source heat pumps; and if he will review the methodology used to rate air source heat pumps for home information pack purposes. [294429]

John Healey: The Department has received a number of representations concerning the energy efficiency and environmental performance ratings achieved by dwellings that use air source heat pumps (ASHPs) as a source of heating on Energy Performance Certificates (EPCs). Reduced Data Standard Assessment Procedure (RDSAP), the methodology used to generate EPCs for existing dwellings, takes into account a wide range of construction materials and building features, including ASHPs. RDSAP is derived from Standard Assessment Procedure (SAP) both of which are kept under constant review and upgraded on a regular basis to take account of new building technologies.

English Partnerships: Redundancy Pay

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) how much English Partnerships spent on redundancy payments when it was dissolved; and how many people received such payments; [292619]

(2) how many people made redundant by English Partnerships have subsequently been hired as employees, contractors or consultants by the Homes and Communities Agency. [292643]

Mr. Ian Austin: When English Partnerships dissolved it spent £368,000 on redundancy payments in relation to five staff. Information on redundancy payments on the three most senior members of staff, including its Chief Executive, was reported on in its final set of accounts, for 2008-09, which was published on its website at:

http://www.englishpartnerships.co.uk/corporateinformation.htm

Copies were also lodged in the Vote Office.

The Homes and Communities Agency has no record centrally that any of these former staff have subsequently been hired by the Homes and Communities Agency as employees, contractors or consultants.

Fire Services

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to my hon. Friend the Member for Peterborough (Mr. Jackson) of 10 March 2009, *Official Report*, column 315W, on the New Dimension Programme, if he will place in the Library a copy of the report by NERA UK Ltd on the New Dimension Programme. [289629]

Mr. Malik: The report will be placed in the Library of the House shortly.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effectiveness of the FireGuard project. [292893]

Mr. Malik: The Fireguard Project Board, chaired by the Chief Fire Officers Association, assessed the technical and financial aspects of the project, including affordability. Firebuy, the national procurement body for the English Fire and Rescue Service, undertook the procurement process for the project at the request of 33 fire and rescue authorities, led by the Chief Fire Officers Association. This Department did not make any separate assessment of the project.

Fire Services: Crimes of Violence

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many sickness days were taken as a result of an assault on a Fire Service staff member in each fire and rescue authority in the most recent year for which figures are available; how many days were lost per firefighter on average due to assault in that year; and what the estimated cost of such losses is to each fire authority was in 2008-09. [289294]

Mr. Malik: The information requested is not held centrally and could be provided only at disproportionate cost.

Fire Services: Industrial Disputes

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what contingency arrangements have been made for the use of fire appliances in the event of a strike by firefighters; which appliances would be used; and if he will make a statement. [294132]

Mr. Malik: The National Framework for the Fire and Rescue Service states that fire and rescue authorities must have a plan to provide such level of cover as it regards appropriate during emergencies, including industrial action, and ensure the availability of all necessary vehicles and equipment. Unless the fire and rescue authority has alternative arrangements, we would expect such vehicles to be sourced from their existing fleets.

Fire Services: Manpower

Mr. Vara: To ask the Secretary of State for Communities and Local Government how many firefighters were employed at fire stations in *(a)* each local authority area in the East of England and *(b)* England in each of the last 10 years. [289395]

Mr. Malik: The numbers of firefighters based at fire stations is not held centrally and could be provided only at disproportionate cost.

The total numbers of whole-time and retained firefighters for each fire authority is held centrally and are shown in the following tables for *(a)* fire authorities in the east of England and *(b)* England.

Number of whole-time firefighters, 1999 to 2008

	1999	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

(ii) Fire and Rescue Service Operational Statistics Bulletin

Fire Services: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance his Department has given to fire and rescue authorities on their Service Improvement Plans. [292807]

Mr. Malik: Fire and Rescue Authorities produce Service Improvement Plans as part of the Integrated Risk Management Planning process.

FRAs are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover for fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly.

A range of guidance on the drawing up of IRMPs has been issued to FRAs and is available on the Communities and Local Government website.

Fire Services: Working Hours

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to fire and rescue authorities in the last 24 months on the European Working Time Directive and retained firefighters. [292626]

Mr. Malik: The Department has not issued any guidance to fire and rescue services on the EU Working Time Directive and retained duty system firefighters in the last 24 months. "Integrated Risk Management Planning Guidance Note 6", which gives general guidance on how the Working Time Regulations might affect the fire and rescue service and was issued in 2004, remains current.

Homelessness

Simon Hughes: To ask the Secretary of State for Communities and Local Government how many people have *(a)* applied to their local authority for housing and *(b)* been designated as intentionally homeless following a repossession in each of the last three years. [294071]

Mr. Ian Austin: CLG does not hold information on the number of households who, following repossession, apply to their local authority for housing and are found intentionally homeless.

CLG issued supplementary guidance to local housing authorities in August on how they should exercise their homelessness functions, and apply the various statutory criteria, when considering whether applicants who are homeless having lost their home because of difficulties in meeting mortgage commitments are intentionally or unintentionally homeless. This guidance reminded authorities about the correct questions they must ask when deciding whether a former homeowner has become homeless intentionally.

Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether a full impact assessment has been produced relating to the costs of the provisions in the Lifetime Homes Standard on building a house. [293360]

Mr. Ian Austin: In June 2007 the Department published a consultation on "Making a Rating Mandatory" within the Code for Sustainable Homes. This included an impact assessment which identified costs and benefits of building to the Lifetime Homes Standards. The document can be downloaded at:

http://www.communities.gov.uk/documents/housing/doc/Thefutureofthecode.doc

We will be consulting on proposed changes to the Code for Sustainable Homes in due course and this will include our proposal to make Lifetime Homes Standards mandatory at Code Level 4. The consultation will be supported by a full impact assessment.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether his Department carried out an impact assessment of *(a)* the revision of Planning Policy Guidance 3 and *(b)* its policies on (i) density and (ii) brownfield classification in 2000. [294138]

Mr. Ian Austin: An Impact assessment was undertaken for PPG3 but the impact assessment undertaken for PPS3 has superseded the assessment for PPG3. This assessment is available on the Communities and Local Government website:

http://www.communities.gov.uk/publications/planningandbuilding/pps3ria

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the errors were in the House Building Statistical Release published on 20 August 2009 which caused it to be withdrawn. [294883]

Mr. Ian Austin: The errors in the House Building Statistical Release published on 20 August 2009 affected the numbers of starts and completions reported for the June quarter 2009.

In line with the UK Statistics Authority's Code of Practice for Official Statistics, we will be publishing a revised release as soon as possible. Once a release date for the corrected figures is known this will be announced on the UK National Statistics publication hub and the Communities and Local Government departmental release calendar.

Housing: Energy

Margaret Moran: To ask the Secretary of State for Communities and Local Government what *(a)* research his Department has undertaken on and *(b)* resources his Department has committed to assist the preparedness of the house construction industry to meet new environmental energy-saving targets for new homes in the last 12-months. [292783]

Mr. Ian Austin: Communities and Local Government has commissioned and contributed to a range of research projects on the energy performance of new homes in the last 12-months. These projects were carried out to help inform the recent consultation to revise Part L (Conservation of fuel and power) of the Building Regulations and proposals to both strengthen performance standards and improve compliance with these standards.

Officials have liaised with construction industry including housebuilders in the drawing up of these proposals, which includes a training and dissemination strategy.

My Department has also been working with industry on our policy that all new homes will be zero carbon from 2016. Delivery of the policy is supported by the Zero Carbon Hub partnership who are looking at areas where additional skills and training are needed. All this work has been resourced as part of normal business planning.

Margaret Moran: To ask the Secretary of State for Communities and Local Government what recent discussions he has had with representatives of the construction industry on its preparedness for new environmental and energy-saving targets. [292784]

Mr. Ian Austin: The Department has been engaging with representatives of the construction industry on meeting the requirements of zero carbon policies for new buildings and on preparing for the introduction of new water and energy efficiency standards in Building Regulations planned for 2010.

Margaret Moran: To ask the Secretary of State for Communities and Local Government what *(a)* research his Department has undertaken on and *(b)* resources his Department has committed in the last 12 months to the various trades in the construction industry on ensuring existing homes meet the new environmental and energy-saving standards. [292785]

Mr. Ian Austin: Building work on existing homes was included in proposals to strengthen energy efficiency standards as part of the recent consultation to revise part L (conservation of fuel and power) of the Building Regulations.

Housing: Regeneration

Jim Cousins: To ask the Secretary of State for Communities and Local Government how much has been spent on each Housing Market Renewal Pathfinder; what the total expenditure has been; how many properties have been demolished in each; and how many new *(a)* affordable and *(b)* market price properties have been built in each. [293169]

Mr. Ian Austin: Total allocations from 2002-03 to 2009-10 for the nine original HMR pathfinders are given in the table:

HMR pathfinder	*2002-03 to 2009-10 (£ million)*[1]
Birmingham Sandwell	139
East Lancashire	270
Hull and East Riding	113
Manchester Salford	322
Merseyside	295
Newcastle Gateshead	200
North Staffordshire	178
Oldham Rochdale	184
South Yorkshire	245

[1] Includes preparation and early actions.

From 2006-07, approximately £75 million has also been allocated to the three areas of wider lower demand; Tees Valley, West Yorkshire and West Cumbria making a total of more than £2 billion allocated to the HMR programme since 2002-03.

Total new build, refurbishment and demolition figures for HMR pathfinder areas, from the beginning of the programme to March 2009, are given in the table. Data differentiating affordable and private new build housing are not held in a readily available format and could be provided only at disproportionate cost.

HMR pathfinder	*New build*[1]	*Refurbishments*[1]	*Demolitions*[1]
Birmingham Sandwell	224	8,700	1,300
East Lancashire	16	4,300	2,000
Hull and East Riding	167	400	600
Manchester Salford	935	12,300	2,800
Merseyside	1,059	9,900	1,600
Newcastle Gateshead	274	5,100	2,400
North Staffordshire	198	6,200	1,400
Oldham Rochdale	323	3,200	800
South Yorkshire	538	9,000	3,100

[1] HMR funded: as set out in the funding agreements between HMR pathfinders and CLG/HCA.

Housing: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what obligatory standards his Department imposes on developers of *(a)* social and *(b)* private sector housing regarding dwelling space standards. [294460]

Mr. Ian Austin: With regard to social housing, I refer the hon. Member to the answers I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 5 May 2009, *Official Report*, column 127W and the hon. Member for Peterborough (Mr. Jackson) on 11 March 2009, *Official Report*, column 506W.

With regard to private sector housing, the Government's planning policy for housing (PPS3) is clear on the need to achieve high quality new housing, which includes consideration of the amount and use of space within and around the home.

Housing: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the Valuation Office Agency's policy is on providing information to householders on the methodology by which their property was valued when such requests are made under Section 18(2)(h) of the Commissioners for Revenue and Customs Act 2005. [294600]

Barbara Follett: The Valuation Office Agency (VOA) may consider the value of a householder's property for various different purposes including council tax, right to buy (RTB), compulsory purchase and national taxes such as inheritance tax and capital gains tax. For council tax detailed information on the methodology adopted is available on the VOA's website at:

www.voa.gov.uk

For other purposes if the householder is the person to whom the valuation relates (for instance is buying their property under RTB or is the subject of a taxation assessment) the VOA will either as a matter of normal business or upon request, provide appropriate details of the methodology used in valuing the property.

Legal Opinion

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to my hon. Friend the Member for Peterborough (Mr. Jackson) of 11 March 2009, *Official Report*, columns 488-9W, on legal opinion, what the nature of the legal opinion and the associated issue of law was that was obtained in relation to the *(a)* FiReControl Project, *(b)* Firelink Project, *(c)* Gypsy and Traveller Sites Grant Project and *(d)* Home Information Pack Register Project. [292855]

Barbara Follett: Legal advice was provided on a regular and ongoing basis. The majority will be protected by Legal Professional Privilege or commercial confidentiality or both. Providing detailed information about advice obtained would be at disproportionate cost.

Local Government and Public Involvement in Health Act 2007

David Howarth: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 21 May 2009, *Official Report*, column 1547W, on the Local Government and Public Involvement in Health Act 2007, what factors arising from his Department's consultation exercise are contributing to the delay in the implementation of Part 6 of the Act. [290313]

Barbara Follett: We will publish shortly our response to the consultation paper 'The Making and Enforcement of Byelaws', having considered in particular the issues of ensuring a robust process of consultation between a council and the community before the making of any byelaws and their enforcement.

Local Government: Conditions of Employment

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether an assessment has been made of the effect on local authorities of the ruling of the European Court of Justice on allowing workers to claim sick leave while away on holiday leave; and if he will make a statement. [292550]

Mr. McFadden: I have been asked to reply.

We are of course aware of the recent judgment from the ECJ on Francisco Vicente Pereda *v.* Madrid Movilidad SA. We are carefully considering the potential implications not only for the public sector but all employers and will make our conclusions known in due course.

Local Government: Co-operation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether he has assessed the consequences of the Court of Appeal judgment in the case of Brent borough council v Risk Management Partners Limited on *(a)* two-tier joint working in local authorities and *(b)* his Department's Total Place pilots. [293532]

Ms Rosie Winterton: The Court of Appeal judgment in the case of Brent borough council *v.* Risk Management Partners Ltd. confirmed that local authorities are entitled to co-operate with each other in the performance of their functions. We have provided local authorities with a power to establish and participate together in mutual insurance corporate bodies through the Local Democracy, Economic Development and Construction Bill. We have not specifically assessed the consequences of the judgment on two-tier joint working in local authorities or the Department's total place pilots.

Local Government: Research

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to page 14 of his Department's Resource Accounts for 2008-09, HC 449, which local government research projects have been *(a)* delayed and *(b)* cancelled. [294665]

Barbara Follett: A research project scheduled for 2008-09 on 'The New Local Area Performance Framework estimation of impact' was commissioned later than expected in September 2009. A project to study 'Joint delivery of Public Services in an Area' was no longer required due to the emergence of initiatives such as the total place pilots.

Mortgages: Government Assistance

John Battle: To ask the Secretary of State for Communities and Local Government how many people in Leeds West constituency have *(a)* applied for and *(b)* been granted assistance under the Homeowners Mortgage Support Scheme in each quarter since the scheme's inception; and if he will make a statement. [293942]

John Healey: Homeowners Mortgage Support is part of the range of assistance available at every stage to households struggling with their mortgage. The scheme encourages lenders to allow households who have suffered a temporary income shock to defer some of their interest payment, if this is necessary to make their monthly payment affordable. The Department plans to publish information in December on the number of households who have been helped through Homeowners Mortgage Support. Statistics from the Financial Services Authority show that more than 135,000 borrowers were benefiting from forbearance offered by their lender at the end of June 2009, an increase of 17 per cent. on the previous quarter.

John Battle: To ask the Secretary of State for Communities and Local Government what steps his Department is taking to increase public awareness in Leeds West constituency of measures to assist homeowners with mortgage repayments; and if he will make a statement. [293944]

John Healey: CLG have launched a new national campaign to help struggling homeowners across the country take control of their finances and make the most of the support available for them to avoid repossessions and stay in their homes.

National press and online advertisements are highlighting the measures the Government have put in place at every stage for homeowners to avoid repossession. The advertisements point people to an advice line and a new website illustrating the practical steps they can take to resolve their mortgage repayment worries, as well as contacts for the wide range of support available.

Multiple Occupation: Licensing

Robert Neill: To ask the Secretary of State for Communities and Local Government in which local authorities discretionary schemes for Houses of Multiple Occupation licensing are in the process of being approved. [290418]

Mr. Ian Austin: The Department is currently considering applications for discretionary additional HMO licensing schemes from Oxford city council, Breckland council and the London boroughs of Hillingdon, Ealing and Harrow.

The Department has granted approval to Peterborough city council and the London borough of Hounslow to operate discretionary additional HMO licensing schemes.

National Policy Statements

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the timetable is for the publication of the drafts of each of the National Policy Statements on planning. [293363]

Mr. Ian Austin: I refer the hon. Member to the answer given by my right hon. Friend the Minister for Housing (John Healey) on 19 October 2009, *Official Report*, column 1315W, to question 292854 on National Policy Statements (NPSs) for the timetable for the preparation of the first tranche NPSs on nationally significant infrastructure.

The remaining four NPSs are being produced on a longer time frame. We intend to consult on the waste water NPSs in spring 2010 and hazardous waste NPS in summer 2010, and aim to designate them in 2011. We intend to consult on the airports NPS by 2011 with a view to designating it later that year. Finally we intend to consult on the water supply NPS in late 2010 once the final water resource management plans are published, which are needed to inform the NPS, with the aim of designating that NPS by early 2012.

New Economics Foundation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what payments his Department has made to the New Economics Foundation since its inception; and for what purposes each such payment was made. [294510]

Barbara Follett: The Department has not made any payments to the New Economics Foundation to date in this financial year.

Non-Domestic Rates: Advertising

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether a billboard site with no poster is deemed to be an empty property for the purposes of empty property rates relief. [294100]

Barbara Follett: I refer the hon. Member to the answer previously given to the hon. Member for Bromley and Chislehurst (Robert Neill) on 11 February 2009, *Official Report*, columns 2065-066W.

The legal provisions on the rating of hereditaments where advertising rights are concerned are complex and the legal position will very much depend on the exact facts at play. However, in many cases it is the right to use a boarding or other structure for advertising which is the hereditament and, therefore, which is rateable. In such circumstances that hereditament is considered occupied for rating purposes whether or not the advertising right is being exercised.

Non-Domestic Rates: Valuation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many and what proportion of hereditaments in London are *(a)* above and *(b)* below the £50,000 rateable value threshold according to (i) the 2005 Rating List and (ii) the latest modelling for the 2010 Rating List. [294092]

Barbara Follett: The HMRC figures published for the 2005 Ratings List at April 1 2009 show a total of 280,000 hereditaments in London. Of these, 240,000 hereditaments (86 per cent. of all London hereditaments) were equal to or were below the £50,000 threshold, while 40,000 hereditaments were above that threshold (14 per cent. of all London hereditaments).

The draft 2010 Ratings List has a total of 280,000 hereditaments in London. Of these 230,000 hereditaments (82 per cent.) of all London hereditaments) were equal to or below the £50,000 threshold and 50,000 hereditaments were above that threshold (18 per cent. of all London hereditaments). The dataset used is consistent with the consultation document titled: "The transitional arrangements for the non-domestic rating revaluation 2010 in England", published on 8 July 2009.

http://www.communities.gov.uk/publications/localgovernment/nndrrevaluation2010

Please note all figures have been rounded to the nearest 1,000.

Non-Governmental Organisations: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of quasi-autonomous non-governmental organisations operating at local level which receive funding from the public purse. [293235]

Tessa Jowell: I have been asked to reply.

Non-departmental public bodies (NDPBs) operate at both national and regional level. Some, but not all of these, deliver services locally. According to Public Bodies 2008, as at 31 March 2008 there were 790 NDPBs sponsored by the UK Government. This is a fall of 67 (8 per cent.) since 1997. Copies of Public Bodies 2008 are available from the Libraries of the House. Public Bodies 2009 will be published in the New Year.

Parking: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what information his Department holds on the revenue raised by local authorities from parking *(a)* fines and *(b)* charges in the latest year for which figures are available. [294147]

Barbara Follett: The latest outturn information for England on the revenue raised by local authorities from on-street parking was as follows:

Penalty charge notice income: £333.5 million;

Other sales, fees and charges: £324.5 million.

These were published in Annex A5 of the 'Local Authority Revenue Expenditure and Financing England 2007-08 Final Outturn' on the Communities and Local Government website at:

http://www.communities.gov.uk/publications/corporate/statistics/revenue200708finaloutturn

Parking: Supermarkets

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what recent representations his Department has received on the merits of levying charges to park at supermarkets; [292889]

(2) what representations his Department has received on supermarket parking charges to be issued by local authorities under the Sustainable Communities Act 2007. [294134]

Barbara Follett: The Department has not received any representations on supermarket parking charges to be issued by local authorities under the Sustainable Communities Act 2007 ('the Act'). In line with the Act, the Secretary of State is co-operating with the Local Government Association in its capacity as the selector as it considers proposals submitted under the Act and draws up a short-list for the Secretary of State to consider.

The Local Government Association is considering proposals submitted under the Act and has received two proposals on supermarket parking charges;

> Exeter city council—in summary the proposal is for Government to give Exeter city council the power to retain revenue from locally imposed non-domestic rates on store car parking spaces, with the power for the Council to allow discounts to stores that source at least 30 per cent. of goods from within 30 miles of Exeter (and which are not first transported to a distribution centre more than 30 miles away).
>
> Lewes district council—in summary the proposal is for the Secretary of State to take power, or to give local authorities the power, to levy non domestic rates on all store car parking spaces with a power for the council to allow discounts (perhaps up to 100 per cent.) if the supermarket or other store, sources a stated percentage of goods for sale locally.

Planning Permission: Agriculture

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what changes have been made to planning protection arrangements for farmland classified as Best and Most Valued since May 1997; and whether impact assessments were undertaken on the likely effects on England's agricultural capacity of such change. [294136]

Mr. Ian Austin: Planning Policy Guidance note 7 "The Countryside, Environmental Quality and Economic and Social Development" (PPG7), published in February 1997, was amended by a policy statement issued by the then Planning Minister, my right hon. Friend the Member for Greenwich and Woolwich (Mr. Raynsford), on 21 March 2001 to reflect the policy proposals of the Rural White Paper, "Our Countryside: The Future" (2000) that decisions about proposed development affecting BMV agricultural land should take account of the overall value of the land and that agricultural quality should be treated as one factor. Full details were given in response to the hon. Member for Brentwood and Ongar (Mr. Pickles), *Official Report*, columns 1339-40W.

The policy in the statement was subsequently carried forward (in 2004) into Planning Policy Statement 7: "Sustainable Development in Rural Areas" (PPS7) without change. Draft PPS7 was accompanied by a published impact assessment.

However, DEFRA have recently published "Safeguarding our Soils: A Strategy for England". This announced that they will publish a new toolkit for planners in 2010 to help them to take account of soil functions, including soil carbon storage, in the planning system, and work with this Department to review the effectiveness of the existing planning policy to protect important soils, and whether there is a need to update the policy.

Planning Policy Statement 4

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government who responded to his Department's consultation on draft Planning Policy Statement 4. [293157]

Mr. Ian Austin: A list of the respondents to the Draft Planning Policy Statement 4 will be included as part of the summary of consultation responses which we will publish shortly.

Regional Planning and Development: East of England

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether letters have been sent to local authorities in *(a)* the East of England and *(b)* the South East by the relevant Government Office on the weight to be given to draft regional spatial strategies; and what guidance is being given to local authorities on the weight to be given to elements of regional spatial strategies which are subject to legal action pending the outcome of that action. [293156]

Mr. Ian Austin: Policies relating to two districts in the East of England have been remitted to the Secretary of State for further work on the sustainability appraisal. Policies relating to two further districts in the South East of England are currently subject to legal challenge. All other policies in the regional spatial strategies for both the East of England and the South East should be treated as with full development plan status.

Government office for the East of England have published a statement on their website. Further advice for the South East will follow the outcomes of the legal challenges.

Regional Planning and Development: South West

Robert Neill: To ask the Secretary of State for Communities and Local Government what the latest timetable is for approval of the South West Regional Spatial Strategy. [290474]

Mr. Malik: The Government announced on 25 September 2009 that they will carry out a further appraisal of whether its proposals for the Regional Spatial Strategy for South West England (SW RSS) are the most sustainable way forward for the Region.

In light of the appraisal's findings, the Government will then decide what action to take to complete the strategy to provide the clarity and certainty about the future framework for growth in the region which all partners are keen to see.

Shared Ownership Lending Working Group

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the membership of the Shared Ownership Lending Working Group is; what terms of reference have been set for the Group; and on what dates the Group has met. [illegible]

John Healey: The Shared Ownership Lending Working Group is an official led group comprising representatives from Communities and Local Government, the Council of Mortgage Lenders, the National Housing Federation, the Homes and Communities Agency and the Tenant Services Authority.

The working group is examining how to overcome some of the potential barriers and disincentives to shared ownership lending. The group has met on four occasions to-date i.e. 9 June, 15 July, 19 August and 14 September.

Social Rented Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what steps his Department plans to take in response to the report by Professor John Hills' on social housing and social mobility. [294146]

Mr. Ian Austin: John Hills' report has made a significant contribution to the debate about the role of social housing. This Government have taken decisive action to address the challenges raised in John's report and the challenges raised by the current economic climate. We have committed to investing £7.5 billion over two years to deliver up to 112,000 affordable homes and around 15,000 private homes, including £340 million to support local authorities in delivering new council housing. I am also introducing a range of major reforms to the social and private rented sector. This includes the consultations I have recently published on a devolved system of responsibility and funding for council housing, a major review of the private rented sector and changes to social housing allocations to give people confidence that councils allocate housing in their area fairly, and the initiative I have launched to clamp-down on fraud in the social sector. In addition, I will be setting out further details of the Government's plans to support housing recovery and ensure people have access to decent homes later this year.

Social Rented Housing: Tenants

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if he will take steps to encourage social landlords to allow social tenants to engage in home working. [illegible]

Mr. Ian Austin: Government are working with social landlords to encourage greater levels of employment among tenants.

Street Warden Scheme: Clothing

Mr. Watson: To ask the Secretary of State for Communities and Local Government what guidance he has issued to local authorities on use of stab-proof vests by street wardens. [illegible]

Mr. Malik: This Department has not issued guidance to local authorities on the use of stab-proof vests by street wardens. It is for local authorities, and other organisations employing wardens, to decide how their wardens should be equipped, in the light of local circumstances and health and safety requirements.

Town and Country Planning Association: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to page 21 of his Department's Resource Accounts for 2008-09, HC 449, how much his Department has budgeted for payment to the Town and Country Planning Association in 2009-10 for work on eco-towns. [294658]

John Healey: We are currently agreeing an eco-towns work plan with the Town and Country Planning Association (TCPA) as we move into the implementation stage of the Eco-towns programme, following publication of "Planning Policy Statement: eco-towns". As part of this the TCPA will complete the series of best practice worksheets to support those taking forward eco-towns, and we have allocated £22,000 in 2009-10 for this work.

Travelling People: Caravan Sites

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many and what proportion of planning appeals relating to Traveller sites (1) were *(a)* granted and *(b)* dismissed in the two years prior to the introduction of Circular 01/06; [292577]

(2) have been *(a)* granted and *(b)* dismissed since the introduction of Circular 01/06. [292995]

Mr. Ian Austin: The Planning Inspectorate's data base does not record planning appeals in this way.

ENERGY AND CLIMATE CHANGE

Warm Front Scheme

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to reduce the additional amount householders in receipt of a grant from the Warm Front Scheme pay. [294123]

Mr. Kidney *[holding answer 20 October 2009]:* On 23 April we announced our intention to increase Warm Front grant levels from £2,700 to £3,500 (or from £4,000 to £6,000 where oil or a low carbon technology is recommended).

The number of households that are now asked to make a contribution to the cost of works has reduced from around one in five households, to one in 10.

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change how many households in Coventry have received Warm Front Scheme grants to date; and what the average additional amount paid by householders was. [294124]

Mr. Kidney *[holding answer 20 October 2009]:* The following table shows the number of households in Coventry that have received assistance from the Warm Front Scheme, and the average additional amount paid by householders to 30 September 2009.

Households assisted by Warm Front in Coventry from June 2000 to 30 September 2009:

	Number/(£)
Total number of households assisted	14,821
Number of households that paid an additional amount	1,808
Average additional amount paid per household (£)[1]	394.41

[1] £394.41 is the average additional amount paid by those 1,808 households that paid a contribution.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Opium

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the monetary value of the opium crop harvested in Afghanistan in each of the last five years for which figures are available. [293680]

Mr. Ivan Lewis: The UN Office for Drugs and Crime (UNODC) provides estimates of the value of the Afghan opium crop at "farm-gate" prices (the value the farmer receives) in their annual Afghan Opium Surveys. These figures reflect changes in the opium price and poppy cultivation. The estimated values for the last five years are in the following table:

	US$ billion
2005	0.56
2006	0.76
2007	1
2008	0.732
2009	0.438

Bosnia-Herzegovina: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the outcome of the Butmir meeting on 9 October in Bosnia-Herzegovina; and what the Government's policy is on political reform in Bosnia-Herzegovina. [293783]

David Miliband: We welcome and fully support this joint EU/US push for political reform in Bosnia and Herzegovina (BiH). It provides an important opportunity to make progress on priority areas for reform in BiH and we are urging BiH's political leaders to engage fully and constructively ahead of and during the next scheduled meeting on 20-21 October 2009.

Gilad Shalit

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had since July 2009 with Arab governments on *(a)* the imprisonment of Israeli Soldier Gilad Shalit by Hamas and *(b)* the refusal of Hamas to allow Gilad Shalit visits from the International Committee of the Red Cross; and if he will make a statement. [293287]

Mr. Ivan Lewis: I raised the continued captivity of Gilad Shalit and Hamas' refusal to allow humanitarian access with the Palestinian authorities during my visit to the region in August 2009. We have also made our position on these issues very clear in international meetings, most recently in the Security Council debate on the Middle East on 14 October 2009.

Guinea

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the Government has made of the level of respect for human rights in Guinea following the violence at an Opposition rally on 28 September 2009; and if he will make a statement. [293779]

David Miliband: We believe that an accurate assessment of the human rights situation in Guinea can only be secured by an independent investigation into recent events, including the gross violations that took place on 28 September. The UK, as a member of the International Contact Group for Guinea, is actively considering with the African Union and the Economic Community of West African States the scope for an urgent independent international inquiry to conduct such an investigation.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking to assist regional mediation efforts to restore democracy and constitutional order in Guinea following the violence at an Opposition rally on 28 September 2009; and if he will make a statement. [293780]

David Miliband: As a member of the International Contact Group for Guinea, the UK is in regular contact with the Economic Community of West African States (ECOWAS) and the African Union encouraging and supporting them in their efforts to take urgent and robust action on Guinea. We support the appointment by ECOWAS of President Campoare of Burkina Faso as mediator to the current crisis in Guinea.

Iran: Nuclear Power

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Iranian Government on the development of a nuclear programme in that country in the last month; and what the outcomes were of such discussions. [293281]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary met the Iranian Foreign Minister, Manouchehr Mottaki, in the margins of the UN General Assembly on 22 September 2009. He underlined to Mr. Mottaki the need for Iran to restore the international community's confidence in Iran's nuclear programme through the path the E3+3 had laid out, stressing in particular the need for transparency.

The Foreign Secretary and his E3+3 colleagues met on 23 September 2009 and agreed on the E3+3's strategy. Following this, officials from the E3+3 and Iran met on 1 October 2009. This meeting agreed on several practical steps that, if they come to fruition, may build confidence. We look to the next meeting of the group, before the end of October 2009, to make progress on the key issues relating to Iran's nuclear programme.

Karpas

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times officials from his Department have visited Greek Cypriot people living in enclaves in the Karpas in the last 12 months; what the outcomes were of those visits; and if he will make a statement. [293722]

Chris Bryant: The British high commission frequently visit the Karpaz region and we follow events there closely. The high commissioner recently met with the Bishop of Karpaz and with the Rizokarpasso associations, where he discussed the position of the Greek Cypriot people living in the Karpaz.

Middle East: Peace Negotiations

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Quartet counterparts regarding the renewal of the tenure of the Quartet Special Envoy; and if he will make a statement. [293767]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has had no discussions with his counterparts about the tenure of the Quartet Representative.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 23 February 2009, *Official Report,* column 381, on the Middle East: peace negotiations, how many staff his Department plans to second to support the role of the Quartet Special Envoy in 2010; what the *(a)* grades and *(b)* salary ranges of such staff will be; and if he will make a statement. [293768]

Mr. Ivan Lewis: The Foreign and Commonwealth Office has currently seconded one higher executive officer equivalent (salary range £23,157 to £33,004) and one senior civil servant (salary range £58,200 to £117,750) to work in the Quartet Representative's office. There are no plans to change this.

Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will commission research on the likely numbers of Greek Cypriots who would return to live under the Turkish Cypriot administration in northern Cyprus in the event of a settlement. [293744]

Chris Bryant: No.

Somalia: Piracy

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the EU has provided to the Kenyan government to improve its naval capacity in relation to the suppression of piracy off the coast of Somalia. [292667]

Chris Bryant: The EU and its member states are eager to support capacity building in Kenya, and the Kenyan Government have been engaged in dialogue to ascertain priority needs, including regarding naval capacity. The UK, as chair of Working Group 1 of the international Contact Group on Piracy off the Coast of Somalia (CGPCS), led a needs assessment mission to the Horn of Africa in September 2009, involving the European Commission as well as other partners. The assessment identified a number of priority Kenyan naval requirements, and these will be discussed shortly among CGPCS partners.

On wider counter-piracy activity, the European Commission is supporting the UN Office on Drugs and Crime (UNODC) in the implementation of a jointly developed programme for support for the trial and related treatment of piracy suspects in Kenya. The programme budget is €1.75 million. This programme began on 15 May 2009 and will run for 18 months, with other countries also contributing to this project.

Sri Lanka

Mr. Burstow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to other EU member states on the renewal of Generalised System of Preferences plans in respect of Sri Lanka; and if he will make a statement. [293099]

Mr. Thomas: I have been asked to reply.

The issue of the renewal of Generalised System of Preferences (GSP+) in respect of Sri Lanka has been raised in several meetings with my EU counterparts. Along with other EU member states the United Kingdom supported the EU Commission's decision to initiate an investigation into Sri Lanka's effective implementation of the GSP+ conventions.

The UK Government are committed to ensuring that the GSP+ scheme is robust and effectively implemented. It is important that we treat all countries objectively and fairly, according to the GSP+ regulation. We have consistently encouraged the Government of Sri Lanka to engage constructively with the European Commission in its investigation.

UN Convention on Physical Protection of Nuclear Material

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Government plans to ratify the amendment to the UN Convention on Physical Protection of Nuclear Material; and if he will make a statement. [293138]

Mr. Ivan Lewis: The Explanatory Memorandum and Command Paper concerning the convention on the physical protection of nuclear material was laid before Parliament on 16 July 2009 for the required 21 sitting days, ending on 4 November 2009. After 4 November 2009 the instrument of ratification will be prepared by the Foreign and Commonwealth Office and signed by my right hon. Friend the Foreign Secretary. We expect to be in a position to ratify the convention by early January 2010.

USA: Nuclear Weapons

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US administration on methods by which the international stockpile of nuclear weapons may be reduced. [293314]

Mr. Ivan Lewis: President Barack Obama's engagement and leadership on nuclear non-proliferation and disarmament have intensified our already close counter-proliferation co-operation with the US.

My right hon. Friend the Foreign Secretary and US Secretary of State Hillary Clinton regularly discuss these issues, in particular the Iran nuclear case which requires regular close high-level engagement. The US values the UK's contribution.

President Obama warmly welcomed the UK's "Road to 2010" blueprint on nuclear non-proliferation launched by my right hon. Friend the Prime Minister on 16 July 2009 and Secretary of State Clinton gave strong praise to the UK's ideas leadership in the run-up to last month's historic UN Security Council Summit chaired by President Bill Clinton.

B[illegible]INESS, INNOVATION AND SKILLS

Apprentices

Mr. Brady: To ask the Minister of State, Department for Business, Innovation and Skills what his Department's estimates are for the number of apprenticeship places available in each financial year from 2009-10 to 2013-14; and what the target number of apprenticeship places for each of these years was in 2007. [291362]

Kevin Brennan *[holding answer 16 September 2009]*: The Department for Business, Innovation and Skills do not create estimates for the number of apprenticeships places that will be available each year but produce trajectories based on available funding. The Learning and Skills Council (LSC) Grant Letter 2009-10 published in November 2008 set out the planned number of LSC funded apprenticeships starts for academic years 2008/09 and 2009/10 (Table 1.1 as follows).

Table 1.1: Funded apprenticeship starts (academic years)

	Total starts
2008/09	228,000
2009/10	238,000

Note:
Agreed funding from the LSC Grant Letter 2009-10 published in November 2008.

In addition to these places, on 7 January 2009 the Prime Minister announced a £140 million package to provide an extra 35,000 Apprenticeship places over the financial year 2009-10.

Funding has not been agreed for subsequent years and so agreed trajectories for 2010/11 onwards have yet to be constructed but we are aiming to deliver 250,000 starts per year by 2020.

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills how many people *(a)* started and *(b)* completed a higher apprenticeship in the last 12 month period for which figures are available. [292443]

Kevin Brennan: Higher-level apprenticeships were introduced in the 2006-07 academic year, and are only available in a limited number of frameworks, such as engineering and ICT.

In 2007-08, there were 60 higher-level apprenticeship starts, the latest full-year for which we have data. In the first nine months of 2008-09 (provisional), there were 90 higher-level apprenticeship starts.

Due to the length of these programmes, as at 30 April 2009, there have been 10 higher-level apprenticeship framework completions.

The Department will shortly publish the Specification of Apprenticeship Standards For England (SASE), which will for the first time set out the essential components and standards for all apprenticeship frameworks. The SASE will require that all apprenticeship frameworks include clear career progression routes, including those through higher and further education. Over time, as we encourage the development of more higher-level apprenticeship frameworks, we would expect that more people will progress from an advanced apprenticeship, to develop these higher level skills.

Apprentices: Unemployment

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how many people completing apprenticeships remained unemployed two years after the apprenticeship ended in the latest period for which figures are available. [290082]

Kevin Brennan: An apprenticeship is a work-based programme and an apprentice must have a job or a work placement as a condition of completing their apprenticeship framework. Many will already be in permanent employment prior to the end of their apprenticeship. Management information on the subsequent employment of apprentices is not available.

We collect information about the destinations of learners in to learning and employment through the Framework for Excellence. We expect to review the quality and relevance of this data in the future, including the feasibility of how it can be used to identify the employment status of those learners who have completed apprenticeships.

Aspire Fund

Justine Greening: To ask the Minister of State, Department for Business, Innovation and Skills how much funding has been distributed to companies from his Department's Aspire Fund since 19 November 2008; how many companies have received such funding; and how many awards from that fund have been *(a)* below £100,000, *(b)* between £100,000 and £299,000, *(c)* between £300,000 and £499,000, *(d)* between £500,000 and £749,000, *(e)* between £750,000 and £999,000, *(f)* between £1 million and £1.49 million, *(g)* between £1.5 million and £2 million and *(h)* over £2 million. [285056]

Ms Rosie Winterton: On 7 July 2009 a first investment was completed worth £700,000 which included funding of £350,000 from the Aspire Fund. On 11 August 2009, a second offer totalling £1 million and including £400,000 Aspire funding was also completed.

There are two further deals in legal stages, one of which totals £1.5 million of funding with the Aspire Fund providing £400,000 towards that investment. The second totals £1.3 million of funding with the Aspire Fund providing £350,000 towards investment. These two deals are expected to complete in early September.

There are seven further potential deals under active consideration looking to raise £4.6 million in total, with the Aspire Fund providing approximately £2.2 million of this.

Business: Government Assistance

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps his Department has taken to assist *(a)* small, *(b)* medium-sized and *(c)* large businesses in Essex; and if he will make a statement. [280980]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave on 21 July 2009, *Official Report*, column 1689W.

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills (1) how many *(a)* start-up and *(b)* established businesses in each region had received assistance from each participating bank under the Enterprise Finance Guarantee Scheme on the latest date for which figures are available; [286233]

(2) when he plans to respond to question 286233, on the Enterprise Finance Guarantee Scheme, tabled on 8 July 2009. [292027]

Ms Rosie Winterton: The Enterprise Finance Guarantee was launched on 14 January. The tables provide details of the number and value of loans offered and drawn down by age of business for each region.

Charlie Whelan

Mr. Djanogly: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 15 October 2009, *Official Report,* column 1047W, on Charlie Whelan, whether the EU Agency Workers Directive was discussed at the meeting between the Secretary of State and Charlie Whelan on 15 January 2009. [294745]

Mr. McFadden: The EU agency workers directive was not discussed but rather employment issues in the automotive sector.

Departmental Research

Mr. Doran: To ask the Minister of State, Department for Business, Innovation and Skills what research his Department has *(a)* undertaken and *(b)* commissioned on the extent to which pension matters are included in collective bargaining negotiations; and if he will make a statement. [294310]

Mr. McFadden: Officials in BIS and DWP have undertaken several case studies examining the way particular organisations and their trade unions have addressed pension matters within the context of collective bargaining. No external research has been commissioned on this topic.

Finance: Environment Protection

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how much of the £250 million Low Carbon Industrial Strategy Fund has been *(a)* allocated and (b) spent to date on each project which has received funding. [294721]

Mr. McFadden: The first investments from the £250 million of funding for low carbon economic development in the Strategic Investment Fund were set out in the UK Low Carbon Industrial Strategy on 15 July and further investments have since also been announced. The funding that has been committed, or earmarked for specific projects and investments, includes:

Up to £120 million to support development of a British based offshore wind industry.

Up to £30 million to capitalise on Britain's wave and tidal sector strengths

Up to £10 million for the accelerated deployment of electric vehicle charging infrastructure.

A £4 million expansion of the Manufacturing Advisory Service.

£45 million to support research and technology into low carbon aeroengine projects.

£2.5 million to a Carbon Trust technology investment joint venture to help UK companies develop new low carbon technologies in China.

By way of example, specific projects supported include Wave Hub—a groundbreaking project in the south west of England creating the UK's first offshore facility for the demonstration of wave energy generation devices; and marine energy testing facilities at the New and Renewable Energy Centre (NaREC). Offshore wind investments include funding for new offshore wind manufacturing facilities in the UK and investment in the development of next generation and near-market offshore wind technologies through large scale demonstration.

The Department has published an update on the entire £750 million Strategic Investment Fund, of which the low carbon SIF is a part, and copies have been placed in the Libraries of the House.

Further Education: Hampshire

Chris Huhne: To ask the Minister of State, Department for Business, Innovation and Skills how many further education colleges in Hampshire have delayed building projects because of problems with funding from the Learning and Skills Council; and what the estimated cost of each of these projects is. [292496]

Kevin Brennan: Capital funding for Further Education colleges is administered by the Learning and Skills Council (LSC). As the information requested is with regard to an operational matter for the Council, I have asked Geoffrey Russell, the acting LSC Chief Executive, to write to the hon. Member with the further information requested.

A copy of his letter will be placed in the House Libraries.

Higher Education

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills what the undergraduate completion rate in higher education was in each higher education institution in each year since 2003. [294329]

Mr. Lammy: The Higher Education Statistics Agency (HESA) publishes the 'Performance Indicators in Higher Education' which cover projected outcomes of full-time first degree starters.

The following link shows the relevant part of the HESA website to access data since 2003:

http://www.hesa.ac.uk/index.php/content/category/2/32/141/

Table 5 covers projected outcomes of full-time first degree starters. The completion rate covers starters who are expected to gain a degree. However, the more frequently used rate is the non completion rate (projected to neither gain an award nor transfer to another institution) which accounts for starters who obtain another award, or transfer.

The completion rate tables lag behind the widening participation indicators by one year due to the need for an extra year's data to determine which students are still in HE. Therefore, the most recent figures refer to the 2006/07 academic year. Projected outcomes for the 2007/08 academic year will be available in 2010.

The UK is maintaining very good completion rates for first degrees with the latest statistics from the Organisation for Economic Co-operation and Development showing that the UK ranks 3rd of the 27 countries reporting data in this area. This has been achieved and maintained during a period when higher education has been opened up to both increased numbers and a greater diversity of students.

Higher Education: Bexley

Mr. Evennett: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of applicants from Bexleyheath and Crayford constituency who achieved the required grades but did not secure a place at a university in *(a)* 2008-09 and *(b)* 2009-10. [293534]

Mr. Lammy: The information is not held centrally. Each institution is autonomous and can set their own academic and non-academic entry requirements for each course.

Higher Education: Leeds

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills how many students who had obtained A-Levels or an equivalent qualification in Leeds North West went on to higher education during the latest period for which figures are available. [294304]

Mr. Lammy: The latest information from the Higher Education Statistics Agency (HESA) shows that in the 2007-08 academic year there were 565 all-aged undergraduate entrants to higher education from the Leeds North West constituency, who had obtained A-Levels or an equivalent qualification as their highest qualification on entry.

Figures for the 2008-09 academic year will be available from HESA in January 2010.

Legal Profession: Fees and Charges

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment the Advisory Conciliation and Arbitration Service has made of the effect of no-win no-fee lawyers in employment tribunals. [292602]

Mr. McFadden: The Advisory Conciliation and Arbitration Service (ACAS) has made no assessment of the effect of no-win no-fee lawyers in employment tribunals.

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills if he will publish the protocol on how the Advisory Conciliation and Arbitration Service responds to the intervention of no-win no-fee lawyers in employment tribunals. [292603]

Mr. McFadden: The Advisory Conciliation and Arbitration Service (ACAS) has no specific protocol on dealing with no-win no-fee lawyers in employment tribunal claims. Where parties have appointed representatives in relation to such proceedings, and wish ACAS to communicate with them through their representatives, the conciliator will do so. This applies in the same way regardless of what arrangements the party and their representative may have entered into over fees for the provision of advice and/or representation.

Manufacturing Industries: Government Assistance

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what projects have been granted funding under the advanced manufacturing package. [294722]

Ian Lucas: The advanced manufacturing package announced on 28 July 2009 provides £151.5 million of support to British manufacturers. Key projects include £45 million funding to Rolls-Royce to support four new advanced manufacturing facilities built in the UK, £45 million to support Rolls-Royce led research and technology critical to the development of low-carbon aircraft engines, £40 million investment in SAMULET research and technology programme, a £12 million expansion of the Printable Electronics Centre in Sedgefield, an additional £5 million investment from the Technology Strategy Board in collaborative R&D projects as part of its high value manufacturing competition, and a £0.5 million investment to support the development of a centre of excellence for silicon design in the south west.

Post Offices: Fife

Sir Menzies Campbell: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the extent to which Post Office services in North East Fife constituency comply with the access criteria set out in the Network Change Programme. [293978]

Mr. McFadden: I understand from Post Office Ltd. that Post Office services in North East Fife constituency comply with the access criteria as set out in the Network Change Programme. All of the local postcode districts meet the local access criteria and have done so since the criteria were introduced.

Postage Stamps: Prices

Mr. Weir: To ask the Minister of State, Department for Business, Innovation and Skills what assessment the Government have made of the effect on businesses of an increase in the price of first and second class stamps. [293434]

Mr. McFadden: Postcomm's price control proposals are subject to a current public consultation. The Government would encourage all interested or concerned parties to respond to the consultation which is due to close on October 26, 2009. More details can be found on the Regulator's website at:

http://www.psc.gov.uk/news-and-events/news-releases/2009/consultation-on-changes-to-price-control-from-april-2010.html

Mr. Weir: To ask the Minister of State, Department for Business, Innovation and Skills what recent discussions his Department has had with Royal Mail on plans to increase the price of first and second class stamps. [293435]

Mr. McFadden: Ministers and BIS officials meet with representatives from Royal Mail on a regular basis to discuss a wide range of issues, including regulatory issues. No specific meetings have been held to discuss the current price control proposals.

We would strongly encourage all interested stakeholders to respond to the current consultation which is due to close on October 26 2009. More information can be found on the regulator's website:

http://www.psc.gov.uk/news-and-events/news-releases/2009/consultation-on-changes-to-price-control-from-april-2010.html

Publishing

Gordon Banks: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department has undertaken an analysis of skills needs in the publishing industry; what assessment he has made of digital skills needs in the industry; and if he will make a statement. [292018]

Kevin Brennan: The Department supports the work of the Sector Skills Council Skillset which covers the publishing industry. Skillset began working with the publishing industry in April 2008. Since then, they have completed primary and secondary research into the size, shape and skills needs of the sector. A Publishing Skills Needs Analysis was published by Skillset at the beginning of 2009 and a copy will be placed in the Libraries of the House.

Industry consultation led by Skillset took place in the spring and a skills strategy and action plan has subsequently been produced. This has identified five strategic areas of focus. These are to develop skills for the workforce in a digital context; inform aspiring entrants of the realities of the industry and improve diversity and equality of access; develop marketing, advertising and media sales skills for the work force; identify leadership, management and business support opportunities; and bridge the gap between education and employment and the relevance of higher and further education. A number of projects are under way to address these goals.

Royal Mail

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills what volume of mail was handled by Royal Mail in *(a)* 1997, *(b)* 2005, *(c)* 2006, *(d)* 2007, *(e)* 2008 and *(f)* 2009. [294582]

Mr. McFadden: I include a table of mail volumes delivered by Royal Mail every working day for each of the years in question.

Financial year (April-March)	*Volume of mail delivered every working day by Royal Mail (to the nearest million items)*
1996-97	66
2004-05	84
2005-06	84
2006-07	83
2007-08	80
2008-09	75

Royal Mail: Industrial Disputes

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how many working days at Royal Mail have been lost owing to industrial action in each year since 2000. [294579]

Mr. McFadden: I include a table of working days lost at Royal Mail each year since 2000 owing to industrial action.

Financial year (April-March)	*Working days lost*
2000-01	62,909
2001-02	53,139
2002-03	5,766
2003-04	85,464
2004-05	7,099
2005-06	12,428
2006-07	6,921
2007-08	627,608
2008-09	1,167
2009 (April to 12 October)	130,272

Royal Mail: Meetings

Miss McIntosh: To ask the Minister of State, Department for Business, Innovation and Skills how many meetings between the management of Royal Mail and the Communication Workers Union a Minister from the Government have attended in the last 12 months; and in what capacity such Ministers attended in each case. [294547]

Mr. McFadden: Ministers have not attended any joint meetings between the management of Royal Mail and the Communication Workers Union in the last 12 months. Ministers keep in regular touch with both Royal Mail management and the Communication Workers Union.

Train to Gain Programme

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills what estimate his Department has made of the number of learners trained under the Train to Gain programme who would have received training from their employer in the absence of the programme. [290270]

Kevin Brennan: We have made no such estimate.

Train to Gain: Finance

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what plans he has to simplify the operation of Train to Gain; what the annual budget for Train to Gain is; and if he will discuss how to improve its operation with regional development agencies. [292435]

Kevin Brennan: The Department has introduced a range of measures to streamline Train to Gain for employers and skills providers and to simplify access. For example, we have brought together the Train to Gain and Business Link brokerage services to make it easier for businesses to identify the learning requirements of their staff, alongside their wider business needs. We are continuing to monitor Train to Gain with the aim of reducing paperwork and easing administrative burdens on providers.

The budget for 2009-10 is £925 million as set out in the Learning and Skills Council Grant Letter for 2009-10.

In future Regional Development Agencies will have a stronger role in articulating skills priorities for their regions, which will influence training provision through Train to Gain and other programmes.

Written Questions: Government Responses

Mr. Sanders: To ask the Minister of State, Department for Business, Innovation and Skills what the reasons are for the time taken to answer question 245130, tabled on 15 December 2008, on replies to correspondence. [286350]

Kevin Brennan *[holding answer 16 July 2009]:* I am responding to the hon. Member today.

Substantive answer from Kevin Brennan to Adrian Sanders:

I apologise to the hon. Member for the extraordinary delay in responding to his question.

The issue raised in his original correspondence was unusually difficult in terms of departmental lead, and officials mistakenly decided to wait until a decision had been made before responding to the question.

HOME DEPARTMENT

Alcoholic Drinks: Young People

James Brokenshire: To ask the Secretary of State for the Home Department how many people in each police force area were *(a)* prosecuted, *(b)* cautioned and *(c)* issued with a penalty notice for disorder for selling alcohol to a person under the age of 18 in 2008. [294206]

Mr. Alan Campbell: Data from 2008 will be available in January 2010.

Asylum: Children

Chris Huhne: To ask the Secretary of State for the Home Department how many children have sought asylum in the UK in each of the last five years; how many such children have been the subject of an age dispute; and how many such age dispute cases were resolved in favour of the asylum claimant. [289400]

Alan Johnson: The following table shows the number of asylum applications by unaccompanied asylum seeking children (UASCs) made between 2004 and 2008 and the number of applications which were the subject of an age dispute. Figures on the number of asylum applications by unaccompanied asylum seeking children involving an age dispute which were subsequently resolved in favour of the applicant are not collated by the UK Border Agency and could only be obtained at disproportionate cost.

Information on asylum is published annually and quarterly. The "Quarterly Control of Immigration Q2 2009" and the annual "Control of Immigration 2008" was published on 27 August 2009 and is available in the House Library and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Unaccompanied asylum seeking children applications received in the United Kingdom, excluding dependants, on applications and age disputed applications, 2004-08[1]

						Principal applicants
	Applications[2, 3]			*Age disputed applications*[4, 5]		
	Total	*Port*	*In country*	*Total*	*Port*	*In country*

[1] Figures rounded to nearest 5, with '*' = 1 or 2 and '-' =0 and may not sum due to independent rounding.

[2] An Unaccompanied asylum seeking child (UASC) is a person under 18, or who, in the absence of documentary evidence establishing age, appears to be under that age; is applying for asylum in his or her own right and; is separated from both parents and is not being cared for by an adult who by law or custom has responsibility to do so.

[3] Figures exclude age dispute cases.

[4] An age dispute case refers to an applicant who claims to be a child, but whose appearance and/or demeanour strongly suggests that they are 18 or over, and whose age is disputed by the UK Border Agency unless there is credible documentary or other persuasive evidence to demonstrate the age claimed.

[5] Includes cases for which age disputed at time of application.

[6] Provisional figures.

Asylum: Housing

Robert Neill: To ask the Secretary of State for the Home Department (1) in which local authority areas the UK Border Agency has housed asylum seekers who are eligible for temporary accommodation in housing owned by social landlords; [289358]

(2) in which local authority areas the UK Border Agency has rented empty social housing to accommodate asylum seekers. [289359]

Mr. Woolas: The UK Border Agency has 30 contracts with 18 suppliers on a national basis for the provision of accommodation for eligible asylum seekers.

The UK Border Agency has contracts with:

Five public sector consortia:

North West Consortium (which comprises Manchester city council, Blackburn with Darwen council, Oldham metropolitan borough council, Bolton metropolitan borough council, council of the city of Salford, Bury Metropolitan borough council and Rochdale metropolitan borough council).

West Midlands Consortium (which comprises Birmingham city council, Coventry city council, Dudley metropolitan borough council and Wolverhampton city council).

Yorkshire and Humberside Consortium (which comprises Leeds city council., The Sheffield city council, The borough council of Calderdale, Kingston Upon Hull city council, The council borough of Kirklees, The city of Wakefield metropolitan district council, The City of Bradford metropolitan district council, Barnsley metropolitan borough council, Doncaster borough council and Rotherham borough council).

North East Consortium (which comprises Newcastle Upon Tyne city council, Gateshead metropolitan borough council, Sunderland city council, Tyneside Metropolitan borough council, Middlesbrough borough council, Stockton borough council and Darlington borough council).

Northern Ireland Housing Executive

Five city councils:

Liverpool

Nottingham

Cardiff

Swansea

Glasgow

Two not-for-profit organisations:

YMCA Glasgow

Refugee Housing Association (operating in Derby, Leicester and Nottingham)

Six private sector companies

The consortia, the city councils and the not-for-profit organisations may partly or wholly source their accommodation from social landlords.

The UK Border Agency does not maintain records of which particular accommodation units are sourced from social landlords. However, unless the UK Border Agency permitted sharing within relevant law then the property would be empty before accommodating asylum seekers.

Automatic Number Plate Recognition

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 13 July 2009, *Official Report*, column 137W, on Automatic Number Plate Recognition (ANPR), what data is collected by the National ANPR Data Centre other than that ANPR data which is collected and stored locally. [289590]

Alan Johnson: The only data collected by the National ANPR Data Centre (NADC) are that which are collected and stored locally.

The NADC is currently under development and test. There are 40 police forces now supplying data and all police forces will be doing so by the end of 2009.

Information specifically relating to 2005 is not held centrally and some information would not be held on either the local or central ANPR systems.

British Nationality

Chris Huhne: To ask the Secretary of State for the Home Department how many foreign nationals have become regularised British citizens by each route to nationality in each year since 1997. [294153]

Alan Johnson: Statistics on persons granted British citizenship are published annually and quarterly in the Home Office Statistical Bulletins "British Citizenship Statistics United Kingdom, 2008" and "Control of Immigration: Quarterly Statistical Summary, United Kingdom July to September 2009". These publications may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Broadcasting Programmes: Finance

Chris Grayling: To ask the Secretary of State for the Home Department how much funding his Department allocated to support the television production Good 4 the Hood. [294483]

Alan Johnson *[holding answer 20 October 2009]:* The Home Office partnered with the youth targeted channel MTV to develop the Good 4 The Hood campaign, to engage and inspire young people to be part of the solution in overcoming crime in their local area. The Home Office has spent a total of £70,000 on production costs for the Good 4 The Hood campaign. These costs included the production of TV and online adverts, a bespoke website and the four part MTV series.

Cybercrime: EC Action

James Brokenshire: To ask the Secretary of State for the Home Department what steps he plans to take towards ratification of the European Cybercrime Convention. [294207]

Mr. Alan Campbell: The Government are committed to ratifying the Council of Europe Cybercrime Convention. We are currently working through the process of ratification, following which we will lay the required Explanatory Memorandum before Parliament to obtain approval for ratification. If Parliament agrees to ratification, the Foreign and Commonwealth Office will then commence the formal ratification process with the Council of Europe.

DNA: Databases

Jenny Willott: To ask the Secretary of State for the Home Department how many profiles have been removed from the national DNA database by each police force in each month since 9 March 2009; and if he will make a statement. [294061]

Mr. Alan Campbell: Table 1 shows the number of subject profiles removed from the National DNA Database under the exceptional case procedure, i.e. following a request to the chief officer of the responsible police force from the person concerned, in each month from 9 March 2009 to 15 October 2009. The table covers subject profiles from English and Welsh forces and the British Transport police.

Table 1: Number of subject profiles removed from the National DNA Database by each police force from 9 March 2009 to 15 October 2009

Jenny Willott: To ask the Secretary of State for the Home Department how many new profiles have been added to the national DNA database by each police force in each month since 8 July 2009; and if he will make a statement. [294062]

Mr. Alan Campbell: The figures in table 1 show the number of subject profiles added to the National DNA Database (NDNAD) by English and Welsh forces and the British Transport Police in each month between 9 July 2009 and 15 October 2009, broken down by the police force which took the sample.

The figures in table 2 show the number of crime scene profiles added to the NDNAD by English and Welsh forces and the British Transport Police in each month between 9 July 2009 and 15 October 2009, broken down by the police force which collected the sample.

The number of subject profiles held on the NDNAD is not the same as the number of individuals. A proportion of DNA profiles held on the NDNAD are replicates, that is, a profile for a person has been loaded on more then one occasion (this may be because the person gave different names, or different versions of their name, on separate arrests, or because of upgrading of profiles). It is currently estimated that 13.8 per cent. of subject profiles held on the NDNAD are replicates. The replication rate of 13.8 per cent. should only be applied over the entire database however, as the replication rate for individual police forces varies considerably. The presence of these replicate profiles on the NDNAD does not impact on the effectiveness and integrity of the database.

Table 1

James Brokenshire: To ask the Secretary of State for the Home Department how many and what proportion of recorded crimes were detected using DNA profiles from the National DNA Database in 2008-09. [294209]

Mr. Alan Campbell: The number and proportion of recorded crimes detected in which a DNA match was available in 2008-09 is shown in table 1. It is also important to note that the detections are achieved through integrated criminal investigation, not through DNA alone. The source of the figures provided is the Forensic performance data, which is collected from police forces by the Home Office.

The figures for the number of crimes detected in which a DNA match was available only include crimes detected in which a DNA match was reported by the National DNA Database (NDNAD). They do not include DNA matches which arise through case work in serious crime, which usually involve comparing DNA profiles in a forensic laboratory, or DNA matches arising from one-off speculative searches of the NDNAD. Data on DNA matches from casework and speculative searches are not included in the police Forensic performance data.

The presentation of crimes detected with DNA as a proportion of total recorded crime undervalues the relative contribution of DNA to the crime detection rate. It should be noted that the majority of recorded crimes do not have a crime scene (for example, minor assault, drugs offences, theft, fraud etc.) and do not have a crime scene examination. In 2008-09, just under 797,000 crimes had a crime scene examination (17 percent of recorded crimes). In those crimes which have a crime scene examination, some do not yield any forensic material (DNA or fingerprints). In 2008-09, potential DNA material was collected at 99,402 crimes; and of these, 39,795 crimes yielded DNA crime scene samples of sufficient quantity and quality for profiling and loading to the NDNAD. Of the 39,795 crimes in which a crime scene sample profile was loaded, a match was generated in 36,727 crimes.

The proportion of 'crimes detected in which a DNA match was available', of those, 'crimes where potential DNA material was collected' is shown in table 2.

Table 1

2008-09	*Number/ percentage*
Detected crimes in which a DNA match was available ('DNA detections')	17,607
Additional detections arising from the DNA match[1]	14,602
Total detected crimes in which a DNA match was available or played a part	32,209
Total recorded crime	4,708,872
Proportion of 'total crimes detected in which a DNA match was available or played a part' of total recorded crime (percentage)	0.68

Table 2

2008-09	*Number/ percentage*
Detected crimes in which a DNA match was available ('DNA detections')	17,607
Additional detections arising from the DNA match[1]	14,602
Total detected crimes in which a DNA match was available or played a part	32,209
Crimes where potential DNA material collected	99,402
Proportion of 'crimes detected in which a DNA match was available' of 'crimes where potential DNA material collected' (percentage)	32.40

[1] Additional detections may result from the original crime with the DNA match due to the identification of further offences through forensic linkage or through admission by the offender.

Dorset Police: Olympic Games 2012

Annette Brooke: To ask the Secretary of State for the Home Department what the timetable is for each of the work streams relating to policing by Dorset Police of the events of the London 2012 Olympic Games to be held in Portland. [294372]

Alan Johnson *[holding answer 20 October 2009]*: Dorset Police are fully engaged in each of the security projects that will contribute to the safety and the security of the sailing events at Weymouth and Portland.

Funding will be released from project budgets when it is required to meet agreed operational needs, about which the Home Office is in discussion with the Association of Chief Police Officers, as well as the individual affected forces. The Home Office also needs to take into account the needs of other security agencies, affordability within the total funding available, and how to secure value for money. Funding will be kept under constant review to reflect the overall Olympic security requirement, including the needs of Dorset.

Fingerprints: Databases

Chris Huhne: To ask the Secretary of State for the Home Department how many people on the national fingerprint database aged *(a)* under 10, *(b)* 10 to 15, *(c)* 16 to 17 and *(d)* 18 or more years old had no conviction, caution, formal warning or reprimand recorded on the police national computer. [294184]

Alan Johnson: The national fingerprint database does not hold criminal conviction data; it stores biometric data and basic identity details which can be used to align identity with records on the Police National Computer (PNC). The PNC is an operational tool and not designed to produce the information requested. To obtain the information would incur disproportionate cost.

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department what estimate he has made of the monetary value of work carried out at each UK Forensic Science Service centre in each of the last five years; and what recent assessment he has made of the effectiveness of the centres in carrying out their work. [293641]

Mr. Alan Campbell: The Forensic Science Service Ltd. does not manage its revenue streams by individual sites but records its income across the company. The revenue figures from 5 December 2005, when the company was vested as a Government-owned company are:

5 December 2005 to 31 March 2007: £210,449,000

1 April 2007 to 31 March 2008: £138,001,000.

Performance by the company as a whole and at individual sites are matters for company management. The ability of the company to meet the required standards is governed by the United Kingdom Accreditation Service.

Forensic Science: Digital Technology

James Brokenshire: To ask the Secretary of State for the Home Department what the average time taken to process forensic evidence contained on computer disks and other digital media was in each police force area in the latest period for which figures are available. [294211]

Mr. Hanson: No information is collected centrally on the average time taken by police forces in England and Wales to process forensic evidence contained on computer disks and other digital media.

Identity and Passport Service: Absenteeism

Pete Wishart: To ask the Secretary of State for the Home Department how many staff absences there were in the Identity and Passport Service in each month of the last 12 years. [289518]

Mr. Woolas: The available information is given in the following tables.

IPS can only provide monthly sickness statistics for two years as we do not have cleansed and validated figures for the rest of the period. Due to elapsed time, we cannot convert the raw data into a suitable format without incurring disproportionate cost.

Figures for staff employed shown are FTE (full-time equivalents) which are the data readily available, representing permanent IPS staff. The General Register Office (GRO) became part of IPS with effect from April 2008 when it moved from the Office for National Statistics. The figures that have been supplied do not include GRO as the staff records for these staff were not migrated onto the IPS system until 1 April 2009.

[2] Within YTD target

[3] Outside YTD target

Note:

IPS currently reports on staff by:

Regional passport office locations (Liverpool, Peterborough, Glasgow, Belfast, London, Durham, Newport)

Interview office network (ION)—as sites are so small, all offices are grouped together in one single report

Headquarters (HQ)—this will included headquarters staff who are located outside London

General Register's Office for England and Wales (GRO)

Immigration: Children

Chris Huhne: To ask the Secretary of State for the Home Department how many children were detained for immigration purposes for *(a)* less than one week, *(b)* between one week and one month, *(c)* between one month and six months, *(d)* between six months and one year and *(e)* more than one year in each of the last five years. [289401]

Alan Johnson: The information is not held centrally recorded and could be provided only at disproportionate cost.

National Statistics on children detained solely under Immigration Act powers on a snapshot basis are published quarterly. The information is published in Tables 9-11 of the Control of Immigration: Quarterly Statistical Summary, United Kingdom bulletins which are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Offences Against Children: Internet

James Brokenshire: To ask the Secretary of State for the Home Department whether he plans to bring forward legislative proposals to require internet service providers to block access to foreign websites identified as containing images of child abuse. [294210]

Mr. Alan Campbell: The Government are very clear that the use of blocking to prevent access to these images is something that internet service providers should do, and are pleased with the support from providers, which has led to 98.6 per cent. of UK consumer broadband lines being covered by blocking of sites identified by the Internet Watch Foundation as containing such illegal images. The Government recognise the work of the internet industry in reaching this figure.

It remains our hope that the target of 100 per cent. of consumer-facing ISPs operating a blocking list will be achieved on a voluntary basis and we keep progress on the 100 per cent. target under review.

The IWF publishes a list of companies that take the list. It has plans for a self-certification system so that the public will be able to identify which companies are operating an effective blocking policy.

Police: Enfield

Joan Ryan: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community safety officers there were in Enfield North constituency in each year since 1997. [294190]

Mr. Hanson: Police personnel statistics are not collected by parliamentary constituency. Enfield is a basic command unit (BCU) within the Metropolitan police. Police personnel statistics were not collected at BCU level until 2002-03.

Data by police force area, with some breakdown by basic command unit (BCU) are National Statistics and are published annually in the Police Service Strength Statistical Bulletin, available on the Home Office Research, Development and Statistics website and the House of Commons Library. The relevant weblinks for the current year's data and a table for the previous years' data for the BCU of Enfield are provided for my right hon. Friend's convenience.

Police officer strength (FTE)[1] and police community support officer strength (FTE)[1] for the basic command unit of Enfield[2]

	Officers	*PCSOs*
2003	490	—
2004	538	—
2005	575	—
2006	560	—

Police officer strength (FTE)[1] and police community support officer strength (FTE)[1] for the basic command unit of Enfield[2]

	Officers	PCSOs
2007[3]	582	119
2008	546	134

[1] These figures are based on full-time equivalents that have been rounded to the nearest whole number, due to rounding there may be an apparent discrepancy between totals and the sums of constituent items. Figures include those officers on career breaks or maternity/paternity leave.

[2] Figures as at 31 March in each of the given years.

[3] 2006-07 is the first year that that police community support officer strength by basic command unit has been collected centrally.

Police: Injuries

Chris Huhne: To ask the Secretary of State for the Home Department which police forces have adopted the procedure on reviews of injury awards set out in Annex C to Home Office Circular 46/2004. [294160]

Alan Johnson: The information is not held centrally. It is for individual police authorities to decide whether to adopt Home Office guidance in relation to carrying out their statutory duties under the Police Injury Benefit Regulations.

Police: Leeds

Greg Mulholland: To ask the Secretary of State for the Home Department how many *(a)* police officers in each year since 1997 and *(b)* police community support officers in each year since 2002 (i) were dismissed and (ii) resigned in Leeds North West constituency. [294295]

Mr. Hanson: Data on dismissals and resignations are not collected centrally at constituency level.

Police: Manpower

Jenny Willott: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* police community support officers there were in each police force in England and Wales on the latest date for which figures are available; and if he will make a statement. [294012]

Mr. Hanson: The requested data are National Statistics and are published annually in the Police Service Strength Statistical Bulletin, available on the Home Office Research, Development and Statistics website and the House of Commons Library. The relevant weblink and tables are provided for the member's convenience.

http://www.homeoffice.gov.uk/rds/policeorg1.html

Sussex	399
Thames Valley	517
Warwickshire	143
West Mercia	272
West Midlands	812
West Yorkshire	761
Wiltshire	135
Dyfed-Powys	82
Gwent	139
North Wales	159
South Wales	325
Total of 43 forces	16,507

[1] Total strength given as full-time equivalents. This and other tables contain full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

Public Telecommunications Systems

Chris Huhne: To ask the Secretary of State for the Home Department whether the Metropolitan Police, the National Police Improvement Agency and the Olympic Security Directorate have met to discuss *(a)* integration of their secure network requirements and *(b)* the potential for efficiency savings through integration. [290241]

Alan Johnson: The additional Airwave requirements for the Olympics have been identified for all emergency services across the UK. These form the basis for the contractual negotiations with Airwave Solutions Limited (ASL).

The negotiations with the emergency services ensure the system remains fully interoperable and that any potential savings for negotiating on a combined basis are achieved.

Chris Huhne: To ask the Secretary of State for the Home Department (1) whether he has received reports of any delay in the implementation of the London Secure Communications Network; [290297]

(2) what assessment he has made of progress on the schedule for roll-out of the London Secure Communications Network before the 2012 Olympics. [290298]

Alan Johnson: The enhancements to the Airwave Radio System required for the 2012 Olympics are currently on schedule

Chris Huhne: To ask the Secretary of State for the Home Department when the London Secure Communications Network will be implemented. [290459]

Alan Johnson: The implementation of the Olympic enhancements for the Airwave radio system is currently progressing against schedule, so that it is ready for the 2012 games.

Stop and Search

Chris Huhne: To ask the Secretary of State for the Home Department (1) how many people aged *(a)* under 10, *(b)* 10 to 15 and *(c)* 16 to 17 years old have been subject to police stop and search procedures in each police force area in each of the last five years; [294218]

(2) how many people aged *(a)* over 80, *(b)* 71 to 80 and *(c)* 60 to 70 years old have been subject to police stop and search procedures in each police force area in each of the last five years. [294219]

Alan Johnson: Information on stops and searches that the law requires to be reported to the Home Office does not include information on the age of persons searched.

UK Border Agency: Pay

Bob Spink: To ask the Secretary of State for the Home Department how much was paid in bonuses to *(a)* directors, *(b)* senior managers, *(c)* specialist and delivery managers and *(d)* executive support and administration staff in the UK Border Agency in each of the last five years. [281629]

Mr. Woolas: Please see the following tables for a breakdown of bonuses paid to UK Border Agency staff, including front-line officers, within the last five financial years.

I also refer the hon. Gentlemen to the previous answer provided on 29 June 2009, *Official Report*, columns 78-80W, which shows that the size of the UK Border Agency staff ranges between 15,370 and 18,838 during these years. At the same time we have also integrated the functions of the Border and Immigration Agency, UK Visas and HMRC functions at the border and now have a presence in 135 countries around the world.

The level of bonuses paid to staff in 2008-09 represents less than 0.23 per cent. of the Agency's net out-turn (budget minus income). Bonuses are only given to those who have performed to a high standard and have delivered the Agency's public commitments.

Financial year 2004-05

Civil service grade (and equivalent)	*Total amount by grade (£)*
Administrative assistant (and equivalent)	35,651.43

CHILDREN, SCHOOLS AND FAMILIES

Academies: Sponsorship

Paul Holmes: To ask the Secretary of State for Children, Schools and Families (1) for which academies an element of the committed sponsorship has been paid in kind; [293663]

(2) what audit mechanism is used to assess the monetary value of sponsorship provided in kind for academies; [293664]

(3) which academies have received their pledged sponsorship in full in cash. [293665]

Mr. Coaker: The following table identifies academies where sponsorship is a contribution to capital costs and the Department has evidence of receipt that the contribution has been paid in full. There may be cases where further sponsorship payments have already been received by the Academy Trust but not yet reported to the Department.

Traditionally procurement academies where sponsorship has been received in full

Lambeth	West London (Ealing)
Sheffield Springs	John Madejski (Reading)
Sheffield Park	The Bridge (Hackney)
The King's (Middlesbrough)	Petchey (Hackney)
Trinity - Doncaster	North Liverpool
Haberdashers' Aske's Hatcham	St Matthew (Lewisham)
Haberdashers' Knights	Langley (Slough)
Marlowe (Kent)	Leigh Technology (Kent)
Walsall	Merchants' Withywood
Grace Solihull	Excelsior (Newcastle)
Burlington Danes	Corby Business
King Solomon Academy Westminster	Landau Forte College (Derby)
City of London Southwark	City of London (Islington COLA -1)
Bexley Business	Folkestone
City Academy Hackney (COLA - H)	North Oxfordshire
Wren (Barnet)	—

The only "Endowment Sponsorship" Academy where sponsorship is in the form of contributions to an endowment fund, and has been reported to the Department as having been received in full is the Marsh Academy

(Kent). As with the first category, there may be cases where further sponsorship has already been received by the Academy Trust but not yet reported to the Department.

Sponsorship in kind is additional to formal sponsorship requirements, the Department does not therefore keep records of it.

In-kind sponsorship received by academies is recorded in their annual financial statements which are subject to external audit. The external auditor will certify, among other things, whether the financial statements give a true and fair view of the academy's incoming resources.

Children: Day Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of childcare settings have *(a)* applied for and *(b)* been granted exemption from parts of the early years foundation stage. [294068]

Dawn Primarolo: As of 15 October 2009, 18 Steiner Waldorf settings and one registered childminder have applied for exemptions from and/or modifications of the Early Years Foundation Stage (EYFS). Of those that have completed the exemptions application process, six Steiner Waldorf settings have been granted exemptions and/or modifications from certain parts of the EYFS Learning and Development requirements.

Children's Centres: West Yorkshire

John Battle: To ask the Secretary of State for Children, Schools and Families how many new Sure Start centres his Department plans to open in *(a)* Leeds West constituency, *(b)* Leeds and *(c)* West Yorkshire in the next three years; and if he will make a statement. [293948]

Dawn Primarolo: The West Yorkshire area (which covers Bradford, Calderdale, Kirklees, Leeds and Wakefield) currently has 153 Sure Start Children's Centres offering services to approximately 127,000 children, with a further 20 planned to be delivered by March 2010 in order to provide universal coverage of children's centre services for children under five and their families. Of the 153 centres, 51 are in Leeds with a further eight centres planned. Leeds West constituency has seven centres, there are no further centres planned for this constituency.

Class Sizes: Leeds

John Battle: To ask the Secretary of State for Children, Schools and Families what the pupil to teacher ratio in *(a)* primary and *(b)* secondary schools in Leeds West constituency was in the latest period for which figures are available; and if he will make a statement. [293947]

Mr. Coaker: The following table provides the within school pupil:teacher ratios in local authority maintained primary and secondary schools in Leeds West constituency in January 2009.

Pupil:teacher ratios[1] in local authority maintained primary and secondary schools[2], January 2009

Coverage: Leeds West constituency

	Number
Primary	21.7
Secondary	16.4

[1] The within school PTR is calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.

[2] Excludes academies and city technology colleges.

Note:

For statistical purposes only, pupils who do not attend both morning and afternoon at least five days a week are regarded as part-time. Each part-time pupil is treated as 0.5 FTE.

School Census

Departmental Public Expenditure

Michael Gove: To ask the Secretary of State for Children, Schools and Families which line items in table 8.4 of his Department's annual report for 2009, indents the funding allocation for *(a)* extended schools—sustainability and *(b)* extended schools-subsidy elements of the Standards Fund 2010-11 Allocations spreadsheet published on the Teachernet website. [292053]

Ms Diana R. Johnson: The funding allocation for extended schools is included in the Departmental Annual Report 2009, Table 8.4, within the line Schools, Other Standards Funds.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much he expects his Department to spend on supporting its national strategies in each of the next two years; and if he will make a statement. [293412]

Mr. Coaker: In the current year we have committed £390 million to National Strategies programmes. This includes the development and delivery of free resources to schools through the National Strategies contract as well as support to local authorities and schools to enable them to access the strategies' training and intervention programmes.

Expenditure for 2010-11 has yet to be determined and will depend upon the priorities set in the National Strategies Annual Plan which we hope to agree in December. We have already announced that the National Strategies contract will not be renewed when it comes to an end in March 2011. Instead, we will be placing resources directly into the hands of schools, giving them greater freedom to determine their improvement needs and to secure the most appropriate support.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how much has been allocated to the Youth of Today programme in each of the next five years, and under which budgetary headings such expenditure falls. [293644]

Mr. Coaker: The allocation for The Youth of Today programme is 3,416,000 in FY 2009-10 and £2,671,000 in FY 2010-11.

These costs are to deliver a fellowship programme; ministerial shadowing scheme; a local shadowing scheme; a young leader's campaign; stimulate the youth leadership sector and create a leadership progression framework; deliver a £1 million grant opportunity scheme; promote leadership in education; connect international best practice and provide youth led support and challenge to government and public services.

European Schools: Finance

Mr. Boswell: To ask the Secretary of State for Children, Schools and Families what the cost to the public purse was of payments to European Schools in respect of *(a)* teachers' salaries and *(b)* other support in the last year for which figures are available. [294031]

Mr. Coaker: In the 2008-09 financial year the cost was *(a)* circa £8,901,000 for teachers' salaries and *(b)* circa £943,000 for other support.

Family Proceedings

Steve Webb: To ask the Secretary of State for Children, Schools and Families how many children involved in Children Act proceedings in each court area are awaiting the appointment of a guardian ad litem; and what the average waiting time in each such area was in the latest period for which figures are available. [289487]

Dawn Primarolo: The information requested is set out in the following table.

Court circuit	*Cases awaiting allocation (at 15 September)*	*Total children*	*Average waiting time for cases received April to August 2009 (working days)*
London	174	272	27.2
Midlands	34	59	12.2
North East	230	364	4.9
North West	296	513	21.4
South East	65	110	12.9
South West	117	180	9.2
Total	916	1,498	13.4

There are 916 cases awaiting allocation which represents 6.9 per cent. of Cafcass' total open public law workload. All of these cases have been reviewed, prioritised and screened for risk and this is a continuous process until substantive allocation takes place. This Department has asked Cafcass to take urgent action to tackle the unallocated cases and has made available additional resources of up to £1.6 million in this financial year to do so.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils in *(a)* independent and *(b)* comprehensive schools achieved five or more A* grades at GCSE in the last year for which figures are available; [293606]

(2) how many students in academies achieved five or more A* grades at GCSE in the last year for which figures are available. [293609]

Mr. Coaker *[holding answer 16 October 2009]:* Provisional data for 2008/09 show that:

8,558 pupils (18.3 per cent.) at the end of Key Stage 4 in independent schools achieved five or more A* grades at GCSE.

12,663 pupils (2.4 per cent.) at the end of Key Stage 4 in comprehensive schools achieved five or more A* grades at GCSE.

178 pupils (0.9 per cent.) at the end of Key Stage 4 in academies achieved five or more A* grades at GCSE.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families in which 10 non-core curriculum subjects the number of GCSE entries was highest in each *(a)* comprehensive, *(b)* selective and *(c)* partially-selective local authority area in 2009. [294642]

Mr. Coaker *[holding answer 20 October 2009]:* The information can be provided only at disproportionate cost.

Mr. Brady: To ask the Secretary of State for Children, Schools and Families in which 10 non-core curriculum subjects the number of GCSE entries was highest in *(a)* maintained comprehensives, *(b)* maintained selective, *(c)* maintained secondary modern and *(d)* independent schools in 2009. [294643]

Mr. Coaker *[holding answer 20 October 2009]:* The information requested is given in the following table:

Most popular non-core subjects by school type, 2009

Rank	*Maintained comprehensive*	*Entries*	*Maintained selective*	*Entries*	*Maintained secondary modern*	*Entries*	*Independent schools*	*Entries*
1	English Literature	404,854	English Literature	21,497	English Literature	17,962	English Literature	36,755
2	History	155,557	History	11,918	Art and Design	7,216	French	26,744
3	Religious Studies	139,184	French	11,736	History	6,491	History	23,263
4	Art and Design	138,582	Geography	10,726	Geography	5,997	Geography	21,628
5	Geography	132,079	Religious Studies	8,438	Statistics	5,541	Art and Design	14,906
6	French	123,819	German	7,583	Physical Education	5,441	Religious Studies	13,632
7	Physical Education	117,584	Art and Design	6,426	Religious Studies	5,260	Spanish	11,249

Most popular non-core subjects by school type, 2009

Rank	*Maintained comprehensive*	*Entries*	*Maintained selective*	*Entries*	*Maintained secondary modern*	*Entries*	*Independent schools*	*Entries*
8	Drama	71,807	Spanish	4,885	French	4,588	Classical Studies	8,596
9	Business Studies	62,595	Business Studies	4,832	Media/Film/TV	3,227	Drama	7,937
10	Statistics	61,040	Physical Education	4,738	D and T: Resistant Materials	3,193	German	7,239

Notes:
1. These figures have been derived from the Achievement and Attainment data and cover pupils at the end of Key Stage 4 in 2009.
2. Data for 2009 are provisional and subject to change after school checking.

Gifted Children: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on the gifted and talented programme in 2008-09; and if he will make a statement. [293398]

Ms Diana R. Johnson: The Department spent £17.5 million on the gifted and talented programme in the financial year 2008-09.

History: GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils in receipt of free school meals in *(a)* maintained schools and *(b)* all schools achieved a grade A* in history GCSE in 2008; [286391]

(2) how many pupils in receipt of free school meals in *(a)* maintained schools and *(b)* all schools achieved a grade A in history A level in 2008. [286392]

Mr. Coaker *[holding answer 13 July 2009]:* Of those pupils at the end of key stage 4 who were eligible to receive free school meals in maintained schools in England, 354 achieved a grade A* in GCSE History in 2008.

52 pupils aged 16-18 (age at start of academic year, i.e. 31 August 2007) who were eligible for free school meals in maintained schools, achieved a grade A in GCE History A level in 2008.

The figures relate to pupils in maintained schools only. Information collected regarding free school meals forms part of the School Census which is only carried out in maintained schools. The free school meal information that is linked to attainment is for those eligible for free meals rather than those in receipt of.

Nurseries: West Yorkshire

John Battle: To ask the Secretary of State for Children, Schools and Families how many nursery nurses per head of population there were in *(a)* Leeds West constituency, *(b)* the City of Leeds and *(c)* West Yorkshire in each year since 2005. [293941]

Dawn Primarolo: These data are not available. However, national data on the numbers and characteristics of staff in the child care and early years workforce is collected through the Childcare and Early Years Providers Survey. The latest survey to be published in the series is for 2008 and was published at the end of September 2009. This can be found at the following website address:

http://www.dcsf.gov.uk/research/programmeofresearch/projectinformation.cfm?projectId=14590&type=5&resultspage=1

Primary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many Key Stage 1 classes there were in each year since 2001; and if he will make a statement. [293407]

Mr. Coaker: The information requested is shown in the table.

Maintained primary schools: Key Stage 1 classes[1, 2] Years: Position in January each year: 2001-09 (final) Coverage: England

Key Stage 1 classes[3]	*Total number of classes*
2001	62,480
2002	61,600
2003	57,240
2004	56,590
2005	55,860
2006	54,390
2007	53,350
2008	53,160
2009	53,500

[1] One teacher classes as taught during a single selected period in each school on the day of the census in January.
[2] Includes middle schools as deemed.
[3] Includes reception classes.
Note:
Numbers have been rounded to the nearest 10.
Source:
School Census

Primary Education: Finance

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families how many local authorities have applied for safety valve funding to meet increased demand for primary school places; how much has been allocated in each case; what steps he is taking to review the criteria used to make such allocations; and if he will make a statement. [293098]

Mr. Coaker: We are currently appraising the 51 applications we have received for the £200 million of capital funding we have secured as an interim measure to support authorities which forecast exceptional growth in demand for primary school places by 2011. In considering these applications, we have had discussions with a range of local authorities and with representative bodies including London councils and the Local Government Association, to consider the criteria we have used. Our aim is to ensure that this funding is fairly allocated to those authorities with the highest need, where funding the additional places from other resources would unduly impact on other priorities. We aim shortly to announce allocations. We are also, in the context of the next spending review, working on how to ensure that in the longer term there are high quality permanent pupil places where they are wanted.

Pupils: Per Capita Costs

John Battle: To ask the Secretary of State for Children, Schools and Families what the per pupil funding for *(a)* primary and *(b)* secondary school children in Leeds West constituency was in each of the last five years. [294015]

Mr. Coaker: The Department allocates education funding to local authorities so the requested information for Leeds West constituency is not available. The per pupil revenue funding figures for primary and secondary school pupils for Leeds local authority in 2004-05 and 2005-06 are as follows. These figures are in real terms:

Real terms revenue funding per pupil (£)—EFS plus grants

	2004-05		*2005-06*	
	Primary (aged 3-10)	*Secondary(aged 11-15)*	*Primary(aged 3-10)*	*Secondary(aged 11-15)*
Leeds local authority	3,790	4,870	4,020	5,100

Notes:
1. Price base: Real terms at 2008-09 prices, based on GDP deflators as at 30 June 2009 2. Figures reflect relevant sub-blocks of education formula spending (EFS) settlements and include the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged three-15 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.

The revenue per pupil figures shown in the following table are taken from the new Dedicated Schools Grant (DSG). They are not comparable with those for the years 2004-05 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 2004-05 to 2005-06 figures are based on education formula spending (EFS) which formed the education part of the local government finance settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG, which has been in place since 2006-07 is based largely on an authority's previous spending. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover

LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.

The per pupil revenue funding figures for years 2005-06 (baseline) to 2008-09 for Leeds local authority are provided in the table below. As the DSG is a mechanism for distributing funding, a split between primary and secondary schools is not available. The figures as follows are for all funded pupils aged three-19 and are in real terms:

Real terms revenue funding per pupil (£)—DSG plus grants pupils aged three-19

	2005-06 (Baseline)	*2006-07*	*2007-08*	*2008-09*
Leeds local authority	4,290	4,390	4,540	4,620

Notes:
1. This covers funding through the dedicated schools grant, school standards grant, school standards grant (personalisation) and standards fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.
2. Price base: Real terms at 2008-09 prices, based on GDP deflators as at 30 June 2009.
3. These figures are for all funded pupils aged three-19.
4. Figures have been rounded to the nearest £10
5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal. Figures are not yet available for 2009-10

Reading

Mr. Todd: To ask the Secretary of State for Children, Schools and Families what progress has been made towards the Government's target to extend the reading recovery scheme to 30,000 children by 2011; and how many children are currently taking part. [294007]

Ms Diana R. Johnson: Reading Recovery is a one-to-one intervention that sits within the wider Every Child a Reader (ECaR) programme. ECaR delivers a layered approach to support children at KS1 who are not reaching age-related expectations in reading. The target is to extend the ECaR programme to reach 30,000 children by 2011, and we are currently on track to meet this. Currently 19,308 children are taking part in the ECaR programme, with 12,954 of those receiving one-[illegible]ne support through Reading Recovery.

School Improvement and Targets Unit: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the annual cost of the School Improvement and Targets Unit was in the latest period for which figures are available; and if he will make a statement. [293400]

Mr. Coaker: The annual staffing cost of the School Improvement and Targets Unit in the 2007/08 financial year was £2,183,340. This was the last year that the unit was in existence as there was a reorganisation of departmental policy teams in 2008.

The unit was responsible for the New Relationship with Schools programme, schools causing concern, local authority and school target setting, the Achievement and Attainment Tables, RAISEonline and pupil assessment.

Schools: Alcoholic Drinks

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many incidents of alcohol abuse on school grounds involving minors were reported in *(a)* England, *(b)* Essex and *(c)* Castle Point constituency in each of the last five years; and if he will make a statement. [292669]

Mr. Coaker: The requested information is not available.

The Department collects information on the reasons why pupils have been excluded, either for a fixed period or permanently. This includes the category for "drug and alcohol related". This data is available for England and Essex in SFR 18/2009 'Permanent and Fixed Period Exclusions from Schools in England 2007/08' which can be accessed at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000860/index.shtml

Schools: Asbestos

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 12 October 2009, *Official Report*, column 234W, on schools: asbestos, when he expects the evaluation of responses to the questionnaire about the management of asbestos in system-built schools to be completed. [294157]

Ms Diana R. Johnson: Initial evaluation of the responses is complete. It has highlighted the need for further investigation and follow-up action. Health and Safety Executive (HSE) officials will discuss with my Department in November how to take this forward.

The response rate from Diocese and voluntary aided schools was low. With HSE we are now considering how to get information on asbestos from the voluntary aided sector.

Schools: Fire Extinguishers

Mr. Gordon Prentice: To ask the Secretary of State for Children, Schools and Families how many and what proportion of new *(a)* primary and *(b)* secondary schools were fitted with sprinklers in each year since 2005. [293379]

Mr. Coaker: It is our policy, introduced in 2007 and set out in published guidance, that all new schools should have sprinklers installed, except those assessed to be at low risk of an arson attack. It is for local authorities and other promoters of schools to carry out risk assessments, and ensure that sprinklers are installed where deemed necessary. All schools should have adequate fire precautions in place to safeguard life in the event of a fire. Sprinklers are the only fire suppression systems used in schools.

50 of the 70 (71 per cent.) secondary schools newly built under the Building Schools for the Future programme included sprinklers. The table gives these figures for each year.

	Number of new BSF secondary schools	*Number with sprinklers*	*Proportion with sprinklers (percentage)*
April 2009-present	28	20	71
April 2008 to March 2009	34	30	88
April 2007 to March 2008	5	3	60
April 2006 to March 2007	3	2	66

Of the 74 academies completed, six (8 per cent.) have sprinkler systems installed. 15 of the 19 (79 per cent.) new academy secondary school buildings planned under new funding arrangements will include sprinklers.

We do not collect data on the number of new primary schools which are fitted with sprinklers. We started to collect this data for new secondary schools in April 2009 following my hon. Friend the Member for Stroud's (Mr. Drew) parliamentary question answered on 26 January 2009, *Official Report*, column 168W.

Schools: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 2 June 2009, *Official Report*, column 442W, on schools: standards, for what reasons comparable information for each year since 1997 is not available; and for which years comparable information is available. [294148]

Mr. Coaker: The information provided in the answer of 2 June 2009 was based on a review of the department's field forces, providing support and challenge to LAs, conducted in autumn 2008. Comparable information is not available for other years since this was a one-off exercise and no equivalent exercise had been conducted in previous years. Information about the numbers and costs of all field forces has not been routinely recorded centrally for each year since 1997. To collect this information retrospectively would exceed the cost threshold of £750 applicable to central Government.

Specialist School and Academies Trust: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the income of the Specialist School and Academies Trust *(a)* was in each year from 1999 to 2000 to 2007-08 and *(b)* is planned to be in each year from 2008-09 to 2010-11, from (i) central Government grants, (ii) subscriptions from schools, (iii) private sector donations and (iv) other income; and if he will make a statement. [293410]

Mr. Coaker: The Specialist Schools and Academies Trust (SSAT) is an independent registered charity which receives income from a range of sources. As such, DCSF does not have responsibility for monitoring its income. Audited accounts are published and available from the Charity Commission.

The DCSF funds SSAT through a range of grants and contracts to support the Specialist Schools and Academies Programmes and a range of other activities designed to raise pupil achievement. The total financial contributions made by DCSF and its predecessors to SSAT over the last eight years for which we have final information are: £2.395 million in 2001-02; £4.371 million in 2002-03; £11.326 million in 2003-04; £17.796 million in 2004-05; £24.350 million in 2005-06; £35.152 million in 2006-07, £43.578 million in 2007-08 and £29.700 million in 2008-09.

This includes both grants and contracts. DCSF negotiates funding levels each year for individual grants and contracts. We are not in a position to estimate what the level of funding will be in future years—this will depend on our priorities at the time.

Teachers: Resignations

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many teachers left the profession within five years of entering it in the latest period for which figures are available; [288352]

(2) how many teachers *(a)* in (i) primary and (ii) secondary schools and *(b)* of (A) English, (B) mathematics, (C) history and (D) science left the profession within five years of entering it in the latest period for which figures are available; [288353]

(3) how many teachers who entered the profession in the maintained comprehensive sector in 2003 were still teaching in the sector in 2008; [288354]

(4) how many teachers who entered the profession in the maintained sector in 2003 teaching *(a)* in (i) primary and (ii) secondary schools and (A) English, (B) mathematics, (C) history and (D) science were still teaching in the sector in 2008. [288355]

Mr. Coaker: The data are not available in the exact formats requested. It is not possible to provide a breakdown of subjects taught by those teachers entering/leaving the profession. It is not possible to separate out comprehensive schools from the secondary school sector.

All figures provided relate to newly qualified teachers (NQTs) who entered the maintained schools sector in 2002-03 and who are still in service in 2007-08 (the most recent data available). The following table shows the percentage of newly qualified teachers who were still in service in local authority maintained schools five years after qualification.

The number of full and part-time[1] NQTs who joined the service in 2002-03, and were still in service in the maintained sector in England in 2007-08[2]

	Nursery/ primary	*Secondary*	*Total maintained sector*[3]
Entered service in 2002-2003	9,800	11,600	21,600
In service in 2007-2008[4]	7,600	8,300	16,000
Not in service in 2007-2008	2,200	3,300	5,600
Percentage in service after five years	77	72	74

[1] Teachers in part-time service are under-recorded on the DTR by between 10 and 20 per cent. and therefore these figures may be slightly underestimated.
[2] Figures relating to 2007-08 are provisional and subject to change.
[3] Total maintained sector includes teachers in maintained nursery, primary, secondary, special schools and pupil referral units.
[4] Those in service in 2007-08 will not all have been in service for the full five years, some may have left and returned to service within the five years.
Source:
Database of Teacher Records.

Overall, 21,600 NQTs entered full or part-time service in the maintained schools sector (includes nursery/primary, secondary, special and pupil referral units) in 2002-03 in England. Five years later, in 2007-08, 74 per cent. of these were recorded as still in service in the maintained schools sector in England.

Many teachers return to service after a break. In 2007-08, the latest year for which figures are available, around 8,500 qualified teachers returned to service in the maintained sector (all school types) after a break of at least one year.

Youth of Today Programme

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many young people have participated in his Department's Youth of Today programme *(a)* shadowing ministers, *(b)* as part of the fellowship programme, *(c)* shadowing local councillors, *(d)* as registered local role models since the programme's inception. [293646]

Mr. Coaker: The information is as follows:

(a) Since the inception of the programme, no young person has shadowed a Minister. There are currently 22 opportunities to shadow Ministers arranged to take place in the coming months;

(b) 276 young people have participated in the Fellowship since the inception of the programme;

(c) 23 young people have participated in the local shadowing scheme since the inception of the programme;

(d) 15 young people have registered as local role models since the inception of the programme, a recruitment drive to select a further 50 role models will be launched shortly.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many young people were involved in the Summer 2009 fellowship operated by his Department's Youth of Today programme; what the cost of each fellowship was; what was required of each fellow; and whether he plans to publish an assessment of the effectiveness of the programme. [293648]

Mr. Coaker: 165 young people attended the TYOT Fellowship summer residential. An additional 111 young people will be participating in the Fellowship local groups, along with those that participated in the residential, over the course of the next year. The cost of delivering this years fellowship is £617,111.

The requirements for the Fellows are to develop as young leaders within their community; take action through a programme of local group activity; influence others to make positive change locally, nationally and globally; and to complete 1,000 Positive Actions by the end of their Fellowship experience.

The effectiveness of the programme will be assessed through an external evaluation of The Youth of Today programme.

NORTHERN IRELAND

Sexual Offences

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) how many *(a)* male and *(b)* female sex offenders are living in residential accommodation provided by (i) the NHS and (ii) relevant charities in Northern Ireland; [293966]

(2) by what mechanism the care and re-homing of sex offenders deemed physically or mentally ill is funded in Northern Ireland; [293967]

(3) what mechanisms are in place to inform healthcare staff when a patient has a criminal conviction for sex offences. [293968]

Paul Goggins: Although public protection arrangements, for which I have responsibility, bring together a number of criminal justice agencies, and others, to assess and manage risk of harm posed by the most serious offenders, these questions relate specifically to areas of health and social care and are therefore matters devolved to the Northern Ireland Executive.

Written Answers to Questions

Thursday 22 October 2009

JUSTICE

Prisoners: Drugs

Chris Huhne: To ask the Secretary of State for Justice how many and what proportion of *(a)* male and *(b)* female offenders aged 10 to 17 years entered custody with a substance misuse problem in each year since 1997. [294183]

Phil Hope: I have been asked to reply.

The Department does not collect this information.

Prisoners: Mental Health

Greg Mulholland: To ask the Secretary of State for Justice what proportion of prisoners were diagnosed with mental health problems during the latest period for which figures are available. [294296]

Phil Hope: I have been asked to reply.

Figures about the number of prisoners with mental health problems are not routinely collected. However a survey of mental ill health in the prison population undertaken in 1997 by the Office for National Statistics estimated that around 90 per cent. of prisoners had at least one of the five disorders (personality disorder, psychosis, neurosis, alcohol misuse, and drug dependence) considered in the survey. Co-morbidity levels were also high.

In 2008 Ministry of Justice research suggested that common mental health problems are very prevalent with 82 per cent. of prisoners on sentences of less than four years identified with anxiety or depression.

Prisoners: Suicide

Greg Mulholland: To ask the Secretary of State for Justice how many reported suicides there have been of prisoners in each year since 1997. [294301]

Claire Ward: The following table lists the annual totals for self-inflicted deaths in prison custody for each of the years 1997 to 2008.

	Self-inflicted deaths[1]
1997	68
1998	83
1999	91
2000	81
2001	73
2002	95
2003	94
2004	95
2005	78
2006	67
2007	92
2008	60

[1] The Prison Service definition of self-inflicted deaths is broader than the legal definition of suicide and includes all deaths where it appears that a prisoner has acted specifically to take their own life. This inclusive approach is used in part because inquest verdicts are often not available for some years after a death (some 20 per cent. of these deaths will not receive a suicide or open verdict at inquest). Annual numbers may change slightly from time to time as inquest verdicts and other information become available.

Every death in prison is a tragedy, and affects families, staff and other prisoners deeply. Ministers, the Ministry of Justice and the National Offender Management Service are committed to learning from each death and to reducing the number of such incidents. Good care and support from staff save many lives, but such instances go largely unreported. Prisons successfully keep safe in any given month approximately 1,500 prisoners assessed to be at particular risk of suicide or self-harm. Deaths in prisons are among the most scrutinised of all incidents and each case is subject to a police investigation and independent investigation by the prisons probation ombudsman. Robust systems are in place for monitoring deaths and learning from them.

Sexual Offences: Prisons

Greg Mulholland: To ask the Secretary of State for Justice how many complaints of sexual violence were recorded in prisons in the latest period for which figures are available. [294292]

Claire Ward: In the financial year 2008-09, 124 sexual assaults were recorded on the National Offender Management Service's incident reporting system (IRS). This figure includes proven and unproven allegations and is subject to change because some allegations are removed or reclassified following investigation.

Without cross reference to the police national database, we cannot confirm how many of these original allegations reached a full investigation. Such further information would not prove cost-effective to produce.

Since 2004, a national strategy has directed every public sector prison to have in place a local violence reduction strategy. From mid-2007, this policy has been applied to both the public sector and contracted estate. The strategy requires each prison to undertake regular analysis of the problem areas, consider solutions and provide an action plan to improve personal safety and reduce violence. A whole prison approach is encouraged, engaging all staff, all disciplines and prisoners in challenging unacceptable behaviour, problem-solving and personal safety. This includes environmental and physical measures, as well as alternative ways of managing behaviour.

TRANSPORT

Vehicles: Insurance

13. **John Robertson:** To ask the Minister of State, Department for Transport what steps his Department plans to take to reduce the number of vehicles driven on public roads without valid insurance; and if he will make a statement. [294806]

Paul Clark: Regulations are being drafted to bring into force a new scheme of continuous enforcement of motor insurance.

This scheme will identify those potentially uninsured by regularly comparing vehicle registration data on the Driver and Vehicle Licensing Agency's (DVLA) database with the database of insured vehicles maintained by the Motor Insurers' Bureau. Vehicle keepers found to be without valid insurance will be subject to enforcement action by the DVLA.

High-Speed Rail

14. **Ben Chapman:** To ask the Minister of State, Department for Transport what recent discussions he has had on proposals for a high-speed rail link between the North West and London. [294807]

Chris Mole: The Secretary of State and my ministerial colleagues meet regularly with key stakeholders to discuss a range of transport issues, including high-speed rail.

The Secretary of State was in Manchester on Wednesday 21 October 2009 at the Northern Regeneration Summit, where he engaged with a range of organisations and regional bodies, and provided the keynote speech, on high-speed rail.

I also engaged with stakeholders across the North West, Yorkshire and Humber as part of my rail tour of those regions in September.

15. **Mr. Cunningham:** To ask the Minister of State, Department for Transport what recent progress has been made on consideration of proposals for a high-speed rail hub at Birmingham International Airport. [294808]

Chris Mole: "High Speed Two" has been formed to help develop the case for high-speed rail services. As a first stage, High Speed Two will report by the end of the year with for a proposed route from London to the West Midlands. This will include consideration of a range of route options as well as access to central London and the other cities served.

Heavy Goods Vehicles

16. **Mr. Hepburn:** To ask the Minister of State, Department for Transport what his most recent estimate is of the number of heavy goods vehicles registered overseas which used roads in the UK in 2008. [294809]

Paul Clark: In 2008 around 3.5 per cent. of all heavy goods vehicle traffic in Great Britain were estimated to be foreign-registered vehicles.

A34

17. **Dr. Harris:** To ask the Minister of State, Department for Transport if the Government would support the construction of a full diamond interchange on the A34 at Lodge Hill near Abingdon; and if he will make a statement. [294811]

Chris Mole: Oxfordshire county council are examining the impact of junction improvements in the Central Oxfordshire area. The junction operation at Lodge Hill and the impact of any proposed development will need to be examined by the Vale of White Horse District Council for their Local Development Framework. The Government cannot consider supporting such a proposal until the need is established.

Departmental Rail Travel

Mr. Burstow: To ask the Minister of State, Department for Transport how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293338]

Chris Mole: The Department for Transport and its agencies do not record rail travel expenditure separately for different classes of travel. The information could be provided only at disproportionate cost. Official travel in the Department is undertaken in accordance with the requirements set out in the Civil Service Management Code.

Marine and Coastguard Agency

Mr. Swayne: To ask the Minister of State, Department for Transport what recent progress has been made by the Marine and Coastguard Agency in implementing the findings of research it has commissioned on small vessel safety; and if he will make a statement. [293176]

Paul Clark: The Maritime and Coastguard Agency (MCA) in conjunction with the key stakeholders, including the Fishing Industry Safety Group (FISG), continues to work on improvements for small vessel safety with the industry through an improving safety culture, influenced by consultants, surveyors and, where appropriate, fishermen.

The MCA has an ongoing programme of research. Each piece of research is validated and subject to cost-benefit analysis. Where practicable and agreed suitable for application it is implemented either through mandatory regulation, instructions to surveyors, or guidance for industry.

Currently, the MCA is considering the outputs of research projects, carried out by a number of consultancies, and accident investigations focussing on the stability and seaworthiness of small vessels.

The review of the fishing vessel projects is being undertaken in conjunction with the Stability Sub-Group of FISG, to ensure they are consistent and address the underlying safety problems identified from the accident investigations.

Motorway: Closures

Mr. Greg Knight: To ask the Minister of State, Department for Transport on how many occasions in the last 12 months an initial decision fully to close a motorway by a road policing officer has been overturned by a supervisor at the Highways Agency or Highway Authority. [294744]

Chris Mole: No Highways Agency staff have the authority to overturn an instruction given by a police constable.

The Traffic Management Act 2004, Section 4 (1) states

> "A traffic officer shall, when carrying out his duties, comply with any direction of a constable".

Railways: Standards

Dr. Starkey: To ask the Minister of State, Department for Transport what information his Department holds on recent levels of performance of rail services operated by *(a)* Virgin Trains and *(b)* London Midland between Milton Keynes and Euston. [294810]

Chris Mole: The Department for Transport does not hold the specific data requested but the overall Virgin West Coast Public Performance Measure improved for the period from 23 August to 19 September 2009 against the same period last year, with an increase of 5.7 per cent. from 83.3 per cent. to 89 per cent. For London Midland the equivalent change was a 4.1 per cent. increase, from 86.6 per cent. to 90.7 per cent.

Roads: Construction

Mr. Hollobone: To ask the Minister of State, Department for Transport what recent estimate he has made of the length of time taken by local authorities adopting residential roads in new developments; and if he will make a statement. [294939]

Mr. Khan: The Department for Transport has no information on the adoption of streets in new developments by local highway authorities and has made no estimate of the time authorities take to do so.

ENERGY AND CLIMATE CHANGE

Coal Fired Power Stations

Dr. Cable: To ask the Secretary of State for Energy and Climate Change what research his Department has *(a)* commissioned and *(b)* evaluated on (i) the reuse of waste ash and (ii) levels of radioactive emissions from coal-fired power stations. [293899]

Mr. Kidney *[holding answer 12 October 2009]:* DECC has not commissioned or evaluated research on the re-use of waste ash and levels of radioactive emissions from coal-fired power stations. According to industry sources, around 50 per cent. of waste pulverised fuel ash from coal-fired power stations is re-used in the construction sector.

Collaborative Offshore Wind Research into the Environment

Mr. Oaten: To ask the Secretary of State for Energy and Climate Change what procedures are used to allocate funding for research projects by Collaborative Offshore Wind Research into the Environment. [294039]

Mr. Kidney *[holding answer 19 October 2009]:* Collaborative Offshore Windfarm Research Into the Environment (COWRIE) is an independent registered Charity that was set up to advance and improve understanding and knowledge of the potential environmental impacts of offshore wind farm development in UK waters. COWRIE Ltd is governed by a board of trustees who are responsible for overseeing the administration of the company and its financial governance. Further information can be found on their website:

http://www.offshorewind.co.uk/Pages/COWRIE

Departmental Rail Travel

Mr. Barstow: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on first class rail travel for officials since its inception; and if he will make a statement. [293331]

Joan Ruddock: The Department's officials have spent a total of £217,425 on first-class rail travel since the inception of the Department on 3 October 2008.

Energy: Meters

Simon Hughes: To ask the Secretary of State for Energy and Climate Change (1) if he will bring forward proposals for the compulsory installation of stand-alone home energy displays alongside smart meters; [294035]

(2) what steps he plans to take to ensure that energy suppliers provide stand-alone home energy displays alongside smart meters under the smart metering scheme. [294106]

Mr. Kidney *[holding answer 19 October 2009]:* The Government recently published a consultation on smart metering for electricity and gas. As part of the consultation the Government invited views on the type of consumption information that should be provided to consumers, and on the expectation that stand-alone, real-time displays would be provided with smart meters. The Government will respond to the consultation in due course.

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to ensure that energy companies work with local authorities to deliver the smart metering scheme. [294107]

Mr. Kidney *[holding answer 19 October 2009]:* The Government recently published a consultation on smart metering for electricity and gas. This included questions on a range of delivery and deployment options. The Government will respond to the consultation in due course. Following the Government response work will commence on detailed preparation for the full roll-out of smart meters.

Energy: Prices

Mr. Jim Cunningham: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to encourage fuel companies to pass on reductions in energy costs to customers. [294121]

Mr. Kidney *[holding answer 20 October 2009]:* The Government have asked Ofgem to report on wholesale costs and retail prices on a quarterly basis, to improve transparency. The latest of these reports was issued in August. The Government and Ofgem have made it clear that we expect to see energy suppliers reduce prices when costs allow.

Plutonium: Exports

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 9 September 2009, *Official Report*, column 1976W, on plutonium: exports, *(a)* which ships were used in each respective transport to which reference is made and *(b)* which United Kingdom port of departure and Swedish port of destination was used in each case; and when he expects the irradiated advanced cooled reactor fuel pins to be returned to the United Kingdom from Sweden. [292490]

Mr. Kidney: The Intermediate Level Waste containing approximately 5g of plutonium was contained within drums and shipped in a lorry from Immingham to Gothenburg on a normal commercial ferry. The cargo met all the regulatory and licence requirements for the chosen method of transport.

The container of 46 irradiated advanced gas-cooled reactor (AGR) fuel pins containing less than 400g of plutonium was shipped from Workington to Wallhamn on the Atlantic Osprey. This is a special-purpose cargo vessel, approved by the Maritime and Coastguard Agency to International Maritime Organisation standards to be certificated as an INF2 (Irradiated Nuclear Fuel) vessel.

The fuel pins are still undergoing analytical examination and plans for their return to the UK have not yet been made.

Sellafield

Greg Clark: To ask the Secretary of State for Energy and Climate Change whether *(a)* his Department and *(b)* the Nuclear Decommissioning Authority has contracts with (i) Nuclear Management Partners and (ii) Sellafield Ltd. on the management of the Sellafield site. [289876]

Mr. Kidney: The Department of Energy and Climate Change does not have any contracts with Nuclear Management Partners or Sellafield Ltd. The NDA have:

(i) a Parent Body Agreement with Nuclear Management Partners (redacted copy available on NDA website www.nda.gov.uk; and

(ii) a Management and Operations contract with Sellafield Ltd. (redacted copy available on NDA website www.nda.gov.uk).

Greg Clark: To ask the Secretary of State for Energy and Climate Change whether *(a)* his Department and *(b)* the Nuclear Decommissioning Authority expect to receive fees from (i) Nuclear Management Partners and (ii) Sellafield Ltd. in relation to the management of the Sellafield site. [289877]

Mr. Kidney: Under the terms of its contract with the Nuclear Decommissioning Authority (NDA), Nuclear Management Partners (NMP) will be able to earn performance related fees. No fees will be paid by NMP to either the NDA or the Government.

HOME DEPARTMENT

Bigamy

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* offences of bigamy have been recorded and *(b)* how many people have been (i) prosecuted and (ii) convicted for offences related to bigamy in each police force area in each year since 1997. [294156]

Alan Johnson: The Home Office has responsibility for the police recorded crime statistics and figures for the number of offences of bigamy recorded by the police are given in Tables 1-3.

Court proceedings statistics are collected by the Office for Criminal Justice Reform. Table 4 shows the number of persons proceeded against at magistrates' courts and found guilty at all courts for bigamy in England and Wales from 1997 to 2007 (latest available). Data for 2008 are planned for publication at the end of January 2010.

The police recorded crime data are based on the number of offences recorded in each financial year. Court proceedings data are based on the number of offenders. These data are published on a calendar year basis and are counts of persons classified by their principal offence. For these reasons the two datasets are not directly comparable.

Table 1: Offences of bigamy recorded by the police

	Number of offences
Police force area	*1997*

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The number of defendants found guilty in a particular year may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendant was found guilty for a different offence to the original offence proceeded against.

Extradition: USA

Mr. Vara: To ask the Secretary of State for the Home Department what recent discussions he has had with Ministerial colleagues on the provision of the UK-US extradition treaty; and if he will make a statement. [294307]

Meg Hillier: The UK-US extradition treaty was one of the topics debated during the Opposition day debate at the end of the last parliamentary Session. There have been no recent discussions between myself and ministerial colleagues on this matter. The Government are satisfied that the treaty is balanced, fair and working well.

Identity Cards: Airports

David Davis: To ask the Secretary of State for the Home Department what estimate his Department has made of the number of workers at *(a)* Manchester Airport and *(b)* London City Airport expected to take up the option of purchasing an identity card in 2010; and how many of those workers are already Critical Workers Identity Card holders. [295020]

Meg Hillier: All airside workers at Manchester and London City airports will be able to apply for an identity card from later this year. In a written ministerial statement on 30 June 2009, my right hon. Friend, the Home Secretary, confirmed that holding an identity card should be a personal choice for British citizens and that cards issued to airside workers will be voluntary. During an 18-month evaluation period from launch, there will be no fee charged for identity cards issued to airside workers.

Identity Cards: Greater Manchester

David Davis: To ask the Secretary of State for the Home Department what estimate his Department has made of the number of people in the Greater Manchester area likely to take up the option of purchasing an identity card in 2010. [295021]

Meg Hillier: No estimate has been made of the number of people in the Greater Manchester area likely to take up the option of purchasing an identity card in 2010. However, the Identity and Passport Service has already been working very closely with local stakeholders and will be making a range of material available to inform local residents in Greater Manchester when they will be able to apply for a national identity card at a fee of £30 that can be used to travel in Europe in place of a passport.

Independent Safeguarding Authority: Members

Peter Luff: To ask the Secretary of State for the Home Department whether hon. Members will be required to register with the Independent Safeguarding Authority before visiting *(a)* schools and *(b)* youth groups in their constituencies or elsewhere under the provisions of the Vetting and Barring Scheme; and if he will make a statement. [288768]

Meg Hillier: No individual will be required to register on the basis that they are merely visiting a school or youth group; they must be carrying out regulated activities as defined under the Safeguarding Vulnerable Groups Act 2006, which includes work on behalf of the establishment or 'work of a specified type' such as the provision of care or guidance to young people. An MP teaching a class on politics or regularly volunteering with a youth group would be required to register as would any private citizen.

Police: Injuries

Chris Huhne: To ask the Secretary of State for the Home Department how many police officers in each police force area have had injury awards *(a)* reduced and *(b)* reduced to minimum levels on reaching retirement age in each year since 2004. [294159]

Alan Johnson: Statistics on the number of injury awards reduced and reduced to minimum levels on reaching retirement age are not collected centrally.

Police: Resignations

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female police officers in each police force area (i) resigned and (ii) were dismissed in each year since 2002. [294182]

Alan Johnson: The available data have been collected since 2002-03 and are given in the following table:

Police officer dismissals and resignations by police force and gender (full-time equivalent)[1], 2002-03 to 2008-/09[2]

[1] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items. Data have not previously been published in this format therefore totals may not match totals found in the published data.

[2] Financial year runs 1 April to 31 March inclusive. Comparable data are not available prior to 2002-03.

[3] Excludes quarters 1, 2 and 3, as data are not available.

Police: Standards

Chris Grayling: To ask the Secretary of State for the Home Department against how many statutory performance indicators police forces are being assessed against in 2009-10. [294426]

Alan Johnson: Following the changes announced in the Policing Green Paper in 2008, indicators within APACS are no longer statutory, but are set for each year following consultation with the National Policing Board, which includes tripartite partners. For 2009-10, 36 performance indicators are in APACS, but the Home Office does not make any assessment of police forces against those with the exception of the remaining single top down target relating to public confidence.

Her Majesty's inspectorate of constabulary (HMIC) are now responsible for making assessments of police forces and publishing them, drawing on the APACS data set and other information as necessary.

Vetting

Tim Loughton: To ask the Secretary of State for the Home Department whether a Criminal Records Bureau check identifies whether the person in respect of which the check is being made has had children taken into care. [294640]

Meg Hillier *[holding answer 20 October 2009]*: Section 114 B (4) of Part V of the Police Act 1997 requires that in addition to criminal record information from the Police National Computer (PNC), Enhanced Disclosures should include any other information which a chief police officer holds and considers might be relevant to the job application in question and ought to be disclosed. This may include information concerning children taken into care.

This is usually non-conviction information deriving from local force records and is referred to as 'approved information'. Chief officers are obliged to provide such information for Enhanced Disclosures under the Act. Where disclosed, information of this nature is considered by the police to represent a factual record of previous events that an employer in the most sensitive type of occupation should be aware of in making an employment decision affecting the most vulnerable groups of people.

Vetting: Standards

Greg Mulholland: To ask the Secretary of State for the Home Department what his most recent estimate is of the average time for a Criminal Records Bureau check to be completed. [294297]

Meg Hillier: I refer the hon. Member to the written answer of 29 June 2009, *Official Report*, column 80W.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Pollution: Greater London

Ms Buck: To ask the Secretary of State for Environment, Food and Rural Affairs on how many days air pollution recorded at each London air quality monitoring site exceeded EU legal limits for air pollution in each year since 2005. [291633]

Jim Fitzpatrick: The Council Directive 2008/50/EC on Ambient Air Quality and Cleaner Air for Europe requires member states to assess ambient air for levels of a number of defined pollutants. The directive sets out limit values which member states are required to meet. The limit values specify both the level the pollutants must be kept below, and the time over which data should be averaged. Limit values with averaging times of less than or equal to 24 hours, and which have been or are being exceeded in London are detailed below:

NO_2 hourly mean of 200 ug/m^3 (not to be exceeded more than 18 times per year)

24 hour mean (PM_{10} of 50 ug/m^3, (not be exceeded more than 35 times per year).

The following table indicates for monitoring sites in London the number of days per year where an exceedance of either of the above detailed limit values has occurred, for all years between 2005 and 2008 inclusive.

Site Code	*Site Name*	*Year*	*Days Exceedance of EU Limit Value*
A30	London A3 Roadside	2005	2
CD1	Camden Kerbside	2005	6
HS5	Brentford Roadside	2005	7
KC2	London Cromwell Road 2	2005	2
MY1	London Marylebone Road	2005	156
Total 2005			173
MY1	London Marylebone Road	2006	159
Total 2006			159
CD1	Camden Kerbside	2007	21
HG1	Haringey Roadside	2007	1
HK4	London Hackney	2007	3
HS5	Brentford Roadside	2007	5
MY1	London Marylebone Road	2007	123
total 2007			153
CD1	Camden Kerbside	2008	27
HS5	Brentford Roadside	2008	23
MY1	London Marylebone Road	2008	178
Total 2008			228

The following should be noted in conjunction with the table.

The numbers presented represent a combination of both the above limit values.

If a single day occurred where there was an exceedance of both the above limit values, it has only been counted once, i.e. the total number of days per year exceeding at each site cannot exceed 365.

For the hourly mean N02 limit value, the number presented represents a single hour in the day above 200 microgrammes/m^3 (where the total number of hourly means in excess of 200 microgrammes/m^3 at that site was greater than 18 in the year). This counts as one day where an exceedance occurred, even though there may have been several hours above this concentration in the 24 hour period. Only hours in excess of the 18 allowed per year have been counted as contributing to the exceedance.

For the daily mean PM10 limit value, the total number of days represents the number of days where 24 hour mean concentrations were in excess of 50 microgrammes/m^3, with the first 35 allowed occurrences subtracted.

Therefore the days counted include only those which are above the 35 days per year allowed, or 18 hours per year allowed, as defined by the limit values.

Data have only been reported for sites with more than 90 per cent. data capture.

Ms Buck: To ask the Secretary of State for Environment, Food and Rural Affairs what average annual concentration of nitrogen dioxide in micrograms per cubic metre was recorded at each London air quality monitoring site in each year since 2005. [291636]

Jim Fitzpatrick: Under EU legislation, the UK is required to assess ambient air for levels of nitrogen dioxide (NO_2), and to report to the European Commission on an annual basis. Detailed reports on the assessments are available from the Air Quality Archive (www.airquality.co.uk). Nitrogen dioxide monitoring is undertaken in London at a number of sites for this purpose in accordance with the criteria in the Council Directive 2008/50/EC on Ambient Air Quality and Cleaner Air for Europe.

Annual mean NO_2 monitoring data are displayed in the table for sites within London for years since 2005. Data are only displayed for sites where data capture for that year was greater than 90 per cent.

All combustion processes in air produce oxides of nitrogen (NOx). Nitrogen dioxide (NO_2) and nitric acid (NO) are both oxides of nitrogen and are referred to as NO_x. Road transport is the main source. At high levels NO_2 causes inflammation of the airways. Long-term exposure may affect lung function and respiratory symptoms.

London is currently exceeding the EU Limit Value of 40 microgrammes/m^3 and is not likely to meet this value by the attainment date of 2010. The Council Directive 2008/50/EC on Ambient Air Quality and Cleaner Air for Europe provides for member states to submit plans to the European Commission to postpone the compliance deadline for meeting the limit value for nitrogen dioxide from 2010 to 2015. The UK Government expect to submit such a plan to the Commission in 2010 following consultation early next year.

Carbon Labelling Scheme

Mr. Sarwar: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of retail sales accounted for by retailers who have agreed to participate in the Carbon Labelling Scheme. [293675]

Joan Ruddock: I have been asked to reply.

Responsibility for carbon labelling policy lies with my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs. DECC is responsible for the Government's sponsorship of the Carbon Trust (CT), of which the Carbon Label Co. (CLC) is a subsidiary.

The CLC has developed the Carbon Reduction Label to help businesses and consumers understand the carbon footprints of the products and services they use.

DECC has not made an estimate of the proportion of retail sales accounted for by retailers who have adopted the Carbon Reduction Label. More information on the scheme can be obtained from the Carbon Trust direct.

Mr. Sarwar: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the likely *(a)* reductions in carbon dioxide emissions and *(b)* savings to manufacturers arising from the Carbon Labelling Scheme. [293676]

Joan Ruddock: I have been asked to reply.

Responsibility for carbon labelling policy lies with my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs. DECC is responsible for the Government's sponsorship of the Carbon Trust (CT), of which the Carbon Label Co. (CLC) is a subsidiary.

The CLC has developed the Carbon Reduction Label to help businesses and consumers understand the carbon footprints of the products and services they use.

DECC has not made an estimate of the likely reductions in CO_2 emissions or savings to manufacturers arising from the adoption of the Carbon Reduction Label. More information on the scheme can be obtained from the Carbon Trust direct.

Domestic Waste: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions *(a)* his Department and *(b)* the Waste and Resources Action Programme has had with Welsh Assembly Government Ministers on charges for the collection of household waste. [294451]

Dan Norris: DEFRA and Welsh Assembly Government officials are working closely together on the review of Schedule 2 of the Controlled Waste Regulations 1992 and intend to consult jointly.

The Waste and Resources Action Programme (WRAP) has not had any discussion with Welsh Assembly Government Ministers on charges for the collection of household waste.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 11 November 2008, *Official Report*, column 1006W, on domestic wastes, which local authorities have sought the advice of the Waste and Resources Action Programme on available options for waste incentive schemes to date. [294458]

Dan Norris: General advice on the waste incentive scheme options available was provided by the Waste and Resources Action Programme (WRAP) to a significant number of authorities at meetings which WRAP was invited to attend and in response to individual inquiries. WRAP has not kept a detailed record of all the authorities that have been involved in this preliminary way.

Domestic Waste: Fixed Penalties

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish the 2008-09 Flycapture data on fixed penalty notices issued to households for waste offences. [294561]

Dan Norris: DEFRA has commissioned returns from English local authorities on fixed penalty notices issued in 2008-09 for a range of environmental offences, including those relating to waste receptacles. Returns are still outstanding from many local authorities and these are being pursued. Results will be published on the DEFRA website in December.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the extent to which the proposals in his Department's consultation document on fairer and better environmental enforcement published in July 2009, will affect the *(a)* frequency and *(b)* level of financial penalties issued to households for offences relating to household waste. [294565]

Dan Norris: The present fairer and better environmental enforcement proposals and consultation do not extend to local authorities, who are responsible for household waste matters. Any proposals to give local authorities powers to use the civil sanctions enabled by the Regulatory Enforcement and Sanctions Act 2008 would be subject to a further public consultation and separate secondary legislation, which would be debated in Parliament.

The present proposals would give national environmental regulators an alternative to prosecution in cases when enforcement is necessary and proportionate. The proposals would allow Environment Agency, Natural England and Countryside Council for Wales to take businesses and others with a good general approach to regulation out of the criminal courts when enforcement action was needed. However, regulatory advice and guidance would remain the cornerstone of a well graduated and fair enforcement system. The worst cases of non-compliance would continue to be prosecuted. The proposed changes are designed to strengthen incentives to comply and to promote co-operation between regulator and regulated.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether *(a)* his Department and *(b)* the Waste and Resources Action Programme have (i) issued guidance and (ii) allocated funding to local authorities related to audits of the contents of domestic waste receptacles; [294430]

(2) what funding and other support *(a)* his Department and *(b)* Waste and Resources Action Programme has provided to local authorities to undertake surveys of the contents of household waste from specific properties; and what guidance his Department has issued on whether the prior consent of the householder is required. [294455]

Dan Norris: DEFRA has not provided any funding or support to local authorities related to audits of the contents of domestic waste receptacles.

Where the Waste and Resources Action Programme (WRAP) supports waste composition surveys, it normally contracts this work out directly. Occasionally, when it is part of a wider project, WRAP provides funding to local authorities to carry out the work. In both cases WRAP requires prior consent to be sought from the householders concerned.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what funding *(a)* his Department and *(b)* the Waste and Resources Action Programme provided for local authorities in relation to waste (i) collection and (ii) disposal in the most recent year for which figures are available. [294466]

Dan Norris: In 2008-09 DEFRA directly provided £78.2 million in funding to local authorities outside London via the Waste Infrastructure Capital Grant. £60 million will be made available to London authorities through the London Waste and Recycling Fund for the period 2008-09 to 2010-11. These unringfenced capital grants will be paid to upper tier and unitary authorities to enable them to set up the necessary waste infrastructure to help England meet landfill targets.

DEFRA also provides financial support to local authorities through Private Finance Initiative credits to help accelerate the building of the infrastructure needed to treat residual waste without compromising efforts to minimise waste and increase recycling levels. To date £2.5 billion has been allocated to 37 projects. Further information can be found on DEFRA's website.

The Waste and Resources Action Programme (WRAP) provided a total of £2.68 million to local authorities during 2008-09. The funds were spent on local communications campaigns specifically to improve communications with householders about local recycling services and to promote the 'Love Food Hate Waste' campaign. WRAP has no remit in relation to waste disposal and has not, therefore, provided any funds to local authorities in relation to it.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of his Department's 4Es Model on planning for waste prevention. [294468]

Dan Norris: The 4Es Model was published in "Securing the future: delivering UK sustainable development strategy" (March 2005). This document is available on DEFRA's website.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent guidance his Department has issued to local authorities on the circumstances in which municipal waste collectors can refuse to collect household waste from a dwelling. [294556]

Dan Norris: The amendment to section 46 of the Environmental Protection Act, made through the Climate Change Act 2008, provides a single point of reference in legislation for local authorities in order to further clarify the existing Government policy that where residents put out their waste in a way that does not meet the conditions set out in a section 46 notice, authorities are not required to collect it.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether trade waste collected and placed in landfill by *(a)* local authorities and *(b)* private sector contractors in a local authority area is reckoned towards that local authority's Landfill Allowance Trading Scheme quota. [294609]

Dan Norris: The Landfill Allowance Trading Scheme (LATS) was set up to reduce the amount of biodegradable municipal waste sent by local authorities to landfill.

The local authority's LATS quota is based on the biodegradable waste fraction of the overall waste arising for that local authority. Where the local authority collects commercial waste that is included as part of its overall waste arising; waste collected by private waste management companies does not form part of the LATS.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of household waste collected for recycling was *(a)* incinerated and *(b)* disposed of in landfill sites in the latest period for which figures are available. [294611]

Dan Norris: WasteDataFlow is used to obtain data on waste collected by local authorities. However, the data requested are not available due to the nature of the questions asked in WasteDataFlow and the data collected.

In 2007-08 the amount of municipal waste sent to a materials recovery facility for recycling was 1,571,586 tonnes. Of this:

(a) 36,465 tonnes was rejected and incinerated for energy recovery; and

(b) 68, 644 tonnes was rejected and landfilled.

In 2007-08 the estimated total amount of household waste that was rejected for recycling was 126,626 tonnes. This is out of a total of 8,840,960 tonnes of household waste collected for recycling. The rejected tonnages include not only waste sent to a materials recovery facility, but also recycling rejected at the point of collection and materials collected for recycling that were not passed through a materials recovery facility.

Materials are rejected due to contamination or due to them not being recyclable.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent *(a)* assessment has been made and *(b)* research has been commissioned by (i) his Department, (ii) the Waste and Resources Action Programme and (iii) the Environment Agency into the burning of household waste by householders. [294619]

Dan Norris: No specific assessment has been made by DEFRA or the Environment Agency of the level of burning of domestic waste by households in England. The Waste and Resources Action Programme (WRAP) is not responsible for research or policy on backyard burning.

In 2006 DEFRA published a research project to review complaints received by local authorities about bonfire smoke, which advised on the legal and practical remedies available to local authorities and private individuals.

In addition, DEFRA carried out research into emissions of dioxins from the burning of domestic waste in 2006. The review recommended that further scientific research should be carried out to establish what practical measures could be taken to reduce dioxin emissions from bonfires and domestic combustion and, consequently, exposure to dioxins. Further work in estimating dioxin emissions from domestic burning has subsequently been carried out and another research programme is currently being undertaken by DEFRA which will establish a release inventory for dioxins as well as provide information on the most effective approach for carrying out a public awareness campaign educating the public on the impacts of burning garden and domestic waste with regard to dioxin emissions. This research work is due to conclude in 2011.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent guidance *(a)* his Department and *(b)* the Waste and Resources Action Programme has issued to waste collection authorities on charging householders for (i) new or (ii) replacement household wheeled refuse containers. [294628]

Dan Norris: Neither DEFRA nor the Waste and Resources Action Programme has issued any recent guidance to waste collection authorities on their powers under Section 46(3) of the Environmental Protection Act 1990.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has commissioned in relation to household waste in the last 18 months. [294652]

Dan Norris: DEFRA's Waste and Resources Evidence Programme (WREP) has just published a major review study to help distil the evidence emerging from research work completed by the Department and other organisations on household waste prevention. In addition, WREP has also commissioned a project looking at approaches for dealing with household hazardous waste and another study investigating waste composition.

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the research report commissioned by his Department with reference *(a)* WR0105 and *(b)* WR0106. [294965]

Dan Norris: DEFRA has received the draft final report for WR0105 'Project REDUCE Monitoring and Evaluation—Developing Tools to Measure Waste Prevention' and the project team is currently completing a finalised version ready for publication. The final report will be made publicly available on DEFRA's website.

The project (WR0106) 'Achieving Household Waste Prevention Through Product Service Systems' is publicly available on DEFRA's website.

Litter: Rural Areas

Mr. Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Campaign to Protect Rural England on measures to reduce the incidence of littering in rural areas. [294996]

Dan Norris: DEFRA Ministers have met with representatives from the Campaign to Protect Rural England three times in the last year to discuss their campaign, Stop the Drop.

Marine Aggregates Levy Sustainability Fund

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what projects funded from the Marine Aggregates Levy Sustainability Fund have involved work by the Centre for Environment, Fisheries and Aquaculture Science. [294719]

Huw Irranca-Davies *[holding answer 21 October 2009]*: Projects which have been funded from the Marine Aggregates Levy Sustainability Fund involving work by the Centre of Environment, Fisheries and Aquaculture Science are:

Contract number	*Full title*	*Contract status*	*Start date*	*End date*	*Direct customer*

Source:
Internal CEFAS Management Database Contract

Rural Areas: Grants

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether provision for Vital Villages Community Services grants exists following the abolition of the Countryside Agency. [294562]

Dan Norris: Vital Villages was a demonstration grant programme, set up with the aim of identifying innovative approaches that would meet the needs of rural communities. The programme was set up in April 2001 and ran until 1 April 2005.

The scheme was additional to mainstream Government programmes for community support and development, which remain open to both rural and urban communities.

South Downs National Park

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* has been spent and *(b)* is planned to be spent on (i) consultation, (ii) organisational set-up, (iii) project management, (iv) communications, (v) planning, (vi) wages, (vii) pensions, (viii) office running and (ix) other costs of the South Downs National Park in the next 12 months. [293991]

Huw Irranca-Davies: The cost of the two public inquiries and a recent hearing totalled £3.26 million. We expect that less than £1 million will be spent on setting up the South Downs National Park Authority in the current financial year. The budgets for future years have yet to be determined.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether any existing local authority staff will be made redundant as a result of the establishment of the South Downs National Park. [293992]

Huw Irranca-Davies: It is for individual local authorities to decide whether or not to retain staff.

Where a national park authority takes over functions from a local authority then, as happened in the New Forest, it is very probable that the existing staff will have employment rights under either (or both) of: the statutory instrument that establishes the national park authority; and the generic Transfer of Undertakings (Protection of Employment) legislation.

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how much funding *(a)* his Department and *(b)* the Waste and Resources Action Programme has provided to Resources Futures; and for what purposes. [294613]

Dan Norris: DEFRA's Waste and Resources Evidence Programme has commissioned projects from Resource Futures at a total cost of £137,845. The research covers waste growth and the composition of municipal waste.

Since 1 April 2007, the Waste and Resources Action Programme has bought technical services from Resources Futures at a total cost of £1.2 million. These services cover a range of topics, including work with local authorities, the third sector and on evaluating our programmes.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library an example copy of a waste prevention action plan recommended by the Waste and Resources Action Programme. [294618]

Dan Norris: The plans are the property of the local authorities concerned and can be obtained directly from them. The Waste and Resources Action Programme's Waste Prevention Toolkit is a starting point for authorities to develop their own plans, typically working as part of a larger partnership, and taking account of their local circumstances and priorities.

WORK AND PENSIONS

Children: Maintenance

John Mann: To ask the Secretary of State for Work and Pensions how many parents eligible for maintenance payments via the Child Maintenance Enforcement Commission and its predecessor have received no payment for over *(a)* three and *(b)* 10 years. [292041]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the child maintenance commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many parents eligible for maintenance payments via the Child Maintenance and Enforcement Commission and its predecessor have received no payment for over (a) three and (b) 10 years. [292041]

The Commission estimates that at the end of June 2009, of the 1,140,400 cases due to receive at least one child maintenance payment in the past three years, no payment had been received from the non-resident parent in 57,250 (or 5%) of these cases. The Commission is not able to provide an estimate on the number of parents eligible for maintenance payments who have not received any payments for the last 10 years.

Some parents will go to great lengths to avoid fulfilling their financial responsibilities to their children. The Child Support Agency has made significant improvements over the last three years increasing the number of cases receiving maintenance by a third. The new enforcement powers set out in the Child Maintenance and Other Payments Act 2008 will give the Commission the tools it needs to further increase compliance.

I am sorry on this occasion I could not be more helpful.

Disability Living Allowance: Fraud

Steve Webb: To ask the Secretary of State for Work and Pensions what estimate she has made of the *(a)* number and *(b)* amount spent on fraudulent claims for disability living allowance in each of the last four years. [293576]

Helen Goodman: The Department's measurement system for fraud and error does not estimate the number of fraudulent cases over a given period. It does, however, provide an estimate of the average number of fraudulent claims at any one time. Estimates of fraud in disability living allowance were last measured in 2004-05 when the number of fraudulent cases was estimated to be 10,000 cases. There are no estimates for later years.

An estimate for the percentage of fraudulent expenditure has also been produced for 2004-05 and subsequent years by applying the 2004-05 percentage of fraudulent expenditure to the relevant disability living allowance expenditure in each subsequent year. The estimates are in the following table.

Estimate of the amount overpaid due to fraud in disability living allowance

	£ million
2004-05	40
2005-06	40
2006-07	40
2007-08	50
2008-09	50

Employment and Support Allowance

Mr. Harper: To ask the Secretary of State for Work and Pensions how many individual claims for employment and support allowance were rejected after the individual participated in a work capability assessment up to the end of February 2009; and how many and what proportion of those rejected claimants were moved on to jobseeker's allowance. [291281]

Jim Knight *[holding answer 16 September 2009]:* National level statistics on the Work Capability Assessment covering Great Britain were published on 13 October 2009 and are available via the ONS Publication Hub. A copy of the publication has been placed in the Library and be accessed directly on the website at:

http://research.dwp.gov.uk/asd/workingage/esa_wca.asp

Information on movement to Jobseeker's Allowance is not yet available but is expected to become available next year.

Employment and Support Allowance: Birmingham

Mr. Godsiff: To ask the Secretary of State for Work and Pensions how many residents of the Birmingham, Sparkbrook and Small Heath constituency have *(a)* applied for and *(b)* been refused Employment and Support Allowance since October 2008. [291586]

Jim Knight: National level statistics on the Work Capability Assessment covering Great Britain were published on 13 October 2009 and are available via the ONS Publication Hub. A copy of the publication has been placed in the Library and can be accessed directly on the website at:

http://research.dwp.gov.uk/asd/workingage/esa_wca.asp

Equivalent information for the Birmingham Sparkbrook and Small Heath constituency is not held centrally. However, equivalent data for Birmingham local authority are in the table.

Employment and support allowance on-flows October 2008 to February 2009 by result of medical assessment—Birmingham local authority

Work capability result	*Volumes*	*Percentage*
Support Group	200	6
Work Related Activity Group	400	10
Fit for Work	1,300	34
Claim closed before assessment complete	1,400	37
Assessment still in progress	500	13

Note:

This data are based on recorded advice from ATOS, rather than the Decision Maker's final determination. The final outcomes of cases may change. This will be further compounded by reconsiderations following additional medical evidence and the outcomes of appeals. Full guidance on the national figures is included in the published statistics referred to above.

Equality 2025

Mr. Harper: To ask the Secretary of State for Work and Pensions how much has been spent on the operation of Equality 2025 to date; and how many people Equality 2025 has employed in each year since its inception. [295027]

Jonathan Shaw: Equality 2025 is an advisory non-departmental public body established in response to a recommendation in the 2005 report by the Prime Minister's Strategy Unit 'Improving the Life Chances of Disabled People'. It is sponsored by (but is not part of) the Office for Disability Issues, part of the Department for Work and Pensions. The advisory group is made up of 19 disabled people appointed to collect and feed the views of disabled people across the United Kingdom into Government policymaking and service design.

Equality 2025 was established in December 2006 and is funded by the Office for Disability Issues. Its total expenditure for the periods 2006-07, 2007-08 and 2008-09 has been £1,391,059.

Equality 2025 has not employed any permanent or temporary staff since its establishment, but it does receive secretariat support from the Office for Disability Issues.

Housing Benefit: Travelling People

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what the policy of her Department is on the payment of housing benefit to Travellers renting an unauthorised pitch in respect of which planning permission has not been granted; and whether her Department has issued guidance to local authorities on this matter. [294967]

Helen Goodman: We have not issued any specific guidance on this subject; any claim for housing benefit in these circumstances would be dealt with in the usual way, which would include looking at whether there was a liability for rent.

Jobseeker's Allowance: Fife

Sir Menzies Campbell: To ask the Secretary of State for Work and Pensions how many people in the North East Fife constituency had been claiming jobseeker's allowance for *(a)* less than six months, *(b)* between six and 12 months, *(c)* between 12 months and two years and *(d)* more than two years on the latest date for which information is available. [293975]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Jil Matheson, dated October 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people in North East Fife constituency had been claiming jobseeker's allowance for (a) less then six months, (b) between six and 12 months, (c) between 12 months and 2 years and (d) more than two years on the latest date for which information is available. (293975)

Table 1, attached, shows the number of computerised claims of Jobseeker's Allowance (JSA) for people, aged 16 or over resident in the North East Fife constituency on 10 September 2009, broken down by the duration of the claim.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at: http://www.nomisweb.co.uk

Table 1: Number of claimants of jobseeker's allowance resident in North East Fife constituency by duration of claim (10 September 2009)

Duration	*Number*
Up to 26 weeks	740
Over 26 weeks up to 52 weeks	210
Over 52 weeks up to 104 weeks	80
Over 104 weeks	5

Note:
Data rounded to nearest 5.

Jobcentre plus administrative system

Office for Disability Issues: Manpower

Mr. Harper: To ask the Secretary of State for Work and Pensions how many staff are employed by the Office for Disability Issues; and how much has been spent on its operation in each year since its inception. [295026]

Jonathan Shaw: The Office for Disability Issues employs 78 staff. Taking account of part-time workers this figure equates to a staff in post figure of 75.18.

The Office for Disability Issues is funded by the Department for Work and Pensions. This funding is made up of an allocation for administration and programme. The total amount spent each year by the Office for Disability Issues since its inception is shown in the following table:

	2005-06	*2006-07*	*2007-08*	*2008-09*	*Total spend 2005-09*
Total spend on Administration	1,811,762	2,887,502	5,761,253	5,362,035	15,822,552
Total spend on Office for Disability Issues Programme	4,245,283	1,815,043	2,600,995	2,791,698	11,453,019
Total spend on Equality 2025 Programme	0	353,974	531,085	506,000	1,391,059
Total yearly spend by the Office for Disability Issues	6,057,045	5,056,519	8,893,333	8,659,733	28,666,630

Source:
Office for Disability Issues end of year management accounts 2005-2009.

Poverty: Children

Greg Mulholland: To ask the Secretary of State for Work and Pensions what steps her Department is introducing to meet the Government's target of eradicating child poverty by 2020; what her latest estimate is of the likelihood of the target being achieved; and if she will make a statement. [294302]

Helen Goodman: The Government believe that, for most families, work is the best route out of poverty. The Department for Work and Pensions is increasing support for lone parents and disabled parents, and testing out new support for second earners, to help them find, remain and progress in work. This support takes the form of both pre-employment support and in-work support.

The latest statistics for 2007-08 show that 500,000 children have been lifted out of poverty since 1997; measures announced in and since Budget 2007 are estimated to lift a further 500,000 children out of poverty. The Child Poverty Bill is currently progressing through Parliament which will enshrine in law the commitment to eradicate child poverty by 2020.

Unemployment: Young People

Dr. Starkey: To ask the Secretary of State for Work and Pensions what steps she plans to take to assist under-25 year olds who have been unemployed for over 12 months. [290986]

Jim Knight *[holding answer 14 September 2009]:* As part of the Department's commitment to support people into work, substantial investment has been made since November 2008 to offer extra support to jobseekers to help them find work at all stages of their claim.

An enhanced offer to all jobseekers at day one of their claim includes targeted group sessions in jobsearch techniques, access to Local Employment Partnership vacancies and help with the costs of getting back to work through the Adviser Discretionary Fund.

At the six-month point of their claim, all jobseekers now receive a substantial package of extra support including access to recruitment subsidies, work-focused training places, volunteering opportunities and support to become self-employed.

We have also targeted significant resource on people under age 25 in recognition of the particular challenges young people face during a recession. These measures are designed to prevent, wherever possible, young people experiencing prolonged spells of unemployment early in their working lives.

On 29 July, the Government launched a campaign called Backing Young Britain, calling on businesses, charities and Government bodies to create more opportunities for young people, such as internships, mentoring support and coaching. As part of this campaign, all young people will receive additional adviser support and can be put forward for a work trial from day one of unemployment. We are also working with businesses to increase graduate internships and to develop work experience and mentoring support for young jobseekers.

In early 2010, young people will be able to benefit from the Young Person's Guarantee which guarantees a job, work-focused training, or meaningful activity to all 18 to 24-year-olds before they have reached the 12-month stage of their claim to jobseeker's allowance. This offer will become mandatory from April 2010.

The Future Jobs Fund, one key element of the Young Person's Guarantee, will create at least 100,000 jobs for young people aged between 18 and 24. The first jobs will be available from October 2009 for customers approaching the 10-month point in their claim.

If young people remain on benefits at the 12-month stage, they will be referred to the provider-led Flexible New Deal programme (in phase 1 areas) and will benefit from work-focused support, tailored to the individual's needs and local labour market requirements.

In phase 2 areas at the 12-month stage, jobseekers will be participating in one of the New Deal Options. If they remain unemployed following this programme, jobseekers will move into the Follow-Through Stage of the New Deal and receive more frequent, targeted adviser support.

Help is also available for 16 and 17-year-olds. The September Guarantee was introduced in 2007 to ensure that every young person leaving compulsory education at 16 receives a suitable offer of a place in learning. It was extended to 17-year-olds in 2008. By the end of 2008, this guarantee helped to support an increase in the proportion of 16 and 17-year-olds participating in learning to 88 per cent., the highest ever rate. The proportion of 16 and 17-year-olds not in employment, education or training (NEET) fell for the third consecutive year, and only 5.2 per cent. of 16-year-olds were NEET, the lowest rate for more than a decade.

Furthermore, the Government are delivering record numbers of apprenticeships in England and we expect 250,000 people to start apprenticeships this year.

WALES

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Wales what percentage of procurement contracts his Department awarded to small businesses in *(a)* 2006-07, *(b)* 2007-08, *(c)* 2008-09 and *(d)* 2009-10; and if he will make a statement. [293232]

Mr. Hain: The Wales Office uses the Ministry of Justice procurement systems and the Office of Government Commerce on-line procurement services.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Politics and Government

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the date on which the Electoral Complaints Commission in Afghanistan is expected to report its findings in respect of the recent presidential election. [293679]

Mr. Ivan Lewis: The Electoral Complaints Commission reported the findings of its investigation to the Independent Election Commission (IEC) on 19 October 2009. The IEC announced the final result of the presidential elections on 20 October 2009.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his *(a)* EU, *(b)* UN and *(c)* NATO counterparts on the conduct of the Afghanistan elections. [293820]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has had recent discussions with a range of partners, including US and EU counterparts and the Secretary General of NATO, about the process and conduct of the Afghan elections. The international community continues to support the Independent Election Commission and Electoral Complaints Commission's investigation.

British Overseas Territories: Arms Control

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings he has held to discuss tackling arms trafficking in UK Overseas Territories in the last 12 months. [293454]

Mr. Ivan Lewis: In the last 12 months my right hon. Friend the Foreign Secretary has not held any specific discussions on combating arms trafficking in the British Overseas Territories.

Burma

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the effectiveness against objectives of EU sanctions on Burma. [294540]

Mr. Ivan Lewis: Following the sentence imposed on Aung San Suu Kyi on 11 August 2009, the EU put in place further sanctions intended to specifically target the Burmese regime's economic interests, as well as imposing a travel ban on those members of the judiciary responsible for the verdict. These measures came into force on 14 August 2009. The fact that new EU trade and investment is negligible is an indication of the success of this policy.

Moreover, these sanctions leave the regime in no doubt about our determination to see real democracy established and human rights respected in Burma. Their objective is to target those individuals and entities that are most closely linked to the regime's misrule, rather than punishing the Burmese population as a whole.

Burma: Arms Trade

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what UK policy is on proposals for a UN arms embargo on Burma; and if he will make a statement. [294673]

Mr. Ivan Lewis: Following the verdict in the trial of Aung San Suu Kyi, my right hon. Friend the Prime Minister wrote to the UN Secretary General Ban Ki-Moon and Security Council members calling for a voluntary, global arms embargo against Burma.

The EU and the US have had an arms embargo in place for many years. A UK attempt to secure a non-binding Security Council resolution in 2007 was blocked. We will however continue to work through the UN, the EU and bilaterally to put maximum pressure on the Burmese regime.

Burma: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of recent proposals for a UN Commission of Inquiry into human rights violations in Burma; and if he will make a statement. [294674]

Mr. Ivan Lewis: We are aware of several calls for the establishment of a commission of inquiry to investigate human rights in Burma. While there are a number of ways by which such a commission could be established, all would require a level of international consensus on Burma that is not presently achievable.

In the past two years, our efforts have helped to secure unprecedented UN Security Council action on Burma, in the form of two strongly worded Presidential Statements. We are also active in pursuing strong resolutions in both the Human Rights Council and at the General Assembly. We fully support the efforts of UN Special Rapporteur, Tomas Quintana. His work on human rights abuses in Burma is crucial to holding the regime to account and we have urged the Burmese authorities to grant him the necessary access.

Burma: Politics and Government

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of human rights violations in eastern Burma in the last 12 months; and what representations he has made to the Burmese Government on this matter. [294539]

Mr. Ivan Lewis: The UK is deeply concerned about the human rights situation in eastern Burma and reports earlier in the year of renewed fighting between the Karen National Union and the Democratic Karen Buddhist army, who are supported by the Burmese army.

Attacks carried out by the Burmese army and their Karen client organisations on civilians in Karen State have been particularly intense in the last two years. We have repeatedly called for a halt to such offensives and have urged both the military regime and the Karen National Union to intensify their efforts to find a peaceful settlement that will bring about a permanent end to the conflict.

On 11 June 2009, the Czech Presidency of the EU issued a statement calling for an end to the hostilities. It expressed particular concern about the humanitarian impact of the conflict. We fully support this call and our embassy in Rangoon continues to monitor the situation closely. Our embassy most recently raised human rights issues with the Burmese authorities on 18 October 2009.

Chagos Islands

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to publish in full his Department's response to the European Court of Human Rights on the application made by the Chagos Islanders. [294108]

Chris Bryant: I refer the hon. Member to the answer given by my noble Friend, the then Minister for Europe, Baroness Kinnock of Holyhead on 12 October 2009, *Official Report, House of Lords*, column WA3. Copies of the Government's observations on the application have been placed in the Library of the House.

Children: Kidnapping

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding has been allocated to his Department's Child Abduction Unit in each of the last five years. [294383]

Chris Bryant: A dedicated Child Abduction Section was set up in the Foreign and Commonwealth Office's Consular Directorate in 2003 in response to the growing number of parental child abduction cases. There are currently five staff in the section. In addition to staff costs, the following funding amounts were allocated to projects over the last five financial years:

	(£)
2009-10[1]	£102,006
2008-09	£115,200
2007-08	£162,250
2006-07	£66,980
2005-06	[2]—

[1] Current year

[2] There was no specific funding allocation for Child Abduction Section

China: World Expo

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 21 July 2009, *Official Report*, column 1259W, on the Shanghai World Expo, when he expects to finalise plans for ministerial attendance at the event. [294382]

Mr. Ivan Lewis: The Government are fully committed to Shanghai Expo 2010, which offers the UK a unique opportunity to advance our very broad objectives in China: from trade and industry to climate change, science and technology to tourism, and education to financial services. Plans for ministerial attendance during the six months of the Expo will be decided upon nearer to the opening in May 2010.

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received representations on the recommendations of Georgios Lordos on a possible property settlement in Cyprus; and if he will make a statement. [293701]

Chris Bryant: The Government have received no such representations.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what research his Department has evaluated into the number of Greek Cypriots who in respect of a settlement in Cyprus would wish for *(a)* restitution, *(b)* compensation and *(c)* property exchange; if he will consider the merits of allocating funds to such research; and if he will make a statement. [293702]

Chris Bryant: The Government have made no such evaluation.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of relinquishing the UK's commitment under the Treaty of Guarantee for Cyprus; and if he will make a statement. [293707]

Chris Bryant: The leaders of the two communities are continuing to discuss the issue of security and guarantees. The UK will not be an obstacle to a solution.

Cyprus: Green Line

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people who have crossed the Green Line in Cyprus since 30 April 2008; and if he will make a statement. [293704]

Chris Bryant: The Government have not estimated this information. However, according to figures provided by the Republic of Cyprus and published in the European Commission's Green Line Report, 730,310 Greek Cypriots crossed from the south to the north of Cyprus and 1,287,126 Turkish Cypriots crossed from the north to the south of Cyprus during the period 1 May 2008 to 30 April 2009:

http://ec.europa.eu/enlargement/pdf/
turkish_cypriot_community/glr_report_en.pdf

The same source reports that a further 739,097 non-Cypriot EU citizens and third-country nationals crossed the line during this period.

These figures do not include border crossings within the UK's Sovereign Base Areas, for which data are not collected.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department holds on the *(a)* volume and *(b)* monetary value of cross-Green Line trade in Cyprus; and if he will make a statement. [293705]

Chris Bryant: The Government do not collect any information on the volume or value of cross-Green Line trade in Cyprus. However, according to figures provided by the Republic of Cyprus and published in the European Commission's Green Line Report, the total value of goods that crossed the Green Line was €6,111,030 from 1 May 2008 to 30 April 2009, compared to €4,473,408 for the previous reporting period:

http://ec.europa.eu/enlargement/pdf/
turkish_cypriot_community/glr_report_en.pdf

Cyprus: Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* recent discussions he has had with (i) the government of Cyprus and (ii) the administration in northern Cyprus and *(b)* recent assessment he has made of implementation of confidence-building measures in Cyprus; and if he will make a statement. [293708]

Chris Bryant: The Government follow the Cyprus settlement question very closely and have frequent discussions both with the Government of Cyprus and the Turkish Cypriot leadership on this topic. They support confidence building measures as an important means of developing trust between the two communities. A number of measures, for example on ambulance crossings and restoration of cultural heritage, have already been implemented. We hope to see further confidence building measures being implemented in the coming months.

Cyprus: Turkey

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the number of settlers from mainland Turkey who are resident in the north of Cyprus who took residence in that region *(a)* following the invasion of Cyprus in 1974 and *(b)* since the referendum in 2004; and if he will make a statement. [293697]

Chris Bryant: The Government have made no such estimate.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department holds on the *(a)* volume and *(b)* monetary value of trade between Turkey and Cyprus; and if he will make a statement. [293706]

Chris Bryant: The Government do not hold any information on trade between Turkey and Cyprus. The most recent publicly available figures are from the Turkish Foreign Trade Under-Secretariat in 2007. Exports from Turkey to the Republic of Cyprus (RoC) equalled US Dollars ($)1.394 million, and imports from RoC to Turkey equalled $8,615 million. Volume of trade equalled $10.01 million.

Democratic Republic of Congo

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterparts in the UN Security Council on the implementation of UN Resolution 1820 in Democratic Republic of Congo; and what recent progress has been made on such implementation. [294542]

Mr. Ivan Lewis: The UK is a key supporter of UN Security Council Resolution (UNSCR) 1820, which deals with the issue of sexual violence in conflict situations. We work hard to mainstream its provisions into the mandate of the UN peacekeeping mission (MONUC). It is referred to in MONUC's mandate, due for renewal in December 2009.

The UK recently co-sponsored UNSCR 1888 (revision of 1820 on women and armed conflict). In addition, the UK continues to push for legal action against five senior Armed Forces of the Democratic Republic of Congo (FARDC) commanders accused of committing sexual violence, named by the UN Security Council during their visit in May 2009.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Democratic Republic of Congo on the prosecution of allegations of gender-based violence by members of the Congolese armed forces; and if he will make a statement. [294543]

Mr. Ivan Lewis: Our ambassador in Kinshasa has repeatedly called for members of the armed forces guilty of human rights abuses to be brought to justice. The UN Security Council, including the UK permanent representative, raised this issue in May with Democratic Republic of Congo (DRC) President Kabila and DRC Prime Minister Muzito. Kabila gave a speech to the nation on Independence Day in June this year, promising renewed efforts to ensure "total security" for the population, including ending sexual and gender-based violence.

Military courts in Rutshuru have since prosecuted several cases against some Congolese national army (FARDC) officers for crimes including rape. The UK continues to push for legal action against five senior FARDC commanders accused of committing sexual violence, named by the UN Security Council during their visit. We will continue to stress the importance of ensuring the implementation of the UN Mission to the DRC (MONUC)'s policy of withdrawing support from FARDC units implicated in serious human rights abuses.

Democratic Republic of Congo: Internally Displaced Persons

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate has been made of the number of people who have been displaced in Democratic Republic of the Congo as a result of the activities of the Lord's Resistance Army since the beginning of 2009; which countries have received such people; and if he will make a statement. [294536]

Mr. Ivan Lewis: According to a recent report by the UN Secretary General, 226,000 people have been displaced in the Democratic Republic of Congo (DRC) as a result of the activities of the Lord's Resistance Army since the beginning of 2009.

We are aware that many displaced people from the DRC have moved to South Sudan. We are also aware that some refugees may have fled to Uganda and the Central African Republic.

We strongly condemn the atrocities committed by the Lord's Resistance Army in the northern DRC and throughout the Great Lakes Region of Africa. They have committed appalling human rights abuses against the civilian population, including mass executions and abductions. The UN Mission to the DRC, MONUC, has increased its presence in the north of the country, after being urged to do so by the UK and other governments. MONUC is providing logistical support to humanitarian organisations, which are providing relief to the civilian population.

We also strongly urge co-ordination between the different peacekeeping missions in that region of Africa.

Departmental Official Hospitality

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on *(a)* hosting and *(b)* supporting the involvement of young British people in (i) EU, (ii) Commonwealth and (iii) UN activities. [293805]

Chris Bryant: This information is not held centrally and to provide it would incur disproportionate cost.

Embassies: EU Countries

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs what revenue was received at British Embassies from Overseas Passport fees in each country of the European Union in each of the last five years. [294172]

Chris Bryant: The following table lists the revenue received at our Missions from Overseas Passport fees in each country of the EU in each of the last five years, pro-rated based on accession dates.

£

Country	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*Grand total*
Austria	37,757	69,567	89,472	123,835	94,071	414,702
Belgium	252,721	257,358	304,304	389,535	34	1,203,952
Bulgaria	0	0	0	5,000	13,661	18,661
Cyprus	321,090	390,832	520,032	600,710	681,560	2,514,224

EU Institutions

Mr. Bone: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the prospects for institutional changes in the European Union. [294000]

Chris Bryant: The Swedish EU presidency wants to see the Lisbon treaty enter into force as soon as possible, to bring into effect the treaty's institutional reforms which will improve EU decision-making, transparency and accountability, and the effectiveness of EU action around the world. This is a priority that the UK shares.

Following the Irish referendum endorsement of the Lisbon treaty on 2 October 2009 and signature of the Polish instrument of ratification by President Kaczynski on 10 October 2009, 26 member states have now completed their national processes to ratify the treaty. We hope that the Czech ratification will follow shortly.

EU Law

Mr. Godsiff: To ask the Secretary of State for Foreign and Commonwealth Affairs which powers ceded to EU level under the Treaty establishing the European Communities and the Treaty on European Union have subsequently been returned to the UK under the principle of subsidiarity. [293798]

Chris Bryant: The principle of subsidiarity is not a mechanism for "returning powers" to the member states, but for determining whether or not Community action should be set in motion.

The member states, through the EU treaties, set the EU certain tasks and give it the powers to achieve those tasks. Article 5 of the treaty establishing the European Community states that, in areas which do not fall within its exclusive competence, the Community shall take action, in accordance with the principle of subsidiarity, only if and in so far as the objectives of the proposed action cannot be sufficiently achieved by the member states and can therefore, by reason of the scale or effects of the proposed action, be better achieved by the Community.

Further guidelines for assessing whether these requirements are met are laid down by the Protocol on the application of the principles of subsidiarity and proportionality. The Protocol also requires the Commission to justify the relevance of any of its legislative proposals with regard to the principle of subsidiarity.

The Lisbon treaty would strengthen the role of national Parliaments in EU decision-making, so that for the first time national parliaments could challenge draft EU legislation on subsidiarity grounds. It is for Parliament to decide how to exercise its rights under these procedures.

EU: Financial Institutions

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterparts in the General Affairs Council on the Swedish presidency's agenda for banking and financial regulation and shareholding in the EU. [294363]

Chris Bryant: My right hon. Friend the Foreign Secretary discussed the European Commission's proposals on financial regulation and supervision with his counterparts at the General Affairs Council (GAC) of 27 July 2009 and 14 September 2009. EU member states are agreed on the necessity of making swift progress on the package, with a view to reaching agreement by the December European Council under the EU Swedish presidency.

The GAC has not discussed the EU Shareholder Rights Directive.

European Union: Reform

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Czech Government on prospects for constitutional reform in the EU. [294699]

Chris Bryant: I have recently discussed EU institutional issues with my Czech counterpart as part of my introductory contacts with my EU colleagues on issues of mutual interest.

France: Industrial Disputes

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of France on the cost to British businesses and tourists of blockades of Channel ports. [293876]

Chris Bryant: Our embassy in Paris and our consulate in Lille have both raised issues relating to the blockades with the French authorities.

The Minister of State, Department for Transport, my right hon. Friend the Member for Tooting (Mr. Khan), also raised concerns with his French counterpart during the blockade.

Gaza: Borders

Mrs. Riordan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps he has taken to seek *(a)* the ending of restrictions on access to Gaza imposed by the Israeli authorities and *(b)* to ensure that international law is observed in that area. [293990]

Mr. Ivan Lewis: My right hon. Friend the Prime Minister spoke to Prime Minister Netanyahu on 15 October 2009. He clearly expressed the UK's concerns regarding the current situation in Gaza and urged unimpeded access for humanitarian aid.

Although there is no permanent physical Israeli presence in Gaza, Israel maintains a significant degree of control, including control of Gaza's borders, airspace and territorial waters. The UK does not consider that Israel's obligations under the Fourth Geneva Convention 1949 have ceased to apply in respect of Gaza and we continue to make this clear.

Ilois: Resettlement

Jo Swinson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 16 July 2009, *Official Report*, columns 605-06W, on the British Indian Ocean Territory, who the interveners are in the case. [294047]

Chris Bryant: The interveners in the case of Chagos Islanders *v.* the UK at the European Court of Human Rights are Human Rights Watch and Minority Rights Group International.

India

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of India on the situation of the Chin refugees in Mizoram state; and if he will make a statement. [294670]

Mr. Ivan Lewis: My right hon. Friends the Prime Minister and the Foreign Secretary are in regular contact with their Indian counterparts on the subject of Burma.

The UK believes that the status quo in Burma is inherently unstable and that the case of the Chin refugees is just one example of the Burmese regime's repressive policies towards the country's ethnic groups.

We also remain concerned by the effects of a rat infestation in Chin state during the last two years and the plight of the Chin refugees in India.

In response to an assessment undertaken by the UN, the Department for International Development has approved funding of £880,000 for emergency aid delivered through the UN Development Programme, the World Food Programme and their local partners. About 65,000 people have benefited from this aid. We are keeping the situation under close review.

India: Religious Freedom

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of India on reported persecution of Christians in Orissa state; and if he will make a statement. [293668]

Mr. Ivan Lewis: My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs has not discussed the situation of Christians in Orissa State with the Government of India. When the violence perpetrated against these communities occurred in 2008, my noble Friend, the former Minister for Africa, Asia and the UN, Lord Malloch Brown, raised the issue with his Indian counterpart. Our high commission in New Delhi continues to maintain a constructive dialogue with the Indian authorities about human rights and issues that affect all India's minority groups.

Iran: Overseas Trade

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 12 October 2009, *Official Report*, column 1WS, on delegated legislation (counter terrorism), if he will make it his policy to seek European Union sanctions requiring the financial sectors in EU member states to cease all business with the Islamic Republic of Iran Shipping Lines; and if he will make a statement. [293788]

David Miliband: The measures taken by the Treasury under the Counter Terrorism Act 2008 against Bank Mellat and the Islamic Republic of Iran Shipping Lines was used specifically to mitigate the risks posed to the UK national interest by activity in Iran that facilitates the development or production of nuclear weapons. Where the Government identify such activities, they are committed to acting to curtail them.

We are clear that if Iran does not engage seriously in negotiations to restore the international community's confidence in its nuclear programme, multilateral sanctions will be required. We are working closely with other EU member states to ensure that the EU is in a position to enact measures if this should prove necessary. At the present, the content of this work must remain confidential, but I will inform the House when it is possible to discuss these measures in more detail.

Iran: Religious Freedom

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the human rights situation of the Jewish community in Iran since July 2009; and if he will make a statement. [293293]

Mr. Ivan Lewis: The situation of the Jewish community in Iran has long been of concern to us. Its members have suffered discrimination under the Islamic Republic: for example, Iranian Jews are barred from running for President, and from a number of professions, such as the armed forces. President Ahmadinejad's repeated denials of the Holocaust—most recently at the UN General Assembly in September—only serve to increase our concern.

We have been disturbed by the Iranian authorities' response to the protests that followed the disputed June 2009 presidential election, and in particular by the death and imprisonment sentences handed down in recent days. One of those convicted was the Jewish teenager, Yaghoghil Shaolian. He has been sentenced to two and a half years in prison. We are seeking more information about his case, as well as those of the other defendants, and will raise our concerns with the Iranian authorities, since those convicted and sentenced appear to have been denied a fair trial.

Kenya: Politics and Government

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Kenya on the missed interim deadline for the establishment of a local tribunal to try those accused of orchestrating the violence which followed the elections in that country in December 2007; and if he will make a statement. [294671]

Mr. Ivan Lewis: The UK is concerned that no action has been taken on bringing to justice thoie accused of orchestrating Kenya's post-election violence in 2007, neither by a special tribunal nor referral to the International Criminal Court (ICC). With our EU partners and other like-minded countries we are continuing to make clear that credible action is necessary.

My right hon. Friend the Foreign Secretary encouraged Kenya's reform process, including tackling impunity and post-election violence, during his meeting with Prime Minister Odinga in London last July. Since then my right hon. Friends the Prime Minister, the Secretary of State for International Development and the former Minister of State for Africa have also encouraged the Kenyan Government to establish a credible tribunal to investigate and prosecute those responsible.

The Government support the role being played by Kofi Annan and endorses his proposal that the ICC continue its discussions with the Kenyan Government to achieve justice. We continue to believe action on impunity is needed to prevent future violence and to send a strong message that Kenyans will not tolerate violence.

Maritime Navigation

Mr. Liddington: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects the Government to ratify the 2005 Protocol to the 1988 Convention for the Suppression of Unlawful Acts Against the Safety of Maritime Navigation; and if he will make a statement. [293139]

Mr. Ivan Lewis *[holding answer 15 October 2009]:* The Government remain committed to ratifying the protocol which we signed in January 2007, although we do not yet have a firm timetable for introduction of the required Bill into Parliament.

Middle East: Armed Conflict

Mrs. Riordan: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to seek endorsement by the United Nations Security Council of the recommendations for action contained in the report of the United Nations Fact Finding Mission on the Gaza conflict. [294027]

Mr. Ivan Lewis: As my right hon. Friend the Foreign Secretary said on 20 October 2009, *Official Report,* column 762, the report

> "did not do enough to recognise Israel's right to self-defence but.... did raise serious issues that democratic governments should address through ... [a] full and independent inquiry".

Given our concerns about the report, we will not be seeking its endorsement by the UN Security Council. But we will continue with our international partners to condemn Hamas' use of terrorism and press Israel to conduct a proper independent inquiry.

Middle East: Gas

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received on the proposed agreement between British Gas and the Israel Electric Corporation to purchase gas from the Gaza Marine Field; and if he will make a statement. [293092]

Mr. Ivan Lewis: We have not received any recent representations on this issue.

Middle East: Peace Negotiations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in restarting negotiations on the Middle East Peace Process; and if he will make a statement. [293785]

David Miliband: The US Administration, from the President down, have made clear their commitment to restarting negotiations and continue to work towards that goal. We are offering them our full support, as I made clear to US Secretary of State Hillary Clinton on 11 October 2009. While significant obstacles undoubtedly remain, the alternatives to credible negotiations towards a two-state solution are far worse.

NATO: Young People

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his NATO counterparts on the involvement of young people in the UK in NATO activities. [293809]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has had no recent discussions with his North Atlantic Treaty Organisation (NATO) counterparts on this issue.

NATO is currently in the process of producing its new Strategic Concept, which will set the Alliance's direction for the coming years. We support the Secretary General's efforts to make this as consultative as possible. That includes setting up an online discussion forum through which members of the public, including young people in the UK, can give their views on the future priorities of the Alliance. It can be found at:

http://natostratcon.info/forum/

The Foreign and Commonwealth Office also supports the work of the Atlantic Council UK which has recently set up a Youth Chapter and will begin a schools programme next month designed to increase awareness among young people in this country of the important work NATO does.

Through our contributions to NATO's civil budget we also support the work of the Alliance's Public Diplomacy division, which hosts a number of youth events. These include youth summits held in the margins of NATO's annual summits, the most recent of which took place in April.

Northern Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the *(a)* area and *(b)* proportion of Greek Cypriot-owned land in northern Cyprus that has been (i) sold by the administration in northern Cyprus and (ii) developed by Turkish Cypriots (A) following the invasion of Cyprus in 1974 and (B) since the referendum in 2004; and if he will make a statement. [293696]

Chris Bryant: The Government have made no such estimates.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the proportion of the population of northern Cyprus constituted by *(a)* Turkish Cypriots and *(b)* Turkish settlers; and if he will make a statement. [293703]

Chris Bryant: The Government have made no such estimate.

Northern Cyprus: Economic Situation

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the state of the economy in northern Cyprus; and if he will make a statement. [293698]

Chris Bryant: The current situation hinders the economic development of the Turkish Cypriot economy. We welcome the EU's commitment to support the development of the Turkish Cypriot community through financial aid and trade liberalisation. However, only an agreed settlement can provide the Turkish Cypriots with the full benefits of EU membership.

Pakistan: Religious Freedom

Mrs. Iris Robinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take to encourage the Pakistani Government to repeal laws which discriminate against Christians. [293658]

Mr. Ivan Lewis: The UK supports freedom of religion and condemns persecution because of faith or religious belief. We view the difficult situation facing religious minorities with concern and regularly raise human rights concerns both bilaterally with the Government of Pakistan and together with our EU partners.

Alongside our EU partners the UK continues to encourage the Government of Pakistan to repeal or amend the blasphemy laws to reduce the misuse of legislation to discriminate against minority groups, including Christians. In December 2008 the EU called upon the Government of Pakistan to promote tolerance, to effectively protect freedom of belief and expression, and to reform discriminatory laws such as the blasphemy laws. In August 2009 the EU also raised the attacks on Christians in Gojra and Koiran in Punjab.

We continue to encourage Pakistan to fulfil it commitments under the UN Human Rights Council. During the last Periodic Review in May 2008 we secured a commitment from the Government of Pakistan that checks would be introduced to regulate investigations into allegations of blasphemy that affect minority groups.

Palestinians: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on reconciliation talks between Hamas and Fatah; and if he will make a statement. [293784]

David Miliband: The UK has made clear its support for Egyptian-sponsored efforts to build a non-partisan, technocratic Palestinian Government, which would be capable of working productively with the international community.

Papua: Violence

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the upsurge of violence in West Papua; and if he will make a statement. [292334]

Chris Bryant: There has been an increase in sporadic violent incidents in the Indonesian province of Papua over the last six months. There was an initial upsurge around the time of the April 2009 parliamentary elections, primarily in Puncak Jaya and Jayawijaya districts and Nabire and Abepura towns. There have been further incidents over the last three months in Mimika district in which an Australian national and a number of Indonesian police officers were killed. According to our embassy contacts, the Indonesian policing response to these incidents is generally considered to have been measured.

We recognise that real challenges remain in Papua. Our ambassador visited Papua last month and discussed these issues with the Indonesian authorities. He emphasised the need to fully and transparently investigate any allegations of human rights abuses.

Sudan: Internally Displaced Persons

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the security situation in the refugee camps along the Chad-Sudan border, particularly for women and girls; and if he will make a statement. [294678]

Mr. Ivan Lewis: The security situation along the Chad-Sudan border is of concern. The UK strongly supports both the UN peacekeeping force, MINURCAT, which helps to protect refugee camps in eastern Chad, and the joint African Union-UN Peacekeeping mission (UNAMID) which helps to protect civilians in Darfur.

UK officials met with the UN Special Representative for the United Nations Mission in Central African Republic and Chad last month and discussed sexual and gender based violence as well as security issues in Eastern Chad.

The UK led on the renewal of UNAMID's mandate in July of this year, which focuses UNAMID on a number of key tasks, including protection of civilians. The renewed mandate also specifically tasks the UN Secretary-General with developing a comprehensive strategy for providing protection to women and girls from sexual and gender-based violence.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what the UK's commitment to the Comprehensive Peace Agreement in Sudan is; and what personnel the UK has trusted in support of this commitment. [292432]

Mr. Ivan Lewis: The UK believes the Comprehensive Peace Agreement (CPA) is the foundation of future peace and stability in Sudan. The UK was one of the witnesses to the signing of the CPA in 2005 and we are committed to its full implementation, including the referendum on self-determination for South Sudan in January 2011.

Ministers are closely engaged in leading the UK's efforts in Sudan. My hon. Friend the Minister of State, Department for International Development visited Sudan earlier this month and will be meeting with both parties in North and South Sudan to urge them to accelerate implementation of the CPA.

The UK has a strong Government team working on Sudan, led by the UK Special Representative for Sudan, together with our ambassador in Khartoum. We also fund Sir Derek Plumbly as Chairman of the Assessment and Evaluation Commission (AEC), the organisation in Sudan charged with monitoring implementation of the CPA.

DFID has a major programme of development assistance to Sudan, with a budget of £115 million for 2009-10, and we provide significant support to both UN missions in Sudan, including deployment of UK military officers.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps his Department has taken on the implementation of the Comprehensive Peace Agreement in Sudan in its role as a co-signatory to the Agreement. [294538]

Mr. Ivan Lewis: The UK believes the Comprehensive Peace Agreement (CPA) is the foundation of future peace and stability in Sudan and was one of the witnesses to the signing of the CPA in 2005. We are committed to its full implementation, including the referendum on self-determination for South Sudan in January 2011.

The UK has been working closely with partners, including the US and its Special Envoy to Sudan, General Gration, to urge both the National Congress Party and the Sudanese People's Liberation Movement to make urgent progress on the outstanding CPA milestones.

My hon. Friend the Minister of State for International Development visited Sudan earlier this month and urged both parties in north and south to ensure that the remaining issues are resolved, including preparations for the elections next year and referendum in 2011. He also underlined the importance that the UK attaches to free and fair elections.

The UK has worked actively to ensure that the decision by the Permanent Court of Arbitration in July over the boundary of the Abyei area is accepted by both parties. Implementation of the decision is now progressing slowly and we continue to urge timely and peaceful progress. We are concerned that the broader north-south border demarcation process is stalled and have pressed both parties to resolve the remaining areas of contention.

The UK is also working to ensure that critical post-referendum issues, such as wealth-sharing and citizenship rights, are addressed by both parties. These need to be agreed by north and south in advance of the referendum, whatever its outcome, to help ensure that the decision is peaceful. We are supporting work through Chatham House in this area.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on measures to strengthen the Assessment and Evaluation Committee on the Comprehensive Peace Agreement in Sudan; and if he will make a statement. [294669]

Mr. Ivan Lewis: The UK strongly supports the Assessment and Evaluation Commission (AEC) in Sudan and the work it undertakes to monitor implementation of the Comprehensive Peace Agreement (CPA).

We secured the appointment of Sir Derek Plumbly, a retired UK diplomat, as Chair of the AEC in March 2008 and Sir Derek has worked actively to strengthen the role of the AEC. My hon. Friend the Minister of State for International Development met with Sir Derek during his visit to Sudan last week.

The AEC has been active and instrumental in delivering progress on the CPA: senior representatives from both the Sudanese People's Liberation Movement and the National Congress Party sit on the AEC, with a number of members and observers drawn from the witnesses to the Agreement, and this has provided a forum for open dialogue on the various CPA issues. There are a number of AEC Working Groups that address the various issues, including Power Sharing, Wealth Sharing, Security and the Three Areas.

The UK is active in both the AEC plenary meetings and all of its working groups. We continue to work to support the AEC and ensure that it continues to play a central role in implementation of the CPA.

Telecommunications

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to *(a)* the Government of Turkey, *(b)* the Government of Cyprus and *(c)* the administration in Northern Cyprus on improving communications across the Green Line in respect of *(a)* the routing of and *(b)* charges for mobile telephone and internet services. [293700]

Chris Bryant: It is clear that the separate telecommunications systems that exist on either side of the Green Line inhibit cost-effective communication between north and south. The Government would welcome any initiatives that would enhance communication between the two communities. We continue to discuss this issue and possible confidence building measures with both communities.

Temple Mount

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of stones being thrown at a group of Christian tourists entering the site of the Temple Mount on 27 September 2009; what recent discussions he has had with the Palestinian Authority on this issue; and if he will make a statement. [293288]

Mr. Ivan Lewis: We are very concerned by the recent tensions and clashes in Jerusalem. We continue to call on all sides to refrain from proactive action. This holy city is important to Israelis and Palestinians, and to people of three great faiths. Incitement from any quarter does not serve the cause of peace, and must stop.

Terrorism: Finance

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what sources of illicit funding for the Taliban his Department has identified other than that derived from the narcotics trade; and if he will make a statement. [293787]

David Miliband: The illicit narcotics trade continues to provide a significant source of income for the Taliban. Other sources of funds are foreign donations, local contributions, illegitimate taxes, ransom for kidnapping, and extortion and smuggling. We are working with our international partners, and through established mechanisms like the UN Security Council Resolution 1267 sanctions regime, to identify and eliminate the Taliban's access to these funding sources.

Treaty of Lisbon

Mrs. Iris Robinson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will bring forward proposals to hold a referendum on UK ratification of the Treaty of Lisbon; and if he will make a statement. [293653]

Chris Bryant: No.

Uganda

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of UK policy towards Uganda of any discovery of new oilfields in that country. [294849]

Mr. Ivan Lewis: Oil companies operating in Uganda have announced significant new discoveries this year in the Albertine Rift Valley region in Western Uganda. Technical and financial challenges remain, but current projections suggest that Uganda could become an oil producing nation within a few years. Oil resources could, if properly managed, help to strengthen Uganda's economy and development prospects.

The UK has urged the Government of Uganda to design and implement sound and transparent strategies for harnessing oil resources that support peaceful economic and political development.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Uganda on the subject of refugees from Sudan in that country. [294850]

Mr. Ivan Lewis: None

Uganda: Armed Conflict

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of the status of the peace negotiations with the Lord's Resistance Army (LRA) is; what recent reports he has received of countries where the LRA is active; and if he will make a statement. [292433]

Chris Bryant: The Government of Uganda and the Lord's Resistance Army (LRA) agreed a peace settlement, the Final Peace Agreement (FPA), in April 2008 after almost two years of negotiations mediated by the Government of Southern Sudan. However the LRA has yet to honour its commitment to sign the final peace agreement.

The LRA are known to be operating in Southern Sudan, the Central African Republic and the Democratic Republic of Congo.

The Government regularly discuss LRA activity with the Government of Uganda, and stress the importance of both continued regional cooperation to deal with the threat and protecting civilian populations from LRA attacks.

At the recent UN General Assembly Ministerial week, my hon. Friend the Minister of State for Foreign and Commonwealth Affairs (Mr. Ivan Lewis) discussed the LRA with Ugandan Foreign Minister Sam Kutesa. Our posts in Kampala, Juba, Khartoum, Yaounde and Kinshasa continue to monitor the situation closely, and have raised the issue with other interested parties, including the UN.

UN Security Council

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish the papers submitted by the Government to the meeting of the five permanent members of the UN Security Council held in London on 3 and 4 September. [294838]

Mr. Ivan Lewis: The UK conference considered confidence building, verification and compliance challenges associated with achieving further progress on nuclear disarmament and non-proliferation. The conference was the first time that senior policy-makers, military officials and technical experts from the five permanent members of the UN Security Council (P5) had met to discuss such issues. The P5 agreed that the conference would be held behind closed doors to facilitate full and frank discussion. The P5 issued a statement summarising the discussions after the conference.

UN: Young People

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his UN counterparts on involvement of young people from the UK in UN activities. [293806]

Mr. Ivan Lewis: We strongly welcome interest from British young people on discussions with UN and other counterparts and encourage their involvement in appropriate activities. We are also very active on this issue in London. For example last year my right hon. Friend the Foreign Secretary hosted a reception for the UN Association's Young Professionals Network (YPN). The YPN brings together young professionals in their twenties and thirties who have a passion for international affairs and who support a strong role for the UN in responding to global challenges. A similar reception will be held in the Foreign and Commonwealth Office (FCO) later this month.

We are also in close contact with the various Model UN groupings, and representatives from the FCO attend (and speak) at many of their conferences. We are able to provide small amounts of funding to allow these events to take place.

We regularly organise briefings to Model UN groups when they visit New York.

United Nations: Meetings

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what matters were discussed at the meeting of the five permanent members of the United Nations Security Council in London on 3 and 4 September 2009; and what agreements were reached. [294251]

Mr. Ivan Lewis: The UK hosted a conference of senior policy-makers, military officials and technical experts from the P5 (Russia, China, the US, the UK and France) on 3-4 September 2009 to consider the confidence building, verification and compliance challenges associated with achieving further progress on nuclear disarmament and non-proliferation.

The discussions covered ways to increase mutual understanding by sharing definitions of nuclear terminology and information about nuclear doctrines and capabilities; presentations on enhancing strategic stability; ways to build mutual confidence through voluntary transparency; and the international challenges associated with responding to nuclear accidents. The P5 undertook to consider ways to co-operate to address these challenges, and released a statement after the meeting.

Yvonne Fletcher

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the report of the Cabinet Office inquiry into the shooting of WPC Yvonne Fletcher. [294128]

Mr. Ivan Lewis: The Government have no plans to place in the Library of the House a report relating to the shooting of WPC Yvonne Fletcher. A Metropolitan Police Service investigation into her murder is ongoing.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to meet *(a)* the Metropolitan Police Service and *(b)* his Libyan counterpart to discuss the investigation into the murder of WPC Yvonne Fletcher. [294129]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary will meet with the Metropolitan Police Service and the family of WPC Fletcher on Thursday 22 October 2009 to discuss the investigation into the murder of WPC Fletcher. Foreign and Commonwealth Office officials also meet regularly with the Metropolitan Police to receive updates. The most recent meeting was on Friday 16 October 2009. No meeting is currently scheduled with the Foreign Secretary's Libyan counterpart.

CULTURE, MEDIA AND SPORT

Creativity and Business International Network

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department has budgeted for expenditure on the Creativity and Business International Network forum event to be held from 26 to 28 October 2009 at The Grove in Hertfordshire. [294784]

Mr. Bradshaw: I refer the hon. Member to the answer my hon. Friend, the Minister for Culture, Creative Industries and Tourism, gave him on 14 October 2008, *Official Report,* column 1210W. The cost of the event at the Grove is included within the £3 million allocated to this project for the period 2008-09 to 2010-11.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Culture, Media and Sport when he plans to reply to the letter dated 22 July 2009 from the right hon. Member for Manchester, Gorton concerning Ms G. Hine. [294727]

Mr. Bradshaw: A response was sent on 8 September 2009.

Television: Licensing

John Battle: To ask the Secretary of State for Culture, Media and Sport how many households in Leeds, Leeds West constituency receive a free television licence. [295358]

Mr. Simon: Free television licences are administered for people aged 75 or over by TV Licensing as agents for the BBC. This is a matter for the BBC and my Department does not hold this information. I understand that the BBC cannot provide a breakdown of the licences distributed by constituency, but rather stores this information by postcode.

Natascha Engel: To ask the Secretary of State for Culture, Media and Sport how many households in *(a)* Derbyshire and *(b)* North East Derbyshire receive a free television licence. [294844]

Mr. Simon: Free television licences are administered for people aged 75 or over by TV Licensing as agents for the BBC. This is a matter for the BBC and my Department does not hold this information. I understand that the BBC cannot provide a breakdown of the licences distributed by county, but rather stores this information by postcode.

ELECTORAL COMMISSION COMMITTEE

General Elections

Mr. Pickles: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission what information the Electoral Commission has collected about the number of local authorities considering commencing their counts at the next general election on the day after polling day. [295029]

Mr. Streeter: The Electoral Commission informs me that it wrote to Returning Officers for all UK parliamentary constituencies in September 2009 requesting information about when they intend to begin the counting of ballot papers for the UK parliamentary general election.

As of 21 October 2009, the Commission informs me that it had received responses from Returning Officers for 247 out of 650 constituencies. Returning Officers for 134 constituencies reported that they planned to begin counting on the evening of polling day. Returning Officers for 27 constituencies reported that they planned to begin counting on the morning of the day following polling day. Returning Officers for 86 constituencies reported that they had not yet decided when they would begin counting. Over the coming weeks the Commission will be actively seeking responses from Returning Officers who have yet to reply.

A spreadsheet detailing responses received by constituency, at 21 October 2009, has been placed in the House of Commons Library. This information is also available on the Commission website and will be updated regularly.

HOUSE OF COMMONS COMMISSION

Members: Allowances

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how many hon. Members have returned monies to the House in respect of expenses claims; and how much has been repaid in each such case. [295069]

Nick Harvey: From 1 April to 21 October 2009, 260 Members and former Members made repayments of sums received as allowances totalling some £637,000. (This does not include all routine repayments arising from items such as refunds on utility bills and repayment of rental deposits.) More detailed information cannot be given without further checking, including checking by the Members concerned.

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate has been made of the cost to the public purse of Sir Thomas Legg's analysis of hon. Members' expenses claims. [295070]

Nick Harvey: The review is expected to cost approximately £1.1 million.

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what information is held by the House of Commons Commission on the tax liability of hon. Members in relation to their expenses claims. [295078]

Nick Harvey: The House does not hold information about the individual tax liability of Members. However, the House does provide Her Majesty's Revenue and Customs with details of taxable expenses and benefits in kind, by 6 July after the end of each tax year. The information passed to HMRC is also sent to individual Members in advance.

WOMEN AND EQUALITY

Equality Bill

David Taylor: To ask the Minister for Women and Equality how many of the responses received to the consultation on the public sector equality duties proposed in the Equality Bill were from faith-based organisations working in the public sector. [294830]

Michael Jabez Foster: The consultation on the specific duties closed on 30 September. We are currently working through the responses and will publish an analysis in due course.

The single Equality Duty we are bringing in through our Equality Bill will place a new legal requirement on public bodies to consider how they can design and deliver services in ways that will tackle discrimination and advance equality for people of different religions and those of none—resulting in better, more responsive and more personalised services for all.

DEFENCE

Monitor Group

Mr. Holloway: To ask the Secretary of State for Defence whether any *(a)* Ministers and *(b)* officials in his Department have had (i) meetings with, (ii) communications from and (iii) other contacts within the last five years; and what the subject matter of any contact was in each case. [295014]

Mr. Bob Ainsworth: Ministers have not met or communicated with the Monitor Group; information regarding departmental officials is not held centrally.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence how many service families have been placed by Modern Housing Solutions in *(a)* Premier Travel Inns and *(b)* other hotels in each year since 2005; and if he will make a statement. [294042]

Mr. Kevan Jones: For information related to 2005 to June 2007, the hon. Member is referred to the answer given by my predecessor on 26 July 2007, *Official Report*, column 1246W, to the hon. Member for North Devon (Nick Harvey).

Information on the number of service families placed in Premier Travel Inns or other hotels between July 2007 and today is not held centrally. I will therefore write to the hon. Member with the information requested once it has been collated.

Substantive answer from Kevan Jones to Willie Rennie:

I undertook to write to you in answer to your Parliamentary Question of 19 October 2009 (Official Report, column 1219W) regarding how many Service families have been placed in Premier Travel Inns and other hotels by Modern Housing Solutions (MHS) in each year since 2005.

MHS are the Housing Prime Contractor with responsibility for the repair and maintenance of approximately 44,000 Service Family Accommodation homes in England and Wales. They provide a full 24 hour, 365 day a year service in order to ensure all domestic repair emergencies are resolved as quickly as possible and with the minimum of inconvenience to Service families.

However, there will always be some cases where domestic emergencies such as fires or floods cannot be immediately resolved, and therefore it will occasionally be necessary to provide alternative accommodation to families while remedial works are carried out. The MOD always seeks to use Service accommodation for this purpose. However, where this is not available it may be necessary to place families in hotel accommodation.

The number of families placed in hotel accommodation each year since 1 January 2006, the start of the Housing Prime Contract, is as follows:

	Premier Travel Inns	*Other hotels*
2006	9	46
2007	15	51
2008	36	82
2009[1]	77	115

[1] To 14 October.

I hope this information is helpful.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 14 September 2009, *Official Report*, column 2124W, on armed forces: housing (1) for what reasons each of the charges set out in the answer were incurred; [294790]

(2) how many claims for damage to Modern Housing Solutions housing were made in each year for which information is available. [294791]

Mr. Kevan Jones: The number of claims for damage invoices raised against occupants of service family accommodation (SFA) for damage to property is provided in the following table.

Period	*Number of invoices raised*
1 November 2007 to 31 March 2008[1]	735
1 April 2008 to 31 March 2009[2]	3,843
1 April 2009 to 31 August 2009[2]	1,563

[1] GB.
[2] UK.

These figures represent single invoices raised and cover all SFA properties including those not maintained by Modern Housing Solutions. Invoices may cover several items of damage caused by an occupant. A full breakdown of all invoices could be provided only at disproportionate cost.

Armed Forces: Medical Services

Mr. Weir: To ask the Secretary of State for Defence how many personnel from the Surgeon General's Department were based in *(a)* Scotland, *(b)* Wales, *(c)* England, *(d)* Northern Ireland, *(e)* Cyprus and *(f)* Germany in each of the last five years. [291376]

Mr. Kevan Jones *[holding answer 16 September 2009]:* The Surgeon General's Department (SGD) is the central policy and secretariat division of the Defence Medical Services. Its staff include uniformed personnel who are serving members of the Royal Navy, Army and RAF Medical Services, as well as civilians. As at 1 October 2009, it had 160 staff (figure rounded to the nearest 10) all of whom were based in England. Figures for previous years could be provided only at disproportionate cost.

Armed Forces: Northern Ireland

David Simpson: To ask the Secretary of State for Defence how many people resident in each *(a)* parliamentary constituency and *(b)* local authority area in Northern Ireland have served in the armed forces in each of the last 10 years. [294712]

Mr. Kevan Jones: Residential address information for serving or ex-service personnel is not held with reference to country, parliamentary constituency or local authority. Further, there are significant questions over the accuracy and completeness of what is held; for example, some ex-service personnel do not provide a valid contact address on leaving the services or do not notify the MOD of a change of address if they move. The answer could be provided only at disproportionate cost.

David Simpson: To ask the Secretary of State for Defence how many people resident in each *(a)* parliamentary constituency and *(b)* local authority area in Northern Ireland were recruited to each branch of the armed forces in each of the last 10 years; and what the total from each community was. [294716]

Mr. Kevan Jones: This information is not held in the form requested. However, details of those recruited through the Armed Forces Careers Office (AFCO) in Belfast, in the following table, give an indication of Northern Ireland recruitment into the armed forces.

Please note that this information will not provide a comprehensive picture of individuals recruited from Northern Ireland as it does not include those recruited through AFCOs elsewhere or through other means, such as the internet.

	Number recruited through AFCO Belfast 2008-09
Naval Services	46
Army	294
RAF	25

David Simpson: To ask the Secretary of State for Defence how many people from each *(a)* parliamentary constituency and *(b)* local authority area in Northern Ireland serving in the armed forces have been decorated for bravery in each of the last 10 years. [294729]

Mr. Kevan Jones: This information is not held in the format requested, and could be provided only at disproportionate cost.

Armed Forces: Recruitment

Mr. Harper: To ask the Secretary of State for Defence what policy the armed forces operate on the recruitment of people with *(a)* Asperger's syndrome and *(b)* autism; and whether any positions in each service are not open to people with (i) Asperger's syndrome and (ii) autism. [294499]

Mr. Kevan Jones *[holding answer 20 October 2009]:* The tri-Service medical entry standards are contained within Joint Services Publication (JSP) 346, which advises that candidates with Asperger's syndrome and autism are not suitable for recruitment into any post in the Armed Forces. The only exception is where a potential recruit presents with a diagnosis of Asperger's syndrome but on examination appears to exhibit none of the symptoms of the condition. While those with a confirmed diagnosis should normally be graded as unsuitable, it is recognised that there are instances when the original diagnosis may have been made in error, based on unusual adolescent behaviour which has resolved. In these doubtful cases further referral will normally be recommended before a final decision is made.

It is our policy that armed forces personnel should be recruited to be fully fit for deployment worldwide on operations. For this reason, the services do not recruit or commission personnel with existing medical conditions which may adversely impact on the effectiveness of the armed forces, or which may themselves be exacerbated by military circumstances. This is particularly relevant in cases of individuals with autism or Asperger's Syndrome, as military personnel are expected to perform in multiple roles, which may be difficult for someone suffering from these disorders. Further, all military personnel are required to work in close-knit teams, and in operational environments the pressures are such that anyone with significant disability in social interaction may well be a danger to themselves or their team. These two diagnoses have significant disability in social interaction as part of their defining features.

While it may be possible to retain in-service individuals who are already serving and are subsequently diagnosed as autistic or suffering from Asperger's (provided that there are worthwhile military roles for them to fulfil), this will normally mean that they will have to be re-graded and will not be able to deploy on operations. This also applies to other disabilities which might arise while an individual is in service but the forces do not recruit individuals where they would only be able to serve from the outset in a medically restricted capacity.

Browndown Training Facility

Sir Peter Viggers: To ask the Secretary of State for Defence what plans he has for the future of the Browndown training facility at Gosport; and if he will make a statement. [294937]

Mr. Bob Ainsworth: As part of ongoing efficiency work, and a departmental-wide exercise to deliver savings, the Department has conducted a review of its operations and identified a number of rationalisation measures. Browndown Camp has been included within this review. While no firm decision on the future of this facility has yet been taken, it is anticipated that parts of Browndown, in particular the dry training area, will continue to be used.

Charities

Bob Spink: To ask the Secretary of State for Defence what grants his Department made to charitable organisations in each of the last five years. [292661]

Mr. Kevan Jones: The total amounts made as grants in aid are as follows:

	£
2003-04	30,817,129
2004-05	31,897,153
2005-06	31,604,136
2006-07	30,335,751
2007-08	32,218,493

A number of organisations receive grants in aid from the MOD including Voluntary Cadet Groups (Naval Cadet Force, Army Cadet Force, Air Training Corps and Combined Cadet Force), Museums, Forces Welfare organisations such as the Sailors, Soldiers, Air Forces and Families Association (SSAFA), Women's Royal Voluntary Service (WRVS), Help Information Voluntary Exchange (HIVE) and sports bodies.

Smaller charitable grants are made by each of the single services to organisations with which they are closely affiliated. The amounts involved are not held centrally and could be provided only at disproportionate cost.

Colombia: Military Aid

Sandra Osborne: To ask the Secretary of State for Defence whether his Department *(a)* provides and *(b)* sponsors (i) advisory visits and (ii) information exchanges on military operations and tactics in urban theatres to Colombia; when the last such visit or exchange took place; and if he will make a statement. [295111]

Bill Rammell: Advisory visits and information exchanges between the UK and Colombia on military operations and tactics in urban theatres no longer take place. Historic records of visits and exchanges are not held centrally and could be provided only at disproportionate cost.

Departmental Public Expenditure

Angus Robertson: To ask the Secretary of State for Defence how much his Department spent *(a)* in England, *(b)* in Wales, *(c)* in Northern Ireland and *(d)* overseas on (i) equipment, (ii) non-equipment expenditure, (iii) service personnel costs and (iv) civil personnel costs in each year since 1997. [293427]

Mr. Kevan Jones: Estimated direct MOD expenditure for the sub-UK areas and categories requested for the years where data are available are provided in the following tables.

England

£ million at current prices (VAT exclusive)

	1998-99	1999-00	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08

n/a = Denotes that data were not available for all the sub UK areas for these years.

[1] Denotes not applicable.

Notes:

1. Figures are rounded to the nearest £10 million.
2. Indirect expenditure, such as subcontracted work, is not reflected in these figures.
3. Personnel costs exclude contributions made by MOD to the Armed Forces Pensions Scheme and War Pensions Scheme.
4. Reliable data for equipment and non equipment expenditure are not available for all the sub UK areas for the years prior to 2002-03.

The defence budget is not formally allocated at sub-UK level. Defence Procurement provides the UK armed forces with the equipment needed as efficiently as possible to deliver the best value for money for the armed forces regardless of where the items are procured or MOD personnel are located. The Defence Budget is planned on this basis to achieve the optimum allocation of resources in relation to current defence objectives and priorities.

Departmental Telephone Services

Mr. Oaten: To ask the Secretary of State for Defence how many helplines his Department operates; and how much his Department has received from the operation of such helplines in each of the last three years. [294977]

Mr. Kevan Jones: The provision of helplines is determined at local level in accordance with individual business requirements and obtained directly from the supplier. Records of such helplines are not held centrally and information relating to them, including any revenue accrued, could be provided only at disproportionate cost.

News International

Mr. Holloway: To ask the Secretary of State for Defence whether any *(a)* Ministers and *(b)* officials in his Department have had (i) meetings with, (ii) communications from and (iii) other contacts with News International in the last five years; and what the subject matter of any contact was in each case. [295015]

Mr. Bob Ainsworth: In the course of accounting for the Department's work through the media, Ministers and officials deal with News International representatives on a regular basis. No central record of this routine business is held.

Post-traumatic Stress Disorder

Nick Harvey: To ask the Secretary of State for Defence (1) how many *(a)* armed forces personnel and *(b)* veterans have received treatment for (i) mental health problems, (ii) alcohol addiction and (iii) drug abuse since 2001; [295082]

(2) how many and what proportion of military personnel who have served or are serving in *(a)* Iraq and *(b)* Afghanistan have been treated for post-traumatic stress disorder; [295083]

(3) how many new diagnoses of post-traumatic stress disorder there have been since 2001. [295085]

Mr. Kevan Jones: I refer the hon. Member to the answer I gave to the hon. Member for Moray (Angus Robertson) on 12 October 2009, *Official Report*, columns 416-417W.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence who within his Department took the decision to cease Territorial Army training until 1 April 2010; and whether regular unit personnel *(a)* attached to and *(b)* working in Territorial Army units will be paid up to 1 April 2010. [294266]

Bill Rammell: Like all Government Departments, the Ministry of Defence routinely reviews expenditure to ensure that we allocate our resources where they are needed most and success in Afghanistan must take priority. Accordingly, senior officials discussed emerging budgetary pressures in the summer and then asked all budget holders within the Department to review all uncommitted funding. The plan to restrict Territorial Army activity for the remainder of the current financial year was one of a number of cost saving proposals put forward by the Chief of the General Staff and endorsed by the Defence Secretary.

Regular Army personnel attached to TA units will continue to work and be paid during the period of restrictions.

Mr. Crabb: To ask the Secretary of State for Defence (1) what estimate he has made of the number of Territorial Army (TA) reservists who will leave the TA as a result of the proposed six month stand-down of the TA; [294318]

(2) what estimate he has made of the reduction in expenditure which will accrue from the six-month stand-down of the Territorial Army. [294321]

Bill Rammell: We are absolutely committed to ensuring that the front-line is properly resourced, and that the mission in Afghanistan will have all the backing it needs to succeed. All personnel, both regular and reserve, currently earmarked for operations will be provided with the training they need before deployment and be paid for it. The suspension for the remainder of this financial year of Territorial Army (TA) activity not directly supporting operations will contribute £20 million to a total saving of £43 million in the TA budget this year.

The reductions in normal activity are, of course, disappointing for TA members. We hope that the majority will understand the reasons behind these restrictions and the exceptional circumstances in which they are being applied. We are confident that reservists will stay to resume training when the restrictions are lifted.

Mr. Crabb: To ask the Secretary of State for Defence (1) how many Territorial Army (TA) reservists in *(a)* Pembrokeshire and *(b)* Wales will receive no (i) pay and (ii) training during the proposed six month stand-down of the TA; [294319]

(2) how many Territorial Army (TA) reservists in *(a)* Pembrokeshire and *(b)* Wales will continue to receive operational training before deployment on operations during the proposed six month stand-down of the TA; [294320]

(3) how many Territorial Army reservists from *(a)* Pembrokeshire and *(b)* Wales have served in operations in (i) Afghanistan and (ii) Iraq since 2002; [294322]

(4) what assessment he has made of the role and effectiveness of the Territorial Army in Wales. [294323]

Bill Rammell: The Territorial Army (TA) continues to play a vital role in support of the Regular Army, not least on operations in Afghanistan. TA personnel in Wales offer a variety of essential skills and capabilities including infantry, artillery, medical, engineers and transport.

The current period of restricted activity does not affect those TA personnel preparing for operations or those new recruits in Phase 1 (initial) training. Approximately 2,300 TA personnel are attached to TA units based in Wales. Of these 30 are attached to units based in Pembrokeshire. Of the 2300, 60 are currently on operations, a further 120 are currently training for operations and a further 420 are in Phase 1 training. Fewer than 10 of the 30 personnel attached to units based in Pembrokeshire are currently training for operations; and a further 10 are in Phase 1 training. None is currently mobilised. All TA personnel will be provided with opportunities to undertake activities required to meet the minimum standard to qualify for their bounty this year, if they have not already done so.

Approximately 930 TA personnel have mobilised to serve on operations overseas from units based in Wales since 2003. Of these fewer than 10 have deployed from units based in Pembrokeshire. These figures include small numbers of personnel who deployed on operations other than in Afghanistan and Iraq. Information prior to 2003 and on numbers who have deployed to specific operational theatres is not held centrally.

Ann Winterton: To ask the Secretary of State for Defence whether the stoppage of payments for the Territorial Army training until 31 March 2010 is being applied in respect of *(a)* Royal Marines Reserve, *(b)* 2/3 Regiment Special Air Service and *(c)* 4th Battalion, the Parachute Regiment. [294478]

Bill Rammell: The restrictions being applied this financial year to Territorial Army training affect only those units that are funded from the Land Forces budget. This includes 4th Battalion, the Parachute Regiment. The Royal Marines Reserves receive their funding by other routes. It is the long-standing practice of this Department not to comment upon Special Forces.

Territorial Army: Civil Contingency Reaction Forces

Ann Winterton: To ask the Secretary of State for Defence whether members of the Territorial Army will be paid if they are called out as part of the Civil Contingency Reaction Force in the next six months; and if he will make a statement. [293987]

Bill Rammell: In response to a recommendation within the recent report on the Strategic Review of the Reserves, the current Civil Contingency Reaction Force structure has been discontinued as a role for regional Territorial Army units. However, joint regional liaison officer posts and brigade reinforcement teams have been retained within regional forces brigade headquarters to continue in a command and control framework providing the necessary link with the civilian authorities and emergency services.

Support to operations remains the highest priority for Defence including support to United Kingdom operations. Territorial Army personnel who are called out in support of any operation will be entitled to remuneration in accordance with normal, extant policy.

COMMUNITIES AND LOCAL GOVERNMENT

Departmental Flexible Working

Justine Greening: To ask the Secretary of State for Communities and Local Government what flexi-time arrangements were available to staff of his Department in each of the last five years; and how many staff participated in such arrangements in each such year. [290583]

Barbara Follett: Flexi-time arrangements are just one of many flexible working arrangements that are available to staff.

Participants in the flexi time arrangement are required to be present during certain hours of the day, known as "core-time". However, subject to operational needs and line management agreement, participants may start and finish work each day at the times they choose during the "flexible range" (ie the hours before and after core-time), provided they complete their net conditioned hours exclusive of lunch-breaks (36 hours per week in London and 37 elsewhere) during the agreed "accounting period".

	Hours
Flexible starting period	07.30-10.00
Core-time	10.00-12.00
Flexible lunch break	12.00-14.30
Core-time	14.30-16.00
Flexible finishing period	16.00-20.30

Subject to the workflow and reasonable demands of the office, staff may accumulate in any accounting period a credit balance of up to 22.2 hours (21.6 hours in London) or a debit balance of up to 11.1 hours (10.8 hours in London). Staff should not arrive at work and finish work in such a way as to accumulate credit hours without regard to the proper needs of the office.

Flexi time arrangements are delegated to line managers and no central record is kept. Therefore, the number of staff participating in such arrangements in each of the last five years could be provided only at disproportionate cost.

Departmental Manpower

John Mann: To ask the Secretary of State for Communities and Local Government how many staff there were in *(a)* his Department's predecessor in 1997 and *(b)* his Department on the latest date for which figures are available. [292058]

Barbara Follett: Information about staff numbers in the Department of the Environment on 1 April 1997 are given in Civil Service Statistics 1997 which can be accessed via the link at:

http://www.civilservice.gov.uk/about/who/statistics/archived-reports.aspx

In accordance with the definition provided by the Office for National Statistics, there were 2,266 staff (full-time equivalent) in Communities and Local Government at 30 September 2009.

Departmental Motor Vehicles

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how much his Department spent on hire vehicles in each of the last five financial years. [291600]

Barbara Follett: Figures for the Department's expenditure on hire vehicles for the last three years are tabled as follows. Figures for earlier years could be extracted only at disproportionate cost.

	£
2006-07	48,444
2007-08	57,250
2008-09	25,657

Departmental Pay

Justine Greening: To ask the Secretary of State for Communities and Local Government what employee reward schemes are offered to staff of his Department; what the purpose of each scheme is; how many staff participate in each scheme; and what the cost of operating each scheme was in each of the last five years. [290585]

Barbara Follett: I refer the hon. Member to the reply given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 19 May 2009, *Official Report*, column 1340W and to the reply given to the hon. Member for Welwyn Hatfield (Grant Shapps) on 19 January 2009, *Official Report*, column 1074W.

Departmental Procurement

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what percentage of procurement contracts *(a)* his Department and its predecessor and *(b)* its agencies awarded to small businesses in (i) 2006-07, (ii) 2007-08, (iii) 2008-09 and (iv) 2009-10; and if he will make a statement. [293233]

Barbara Follett: The information requested is not held centrally by the Department and the Planning Inspectorate and could be provided only at disproportionate cost.

The Department is currently putting in place systems that will identify small and medium enterprises on its finance system which will allow this to be reported on in the future.

However the Department's other agencies, Fire Service College and Queen Elizabeth II Conference Centre were able to supply the following figures:

	2006-07	*2007-08*	*2008-09*	*Percentage 2009*[1]
Fire Service College	43	40	100	50
QEII Conference Centre	36	32	33	29

[1] To date

Departmental Recruitment

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government what data his Department holds on the level of diversity in the recruitment of employees by his Department and its predecessor in each of the last three years. [290503]

Barbara Follett: Information on workforce diversity is published as part of our Disability Equality Scheme, Gender Equality Scheme, Race Equality Scheme and their related updates. These are available on our corporate web pages.

http://www.communities.gov.uk/corporate/publications/

Our Workforce Diversity Data Reports, which also contain data on work force diversity and recruitment, have been published annually on our Workforce Equalities web pages since 2006; hard copies are also available on request.

Departmental Training

John Mason: To ask the Secretary of State for Communities and Local Government how many external training courses were attended by staff of his Department in the last 12 months; and what the cost was of attendances on each such course. [289705]

Barbara Follett: The Department does not hold information on the number of external training courses attended by staff in the last 12 months centrally. External training courses are agreed by line managers and there would be a disproportionate cost in trying to obtain such information.

Departmental Travel

Justine Greening: To ask the Secretary of State for Communities and Local Government how much his Department and its predecessor spent on *(a)* car hire, *(b)* train travel, *(c)* air travel and *(d)* hotels for (i) Ministers and (ii) staff in his Department in each of the last five years. [289978]

Barbara Follett: Figures for the Department's expenditure on *(a)* car hire, *(b)* train travel, *(c)* air travel and *(d)* hotels for the last three years is tabled as follows. Figures for earlier years could be extracted only at disproportionate cost.

£

	2006-07	*2007-08*	*2008-09*
Car hire	695,296	658,041	576,085
Rail	1,308,768	909,396	1,126,261
Air	597,311	213,009	280,295
Hotel	543,295	437,868	326,322
Total	3,144,670	2,218,314	2,308,963

Figures for Ministers could be disaggregated from these totals only at disproportionate cost.

Travel by Ministers and civil servants is undertaken in accordance with the "Ministerial Code" and the "Civil Service Management Code" respectively, and all spending on official entertainment is made in accordance with the principles set out in "Managing Public Money".

Later this year the Department will begin releasing the details of business expenses and hospitality received by senior officials. These will be published on our website on a quarterly basis.

The Cabinet Office also publish an annual list of overseas travel over £500 undertaken by Ministers. The 2008-09 list can be viewed at:

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Communities and Local Government how much his Department has spent on overnight accommodation for *(a)* Ministers and *(b)* officials while overseas in each of the last three years. [294683]

Barbara Follett: I refer the hon. Member to the answer given today to the hon. Member for Putney (Justine Greening) to question 289978. Details of overnight accommodation overseas could be disaggregated only at disproportionate cost.

However, the Cabinet Office publishes an annual list of overseas travel over £500 undertaken by Ministers. The 2008-09 list can be viewed at

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

Disabled Facilities Grants

Jim Cousins: To ask the Secretary of State for Communities and Local Government how much *(a)* Government funding and *(b)* total expenditure there has been on disabled facilities grants in England in each year since 2004-05; and how many such grants were awarded in each of those years. [293186]

Mr. Ian Austin: The following table shows the total expenditure on disabled facilities grants in England since 2004-05 and the funding contribution made by Government. Further details can be found on the Communities and Local Government website at:

http://www.communities.gov.uk/

Disabled facilities grant

	Government contribution (£)	*Total expenditure including LA contribution (£)*	*Total number grants completed*
2004-05	99,572	210,922	38,552
2005-06	111,294	221,289	34,975
2006-07	120,723	232,828	37,267
2007-08	138,250	259,389	38,129
2008-09	146,081	274,356	[1]n/a
2009-10	156,930	[1]n/a	[1]n/a

[1] Not yet published.

EC Grants and Loans

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 7 May 2009, *Official Report*, column 389W, on the European Commission, what the sterling equivalent is of the totals provided in euros in the answer. [294085]

Ms Rosie Winterton: The sterling equivalent was £23 million.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate he has made of the size of the financial correction likely to be imposed by the European Commission in respect of irregularities in management of European funds in relation to those *(a)* 1997-99 programmes and *(b)* 2000-06 programmes for which his Department has responsibility. [294098]

Ms Rosie Winterton: The financial correction imposed earlier this year by the Commission in respect of error rates found in two English 1997-99 programmes was £26 million. The departmental accounts for 2008-9 show (at note 29) a contingent liability of £215 million in respect of the 2000-2006 programmes. These liabilities are unlikely to be realised in full and the Department is taking steps to make sure that they are minimised. Only when all open audits are concluded and the programme closure reports have been submitted to the Commission on 31 March 2010, will we be able to assess what provision may be required against possible corrections by the European Commission.

Fire Brigades Union

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what meetings Ministers in his Department have had with representatives of the Fire Brigades Union in the last 12 months; on what date each meeting was held; and whether the Fireguard project was discussed. [292880]

Mr. Malik: Ministers met formally with the representative of the Fire Brigades Union to discuss fire related issues on 22 October 2008; 17 December 2008; 9 March 2009; 5 May 2009 and the 8 July 2009. There is no record of the Fireguard project being discussed.

Fire Services

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance his Department has issued to fire and rescue authorities on the re-configuration of fire services in terms of the location of fire stations and fire appliances. [292573]

Mr. Malik: Decisions on operational issues such as the location of fire stations and fire appliances are taken by individual Fire and Rescue Authorities (FRAs) as part of the Integrated Risk Management Planning process.

FRAs are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover for fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly.

A range of guidance on the drawing up of IRMPs has been issued to FRAs and is available on the Communities and Local Government website. The only recent change has been the revision of IRPM Guidance Note 4, which is not relevant to the location of fire stations and fire appliances.

Fire Services: Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the total cost of delivery of the FiReControl project; and what estimates were made in *(a)* 2004, *(b)* 2005, *(c)* 2006, *(d)* 2007 and *(e)* 2008. [293319]

Mr. Malik: The current estimated overall cost of delivery of the FiReControl Project for *(a)* 2004 was £120 million; *(b)* 2005—£160 million; *(c)* 2006—£190 million; *(d)* 2007—£360 million; and *(e)* 2008—£380 million.

Early estimates of project costs did not include the funding that has been provided to FRAs to support local and regional implementation activity, the costs of the RCC building leases and the costs of equipment that will be installed in every fire station in England to support improved mobilisation.

Housing: Lighting

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether recent restrictions on the sale of incandescent light bulbs prohibit the sale of such bulbs for hereditaments which are not domestic dwellings. [294626]

Dan Norris: I have been asked to reply.

EC Regulation 244/2009 under the Eco-design for Energy-using Products Framework Directive sets eco-design requirements on non-directional household lamps, including when they are marketed for non-household use.

The measure effectively prevents incandescent lamps from being placed on the market over a three year period that began in September 2009; although retailers will be able to continue to sell any existing stock. As well as energy-efficient Compact Fluorescent Lamps, other non-directional lamps such as LED and halogen lamps are to remain on the market as alternatives. These are available to fit existing fittings.

Local Democracy, Economic Development and Construction Bill

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the likely timetable is for the commencement of each provision of the Local Democracy, Economic Development and Construction Bill if enacted. [294082]

Ms Rosie Winterton: The arrangements for commencement of provisions contained in the Local Democracy, Economic Development and Construction Bill are set out in clauses 144 and 145 of the Bill. A number of the provisions contained in the Bill will come into force on a day specified by the Secretary of State. In these cases, as I informed the House in the context of Part 1 of the Bill (*Official Report*, 13 October 2008, column 237) the Government are keeping all options for commencement open, including bringing provisions into force in April 2010.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what data sets on *(a)* council tax collection, *(b)* business rate collection and *(c)* other matters not contained in the national indicator set local authorities are required to provide to his Department. [294131]

Barbara Follett: The following data set on the collection of *(a)* council tax and *(b)* business rates by local authorities are collected by the Local Government Finance directorate in Communities and Local Government:

BR—Budget Requirement

NNDR—Non Domestic Rates Pool

QRC—Council Tax and Non-Domestic Rate Collections

CTB—Council Tax Base.

Examples of the forms used to collect the data from local authorities can be found on the Department's website at:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/usefulinformation/formstimetable/otherforms/

(c) Communities and Local Government does not hold a central register of information and datasets collected from local authorities and to produce a definitive list of such collections would involve disproportionate cost. However, where it has been possible to readily identify such collections, these are in the following list.

In addition to council tax and business rates information, the following finance information is collected:

CER—Capital Estimates Return

RA, SG and BID—Revenue Account Budgets and Business Improvement District Revenue Account Transactions

CPR—Capital Payments and Receipts

QB—Quarterly Borrowing and Lending

QRW—Quarterly Return of Wages and Salaries

MB—Monthly Borrowing and Lending

RO—Revenue Outturn Suite

COR—Capital Outturn Suite

WGA—Whole of Government Accounts

SF3—Pension Funds Account

CFR—Capital Forecast Return

BR—Budget Requirement.

Local authorities voluntarily provide the Department with the following data returns, which are collected for uses such as to inform national policy direction. Those with an asterisk include some information which is used to calculate national indicators:

P2 Quarterly Housebuilding*

P1B—Sales of Council Dwellings (quarterly)

P1E—Households affected by Homeless provisions of 1996 housing act (quarterly)*

PSF—Combined development control PS1/PS2/FEE1 (quarterly)

CPS1/2 and FEE2—General Development Control and Fees received for planning applications (quarterly)

GTCC_M—Gypsy and Traveller Caravan Count (collected bi-annually)

AGB—Annual Green Belt (annual)

HFR—Housing Flows Reconciliation (annual)

HSSA—Housing Strategy Statistical Appendix (annual)

BPAM—Business Plan Annual Monitoring (annual)

NROSH—National Register of Social Housing

ROHLMO—Register of Homes of Multiple Occupation

ESEH—Electronic Survey of Empty Homes

Mortgage Rescue Scheme return

Quarterly Prevent report (through Government Offices)

Local authorities inform the Department how many rough sleepers they find when they carry out a street count. The total number of rough sleepers found on street counts is published annually.

The following datasets are collected from Fire and Rescue Services:

Data on incidents attended by Fire and Rescue Services (including NI 33 and NI 49, but additional information is available to CLG through the automated collection system for production of National Statistics.

HR data

Community Fire Safety

Fire Protection

Financial data

Health and Safety.

Local Government: Influenza

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst (Robert Neill) of 2 June 2009, *Official Report*, columns 463-64W, on local government: influenza, if he will place in the Library a copy of each of the Local Resilience Forum plans that have undergone validation by each of the Government offices for the regions. [292867]

Gillian Merron: I have been asked to reply.

Local Resilience Forum (LRF) multi-agency pandemic influenza plans are locally owned and are constantly adapted and updated to reflect the most accurate assessment of the local position. We do not hold central copies of the latest plans so are unable to place them in the Library. However, the latest plans can be found on local LRF websites and can be accessed through the UK Resilience pages of the Cabinet Office website at:

www.cabinetoffice.gov.uk/ukresilience/pandemicflu/plans/regional_plans.aspx

In the few cases where LRF websites are still under development, LRF multi-agency pandemic influenza plans are available from the LRF Secretariat. Contact details for the secretariats are also available on the UK Resilience pages of the Cabinet Office website.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government when he will reply to the letter from the hon. Member for West Worcestershire, dated 9 June 2009 on flood defences of listed buildings. [289863]

Barbara Follett: A reply was sent to the hon. Member on 21 July 2009.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the average business rate bill has been in each Government office region in each year since 1997-98. [293160]

Barbara Follett: The average business rates bill in both England and in each Government Office region in each year since 1997-98, including the estimated average figures for 2009-10, are shown in the following table.

£

	North East	*North West*	*Yorkshire and the Humber*	*East Midlands*	*West Midlands*	*East of England*	*London*	*South East*	*South West*	*England*
1997-98	5,501	5,215	5,381	5,716	5,686	7,026	10,057	7,208	7,087	6,796
1998-99	5,978	5,589	5,869	6,142	6,290	7,125	10,433	7,759	5,295	7,016
1999-2000	6,159	5,770	6,005	6,251	6,487	7,080	9,792	7,796	5,412	6,998
2000-01	6,968	6,825	6,954	7,237	7,588	8,096	12,033	9,212	6,332	8,264
2001-02	7,305	7,273	7,433	7,670	7,756	8,476	12,842	9,205	6,570	8,714
2002-03	7,498	7,646	7,664	7,846	8,003	8,685	13,753	10,045	6,658	9,071
2003-04	7,518	7,708	7,623	7,893	8,035	8,620	14,124	10,053	6,614	9,137
2004-05	7,701	7,793	7,773	7,955	8,192	8,740	14,484	10,252	6,662	9,301
2005-06	8,367	8,086	8,317	8,477	8,672	9,575	15,705	11,124	7,195	9,997
2006-07	8,704	8,496	8,479	9,021	8,906	10,003	15,886	11,192	7,538	10,275
2007-08	8,941	8,719	8,501	9,189	9,031	9,999	15,733	11,210	7,655	10,330
2008-09	9,452	9,473	9,288	9,946	9,743	10,804	17,482	12,325	8,279	11,274
2009-10	10,157	10,159	10,009	10,610	10,682	11,519	19,120	13,190	8,816	12,145

The data are taken from NNDR returns submitted by billing authorities.

Average business rate is calculated by dividing the net rate yield from local authority's lists by the number of hereditaments on local list as at 31 December of the previous year.

Comparisons across regions and years may not be valid as the rateable values for individual properties, and hence actual rates bills, vary greatly. Changes in the figures for the years around 2000-01 are affected by transfers of properties from the central list to local lists, transfers of crown properties to local lists and the adjustments made to the multiplier at the time of the 2000 revaluation to take account of losses from appeals. Changes in the figures for the years around 2005-06 are also affected by adjustments made to the multiplier at the time of the 2005 revaluation.

Political Impartiality

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the internal guidance to officials in his Department on politically-restricted activity. [illegible]

Barbara Follett: Our staff handbook has been developed as an interactive publication delivered through the Department's intranet. It is not held in a format which allows it to be easily exported and therefore could be provided only at a disproportionate cost. However, the rules relating to political activity are set by the Cabinet Office and can be found in the Civil Service Management Code.

Retail Trade: Hygiene

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what timetable he has set for the national roll-out of the scores on doors scheme for local authorities. [294465]

Gillian Merron: I have been asked to reply.

The Food Standards Agency is establishing a national "scores on the doors" scheme in England, Wales and Northern Ireland for rating hygiene standards in food businesses.

The outline timetable for this is as follows:

Element of scheme	*Date*
Scope and exemptions to scope (type of business to be included)	By end October 2009
Guidance on pre-launch/launch/migration issues for local authorities	
Data standard for use with the web-based IT platform for publishing scores	
Derivation of numerical score and "mapping" of this to the different tiers of the scheme	By end February 2010
Safeguard mechanisms to ensure fairness to businesses	
Symbols, descriptors and branding for the scheme	
Consistency framework for local authorities for scheme operation	By end March 2010
Peer review arrangements and auditing of the scheme	By end August 2010
General guidance on all aspects of the scheme	

Shops: Empty Property

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 14 April 2009, on the empty shops revival plan, how many of the proposals referred to have been adopted by local authorities to date. [294788]

Barbara Follett: There has been widespread interest in the 'Looking After Our Town Centres' guide and there have been over 11,000 downloads of the document from our website since it was published in April this year. We are delivering the support we promised to help town centres, including the announcement in August this year of £3 million funding to help high streets that have been hardest hit by the recession.

It is for local authorities to decide how to promote their town centres. We have highlighted approaches that are already being taken, but councils are not required to provide monitoring information to CLG. We continue to discuss issues affecting town centres with stakeholders and have supported good practice events. We know that several councils are adopting approaches inspired by the guide like using empty shops to display art work or information on the local area; seasonal festivals to attract visitors; free car parking on Saturdays, pop-up shops to try out new retail ideas, and fresh marketing initiatives.

Village Fetes: Food

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance the Foods Standards Agency has issued on the selling of home-cooked food at village fetes and community events; and what licences or permits are required for its sale. [294564]

Gillian Merron: I have been asked to reply.

For community events or clubs, the most recent guidance regarding food hygiene rules and on good hygiene practice, as well as on the rules regarding labelling of foods is covered in a question and answer format on the Food Standards Agency's "Eatwell" website at:

www.eatwell.gov.uk/asksam/keepingfoodsafe/asksamevents/

Guidance on food allergies with regard to non-prepacked foods can also be found on the agency's website at:

www.food.gov.uk/foodindustry/guidancenotes/labelregsguidance/nonprepacked

No licence or permit is required for the sale of such foodstuffs at such events.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much in central Government grants, including *(a)* specific and *(b)* special grants, was given to local authorities for (i) waste collection and (ii) waste disposal in the latest 12 month period for which figures are available. [292572]

Dan Norris: I have been asked to reply.

In 2008-09 Defra directly provided £78.2 million in funding to local authorities outside London via the Waste Infrastructure Capital Grant. £60 million will be made available to London authorities through the London Waste and Recycling Fund for the period 2008-09 to 2010-11. These unringfenced capital grants will be paid to upper tier and unitary authorities to enable them to set up the necessary waste infrastructure to help England meet landfill targets.

Defra also provides financial support to local authorities through Private Finance Initiative credits to help accelerate the building of the infrastructure needed to treat residual waste without compromising efforts to minimise waste and increase recycling levels. To date £2.5 billion has been allocated to 37 projects. Further information can be found on Defra's website.

The Waste and Resources Action Programme (WRAP) provided a total of £2.68 million to local authorities during 2008-09. The funds were spent on local communications campaigns specifically to improve communications with householders about local recycling services and to promote the 'Love Food Hate Waste' campaign. WRAP has no remit in relation to waste disposal and has not, therefore, provided any funds to local authorities in relation to it.

BUSINESS, INNOVATION AND SKILLS

Business: Government Assistance

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many companies which have received support from UK Trade and Investment in the last 12 months have also received support from a regional development agency in that period. [292917]

Ian Lucas *[holding answer 14 October 2009]:* UKTI does not collate these figures. UKTI acts as the trade arm for the regional development agencies (RDAs), providing trade services for companies. Where companies have been helped by both UKTI and the RDAs, it will be on separate forms of business support.

Charities

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what information his Department holds on the charitable purposes of *(a)* First Securitisation Company Limited and *(b)* Capita IRG Trustees Limited. [294864]

Ian Lucas: The Department does not hold any information concerning charitable purposes of the First Securitisation Company Limited or Capita IRG Trustees Limited. Neither company is a registered charity.

Insolvency

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many Statements of Insolvency Practice (SIP) 16 reports have not provided sufficient information to creditors on valuation and marketing; and how many insolvency practitioners have been recorded as failing to comply with SIP 16 reporting requirements. [292927]

Ian Lucas *[holding answer 14 October 2009]:* The Insolvency Service does not record SIP 16 information in a format that is readily able to identify how many SIP 16 reports have not provided sufficient information to creditors on valuation and marketing.

To answer this part of the question would involve examining hundreds of separate reports. To determine which of those reports did not provide sufficient information regarding valuation and/or marketing would require significant staff resources, which would be in excess of the £750 disproportionate cost threshold.

The Insolvency Service published a report on its' first six months monitoring of SIP 16 in July 2009. The report indicated that SIP 16 information provided in relation to 202 out of a total of 572 companies entering administration during the period was deemed to be not fully compliant. The Insolvency Service's monitoring of SIP 16 information is continuing and a further report will be published in the new year.

It should be noted that the number of insolvency practitioners involved in the provision of non-compliant SIP 16 information is not the same as the figure indicated above. This is because the majority of insolvency practitioners undertaking pre-pack administrations, and therefore providing SIP 16 information, are appointed on multiple appointments. In addition, the majority of administration appointments are held by more than one insolvency practitioner on a joint basis.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills how many times officials of *(a)* his Department and *(b)* the Insolvency Service have met representatives of recognised professional bodies to discuss Statements of Insolvency Practice (SIP) 16 in the last 12 months; and what representations (i) his Department and (ii) the Insolvency Service has received from the insolvency industry on the implementation and review of SIP 16. [292928]

Ian Lucas *[holding answer 14 October 2009]:* The Insolvency Service carries out the Secretary of State's function with regard to both the direct authorisation of insolvency practitioners and the regulation of the recognised professional bodies that authorise the vast majority of insolvency practitioners. The Department has therefore not had any direct liaison with the recognised professional bodies on the issue of SIP 16 as this has been undertaken by the Insolvency Service.

There have been three separate meetings during 2009 between the Insolvency Service and representatives from the recognised professional bodies to discuss the implementation and monitoring of SIP 16. The most recent meeting was held in September to discuss issuing guidance to practitioners to improve compliance with SIP 16. As a result of that meeting, the Insolvency Service has drafted guidance for insolvency practitioners, which is currently being reviewed by the recognised professional bodies prior to being issued.

Many of the recognised professional bodies issued their own guidance on SIP 16 immediately following the publication of the report on the first six months operation of the SIP, to improve compliance. The bodies have welcomed further guidance and have agreed to issue the latest guidance at the same time as it is issued by the Insolvency Service. R3, the trade body for insolvency practitioners, has invited the Insolvency Service to take part in training at meetings and conferences to improve compliance with the SIP.

The Insolvency Service is also a member of the Joint Insolvency Committee along with all the recognised professional bodies, which holds quarterly meetings to review guidance issued to insolvency practitioners. In the course of these meetings and those of sub-groups of the Committee, SIP 16 will have been discussed in general terms.

The Insolvency Service is working closely with the recognised professional bodies to improve insolvency practitioners' compliance with the SIP and to consider whether and how the SIP may be strengthened.

Rover Group

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills how many draft reports from the investigators of the collapse of MG Rover were provided to the Government for comment before publication of the final report on 11 September 2009. [292929]

Ian Lucas *[holding answer 14 October 2009]:* The Government were involved in the MG Rover inspection both as supervisor and as a witness. An information barrier was put in place at an early stage to keep the information held by those supervising the inspection separate from Government witnesses and their advisers.

Officials involved in the supervision of the inspection read a draft of each of the chapters of the Inspectors' report as they became available and fed comments back to the Inspectors. The Inspectors continued to work on the drafts and, where they made substantive amendments, officials re-read chapters or sections of chapters. The drafts were read at the offices of the Secretariat to the inspection.

The Government also provided information and gave witness evidence to the inspection. As with other witnesses to the inspection, Government witnesses and their advisers were given an opportunity to comment on provisional criticisms from the Inspectors. Some extracts of the draft report were also provided to the Government witnesses and their advisers where the Inspectors intended to make specific reference to Government evidence.

Technology Strategy Board

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what collaborative research and development projects the Technology Strategy Board has funded in each of the last three years; and how much funding has been provided for each project. [294934]

Mr. Lammy: Since it was established in July 2007 the Technology Strategy Board has issued offers to grant fund the following collaborative R&D projects.

A copy of the table will be placed in the Libraries of the House.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills whether the Technology Strategy Board has developed a practice appraisal and evaluation regime to measure the success of its activities. [294936]

Mr. Lammy: The Technology Strategy Board operates an appraisal and evaluation regime covering the performance of its activities such as the programmes it delivers and the support mechanisms it uses and also at an individual project level.

The mechanisms Technology Strategy Board uses to deliver support such as Collaborative R&D, Knowledge Transfer Networks and Knowledge Transfer Partnerships are evaluated on a regular basis (usually every two years) as part of the evaluation of the products which come under the Support for Business portfolio to ensure that they continue to meet the needs of business and deliver successful results.

Individual projects are monitored on a quarterly basis during the life of the project and a final report is produced at the end of the project demonstrating the outcomes achieved. Since the Technology Strategy Board was established, it has also introduced post project evaluation at one year and five years after the end of the project, particularly to understand the economic impact. Due to the nature of the support provided by the Technology Strategy Board, the true impact of the project is often not known until a period of time after the project has completed.

The Technology Strategy Board has also produced a series of case studies demonstrating the successful outcomes of projects it has funded which are available on its website:

www.innovateuk.org

The Technology Strategy Board is currently undertaking work to further develop a framework to continue to develop and refine its metrics and impact measures to be able to understand at a more detailed level the impact of its activities. It is also working more broadly with NESTA, BIS and ESRC to develop an Innovation Index to measure UK innovation.

UK Innovation Fund

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 9 September 2009, *Official Report*, column 2093W, on the UK Innovation Fund, which budgets within his Department other than the Strategic Investment Fund he will draw on to accumulate the remaining £25 million for the UK Innovation Fund; and how much he will draw from each budget. [292175]

Mr. Lammy *[holding answer 14 October 2009]*: As a trading fund the Intellectual Property Office has built up retained earnings of around £55 million. The Department has identified these reserves as a source of the remaining £25 million funding for the UK Innovation Investment Fund. Drawing on these reserves as an equity withdrawal will enable the Department to invest in the fund whilst continuing to meet its other commitments.

HEALTH

Dementia

Miss McIntosh: To ask the Secretary of State for Health what his most recent estimate is of the number of people diagnosed with dementia; what assessment he has made of likely trends in numbers of dementia diagnoses to 2020; and if he will make a statement. [296369]

Phil Hope: The Department has not made a recent estimate of the likely number of people diagnosed with dementia. However, the Alzheimers Society's Dementia UK report, published in 2007 estimated that there were then 560,000 people in England with dementia and that numbers would rise to over 750,000 by 2020.

Dental Services: EC Nationals

Mr. Lansley: To ask the Secretary of State for Health what arrangements are in place to provide citizens of other EU countries with dental treatment if they are resident in the UK. [294354]

Ann Keen: Citizens of other European Union countries who are ordinarily resident in the United Kingdom may access the healthcare services, including dentistry, that are available to any UK resident.

Under European Community regulations, posted workers and their dependents from member states of the European economic area and Switzerland are entitled to access state-funded healthcare on production of form E106. State pensioners and their dependents registered on form E121, in accordance with the same regulations, access state-funded healthcare in the same way as someone ordinarily resident in the UK.

Departmental Telephone Services

Mr. Oaten: To ask the Secretary of State for Health how many helplines his Department operates; and how much his Department has received from the operation of such helplines in each of the last three years. [294981]

Phil Hope: The Department's Communications Directorate runs nine campaign-specific phone lines and there are an additional four campaign linked lines run by other parts of the Department.

No profit is made by the Department on calls to these lines.

Information on any other telephone services that may be run on behalf of the Department is not held centrally and cannot be provided except at disproportionate cost.

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Health how much his Department spent on overnight accommodation for *(a)* Ministers and *(b)* officials while overseas in each of the last three years. [294693]

Phil Hope: Providing information on the cost of accommodation overseas could be provided only at disproportionate costs.

Overseas trips undertaken by Ministers and costing more than £500 are published annually at:

www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

The list for 2008-09 was published on 16 July 2009. Travel by Ministers and civil servants is undertaken in accordance with the "Ministerial Code" and the "Civil Service Management Code" respectively.

Elderly Care

Miss McIntosh: To ask the Secretary of State for Health what estimate he has made of the number of people aged 85 years and over who have a disability or limiting long-term illness in *(a)* Vale of York constituency, *(b)* North Yorkshire and *(c)* England. [294571]

Phil Hope: Data on the number of people aged 85 years and over with a disability is not collected centrally, although information on the number of people receiving social services funded either fully or partially by Councils with Adult Social Services Responsibilities in England is collected and published by the NHS Information Centre for health and social care as part of the Referrals, Assessments and Packages of Care return.

During the period 1 April 2007 to 31 March 2008 the number of adults aged 65 and over with physical disabilities, frailty or a sensory impairment receiving a social care service funded either partly or wholly by their Councils with Adult Social Services Responsibilities following a community care assessment was in North Yorkshire 14,760 and in England 1,045,250. Data for the Vale of York is not available.

Information on the number of people over 85 who have a limiting long termed illness is also not available.

However, using general practitioner patient survey results, where people over 85 are reported to have one or more long standing conditions, together with population figures from the 2001 census, it is estimated that Yorkshire and Humber region (not North Yorkshire) has 75,000, Vale of York has 1,400, and England has 746,000 people aged 85 and over living with one or more long term condition.

Hospitals: Waiting Lists

Miss McIntosh: To ask the Secretary of State for Health what steps are taken to seek to ensure that notification of medical appointments reach patients before the appointment date; and whether he has made an assessment of the likely effects on arrangements for medical appointments of industrial action at national level among Royal Mail employees. [294578]

Gillian Merron: As part of the ongoing work of the national health service resilience project, the Department of Health and the national health service is aware the Communication Workers Union have announced plans for industrial action. As with similar national incidents, the Department of Health is working with the Cabinet Office and the Department for Business, Innovation and Skills as part of the cross-government response to this issue, and ensuring any impact on NHS services is fully understood by all concerned, and the NHS is putting in place appropriate contingency measures.

IVF

Miss McIntosh: To ask the Secretary of State for Health (1) whether he plans to increase the availability of fertility treatment at primary care trusts that do not currently provide funding for at least one full cycle of in vitro fertilisation; and if he will make a statement; [294437]

(2) what percentage of primary care trusts which provide funding for at least one full cycle of in vitro fertilisation do so for people within the recommended age range for treatment of between 23 and 39 years of age; [294438]

(3) which primary care trusts provide funding for one full cycle of in vitro fertilisation for women aged 39 years and six months only; [294439]

(4) what percentage of primary care trusts provide funding for people to receive *(a)* more than one full cycle of in vitro fertilisation (IVF), *(b)* one full cycle of IVF and *(c)* less than one full cycle of IVF; and if he will make a statement. [294440]

Gillian Merron: The provision of fertility treatment by primary care trusts (PCTs) is determined at local level. The Government support the clinical guidelines on the assessment and treatment for people with fertility problems produced by the National Institute for Health and Clinical Excellence (NICE), and has made it clear that PCTs are expected to move towards full implementation of the guideline. Many have already made firm progress (the number of PCTs offering three cycles of in vitro fertilisation (IVF) treatment has increased by 22 percentage points between 2007 and 2008) and others continue to develop their policies.

Responses to a survey carried out in early 2009 and published on the Department's website:

www.dh.gov.uk/en/Healthcare/Fertility/index.htm

in June 2009 showed that in 2008 50 per cent. of PCTs provided either two or three full cycles of IVF, with 25 per cent. providing one full cycle and 22 per cent. providing one fresh cycle. A copy has already been placed in the Library. The North Staffordshire PCT reported offering treatment in exceptional cases only. The North Yorkshire and York PCT is the only PCT providing funding for one cycle of IVF for women age 39 years and six months only. We understand that this was instituted as a temporary measure from 2007 pending a review of provision across the Yorkshire and the Humber Strategic Health Authority.

88 per cent. of PCTs offer IVF for eligible couples across the full NICE recommended range for treatment, i.e. where the woman is aged 23-39.

Mental Health Services

Mr. Lansley: To ask the Secretary of State for Health how many people in England he estimates are waiting for access to psychological therapies; and what the average waiting time for such treatment is. [294357]

Phil Hope: This information is not collected nationally although all services in the Improving Access to Psychological Therapies programme monitor times from assessment to treatment in their area as well as both health and social outcomes of patients.

NHS Direct: Ambulance Services

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the effects on the standards of patient care of integrating the services provided by NHS Direct and Ambulance Services; and if he will make a statement. [294325]

Mr. Mike O'Brien: The Department has not made an assessment on the effects on the standards of patient care of integrating the services provided by NHS Direct and Ambulance Services.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health whether *(a)* primary care trusts and *(b)* NHS trusts are required to make any financial returns to his Department other than those under the PFR3 and TFR3 data collections. [294359]

Mr. Mike O'Brien: Primary care trusts and national health service trusts are required to submit the following financial returns via the Financial Information Management System (FIMS), in addition to the PFR3 and TFR3 collections:

financial monitoring and accounts (FMA) forms;

programme budgeting (primary care trusts only);

FIMS(FHS)4 returns—General Medical Services (primary care trusts only);

FIMS(FHS)3 returns—General Ophthalmic Services (primary care trusts only); and

TFR6—ambulance services expenditure (ambulance trusts only).

Radiotherapy

Mr. Graham Stuart: To ask the Secretary of State for Health what assessment he has made of *(a)* levels of the availability of and *(b)* waiting times for stereotactic radiosurgery treatments for NHS patients. [293969]

Mr. Mike O'Brien: The Department has not made a specific assessment of levels of availability of stereotactic radiosurgery.

Latest available data showing the median time waited (days) for a finished admission episode for stereotactic radiosurgery on tissue of the brain carried are shown in the following table:

	Median time waited (days)
2006-07	21
2007-08	15

Notes:

A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. It should be noted that admissions do not represent the number of inpatients, as a person may have more than one admission within the year.

Source:

Hospital Episode Statistics, The NHS Information Centre for health and social care.

School Fruit and Vegetable Scheme

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* schools and *(b)* children have received free fruit and vegetables under the school fruit and vegetable scheme; how much fruit has been provided under the scheme; what account is taken of pupil absence rates in provision of fruit to schools under the scheme; how much the scheme has cost in each year of its operation; and if he will make a statement. [294326]

Gillian Merron: In the year to September 2009 the school fruit and vegetable scheme (SFVS) has distributed around 440 million pieces of fruit and vegetable each year to over two million children in over 16,300 schools. In April 2004 the Department took over the scheme from the Big Lottery Fund, and the funding for each year for figures available is as follows:

	£ million
2004-05	23.6
2005-06	37.4
2006-07	36.2
2007-08	36.9
2008-09	42.6

Every local education authority (LEA) has its own absenteeism rate, and the national health service supply chain, who runs the SFVS, applies this to the number of children eligible at schools within all LEAs and, where necessary, reduces the fruit delivery by this amount.

Swine Flu: Vaccination

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 12 October 2009, *Official Report*, column 765W, on swine flu, who will receive payment for giving housebound patients vaccinations; how much will be paid for each such vaccination; and from which budget. [294115]

Gillian Merron *[holding answer 19 October 2009]:* General practitioner practices will receive £5.25 for each dose of swine flu vaccination administered to patients on their registered list who fall into one or more of the clinically at-risk priority groups announced by the Chief Medical Officer on 13 August 2009. This includes housebound patients who are on their list. The price per dose reflects the overall cost practices will incur in vaccinating their at-risk patients. The Department will provide additional funding to cover the cost of vaccinating patients in these priority groups.

Tuberculosis: Screening

Dr. Naysmith: To ask the Secretary of State for Health (1) whether his Department has conducted recent research on the effectiveness of the port of entry screening programme for tuberculosis; [294331]

(2) what estimate he has made of the cost to his Department of operating the port of entry screening programme for tuberculosis in the last five years; [294350]

(3) how many cases of *(a)* active and *(b)* latent tuberculosis have been detected at port of entry screening for tuberculosis in the last five years. [294351]

Gillian Merron: The Department has not conducted research on the effectiveness of the port of entry screening programme for tuberculosis (TB).

The Department has not made an estimate of the cost of operating the port of entry screening programme for TB in the last five years.

The data on the number of cases on active and latent TB detected at port of entry screening in the last five years are not collected centrally.

The Health Protection Agency (HPA) receives data on cases classified as "possible active TB" from the Heathrow and Gatwick Health Control Units (HCUs) as reported on Port Form 103, which is how the medical inspector notifies the district to which the immigrant is going.

Data received by the HPA are shown in the following table:

	Number of PF 103 referrals	
Period	*Heathrow*[1]	*Gatwick*[2]
2004-05	n/a	15
2005-06	587	11
2006-07	590	16
2007-08	475	16
2008-09	421	1

Sources:

[1] Heathrow HCU annual report

[2] Gatwick HCU annual report

Wheelchairs

Mr. Oaten: To ask the Secretary of State for Health when he expects to respond to the consultation on wheelchair services undertaken as part of his Department's review of the care services efficiency delivery retail model. [294922]

Phil Hope: The Care Services Efficiency Delivery programme undertook consultation on wheelchair services as part of the process to help inform their recommendations for possible future models. There are no plans to provide a response to these consultations.

Discussions are ongoing within the Department on the future model for wheelchair services and stakeholder views are seen as key in the development of any new model of service provision. Officials will continue to involve all groups of wheelchair service users and their carers as required.

INTERNATIONAL DEVELOPMENT

Burma: Famine

Mr. Keith Simpson: To ask the Secretary of State for International Development what assessment he has made of the of the severity of the famine in Chin state in Burma; and what relief his Department is providing for those affected by the famine. [294537]

Mr. Michael Foster: Over the last two years, rat infestations have exacerbated chronic food shortages suffered by many people in Chin State. In September 2009, the World Food Programme (WFP) estimated that more than 19,000 households in 303 villages had been severely affected by the infestations. In response to the crisis, the Department for International Development (DFID) has approved funding of £880,000 towards emergency aid delivered through the United Nations Development Programme, WFP and their local partners. WFP estimates that by September, nearly 88,000 people had benefited from this aid. We are keeping the situation under close review.

We are also considering, in consultation with the United Nations and other donors, how best to address longer-term food security needs in Chin State and other parts of Burma.

Middle East: Peace Negotiations

Mr. Moore: To ask the Secretary of State for International Development pursuant to the answer of 28 January 2009, *Official Report*, column 611W, on the Middle East: peace negotiations, whether his Department plans to second further staff to support the Quartet's Special Envoy from January 2010; and if he will make a statement. [293782]

Mr. Douglas Alexander: The Department for International Development does not have plans to second further staff after January 2010.

Mr. Moore: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the work of the Quartet Special Envoy, Tony Blair on the development of the Palestinian Territories; and if he will make a statement. [294336]

Mr. Douglas Alexander: The Department for International Development (DFID) continues to support the work of the Quartet Representative, Tony Blair. He is making a strong contribution to Palestinian state building and economic growth which has been commended by the Ad Hoc Liaison Committee.

The Quartet Envoy's work to relieve movement and access restrictions by acting as a focal point for international lobbying on these issues has been particularly important. The recent decision by the Israeli Government to remove 35 obstacles in the West Bank has already cut some journey times by half; and the IMF has predicted that the West Bank may see economic growth of 7 per cent. in 2009 should these movement and access constraints continue to be lifted.

The Quartet Representative has also made significant progress in mobilising funding for development projects from Arab and Western donors and has played a leading role in the high level investment conferences that took place in London and Bethlehem in 2008.

News International and Monitor Group

Mr. Holloway: To ask the Secretary of State for International Development (1) whether any *(a)* Ministers and *(b)* officials in his Department have had (i) meetings with, (ii) communications from and (iii) other contacts with News International in the last five years; and what the subject matter of any contact was in each case; [295017]

(2) whether any *(a)* Ministers and *(b)* officials in his Department have had (i) meetings with, (ii) communications from and (iii) other contacts with the Monitor Group in the last five years; and what the subject matter of any contact was in each case. [295016]

Mr. Douglas Alexander: The requested information could not be provided without incurring disproportionate costs.

Pacific Ocean Islands: Overseas Aid

Andrew Rosindell: To ask the Secretary of State for International Development what aid his Department plans to send to victims of the recent tsunami and earthquakes in the South Pacific. [293829]

Mr. Thomas: The Department for International Development (DFID) has provided £100,000 to help address the immediate effects of the tsunami in Samoa. This was part of the co-ordinated international aid effort to support the Samoan Red Cross Society (SRCS).

The SRCS has opened five temporary shelter sites and is distributing clean water, first aid supplies, tarpaulins and other relief to those affected.

Tony Blair Faith Foundation

Mr. Moore: To ask the Secretary of State for International Development what funding his Department has provided to the Tony Blair Faith Foundation; for which events run by the Foundation his Department has provided sponsorship; and if he will make a statement. [293764]

Mr. Douglas Alexander: The Department for International Development (DFID) has not provided any funding directly to the Tony Blair Faith Foundation (TBFF).

We have provided £30,000 to World Vision, who are co-sponsoring a seminar series with the TBFF focusing on the theme of faiths in development. Oxfam and Islamic Relief have also contributed funds to the series. These seminars are taking place at the Royal Society of Arts in London from 7 September to 12 November.

Yemen: Overseas Aid

Mr. Hague: To ask the Secretary of State for International Development what estimate has been made of the number of people displaced by fighting in northern Yemen; and what assistance the Government are providing to Yemen for humanitarian relief. [293786]

Mr. Douglas Alexander: The United Nations (UN) estimates that as many as 150,000 people have now been displaced by the conflict in northern Yemen. Large numbers of these are women and children who are especially in need of protection and security.

On 9 October, the Department for International Development (DFID) announced £2 million for humanitarian aid to those who have been driven out of their homes by the ongoing fighting. This funding, delivered through the UN Flash Appeal, will be used to provide water, sanitation and hygiene services, food, health care, assistance to malnourished children, and shelter and relief items. It will also help to reduce immediate security and protection threats, and boost co-ordination within the humanitarian response effort.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Paul Holmes: To ask the Secretary of State for Children, Schools and Families which proposed academies *(a)* have been authorised to open and *(b)* have been the subject of applications to open since 2002; what the (i) location and (ii) proposed date of opening is of each such academy; who the sponsor is of each such academy; and whether each such acade[illegible]een designated as having a religious character. [295114]

Mr. Coaker: Information on Academies which have been authorised to open and have been the subject of applications to open since 2002 can be found on the Department's website at:

www.standards.dcsf.gov.uk/academies/projects

Care Homes: Security

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what recent representations he has received from local authorities on the physical security of vulnerable people in local authority care. [284348]

Mr. Bone: To ask the Secretary of State for Children, Schools and Families what recent representations he has received from local authorities on the physical security of vulnerable people in local authority care; and if he will make a statement. [284355]

Dawn Primarolo *[holding answer 7 July 2009]:* All children's homes must comply with regulations and national minimum standards. These require that premises must be fit and suitable for achieving the home's statement of purpose. Every home must be secure from unauthorised access. This could include, for example, using electronic surveillance to monitor those who enter and leave the premises or having ground floor windows that can be opened only part way.

Where a local authority looks after a child, including those that have been trafficked, then they are responsible for identifying a placement that will be appropriate to meeting their needs, including their need to be kept safe from any likely harm.

On 1 July 2009, we published new "Statutory Guidance on children who run away and go missing from home or care". This sets out the measures local authorities must take whenever a child that they look after goes missing from their care placement and includes specific information about managing support for especially vulnerable groups of looked after children—such as those asylum seeking children who may have been trafficked into the UK.

Children: Day Care

Ms Keeble: To ask the Secretary of State for Children, Schools and Families how many nursery nurses per head of population there were in Northamptonshire in each of the last 10 years. [293488]

Dawn Primarolo: These data are not available. However, national data on the numbers and characteristics of staff in the child care and early years work force are collected through the Childcare and Early Years Providers Survey. The latest survey to be published in the series is for 2008 and was published at the end of September 2009. This can be found at the following website address:

http://www.dcsf.gov.uk/research/programmeofresearch/projectinformation.cfm?projectId=14590&type=5&resultspage=1

Ms Keeble: To ask the Secretary of State for Children, Schools and Families how many nursery places per head of population there were in Northamptonshire in each of the last 10 years. [293489]

Dawn Primarolo: The Department publishes information on the part-time equivalent number of free early education places filled by three and four-year-olds in maintained, private, voluntary and independent providers. This is derived by counting children taking up 12 and a half hours per week as one place, 10 hours per week as 0.8 places, seven and a half hours per week as 0.6 places, five hours per week as 0.4 places and two and a half hours per week as 0.2 places. Table 1 shows the number of part-time equivalent places filled by three and four-year-olds in Northamptonshire local authority from 2000 to 2009.

Information on nursery school places per head of population has not been included. This is because data on places available are not collected; only data on places filled are available and as children can access their free entitlement across different local authority areas, part time equivalent places are not on a comparable basis with the local authority population figures. Population figures at this level of disaggregation are also not as reliable as at the national level.

Table 1: Part-time equivalent number of free early education places[1,2] filled by three[3] and four[3]-year-olds, local authority: Northamptonshire

Position in January each year	*Number of three and four-year-olds*
2000[4]	10,100
2001[4]	11,000
2002[5]	11,700
2003[6]	13,000
2004[6]	14,100
2005[6]	14,000
2006[6]	13,800
2007[6]	14,300
2008[6]	14,600
2009[6]	15,100

[1] A place is equal to five or more sessions and can be filled by more than one child.
[2] Figures are rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.
[3] Age of all children taken at 31 December in the previous calendar year.
[4] Headcount of children aged three and four from the Nursery Education Grant data collection exercise.
[5] Part-time equivalent number of three and four-year-olds from the Nursery Education Grant data collection exercise.
[6] Part-time equivalent number of three and four-year-olds from the Early Years Census and School Census.

Children: Social Services

John Hemming: To ask the Secretary of State for Children, Schools and Families if he will list serious case reviews which have been performed following the death of a child since 2005, citing only the month and year of the death, the local authority with jurisdiction and a reference code. [292358]

Dawn Primarolo: In April 2007 Ofsted assumed responsibility for the inspection of children's social care and local authorities became responsible for notifying Ofsted of serious incidents involving children. The Department for Children, Schools and Families (DCSF) developed a new database to hold information on such incidents, and data on the numbers of Serious Case Reviews (SCRs) following the notification of a death or serious injury of a child are available from 1 April 2007.

A previous parliamentary answer—23 February 2009, *Official Report*, column 442W—indicated that, of all notifications received between 1 April 2007 and 31 March 2008 of serious child care incidents, 89 SCRs had been initiated where a child died and abuse or neglect was known or suspected to be a factor.

Data currently held by the Department as at 8 October 2009 indicate that, of all notifications received between 1 April 2008 and 31 March 2009 of serious child care incidents, 75 SCRs had been initiated where a child died and abuse or neglect was known or suspected to be a factor.

A further three incidents are awaiting a decision. These figures are broken down by local authority in the following table along with the data from the previous parliamentary answer.

The decision about whether to undertake an SCR can change as more information about the case becomes available, for example, through inquests in to the cause of death. Therefore, the data given in this and the previous answer are likely to change slightly over time.

It is not possible to give information broken down by the date of death (by month) because this would significantly increase the risk that individual children and their families might be identified and could prejudice the interests and safety of children and their families.

[1] Information from previous parliamentary answer (Official Report 23 February 2009, column 442W

[2] There are three cases which await a decision)

Education Maintenance Allowance: Pay

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department spent on education maintenance allowance bonuses in 2008-09; and how much he expects his Department to spend in each of the next three years. [293406]

Mr. Iain Wright: In 2008-09 the total spent on all types of EMA bonus in England was £80,505,540.

The Learning and Skills Council's Annual Statement of Priorities, to be published later in the autumn, will set out total planned future expenditure for EMA and other learner support programmes.

Education: Young People

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on the 14-19 engagement programme in the latest year for which figures are available; and if he will make a statement. [293404]

Mr. Iain Wright: In the 2009/10 academic year, funds totalling £19,334,000 have been allocated to 142 local authorities to pilot the Key Stage 4 Engagement programme. Overall, this pilot programme will make provision for almost 28,000 learners who are, or at risk of becoming, disengaged from learning and who are not achieving as well as they should be.

Office of the Schools Adjudicator

Bob Russell: To ask the Secretary of State for Children, Schools and Families (1) what the operational cost of the Office of the Schools Adjudicator was in each financial year since its inception; and what it has been in 2009-10 to date; [295071]

(2) how many staff are employed in the Office of the Schools Adjudicator; [295072]

(3) how many objections to school closures have been referred to the Office of the Schools Adjudicator in each year since the Office was established; and how many of these were upheld; [295073]

(4) how many objections to school closures are before the Office of the Schools Adjudicator. [295074]

Ms Diana R. Johnson: The Office of the Schools Adjudicator's Annual report is expected from the Chief Schools Adjudicator on 2 November 2009. This will be a comprehensive report which will answer many of the questions asked which relate to this year.

The operational cost of the Office of the Schools Adjudicator is set out in the following table.

Financial year	*Operational cost (£)*
1999/2000	849,000
2000/01	797,000
2001/02	569,000
2002/03	432,000
2003/04	637,000
2004/05	689,00
2005/06	517,000
2006/07	605,000
2007/08	655,000
2008/09	756,000

This financial year (2009/10), the operational costs of the Office of the Schools Adjudicator has so far amounted to £295,000.

There are currently nine Adjudicators (including the Chief Schools Adjudicator), and seven full-time equivalent administrative staff working within the Office of the Schools Adjudicator.

Data on objections made to the Office of the Schools Adjudicator against a school closure is only available from 2008/09. In that year, four objections were referred to the Office of the Schools Adjudicator, none were upheld. No referrals have been made in the current year.

There are no objections to school closures currently before the Office of the Schools Adjudicator.

The Office of the Schools Adjudicator is currently dealing with three statutory proposal cases involving the closing of schools.

Bob Russell: To ask the Secretary of State for Children, Schools and Families when he last met the Schools Adjudicator to discuss the operation of the Office of the Schools Adjudicator; and if he will make a statement. [295075]

Ms Diana R. Johnson: The Chief Schools Adjudicator met the Secretary of State on his appointment to the post at the start of this year. Since then, the Chief Adjudicator has met with the Minister responsible for School Admissions on a bi-monthly basis.

The Chief Schools Adjudicator provides an Annual Report to the Secretary of State.

Parents: Advisory Services

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many calls there have been to the Parent Know How helpline in each month since it was established; what the cost of the helpline has been; and if he will make a statement. [293401]

Dawn Primarolo: Under our Parent Know How programme we are funding seven third sector organisations to provide helpline support for parents in England. There is not a separate single Parent Know How helpline. The funding for these helplines, for a three-year period, commenced on 1 April 2008. Management data, including the number of recorded calls made to the helplines, were collected on a quarterly basis in the first year (1 April 2008 to 31 March 2009). In the current year, we are now collecting this data on a monthly basis. The following table shows a breakdown of the number of recorded calls made to each helpline between 1 April 2008 and 30 September 2009.

2008-09: Recorded calls made

				Helpline			
	Advisory Centre for Education	*Contact a Family*	*Children's Legal Centre*	*Family Rights Group*	*Gingerbread*	*Parentline Plus*	*Young Minds*
Q1	33,395	4,361	4,978	6,498	2,544	47,033	2,502

September	3,578	1,428	2,066	1,562	1,019	12,768	914
Total	30,275	8,046	11,474	10,731	4,730	75,160	4,399
Overall total				144,815			

The third sector organisations each receive grant funding. The total grant funding claimed between 1 April 2008 and 30 September 2009 was £5,821,814.

Schools: Fire Extinguishers

Mr. Gordon Prentice: To ask the Secretary of State for Children, Schools and Families which schools built in each local education authority area in each of the last five years do not have a sprinkler system. [293689]

Mr. Coaker: We have the information requested for secondary schools procured within the Building Schools for the Future and Academies Programmes. We have placed a list of these new secondary schools in the House Libraries. The list will include the date the schools were completed and the local authority where they are situated. However, we do not hold such information for primary schools.

CABINET OFFICE

Public Services Forum Task Group

Mr. Hurd: To ask the Minister for the Cabinet Office pursuant to the answer of 2 February 2009, *Official Report*, column 943W, on the Public Services Forum Task Group, whether minutes are kept of the meetings of the Public Services Forum Task Group. [290170]

Tessa Jowell: The Public Services Forum Task Group came to an end in July 2008 when the Joint Statement on Access to Skills, Trade Unions and Advice was published. Minutes were kept of the Task Group's meetings.

TREASURY

Christmas

Mr. Prisk: To ask the Chancellor of the Exchequer how many Christmas functions arranged by his Department and its agencies *(a)* he, *(b)* officials of his Department and *(c)* officials of its agencies (i) hosted and (ii) attended in 2008; what the cost to the public purse was; and if he will make a statement. [295422]

Sarah McCarthy-Fry: The information requested is not available.

Corporation Tax

Miss McIntosh: To ask the Chancellor of the Exchequer what recent representations he has received on the headline rate of corporation tax. [294585]

Mr. Timms: The Government are committed to ensuring that the UK continues to have one of the most competitive corporate tax regimes in the world. The UK continues to have the lowest main rate of corporation tax in the G7.

Treasury Ministers and officials regularly receive representations on tax issues, including on the rate of corporation tax, from a variety of sources as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Council Tax: Valuation

Mrs. Spelman: To ask the Chancellor of the Exchequer what factors the Valuation Office Agency requires a bathroom in a dwelling to have to meet the bathroom classification under the council tax dwellinghouse coding system; and what classification is applied to a room with a toilet and sink only. [294515]

Ian Pearson: I refer the hon. Member to the Valuation Office Agency's Property Details Guide, which is available on its website at

www.voa.gov.uk

Crown Estates: Parliamentary Questions

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Peterborough of 6 May 2009, *Official Report*, column 178W, on trade unions, on what matters relating to the Crown Estate he takes responsibility for answering Parliamentary Questions. [294436]

Sarah McCarthy-Fry: The Crown Estate's role is defined by statute through The Crown Estate Act 1961. Treasury Ministers answer parliamentary questions on Crown Estate issues covering England, Wales and Northern Ireland, on the advice of the Crown Estate Office.

The Secretary of State for Scotland handles matters dealing with The Crown Estate in Scotland.

Housing: Valuation

Mrs. Spelman: To ask the Chancellor of the Exchequer whether a conservatory with a dwellinghouse coded D has a greater value weighting than a conservatory with a dwellinghouse codes under the Valuation Office Agency's automated valuation model. [294529]

Ian Pearson: A conservatory may add to value., depending on its size and quality.

Iraq Committee of Inquiry

Mr. Hague: To ask the Chancellor of the Exchequer (1) whether he has received a request to give evidence to the Chilcot Inquiry; [293562]

(2) how many *(a)* Ministers and *(b)* officials in his Department have received requests to give evidence to the Chilcot Inquiry; and if he will make a statement. [293565]

Sarah McCarthy-Fry: I refer the right hon. Gentleman to the answer given to him by the Prime Minister on 19 October 2009, *Official Report*, column 1210W.

Local Government: Assets

Mr. Spring: To ask the Chancellor of the Exchequer pursuant to the written ministerial statement of 12 October 2009, *Official Report*, columns 23-8WS, on sale of Government assets, whether any receipts of proposed sales of local authority assets will accrue to the Exchequer. [293673]

Mr. Byrne: Excepting certain receipts from the sale of housing land and dwellings that are required to be pooled centrally or surrendered, English local authorities are free to use capital receipts from asset sales to support capital investment, repay debt, invest to earn interest or any combination of these. The decision rests with the local authority concerned.

Non-domestic Rates: Valuation

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 13 May 2009, *Official Report*, column 848W, on council tax: valuation, what *(a)* property attributes and *(b)* geo-spatial factors were taken into account when reviewing the sub-location codes for the revaluation of non-domestic rates. [294442]

Ian Pearson: Sub-locations are codes used by the VOA to group properties with similar characteristics for non-domestic rating purposes. Regard is had to factual characteristics such as property type, quality and location or a combination. No maps are maintained.

Operational Efficiency Programme

Mark Pritchard: To ask the Chancellor of the Exchequer when he expects to report on the conclusions of Sir Gerry Grimstone's review of the operational efficiency of *(a)* the Defence Storage and Distribution Agency, *(b)* the Royal Mint and *(c)* the Land Registry. [293955]

Mr. Byrne: The "Operational Efficiency Programme: final report", published in April 2009 stated that there would be an update on the Gerry Grimstone's strand of the Operational Efficiency Programme at the 2009 pre-Budget report.

Private Finance Initiative: Costs

Mr. Sanders: To ask the Chancellor of the Exchequer what steps his Department is taking to reduce the costs associated with private finance initiatives. [294914]

Ian Pearson: HM Treasury provides a wide range of guidance and support to Departments and procuring authorities on managing the cost of private finance initiatives throughout the procurement cycle. This material is available on the Department's website at:

www.hm-treasury.gov.uk/ppp_guidance_index.htm

Tax Allowances: Fuel Oil

Mr. Boswell: To ask the Chancellor of the Exchequer (1) if he will consider introducing tax exemption for mineralogical processes which use recovered fuel oil; [294959]

(2) what the difference is in the tax treatment on the use of recovered fuel oil in the *(a)* steel, *(b)* electricity and *(c)* lime manufacturing industries; and if he will make a statement. [294960]

Sarah McCarthy-Fry: The Government keep all taxes under review. Any changes to tax policy are announced by the Chancellor as part of his Budget judgment in the normal Budget and pre-Budget report process.

Recovered fuel oil used in blast furnaces is not subject to fuel duty as the oil is being used as a chemical reductant rather than as a fuel. Fuels used to generate electricity are exempt from duty to avoid double taxation since electricity is subject to climate change levy. Recovered fuel oil used in the lime manufacturing industry is subject to duty at the same rate as fuel oil, the fuel for which it most commonly substitutes. This rate is 10.37p per litre.

Taxation: Betting

Mr. Ellwood: To ask the Chancellor of the Exchequer what plans he has to change tax arrangements for fixed odds betting terminals. [294865]

Sarah McCarthy-Fry: The Government are currently consulting on the taxation of gaming machines, including the taxation of fixed odds betting terminals. The consultation discusses whether the current system of amusement machine licence duty (AMLD) and VAT should be replaced with a gross profits tax (GPT).

The consultation ends on 23 October 2009, and can be found on the Treasury website:

http://www.hm-treasury.gov.uk/consult_gaming_machines_taxation.htm

Taxation: Gaming Machines

Mr. Gummer: To ask the Chancellor of the Exchequer (1) what recent discussions he has had with representatives of seaside towns on changes to the taxation of gaming machines; [295236]

(2) what recent representations he has received from residents of *(a)* seaside and *(b)* coastal district towns on changes to taxation on gaming machines. [295237]

Sarah McCarthy-Fry: Treasury Ministers and officials meet with a wide range of organisations and individuals in the public and private sectors as part of the usual policymaking process. As was the case with previous Administrations, it is not the Government's practice to provide details of all such discussions.

Once the consultation period has ended, the Government expect to publish a summary of responses received.

Mr. Gummer: To ask the Chancellor of the Exchequer what estimate he has made of *(a)* staff and *(b)* other costs arising from his Department's consultation on taxation of gaming machines. [295238]

Sarah McCarthy-Fry: A consultation stage impact assessment was published alongside the consultation on the taxation of gaming machines. This included estimates of the change in administrative burdens on businesses resulting from a move to a gross profits tax.

A final stage impact assessment will be published after the consultation has been completed, which will also include the costs to HMRC of enforcement relating to a gross profits tax regime.

Taxation: Holiday Accommodation

Lembit Öpik: To ask the Chancellor of the Exchequer (1) if he will assess the merits of raising the occupancy threshold for eligibility under the furnished holiday letting rules instead of abolishing those rules; [294433]

(2) if he will assess the merits of deferring the proposed abolition of the furnished holiday letting rules until April 2011 to enable further consultation; and if he will make a statement. [294434]

Mr. Timms: I refer the hon. Gentleman to the answer I gave the hon. Member for Angus (Mr. Weir) on 19 October, *Official Report*, column 1288W.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 16 September 2009, *Official Report*, columns 2287-88W, on the Valuation Office Agency, what action was taken against each individual reported to have been convicted. [294449]

Ian Pearson: The Valuation Office Agency received fewer than five reports of convictions and related offences from the Cabinet Office and the action taken against each individual was in accordance with the Valuation Office Agency's Conduct Policy depending on the severity of the offence. To provide further detail on such a small number of individuals might allow them to be identified and thus breach data protection rules.

Mrs. Spelman: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the *(a)* speeches, *(b)* presentations delivered and *(c)* handouts issued by the representative of the Valuation Office Agency at the Global Property Tax Management Conference in Berlin on 22 September 2008. [294530]

Ian Pearson: A copy of the presentations have been placed in the Library of the House.

Valuation Office: Cole Layer Trumble

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 21 May 2009, *Official Report*, column 1513W, on the Valuation Office: Cole Layer Trumble, how much money was paid by his Department to Cole Layer Trumble/Tyler Technologies in each of the last six years. [294369]

Ian Pearson: The following amounts have been paid on behalf of the Valuation Office Agency to Cole Layer Trumble/Tyler Technologies in each of the last six years:

	Total (£)
2003-04	589,195.00
2004-05	1,253,100.08
2005-06	1,334,182.61
2006-07	481,646.51
2007-08	54,806.57
2008-09	0.00

These figures exclude non-recoverable VAT.

Valuation Office: Digital Technology

Mrs. Spelman: To ask the Chancellor of the Exchequer whether the Valuation Office Agency has access to digital mapping facilities under the Pan-Government Agreement. [294519]

Ian Pearson: Yes.

Valuation Office: Information and Communications Technology

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Ludlow, of 14 September 2009, *Official Report*, column 2135W, on the Valuation Office: ICT, what the breakdown by category of expenditure was of the £6.7 million of expenditure on the automated valuation model since September 2005; and which Minister authorised that expenditure. [294445]

Ian Pearson: The breakdown of the £6.7 million expenditure is as follows:

Item	*£ (excluding VAT)*
IT development and consultancy	4,300,000
IT support costs	2,400,000
Total	6,700,000

This expenditure was originally approved by the former Minister for Local Government in 2005.

Valuation Office: Rightmove

Mrs. Spelman: To ask the Chancellor of the Exchequer what the duration of the contract between the Valuation Office Agency and HM Revenue and Customs and Rightmove.co.uk plc is; what the latest date is by which the Agency may exercise its right to extend the contract; and whether the contract will roll on if each party agrees. [294318]

Ian Pearson: An agreement to extend the contract extension was signed on 20 November 2008. I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 2 February 2009, *Official Report*, column 905W.

The contract will not roll on.

Valuation Office: Standards

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Ludlow of 16 September 2009, *Official Report*, column 2288W, on the Valuation Office Agency: publications, for what reasons the Agency did not meet its minimum target standards in each of the six process areas. [294448]

Ian Pearson: The external consultants who carried out the high level assessment advised that improvements were necessary in the six process areas to achieve an increasing profile against the target standards.

Publication of more detail in advance of those improvements being completed would represent an unjustified escalation of risk.

Valuation Office: Training

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 21 May 2009, *Official Report*, column 1513W, on the Valuation Office, and of 21 May 2009, *Official Report*, column 1514W, on the Valuation Office: training, if he will place in the Library an electronic copy of each of the 25 other e-learning programmes. [294368]

Ian Pearson: There are now 30 e-learning programmes available to all Valuation Office Agency staff. 24 of these programmes have been developed in-house (as listed). One of the programmes has already been placed in the Library and copies of the remaining 23 programmes will be deposited in CD Rom format as soon as it is possible to create the discs.

1. Address Application
2. Enquiry Handling and Appeals Direct
3. Basic English Skills Grammar and Punctuation
4. Code of Measuring Practice
5. Council Tax
6. Data Security
7. Digital Dictation
8. Dwelling-house Coding (a copy of this has already been deposited in the Library)

VAT

Peter Luff: To ask the Chancellor of the Exchequer pursuant to the written ministerial statement of 25 November 2008, *Official Report*, columns 46-47WS, on value added tax, whether he still plans to raise the rate of value added tax to 17.5 per cent. on 1 January 2010. [293960]

Mr. Timms: As originally announced in the 2008 pre-Budget report and confirmed in Budget 2009 and the Finance Act 2009, the standard rate of VAT will revert to 17.5 per cent. from midnight on 31 December 2009.

TREASURY

Tax Credit Office: Correspondence

James Duddridge: To ask the Chancellor of the Exchequer how long on average the Tax Credit Office took to respond to written queries in the latest period for which figures are available; and if he will make a statement. [282923]

[Official Report, 29 June 2009, Vol. 495, c. 24W.]

Letter of correction from Mr. Timms:

An error has been identified in the written answer given to the hon. Member for Rochford and Southend, East (James Duddridge) on 29 June 2009. The full answer given was as follows:

James Duddridge: To ask the Chancellor of the Exchequer how long on average the Tax Credit Office took to respond to written queries in the latest period for which figures are available; and if he will make a statement. [282923]

Mr. Timms: The information is not available.

The correct answer should have been:

Mr. Timms: The information is not available in the format requested.

For information about the time taken to provide a substantive response to tax credits complaints in 2008-09 I refer the hon. Member to the following table:

Response times to written complaints on tax credits by the Tax Credit Office in 2008-09

Cleared within	*Percentage clearance*	*Cumulative percentage*
Less than 1 week	3	3
1 to 2 weeks	14	16
2 to 3 weeks	18	34
3 to 4 weeks	14	48
4 to 5 weeks	11	59
Over 5 weeks	41	100

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Ellwood: To ask the Secretary of State for International Development what expenditure his Department has incurred in *(a)* Helmand Province and *(b)* elsewhere in Afghanistan in 2009-10 to date. [286922]

[Official Report, 15 July 2009, Vol. 496, c. 508W.]

Letter of correction from Michael Foster:

An error has been identified in the written answer given to the hon. Member for Bournemouth, East (Mr. Ellwood) on 15 July 2009. The full answer given was as follows:

Mr. Douglas Alexander: The budget for Helmand province in 2009-10 is £18 million and the rest of Afghanistan is £109.5 million. We anticipate spending our full combined budget of £127.5 million by the end of 2009-10.

The Department for International Development (DFID) publishes expenditure in its annual report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

The approved aid framework for DFID Afghanistan in 2009-10 is recorded in the 2009 annual report is £123.5 million. As noted in the annual report, this is only an indicative planning figure and we anticipate spending £127.5 million in 2009-10.

The figure in the annual report creates the potential for confusion and so we would like to amend the previous answer and replace it with the following:

Mr. Michael Foster: The current indicative budget for Helmand province in 2009-10 is £18 million and the rest of Afghanistan is £109.5 million. We anticipate spending a total of £127.5 million by the end of 2009-10.

The Department for International Development (DFID) publishes previous and planned expenditure in its annual report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Afghanistan: Overseas Aid

Mr. Ellwood: To ask the Secretary of State for International Development how much his Department spent on aid to Afghanistan in 2008-09; and what proportion of such aid was delivered directly in Helmand province. [289143]

[Official Report, 21 July 2009, Vol. 496, c. 1241W.]

Letter of correction from Michael Foster:

An error has been identified in the written answer given to the hon. Member for Bournemouth, East (Mr. Ellwood) on 21 July 2009. The full answer given was as follows:

Mr. Michael Foster: The Department for International Development (DFID) provided £143 million of support to Afghanistan in 2008-09 through its bilateral programme. Of this, we spent £21.9 million on growth, livelihoods and governance programmes directly in Helmand province.

DFID publishes expenditure in its Annual Report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

We stated that the amount of aid delivered directly in Helmand Province in 2008-09 was £21.9 million pounds. The quoted figure includes a £1.3 million project which was accidentally counted twice. The amount of aid delivered directly in Helmand Province in 2008-09 was therefore £20.6 million.

The correct answer should have been:

Mr. Michael Foster: The Department for International Development (DFID) provided £143 million of support to Afghanistan in 2008-09 through its bilateral programme. Of this, we spent £20.6 million on growth, livelihoods and governance programmes directly in Helmand province.

DFID publishes previous and planned expenditure in its Annual Report and the Statistics in International Development publication. These are available in the Library of the House and on the DFID website:

www.dfid.gov.uk

Ministerial Corrections

COMMUNITIES AND LOCAL GOVERNMENT

Non-Domestic Rates

Justine Greening: To ask the Secretary of State for Communities and Local Government how many *(a)* small and *(b)* large properties in each region will be subject to (i) an increase and (ii) a decrease in business rates of (A) zero, (B) one to five, (C) six to 10, (D) 11 to 15, (E) 16 to 20, (F) 21 to 30, (G) 31 to 40, (H) 41 to 50, (I) 51 to 100, (J) 101 to 200 and (K) over 200 per cent. before the application of transitional relief in 2010-11. [289906]

[Official Report, 12 October 2009, Vol. 497, c. 338-40W.]

Letter of correction from Rosie Winterton:

An error has been identified in the written answer given to the hon. Member for Putney (Justine Greening) on 12 October 2009. In the table entitled "Large Properties" the figures for London were misplaced.

The correct answer is as follows:

Large properties

	North East	*North West*	*North Yorkshire and the Humber West*	*East Midlands*	*West Midlands*	*East of England*	*London*	*South East*	*South West*
Less than -50%	[1]—	100	[1]—	[1]—	100	100	100	100	[1]—

More than 200% (excl.)	100	100	100	100	100	100	200	200	200

[1] Negligible (less than 50).

[2] 344 properties see no change in their business rates bill. All these properties have zero Rateable Value before and after the revaluation.

Note:

Figures rounded to the nearest hundred.

HEALTH

Departmental Rail Travel

Mr. Burstow: To ask the Secretary of State for Health how much his Department spent on first class rail travel for officials in each of the last three years; and if he will make a statement. [293333]

[Official Report, 19 October 2009, Vol. 497, c. 1261W.]

Letter of correction from Phil Hope:

An error has been identified in the written answer given to the hon. Member for Sutton and Cheam (Mr. Burstow) on 12 October 2009. Unfortunately the final figure for 2008-09 was incorrect.

The correct answer should have been:

Phil Hope: The Department has spent the following on first-class travel.

	£
2006-07	4,640,501.02
2007-08	4,977,335.59
2008-09	4,865,405.72

It should be noted that the above figures represent travel booked through the central booking system which constitutes the vast majority of how travel is booked and paid for.
